W86-06091 1912 7B

FRACTURE PERMEABILITY
Indicators of Ground Water Quality and Yield for a Public Water Supply in Rock Fracture Zones of the Piedmont.
W86-02654 1907 2F

Effects of Fracturing on Well Yields in the Coalfield Areas of Wise and Dickensen Counties, Southwestern Virginia,
W86-02900 1907 2F

Studies on Groundwater Transport in Fractured Crystalline Rock under Controlled Conditions Using Nonradioactive Tracers,
W86-03497 1909 2F

Dispersion in Fractal Fracture Networks,
W86-05230 1911 5B

Solutions for Radionuclide Transport From an Injection Well Into a Single Fracture in a Porous Formation,
W86-05431 1912 5B

Dependence of Effective Porosity on Fracture Continuity in Fractured Media,
W86-06167 1912 2F

FRACTURE ZONES
Evaluation of Electrical Resistivity Methods in the Investigation of Karstic Features, El Cajon Dam Site, Honduras,
W86-04747 1911 8E

FRAMVAREN FJORD
Partitioning and Transport of Metals Across the O2/H2S Interface in a Permanently Anoxic Basin: Framvaren Fjord, Norway,
W86-01396 1905 5B

FRANCE
Rapidity of RNA Synthesis in Human Cells; A Highly Sensitive Parameter for Water Cytotoxicity Evaluation,
W86-00052 1901 5A

Fluctuation in Nutrients during Tidal Cycles at Oyster Beds in the River Penze (North Finistere) (Fluctuations des Nutriments au cours de la Maree sur les parcs Ostreicoles de la Riviere Penze (Nord-Finistere)),
W86-00447 1902 2L

Mineral Salts and Tidal Cycles in an Estuary in North Brittany (Dourduff, France) (Sels Mineraux et Cycles de Marees dans un Estuaire de Bretagne Nord (Dourduff, France)),
W86-00530 1902 2L

Variations in the Amount of Organic Carbon (Dissolved and Particulate) in a Small Mediterranean Mountain Stream (Corsica) (Les Variations des Teneurs en Carbone Organique (Dissous et Particulaire) d'un Petit Torrent Mediterraneen Montagnard (Corse)),
W86-00918 1903 2H

Use of Aquatic Bryophytes to Monitor Heavy Metals Pollution of Freshwaters as Illustrated by Case Studies,
W86-00962 1904 7B

Radionuclide Content Measurement and Interpretation in Fish from the Upper Rhone River in France (Mesure et Interpretation des Teneurs en Radionucleides de Poissons du Haut-Rhone Francais),
W86-00970 1904 5A

Water Quality in an Estuarine Environment: Annual Cycle of the Physical and Chemical Parameters of the Water of the Loire Estuary (Qualite des eaux en milieu estuarien: Suivi annuel de criteres physiques et chimiques dans les eaux de l'estuaire de la Loire),
W86-01505 1905 2L

Solute Acquisition in Glacial Melt Waters. II. Argentiere (French Alps): Bulk Melt Waters with Open-System Characteristics,
W86-04352 1910 2C

Dissolved and Suspended Matter Transported by the Girou River (France): Mechanical and Chemical Erosion Rates in a Calcareous Molasse Basin,
W86-04387 1910 2J

Managing the Integration of Groundwater and Surface Water Resources: A Case Study of Supplying Potable Water to the Lille Metropolitan Area (Gestion Integree des Ressources en Eau Souterraine et Superficielle: le Case de l'Alimentation en Eau Potable de la Metropole Lilloise),
W86-05691 1912 6D

Quantitative Aspects for Determining Water Table Resources: Recent Applications in Brittany, France (Aspects Quantitatifs des Ressources en Eau en Region de Socle Methodes Appliquees au Cas de la Bretagne, en France),
W86-05708 1912 2F

Privatization of Water Systems in France,
W86-05872 1912 6E

FRANCIS TURBINES
Advantages of Turgo-Impulse Turbines in Micro-Hydel Units,
W86-01204 1904 8C

FRASER RIVER
Computer Simulations of the Fraser River Plume,
W86-01328 1905 2L

FREE MOISTURE
Determination of Moisture in Solids,
W86-00644 1903 2G

FREE OVER-FALL SPILLWAYS
Hydraulic Design of Free Over-Fall Spillway,
W86-01208 1904 8A

FREE RADICALS
Rate Constants of Reactions of Ozone with Organic and Inorganic Compounds in Water - III; Inorganic Compounds and Radicals,
W86-01641 1905 2K

FREE SURFACES
Characteristics of Free Surface Flow over Gravel Bed,
W86-05915 1912 2E

FREEZE-THAW TESTS
Frost Action in Soil Foundations and Control of Surface Structure Heaving,
W86-03317 1908 2C

FREEZING
Hydraulic Potential in Unfrozen Soil in Response to Diurnal Freezing and Thawing of the Soil Surface,
W86-00498 1902 2G

Closed-System Freezing of Soils in Linings and Earth Embankment Dams,
W86-03328 1908 8D

Closed-System Freezing of Soil in Earth Dams and Canals,
W86-04336 1910 8E

FREQUENCY ANALYSIS
Regional Frequency Analysis of Multiyear Droughts Using Watershed and Climatic Information,
W86-00025 1901 2A

Areal Intensity-Duration-Frequency Curves: A Possible Way of Improving the Rainfall Input,
W86-00095 1901 2B

Gazatteer of Hydrologic Characteristics of Streams in Massachusetts--Merrimack River Basin,
W86-02381 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Hudson River Basin,
W86-02416 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Coastal River Basins of the North Shore,
W86-02418 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Connecticut River Basin,
W86-02419 1906 7C

Synthesized Flood Frequency of Urban Streams in Alabama,
W86-02856 1907 4C

Magnitude and Frequency of Floods in Alabama,
W86-02857 1907 2E

Base-Flow Characteristics of Segments of the Piney River, and East and West Piney Rivers, Dickson and Hickman Counties, Tennessee,
W86-02910 1907 2E

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Coastal River Basins of the South Shore and Buzzards Bay,
W86-02962 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Thames River Basin,
W86-02963 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Blackstone River Basin,
W86-02965 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Housatonic River Basin,
W86-02966 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Taunton and Tenmile River Basins and Coastal River Basins of Mount Hope Bay, Narragansett Bay, and Rhode Island Sound,
W86-02976 1908 4A

Approach for Frequency Analysis of Multiyear Drought Durations,
W86-05212 1911 2A

Flood Frequency Analysis with Historical and Paleoflood Information,
W86-05225 1911 2E

Flood Frequency Analysis Using the Cox Regression Model,
W86-05248 1911 2E

Return Period Analysis of Extreme Rainfall Events,
W86-06137 1912 2B

FREQUENCY DISTRIBUTION
Statistical Analyses of Spatial and Temporal Storm Rainfall Characteristics in Puerto Rico,
W86-02675 1907 2B

FRESHWATER CRUSTACEA
Note on the Feasibility of Degradation of Phenol by Some Crustacean Larvae,
W86-05580 1912 5D

FRESHWATER FISH
Organochlorine Residues in Freshwater Fishes in Nigeria,
W86-05579 1912 5B

FRESHWATER MARSHES
Nitrogen Cycling in a Freshwater Marsh of Panicum Hemitomon on the Deltaic Plain of the Mississippi River,
W86-04698 1911 2H

FRESHWATER-SALTWATER INTERFACE
Ground-Water Hydrology of Volusia County, Florida, with Emphasis on Occurrence and Movement of Brackish Water,
W86-01932 1906 2F

FRIEDBURGER AU
Changes of Flora and Vegetation of the Calcareous Streams in the 'Friedberger Au' (near Augsburg) Between 1972 and 1982 Under Changing Pollution Conditions (Veranderungen von Flora und Vegetation in den kalkreichen Fliessgewassern der Friedberger Au (bei Augsburg) von 1972 bis 1982 unter veranderten Belastungsbedingungen),
W86-00524 1902 5C

FROGS
'Man and Biosphere' - Studies on the Sikkim Himalayas. Part 3: Acute Toxicity of Mixtures of Endrin and Calaxin on the Tadpole Larvae of the Frog Rana hexadactyla,
W86-00422 1902 5C

Some Observations on Hochstetter's Frog in the Catchment of the Motu River, East Cape,
W86-05197 1911 2H

FROST HEAVING
Frost Action in Soil Foundations and Control of Surface Structure Heaving,
W86-03317 1908 2C

FROST PROTECTION
Frost Action in Soil Foundations and Control of Surface Structure Heaving,
W86-03317 1908 2C

FROTH FLOTATION
Flotation Process Used for Calcium Carbonate Recovery from Water Treatment Sludges,
W86-02194 1906 5F

FROUDE NUMBER
Subdivision Froude Number,
W86-01094 1904 2E

Hydraulics of Two Flowing Layers with Different Densities,
W86-04714 1911 2E

FROZEN SEDIMENT
Thermoerosion of Frozen Sediment Under Wave Action,
W86-05504 1912 2J

FRUIT QUALITY CRITERIA
Comparison of Metabolic Inhibitors, Film-Forming Antitranspirants, and Microject Irrigation for Water Use Efficiency of Rabbiteye Blueberries,
W86-02433 1907 3D

FRY
Bioaccumulation of 14C-Hexachlorobenzene in Eggs and Fry of Japenese Medaka (Oryzias Latipes),
W86-05483 1912 5B

FUEL
Responses of Macrobenthos Colonizing Estuarine Sediments Contaminated with Drilling Mud Containing Diesel Oil,
W86-00730 1903 5C

FUEL OIL
Responses of Benthic Meiofauna to Long-Term, Low-Level Additions of No. 2 Fuel Oil,
W86-01124 1904 5C

FUEL REPROCESSING
Plant Response to Aqueous Effluents Derived from In Situ Fossil Fuel Processing Part III: Three Grass Species and Their Response to Omega 9 and to Five Produced Retort Waters; Oil Shale, Tar Sands and Underground Coal Gasification.
W86-03253 1908 5C

FUELS
Fate and Toxicity of High Density Missile Fuels RJ-5 and JP-9 in Aquatic Test Systems,
W86-01854 1905 5C

Energy Utilization and Management in Irrigation,
W86-02125 1906 3F

FULLERTON COVE
Meiofauna Associated with Mangroves in the Hunter River Estuary and Fullerton Cove, South-eastern Australia,
W86-00521 1902 2L

FULVIC ACID
Effects of Water Quality on Microporous Filter Methods for Enteric Virus Concentration,
W86-01191 1904 5A

Atrazine Hydrolysis in Soils: Catalysis by the Acidic Functional Groups of Fulvic Acid,
W86-01907 1905 5B

FULVIC ACIDS
Chlorination Products from Aquatic Humic Material at Neutral pH,
W86-02148 1906 5B

Fulvic Acid and Chlorinated Fulvic Acid in Water and Sediment: HPLC Fractionation and Spectroscopic Characterization,
W86-02149 1906 5B

Organic Reaction Products of Chlorine Dioxide and Natural Aquatic Fulvic Acids,
W86-02150 1906 5B

Volatile Ozonization Products of Aqueous Humic Material,
W86-04122 1910 5F

Description of the Aggregation Properties of Aquatic Pedogenic Fulvic Acids: Combining Physico-chemical Data and Microscopical Observations,
W86-04125 1910 2K

Precursor Size and Organic Halide Formation Rates in Raw and Coagulated Surface Waters,
W86-04646 1910 5F

Separation and Determination of Traces of Heavy Metals Complexed with Humic Substances in Fresh Waters by Sorption on Diethylaminoethyl-Sephadex A-25,
W86-05574 1912 5A

FUNCTIONAL ANALYSIS
Application of Functional Analysis to Optimization of a Variable Head Multireservoir Power System for Long-Term Regulation,
W86-05242 1911 8C

FUNDING
Barrier to Upgrading Funding,
W86-00797 1903 6C

Egypt Sewerage Fix Begins to Take Hold,
W86-05510 1912 5D

FUNGI
Microbial Assay for Determining the Influence of Physicochemical Environmental Factors on the Toxicity of Organics: Phenol,
W86-01407 1905 5C

Consideration of First-Stage Organic Overloading in Rotating Biological Contactor Design,
W86-04497 1910 5D

Microbe-Mediated Effects of Low pH on Availability of Detrital Energy to a Shredder, Clistoronia Magnifica (Trichoptera: Limnephilidae),
W86-05568 1912 2H

FUNGICIDES
Chlorinated Phenols as Contaminants of Soil and Water in the Vicinity of Two Finnish Sawmills,
W86-00387 1902 5B

FUNGUS
Heterotrophic Slimes in Irish Rivers, Evaluation of the Problem,
W86-00053 1901 5B

FUNKA BAY
Regeneration of Chemical Elements from Settling Particles Collected by Sediment Trap in Funka Bay, Japan,
W86-05814 1912 5B

FURANS
Nonaccumulation of Chlorinated Dioxins and Furans by Goldfish Exposed to Contaminated Sediment and Flyash,
W86-05485 1912 5B

FURROW COMPACTION
Furrow Compaction for Controlling Excessive Irrigation Water Intake,
W86-00475 1902 3F

Furrow Firming for Control of Irrigation Advance Rates,
W86-00480 1902 3F

FURROW IRRIGATION
Furrow Firming for Control of Irrigation Advance Rates,
W86-00480 1902 3F

Furrow Irrigation Simulation Time Reduction,
W86-01434 1905 3F

Dimensionless Formulation of Furrow Irrigation,
W86-05921 1912 3F

Sediment Transport in Shallow Flows,
W86-05970 1912 2J

FURROWS
Sediment Losses from Cropland Furrows of Different Gradients,
W86-00467 1902 2J

FUSE-PLUG SPILLWAYS
Design and Operation of a Fuse-Plug Spillway in Swaziland,
W86-01275 1904 8A

FUTURE PLANNING
Present and Prospective Use of Water by the Manufacturing Industries of New Jersey,
W86-00175 1901 6D

Trends in Drinking Water Treatment The Shape of Things to Come,
W86-00805 1903 5F

Water 2000, Volume IX: Plan Management Summary,
W86-03435 1909 6A

WATER 2000: Conservation Program.
W86-03445 1909 3D

Coastal Ecology and the Arctic Oil Industry: Some Elements for Future Oil-Spill Contingency Planning,
W86-04482 1910 5G

GABIONS
Channel Control Structures for Souris River, Minot, North Dakota: Hydraulic Model Investigation,
W86-00209 1901 8A

GAGES
Low Cost Hydrological Data Collection,
W86-03581 1909 7B

Installation and Operation of a Bubble Gauge Network in the Mahakam River Basin, East Kalimantan, Indonesia,
W86-04800 1911 7B

Measurement of Open Channel Flow by the Electromagnetic Gauge,
W86-04804 1911 7B

Hydrometric Data Capture Using Intelligent Solid State Logging Systems,
W86-04805 1911 7B

GAGING
Two Less Conventional Methods of Flow-Gauging,
W86-04798 1911 7B

Rising Air Float Technique for the Measurement of Stream Discharge,
W86-04799 1911 7B

Advanced Hydrologic Instrumentation Activities within the Water Resources Division of the US Geological Survey,
W86-04815 1911 7B

GAGING STATIONS
Evaluation of the Surface-Water Data Network, Suwannee River Basin, Florida, 1982,
W86-01936 1906 7A

Water-Resources Activities of the U.S. Geological Survey in Missouri, Fiscal Year 1985,
W86-02375 1906 7C

Pragmatic Approach to Evaluating a Multipurpose Stream-Gaging Network,
W86-02417 1906 7A

Cost-Effectiveness of the Stream-Gaging Program in Nebraska,
W86-02885 1907 7A

Cost-Effectiveness of the Stream-Gaging Program in North Carolina,
W86-02973 1908 7A

Stream-Gaging Program in Colorado,
W86-03057 1908 7B

Cost-Effectiveness of the Stream-Gaging Program in Orlando Subdistrict, Florida,
W86-03086 1908 2E

Stream-Gaging Program in South Dakota,
W86-03105 1908 7A

Drainage Areas in New Jersey: Atlantic Coastal Basins, South Amboy to Cape May,
W86-03178 1908 2E

GALLOWAY
Uptake and Release of Some Trace Metals by Aquatic Bryophytes in Acidified Waters in Scotland,
W86-01452 1905 7B

GAME THEORY
Cost Gap Method and Other Cost Allocation Methods for Multipurpose Water Projects,
W86-04543 1910 6C

GAMMA RADIATION
Distribution of gamma Exposure Rates In a Reactor Effluent Stream Flood Plain System,
W86-00821 1903 5B

Gamma Ray Attenuation Studies of Interception from Sitka Spruce: Some Evidence for an Additional Transport Mechanism,
W86-04204 1910 2I

GAMMA-RAY SPECTROMETRY
Measurement of Areal Water Equivalent of Snow by Natural Gamma Radiation - Experiences from Northern Sweden,
W86-05543 1912 2C

GAMMARUS
Gammarids in Streams of Northeastern Bavaria, F. R. G. I. Prediction of Their General Occurrence by Selected Hydrochemical Variables,
W86-01501 1905 2H

GANGA RIVER
Farakka - The Largest Barrage in the World - an Engineering Marvel,
W86-01211 1904 8A

GANGES RIVER
Ganges Basin Development: A Long-Term Problem and Some Short-Term Options,
W86-03964 1910 6E

GARHWAL
Studies on Riverine Ecology of Torrential Waters in the Uplands of the Garhwal Region, II. Seasonal Fluctuations in Diatom Density,
W86-00576 1902 2H

GARRISON DIVERSION PROJECT
North Dakota Garrison Diversion Project and International Environmental Law,
W86-01682 1905 6E

GAS CHROMATOGRAPHY
Refinery Wastewater Priority Pollutant Study - Sample Analysis and Evaluation of Data.
W86-00378 1902 5A

Extraction and Enrichment of Chlorinated Phenols from Surface Waters for the Determination by Capillary-GC/FTIR-Spectroscopy,
W86-00824 1903 5A

Gas Chromatographic Analysis of Purgeable Halocarbon and Aromatic Compounds in Drinking Water Using Two Detectors in Series,
W86-02176 1906 5A

Development of a System for the Identification of Oil Spills,
W86-03286 1908 5A

Dissolved Nitrogen Measurements at Clarks Hill Reservoir Georgia-South Carolina,
W86-03304 1908 8A

Simultaneous Determination of Total Organic Carbon and Total Nitrogen in Waters by Pyrolysis - Gas Chromatography - Mass Spectrometry,
W86-04129 1910 5A

Determination of Alkylethoxylated Sulfates in Wastewaters and Surface Waters,
W86-04430 1910 5A

Gas-Chromatographic Elemental Analysis via Di(Trifluorethyl)Dithiocarbamato Chelates IX. Optimization of the Capillary-Gas-Chromatographic Determination of Trace Metals,
W86-04708 1911 5A

Gas Chromatographic Evaluation of the Organic Components present in the Atmosphere at Trace Levels with the Aid of Carbopack B for Pre-Concentration of the Sample,
W86-04710 1911 5A

Bromination and Gas Chromatographic Determination of Micro Amounts of Acrolein in Rain Water,
W86-04711 1911 5A

Comparison of Direct Headspace and Aqueous Injection Techniques for Halogenated Hydrocarbons in Water,
W86-04712 1911 5A

Determination of Linear Alkylbenzenesulfonates in Sewage Sludge by High-Resolution Gas Chromatography/Mass Spectrometry,
W86-04721 1911 5A

Tire Fire Oil: Monitoring a New Environmental Pollutant,
W86-04979 1911 5A

Methyl Bromide in Surface Drinking Waters,
W86-05331 1911 5A

Gas Chromatographic Micromethod for Trace Determinations of Phenols,
W86-05945 1912 5A

Analysis of Explosives in Water by Capillary Gas Chromatography,
W86-05947 1912 5A

GAS EXCHANGE
Water Use Efficiency of Cassava. III. Influence of Air Humidity and Water Stress on Gas Exchange of Field Grown Cassava,
W86-00485 1902 2D

Investigation of CO2 Gas Exchange in a Convectively Mixed Layer,
W86-01808 1905 2H

GAS LIQUID CHROMATOGRAPHY
Study of the Trace Organics Profiles of Raw and Potable Water Systems,
W86-04382 1910 5F

GAS METABOLISM
Gas Metabolism Evidence in Support of the Juxtaposition of Hydrogen-Producing and Methanogenic Bacteria in Sewage Sludge and Lake Sediments,
W86-04665 1910 5C

GAS PRODUCTION
Performance Evaluation of the Anaerobic Fluidised Bed System: I. Substrate Utilisation and Gas Production,
W86-05940 1912 5D

GAS TURBINES
Gas Turbine Waste Heat Utilization for Distillation,
W86-01669 1905 3A

GASOLINE
Treatment Technology for Removal of Dissolved Gasoline Components from Ground Water,
W86-03311 1908 5D

GASTROENTERITIS
Waterborne Epidemic of Acute Infectious Nonbacterial Gastroenteritis in Alberta, Canada,
W86-01486 1905 5C

GATES
Barkley Dam Spillway Tainter Gate and Emergency Bulkheads, Cumberland River, Kentucky: Hydraulic Model Investigation,
W86-00284 1901 8C

Surge Flow Border Irrigation Using an Automatic Drop Gate,
W86-00481 1902 3F

Air Demand and Vibration Measurements, Wynoochee Dam, Wynoochee River, Washington,
W86-02002 1906 8B

Locks with Devices to Reduce Salt Intrusion,
W86-06115 1912 8A

GAUZE SWABS
Comparison of Gauze Swabs and Membrane Filters for Isolation of Campylobacter spp. from Surface Water,
W86-04666 1910 5A

GAZETTEER
Gazetteer of Surface-Mine Lakes, Eastern Interior Coal Province, Illinois,
W86-02831 1907 5A

GELS
Use of Different Physical Separation Techniques for Trace Element Speciation Studies in Natural Waters,
W86-03771 1909 2K

GENERALIZED SKEW COEFFICIENT
Generalized Skew Coefficient for Flood Frequency Computations for the State of Hawaii,
W86-03143 1908 2E

GENERATORS
Power from Mine Cooling Water,
W86-04703 1911 8C

GENETIC ENGINEERING
Ecological Consequence Assessment: Effects of Bioengineered Organisms,
W86-06011 1912 5B

GENOTOXICITY
Cytotoxicity/Genotoxicity: The Application of Cell Culture Techniques to the Measurement of Marine Sediment Pollution,
W86-01158 1904 5C

Genotoxic Activity of Particulate Material in Petroleum Refinery Effluents,
W86-01283 1904 5C

GEO FLOWMETER
Use of a Geo Flowmeter for the Determination of Ground Water Flow Direction,
W86-04213 1910 2F

GEOCHEMICAL DATA
Methods for the Collection of Geochemical Data from the Sediments of the Tidal Potomac River and Estuary, Including Data for 1978-1980 as an Appendix,
W86-01930 1906 2L

GEOCHEMISTRY
Karnes County, Texas, Area Hydrochemical and Stream Uranium Orientation Study,
W86-00194 1901 2K

Nickel Accumulation by Scenedesmus and Daphnia: Food-Chain Transport and Geochemical Implications,
W86-00607 1902 5B

Palaeolimnological Record of Human Disturbance from Harvey's Lake, Vermont: Geochemistry, Pigments and Diatoms,
W86-01122 1904 2H

CALDEP: A Regional Model for Soil CaCO3 (Caliche) Deposition in Southwestern Deserts,
W86-01426 1905 2G

Appropriate Monitoring Techniques Using Bomb Tritium and Other Geochemical Parameters in Hydrogeological Investigations,
W86-01445 1905 2F

Deciphering Hydrological Systems by Means of Geochemical Processes,
W86-01448 1905 2F

Geochemical Mass Balance of a Volcanic Crater Lake in Australia,
W86-01663 1905 2H

Biogeochemistry of Lead in McDonalds Branch Watershed, New Jersey Pine Barrens,
W86-01703 1905 5B

Biogeochemistry of Aluminum in McDonalds Branch Watershed, New Jersey Pine Barrens,
W86-01704 1905 5B

Chemical and Isotopic Characteristics of Brines from Three Oil- and Gas-Producing Formations in Eastern Ohio, with Applications to the Geochemical Tracing of Brine Sources,
W86-02365 1906 2K

Regional Aquifer-System Analysis of the Northern Great Plains in Parts of Montana, North Dakota, South Dakota, and Wyoming--Geochemical Evolution of Ground-Water Composition in Two Confined Aquifer Systems,
W86-02400 1906 2K

Acid Rain Buffering Potential in Oregon Cascade Lakes: Secondary Mineral Solubility Control of Solution Ionic Composition,
W86-02667 1907 5B

Quality of Water from Bedrock Aquifers in the South Carolina Piedmont,
W86-02823 1907 2K

Occurrence of Natural Radium-226 Radioactivity in Ground Water of Sarasota County, Florida,
W86-02861 1907 5B

Evaluation of Environmental Factors Affecting Major Dissolved-Ion Yields of Streams in the United States,
W86-02923 1908 5B

Water Quality of a Stream-Aquifer System, Southern Franklin County, Ohio,
W86-02931 1908 2K

Effect of Eustatic Sea-Level Changes on Saltwater-Freshwater Relations in the Northern Atlantic Coastal Plain,
W86-03010 1908 2F

Data from Pumping and Injection Tests and Chemical Sampling in the Geothermal Aquifer at Klamath Falls, Oregon,
W86-03169 1908 2F

Hydrochemical and Isotopic Content of Basalt Groundwaters Beneath the Hanford Site, Washington,
W86-03517 1909 2K

Occurrence and Distribution of Fluoride in Groundwaters of Kenya,
W86-03569 1909 2K

Role of Natural Organics on Water Interaction with Soil and Rock,
W86-03754 1909 2K

Hydrogeochemical Evolution and Variability of Groundwater in Experimental Basins of S. W. Western Australia,
W86-03757 1909 2F

Some Implication of the Role of Kinetics in Enhancing Element Transport,
W86-03760 1909 2K

Hydrochemical Processes in Groundwater Discharge Areas,
W86-03762 1909 2F

Reliability of Information in Hydrogeochemical Investigations,
W86-03769 1909 7A

Mass-Balance Approach to the Understanding of Geochemical Processes in Aqueous Systems,
W86-03773 1909 5B

Geochemical Studies in the Drainage Basin of the Rio Vouga (Portugal). I. General Hydrogeochemistry from Its Origin to the Ria de Aveiro,
W86-03776 1909 2K

Evaluation of the Intensity of Some Recent Exogenic Geological Processes in the U.S.S.R. by the Hydrogeochemical Balances Method,
W86-03777 1909 2K

Study of the Hydrochemical Regime and Its Long-Term Variations in the Case of Some Rivers in U.S.S.R.,
W86-03778 1909 2K

Saline Groundwater Discharges from Crystalline Rocks Near Thunder Bay, Ontario, Canada,
W86-03786 1909 2F

Isotope Techniques in the Hydrogeological Assessment of Potential Sites for the Disposal of High-Level Radioactive Wastes.
W86-03905 1910 5B

Contribution of Isotope Techniques in the Determination of the Relationship Surface Water/Groundwater in Bangladesh (Ganges and Brahmaputra areas),
W86-03969 1910 2A

Geochemical Investigations into Groundwater Potential Contaminants Resulting from Underground Coal Gasification (UCG),
W86-04058 1910 5B

Strontium and its Isotopes in Canadian Rivers: Fluxes and Global Implications,
W86-04348 1910 2K

Geochemistry of Suspended Particulate Matter in Two Natural Sedimentation Basins of the River Rhine,
W86-04547 1910 5B

Geochemistry and Deposition of (7)Be in River-Estuarine and Coastal Waters,
W86-05095 1911 2K

Biogeochemistry of PCBs in Interstitial Waters of a Coastal Marine Sediment,
W86-05292 1911 5B

Hydrology, Development, and Biogeochemistry of Ombrogenous Peat Bogs with Special Reference to Nutrient Relocation in a Western Newfoundland Bog,
W86-05350 1911 2H

Groundwater Transport of Strontium 90 in a Glacial Outwash Environment,
W86-05432 1912 5B

Limestone Influences on Physical and Chemical Features of a Mountain Stream,
W86-05442 1912 2K

Geochemical Control of (H+) in Lakes Receiving Acidic Deposition,
W86-05903 1912 2H

Geochemical Investigations of Three Tropical Karst Drainage Basins in Puerto Rico,
W86-06171 1912 2E

GEOGRAPHY

Analysis of the Effects of Orography on Surface Rainfall by a Parameterized Numerical Model,
W86-00023 1901 2B

Acid Rain: The International Response,
W86-05577 1912 6E

GEOHYDROLOGIC BOUNDARIES

Use of Electrical Resistivity Method to Study Vertical Hydrologic Boundaries in Wadi Sudr, Sinai Peninsula, Egypt,
W86-04097 1910 2F

GEOHYDROLOGIC SECTIONS

Geohydrologic Sections, Northern Louisiana,
W86-03083 1908 7C

GEOHYDROLOGIC UNITS

Illinois Ground-Water Observation Network - A Preliminary Planning Document,
W86-02355 1906 7A

Generalized Configuration of the Base of the High Plains Aquifer in Kansas,
W86-02791 1907 2F

Hydrogeologic Setting East of Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02871 1907 2F

Regional Geohydrology of the Northern Louisiana Salt-Dome Basin, Part II, Geohydrologic Maps of the Tertiary Aquifers and Related Confining Layers,
W86-02956 1908 2F

Compilation of Ground Water Quality Data in Pennsylvania,
W86-03026 1908 7C

GEOHYDROLOGY

Hydrogeological Prospecting Group and Types of Mineral Deposits Filled with Karst Water in China (in Chinese).
W86-00897 1903 2F

Comparison of Gaussian Conditional Mean and Kriging Estimation in the Geostatistical Solution of the Inverse Problem,
W86-01074 1904 2F

Gradient Controlled Caves, Trapper-Medicine Lodge Area, Bighorn Basin, Wyoming,
W86-01305 1904 2F

Appropriate Monitoring Techniques Using Bomb Tritium and Other Geochemical Parameters in Hydrogeological Investigations,
W86-01445 1905 2F

Deciphering Hydrological Systems by Means of Geochemical Processes,
W86-01448 1905 2F

Investigation of the Relation between Fissure Flow and Degree of Contact Area by an Electric Analogue Model,
W86-01477 1905 2F

Occurrrence of Beds of Low Hydraulic Conductivity in Surficial Deposits of Florida,
W86-01951 1906 2F

Development and Evaluation of Techniques for the Determination of the Ground-Water Potential in the Southern Orange Free State and Northern Cape Province; Volume 5: Statistics and Data Analysis,
W86-01993 1906 7C

Ground-water Monitoring at an Industrial Waste Disposal Site in Pennsylvania,
W86-02231 1906 5B

Hydrology of Area 60, Northern Great Plains and Rocky Mountain Coal Provinces, New Mexico, Colorado, Utah, and Arizona,
W86-02382 1906 2F

Hydrogeology of Deke Island, Pingelap Atoll, Eastern Caroline Islands,
W86-02625 1907 2F

Hydrology of the Southern Parts of Okaloosa and Walton Counties, Northwest Florida, with Special Emphasis on Upper Limestone of the Floridan Aquifer,
W86-02853 1907 2F

Geohydrology and Ground-Water Quality Monitoring Network for the Lower Mojave River Valley, California,
W86-02888 1907 2F

Ground Water in the Dickson Area of the Western Highland Rim of Tennessee,
W86-02901 1907 2F

Geohydrology of the Madison and Associated Aquifers in Parts of Montana, North Dakota, South Dakota, and Wyoming,
W86-02921 1908 2F

Geohydrology of the Valley Aquifer in the Cohocton Area, Upper Cohocton River, Steuben County, New York,
W86-02987 1908 7C

Groundwater Contamination and Emergency Response Guide,
W86-03457 1909 5G

Ground Water in Carbonate Rocks and Regolith in the Fairview Area, Tennessee,
W86-03548 1909 2F

African Groundwater Development-The Challenges for Hydrogeological Science,
W86-03563 1909 2F

Groundwater Resources in Tropical African Regoliths,
W86-03564 1909 2F

Character of Fractured Rock Aquifers in Eastern Botswana,
W86-03565 1909 2F

Some Critical Issues with Monitoring Crystalline Rock Aquifers for Groundwater Management in Rural Areas,
W86-03567 1909 2F

Characteristics of the Weathered Basement Aquifer in Malawi in Relation to Rural Water Supplies,
W86-03568 1909 2F

Electric Logs for Groundwater Exploration in the Niger Delta.
W86-03570 1909 2F

Water Resources Assessment Study in Kiambu District, Kenya,
W86-03571 1909 2F

Artificial Recharge of Groundwater Resources in Semiarid Regions,
W86-03572 1909 4B

Optimization of Conjunctive Use of Groundwater and Surface Water Resources in the Vaal Basin,
W86-03573 1909 4B

Isotope Studies as a Final Stage in Groundwater Investigations on the African Shield,
W86-03574 1909 2F

Isotopes in Groundwater Hydrology,
W86-03575 1909 2F

Environmental Isotope Hydrology in Southern Africa,
W86-03576 1909 2F

Groundwater Management by Means of a Quasi-Three-Dimensional Finite Element Flow Model,
W86-03577 1909 2F

Role of Modeling in the Development of African Groundwater Resources,
W86-03578 1909 2F

Gully Erosion in the Agulu-Nanka Region of Anambra State, Nigeria,
W86-03589 1909 2J

Consequence Assessment of Hydrological Communications through Borehole Plugs,
W86-03629 1909 5G

Hydrochemical Balances of Freshwater Systems: Proceedings of the Uppsala Symposium.
W86-03753 1909 5B

Role of Natural Organics on Water Interaction with Soil and Rock,

Some Hydrogeological Problems Related to Urban Water Supply Development in China,
W86-05653 1912 4B

Mathematical Model of Complex, Leaky, Multi-Aquifer Systems and Its Solution,
W86-05672 1912 2F

Groundwater Regime Forecasting with Inadequate Data in Argentina,
W86-05677 1912 4B

Hydrogeological Training in the USSR,
W86-06169 1912 9A

Strata-Movement Concepts and the Hydrogeological Impact of Underground Coal Mining,
W86-06175 1912 4C

GEOLOGIC CONTROL
Generalized Configuration of the Base of the High Plains Aquifer in Kansas,
W86-02791 1907 2F

GEOLOGIC FORMATIONS
Geology of the Surficial Aquifer System, Broward County, Florida,
W86-02383 1906 2F

Geology, Hydrology, and Water Quality of the Cambrian and Ordovician Systems in Northern Illinois,
W86-02414 1906 2F

Proposed Artificial Recharge Studies in Northern Qatar,
W86-03058 1908 2F

GEOLOGIC FRACTURES
Practical Method for Modeling Fluid and Heat Flow in Fractured Porous Media,
W86-01138 1904 2F

Surface and Groundwater Mixing and Identification of Local Recharge-Discharge Zones from Seasonal Fluctuations of Oxygen-18 in Groundwater in Fissured Rock,
W86-03790 1909 2F

Ground-Water Problems in the Mesozoic Pax Mountain Fault Zone,
W86-04282 1910 2F

Field Example of Measuring Hydrodynamic Dispersion in a Single Fracture,
W86-04314 1910 5B

Dispersion in Fractal Fracture Networks,
W86-05230 1911 5B

Dependence of Effective Porosity on Fracture Continuity in Fractured Media,
W86-06167 1912 2F

GEOLOGIC MAPPING
Generalized Thickness and Configuration of the Top of the Intermediate Aquifer, West-Central Florida,
W86-03137 1908 2F

GEOLOGIC MAPS
Map Showing Outcrops of Granitic Rocks, Basin and Range Province, Utah,
W86-01938 1906 8E

Map Showing Outcrops of Thick, Dominantly Argillaceous Sedimentary and Metasedimentary Rocks, Basin and Range Province, Arizona,
W86-01945 1906 8E

Map Showing Outcrops of Granitic Rocks, Basin and Range Province, Arizona,
W86-01946 1906 8E

Map Showing Outcrops of Pre-Quaternary Basaltic Rocks, Basin and Range Province, Arizona,
W86-01947 1906 8E

Map Showing Outcrops of Pre-Quaternary Ash-Flow Tuffs and Volcaniclastic Rocks, Basin and Range Province,
W86-01972 1906 8E

Map Showing Outcrops of Granitic Rocks and Pre-Quaternary Ash-Flow Tuffs, Basin and Range Province, Oregon,
W86-01973 1906 8E

Map Showing Outcrops of Pre-Quaternary Basaltic Rocks, Basin and Range Province, Oregon,
W86-01974 1906 8E

GEOLOGICAL CONTROL CLAYS
Geologic Control on Soil Composition and Properties, Lake Ojibway Clay Plain, Matagami, Quebec.
W86-05103 1911 2G

GEOLOGICAL FISSURES
Radionuclide Migration in Strongly Fissured Zones: The Sensitivity to Some Assumptions and Parameters,
W86-05436 1912 5B

GEOLOGICAL FORMATIONS
Combined Effect of Geology, Phosphate Sources and Runoff on Phosphate Export from Drainage Basin,
W86-01639 1905 5B

GEOLOGICAL FRACTURES
Investigation of the Relation between Fissure Flow and Degree of Contact Area by an Electric Analogue Model,
W86-01477 1905 2F

Study of the Hydrogeophysical Properties of Fissured Aquifers Using a Double Porosity Model,
W86-01478 1905 2F

Analysis of Some Laboratory Tracer Runs in Natural Fissures,
W86-01767 1905 2F

GEOLOGICAL MAPPING
Potential for Contamination of Shallow Aquifers in Illinois,
W86-00178 1901 5E

GEOLOGY
Geological Factors in Disposal Site Selection,
W86-02043 1906 5E

Geologic and Hydrologic Data Collected During 1976-1984 at the Sheffield Low-Level Radioactive-Waste Disposal Site and Adjacent Areas, Sheffield, Illinois,
W86-02372 1906 2E

Map Showing Outcrops of Ash-Flow Tuffs, Basin Range Province and Vicinity, Trans-Pecos Texas,
W86-02806 1907 8E

Geohydrology of the Northern Part of the Town of Brookhaven, Suffolk County, New York,

GILLS
Fish Gill Structural Changes Induced by Toxicants and Other Irritants: A Statistical Review,
W86-00602 1902 5C

Zinc Induced Lesions in the Gills of Rasbora daniconius neilgeriensis (Hamilton),
W86-01004 1904 5C

Pathomorphological Changes in Gills of Fish Fingerlings (Cirrhina mrigala) by Linear Alkyl Benzene Sulfonate,
W86-04357 1910 5C

Effects of Salmincola Californiensis (Copepoda: Lernaeopodidae) on the Gills of Farm-raised Rainbow Trout, Salmo gairdneri,
W86-06125 1912 8I

GIROU RIVER
Dissolved and Suspended Matter Transported by the Girou River (France): Mechanical and Chemical Erosion Rates in a Calcareous Molasse Basin.
W86-04387 1910 2J

GLACIAL AQUIFER
Hydrogeologic Setting East of Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02871 1907 2F

GLACIAL AQUIFERS
Hydrogeologic Reconnaissance of Stratified-Drift Aquifers Near Simsbury, Connecticut: Available Data and Future Needs,
W86-01967 1906 2K

Ground-Water Resources of the Mattapoisett River Aquifer, Plymouth County, Massachusetts: Summary for Water-Resource Managers,
W86-02874 1907 4B

Water Quality of a Stream-Aquifer System, Southern Franklin County, Ohio,
W86-02931 1908 2K

Ground-Water Resources of the Mattapoisett River Valley, Plymouth County, Massachusetts,
W86-03079 1908 2E

Hydrogeologic Appraisal of Five Selected Aquifers in Erie County, New York,
W86-03084 1908 2F

Glacial Aquifers Systems in the Northeastern United States--A Study Plan,
W86-03117 1908 2F

GLACIAL DRIFT
World Glacier Inventory Workshop: Proceedings of the Workshop at Riederalp, Switzerland,
W86-03673 1909 2C

Glaciers and Glaciolithic Systems of the Central Andes,
W86-03675 1909 2C

Glacier Inventory in the Dudh Kosi Region, East Nepal,
W86-03682 1909 2C

Distribution, Features and Variations of Glaciers in China,
W86-03684 1909 2C

Climatic Background to Some Glacier Fluctuations,
W86-03699 1909 2C

GLACIAL SEDIMENTS
Interaction Water-Silicate Minerals in the Unsaturated Zone Controlled by Thermodynamic Disequilibria,
W86-03756 1909 2K

Acid Neutralizing Capacity of Glacial Sediments in Western Ungava,
W66-04481 1910 5B

Groundwater Transport of Strontium 90 in a Glacial Outwash Environment,
W86-05432 1912 5B

GLACIAL SOILS
Hydrogeology of a Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02371 1906 2F

Geologic and Hydrologic Data Collected During 1976-1984 at the Sheffield Low-Level Radioactive-Waste Disposal Site and Adjacent Areas, Sheffiele, Illinois,
W86-02372 1906 2E

FY 1983 (South Dakota Water Resources Research Institute) Final Program Report,
W86-02628 1907 9D

GLACIAL STREAMS
World Glacier Inventory Workshop: Proceedings of the Workshop at Riederalp, Switzerland,
W86-03673 1909 2C

GLACIAL TILL
Characterizing Water Movement in the Weathered Zone of Glacial Tills Under Continuous Irrigation,
W86-02626 1907 2F

GLACIATION
Glacier Inventory in the Dudh Kosi Region, East Nepal,
W86-03682 1909 2C

Material for a Glacier Inventory of the Indus Drainage Basin - The Nanga Parbat Massif,
W86-03683 1909 2C

Present Glaciation in Turkey,
W86-03689 1909 2C

Mountain Glaciers in the Mediterranean Area and in Africa,
W86-03691 1909 2C

Use of the Data of Glacier Inventories for Compilation of the World Atlas of Snow and Ice Resources,
W86-03701 1909 2C

GLACIER BALANCE
World Glacier Inventory Workshop: Proceedings of the Workshop at Riederalp, Switzerland,
W86-03673 1909 2C

Glacier Inventory of Bolivia,
W86-03676 1909 2C

GLACIER LAKES
Natural Dams and Outburst Floods of the Karakoram Himalaya,
W86-05637 1912 2C

GLACIER MASS BALANCE
East-West and North-South Snow Line Gradients in the Northern Patagonian Andes, Argentina,
W86-03674 1909 2C

Glacier Inventory of Bolivia,
W86-03676 1909 2C

Hydrological Basins in West Greenland and Their Relationship to a Preliminary Sectorial Division of the Inland Ice Sheet,
W86-03678 1909 2C

Parameterization of Glacier Equilibrium Line Altitude,
W86-03696 1909 2C

Can the Linear Balance Model Be Extended to the Whole Alps,
W86-03697 1909 2C

Climatic Background to Some Glacier Fluctuations,
W86-03699 1909 2C

GLACIER SURGES
World Glacier Inventory Workshop: Proceedings of the Workshop at Riederalp, Switzerland,
W86-03673 1909 2C

Problems and Results of Studies of Mountain Glaciers in the Soviet Union,
W86-03686 1909 2C

GREAT GRIMSBY SEWAGE OUTFALL

Planning, Design and Construction of the Great Grimsby Sewage Outfall,
W86-05593 1912 8A

GREAT LAKES

Ecosystem Approach to the Toxicology of Residue Forming Xenobiotic Organic Substances in the Great Lakes,
W86-00237 1901 5B

Effects of Entrainment on Phytoplankton Primary Production at Four Thermal Electric Generating Stations on the Laurentian Great Lakes,
W86-01132 1904 5C

Machine Classification of Freshwater Ice Types from Landsat-1 Digital Data Using Ice Albedos as Training Sets,
W86-01288 1904 2C

Estimating the Extent of Reduction Needed to Statistically Demonstrate Reduced Non-Point Phosphorus Loading to Lake Erie,
W86-01343 1905 5G

Occurrence and Transport of Organic Macrocontaminants in the Duluth-Superior Harbor,
W86-01346 1905 5B

Effects of Contaminants on Toxicity of the Lampricides TFM and Bayer 73 to Three Species of Fish,
W86-01349 1905 5C

Time-Dependent Solution of Multi-Segment Mass Balance Models of Contaminants in the Great Lakes,
W86-01350 1905 5B

Survey of 2,3,7,8-Tetrachlorobidenzo-p-dioxin in Fish from the Great Lakes and Selected Michigan Rivers,
W86-01527 1905 5B

Contaminants in Fish from Great Lakes Harbors and Tributary Mouths,
W86-01891 1905 5B

Physical Behavior of PCBs in the Great Lakes,
W86-02012 1906 5A

PCBs in the Lake Superior Atmosphere 1978-1980,
W86-02018 1906 5A

Evidence for the Atmospheric Flux of Polychlorinated Biphenyls to Lake Superior,
W86-02020 1906 5B

PCBs in Sediment and Fluvial Suspended Solids in the Great Lakes,
W86-02025 1906 5B

Steady State Modeling of Toxic Chemicals-Theory and Application to PCBs in the Great Lakes and Saginaw Bay,
W86-02027 1906 5B

Model Simulation of PCB Dynamics in Lake Michigan,
W86-02028 1906 5A

Dynamic Mass Balance of PCB and Suspended Solids in Saginaw Bay -- A Case Study,
W86-02029 1906 5B

Monitoring of PCBs in Water, Sediments and Biota of the Great Lakes - Some Recent Examples,
W86-02030 1906 5A

2,3,7,8-Tetrachlorodibenzo-p-doxin and 2,3,7,8-Tetrachlorodibenzofuran Residues in Great Lakes Commercial and Sport Fish,
W86-02234 1906 5B

PCBs in the Great Lakes: Sources, Sinks, Burdens,
W86-02251 1906 5B

Satellite Observation of Great Lakes Ice: 1980-81,
W86-03258 1908 2C

Special Contribution, Managing the Great Lakes Basin as a Home,
W86-04524 1910 2H

Transboundary Toxic Pollution and the Drainage Basin Concept,
W86-06006 1912 5G

GREAT OUSE CHALK

Modelling Non-Point Sources of Nitrate Pollution of Groundwater in the Great Ouse Chalk, U.K.,
W86-01294 1904 5B

GREAT PLAINS

Regional Aquifer-System Analysis of the Northern Great Plains in Parts of Montana, North Dakota, South Dakota, and Wyoming--Freshwater Heads and Ground-Water Temperatures in Aquifers,
W86-02914 1907 2F

Correlations Between Nimbus-7 Scanning Multichannel Microwave Radiometer Data and an Antecedent Precipitation Index,
W86-05476 1912 2B

GREAT SALT LAKE

Tolerance to Cadmium and Cadmium-Binding in Great Salt Lake Brine Shrimp (Artemia Salina),
W86-05491 1912 5C

Recent Heavy Precipitation in the Vicinity of the Great Salt Lake: Just How Unusual,
W86-05550 1912 2H

Recent Heavy Precipitation in the Vicinity of the Great Salt Lake: Just How Unusual,
W86-06099 1912 2B

GREAT SOUTH BAY

Ammonium Excretion and Glutamate Dehydrogenase Activity of Zooplankton in Great South Bay, New York,
W86-05184 1911 2L

GREBES

Organochlorine Chemical Residues in White Pelicans and Western Grebes from the Klamath Basin, California,
W86-01409 1905 5C

GREECE

Radioactivity of Spas on the Greek Island Ikaria and Influencing Factors,
W86-04691 1911 2K

GREEN BAY

Machine Classification of Freshwater Ice Types from Landsat-1 Digital Data Using Ice Albedos as Training Sets,
W86-01288 1904 2C

Currents and Temperatures in Green Bay, Lake Michigan,
W86-01342 1905 2H

Contaminant Levels in Colonial Waterbirds from Green Bay and Lake Michigan, 1975-80,
W86-01885 1905 5C

GREEN FROG

Lead Concentrations in Bullfrog Rana Catesbeiana and Green Frog R. Clamitans Tadpoles Inhabiting Highway Drainages,
W86-05512 1912 5B

GREEN RIVER BASIN

Salinity Issues and Water Development in the Green River Basin, Wyoming,
W86-00783 1903 6E

GREENLAND

Hydrological Basins in West Greenland and Their Relationship to a Preliminary Sectorial Division of the Inland Ice Sheet,
W86-03678 1909 2C

West Greenland Outlet Glaciers: An Inventory of the Major Iceberg Producers,
W86-03679 1909 2C

GRIJALVA RIVER

Liquefaction of Fine Sand Due to Wave Action,
W86-01845 1905 8D

GROUND TRUTH DATA

Surface Soil Water Content Measurement Using Pulsed Nuclear Magnetic Resonance Techniques,
W86-00698 1903 2G

GROUND WATER

Detection of Subsurface Salinity Within the Northern Slopes Region of Victoria, Australia,
W86-02310 1906 7B

Effects of Hydraulic Borehole Mining on Ground Water at a Test Site in Northeast St. Johns County, Florida,
W86-03116 1908 4C

Water Resources Data, Florida Water Year 1982, Volume 1A: Northeast Florida Surface Water,
W86-03207 1908 7C

GROUND-WATER AVAILABILITY

Availability and Chemistry of Ground Water on the Bruneau Plateau, South-Central Idaho,
W86-01963 1906 2F

Hydrogeologic Reconnaissance of Stratified-Drift Aquifers Near Simsbury, Connecticut: Available Data and Future Needs,
W86-01967 1906 2K

GROUND-WATER LEVEL

Ground-Water Level Data and Preliminary Potentiometric-Surface Maps, Yucca Mountain and Vicinity, Nye County, Nevada,
W86-01964 1906 2F

GROUND WATER MANAGEMENT

Incentives for Industrial Conversion to Surface Water,
W86-02501 1907 6D

GROUNDNUT

Binding of Cadmium, Copper, and Lead Ions by Modified Cellulosic Materials,
W86-00692 1903 5D

GROUNDWATER

Chlorinated Organics in Simulated Groundwater Environments,
W86-00007 1901 5B

Hydrogeologic and Water-Quality Characteristics of the Mount Simon-Hinckley Aquifer, Southeast Minnesota,
W86-00109 1901 2K

Quality of Water, Quillayute River Basin, Washington,
W86-00111 1901 2K

Availability of Water from the Alluvial Aquifer in Part of the Green River Valley, King County, Washington,
W86-00126 1901 2F

Water Resources Data for Florida, Water Year 1981 Volume 1: Northeast Florida.
W86-00127 1901 7C

Water Resources Data for Colorado, Water Year 1982, Volume 2. Colorado River Basin above Dolores River,
W86-00128 1901 7C

Water Resources Data, North Dakota, Water Year 1981, Volume 1. Hudson Bay Basin.
W86-00129 1901 7C

Water Resources Data Hawaii, Other Pacific Areas, Water Year 1981. Volume 2. Guam, Northern Mariana Islands, Federated States of Micronesia, Palau Islands and American Samoa.
W86-00130 1901 7C

Karnes County, Texas, Area Hydrochemical and Stream Uranium Orientation Study,
W86-00194 1901 2K

Groundwater Management Strategy for Michigan: Draft Response and Incident Tracking Procedures.
W86-00362 1902 5G

Effect of Groundwater on Soil Formation in a Morainal Landscape in Saskatchewan,
W86-00670 1903 2F

Radiocarbon Dating of Groundwater in Tertiary Sediments of the Eastern Murray Basin,
W86-01036 1904 2F

Identification of Parameter Structure in Groundwater Inverse Problem,
W86-01078 1904 2F

Metal Concentrations in the Ground Water of the Ouchita Mountains, Arkansas, U.S.A.,
W86-01357 1905 5A

Groundwater in Water Resources Planning: Conjunctive Use,
W86-01375 1905 4B

Chemical Zonation in Groundwater of the Central Plains, Canterbury,
W86-01387 1905 5B

Deciphering Hydrological Systems by Means of Geochemical Processes,
W86-01448 1905 2F

Carbonate Chemistry of Recent Chalk Groundwater in a Part of East Anglia, U.K.,
W86-01470 1905 2F

222Rn Concentrations and Variations in Unconfined Groundwater,
W86-01658 1905 2K

Estimation of Safe Groundwater Yield with Consideration of Cyclic Variation of the Water Withdrawal Rate,
W86-01820 1905 2F

Ground-Water Resources of Towner County, North Dakota,
W86-01917 1905 2F

Leaching Study of Oil Shale in Kentucky with a Section on Hydrologic Reconnaissance of the Oil Shale Outcrop in Kentucky,
W86-01918 1905 5B

Ground-Water Quality in Wyoming,
W86-01919 1905 2K

Water Resources and Effects of Development in Hernando County, Florida,
W86-01931 1906 2A

Ground-Water Data for Michigan--1983,
W86-01950 1906 2F

Occurrrence of Beds of Low Hydraulic Conductivity in Surficial Deposits of Florida,
W86-01951 1906 2F

Hydrogeologic Data from Parts of the Denver Basin, Colorado,
W86-01952 1906 2F

Ground-Water Resources of Lanfair and Fenner Valleys and Vicinity, San Bernardino County, California,
W86-01955 1906 2F

January 1984 Water Levels, and Data Related to Water-Level Changes, Western and South-Central Kansas,
W86-01960 1906 2F

Assessment of Water Resources at Fort Carson Military Reservation Near Colorado Springs, Colorado,
W86-01969 1906 2E

Geochemical Processes in the Gascoyne Lignite Mining Area, Bowman County, North Dakota,
W86-01970 1906 5B

Surface Water Resources of South Africa; Volume I: Drainage Regions A, B-The Limpopo-Olifants System,
W86-01990 1906 2E

Surface Water Resources of South Africa; Volume IV: Drainage Regions E, G, H, J, K, L - The Western Cape,
W86-01997 1906 2E

Salinity in Watercourses and Reservoirs,
W86-02264 1906 5B

Skimming Well Model for Salinity Control,
W86-02285 1906 5G

Chemical Reactions Influencing Salinity Increase of Soil and Groundwaters in the Great Basin, Western United States,
W86-02311 1906 2K

Hand-pump Technology for the Development of Groundwater Resources,
W86-02327 1906 8C

Quality of Ground Water in the Principal Aquifers of Northeastern-North Central Washington,
W86-02345 1906 2K

Water Resources of the Rattlesnake Butte Area, a Site of Potential Lignite Mining in West-Central, North Dakota,
W86-02350 1906 2F

Evaluation of the Ground-Water Resources of Coastal Georgia: Preliminary Report on the Data Available as of July 1983,
W86-02352 1906 7C

Preliminary Study of the Aquifers of the Lower Mesilla Valley in Texas and New Mexico by Model Simulation,
W86-02353 1906 2F

Illinois Ground-Water Observation Network - A Preliminary Planning Document,
W86-02355 1906 7A

Ground-Water Conditions and Well Yields in Fractured Rocks, Southwestern Nevada County, California,
W86-02364 1906 2F

Maps Showing Ground-Water Units and Withdrawal, Basin and Range Province, Texas,
W86-02367 1906 7C

Hydrogeology of a Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02371 1906 2F

Geologic and Hydrologic Data Collected During 1976-1984 at the Sheffield Low-Level Radioactive-Waste Disposal Site and Adjacent Areas, Sheffiele, Illinois,
W86-02372 1906 2E

Ground-Water Data for Georgia, 1984,
W86-02376 1906 7C

Maps Showing Ground-Water Units and Withdrawal, Basin and Range Province, Nevada,
W86-02385 1906 7C

Maps Showing Ground-Water Units and Withdrawal, Basin and Range Province, Arizona,
W86-02386 1906 7C

Delineation and Description of a Zone of Higher Secondary Permeability in the Surficial Aquifer of Eastern Palm Beach County, Florida,
W86-02393 1906 2F

Aldicarb-Pesticide Contamination of Ground Water in Eastern Suffolk County, Long Island, New York,
W86-02394 1906 5B

Water-Resources Activities of the U.S. Geological Survey in Texas--Fiscal Years 1982-84,
W86-02396 1906 7C

Regional Aquifer-System Analysis of the Northern Great Plains in Parts of Montana, North Dakota, South Dakota, and Wyoming--Geochemical Evolution of Ground-Water Composition in Two Confined Aquifer Systems,
W86-02400 1906 2K

Progress Report on Black Mesa Monitoring Program-1984,
W86-02408 1906 2F

Geology, Hydrology, and Water Quality of the Cambrian and Ordovician Systems in Northern Illinois,
W86-02414 1906 2F

Utilization of Thermal Emittance Data to Monitor Soil Moisture and Subsurface Groundwater,
W86-02429 1907 2F

Nineteenth Annual Report Program Activities, October 1, 1982 - September 30, 1984, Maryland Water Resources Research Center,
W86-02502 1907 9D

Groundwater Problems in the Mid-Atlantic Fall-Line Cities,
W86-02574 1907 2F

District of Columbia Water Resources Research Center, FY 83 Institute Final Program Report,
W86-02576 1907 9D

Organic Contaminant Transport in Groundwater, Surface Water, and Surface Water Sediments. Year 1 Progress Report,
W86-02579 1907 5B

Aldicarb Studies in Groundwaters from Citrus Groves in Indian River County, Florida,
W86-02588 1907 5B

FY 1983 (South Dakota Water Resources Research Institute) Final Program Report,
W86-02628 1907 9D

Indicators of Ground Water Quality and Yield for a Public Water Supply in Rock Fracture Zones of the Piedmont.
W86-02654 1907 2F

Evaluation of Data Requirements for Groundwater Contaminant Transport Modeling,
W86-02723 1907 5B

Investigation of Pollution in a Karst Aquifer Utilizing Optical Brightener,
W86-02740 1907 5A

Fiscal Year 1984 Program Report (New York Water Resources Research Institute).
W86-02742 1907 9D

Fiscal Year 1984 Program Report (Colorado Water Resources Research Institute).
W86-02753 1907 9D

Water Resources of Aurora and Jerauld Counties, South Dakota,
W86-02763 1907 4B

Ground-Water System and Possible Effects of Underground Coal Mining in the Trail Mountain Area, Central Utah,
W86-02765 1907 4C

Water Resources Data for California, Water Year 1983, Volume 4. Northern California Valley Basins and the Great Basin from Honey Lake Basin to Oregon State Line,
W86-02771 1907 2E

Water Resources Data for California, 1983, Volume 3. Southern Central Valley Basins and the Great Basin from Walker River to Truckee River,
W86-02772 1907 2E

Water-Level Declines in the Magothy Aquifer in Southern Maryland Related to Increases in Pumpage,
W86-02781 1907 2F

Water-Quality Data for the Potomac-Raritan-Magothy Aquifer System in Southwestern New Jersey, 1923-83,

Rainfall-Recharge Correlation; A Method for Evaluating Potential Groundwater,
W86-05662 1912 2F

Mechanism of Vertical Water Movement in Kanto Loam During and After Rainfall,
W86-05663 1912 2G

Nonlinear Optimization for Aquifer Parameter Estimation with Inadequate Data,
W86-05664 1912 2F

Aquifer Demands Met from Storage or Recharge,
W86-05668 1912 2F

Groundwater Simulation Model for a Shallow Water Table Aquifer,
W86-05670 1912 4B

Groundwater Resources Development in India,
W86-05674 1912 4B

Effects of Insufficient Recharge for Aquifer Layers in Ain Beni Mathar (Oujda Province, East Morroco) (Alimentation Insuffisante des Couches Aquiferes et ses Consequences dans la Region d'Ain Beni Mathar (Province d'Oujda, Maroc Oriental)),
W86-05682 1912 4B

Prognostic Study of Water Levels for Evaluating the Hydrogeological Character of Shadnagar Basin, (A.P.), India,
W86-05695 1912 2F

New Tritium Interface Method for Determining the Recharge Rate of Deep Groundwater in the Bavarian Molasse Basin,
W86-05837 1912 2F

Abstraction and Recharge Well in Uniform Seepage,
W86-05986 1912 4B

Ground-Water Recharge and Its Effects on Nitrate Concentration Beneath a Manured Field Site in Pennsylvania,
W86-06172 1912 5B

GROUNDWATER RESERVOIRS

Ground-Water Reservoir Operation for Drought Management,
W86-01105 1904 4B

Biodegradation of Haloaromatic Substrates in a Shallow Anoxic Ground Water Aquifer,
W86-04050 1910 5D

GROUNDWATER RESOURCES

Stratigraphy and Sedimentary Facies of the Madison Limestone and Associated Rocks in Parts of Montana, Nebraska, North Dakota, South Dakota, Wyoming,
W86-00104 1901 2F

Isotopic Investigation of Groundwater Resources in the Ojo Alamo Sandstone, Nacimento, and San Jose Formations, San Juan Basin, New Mexico,
W86-02609 1907 2F

Ground-Water Resources and Potential Hydrologic Effects of Surface Coal Mining in the Northern Powder River Basin, Southeastern Montana,
W86-02841 1907 4C

Ground-Water Resources of the Mattapoisett River Aquifer, Plymouth County, Massachusetts: Summary for Water-Resource Managers,
W86-02874 1907 4B

GROUNDWATER RUNOFF

Riparian Losses of Nitrate from Agricultural Drainage Waters,
W86-04260 1910 5B

GROUNDWATER SEEPAGE

Parameter Identification in Layered Aquifer Systems,
W86-02524 1907 2F

GROUNDWATER SIMULATION

Regional Water Resources Simulation with Stream Aquifer Interaction, Sensitivity Analysis and Inverse Modelling,
W86-05696 1912 2F

GROUNDWATER STORAGE

Determination of Storage Characteristics and Dynamic Strata Parameters through Test Wells (Bestimmung von Speichereigenschaften und dynamischen Schichtparametern durch Testarbeiten),
W86-00587 1902 2F

Evaluation of Major Dike-Impounded Ground-Water Reservoirs, Island of Oahu, with a Section on Flow Hydraulics in Dike Tunnels in Hawaii,
W86-02407 1906 4B

Hydrogeologic Appraisal of a Stratified-Drift Aquifer Near Smyrna, Chenango County, New York,
W86-02793 1907 2F

Quantifying Groundwater Storage and Interaction in a Multi-Layered Alluvial Aquifer,
W86-04096 1910 2F

Aquifer Demands Met from Storage or Recharge,
W86-05668 1912 2F

GROUNDWATER SUPPLY

Re-Evaluating the Extent of Groundwater Contamination,
W86-00686 1903 5G

GROUNDWATER-SURFACE WATER RELATIONS

Water Resources of the Cottonwood Wash Watershed, Ute Mountain, Ute Indian Reservation, Southwestern Colorado,
W86-02404 1906 2E

GROUNDWATER-SURFACE-WATER RELATIONSHIPS

Hydrologic Setting of Mirror Lake, West Thornton, New Hampshire,
W86-02905 1907 2H

GROUNDWATER TREATMENT

Steam-Regenerated Activated Carbon: An Emission-Free, Cost-Effective Ground Water Treatment Process,
W86-04950 1911 5G

GROUNDWATER WITHDRAWAL

Possibilities and Limits of Hydrogeological Preservation of the Record in the Preliminary Stage of Larger Groundwater Withdrawals as Exemplified by the Nordheide Waterworks (Northern Lower Saxony),
W86-05680 1912 7B

GROUNDWATER WITHDRAWALS

Seismic Microactivity and Water Level Variation in Industrial Area near Florence (Italy),
W86-00632 1903 2F

GROUT-FILLED SAUSAGES

Use of Grout-Filled Sausages in Coastal Structures,
W86-05503 1912 8D

GROUTING

Modification of Bell Canyon Test (BCT) 1-FF Grout,
W86-00248 1901 8G

Grouting as a Remedial Technique for Buried Low-Level Radioactive Wastes,
W86-01712 1905 5G

GROWTH

Environmental Risk Assessment: The Potential Role of Microbial Effects Testing,
W86-00353 1902 5C

Cellular Mechanisms of Paraquat Toxicity,
W86-00356 1902 5C

Growth and Mortality of Fry of Lake Michigan Lake Trout During Chronic Exposure to PCB's and DDE,
W86-00366 1902 5C

Effects of Benthiocarb Herbicide on Growth of Planktonic Organisms, Chlorella saccharophila and Brachionus plicatilis,
W86-01146 1904 5C

Growth and Feeding Behaviour Responses of Largemouth Bass (Micropterus salmoides) Exposed to PCP,
W86-01157 1904 5C

Quantitative Structure Activity Relationships and Mixture Toxicity Studies of Alcohols and Chlorohydrocarbons: Effects on Growth of Daphnia magna,
W86-01160 1904 5C

Growth Rate of Yearling Colorado Squawfish at Different Water Temperatures,
W86-01169 1904 6G

Response of Groundwater Levels to Rainfall and to Leaf Growth of Farm Plantations Near Salt Seeps,
W86-01290 1904 2F

Factors Affecting Growth and Recruitment of Yellow perch, Perca flavescens Mitchill, in South Bay, Lake Huron,
W86-01508 1905 8I

Aldicarb Sulfoxide/Aldicarb Sulfone Mixture in Drinking Water of Rats: Effects on Growth and Acetylcholinesterase Activity,
W86-05537 1912 5C

Accumulation of Cadmium by White Suckers (Catostomus Commersoni) in Relation to fish Growth and Lake Acidification,
W86-05560 1912 5B

GROWTH KINETICS

Kinetic Model of Algal Growth Incorporating Intracellular Carbohydrate and Phosphorus Pools,
W86-05583 1912 2H

GROWTH RATES

Effect of Temperature on the Growth of Planktonic Larvae of Tellina tenuis da Costa,
W86-01603 1905 5C

Kinetics of Anaerobic Purification of Industrial Wastewater,
W86-04745 1911 5D

Comparison of Carbon-Specific Growth Rates and Rates of Cellular Increase of Phytoplankton in Large Limnetic Enclosures,
W86-05178 1911 2H

GRUA

Cr6+ Influence upon Ephemeroptera Larvae in a Pre-Alpine Torrent,
W86-00956 1904 5C

GRUNION

Comparative Acute Sensitivities of Early Life Stages of Atherinid Fishes to Chlorpyrifos and Thiobencarb,
W86-01408 1905 5C

GUAM

Comparative Laboratory Study of Sewage Treatment by a Capillary Siphon Trench System Versus a Conventional Leaching Trench System,
W86-02597 1907 5D

FY 1983 Final Report--State Water Resources Research Institute Program, University of Guam.
W86-02615 1907 9D

Hydrogeology of Deke Island, Pingelap Atoll, Eastern Caroline Islands,
W86-02625 1907 2F

Survey of Fena Reservoir, Island of Guam: Limnological Reconnaissance,
W86-03018 1908 2H

Reconnaissance Study of Stream Sedimentaion, Southern Guam,
W86-03112 1908 2J

GUIDELINES

Dispersant Use Guidelines for Federal Regions IX and X,
W86-04002 1910 5G

Environmental Impact Analysis in Water Pollution Control,
W86-05591 1912 5G

GULF COASTAL PLAIN

Planning Report for the Western Gulf Coast Regional Aquifer System Analysis, Gulf of Mexico Coastal Plain, United States,
W86-03069 1908 2F

GULF OF CARPENTARIA

Short-Term and Long-Term Influences on the Immigration of Postlarval Banana Prawns Penaeus merguiensis, Into a Mangrove Estuary of the Gulf of Carpentaria, Australia,
W86-01125 1904 2L

GULF OF MEXICO

Shoreline Evolution Along the Northern Coast of the Gulf of Mexico,
W86-01830 1905 2J

Proceedings: 2nd Annual Gulf of Mexico Information Transfer Meeting.
W86-03841 1909 10D

BEST COPY AVAILABLE

HEATED WATER
Surface Buoyant Jets in Steady and Reversing Crossflows,
W86-00014 1901 5B

Self-Similar Character of the Propagation of a Density Front in a Shallow Water Body,
W86-01807 1905 5A

HEAVY LAND
Drainage Coefficients for Heavy Land,
W86-01431 1905 2G

HEAVY METALS
Passage of Selected Heavy Metals From Sphaerotilus (Bacteria: Chlamydobacteriales) to Paramecium caudatum (Protozoa: Ciliata),
W86-00055 1901 5C

Heavy Metal Accumulation (Cd, Cu, Pb and Zn) by Smelt (Osmerus mordax) From the North Shore of the St Lawrence Estuary (Accumulation de Quelques Metaux Lourds (Cd, Cu, Pb Et Zn) Chez L'Eperlan (Osmerus mordax) Preleve Sur La Rive Nord De L'Estuaire du Saint-Laurent),
W86-00059 1901 5C

Assessment of Heavy Metals and PCB's at Selected Sludge Application Sites in Ontario,
W86-00102 1901 5A

Long-Term Impact of Dredged Material Disposal in Lake Erie off Ashtabula, Ohio,
W86-00162 1901 5C

Market Assessment and Technological Evaluation of the CPU-4000 Chemical Precipitation Unit,
W86-00386 1902 5D

Elimination and Recovery of Metal Ions from Wastewater - a Survey (Eliminierung und Ruckgewinnung von Metallionen aus Abwassern - eine Ubersicht),
W86-00410 1902 5D

Heavy Metal Content of Oyster, Blue Mussel and Growing Water in Hansan-Geoje Bay (in Korean),
W86-00454 1902 5C

Contents of Cd, Fe, Mn and Zn in the Tissue of Katelysia hiantina Collected from Tolo Harbour, an Almost Land-Locked Sea,
W86-00456 1902 5C

Heavy Metal Concentrations in Municipal Wastewater Treatment Plant Sludge,
W86-00726 1903 5B

Gold-Mining Effects on Heavy Metals in Streams, Circle Quadrangle, Alaska,
W86-00786 1903 5C

Hydrous Fe and Mn Oxides - Scavengers of Heavy Metals in the Aquatic Environment,
W86-00852 1903 5B

Effects of Municipal Sludge and Fertilizer on Heavy Metal Accumulation in Earthworms,
W86-00862 1903 5C

Heavy Metal in Isopods from the Supra-Littoral Zone on the Southern Shore of the Severn Estuary, UK,
W86-00865 1903 5B

Mercury in Sediment in Swedish Forest Lakes,
W86-00952 1904 5B

Multilevel Approach to the Assessment of Ecotoxicological Effects in a Heavy Metal Polluted Stream,
W86-00953 1904 5C

Characteristic Distribution of Chironomids in the Rivers Polluted with Heavy Metals,
W86-00954 1904 5C

Effects of Heavy Metals on Nitrification Studied with Chemostat Technique,
W86-00955 1904 5C

Use of Aquatic Bryophytes to Monitor Heavy Metals Pollution of Freshwaters as Illustrated by Case Studies,
W86-00962 1904 7B

Decontaminating Biological Sludge for Agricultural Use,
W86-01183 1904 5D

Fractionation of Heavy Metals in Sewage Sludges,
W86-01184 1904 5D

Factors Affecting the Adsorption of Complexed Heavy Metals on Hydrous Al2O3,
W86-01239 1904 5B

Multivariate Analysis of Water Contamination by Heavy Metals at Donana National Park,
W86-01286 1904 5B

Partitioning of Heavy Metals (Fe, Mn, Cd, Pb, Cu, Zn, Co, Ni and As) and P into Selective Chemical Fractions in Sediments from Lake Kojima (in Japanese),
W86-01362 1905 5B

Heavy Metal Occurrence and Geochemical Fractionation: The Relationships of Catchment Soils to Associated Estuarine Sediments,
W86-01454 1905 5B

Levels of Heavy Metals in the Tidal Elbe and its Estuary and the Heavy Metal Input into the Sea,
W86-01516 1905 5B

Corbicula fluminea (Mollusca: Pelecypoda) as a Biological Indicator of Heavy Metals in the Kanawha River, WV,
W86-01596 1905 7A

Biogeochemistry of Lead in McDonalds Branch Watershed, New Jersey Pine Barrens,

Effect of Atmospheric Pollution on the Outflow and Accumulation of Heavy Metals in the Drainage Basins of the Niepolomice Forest (Southern Poland),
W86-05889 1912 5B

Leaching Tests of Heavy Metals Stabilized with Portland Cement,
W86-05896 1912 5E

Heavy Metal Pollutant Tolerance of Azolla pinnata,
W86-05910 1912 5C

Use of Protozoan Communities to Predict Environmental Effects of Pollutants,
W86-06027 1912 5C

Effects of Heavy Metals Upon the Biological Wastewater Treatment Process,
W86-06046 1912 5D

Sources and Transport of Organochlorine Compounds and Heavy Metals into Waters of the National Park of Donana,
W86-06069 1912 5B

Microbial Accumulation of Heavy Metals in Wastewater Treatment Processes,
W86-06087 1912 5D

Statistical Analysis of Heavy Metal Concentrations from Lake Sediments,
W86-06088 1912 5B

Biological Availability of Nickel Arsenides: Cellular Response to Soluble Ni5As2,
W86-06120 1912 5B

Geochemical Factors Complicating the Use of Aufwuchs to Monitor Bioaccumulation of Arsenic, Cadmium, Chromium, Copper and Zinc,
W86-06157 1912 5B

HEBEI PLAIN
Dynamic Features of Cones of Influence of Deep Groundwater in the Heilonggang District of Hebei Plain,
W86-05661 1912 4B

HEILONGJIANG
Purification of Polluted Source Water with Ozonation and Biological Activated Carbon,
W86-01269 1904 5F

HEINSCHENWALDE
Evaluation of Long-Term Groundwater Level Measurements from the Heinschenwalde Groundwater Exploitation Area,
W86-05701 1912 4B

HELGRAMMITES
Low pH Tolerance Under Continuous-Flow Bioassay Conditions of Hellgrammite Larvae, Corydalus cornutus L. (Megaloptera: Corydalidae),
W86-01597 1905 5C

HELIUM
Helium Accumulation in Groundwater. II: A Model for the Accumulation of the Crustal 4He Degassing Flux,
W86-05291 1911 2F

HELMINTHS
Characteristics of Fish Helminth Fauna in Some Water Bodies of the North Dvina Basin under Conditions of an Altered Water Regime,
W86-01816 1905 2H

HEMLOCK
Needle Water Potential and Soil-to-Foliage Flow Resistance During Soil Drying: A Comparison of Douglas-fir, Western Hemlock, and Mountain Hemlock,
W86-01787 1905 2I

HEPATOCYTES
Studies on the Sequence of 2,6-Diisopropylnaphthalene Metabolite Formation Using Carp Hepatocyte,
W86-00879 1903 5C

HEPATOTOXICITY
Severe Hepatotoxicity Caused by the Tropical Cyanobacterium (Blue-Green Alga) Cylindrospermopsis raciborskii (Woloszynska) Seenaya and Subba Raju Isolated from a Domestic Water Supply Reservoir,
W86-05828 1912 5C

HERBICIDE RESIDUES
Herbicidal Residues and Environmental Effects from the Experimental Application of Two 2,4-D Formulations to Control Eurasian Watermilfoil,
W86-03327 1908 4A

HERBICIDES
Multiresidue Method for the Analysis and Verification of Several Herbicides in Water,
W86-00046 1901 5A

Release of Endothall from Aquathol Granular Aquatic Herbicide,
W86-00068 1901 5G

Improving Technology for Chemical Control of Aquatic Plants,
W86-00183 1901 4A

Proceedings, 16th Annual Meeting, Aquatic Plant Control Research Planning and Operations Review.
W86-00192 1901 4A

2,4-D Threshold Concentrations for Control of Eurasian Watermilfoil and Sago Pondweed,
W86-00208 1901 4A

Thin-layer Chromatographic Determination of Triazin Herbicides in Water (Dunnschichtchromatographische Bestimmung von Triazin-Herbiziden in Wasser),
W86-00396 1902 5A

Toxicity of the Herbicide 2,4-D-Na to Two Species of Freshwater Prawn of the Genus Macrobrachium,
W86-00413 1902 5C

Relative Toxicity of Phenoxy Herbicides on Lebistes (Poecilia) reticulatus (Peters),
W86-00577 1902 5C

Acute and Chronic Toxicity of Technical Picloram (4-amino-3,5,6-trichloropicolinic acid) to Daphnia magna Straus,
W86-00731 1903 5C

Percent Mortalities and LC50 Values for Selected Microcrustaceans Exposed to Treflan, Cutrine-plus, and MSMA Herbicides,
W86-00732 1903 5C

Effects of Benthiocarb Herbicide on Growth of Planktonic Organisms, Chlorella saccharophila and Brachionus plicatilis,
W86-01146 1904 5C

Investigations on Paraquat Toxicity in Fishes,
W86-01378 1905 5C

Acute Toxicity of Four Phenoxy Herbicides to Aquatic Organisms,
W86-01898 1905 5C

Hydrilla Management in North Carolina,
W86-02507 1907 2H

Rice Herbicides: Molinate (Ordram) and Thiobencarb (Bolero),
W86-03447 1909 5G

Behavior of Chlorophenoxy Herbicides During the Activated Sludge Treatment of Municipal Waste Water,
W86-04107 1910 5D

Comparison of Algal Assay Systems for Detecting Waterborne Herbicides and Metals,
W86-04114 1910 5A

Picloram Movement in an Appalachian Hardwood Forest Watershed,
W86-04421 1910 5B

Determination of the Carbamate Herbicide Propham by Synchronous Derivative Spectrofluorometry Following Fluorescamine Fluorogenic Labeling,
W86-04460 1910 5A

Studies on the Acute and Chronic Effect of a 2,4-D-containing herbicide (Dikonirt) on Eudiaptomus gracilis (G. O. Sars) (Crustacea, Copepoda),
W86-04652 1910 5C

Photodegradation of the Herbicide Glyphosate in Water,
W86-04961 1911 5D

Leaching of Herbicides Through Undisturbed Cores of a Structured Clay Soil,
W86-05125 1911 5B

Effects of Atrazine and 2,4-Dichlorophenoxyacetic Acid to the Population Density of Phyto- and Zooplankton in an Aquatic Outdoor System,
W86-05825 1912 5C

Cyanatryn: Degradation and Effectiveness in Controlling Aquatic Plants,
W86-05850 1912 5B

Persistence and Mutagenic Potential of Herbicide-derived Aniline Residues in Pond Water,
W86-05851 1912 5B

Note on the Characterization of an Estuarine Microbial Community Enriched with the Herbicide Fenuron,
W86-05939 1912 5B

HERRING

Turbidity Enhances Feeding Abilities of Larval Pacific Herring, Clupea harengus pallasi,
W86-00444 1902 2L

Mortality of Juvenile American Shad and Blueback Herring Passed through a Low-Head Kaplan Hydroelectric Turbine,
W86-01155 1904 8I

Chlorinated Hydrocarbons and Hatching Success in Baltic Herring Spring Spawners,
W86-01799 1905 5C

HETEROGENEITY

Velocity Effects on Dispersion in Porous Media with a Single Heterogeneity,
W86-05252 1911 5B

HETEROGENEOUS CULTURES

Biodegradation Pathway of o-Cresol by Heterogeneous Culture: Phenol Acclimated Activated Sludge,
W86-04578 1910 5D

HETEROTROPHIC BACTERIA

Seasonal Changes in the Distribution of Heterotrophic Bacteria in Kagoshima Bay,
W86-01147 1904 5B

Seasonal Changes in the Generic Composition of Heterotrophic Bacteria in Seawater of Kagoshima Bay (in Japanese),
W86-01148 1904 5B

Heterotrophic Bacteria in Water Distribution Systems. I. Spatial and Temporal Variation,
W86-01914 1905 5F

Abundance, Heterotrophic Activity and Taxonomy of Bacteria in a Stream Subject to Pollution by Chlorophenols, Nitrophenols and Phenoxyalkanoic Acids,
W86-04113 1910 5C

Enumeration and Identification of Heterotrophic Bacteria in Groundwater and in a Mountain Stream,
W86-05420 1912 2H

Characteristics of Dysgonic, Heterotrophic Bacteria from Drinking Water,
W86-05827 1912 5A

HETEROTROPHIC INDEX

Use of Protozoan Communities to Predict Environmental Effects of Pollutants,
W86-06027 1912 5C

HETEROTROPHIC SLIMES

Heterotrophic Slimes in Irish Rivers, Evaluation of the Problem,
W86-00053 1901 5B

HEXABROMOBENZENE

Hexabromobenzene and Its Debrominated Compounds in River and Estuary Sediments in Japan,
W86-04968 1911 5B

HEXACHLOROBENZENE

Bioaccumulation of 14C-Hexachlrobenzene in Eggs and Fry of Japenese Medaka (Oryzias Latipes),
W86-05483 1912 5B

HEXACHLOROBIPHENYL

Reversible and Resistant Component Model of Hexachlorobiphenyl Adsorption-Desorption Resuspension and Dilution,
W86-02017 1906 5A

HEXACHLOROBIPHENYLS

Diffusion and Partitioning of Hexachlorobiphenyl in Sediments,
W86-04424 1910 5B

HEXACHLOROCYCLOHEXANES

Monitoring of Polychlorinated Biphenyls (PCBs) and Hexchlorocyclohexanes (HCH) in Freshwater Using the Aquatic Moss Cinclidotus danubicus,
W86-01916 1905 5A

HEXAVALENT CHROMIUM

Reduction of Hexavalent Chromium in Water Samples Acidified for Preservation,
W86-01713 1905 5A

HIBBING

Utility Battles Iron and Manganese,
W86-00807 1903 5F

HIGH FLOW

Modification of the Relative Importance of the Carbon Balance in a Polluted Brook after a Period of Spate (Modification de l'Importance relative des flux de Carbone d'un Ruisseau Pollue Apres une Periode de Crue),
W86-00940 1904 5B

HIGH-HEAD STORAGE PLANTS

Power Conduits for High-Head Plants,
W86-01277 1904 8A

HIGH PLAINS

Can We Save the Ogallala,
W86-01737 1905 4B

Generalized Configuration of the Base of the High Plains Aquifer in Kansas,
W86-02791 1907 2F

Regional Aquifer-System Analysis of the High Plains Aquifer in Parts of Colorado, Kansas, Nebraska, New Mexico, Oklahoma, South Dakota, Texas, and Wyoming--Geohydrology,
W86-02850 1907 2F

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, 1980,
W86-02919 1907 7C

Geologic and Hydrologic Data from a Test-Drilling Program in the High Plains Areas of South Dakota, 1979-1980,
W86-03558 1909 2F

HIGH PLAINS AQUIFER

Generalized Potentiometric-Surface Map of the High Plains Aquifer in Wyoming, 1981,
W86-02795 1907 7C

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, Pre-1950,
W86-02807 1907 2F

HIGH RESOLUTION ANALYSIS

High Resolution PCB Analysis,
W86-02013 1906 5A

HIGH-VOLTAGE DIRECT CURRENT

Geophysical Techniques to Delineate Saturated Alluvial Zones for the Siting of HVDC Power Transmission Return Electrodes,
W86-04471 1910 2F

HIGHWAY CONSTRUCTION

Calculating Sediment Discharge from a Highway Construction Site in Central Pennsylvania,
W86-03102 1908 4C

HIGHWAY EFFECTS

Stormwater Runoff From Highways,
W86-01605 1905 5B

Floodflow Characteristics of Filbin Creek at Proposed Interstate Highway 526, North Charleston, SC,
W86-02969 1908 4C

Determining the Effectiveness of Highway Drainage Systems in Preventing Salt Contamination of Ground Water,
W86-03044 1908 5G

Salinity of Motorway Soils. I. Variation in Time and Between Regions in the Salinity of Soils on Central Reserves,
W86-06033 1912 5B

HIGHWAY RELOCATION

Effects of Relocating State Route 151 on the Flood Profiles of Conotton Creek and Its Tributaries Between Bowerston and Scio, Ohio,
W86-02872 1907 4C

HIGHWAYS

Chemical Composition of Highway Drainage Waters; I. Major Ions and Selected Trace Metals,
W86-00708 1903 5B

Chemical Composition of Highway Drainage Waters; II. Chemical Associations of Metals in the Suspended Sediment,
W86-00709 1903 5B

Chemical Composition of Highway Drainage Waters; III. Runoff Water Metal Speciation Characteristics,
W86-00710 1903 5B

Chronic Pollution of Intercity Motorway Runoff Waters,
W86-01250 1904 5B

Safety Treatment of Roadside Parallel-Drainage Structures,
W86-03250 1908 8A

CMA: An Alternative to Road Salt,
W86-04359 1910 5G

Lead Concentrations in Bullfrog Rana Catesbeiana and Green Frog R. Clamitans Tadpoles Inhabiting Highway Drainages,
W86-05512 1912 5B

Salinity of Motorway Soils. IV. Effects of Sodium Chloride on Some Native British Shrub Species, and the Possibility of Establishing Shrubs on the Central Reserves of Motorways,
W86-06036 1912 5B

Gravity Pressure Collection System Drains Viaduct,
W86-06044 1912 8A

HIGHWAYS EFFECTS

Salinity of Motorway Soils. II. Distance from the Carriageway and Other Sources of Local Variation in Salinity,
W86-06034 1912 5B

Salinity of Motorway Soils. III. Simulation of the Effects of Salt Usage and Rainfall on Sodium and Chloride Concentrations in the Soil of Central Reserves,
W86-06035 1912 5B

HIMALAYAS

Problems and Prospects of Power Evacuation Management from Hydro Station in Himalayan Ranges,
W86-01205 1904 8C

Some Problems of Glacier Inventory in the Himalayas,
W86-03680 1909 2C

Present and Late Pleistocene Equilibrium Line Altitudes in the Mt Everest Region - An Application of the Glacier Inventory,
W86-03681 1909 2C

HISTORIC FLOODS

Preliminary Investigation of Flow Characteristics of the Alabama River Upstream from Selma, Alabama,
W86-03077 1908 2E

Flood Frequency Analysis with Historical and Paleoflood Information,
W86-05225 1911 2E

HISTORICAL SHORELINE

Historical Changes to Lake Washington and Route of the Lake Washington Ship Canal, King County, Washington,
W86-00105 1901 2H

HISTORY

Historical Changes in Submerged Macrophyte Communities of Upper Chesapeake Bay,
W86-00828 1903 2H

Assessment of Ecological Changes During the Recent History of Lake Ontario Based on Siliceous Algal Microfossils Preserved in the Sediments,
W86-01110 1904 2H

Amsterdam Water Supply,
W86-01260 1904 5F

Sadd-el-Kafara: the World's Oldest Large Dam,
W86-01693 1905 8A

Indian Land Use and Occupancy in the Franklin D. Roosevelt Lake Area of Washington State,
W86-01992 1906 6G

Origin and Distribution of Sulfate in a Fractured Till in Southern Alberta, Canada,
W86-04160 1910 2K

HOLLAND

Organic Micropollutants in Dutch Coastal Waters,
W86-05359 1911 5B

HOLLOW DAMS

Itaipu, South America's Grande Dame,
W86-00886 1903 8A

HOLLOW-STEM AUGER

Installation of Observation Wells on Hazardous Waste Sites in Kansas Using a Hollow-Stem Auger,
W86-04474 1910 7B

HOMOGENOUS MEDIA

Dispersion in Anisotropic, Homogeneous, Porous Media,
W86-00015 1901 2F

HONDURAS

Vortex Tower for the El Cajon Spillway Intake,
W86-01689 1905 8B

HONDURAS *ELECTRODE ARRAYS

Evaluation of Electrical Resistivity Methods in the Investigation of Karstic Features, El Cajon Dam Site, Honduras,
W86-04747 1911 8E

HONG KONG

Contents of Cd, Fe, Mn and Zn in the Tissue of Katelysia hiantina Collected from Tolo Harbour, an Almost Land-Locked Sea,
W86-00456 1902 5C

Organochlorines and Trace Metals in Green-Lipped Mussels Perna viridis from Hong Kong Waters: A Test of Indicator Ability,
W86-01514 1905 5A

HONSHU ISLAND

Chemical Components in the Precipitation at Komoro and Tsukuba, Japan in 1983,
W86-00810 1903 5B

HOOGHLY ESTUARY

Steady State and Time-Varying Water Quality Models for the Hooghly Estuary, India,
W86-05378 1911 5B

HOPI INDIAN RESERVATION

Progress Report on Black Mesa Monitoring Program-1984,
W86-02408 1906 2F

HORNWORT

Sorptive Capacity of an Aquatic Macrophyte for the Pesticide Aminocarb,
W86-00812 1903 5A

HORTICULTURE

Evaluating Maturity and Metal Transfer of MSW Compost,
W86-04972 1911 5E

HOT SPRINGS

Hydrogen and Oxygen Isotope Geochemistry of Cold and Warm Springs from the Tuscarora, Nevada Thermal Area,
W86-03308 1908 2K

Isolation of Legionella pneumophila from Canadian Hot Springs,
W86-05450 1912 5A

HOUSATONIC RIVER

Distribution of Polychlorinated Biphenyls in the Housatonic River and Adjacent Aquifer, Massachusetts,
W86-03093 1908 5B

HOUSTON

Hydrologic Data for Urban Studies in the Houston, Texas, Metropolitan Area, 1982,
W86-03106 1908 7C

Simplicity is Mark of Pump Station in the Round,
W86-05120 1911 8C

Houston Opts for Water Plant Expansion,
W86-06048 1912 5F

HUBBARD BROOK EXPERIMENTAL FOREST

Aluminum Mobilization in an Acidic Headwater Stream: Temporal Variation and Mineral Dissolution Disequilibria,
W86-01678 1905 5C

HUDSON RIVER

Tetrachlorodibenzo-p-dioxins and Tetrachlorodibenzofurans in Atlantic Coast Striped Bass and in Hudson River Fish, Waterfowl and Sediments,
W86-00388 1902 5B

PCBs in Striped Bass Collected from the Hudson River, New York, During Fall, 1981,
W86-00695 1903 5C

Environmental Impact Assessment of the PCB Problem: A Review,
W86-01553 1905 5B

Hudson River PCB Relationships Between Resident Fish, Water and Sediment,
W86-01554 1905 5C

PCBs: Dietary Dose and Burdens in Striped Bass From the Hudson River,
W86-01555 1905 5C

Polychlorinated Biphenyls in the Hudson River: The Value of Individual Packed-Column Peak Analysis,
W86-01556 1905 5A

PCB Transformations in Upper Hudson Sediments,
W86-01557 1905 5B

Persistence of PCB Components in Sediments of the Lower Hudson,
W86-01558 1905 5B

Characteristics of Suspended Sediment Transport in the Lower Hudson River,
W86-01559 1905 2J

Transport of PCB in Hudson River Bedload Sediments,
W86-01560 1905 5B

Trends in PCB Transport in the Upper Hudson River,
W86-01561 1905 5B

PCB Transport in the Ft. Edward Area,
W86-01562 1905 5B

Management of Contaminated Dredged Material from the Hudson River,
W86-01564 1905 5G

Origin of High Cadmium Concentrations in Hudson River Blue Crab (Callinectes sapidus Rathbun),
W86-01565 1905 5C

Polychlorinated Biphenyls in the Hudson River,
W86-01616 1905 5B

HUIZACHE-CAIMANERO LAGOON SYSTEM
Organochlorine Hydrocarbon Residues in Sediments of Two Different Lagoons of Northwest Mexico,
W86-01899 1905 5B

HUMAN BLOOD
Environmentally Significant Volatile Organic Pollutants in Human Blood,
W86-05478 1912 5A

HUMAN CONSUMPTION
Relation Between Drinking Water Nitrate and Total Nitrate Intake,
W86-05149 1911 5G

HUMAN DISEASES
Giardiasis in Washington State,
W86-03507 1909 5C

Summary of Waterborne Illness Transmitted through Contaminated Groundwater,
W86-04610 1910 5C

Health Risks Associated with Wastewater Irrigation: An Epidemiological Study,
W86-06079 1912 5C

HUMAN POPULATION
Water into the 1990's: The Problems of the Desert Biome,
W86-05588 1912 6G

HUMAS
Relationships Between the Swelling of Some Soils and Specific Surface Categories and the Energetics of Soil Moisture,
W86-04552 1910 2G

HUMBER ESTUARY
Derivation and Application of Environmental Quality Objectives and Standards to Discharges to the Humber Estuary (U.K.),
W86-05380 1911 5G

HUMBOLDT HOUSE AREA
Principal Facts for Gravity Stations in the Humboldt House Geothermal Area, Pershing County, Nevada,
W86-02358 1906 8E

HUMIC ACID
Effects of Water Quality on Microporous Filter Methods for Enteric Virus Concentration,
W86-01191 1904 5A

Catalytic Effects of Ultraviolet Light and/or Ultrasound on the Ozone Oxidation of Humic Acid and Trihalomethane Precursors,
W86-05270 1911 5D

HUMIC ACIDS
Sorption of Mercury(II) by Humic Acids,
W86-00866 1903 5B

Humic Acids in the Inflows to the Flaje Reservoir after Deforestation of its Watershed,
W86-01010 1904 6G

Copper Dissociation from Estuarine Humic Materials,
W86-01395 1905 5B

Adsorption of Humic Acids onto Powdered Activated Carbon; The Influence of Sodium Triphosphate (Adsorption des Acides Humiques sur Charbon Active en Poudre Influence du Triphosphate de Sodium),
W86-01649 1905 5F

Chlorination Products from Aquatic Humic Material at Neutral pH,
W86-02148 1906 5B

Influence of Aquatic Humic Substance Properties on Trihalomethane Potential,
W86-02151 1906 5B

Influence of Humic-Acid Complexing on the Mobility of Americium in the Soil Aquatic Environment,
W86-03315 1908 5B

Role of Natural Organics on Water Interaction with Soil and Rock,
W86-03754 1909 2K

Volatile Ozonization Products of Aqueous Humic Material,
W86-04122 1910 5F

Chemistry and Transport of Soluble Humic Substances in Forested Watersheds of the Adirondack Park, New York,
W86-04347 1910 5B

Biodegradability and GAC Adsorbability of Micropollutants by Preozonation,
W86-05040 1911 5F

Ozonization of Humic Acids. Medium Term Toxicity Towards Daphnia Magna,
W86-05041 1911 5C

Bromoform Formation in Ozonated Groundwater Containing Bromide and Humic Substances,
W86-05043 1911 5F

Effect of Al and Humic Acids on the 241 Am Adsorption on the Exoskeleton of the Crayfish Astacus Leptodactylus Eschscholtz,
W86-05328 1911 5B

Trace Metals in Humic Acids and their Hydrolysis Products,
W86-05571 1912 5B

Separation and Determination of Traces of Heavy Metals Complexed with Humic Substances in Fresh Waters by Sorption on Diethylaminoethyl-Sephadex A-25,
W86-05574 1912 5A

HUMIC-COLORED WATERS
Dissolved Oxygen Concentrations in Florida's Humic-Colored Waters and Water Quality Standard Implications,
W86-00901 1903 5G

HUMIC MATERIAL
Irreversible Sorption of Trace Level Organics by Ground Water Humic Substances: A New Mechanism of Transport,
W86-04055 1910 5B

HUMIC MATERIALS
Sorption of Trace Metals by Humic Materials in Soils and Natural Waters,
W86-04715 1911 5B

HUMIC SUBSTANCES
Statistical Model for Conversion of Absorbance Measurements with Significant Iron Interference into Organic Carbon in a Polyhumic Lake,
W86-00676 1903 5A

Catalytic Effect of Various Metal Ions on the Methylation of Mercury in the Presence of Humic Substances,
W86-01607 1905 5B

Separation and Determination of Traces of Heavy Metals Complexed with Humic Substances in Fresh Waters by Sorption on Diethylaminoethyl-Sephadex A-25,
W86-05574 1912 5A

HUMIDITY
Water Use Efficiency of Cassava. III. Influence of Air Humidity and Water Stress on Gas Exchange of Field Grown Cassava,
W86-00485 1902 2D

Whole-Plant Responses to Drought,
W86-05958 1912 2I

HUMUS
Metals in Low-Elevation, Southern Appalachian Forest Floor And Soil,
W86-05553 1912 2K

HUNTER RIVER ESTUARY
Meiofauna Associated with Mangroves in the Hunter River Estuary and Fullerton Cove, South-eastern Australia,
W86-00521 1902 2L

HURRICANES
Atchafalaya River Delta; Report 8: Numerical Modeling of Hurricane-Induced Storm Surge,
W86-00164 1901 2A

HYDE PARK LANDFILL
Numerical Modeling of Immiscible Organic Transport at the Hyde Park Landfill,
W86-04158 1910 5B

HYDRAULIC BOREHOLE MINING
Effects of Hydraulic Borehole Mining on Ground Water at a Test Site in Northeast St. Johns County, Florida,
W86-03116 1908 4C

HYDRAULIC CONDUCTIVITY
Suitability of Marine Clays as Liners for Hazardous Waste Disposal Sites,
W86-02516 1907 5E

Hydraulic Conductivity of Rockfill: Volume II,
W86-02556 1907 8E

Characterizing Water Movement in the Weathered Zone of Glacial Tills Under Continuous Irrigation,
W86-02626 1907 2F

Geohydrology of Test Well USW, H-3, Yucca Mountain, Nye County, Nevada,
W86-02830 1907 2F

Geohydrologic and Drill-Hole Data for Test Well USW H-4, Yucca Mountain, Nye County, Nevada,
W86-02895 1907 2F

Geohydrology of Test Well USW-H1, Yucca Mountain, Nye County, Nevada,
W86-03121 1908 2F

Note on the Physical Characteristics of Linear Soils,
W86-04405 1910 2G

Saturated and Unsaturated Hydraulic Conductivity of Swelling Clays,
W86-04411 1910 2G

Determination of Diffusivity and Hydraulic Conductivity in Soils at Low Water Contents from Nondestructive Transient Flow Observations,
W86-04412 1910 2G

Method for Simultaneous In Situ Measurement in the Vadose Zone of Field-Saturated Hydraulic Conductivity, Sorptivity and the Conductivity-Pressure Head Relationship,
W86-04659 1910 5B

Rubble Mounds: Hydraulic Conductivity Equation,
W86-06109 1912 8B

HYDRAULIC DECONTAMINATION
Application of Contaminant Arrival Distributions to the Simulation and Design of Hydraulic Decontamination Measures in Porous Aquifers,
W86-05728 1912 5G

HYDRAULIC DESIGN
Storm Sewer Optimum Design,
W86-00100 1901 8B

Flow Recirculation in Centrifugal Pumps,
W86-04294 1910 8B

Optimum Capacity and Tunnel Diameter of Run-Of-River Plants,
W86-05007 1911 8A

HYDRAULIC ENGINEERING
Water Surface at Change of Channel Curvature,
W86-00019 1901 8B

Inlet Design for Rectangular Settling Tanks by Physical Modeling,
W86-04505 1910 8B

Scale Model Tests for Austria's Kuhtai Pumped-Storage Plant,
W86-04997 1911 8C

Hydro Plant Frequency Regulation,
W86-05009 1911 8C

HYDRAULIC EQUIPMENT
Pointe Coupee Pumping Station Sump and Outlet Structure, Upper Pointe Coupee Loop Area, Louisiana: Hydraulic Model Investigation,
W86-00101 1901 8C

Noise in the Water Industry,
W86-01633 1905 8C

Wind-Power Pumping,
W86-02329 1906 8C

Automated Plugging Factor Monitor: Specifications,
W86-03325 1908 3A

Hydraulic Model Studies of Modification to Klang Gates Dam, Malaysia,
W86-03329 1908 8C

Variable Speed A-C Motor Controller for Canal Gate Hoists,
W86-03341 1908 8C

Slime Growth on Fine Bubble Diffusers,
W86-03672 1909 5D

Some Developments in Pressure Reduction,
W86-05318 1911 8C

HYDRAULIC-FILL DAMS
Hydraulic Fill Dam Made Earthquake Resistant,
W86-00888 1903 8A

HYDRAULIC FRACTURING
Experimental Investigation of Hydraulic Fracturing,
W86-01207 1904 8D

HYDRAULIC GATES
Hydraulic Model Studies of Modification to Klang Gates Dam, Malaysia,
W86-03329 1908 8C

Laboratory Tests of a Hydraulic Pressure Surge Reliever,
W86-03340 1908 8C

Variable Speed A-C Motor Controller for Canal Gate Hoists,
W86-03341 1908 8C

HYDRAULIC GRADIENT
Evaluating the Effect of Increased Concentration of CO2 on Infiltration Rate,
W86-00500 1902 2G

HYDRAULIC JUMP
B-Jumps at Abrupt Channel Drops,
W86-00018 1901 8B

HYDRAULIC JUMPS
Flow Characteristics of the Hydraulic Jump in a Stilling Basin with an Abrupt Bottom Rise,
W86-01391 1905 8B

Plane Turbulent Buoyant Surface Jets and Jumps,
W86-01392 1905 8B

HYDRAULIC MACHINERY
Flatiron AGC Interim Controller-Volume IV,
W86-00223 1901 8C

Hydraulic Model Studies of Modification to Klang Gates Dam, Malaysia,
W86-03329 1908 8C

Laboratory Tests of a Hydraulic Pressure Surge Reliever,
W86-03340 1908 8C

Solar Powered Groundwater Pumping for Medium Heads,
W86-03583 1909 8C

HYDRAULIC MINING
Effects of Hydraulic Borehole Mining on Ground Water at a Test Site in Northeast St. Johns County, Florida,
W86-03116 1908 4C

HYDRAULIC MODELS
Advancement in Hydraulic Modeling of Porous Pavement Facilities,
W86-00098 1901 2E

Storm Sewer Optimum Design,
W86-00100 1901 8B

Pointe Coupee Pumping Station Sump and Outlet Structure, Upper Pointe Coupee Loop Area, Louisiana: Hydraulic Model Investigation,
W86-00101 1901 8C

Digital Simulation of the Regional Effects of Subsurface Injection of Liquid Waste near Pensacola, Florida,
W86-00122 1901 5B

Weir Jetty Performance: Hydraulic and Sedimentary Considerations, Hydraulic Model Investigation,
W86-00152 1901 8A

Barcelona Harbor, New York, Design for Harbor Improvements: Hydraulic Model Investigation,
W86-00157 1901 8A

Buhne Point, Humboldt Bay, California, Design for the Prevention of Shoreline Erosion: Hydraulic and Numerical Model Investigations,
W86-00169 1901 4D

Navigation Conditions in Vicinity of Walter Bouldin Lock and Dam Coosa River Project: Hydraulic Model Investigation,
W86-00171 1901 8A

Columbia River Estuary Hybrid Model Studies: Report 4, Entrance Channel Tests,
W86-00357 1902 2L

Hydraulic Model Study of Choke Canyon Dam Spillway and Stilling Basin,
W86-00382 1902 8B

Lake Sherburne Dam Model Study,
W86-00383 1902 8B

Streambank Erosion Protection and Channel Scour Manipulation Using Rockfill Dikes and Gabions,
W86-02665 1907 8A

Theoretical and Observed Profiles of Tidal Currents at Two Sites on the Southeastern Bering Sea Shelf,
W86-03237 1908 2L

Unsaturated Flow Modeling of a Retorted Oil Shale Pile,
W86-03281 1908 5B

Virden Creek Pumping Station and Gravity-Flow Outlet Structure, Waterloo, Iowa: Hydraulic Model Investigation,
W86-03299 1908 8B

Hydraulic Model Studies of Modification to Klang Gates Dam, Malaysia,
W86-03329 1908 8C

Hydraulic Model Studies of Bartlett Dam,
W86-03343 1908 8B

Verification of the Chesapeake Bay Model: Chesapeake Bay Hydraulic Model Investigation,
W86-03459 1909 2L

Revetment Stability Study, Fort Fisher State Historic Site, North Carolina: Hydraulic Model Investigation,
W86-03479 1909 8A

User's Manual for EXPLORE-I: A River Basin Water Quality Model, Hydraulic Module Only,
W86-03646 1909 2A

Hydrologic Modeling for Studies of Pollutant Loadings and Transport in Large River Basins,
W86-03827 1909 5A

Laboratory Modeling of a Coastal Upwelling,
W86-04980 1911 2L

Scale Model Tests for Austria's Kuhtai Pumped-Storage Plant,
W86-04997 1911 8C

Stepped Spillway Hydraulic Model Investigation,
W86-05981 1912 2E

HYDRAULIC POTENTIAL
Hydraulic Potential in Unfrozen Soil in Response to Diurnal Freezing and Thawing of the Soil Surface,
W86-00498 1902 2G

HYDRAULIC PROPERTIES
Hydrogeophysical Model for Relations Between Electrical and Hydraulic Properties of Aquifers,
W86-01653 1905 2F

Geohydrology of the Northern Part of the Town of Brookhaven, Suffolk County, New York,
W86-03173 1908 2F

Predicting the Sediment Capacity of a Channel,
W86-03594 1909 2J

Quantifying Groundwater Storage and Interaction in a Multi-Layered Alluvial Aquifer,
W86-04096 1910 2F

Angularity of Aggregate Particles as a Measure of Their Shape and Hydraulic Resistance,
W86-05596 1912 8G

Analysis and Simulation of Low Flow Hydraulics,
W86-05979 1912 2E

HYDRAULIC ROUGHNESS
Roughness Coefficients for Routing Surface Runoff,
W86-05926 1912 2A

HYDRAULIC SORPTIVITY
Method for Simultaneous In Situ Measurement in the Vadose Zone of Field-Saturated Hydraulic Conductivity, Sorptivity and the Conductivity-Pressure Head Relationship,
W86-04659 1910 5B

HYDRAULIC STRATEGIES
Case Study of Geosmin in Philadelphia's Water,
W86-04371 1910 5F

HYDRAULIC STRUCTURE
Preventative Measures to Limit Stress Corrosion Cracking in Prestressed Concrete,
W86-00249 1901 8G

HYDRAULIC STRUCTURES
Technique to Optimally Locate Multilevel Intakes for Selective Withdrawal Structures,
W86-00213 1901 8A

Stream Channel Stability Assessment,
W86-00214 1901 2J

MeGee Creek Pumping Station Siphon, Pike County, Illinois: Hydraulic Model Investigation,
W86-00219 1901 8B

Channel Widths in Bends and Straight Reaches Between Bends for Push Towing: Hydraulic Model Investigation,
W86-00225 1901 8B

Flood Control Minnesota River, Minnesota, Mankato-North Mankato-LeHillier: Design Memorandum No. 8, Part I (Location Study),
W86-00238 1901 8A

Mission Bay Harbor, California, Design for Wave and Surge Protection and Flood Control: Hydraulic Model Investigation,
W86-00255 1901 8B

Edgewater Marina, Cleveland, Ohio: Design for Wave Protection, Hydraulic Model Investigation,
W86-00256 1901 8B

Design for Prevention of Beach Erosion at Presque Isle Beaches, Erie, Pennsylvania: Hydraulic Model Investigation,
W86-00257 1901 8B

List of Soils, Soil-Structure Interaction and Other Related Computer Programs Available for LMVD Engineers,
W86-00262 1901 8D

Functional Design of Control Structures for Oregon Inlet, North Carolina: Hydraulic Model Investigation,
W86-00269 1901 8B

Barkley Dam Spillway Tainter Gate and Emergency Bulkheads, Cumberland River, Kentucky: Hydraulic Model Investigation,
W86-00284 1901 8C

Bloomington Spillway North Branch Potomac River Maryland and West Virginia: Hydraulic Model Investigation,
W86-00285 1901 8B

Impact of Hydraulic Works on Water Quality, Part Two,
W86-00802 1903 6G

Ways of Using the Bearing Properties of a Rock Mass When Designing Underground Hydraulic Structures,
W86-00982 1904 8E

Ways to Improve the Technology of Constructing Concrete Hydraulic Structures,
W86-01622 1905 8F

Application of Stochastic Dynamic Programming in Optimizing the Regulation of Hydropower Reservoirs,
W86-05780 1912 4A

HYDRAULIC VALVES
Laboratory Tests of a Hydraulic Pressure Surge Reliever,
W86-03340 1908 8C

HYDRAULICS
Hydraulics of a Well Pumped with Linearly Decreasing Discharge,
W86-00040 1901 2F

Effects of pH on the Acute Toxicity and Uptake of (14C) Pentachlorophenol in the Midge, Chironomus Riparius,
W86-05488 1912 5C

Effects of pH on the Environmental fate of (14c) Aldicarb in an Aquatic Microcosm,
W86-05493 1912 5B

Time-Dependent Changes in Soluble Organics, Copper, Nickel, and Zinc From Sludge Amended Soils,
W86-05554 1912 5B

Accumulation of Cadmium by White Suckers (Catostomus Commersoni) in Relation to fish Growth and Lake Acidification,
W86-05560 1912 5B

Microbe-Mediated Effects of Low pH on Availability of Detrital Energy to a Shredder, Clistoronia Magnifica (Trichoptera: Limnephilidae),
W86-05568 1912 2H

Spring Pond Water Chemistry and the Reproduction of the Wood Frog, Rana Sylvatica,
W86-05569 1912 5C

Preliminary Investigation of Effects of Sublethal Acid Exposure on Maternal Behavior in the Crayfish Orconectes Virilis,
W86-05849 1912 5C

Geochemical Control of (H+) in Lakes Receiving Acidic Deposition,
W86-05903 1912 2H

Field and Laboratory Measurement of pH in Low-Conductivity Natural Waters,
W86-05988 1912 5A

Multivariate Analysis of Protist Communities in Lentic Systems,
W86-06028 1912 2H

Influence of pH on the Removal of Organics by Granular Activated Carbon,
W86-06063 1912 5F

HYDROGEN ION CONCENTRATIONS
Instruments and Methods. Field pH Determinations in Glacial Melt Waters,
W86-04355 1910 7B

HYDROGEN ION CONNCENTRATION
Effect of pH on Toxicity of Sodium Pentachlorophenate to Fry of Common Carp in Softwater,
W86-00626 1903 5C

HYDROGEN PEROXIDE
Fluorimetric Determination of Trace Hydrogen Peroxide in Water with a Flow Injection System,
W86-00645 1903 5A

Hydrogen Peroxide - A Real Alternative to Chlorine in Water Treatment,
W86-02164 1906 5B

Improvement in the Effectiveness of Ozonation of Drinking Water through the Use of Hydrogen Peroxide,
W86-05989 1912 5D

HYDROGEN SULFIDE
Source of Hydrogen Sulfide in Anoxic Sediment,
W86-01063 1904 2H

Sludge Odor Control: If At First You Don't Succeed...,
W86-04736 1911 5D

Odor and Corrosion Control in Sanitary Sewerage Systems and Treatment Plants,
W86-04821 1911 5D

HYDROGENERATORS
Small Asynchronous Hydrogenerators and their Contribution to Energy Recovery in the Water Industry,
W86-05077 1911 8C

HYDROGEOCHEMISTRY
Geochemistry of Saline Lakes of the Northeastern Yukon Flats, East Central Alaska,
W86-02473 1907 2K

HYDROGEOLOGIC DATA
Hydrogeologic Data from Parts of the Denver Basin, Colorado,
W86-01952 1906 2F

Records of Selected Wells, St. Marys and Calvert Counties, Maryland,
W86-02359 1906 7C

HYDROGEOLOGIC FRAMEWORK
Hydrogeologic Framework for the Sand Aquifer of the Southeastern United States Coastal Plain,
W86-03041 1908 2F

HYDROGEOLOGICAL DATA
Possibilities and Limits of Hydrogeological Preservation of the Record in the Preliminary Stage of Larger Groundwater Withdrawals as Exemplified by the Nordheide Waterworks (Northern Lower Saxony),
W86-05680 1912 7B

HYDROGEOLOGICAL FEATURES
Prognostic Study of Water Levels for Evaluating the Hydrogeological Character of Shadnagar Basin, (A.P.), India,
W86-05695 1912 2F

HYDROGEOLOGICAL PROCESSES
Mathematical Models of Ground-Water Basins: Their Application for Study and Management of Hydrogeological Processes,
W86-05704 1912 2F

HYDROGEOLOGY
Stratigraphy and Sedimentary Facies of the Madison Limestone and Associated Rocks in Parts of Montana, Nebraska, North Dakota, South Dakota, Wyoming,
W86-00104 1901 2F

Analysis and Interpretation of Data Obtained in Tests of the Geothermal Aquifer at Klamath Falls, Oregon,
W86-00107 1901 2F

Hydrogeological and Geotechnical Aspects of the Tennessee-Tombigbee Waterway,

Geohydrology of the Madison and Associated Aquifers in Parts of Montana, North Dakota, South Dakota, and Wyoming,
W86-02921 1908 2F

Hydrogeologic Data from a Test Well in East-Central Duval County, Florida,
W86-02938 1908 4B

Regional Geohydrology of the Northern Louisiana Salt-Dome Basin, Part II, Geohydrologic Maps of the Tertiary Aquifers and Related Confining Layers,
W86-02956 1908 2F

Conceptual Hydrologic Model of Flow in the Unsaturated Zone, Yucca Mountain, Nevada,
W86-02974 1908 5B

Potentiometric Surface of the Upper Floridan Aquifer in Central Sumter County, Florida, September 1984,
W86-02985 1908 7C

Hydrogeology of the Clayton Aquifer of Southwest Georgia,
W86-02995 1908 2F

Description and Some Hydrogeologic Implications of Cores from the Radioactive Waste Management Complex, Idaho,
W86-02999 1908 5E

Water-Resources Appraisal of the Upper Arkansas River Basin from Leadville to Pueblo, Colorado,
W86-03025 1908 2E

Effects of Artificial Recharge on an Alluvial Aquifer, Ogallala Formation, Texas,
W86-03032 1908 4B

Hydrogeologic and Water-Quality Characteristics of Prairie du Chien-Jordan, Aquifer, Southeast Minnesota,
W86-03042 1908 2F

Proposed Artificial Recharge Studies in Northern Qatar,
W86-03058 1908 2F

Proposed 10-Year Plan for Continuation of Hydrologic Studies of the Edwards Aquifer, San Antonio Area, Texas,
W86-03104 1908 2F

Potentiometric Surface of the Floridan Aquifer, Southwest Florida Water Management District, May 1984,
W86-03130 1908 2F

Descriptive, Geologic, and Borehole Geophysical Logs for 23 Test Holes in South-Central Nebraska,
W86-03176 1908 2F

HYDROGRAPH ANALYSIS
Evaluation of Rainfall-Runoff Data for the Denver Federal Center, Lakewood, Jefferson County, Colorado,
W86-01956 1906 2E

Estimation of Incomplete Streamflow for Selected Sites on the Carson and Truckee Rivers in California and Nevada, 1944-80,
W86-02990 1908 2E

Characterization of Hydrograph Recessions of Land Drains,
W86-05073 1911 4A

HYDROGRAPH MODELING
Rainfall-Runoff Relationships and Water-Quality Assessment of Coon Creek Watershed, Anoka County, Minnesota,
W86-02370 1906 2A

HYDROGRAPHS
Attempt to Implement SWMM in Tunisia,
W86-00087 1901 6A

Evaluation of a Hydrograph Shifting Method for Estimating Suspended-Sediment Loads in Illinois Streams,
W86-00115 1901 2J

Water-Level Hydrographs for Observation Wells in Virginia, 1982,
W86-02996 1908 7C

Ground-Water Levels in Wyoming, 1974 Through 1983,
W86-03046 1908 2F

Groundwater Levels in Nebraska, 1983,
W86-03094 1908 2F

Evaluation of the Effects of Lake Audubon on Ground- and Surface-Water Levels in the Lake Nettie Area, Eastern McLean County, North Dakota,
W86-03140 1908 2F

Overland Flow Hydrographs for SCS Type II Rainfall,
W86-05239 1911 2E

Meaning of Oscillations in Unit Hydrograph S-Curves,
W86-05533 1912 2E

Estimating Peak Runoff from Field-Size Watersheds,
W86-06021 1912 2E

HYDROGRAPHY
Cost-Effectiveness of the Stream-Gaging Program in Orlando Subdistrict, Florida,
W86-03086 1908 2E

HYDROLOGIC ASPECTS
Overview of the Hydrologic Concerns Related to Wetlands in the United States,
W86-05349 1911 2H

Hydrology, Development, and Biogeochemistry of Ombrogenous Peat Bogs with Special Reference to Nutrient Relocation in a Western Newfoundland Bog,
W86-05350 1911 2H

Orographic Variation of Precipitation in a High-Rise Himalayan Basin,
W86-05611 1912 2B

Characteristics of Precipitation During the Monsoon Season in High-Mountain Areas of the Nepal Himalaya,
W86-05613 1912 2B

Investigations of the Hydrological Conditions of Alpine Regions by Glaciological Methods,
W86-05614 1912 2C

Hydrological Aspects of the Glacier Regime in the North Tien Shan in the Anomalously Arid Period of 1974-1978,
W86-05615 1912 2C

Recession Characterization of Small Mountain Basins, Derivation of Master Recession Curves and Optimization of Recession Parameters,
W86-05636 1912 2E

Hydrological Analysis for the Planning of Small Hydropower Plants,
W86-05737 1912 2E

HYDROLOGIC BENCHMARK NETWORK
Volatile Trace-Element Concentrations in Snowmelt Contributions to Streams Monitored by Hydrologic Bench Mark Network Stations in the Conterminous United States Where Average Annual Snowfall Exceeds 12 Inches,
W86-02397 1906 5B

HYDROLOGIC BUDGET
Determination of Growing Season Soil Water Deficits on a Forested Slope Using Water Balance Analysis,
W86-01786 1905 2A

Estimation of Incomplete Streamflow for Selected Sites on the Carson and Truckee Rivers in California and Nevada, 1944-80,
W86-02990 1908 2E

Data Collection for Hydrochemical Balances: Theoretical Aspects,
W86-03766 1909 2A

Mass-Balance Approach to the Understanding of Geochemical Processes in Aqueous Systems,
W86-03773 1909 5B

Hydrochemical Budgets of Some Dutch Woodland Soils with High Inputs of Atmospheric Acid Deposition: Mobilization of Aluminum,

Regional Water Balance in the Mountainous Arctic and Its Application for Water-Resource Planning,
W86-03849 1909 2D

Water Balance of Lake Victoria,
W86-04386 1910 2H

Evaluation of Thornthwaite's Water Balance Technique in Predicting Stream Runoff in Costa Rica,
W86-04393 1910 2E

Water-Limited Equilibrium of Savanna Vegetation Systems,
W86-04545 1910 2I

Interception of Snow by the Forest Canopy,
W86-04555 1910 2C

Atmospheric Water Balance over a Mountain Barrier,
W86-05474 1912 2B

Orographic Variation of Precipitation in a High-Rise Himalayan Basin,
W86-05611 1912 2B

Characteristics of Precipitation During the Monsoon Season in High-Mountain Areas of the Nepal Himalaya,
W86-05613 1912 2B

Investigations of the Hydrological Conditions of Alpine Regions by Glaciological Methods,
W86-05614 1912 2C

Aquifer Demands Met from Storage or Recharge,
W86-05668 1912 2F

Complex Effect of Some Agronomical Procedures and Hydrometeorological Factors on the Water Budget of the Soil,
W86-05685 1912 3F

HAPEX-MOBILHY: A Hydrologic Atmospheric Experiment for the Study of Water Budget and Evaporation Flux at the Climatic Scale,
W86-05847 1912 2B

Hydrologic Budget Analysis for the Nile Valley in Egypt,
W86-06168 1912 2F

HYDROLOGIC CYCLE
Macroscopic Estimation of Available Water Resources in Kagoshima Prefecture, Japan (in Japanese),
W86-01604 1905 2A

Hydrogeochemical Evolution and Variability of Groundwater in Experimental Basins of S. W. Western Australia,
W86-03757 1909 2F

Water -- A World Problem,
W86-05587 1912 6D

HYDROLOGIC DATA
Water Resources Data for Florida, Water Year 1981 Volume 1: Northeast Florida.
W86-00127 1901 7C

Water Resources Data for Colorado, Water Year 1982, Volume 2. Colorado River Basin above Dolores River,
W86-00128 1901 7C

Water Resources Data, North Dakota, Water Year 1981, Volume 1. Hudson Bay Basin.
W86-00129 1901 7C

Water Resources Data Hawaii, Other Pacific Areas, Water Year 1981. Volume 2. Guam,

HYDROLOGIC DATA

Northern Mariana Islands, Federated States of Micronesia, Palau Islands and American Samoa.
W86-00130 1901 7C

Continuous Convolution with Hydrologic Data,
W86-01076 1904 2A

Water-Resources Investigations of the U.S. Geological Survey in Wyoming, Fiscal Year 1984,
W86-01926 1906 7B

January 1984 Water Levels, and Data Related to Water-Level Changes, Western and South-Central Kansas,
W86-01960 1906 2F

Surface Water Resources of South Africa; Volume IV: Drainage Regions E, G, H, J, K, L - The Western Cape,
W86-01997 1906 2E

Evaluation of the Ground-Water Resources of Coastal Georgia: Preliminary Report on the Data Available as of July 1983,
W86-02352 1906 7C

Records of Selected Wells, St. Marys and Calvert Counties, Maryland,
W86-02359 1906 7C

Water-Resources Activities of the U.S. Geological Survey in Missouri, Fiscal Year 1985,
W86-02375 1906 7C

Water Resources Data for California, Water Year 1983, Volume 4. Northern California Valley Basins and the Great Basin from Honey Lake Basin to Oregon State Line,
W86-02771 1907 2E

Water Resources Data for California, 1983, Volume 3. Southern Central Valley Basins and the Great Basin from Walker River to Truckee River,
W86-02772 1907 2E

Cost-Effectiveness of the Stream-Gaging Program in Northeastern California,
W86-02774 1907 7A

Hydrologic Data for Aquifers in Philadelphia, Pennsylvania,
W86-02815 1907 7C

Selected Climatological and Hydrologic Data, Raton Basin, Huerfano and Las Animas Counties, Colorado, and Colfax County, New Mexico,
W86-02839 1907 2E

Percentage Change in Saturated Thickness of the High Plains Aquifer, West-Central Kansas, 1950 to Average 1982-84,
W86-02855 1907 7C

Water-Resources Activities of the U.S. Geological Survey in Kansas--Fiscal Years 1983 and 1984,
W86-02865 1907 2E

Summary of Water Resources Development and Hydrologic Data of Saipan, Mariana Islands,
W86-02887 1907 2E

Pennsylvania Gazetteer of Streams - Part II,
W86-02907 1907 2E

Rainfall-Runoff Data in the Albuquerque, New Mexico, Metropolitan Area, 1976-83,
W86-02933 1908 7C

Water-Level Hydrographs for Observation Wells in Virginia, 1982,
W86-02996 1908 7C

Hydrogeologic Data Related to the Potential for Stock-Water Development on Federally Owned Rangeland Near Dillon, Montana,
W86-03016 1908 7C

Water-Resources Appraisal of the Upper Arkansas River Basin from Leadville to Pueblo, Colorado,
W86-03025 1908 2E

Compilation of Ground Water Quality Data in Pennsylvania,
W86-03026 1908 7C

Annual Water-Resources Review, White Sands Missile Range, New Mexico 1983,
W86-03031 1908 7C

Uses, Funding, and Availability of Continuous Streamflow Data in Montana,
W86-03036 1908 7B

Summary of Water-Resources Activities of the United States Department of Interior, Geological Survey-Fiscal Year 1984, South Dakota,
W86-03067 1908 2E

Selected Hydrogeologic Data for the Big Muddy Creek Valley Near Plentywood, Northeastern Montana,
W86-03068 1908 4B

Annual Yield and Selected Hydrologic Data for the Arkansas River Basin for the Arkansas River Basin Compact, Arkansas Oklahoma, 1984 Water Year,
W86-03074 1908 2E

Hydrologic Data for Urban Studies in the Houston, Texas, Metropolitan Area, 1982,
W86-03106 1908 7C

Hydrologic Data for the Larimer-Weld Regional Water-Monitoring Program, Colorado, 1975-1982,
W86-03110 1908 2E

Hydrologic-Data Stations and Lake Levels, Kenai-Nikiski Area, Alaska, 1983,
W86-03115 1908 2E

Water Resources Data, Alaska Water Year 1981.
W86-03146 1908 7C

Water Resources Data, Colorado Water Year 1983, Volume 1. Missouri River Basin, Arkansas River Basin, and Rio Grande Basin,
W86-03147 1908 7C

Water Resources Data, Colorado Water Year 1983, Volume 3. Dolores River Basin, Green River Basin, and San Juan River Basin,
W86-03148 1908 7C

Water Resources Data, Colorado Water Year 1983, Volume 2. Colorado River Basin Above Dolores River,
W86-03149 1908 7C

Water Resources Data, Louisiana Water Year 1983, Volume 1. Central and Northern Louisiana,
W86-03150 1908 7C

Water Resources Data, Louisiana Water Year 1983, Volume 2, Southern Lousiana,
W86-03151 1908 7C

Water Resources Data, New Mexico Water Year 1983,
W86-03152 1908 7C

Water Resources Data, Pennsylvania Water Year 1982, Volume 1. Delaware River Basin,
W86-03153 1908 7C

Water Resources Data, Pennsylvania Water Year 1983, Volume 1. Delaware River Basin,
W86-03154 1908 7C

Water Resources Data, Pennsylvania Water Year 1983, Volume 2. Susquehanna and Potomac River Basins,
W86-03155 1908 7C

Water Resources Data, Pennsylvania Water Year 1983, Volume 3. Ohio River and St. Lawrence River Basins,
W86-03156 1908 7C

Water Resources Data, New York Water Year 1983, Volume 2. Long Island,
W86-03157 1908 7C

Water Resources Data, New York Water Year 1983, Volume 3. Western New York,
W86-03158 1908 7C

Water Resources Data, Hawaii and other Pacific Areas Water Year 1983. Volume 1, Hawaii,
W86-03159 1908 7C

Water Resources Data, Hawaii and Other Pacific Areas Water Year 1983. Volume 2,
W86-03160 1908 7C

Water Resources Data, Kentucky Water Year 1983.
W86-03161 1908 7C

Water Resources Data, South Dakota Water Year 1983,
W86-03179 1908 7C

Water Resources Data, Tennessee Water Year 1983,
W86-03180 1908 7C

Water Resources Data, Idaho Water Year 1983,
W86-03181 1908 7C

Water Resources Data, Iowa Water Year 1983,
W86-03182 1908 7C

Water Resources Data, Kansas Water Year 1983,
W86-03183 1908 7C

Water Resources Data, New Jersey Water Year 1983, Volume 1: Atlantic Slope Basins, Hudson River to Cape May,
W86-03185 1908 7C

Water Resources Data, New York Water Year 1983, Volume 1: Eastern New York Excluding Long Island,
W86-03186 1908 7C

Water Resources Data, Arkansas Water Year 1983,
W86-03187 1908 7C

Water Resources Data, Oregon, Water Year 1983, Volume 2: Western Oregon,
W86-03188 1908 7C

Water Resources Data, Indiana Water Year 1983,
W86-03189 1908 7C

Water Resources Data, New Hampshire and Vermont Water Year 1983,
W86-03190 1908 7C

Water Resources Data, South Carolina Water Year 1983,
W86-03191 1908 7C

Water Resources Data, California Water Year 1982, Volume 4. Northern California Valley Basins and the Great Basin from Honey Lake Basin to Oregon State Line,
W86-03192 1908 7C

Water Resources Data, California, Water Year 1982, Volume 3. Southern Central Valley Basins and the Great Basin from Walker River to Truckee River,
W86-03193 1908 7C

Water Resources Data, California Water Year 1982, Volume 2. Pacific Slope Basins from

Arroyo Grande to Oregon State Line Except Central Valley,
W86-03194 1908 7C

Water Resources Data, California Water Year 1982, Volume 1. Southern Great Basin from Mexican Border to Mono Lake Basin, and Pacific Slope Basins from Tijuana River to Santa Maria River,
W86-03195 1908 7C

Water Resources Data, Illinois Water Year 1983, Volume 2: Illinois River Basin,
W86-03196 1908 7C

Water Resources Data, Illinois Water Year 1983, Volume 1: Illinois Except Illinois River Basin,
W86-03197 1908 7C

Water Resources Data, North Dakota Water Year 1983,
W86-03198 1908 7C

Water Resources Data, Nevada Water Year 1983,
W86-03199 1908 7C

Water Resources Data, Oregon Water Year 1983, Volume 1: Eastern Oregon,
W86-03200 1908 7C

Water Resources Data, Utah Water Year 1983,
W86-03201 1908 7C

Water Resources Data, Florida Water Year 1981, Volume 4, Northwest Florida.
W86-03202 1908 7C

Water Resources Data, Maryland and Delaware Water Year 1982,
W86-03204 1908 7C

Water Resources Data, Maine Water Year 1982,
W86-03205 1908 7C

Water Resources Data, Florida Water Year 1982, Volume 3B: Southwest Florida Ground Water,
W86-03206 1908 7C

Water Resources Data, Florida Water Year 1982, Volume 1A: Northeast Florida Surface Water,
W86-03207 1908 7C

Water Resources Data, Texas, Water Year 1982, Volume 3; Colorado River, Lavaca River, Guadalupe River, Nueces River, Rio Grande Basins and Intervening Coastal Basins,
W86-03208 1908 7C

Water Resources Data, Missouri Water Year 1983,
W86-03209 1906 7C

Water Resources Data, Wyoming Water Year 1983,
W86-03210 1908 7C

Water Resources Data, Florida Water Year 1982, Volume 3A: Southwest Florida Surface Water,
W86-03211 1908 7C

Water Resources Data, Florida Water Year 1982, Volume 1B: Northeast Florida Ground Water,
W86-03212 1908 7C

Water Resources Data, Virginia Water Year 1983,
W86-03213 1908 7C

Water Resources Data, Maine Water Year 1983,
W86-03214 1908 7C

Water Resources Data, Wisconsin Water Year 1983,
W86-03215 1908 7C

Water Resources Data, West Virginia Water Year 1983,
W86-03216 1908 7C

Water Resources Data, Oklahoma Water Year 1982,
W86-03217 1908 7C

Water Resources Data, Nebraska Water Year 1982,
W86-03218 1908 7C

Water Resources Data, Michigan Water Year 1983,
W86-03219 1908 7C

Water Resources Data, Alabama Water Year 1983,
W86-03220 1908 7C

Water Resources Data, Minnesota Water Year 1982, Volume 1. Great Lakes and Souris-Red-Rainy River Basins,
W86-03221 1908 7C

Water Resources Data, Minnesota Water Year 1982, Volume 2: Upper Mississippi and Missouri River Basins,
W86-03222 1908 7C

Water Resources Data, Ohio Water Year 1983, Volume 1. Ohio River Basin,
W86-03223 1908 7C

Water Resources Data, Ohio Water Year 1983, Volume 2. St. Lawrence River Basin Statewide Project Data,
W86-03224 1908 7C

Water Resources Data, Nebraska Water Year 1983,
W86-03225 1908 7C

Water Resources Data, Maryland and Delaware Water Year 1983,
W86-03226 1908 7C

Water Resources Data. Arizona Water Year 1982,
W86-03227 1908 7C

Water Resources Data, Montana Water Year 1983, Volume 1: Hudson Bay and Missouri River Basins,
W86-03228 1908 7C

Water Resources Data, Montana Water Year 1983, Volume 2, Columbia River Basin,
W86-03229 1908 7C

Hydrology of Area 1, Eastern Coal Province, Pennsylvania,
W86-03547 1909 2E

Water Resources Data, Colorado, Water Year 1981; Volume 3: Dolores River Basin, Green River Basin, and San Juan River Basin.
W86-03609 1909 2E

Water Resource Data and Trend Analysis for the Blue Creek Watershed Project, Pike County, Illinois: Phase II,
W86-03610 1909 5G

Streamflow Summaries from Twelve Tributaries of Farmington Creek, Davis County Experimental Watershed, Northern Utah,
W86-03640 1909 2A

Possibilities and Limits of Hydrogeological Preservation of the Record in the Preliminary Stage of Larger Groundwater Withdrawals as Exemplified by the Nordheide Waterworks (Northern Lower Saxony),
W86-05680 1912 7B

Hydrological Anelysis for the Planning of Small Hydropower Plants,
W86-05737 1912 2E

HYDROLOGIC DATA COLLECTION

Hydrological Regionalisation: A Question of Problem and Scale,
W86-00096 1901 2E

Compilation of Data Collected and Derived for Water Years 1980 and 1981 for the Purpose of Water-Quality Modeling of the Lower Ouachita River and Selected Tributaries, South-Central Arkansas,
W86-01965 1906 5B

Water-Resources Activities of the U.S. Geological Survey in Texas--Fiscal Years 1982-84,
W86-02396 1906 7C

Data Uses and Funding of the Stream-Gaging Program in Missouri,
W86-03070 1908 7A

Conditions and Frequency of Sampling for Elucidations of Transport Mechanisms and Element Budgets in Upland Drainage Basins,
W86-03770 1909 7A

HYDROLOGIC DATA COLLECTIONS

Hydrological Yearbook: 1980.
W86-00182 1901 2A

Stream Discharge in Michigan--Miscellaneous Measurements,
W86-02409 1906 7C

Cost-Effectiveness of the Stream-Gaging Program in Iowa,

W86-06163 1912 2F

Combination of Simulated Discharges of Hydrological Models. Application of the WMO Intercomparison of Conceptual Models of Snowmelt Runoff,
W86-06164 1912 2E

HYDROLOGIC PROPERTIES

Geohydrology of Volcanic Tuff Penetrated by Test Well UE-25bNo1, Yucca Mountain, Nye County, Nevada,
W86-01923 1906 2F

Diagnostic Hydrology,
W86-04277 1910 2A

Use of Stream Chemistry to Estimate Hydrologic Parameters,
W86-05227 1911 2K

HYDROLOGIC REPORTS

Water-Resources Activities of the U.S. Geological Survey in Missouri, Fiscal Year 1985,
W86-02375 1906 7C

HYDROLOGIC SERIES

Correlation Between Sample First Autocorrelation Coefficient and Extreme Hydrologic Runs,
W86-01666 1905 2A

HYDROLOGIC SOIL GROUPS

Hydrologic Characteristics of Nebraska Soils,
W86-03028 1908 2G

HYDROLOGIC SYSTEM

Evaluation of the Hydrologic System in the Dickinson Lignite Area, Eastern Slope and Western Stark and Hettinger Counties, North Dakota,
W86-02796 1907 2F

HYDROLOGIC TIME SERIES

Effects of Incorrectly Removed Periodicity in Parameters on Stochastic Dependence,
W86-00075 1901 2A

HYDROLOGIC UNIT MAPS

Pennsylvania Gazetteer of Streams - Part II,
W86-02907 1907 2E

State Hydrologic Units Maps,
W86-02908 1907 7C

HYDROLOGICAL ASPECTS

Effects of Water Development on the Hydrology and Morphology of Platte River Channels, South-Central Nebraska,
W86-04897 1911 2E

Hydrological and Geomorphological Studies of Debris Slides on Forested Hillslopes in Japan,
W86-04906 1911 2J

Hydrological Relationships in a Glacierized Mountain Basin,
W86-05616 1912 2E

Water Storage and Drainage within the Firn of a Temperate Glacier (Vernagtferner, Oetztal Alps, Austria),
W86-05618 1912 2C

Variations of the Hydrological Properties of Alpine Snow-Cover Stores,
W86-05620 1912 2C

Glacier Discharge Model Based on Results from Field Studies of Energy Balance, Water Storage and Flow,
W86-05621 1912 2C

Factors Affecting Recession Parameters and Flow Components in Eleven Small Pre-Alp Basins,
W86-05635 1912 2C

Water and Nutrient Discharge During Snowmelt in Subalpine Areas,
W86-05643 1912 2C

Hydrological Aspects of Erosion on Mountainous Terrain - An Example from the Himalayan Region, India, Based on Photo-Interpretation,
W86-05644 1912 2J

HYDROLOGICAL CYCLE

Destruction of Water Resources - The Most Critical Ecological Crisis of East Asia,
W86-00666 1903 4C

HYDROLOGICAL DATA COLLECTIONS

Low Cost Hydrological Data Collection,
W86-03581 1909 7B

Inventory of Canadian Glaciers. Procedures, Techniques, Progress and Applications,
W86-03677 1909 2C

Reliability of Information in Hydrogeochemical Investigations,
W86-03769 1909 7A

HYDROLOGY

European and United States Case Studies in Application of the CREAMS Model.
W86-00294 1901 5B

CREAMS: A System for Evaluating Management Practices on Field-Size Areas,
W86-00295 1901 5B

Testing the Application of CREAMS to Finnish Conditions,
W86-00296 1901 5B

Environmental Effects of Nitrogen Fertilization Exemplified by Groundwater Pollution as Simulated by CREAMS,
W86-00297 1901 5B

Application of the CREAMS Model for Calculation of Leaching of Nitrate from Light Soils in the Notec River Valley,
W86-00298 1901 5B

Application of the CREAMS Model: Western Skane, Sweden,
W86-00299 1901 5B

Predicting Hillslope Runoff and Erosion in the United Kingdom: Preliminary Trials with the CREAMS Model,
W86-00300 1901 5B

Application of the CREAMS Model as Part of an Overall System for Optimizing Environmental Management in Lithuania, USSR: First Experiments,
W86-00301 1901 5B

Review of Case Studies of CREAMS Model Application,
W86-00302 1901 5B

Preliminary Guide to the Onsite Identification and Delineation of the Wetlands of the North Atlantic United States,
W86-00316 1902 2H

Hydrology, Hydraulic, and Sediment Considerations of the Tennessee-Tombigbee Waterway,
W86-00336 1902 6G

HYDROLOGY

Filling in the Gap Between Hydrology and Hydrobiology - the Viewpoint of a Hydrologist,
W86-00675 1903 2H

Gold-Mining Effects on Stream Hydrology and Water Quality, Circle Quadrangle, Alaska,
W86-00785 1903 4C

Hydrologic and Vegetational Changes Resulting from Underground Pumping at the Cypress Creek Well Field, Pasco County, Florida,
W86-00899 1903 6G

Abiotic and Hydrobiologic Characteristics of the Mediterranean Running Waters (Caracteristiques Abiotiques and Hydrobiologiques des Eaux Courantes Mediterraneennes),
W86-00919 1903 2H

Fishing and Hydrologie in the Central Amazon (Peche et Hydrologie en Amazonie Centrale),
W86-00977 1904 2H

Hydrology of Bank Groundwater Withdrawals in the Netherlands,
W86-01298 1904 4B

Maximum Likelihood Parameter Estimation of Hydrologic Spatial Processes by the Gauss-Newton Method,
W86-01656 1905 2A

Hydrological and Hydrochemical Aspects of the Transformation of Organic Matter in the Mozhaisk Reservoir,
W86-01812 1905 2H

Ground-Water Hydrology of the Sevier Desert, Utah, with Results of Digital-Computer Modeling,
W86-02351 1906 2F

Geology of the Surficial Aquifer System, Broward County, Florida,
W86-02383 1906 2F

Geohydrology and Ground-Water Flow at Verona Well Field, Battle Creek, Michigan,
W86-02840 1907 2F

State Hydrologic Units Maps,
W86-02908 1907 7C

Hydrology of Area 61 Northern Great Plains and Rocky Mountain Coal Provinces, Colorado and New Mexico,
W86-02934 1908 2E

Hydrology of Area 29, Eastern Region, Interior Coal Province, Illinois,
W86-03111 1908 2E

Underground Residence Times and Chemical Quality of Basal Groundwater in Pearl Harbor and Honolulu Aquifers, O'Ahu, Hawaii,
W86-03290 1908 2F

Military Hydrology; Report 3: A Review of Army Doctrine on Military Hydrology,
W86-03456 1909 10F

Isotopes in Groundwater Hydrology,
W86-03575 1909 2F

Methods of Hydrological Computations for Water Projects.
W86-04000 1910 7A

Role of Subsurface Water Exfiltration in Soil Erosion Processes,
W86-04904 1911 2J

Hydrological and Geomorphological Studies of Debris Slides on Forested Hillslopes in Japan,
W86-04906 1911 2J

Gully Hydrology and Related Soil Properties in Lesotho,
W86-04911 1911 2E

Determination of Saturated Hydraulic Conductivity from Soil Percolation Test Results,
W86-05124 1911 2G

Hydrological Aspects of Alpine and High-Mountain Areas.
W86-05610 1912 2C

Flow Pattern of Meltwater in Mountain Snow Cover,
W86-05617 1912 2C

Snowmelt and Groundwater Storage in an Alpine Basin,
W86-05629 1912 2F

Sensitivity of the European Hydrological System Snow Models,
W86-05634 1912 2C

Hydrological Aspects of Erosion on Mountainous Terrain - An Example from the Himalayan Region, India, Based on Photo-Interpretation,
W86-05644 1912 2J

Large Basin Deterministic Hydrology: A Case Study,
W86-05860 1912 2E

HYDROLYSIS

Atrazine Hydrolysis in Soils: Catalysis by the Acidic Functional Groups of Fulvic Acid,
W86-01907 1905 5B

Mathematical Model, SERATRA, for Sediment-Contaminant Transport in Rivers and Its Application to Pesticide Transport in Four Mile and Wolf Creeks in Iowa,
W86-03648 1909 5B

Effect of Pretreatment on the Enzymic Hydrolysis of Cellulosic Industrial Waste,
W86-05943 1912 5D

HYDROLYZATION

Quantitative Determination of Partially Hydrolyzed Polyacrylamide Polymers in Oil Field Production Water,
W86-04435 1910 5A

HYDROMETEOROLOGY

Complex Effect of Some Agronomical Procedures and Hydrometeorological Factors on the Water Budget of the Soil,
W86-05685 1912 3F

HYDROMETERS

Advances in Hydrometry.
W86-04785 1911 7B

HYDROMETRIC CABLEWAYS

Hydrometric Cableways in the Yangtze Valley,
W86-04786 1911 7B

HYDROMETRIC STATIONS

Quebec: Surface Water Data, 1984,
W86-03235 1908 2E

Manitoba: Surface Water Data, 1984,
W86-03287 1908 2E

HYDROMETRY

Discharge Ratings at Gaging Stations,
W86-03029 1908 7B

Advances in Hydrometry.
W86-04785 1911 7B

Multilayer Width-Integrated Velocity Measurement Method,
W86-04792 1911 7B

Hydrometric Data Capture Using Intelligent Solid State Logging Systems,
W86-04805 1911 7B

Towards a Satellite-Based Hydrometric Data Collection System,
W86-04810 1911 7B

Specific Hydrometry of Karst Regions,
W86-04812 1911 2F

Developments in Hydrometry in Central America and Brazil,
W86-04813 1911 7B

Advanced Hydrologic Instrumentation Activities within the Water Resources Division of the US Geological Survey,
W86-04815 1911 7B

HYDROMORPHIC SOILS

Nitrogen Mineralization in a Sequence of Hydromorphic Soils in a Valley in the High Semois (Belgium) (Mineralisation de l'azote dans une sequence de sols hydromorphes de la vallee de la Haute Semois (Belgique)),
W86-01510 1905 2G

HYDROPSYCHIDS

Life Cycles of Hydropsyche riola, H. slossonae and Cheumatopsyche pettiti (Trichoptera: Hydropsychidae) in a Spring-fed Stream in Minnesota,
W86-05930 1912 2H

HYDROTHERMAL-BIOLOGICAL MODEL

Hydrothermal-Biological Coupling of Lake Eutrophication Models,
W86-04938 1911 5C

HYDROUS MANGANESE OXIDE

Role of Mn(2+)-Rich Hydrous Manganese Oxide in the Accumulation of Arsenic in Lake Sediments,
W86-01645 1905 5B

HYDROZOA

Effect of Velocity of Water Flow on Growth of Colonial Hydroids (Hydrozoa, Thecaphora),
W86-00722 1903 2H

HYGAM WETLAND

Biomass and Mineral Composition of Aquatic Macrophytes in the Hygam Wetland, Kashmir with Reference to Substrate Nutrients,
W86-00400 1902 2L

HYPERCONCENTRATED FLOW

Bed Material Movement in Hyperconcentrated Flow,
W86-01050 1904 2J

HYPERGAME ANALYSIS

Hypergame Analysis of the Lake Biwa Conflict,
W86-01762 1905 6B

HYPERSCUM

Hyperscums of the Cyanobacterium Microcystis aeruginosa in a Hypertrophic Lake (Hartbeespoort Dam, South Africa),
W86-00519 1902 5C

HYPERTENSION

Sodium in Drinking Water in South Carolina,
W86-01411 1905 5C

HYPERTROPHY

Hypertrophy, A Consequence of Development,
W86-05590 1912 5C

HYPHAN

Energy Dispersive XRFA of Solutions Containing FE and Trace Amounts of CO and Other Heavy Metals after Selective Separation on the Cellulose Exchanger Hyphan,
W86-04706 1911 5A

HYPOLIMNETIC AERATION

Hypolimnetic Aeration: Practical Design and Application,
W86-00060 1901 5G

HYPOLIMNION
Declining Lake Sediment Phosphorus Release and Oxygen Deficit Following Wastewater Diversion,
W86-05025 1911 5C

Investigations About the Fate of Heavy Metals in Lakes: II. The Role of Iron and Manganese Remobilization to the Hypolimnic Enrichment of Heavy Metals (Untersuchungen zum Verhalten von Schwermetallen in Gewassern: II. Die Bedeutung der Eisen- und Mangan-Remobilisierung fuer die Hypolimnische Anreicherung von Schwermetallen),
W86-05088 1911 5B

HYPOTHALAMO-HYPOPHYSIAL COMPLEX
Effects of Endosulphan on the Hypothalamo Hypophysial Complex and Fish Reproductive Physiology,
W86-05266 1911 5C

HYROPERIOD
Effect of Hydroperiod on Floodplain Forest Production,
W86-02462 1907 2I

HYSTERESIS
Model of the Hysteresis of Water Retention by Soils,
W86-04554 1910 2G

ICE
Ground-Base Snow and Ice Crystal Observation System Used in Sierra Nevada Winter Orographic Storms,
W86-00222 1901 2B

Machine Classification of Freshwater Ice Types from Landsat-1 Digital Data Using Ice Albedos as Training Sets,
W86-01288 1904 2C

Role of Liquid Water on an Ice Surface During Riming Electrification - Basic Experiment in Thunderstorm Electrification,
W86-01528 1905 2C

Sampling of Snow and Ice on Lakes,
W86-01788 1905 2C

Sea Ice Dynamics and Regional Meteorology for the Arctic Polynya Experiment (APEX) - Bering Sea 1985,
W86-03903 1910 2C

Maps of Streamflow Resources of Some High-Mountain Areas in Asia and North America,
W86-05612 1912 2E

Application of Cosmic Rays to the Solution of Some Hydrological Problems,
W86-05627 1912 2C

Assessing Snow Storage and Melt in a New Zealand Mountain Environment,
W86-05628 1912 2C

Using the DWOPER Routing Model to Simulate River Flows with Ice,
W86-05795 1912 8B

Sulfate and Nitrate Concentrations from a South Greenland Ice Core,
W86-05949 1912 5B

ICE BREAKUP
Satellite Observation of Great Lakes Ice: 1980-81,
W86-03258 1908 2C

Saco River-Camp Ellis Harbor, Saco, Maine: Small Navigation Project, Detailed Project Report and Environmental Assessment,
W86-03322 1908 8A

ICE CAP
Water Supply and Waste Disposal on Permenent Snowfields,
W86-05473 1912 5F

ICE COVER
Sediment Transport under Ice Cover,
W86-01047 1904 2J

Satellite Observation of Great Lakes Ice: 1980-81,
W86-03258 1908 2C

Glaciers and Glaciolithic Systems of the Central Andes,
W86-03675 1909 2C

Hydrological Basins in West Greenland and Their Relationship to a Preliminary Sectorial Division of the Inland Ice Sheet,
W86-03678 1909 2C

Some Problems of Glacier Inventory in the Himalayas,
W86-03680 1909 2C

Recent Secular Variations of Snow and Sea Ice Cover,
W86-03695 1909 2C

Use of Landsat Digital Information for Assessing Glacier Inventory Parameters,
W86-03702 1909 2C

Flow Resistance of River Ice Cover,
W86-05818 1912 2C

ICE FORMATION
SCPP Data Collection and Analysis for the Period 1 September 1981 through 31 August 1982,
W86-00216 1901 2B

Satellite Observation of Great Lakes Ice: 1980-81,
W86-03258 1908 2C

Ice Forming Experiment,
W86-03641 1909 2C

Model for Winter Heat Loss in Uncovered Clarifiers,
W86-04645 1910 5D

ICE JAMS
Downstream Transition of River Ice Jams,
W86-05984 1912 2C

ICE RAFTING
Biological Consequences of Ice Rafting in a New England Salt Marsh Community,
W86-00627 1903 2L

ICE STORMS
Ice Storm Damage to a Southern Wisconsin Mesic Forest,
W86-01760 1905 2C

ICEBERGS
Use of Non-Conventional Water Resource in Developing Countries,
W86-03240 1908 3A

West Greenland Outlet Glaciers: An Inventory of the Major Iceberg Producers,
W86-03679 1909 2C

ICED LAKES
Satellite Observation of Great Lakes Ice: 1980-81,
W86-03258 1908 2C

ICELAND
Solute Acquisition in Glacial Melt Waters. I. Fjallsjokull (South-East Iceland): Bulk Melt Waters with Closed-System Characteristics,
W86-04351 1910 2C

ICHTHYOCENOSIS
Dynamics of the Structure of the Ichthyocenosis of Lake Ubinskoye,
W86-00912 1903 2H

IDAHO
Ground-Water Conditions in the Cottonwood-West Oakley Fan Area, South-Central Idaho,
W86-00117 1901 2F

Evaluation of Hydrologic Processes Affecting Soil Movement in the Hagerman Fauna Area, Hagerman, Idaho,
W86-00119 1901 2G

Availability and Chemistry of Ground Water on the Bruneau Plateau, South-Central Idaho,
W86-01963 1906 2F

Low Energy Irrigation for the Pacific Northwest,
W86-02437 1907 3F

Hydrologic and Legal Assessment of Ground Water Management Alternatives for Idaho,
W86-02687 1907 4B

Assessing Habitat Suitability for Walleye (Stizostedian vitreum) and Possible Species Interactions with Salmonid Fishes,
W86-02688 1907 2H

Calibration of the Snake Plain Aquifer Ground-Water Flow Model,
W86-02689 1907 2F

Enhancement of Duration Curve Prediction Using Short Time Low Flow Measurements,
W86-02690 1907 2E

Feasibility of Direct Utilization of Selected Geothermal Water for Aquaculture of Macrobrachium Rosenbergii,
W86-02691 1907 2F

Idaho Water Resources Research Institute Program for 1983,
W86-02692 1907 9D

Impacts of Individual On-Site Sewage Disposal Facilities on Mountain Valleys - Phase II - Water-Quality Considerations,
W86-02694 1907 5B

Fish Abundance Upstream from Dworshak Dam Following Exclusion of Steelhead Trout,
W86-02695 1907 6G

Results of Geohydrologic Test Drilling in the Eastern Snake River Plain, Gooding County, Idaho,
W86-02896 1907 2F

Description and Some Hydrogeologic Implications of Cores from the Radioactive Waste Management Complex, Idaho,
W86-02999 1908 5E

Map Showing Outcrops of Granitic Rocks, Ash-Flow Tuff, and Laharic Breccia, Basin and Range Province, Idaho,
W86-03005 1908 7C

Ground-Water-Level Trends in Idaho, 1971-82,
W86-03129 1908 2F

Water Resources Data, Idaho Water Year 1983,
W86-03181 1908 7C

Variations in Nitrate Concentrations at an Idaho Site Due to Seasonal Influences,
W86-04607 1910 5B

IDAHO TROUT
Effects of Reduced Stream Discharge on Fish and Aquatic Macroinvertebrate Populations Phase II,
W86-02495 1907 6C

IKPOBA RIVER
Macrobenthic Invertebrates of a Perturbed Stream in Southern Nigeria,
W86-00652 1903 5C

ILLINOIS
Evaluation of a Hydrograph Shifting Method for Estimating Suspended-Sediment Loads in Illinois Streams,
W86-00115 1901 2J

Runoff, Sediment Transport, and Water Quality in a Northern Illinois Agricultural Watershed before Urban Development, 1979-81,
W86-00133 1901 2J

Potential for Contamination of Shallow Aquifers in Illinois,
W86-00178 1901 5E

What's Going on Under Chicago,
W86-00767 1903 8A

In-Lake Water Quality Management Plan for a Recreational Lake in Central Illinois,
W86-00794 1903 5G

Illinois Ground-Water Observation Network - A Preliminary Planning Document,
W86-02355 1906 7A

Hydrogeology of a Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02371 1906 2F

Geologic and Hydrologic Data Collected During 1976-1984 at the Sheffield Low-Level Radioactive-Waste Disposal Site and Adjacent Areas, Sheffiele, Illinois,
W86-02372 1906 2E

Effects of Stormwater Runoff on an Urban Lake, Lake Ellyn at Glen Ellyn, Illinois,
W86-02392 1906 5B

Geology, Hydrology, and Water Quality of the Cambrian and Ordovician Systems in Northern Illinois,
W86-02414 1906 2F

Illinois Water Resources Center Program for 1983,
W86-02683 1907 9D

Feasibility of Subirrigation Systems on Claypan Soils in the Midwest,
W86-02697 1907 4B

Cost Effectiveness of the U.S. Geological Survey's Stream-Gaging Program in Illinois,
W86-02782 1907 7A

Low-Flow Characteristics of Streams in the Kishwaukee River Basin, Illinois,
W86-02787 1907 2E

Runoff and Water Quality Characteristics of Surface-Mined Lands in Illinois,
W86-02826 1907 4C

Gazetteer of Surface-Mine Lakes, Eastern Interior Coal Province, Illinois,
W86-02831 1907 5A

Quality of Water in the Alluvial Aquifer, American Bottoms, East St. Louis, Illinois,
W86-02832 1907 5A

Hydrogeologic Setting East of Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02871 1907 2F

Hydrology of a Surface Coal Mined Area in Randolph County, Illinois,
W86-02897 1907 5B

Measurement of Ground-Water Velocity Using Rhodamine WT Dye Near Sheffield, Illinois,
W86-03051 1908 2F

Hydrology of Area 29, Eastern Region, Interior Coal Province, Illinois,
W86-03111 1908 2E

Estimates of Long-Term Suspended-Sediment Loads in Bay Creek at Nebo, Pike County, Illinois, 1940-80,
W86-03138 1908 2J

Water Resources Data, Illinois Water Year 1983, Volume 2: Illinois River Basin,
W86-03196 1908 7C

Water Resources Data, Illinois Water Year 1983, Volume 1: Illinois Except Illinois River Basin,
W86-03197 1908 7C

Reclamation of Abandoned Mined Lands Along the Upper Illinois Waterway Using Dredged Material,
W86-03280 1908 5G

Water Resource Data and Trend Analysis for the Blue Creek Watershed Project, Pike County, Illinois: Phase II,
W86-03610 1909 5G

Rehabilitation of a Trout Stream,
W86-06049 1912 8I

ILWAS WATERSHED
Biogeochemical Influence of Vegetation and Soils in the ILWAS Watersheds,
W86-06094 1912 5B

IMAGE PROCESSING
Use of Aerial Photography and Image Processing to Measure Dye Dispersion from a Long Sea Outfall,
W86-01518 1905 7B

IMPACT
Estimating Soil Detachment Caused by Raindrop Impact,
W86-00494 1902 2B

IMPACT ASSESSMENT
Evaluating a Cumulative Impact Assessment Approach,
W86-04539 1910 6G

Large-Scale Risk Assessment of Acid Rain Impacts on Fisheries: Models and Lessons,
W86-05565 1912 5C

IMPACT ASSESSMENTS
Intervention Analysis of Power Plant Impact on Fish Populations,
W86-05561 1912 6G

IMPAIRED WATER USE
Treatment Optimization of Municipal Wastewater and Reuse for Regional Irrigation,
W86-04196 1910 3C

Sharing Regional Cooperative Gains from Reusing Effluent for Irrigation,
W86-04197 1910 6C

Fertilization Management of Crops Irrigated with Saline Water,
W86-06089 1912 3C

IMPELLERS
Flow Recirculation in Centrifugal Pumps,
W86-04294 1910 8B

IMPERVIOUS MEMBRANES
Laboratory Investigation of Physical Properties of Flexible Membrane Liners (FML),
W86-02120 1906 8G

IMPLICIT SOLUTIONS
Salt-Water-Freshwater Transient Upconing - An Implicit Boundary-Element Solution,
W86-01291 1904 5B

IMPOUNDMENTS
Hydrologic Effects of Impoundments in Sherburne National Wildlife Refuge, Minnesota,
W86-02939 1908 2F

IMPULSE TURBINES
Advantages of Turgo-Impulse Turbines in Micro-Hydel Units,
W86-01204 1904 8C

IMSA RIVER
Water Temperature as the Primary Influence on Timing of Seaward Migrations of Atlantic Salmon (Salmo salar) Smolts,
W86-01589 1905 2H

IN-SITU TESTS
In-Situ Determination of Dispersion Coefficients and Adsorption Parameters for Contaminants Using a Push-Pull Test,
W86-04092 1910 5B

Characterization of Dye Tracer Plumes: In Situ Field Experiments,
W86-04468 1910 2F

Method for Simultaneous In Situ Measurement in the Vadose Zone of Field-Saturated Hydraulic Conductivity, Sorptivity and the Conductivity-Pressure Head Relationship,
W86-04659 1910 5B

IN-VESSEL COMPOSTING
Evaluating the In-Vessel Composting Option, Part I,
W86-04716 1911 5D

IN VITRO TESTS
Static Shake-Flask Biotransformation of Endothall,
W86-04132 1910 5C

INCINERATION
Acoustical Method of Burning and Collecting Oil Spills on Cold Open Water Surfaces,
W86-04004 1910 5E

Testing of a Prototype Waste Oil Flaring System,
W86-04005 1910 5G

Effective Low Cost Fireproof Boom,
W86-04006 1910 5G

Development and Testing of a Fireproof Boom,
W86-04007 1910 5G

Improving Sludge Incineration Methods,
W86-04837 1911 5D

Cocombustion of Sludge and Solid Wastes,
W86-04838 1911 5D

Emerging Technology,
W86-04839 1911 5D

Feasibility of Constructing a Waste-to-Energy Incinerator to Generate Electricity for a Colocated Wastewater Treatment Plant,
W86-05129 1911 5E

INCLINED EMBANKMENT
Spillage Over an Inclined Embankment,
W86-05968 1912 2E

INDEXING
Index of Ground-Water Quality Data for Florida,
W86-03002 1908 7C

Aquaculture Thesaurus: Descriptors Used in the National Aquaculture Information System,
W86-03643 1909 10C

BEST COPY AVAILABLE

Analysis of Water Quality Indices,

INFRARED IMAGERY

Thermal Infrared Detection of Submarine Springs Associated with the Plymouth Limestone,
W86-01443 1905 2F

Estimating Universal Soil Loss Equation Factor Values with Aerial Photography,
W85-01493 1905 2J

Use of Aerial Photography and Remote Sensing in the Management of Hazardous Wastes,
W86-02224 1906 5G

Satellite Data as Basis for the Estimation of Rainfall and Runoff,
W86-04809 1911 7B

Grid History: A Geostationary Satellite Technique for Estimating Daily Rainfall in the Tropics,
W86-05475 1912 2B

INFRARED RADIATION

Canopy Temperature and Crop Water Stress,
W86-03401 1908 3F

INFRARED SPECTROSCOPY

Infrared Spectrophotometry of Pollutants in Water Systems,
W86-03413 1908 5A

INFRARED SURFACE DATA

Evapotranspiration Over an Agricultural Region Using a Surface Flux/Temperature Model Based on NOAA-AVHRR Data,
W86-05549 1912 2D

INFRASTRUCTURE

Time and Institutional Requirements,
W86-00796 1903 6F

Barrier to Upgrading Funding,
W86-00797 1903 6C

Overcoming the Barriers,
W86-00798 1903 6C

Alternative Solutions,
W86-00799 1903 6C

INHIBITION

Inhibition of the Activities of Beta-Galactosidase and Dehydrogenases of Activated Sludge by Heavy Metals,
W86-04580 1910 5D

Inhibition Kinetics of Nitrification in Continuous-Flow Reactors,
W86-05052 1911 5D

Inhibition Kinetics of Nitrification in Continuous-Flow Reactors,
W86-05894 1912 5D

INITIAL CONDITIONS

Definition of Boundary and Initial Conditions in the Analysis of Saturated Ground-Water Flow Systems--An Introduction,
W86-03053 1908 2F

INJECTIN WELLS

Waste-Water Injection: Geochemical and Biogeochemical Clogging Processes,
W86-05402 1911 5E

INJECTION

Digital Simulation of the Regional Effects of Subsurface Injection of Liquid Waste near Pensacola, Florida,
W86-00122 1901 5B

Proposed Artificial Recharge Studies in Northern Qatar,
W86-03058 1908 2F

INJECTION TESTING

Effects of Fracturing on Well Yields in the Coalfield Areas of Wise and Dickensen Counties, Southwestern Virginia,
W86-02900 1907 2F

INJECTION TESTS

Data from Pumping and Injection Tests and Chemical Sampling in the Geothermal Aquifer at Klamath Falls, Oregon,
W86-03169 1908 2F

INJECTION WELL DISCHARGES

Thermal Anomalies due to Injection-Well Discharges in Porous Aquifers,
W86-05683 1912 5B

INJECTION WELLS

Uses and Abuses of Wastewater Injection Wells in Hawaii,
W86-01884 1905 2F

Analysis of Injection in Stratified Aquifers,
W86-02589 1907 2F

Effects of Hydraulic Borehole Mining on Ground Water at a Test Site in Northeast St. Johns County, Florida,
W86-03116 1908 4C

Mile-Deep Reactor Destroys Sludge with Ease,
W86-04289 1910 5E

Analytical and Approximate Solutions to Radial Dispersion from an Injection Well to a Geological Unit with Simultaneous Diffusion Into Adjacent Strata,
W86-04304 1910 5B

Curvilinear Finite Element Model for Simulating Two-Well Tracer Tests and Transport in Stratified Aquifers,
W86-05213 1911 2F

INLAND WATERS DIRECTORATE
Some Considerations of Enhanced Water Quality Monitoring in the Northwest Territories: An Inland Waters Directorate Perspective.
W86-04489 1910 5G

INLAND WATERWAYS
Potential Ground-Water Level Changes in the Mississippi River Alluvial Aquifer in Response to Proposed Navigation Improvements on the Yazoo River in Mississippi,
W86-03122 1908 2F

INORGANIC COMPOUNDS
AWWA Survey of Inorganic Contaminants in Water Supplies.
W86-00009 1901 5F

Rate Constants of Reactions of Ozone with Organic and Inorganic Compounds in Water - III; Inorganic Compounds and Radicals,
W86-01641 1905 2K

Water Analysis, Volume 1: Inorganic Species, Part 1,
W86-02257 1906 5A

Origin and Nature of Selected Inorganic Constituents in Natural Waters,
W86-02258 1906 2K

Groundwater Contamination at Conroe Waste Disposal Site,
W86-04054 1910 5B

Geochemical Investigations into Groundwater Potential Contaminants Resulting from Underground Coal Gasification (UCG),
W86-04058 1910 5B

Statistical Examination of Small-Scale Spatial Variability of Volatile Organic Compounds and Inorganic Anions in Groundwater,
W86-04089 1910 5B

Uptake of Inorganic Carbon and Nitrogen by Phytoplankton During the Winter Mixing Period in a Freshwater Lake, Lake Nakanuma, Japan,
W86-04185 1910 2H

INORGANIC PHOSPHORUS
Dissolved Inorganic Phosphorus in Streams of the Indian Arid Zone,
W86-01292 1904 2J

INPUT-OUTCOME ANALYSIS
Water-Use Coefficients and Resouce Multiplier for Oahu, Hawaii,
W86-02629 1907 6D

INSECT CONTROL
Simple Method of Chironomid Control at Water Treatment Works,
W86-05079 1911 5F

INSECTICIDE RESISTANCE
Insecticide Resistance in Mosquitofish of the Lower Rio Grande Valley of Texas - An Ecological Hazard,
W86-01889 1905 5C

INSECTICIDES
Abate: Effects of the Organophosphate Insecticide on Bluegills and Invertebrates in Ponds,
W86-00341 1902 5C

Studies on the Toxicity of Some Insecticides to a Freshwater Teleost Lebistes reticulatus (Peters),
W86-00548 1902 5C

Distribution and Persistence of Aminocarb in Stream Water, Sediment and Fish After Application of Three Matacil Formulations,
W86-00811 1903 5B

Sorptive Capacity of an Aquatic Macrophyte for the Pesticide Aminocarb,
W86-00812 1903 5A

Microarray Electrochemical Flow Detectors at High Applied Potentials and Liquid Chromatography with Electrochemical Detection of Carbamate Pesticides in River Water,
W86-00820 1903 7B

Effects of Acute Parathion Pollution on Macroinvertebrates in a Stream,
W86-00963 1904 5C

Struggle Against Onchocerciasis in the Volta Region: Impact of Insecticide Treatment on the Non-target Aquatic Fauna (La Lutte Contre l'Onchocercose dans la Region des Volta: Impact des Traitements Insecticides sur la Faune Aquatique Non-cible),
W86-00966 1904 5C

Uptake, Biotransformation, and Elimination of Rotenone by Bluegills (Lepomis macrochirus),
W86-01159 1904 5C

Survival of Bacillus thuringiensis var. kurstaki in Waters,
W86-01354 1905 5B

Fate of the Pyrethroid Insecticide Deltamethrin in Small Ponds: A Mass Balance Study,
W86-01526 1905 5B

Response of Invertebrates in Temporary Vernal Wetlands to Altosid SR-10 as Used in Mosquito Abatement Programs,
W86-01582 1905 5C

Colorimetric Determination of Propoxur Residues in Vegetables and Water,
W86-01895 1905 5A

Pesticides in the Nation's Rivers, 1975-1980, and Implications for Future Monitoring,
W86-02764 1907 5A

Analytical Methods for Measuring Organochlorines and Methyl Mercury by Gas Chromatography,
W86-03999 1910 5A

Effect of Commerical Formulation of Four Organophosphorus Insecticides on the Ovaries of a Freshwater Teleost, Mystus vittatus (Bloch) - A Histological and Histochemical Study,
W86-04238 1910 5C

Inhibition of Brain AChE in Brook Trout by Aminocarb and its Toxic Metabolites,
W86-04261 1910 5C

Fenitrothion and Aminocarb Residues in Water and Balsam Fir Foliage Following Spruce Budworm Spraying Programs in Quebec, 1979 to 1982,
W86-04368 1910 5B

Efficacy and Chemical Persistence of Two Highly Active Carbamate Developmental Inhibitors,
W86-04465 1910 5C

Evaluation of the Toxic Components of Toxaphene in Lake Michigan Lake Trout,
W86-05400 1911 5A

Effects of pH on the Environmental fate of (14c) Aldicarb in an Aquatic Microcosm,
W86-05493 1912 5B

Acute Toxicity of Aldicarb, Aldicarb Sulfoxide, and Aldicarb Sulfone to Daphnia laevis,
W86-06072 1912 5C

INSTALLATION
Symposium on Project Design and Installation of Small Hydro Power Plants.
W86-05734 1912 8C

Weir Installations and Weir Gates in Low-Head Power Schemes,
W86-05738 1912 8A

INSTITUTIONAL CONSTRAINTS
Environmental Management of the Malacca/Singapore Straits: Legal and Institutional Issues,
W86-00570 1902 6E

Environmental Management in a North Sea Coastal Zone: Law, Institutions and Policy,

INSTREAM AERATION
Assessment of the Measurement Uncertainty in the Estimation of Stream Reaeration Rate Coefficients Using Direct Tracer Techniques,
W86-03824 1909 5A

INSTREAM FLOW
Instream Flow Needs in Critical Areas of the Great Lakes Region,
W86-02468 1907 2E

Protecting Instream Flows in California: An Administrative Case Study,
W86-03276 1908 6B

Meeting Streamflow Requirements,
W86-05867 1912 4A

INSTREAM FLOW INCREMENTAL METHODOLOGY
Critique of the Instream Flow Incremental Methodology,
W86-00613 1902 2H

INSTREAM USE
Availabilty of Natural and Regulated Streamflows for Instream Uses During Historical Droughts, Lower Neosho River, Southeastern Kansas,
W86-02838 1907 2E

INSTREAM WATER USE
Instream Flow Needs in Critical Areas of the Great Lakes Region,
W86-02468 1907 2E

INSTRUMENTATION
Instrumentation for Measuring Lake and Reservoir Evaporation by the Energy-Budget and Mass-Transfer Methods,
W86-02379 1906 7B

Development of a Predictive Irrigation Scheduling Index Using Electrophytograms, W86-02424 1907 4A

Monitoring Well Screen Influences on Direct Flowmeter Measurements, W86-05026 1911 7B

INSTRUMENTATION SUPPORT

Hydrologic Instrumentation Facility of the U.S. Geological Survey, W86-03164 1908 7B

INSTRUMENTS

Water Resources Division Water Level Recorder Rental Program - History and Operation, W86-02819 1907 7B

Water Resources Division Water Level Recorder Rental Program - History and Operation, W86-03009 1908 7B

Hydrologic Instrumentation Facility of the U.S. Geological Survey, W86-03164 1908 7B

INSURANCE

Levee Policy for the National Flood Insurance Program, W86-03622 1909 6F

INTAKE GATES

Procedure for Developing Biological Input for the Design, Location, or Modification of Water-Intake Structures, W86-03519 1909 8I

INTAKE PROTECTION

River Dee Scheme and Intake Protection Systems, W86-04752 1911 5F

INTAKES

Technique to Optimally Locate Multilevel Intakes for Selective Withdrawal Structures, W86-00213 1901 8A

Reconstruction of a Dam Water Intake Under Conditions of Continuous Operation of the Reservoir, W86-00990 1904 8A

Vortex Tower for the El Cajon Spillway Intake, W86-01689 1905 8B

INTEGRITY

Effect of Leaching on the Integrity of a Natural Clay, W86-01457 1905 5E

INTERACTIVE SYSTEMS ANALYSIS

Drinking Water Supply Management: An Interactive Approach, W86-05575 1912 5G

INTERBASIN TRANSFER

Methodology of Regional Hydrogeological Forecasts for Inter-Basin Water Transfer Operation, W86-05646 1912 4B

INTERBASIN TRANSFERS

Viability of Interbasin, Interstate/International Transfers of Water, W86-03436 1909 6D

INTERCEPTION

Gamma Ray Attenuation Studies of Interception from Sitka Spruce: Some Evidence for an Additional Transport Mechanism, W86-04204 1910 2I

INTERCEPTION STORAGE

Interception Storage Capacities of Tropical Rainforest Canopy Trees, W86-00037 1901 2I

INTERCEPTOR SEWERS

Tight Money Hampers Cleveland Sewer Jobs, W86-04754 1911 6C

INTERGOVERNMENTAL RELATIONS

Development and Implementation of a Procedure to Resolve Transboundary Issues Between Montana and the Canadian Provinces of Alberta, Saskatchewan and British Columbia, W86-02708 1907 6E

INTERNAL TIDES

Observations of Internal Tides in Uchiura Bay, W86-00450 1902 2L

INTERNAL WAVES

Aquaculture and Dredged Material Containment Sites: Significance of Contaminated Sediments,
W86-03714 1909 5B

Crude Dubai Oil Toxicity on Some Fresh-Water Invertebrates,
W86-05835 1912 5C

INVESTMENT

Government Subsidies for Pollution Control Investments - Do Other Countries Enjoy an Unfair Advantage,
W86-01612 1905 6F

Evaluating Alternative Investment Programs for the Mediterranean-Dead Sea Project,
W86-01761 1905 6B

IODINE

Iodine Content of the Tissues of the Vendace (Coregonus albula L.) in Correlation to the Iodine Content of the Ambient Water,
W86-00679 1903 2H

ION CHROMATOGRAPHY

Ion Chromatograph Provides Rapid Analysis of Air and Water,
W86-00768 1903 5A

Determination of Potassium, Sodium, Calcium, and Magnesium in Natural Waters by Ion Chromatography,
W86-01717 1905 5A

Determination of Common Anion Concentrations in Surface and Groundwater Samples by Eluent-Suppressed Ion Chromatography,
W86-01847 1905 5A

Determination of Carbonate Traces in High-Purity Water by Means of Chromatography,
W86-05281 1911 5F

Rapid Determination in Water of Chloride, Sulphate, Sulphite, Selenite, Selenate and Arsenate Among Other Inorganic and Organic Solutes by Ion Chromatography With UV Detection Below 195 nm,
W86-05302 1911 5A

Determination of Anions in Cooling Tower Wastewater from Coal Gasification by Ion Chromatography,
W86-05946 1912 5A

ION EXCHANGE

Removal of Iron Cyanide from Gold Mill Effluents by Ion Exchange,
W86-00757 1903 5D

Ion Exchange Potentially Effective in Reducing Effluent from Bleach Plant,
W86-00892 1903 5D

Ion Exchange,
W86-02212 1906 5F

Removal of Toxic Metals in Electroplating Wash Water by a Donnan Dialysis Process,
W86-03239 1908 5D

Preparation of Ion-Exchange Membranes with Extremely Low Areal Resistances,
W86-03615 1909 3A

Anionic and Neutral Organic Components in Water by Anion Exchange,
W86-03810 1909 5A

Neutralization of Wastewaters Containing Cyanides: Conclusion: Other Methods of Cyanide destruction,
W86-04341 1910 5D

Ion Exchange for the Removal of Nitrate from Well Water,
W86-06062 1912 5F

ION EXCHANGED

Removal of Nitrate in Drinking Water by Ion Exchange - Impact on the Chemical Quality of Treated Water,
W86-04128 1910 5F

ION-SELECTIVE ELECTRODES

Ion-Selective Electrodes (ISE) - Research into the Potential Regulation and Application in Analysis (Ionenselektive Elektroden (ISE) - Untersuchungen zur Potentialeinstellung und Anwendung in der Analytik),
W86-00395 1902 5A

Determination of Sulfide in Water by Means of an Ion-selective Electrode (Bestimmung von Sulfid in Wasser mit Einer Ionenselektiven Elektrode),
W86-00412 1902 5A

ION TRANSPORT

Evaluation of Environmental Factors Affecting Major Dissolved-Ion Yields of Streams in the United States,
W86-02923 1908 5B

Study of the Hydrochemical Regime and Its Long-Term Variations in the Case of Some Rivers in U.S.S.R.,
W86-03778 1909 2K

Model Experimental Study of Hydrochemical Processes in the Saturated Zone,
W86-03785 1909 2K

IONS

State of Metal Ions in Natural Waters,
W86-00537 1902 2K

Water-Quality Characteristics for Selected Sites on the Cape Fear River, North Carolina, 1955-80--Variability, Loads, and Trends of Selected Constituents,
W86-02848 1907 5B

Evaluation of Environmental Factors Affecting Major Dissolved-Ion Yields of Streams in the United States,
W86-02923 1908 5B

Respiratory Gas Content (O2 and CO2) and Ionic Composition of River Water in the Plain of Alsace (Eastern France),
W86-03763 1909 2F

Study of the Hydrochemical Regime and Its Long-Term Variations in the Case of Some Rivers in U.S.S.R.,
W86-03778 1909 2K

Specific Conductance as an Indicator of Total Dissolved Solids in Cold, Dilute Waters,
W86-04394 1910 2K

Sources and Sinks of Ions in a Soft Water, Acidic Lake in Florida,
W86-05217 1911 5B

IOWA

Ecological Alterations of Iowa Prairie-Agricultural Streams,
W86-00581 1902 6G

Discharge Ratings for Control Gages at Mississippi River Lock and Dam 11, Dubuque, Iowa,
W86-02401 1906 4A

Fiscal Year 1983 Water Institute Program Report,
W86-02706 1907 9D

Bank Erosion Contribution to Stream Sediment Load,
W86-02718 1907 2J

Cost-Effectiveness of the Stream-Gaging Program in Iowa,
W86-02773 1907 7A

Water Resources Data, Iowa Water Year 1983,
W86-03182 1908 7C

IOWA RIVER BASIN
Modeling Water Quality and the Effects of Agricultural Best Management Practices in the Iowa River Basin,
W86-01248 1904 5G

IRAQ
Limnological Studies of Rashdiyah Reservoir, Baghdad, Iraq,
W86-00536 1902 2H

IRELAND
Heterotrophic Slimes in Irish Rivers, Evaluation of the Problem,
W86-00053 1901 5B

Environmental Protection in the Republic of Ireland,
W86-00813 1903 5G

Removal of Phosphate at Sewage Treatment Works and Implications on Phosphate Loadings into Lough Neagh,
W86-00834 1903 5D

Evaluation of the Use of Artificial Substrates in Sampling the Invertebrate Fauna of Sewage Fungus Slimes in Irish Rivers,
W86-00936 1904 7B

IRISH SEA
Radiocesium Levels in Irish Sea Fish and the Resulting Dose to the Population of the Irish Republic,
W86-00822 1903 5B

IRON
Effects of Metal Speciation on Growth of Phytoplankton with Special Reference to Iron,
W86-00455 1902 5C

Toxic Effects of Iron Ore Tailings and the Response of Watercress from Tailings at High Concentrations of Fe, Zn and Mn,
W86-00653 1903 5C

Statistical Model for Conversion of Absorbance Measurements with Significant Iron Interference into Organic Carbon in a Polyhumic Lake,
W86-00676 1903 5A

Mobility of Zinc, Cadmium, Copper, Lead, Iron and Arsenic in Ground Water as a Function of Redox Potential and pH,
W86-00706 1903 5B

Effects of Waterlogging and Subsequent Drainage of a Pasture Soil on Phosphate Sorption, Extractable Phosphate and Oxalate-Extractable Iron,
W86-01038 1904 2K

Rate of Precipitation of Ferrous Iron and Formation of Mixed Iron-Calcium Carbonates by Naturally Occurring Carbonate Materials,
W86-01058 1904 5B

Water Quality Control of the Andelse Maas Basin, The Netherlands, by Iron Dosing,
W86-01199 1904 5G

Annual Losses of Iron From Moorland Soils and Their Relation to Free Iron Contents,
W86-01468 1905 2H

Diagenetic Remobilization of Manganese, Iron, Copper and Lead in Anoxic Sediment of a Freshwater Pond,
W86-01646 1905 2H

Passive Films on Iron: The Mechanism of Breakdown in Chloride-Containing Solutions,
W86-02438 1907 8G

Removal of Iron and Manganese from Ground Water with the Vyredox Method,
W86-04061 1910 5G

Dissolved Iron in Chalk Groundwaters from Norfolk, England,
W86-04678 1910 2K

Energy Dispersive XRFA of Solutions Containing FE and Trace Amounts of CO and Other Heavy Metals after Selective Separation on the Cellulose Exchanger Hyphan,
W86-04706 1911 5A

Investigations About the Fate of Heavy Metals in Lakes: II. The Role of Iron and Manganese Remobilization to the Hypolimnic Enrichment of Heavy Metals (Untersuchungen zum Verhalten von Schwermetallen in Gewaessern: II. Die Bedeutung der Eisen- und Mangan-Remobilisierung fuer die Hypolimnische Anreicherung von Schwermetallen),
W86-05088 1911 5B

Technical Note: Biological Removal of Ammonia at Roxana, Illinois,
W86-06064 1912 5F

IRON BACTERIA
Investigations About the Fate of Heavy Metals in Lakes: I. The Role of Ferrous Oxidizing Bacteria to Coprecipitation of Heavy Metals (Untersuchungen zum Verhalten von Schwermetallen in Gewaessern: I. Die Bedeutung Eisenoxidierender Bakterien dur die Koprazipation von Schwermetallen),
W86-04188 1910 5B

Environmental Analysis of Iron-Precipitating Bacteria in Ground Water and Wells,
W86-04470 1910 5C

IRON COPRECIPITATION
Field Evaluation of Arsenic and Selenium Removal by Iron Coprecipitation,
W86-05015 1911 5D

IRON CYANIDE
Removal of Iron Cyanide from Gold Mill Effluents by Ion Exchange,
W86-00757 1903 5D

IRON HYDROXIDES
Comparison of Several Methods for the Determination of Iron Hydroxides and Associated Orthophosphates in Estuarine Particulate Matter,
W86-00769 1903 2L

IRON INTERFERENCE
Energy Dispersive XRFA of Solutions Containing FE and Trace Amounts of CO and Other Heavy Metals after Selective Separation on the Cellulose Exchanger Hyphan,
W86-04706 1911 5A

IRON OXIDE
Adsorption of Lead and Zinc on Blast Furnace Iron Oxide Solids,
W86-05897 1912 5D

IRON OXIDES
Hydrous Fe and Mn Oxides - Scavengers of Heavy Metals in the Aquatic Environment,
W86-00852 1903 5B

Effect of Operation Conditions on Biological Fe(2+) Oxidation with Rotating Biological Contactors,
W86-04111 1910 5F

Caustic Waste Menaces Jamaica,
W86-04970 1911 5C

Adsorption of Lead and Zinc on Blast Furnace Iron Oxide Solids,
W86-05055 1911 5D

IRON REMOVAL
Utility Battles Iron and Manganese,
W86-00807 1903 5F

IRON SULFATE
Removal of Dissolved Organic Carbon by Coagulation with Iron Sulfate,
W86-06061 1912 5F

IRONDEQUOIT BAY
Sediment Accumulation Rates in Irondequoit Bay, New York Based on Lead-210 and Cesium-137 Geochronology,
W86-01566 1905 2L

IRRADATION
Neutralization of Wastewaters Containing Cyanides: Conclusion: Other Methods of Cyanide destruction,
W86-04341 1910 5D

IRRADIATION
Sludge Treatment Technology and Ionizing Radiation,
W86-01181 1904 5D

IRRIGATION
Agricultural Water Demands,
W86-00274 1901 6D

Tables for Estimating Daily Evaporation Rates Over Crops using Temperature, Elevational and Latitudinal Data Only,
W86-00313 1902 2I

Subirrigation System Control for Water Use Efficiency,
W86-00473 1902 3F

Uni-Plot for Drip Irrigation Lateral and Submain Design,

ISLE OF WIGHT
Cross Solent Watermain,
W86-04753 1911 5F

ISOETIDS
Studies of Diurnal Acid Fluctuations in British Isoetid-type Submerged Aquatic Macrophytes,
W86-05064 1911 5C

ISOMERS
Mass Spectrometric Determination of Polychlorinated Biphenyls as Isomer Groups,
W86-04450 1910 5A

ISOPODS
Heavy Metal in Isopods from the Supra-Littoral Zone on the Southern Shore of the Severn Estuary, UK.
W86-00865 1903 5B

Crude Dubai Oil Toxicity on Some Fresh-Water Invertebrates,
W86-05835 1912 5C

ISOPROPYL PHENYLCARBONATE
Determination of the Carbamate Herbicide Propham by Synchronous Derivative Spectrofluorometry Following Fluorescamine Fluorogenic Labeling,
W86-04460 1910 5A

ISOTHERMS
Graphical Representation of a New Linear Form of the Langmuir Adsorption Isotherm (Representation Graphique d'une Nouvelle Forme Linearisee de l'Equation de l'Isotherme de Langmuir),
W86-04118 1910 5D

Diurnal Mixed Layer,
W86-04510 1910 2H

ISOTOPE STUDIES
Appropriate Monitoring Techniques Using Bomb Tritium and Other Geochemical Parameters in Hydrogeological Investigations,
W86-01445 1905 2F

Distribution and Flux of 226Ra and 228Ra in the Amazon River Estuary,
W86-01535 1905 2L

Isotope Studies as a Final Stage in Groundwater Investigations on the African Shield,
W86-03574 1909 2F

Isotopes in Groundwater Hydrology,
W86-03575 1909 2F

Environmental Isotope Hydrology in Southern Africa,
W86-03576 1909 2F

Isotope Techniques in the Hydrogeological Assessment of Potential Sites for the Disposal of High-Level Radioactive Wastes.
W86-03905 1910 5B

Contribution of Isotope Techniques in the Determination of the Relationship Surface Water/Groundwater in Bangladesh (Ganges and Brahmaputra areas),
W86-03969 1910 2A

Nitrogen-Isotope Study of the Source of Nitrate Contamination in Groundwater of the Pleistocene Coastal Plain Aquifer, Israel,
W86-04119 1910 5B

Determination of Dicamba and 2,4-D in Water and Soil by Isotope Dilution GC/MS,
W86-04692 1911 5A

Compatibility of Carbon Uptake Rates Calculated from Stable and Radioactive Isotope Data: Implications for the Design of Experimental Protocols in Aquatic Primary Productivity,
W86-05174 1911 2H

Transport of 60Co Between Water and Sediments in a Small Shield Lake,
W86-05563 1912 5B

ISOTOPES
Strontium and its Isotopes in Canadian Rivers: Fluxes and Global Implications,
W86-04348 1910 2K

ISOTOPIC TRACERS
Hydrochemistry of Springs from Dolomite Reefs in the Southern Alps of Northern Italy,
W86-03765 1909 2K

Surface and Groundwater Mixing and Identification of Local Recharge-Discharge Zones from Seasonal Fluctuations of Oxygen-18 in Groundwater in Fissured Rock,
W86-03790 1909 2F

Stable Carbon Isotopes and Carbon Flow in Ecosystems,
W86-05558 1912 2K

ISOTOPIC TRACUS
Nuclear Techniques for Measuring Sediment Transport in Natural Streams, Examples From Instrumented Basins,
W86-04849 1911 2J

ISRAEL
Fossil Water under the Sinai-Negev Peninsula,
W86-00911 1903 2F

Epidemiological Evidence for Helminth and Cholera Transmission by Vegetables Irrigated with Wastewater: Jerusalem - A Case Study,
W86-01173 1904 5D

Simplified Procedure for the Evaluation of the Lake Kinneret Evaporation,
W86-01475 1905 2D

Evaluating Alternative Investment Programs for the Mediterranean-Dead Sea Project,
W86-01761 1905 6B

Gross Organics Measurements for Monitoring of Wastewater Treatment and Reuse,
W86-03523 1909 5A

Sources of Water to the Seawater Well which Supplies the Fish Ponds in Eilat: Implications for Fishpond Management,
W86-04576 1910 5B

Observational Rainfall-Runoff Analysis for Estimating Effects of Cloud Seeding on water Resources in Northern Israel,
W86-05115 1911 3B

Use of Mathematical Programming in the Management and Development of Israel's Water Resources,
W86-05709 1912 6B

Health Risks Associated with Wastewater Irrigation: An Epidemiological Study,
W86-06079 1912 5C

ITAIPU
Itaipu, South America's Grande Dame,
W86-00886 1903 8A

ITALY
Analysis of the Effects of Orography on Surface Rainfall by a Parameterized Numerical Model,
W86-00023 1901 2B

Determination of Resistance Parameters of Pluvio-Nivo-Glacial Alpine Systems by Mathematical Modeling of Runoff,
W86-00034 1901 2E

Estimates of Peak Runoff from Hilly Terrain with Varied Lithology,
W86-00036 1901 2E

Seismic Microactivity and Water Level Variation in Industrial Area near Florence (Italy),
W86-00632 1903 2F

Dynamics of Colonization in an Experimental Channel, Fed by the Po River Waters,
W86-00920 1904 2H

Cr6+ Influence upon Ephemeroptera Larvae in a Pre-Alpine Torrent,
W86-00956 1904 5C

Cadmium and Chromium in the Waters, Sediments and Biota of the Val Parma Running Water Ecosystem,
W86-00957 1904 5B

Sediment as a Record of Copper Pollution in Lake Orta,
W86-00958 1904 5B

Construction of the Ridracoli Dam,
W86-01692 1905 8A

Multivariate Analysis and Interpretation of the Hydrochemistry of a Dolomitic Reef Aquifer, Northern Italy,
W86-01773 1905 2F

IVERTEBRATES
Aquatic Habitat Studies on the Lower Mississippi River: River Mile 480-530; Report 3: Benthic Macroinvertebrate Studies Pilot Report,
W86-00212 1901 6G

JABILUKA
Limnology of a Naturally Acidic Tropical Water System in Australia; I. General Description and Wet Season Characteristics,
W86-00923 1904 2H

JACKSON
City Implements Trihalomethane Control Program,
W86-00808 1903 5F

JAMAICA
Caustic Waste Menaces Jamaica,
W86-04970 1911 5C

JAMES RIVER
Issues in the James River Corridor, W86-00582 1902 6G

Human Ecology of the James River, W86-00583 1902 4C

Modification of the James River, W86-00584 1902 6G

James River Fisheries and Thermal Effects, W86-00585 1902 6G

Major Environmental Statutes Affecting the James River, W86-00586 1902 6E

Setting of the American Oyster Crassostrea virginica in the James River, Virginia, USA: Temporal and Spatial Distribution, W86-01504 1905 2L

Sediment-Water Column Exchanges of Nutrients and Oxygen in the Tidal James and Appomattox Rivers, W86-02660 1907 5B

JAMES RIVER ESTUARY
Modelling Kepone in the Striped Bass Food Chain of the James River Estuary, W86-01116 1904 5B

JAMMU AND KASHMIR
Biomass and Mineral Composition of Aquatic Macrophytes in the Hygam Wetland, Kashmir with Reference to Substrate Nutrients, W86-00400 1902 2L

Chemical and Physical Characteristics of Some Wetland Waters of Kashmir, W86-00405 1902 2H

Studies on Primary Productivity and Some Hydrochemical Aspects of a Polluted Water-body of the Himalayan Jhelum Valley, W86-00420 1902 2H

JAPAN
Field Observations and Numerical Experiments on a Drying Front in a Volcanic Ash Soil Called Kanto Loam, W86-00038 1901 2F

Regional Unsteady Interface Between Fresh Water and Salt Water in a Confined Coastal Aquifer, W86-00042 1901 2F

Observation on Microphysical Processes in the Stratiform Precipitations Including Melting Layers at Mt. Fuji, W86-00425 1902 2B

Observations of Internal Tides in Uchiura Bay, W86-00450 1902 2L

In Situ Measurement of Oxygen Consumption Rate in the Bottom Layer in Mikawa Bay, W86-00451 1902 2L

Photosynthesis and Primary Production of Microcystis aeruginosa Kutz. in Lake Kasumigaura, W86-00518 1902 2H

In Situ Measurements of Uptake of Inorganic Carbon and Nitrogen by the Aquatic Liverworts Jungermannia vulcanicola Steph. and Scapania undulata (L.) Dum. in an Acid Stream, Kashiranashigawa, Japan, W86-00529 1902 2H

Existing Institutional Arrangements and Implications for Management of Tokyo Bay, W86-00569 1902 6E

Chemical Components in the Precipitation at Komoro and Tsukuba, Japan in 1983, W86-00810 1903 5B

Some Mire Systems in Japan, W86-00904 1903 2H

Characteristic Distribution of Chironomids in the Rivers Polluted with Heavy Metals, W86-00954 1904 5C

Phytosociological Studies on the Vegetation of Irrigation Ponds in the Saijo Basin, Hiroshima Prefecture, Japan, W86-01109 1904 2H

Diffusion Coefficient Evaluated From the Distribution of Nonconservative Material (in Japanese), W86-01143 1904 5B

Two-Dimensional Calculation of Tide by Explicit Weighted Residual Method - I Shibushi Bay, W86-01144 1904 2L

Seasonal Changes in the Distribution of Heterotrophic Bacteria in Kagoshima Bay, W86-01147 1904 5B

Seasonal Changes in the Generic Composition of Heterotrophic Bacteria in Seawater of Kagoshima Bay (in Japanese), W86-01148 1904 5B

Brominated Phenols and Anisoles in River and Marine Sediments in Japan, W86-01287 1904 5B

Partitioning of Heavy Metals (Fe, Mn, Cd, Pb, Cu, Zn, Co, Ni and As) and P into Selective Chemical Fractions in Sediments from Lake Kojima (in Japanese), W86-01362 1905 5B

Distribution and Characteristics of Carboxypeptidase Activity in Pond, River, and Seawaters, in the Vicinity of Tokyo, W86-01418 1905 2H

Macroscopic Estimation of Available Water Resources in Kagoshima Prefecture, Japan (in Japanese), W86-01604 1905 2A

Hypergame Analysis of the Lake Biwa Conflict, W86-01762 1905 6B

Japanese Water Transfer: A Review, W86-03922 1910 6D

Regulating Factors of the Concentration of Dissolved Carbohydrates in a Central Water Column of Lake Suwa, Japan, W86-04182 1910 2K

Improvement of Ultrasonic Flowmeter in Rivers in Japan, W86-04802 1911 7B

Seawater Pumped-Storage Scheme Under Study in Japan, W86-04995 1911 8C

JAPANESE GEOSTATIONARY METEOROLOGICAL SATELLITE
Rain Estimation in Extratropical Cyclones Using GMS Imagery, W86-00859 1903 2B

JAPANESE MEDAKA
Bioaccumulation of 14C-Hexachlrobenzene in Eggs and Fry of Japenese Medaka (Oryzias Latipes), W86-05483 1912 5B

JAVA
Mechanisms of Java Rainfall Anomalies, W86-06051 1912 2B

JEFFERSON COUNTY
Aquatic Vegetation of a Natural Marl Lake in West Virginia, W86-01594 1905 2H

JERUSALEM
Epidemiological Evidence for Helminth and Cholera Transmission by Vegetables Irrigated with Wastewater: Jerusalem - A Case Study, W86-01173 1904 5D

JET FLOW
Local Scour Downstream of an Apron, W86-05974 1912 8B

JETS
Prediction of Characteristics for Vertical Round Buoyant Jets in Stably Linear Stratified Environment, W86-01392 1905 8B

Plane Turbulent Buoyant Surface Jets and Jumps, W86-01393 1905 8B

Experimental Measurements of Multiple-Jet Induced Flow, W86-01530 1905 8B

Waterway and Specific Problems of High-Head Schemes, W86-05740 1912 8C

JETTIES
Weir Jetty Performance: Hydraulic and Sedimentary Considerations, Hydraulic Model Investigation, W86-00152 1901 8A

Design for Flood Control, Wave Protection, and Prevention of Shoaling, Rogue River, Oregon: Hydraulic Model Investigation, W86-00326 1902 8B

JHELUM VALLEY
Studies on Primary Productivity and Some Hydrochemical Aspects of a Polluted Water-body of the Himalayan Jhelum Valley, W86-00420 1902 2H

JOHNSON SAUK TRAIL LAKE
In-Lake Water Quality Management Plan for a Recreational Lake in Central Illinois, W86-00794 1903 5G

JONES FORK
Jones Fork Small Hydro Scheme, W86-04727 1911 8C

JONGLEI CANAL
Environmental and Socio-Economic Impact of the Jonglei Canal Project, Southern Sudan, W86-00557 1902 6G

JORDAN RIVER
Reconnaissance of Toxic Substances in the Jordan River, Salt Lake County, Utah, W86-02766 1907 5A

JUDICIAL DECISIONS
Sixth Circuit's Unsettling Interpretation of the Corps of Engineers' Wetland Definition. United States v. Riverside Bayview Homes, Inc., 729 F. 2d 391 (6th Cir. 1984), cert. granted, 53 U.S.L.W. 3597 (U.S. Feb. 19, 1985) (No. 84-701), W86-00562 1902 6E

KAFUE FLATS
Effects of Human Activities on Zambia's Kafue Flats Ecosystems, W86-00558 1902 6G

KAFUE RIVER BASIN
Stochastic Models Applied to Evaluating Hydrologic Changes, W86-01293 1904 2A

KAGOSHIMA
Macroscopic Estimation of Available Water Resources in Kagoshima Prefecture, Japan (in Japanese),
W86-01604 1905 2A

KAGOSHIMA BAY
Diffusion Coefficient Evaluated From the Distribution of Nonconservative Material (in Japanese),
W86-01143 1904 5B

Seasonal Changes in the Distribution of Heterotrophic Bacteria in Kagoshima Bay,
W86-01147 1904 5B

Seasonal Changes in the Generic Composition of Heterotrophic Bacteria in Seawater of Kagoshima Bay (in Japanese),
W86-01148 1904 5B

KALAYAAN
Electro-Mechanical Equipment for the Kalayaan Pumped-Storage Plant,
W86-04999 1911 8C

KALMAN FILTERS
Equation Based Theoretical Approach to Network Design for Groundwater Levels Using Kalman Filters,
W86-05671 1912 2F

KAMES BAY
Effect of Temperature on the Growth of Planktonic Larvae of Tellina tenuis da Costa,
W86-01603 1905 5C

KANAWHA RIVER
Survey of the Freshwater Mussel Fauna of the Kanawha River September 1981-September 1982,
W86-01592 1905 2H

Corbicula fluminea (Mollusca: Pelecypoda) as a Biological Indicator of Heavy Metals in the Kanawha River, WV,
W86-01596 1905 7A

KANSAS
Assessment of Water Resources in Lead-Zinc Mined Areas in Cherokee County, Kansas, and Adjacent Areas,
W86-00121 1901 5A

Natural Ground-Water-Recharge Data from Three Selected Sites in Harvey County, South-Central Kansas,
W86-00132 1901 2F

Statistical-Meteorological Evaluation of Two Operational Seeding Projects,
W86-01136 1904 3B

Model Study of Salt-Water Intrusion to a River Using the Sharp Interface Approximation,
W86-01308 1904 2F

January 1984 Water Levels, and Data Related to Water-Level Changes, Western and South-Central Kansas,
W86-01960 1906 2F

Hydrology of Prairie Dog Creek Valley, Norton Dam to State Line, North-Central Kansas,
W86-02377 1906 2E

Hydrology of Prairie Dog Creek Valley, Norton Dam to State Line, North-Central Kansas,
W86-02406 1906 4B

Assessing Water-Shortage Risk of Reservoirs by Stochastic Simulation,
W86-02639 1907 4D

Sediment and Pesticide/Herbicide Transport Relationships,
W86-02642 1907 5B

Final Program Report, Fiscal 1983, Kansas Water Resources Research Institute,
W86-02647 1907 9D

Impact of Improved Agricultural Water Use Efficiency on Reservoir Storage in Sub-Humid Areas,
W86-02648 1907 3F

Methodology to Increase Precision in Measurement of Irrigation Efficiency,
W86-02649 1907 6D

Water-Data Program of the U.S. Geological Survey in Kansas, Fiscal Year 1983,
W86-02778 1907 7C

Generalized Configuration of the Base of the High Plains Aquifer in Kansas,
W86-02791 1907 2F

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, Pre-1950,
W86-02807 1907 2F

Water-Resources Reports Prepared by or in Cooperation with the U.S. Geological Survey, Kansas, 1886-1983,
W86-02818 1907 10C

Availabilty of Natural and Regulated Streamflows for Instream Uses During Historical Droughts, Lower Neosho River, Southeastern Kansas,
W86-02838 1907 2E

Percentage Change in Saturated Thickness of the High Plains Aquifer, West-Central Kansas, 1950 to Average 1982-84,
W86-02855 1907 7C

Water-Resources Activities of the U.S. Geological Survey in Kansas--Fiscal Years 1983 and 1984,
W86-02865 1907 2E

Geohydrology and Chemical Quality of Water in Upper Jurassic and Lower Cretaceous Rocks, Western Kansas,
W86-02868 1907 2F

Interpolating Water-Table Altitudes in West-Central Kansas Using Kriging Techniques,
W86-02880 1907 2F

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, 1980,
W86-02919 1907 7C

Method of Estimating Flood Volumes in Western Kansas,
W86-02922 1908 4A

Relations of Urban Land-Use and Dry-Weather Storm and Snowmelt Flow Characteristics to Stream-Water Quality, Shunganunga Creek Basin, Topeka, Kansas,
W86-02926 1908 4C

Water-Quality Reconnaissance and Statistical Analysis for Selected Water-Supply Lakes in Eastern Kansas,
W86-02927 1908 5A

Model Projections, 1980-99, for Arkansas River Valley, Hamilton and Kearny Counties, Southwestern Kansas,
W86-02928 1908 2F

Predictive Simulations of Alternatives for Managing the Water Resources of North Fork Solomon River Valley Between Kirwin Dam and Waconda Lake, North-Central Kansas,
W86-02941 1908 2A

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, 1970,
W86-02970 1908 2F

Evaluation of the Cost Effectiveness of the 1983 Stream-Gaging Program in Kansas,
W86-02992 1908 2E

Urban Water-Quality Data and Statistical Summaries for Selected Sites in the Shunganunga Creek Basin, Topeka, Kansas,
W86-03099 1908 5B

Hydrology of the Ogallala Aquifer in Ford County, Southwestern Kansas,
W86-03128 1908 2F

Water Resources Data, Kansas Water Year 1983,
W86-03183 1908 7C

KANSAS STATE GOVERNMENT EXPENDITURES
Improving Effectiveness in Planning and Equity Financing of State Water Resources Management,
W86-02643 1907 6E

KANTO LOAM
Field Observations and Numerical Experiments on a Drying Front in a Volcanic Ash Soil Called Kanto Loam,
W86-00038 1901 2F

KAOLINITE
Interaction Water-Silicate Minerals in the Unsaturated Zone Controlled by Thermodynamic Disequilibria,
W86-03756 1909 2K

KARST
Hydrogeological Prospecting Group and Types of Mineral Deposits Filled with Karst Water in China (in Chinese).
W86-00897 1903 2F

Assessment of Exploitable Ground-Water Resources on the Basis of Measurements of Spring Flow,
W86-03985 1910 2F

Evaluation of Electrical Resistivity Methods in the Investigation of Karstic Features, El Cajon Dam Site, Honduras,
W86-04747 1911 8E

Specific Hydrometry of Karst Regions,
W86-04812 1911 2F

Geochemical Investigations of Three Tropical Karst Drainage Basins in Puerto Rico,
W86-06171 1912 2E

KARST HYDROGEOLOGY
Discharge and Travel Time Determinations in the Royal Spring Groundwater Basin, Kentucky,
W86-02479 1907 2F

KARST HYDROLOGY
Case of Polychlorinated Biphenyl Contamination of Water and Sediment in the Slovenian Karst Region (Yugoslavia),
W86-00392 1902 5B

Flow in a Limestone Aquifer as Determined From Water Tracing and Water Levels in Wells,
W86-01296 1904 2F

Investigation of Pollution in a Karst Aquifer Utilizing Optical Brightener,
W86-02740 1907 5A

Ground Water Hydrology of the Elizabethtown Area, Kentucky,
W86-02845 1907 2F

Potentiometric Surface and Water Quality in the Principal Aquifer, Mississippian Plateaus Region Kentucky,
W86-02983 1908 2F

KASHIRANASHIGAWA

In Situ Measurements of Uptake of Inorganic Carbon and Nitrogen by the Aquatic Liverworts Jungermannia vulcanicola Steph. and Scapania undulata (L.) Dum. in an Acid Stream, Kashiranashigawa, Japan,
W86-00529 1902 2H

KAUPUNGINSELKA BAY

Phytoplankton Dynamics in a Hypertrophic Brackish-Water Bay,
W86-00932 1904 5C

KAZAKHSTAN

Hydromorphic Soils Wetted by Groundwater in Northern Kazakhstan,
W86-04556 1910 2G

KEJIMKUJIK NATIONAL PARK

Qualitative Analysis of the Pelagic Foodwebs of Three Acid-Impacted Lakes in Nova Scotia, Canada,
W86-01129 1904 2H

KENTUCKY

Spatially Varying Rainfall and Floodrisk Analysir,
W86-00012 1901 2E

Freshwater Naiad (Mussel) Fauna of the Nolin River in the Green River Drainage of Central Kentucky (Mollusca: Bivalvia),
W86-00534 1902 2H

Invertebrate Colonization Rates in the Tailwater of a Kentucky Flood-Control Reservoir,
W86-00618 1903 6G

Flow in a Limestone Aquifer as Determined From Water Tracing and Water Levels in Wells,
W86-01296 1904 2F

Leaching Study of Oil Shale in Kentucky with a Section on Hydrologic Reconnaissance of the Oil Shale Outcrop in Kentucky,
W86-01918 1905 5B

Impact Assessment of Coal Slurry Pipelines on Water Resources Utilization and Allocation,
W86-02464 1907 6D

Wetlands and Coal Surface Mining: A Management Handbook with Particular Reference to the Illinois Basin of the Eastern Interior Coal Region,
W86-02471 1907 6G

Report of the University of Kentucky Water Resources Research Institute for Fiscal Year 1983,
W86-02478 1907 9D

Discharge and Travel Time Determinations in the Royal Spring Groundwater Basin, Kentucky,
W86-02479 1907 2F

Identification of Soil-Water Chemical Parameters for the Prediction and Treatment of Suspended Solids in Surface Water Reservoirs of Coal Mine Lands,
W86-02480 1907 5D

Red River Gorge Residents: A Cultural and Historical Perspective,
W86-02712 1907 6B

Modeling of Overland Flow by the Diffusion Wave Approach,
W86-02738 1907 5B

Investigation of Pollution in a Karst Aquifer Utilizing Optical Brightener,
W86-02740 1907 5A

Fiscal Year 1984 Program Report (Kentucky Water Resources Research Institute).
W86-02746 1907 9D

Ground Water Hydrology of the Elizabethtown Area, Kentucky,
W86-02845 1907 2F

Potentiometric Surface and Water Quality in the Principal Aquifer, Mississippian Plateaus Region Kentucky,
W86-02983 1908 2F

Streamflow and Basin Characteristics at Selected Sites in Kentucky,
W86-02993 1908 7C

Low-Flow Characteristics of Kentucky Streams, 1983,
W86-02998 1908 7C

Effects on Water Quality of Coal Mining in the Basin of the North Fork Kentucky River, Eastern Kentucky,
W86-03136 1908 5B

Evaluation of Ground-Water Quality Data from Kentucky,
W86-03142 1908 2K

Water Resources Data, Kentucky Water Year 1983.
W86-03161 1908 7C

KENTUCKY BLUEGRASS

Comparative Water-Use Rates and Efficiencies, Leaf Diffusive Resistances, and Stomatal Action of Healthy and Stripe-Smutted Kentucky Bluegrass,
W86-05508 1912 2I

KENTUCKY RESERVOIR

Checklist of Phytoplankton (Exclusive of Diatoms) in Kentucky Reservoir,
W86-00631 1903 2H

KENYA

Preliminary Investigation on Chemical Quality of Inland Waters in Kenya,
W86-01361 1905 2K

Ethiopian Interests in the Division of the Nile River Waters,
W86-01379 1905 6D

Underground Works at Kenya's Kiambere Project,
W86-05006 1911 8A

KEPONE

Modification of the James River,
W86-00584 1902 6G

Modelling Kepone in the Striped Bass Food Chain of the James River Estuary,
W86-01116 1904 5B

KERALA

Highest Observed 1 to 10-Day Point and Areal Rainfall over Kerala State,
W86-01223 1904 2B

KERR RESERVOIR

Kerr Reservoir LANDSAT Experiment Analysis for March 1981,
W86-05746 1912 5A

KESAGAMI LAKE

Shore Zone Mapping and Classification of a Northern Lake,
W86-01839 1905 2H

KESTERSON RESERVOIR

Chemical Quality of Water at 14 Sites Near Kesterson National Wildlife Refuge, Fresno and Merged Counties, California,
W86-01959 1906 5B

KICKUTH ROOT ZONE BIOTECHNOLOGY

At the Root of the Matter,
W86-05122 1911 5D

KIELDER DAM

Numerical Analysis of Kielder Dam Spillway,
W86-01523 1905 8B

KIELDER WATER SCHEME

Large-Diameter Flexible Steel Pipes for the Transfer Works of the Kielder Water Scheme,
W86-00832 1903 8G

KIKI RIVER ESTUARY

Regional Unsteady Interface Between Fresh Water and Salt Water in a Confined Coastal Aquifer,
W86-00042 1901 2F

KILAUEA VOLCANO

Chemical Constitutents of Rainfall at Different Locations on Oahu, Hawaii,
W86-02631 1907 5B

KILLIFISH

Hg- and Cu-Induced Hepatocellular Changes in the Mummichog, Fundulus Heteroclitus,
W86-04762 1911 5C

KINEMATIC WAVE EQUATIONS

Estimating Peak Runoff from Field-Size Watersheds,
W86-06021 1912 2E

KINEMATIC WAVE THEORY

Kinematic Wave Approximation to Infiltration into Soils with Sorbing Macropores,
W86-01771 1905 2G

Solution to the Kinematic Wave Approach to Overland Flow Routing With Rainfall Excess Given by Philip's Equation,
W86-04310 1910 2E

KINETIC ENERGY

Effect of Kinetic Energy of Excess Rainfall on Soil Loss from Non-vegetated Plots,
W86-01028 1904 2J

KINETICS

Kinetic Studies of the Microbiological Conversion of Sulphate to Hydrogen Sulphide and Their Relevance to Sulphide Generation Within Sewers,
W86-00746 1903 5D

Determination of Kinetic Constants of Activated Sludge Microorganisms,
W86-00752 1903 5D

Kinetic Analysis of BOD and Nitrogen Removal in an Oxidation Ditch,
W86-00755 1903 5D

Copper Dissociation from Estuarine Humic Materials,
W86-01395 1905 5B

Natural Dechlorination Kinetics of Secondary Municipal Effluents,
W86-02142 1906 5D

Kinetic Model for the Chlorination of Power Plant Cooling Waters,
W86-03283 1908 5F

Rational Approaches in the Analysis of Chemical Disinfection Kinetics,
W86-03538 1909 5D

Some Implication of the Role of Kinetics in Enhancing Element Transport,
W86-03760 1909 2K

Mass-Balance Approach to the Understanding of Geochemical Processes in Aqueous Systems,
W86-03773 1909 5B

Evaluation of the Intensity of Some Recent Exogenic Geological Processes in the U.S.S.R. by the Hydrogeochemical Balances Method,
W86-03777 1909 2K

Sorption Kinetics of Toxic and Hazardous Organic Substances on New Jersey Coastal Plain Aquifer Solids,
W86-04052 1910 5B

Ozonation of Naphthalene in Aqueous Solution - II: Kinetic Studies of the Initial Reaction Step,
W86-04127 1910 5D

Constraints on the Validity of Equilibrium and First-Order Kinetic Transport Models in Structured Soils,
W86-04203 1910 2G

Kinetics of Aluminum Fluoride Complexation in Acidic Waters,
W86-04226 1910 5B

Role of Coagulation in the Kinetics of Sedimentation,
W86-04229 1910 5D

Desorption Kinetics of Phenol on Activated Carbon,
W86-04402 1910 5F

Kinetics of Methanogens in an Expanded-Bed Reactor,
W86-04587 1910 5F

Kinetics of Anaerobic Purification of Industrial Wastewater,
W86-04745 1911 5D

Kinetics and Stoichiometry of SBR/Denitrification with a Primary Sludge Carbon Source,
W86-05036 1911 5D

Inhibition Kinetics of Nitrification in Continuous-Flow Reactors,
W86-05052 1911 5D

Kinetics of Microbial Manganese Oxidation and Trace Metal Binding in Sediments: Results from an In Situ Dialysis Technique,
W86-05278 1911 2H

Dissolution Kinetics of Chrysotile at pH 7 to 10,
W86-05290 1911 2K

Inhibition Kinetics of Nitrification in Continuous-Flow Reactors,
W86-05894 1912 5D

KINETICS OF DENITRIFICATION
Characterization of the Kinetics of 'Denitrification' in Stream Sediments,
W86-03397 1908 5C

KISHWAUKEE RIVER BASIN
Low-Flow Characteristics of Streams in the Kishwaukee River Basin, Illinois,
W86-02787 1907 2E

KIWIFRUIT VINE
Transpiration from a Kiwifruit Vine as Estimated by the Heat Pulse Technique and the Penman-Monteith Equation,
W86-00516 1902 2D

KJELDAHL NITROGEN
Developments of Total Kjeldahl Nitrogen and Bacterial Biomers along a Potabilization Line.
W86-04130 1910 5F

KJELDAHL PROCEDURE
Chemiluminescence vs. Kjeldahl Determination of Nitrogen in Oil Shale Retort Waters and Organonitrogen Compounds,
W86-04445 1910 5A

KLAMATH BASIN
Organochlorine Chemical Residues in White Pelicans and Western Grebes from the Klamath Basin, California,
W86-01409 1905 5C

KONIN LAKES
Biomass and Structure of Phytoplankton in Konin Lakes in the Years 1976-1980,
W86-00438 1902 5C

KOOTENAI FORMATION
Regional Aquifer-System Analysis of the Northern Great Plains in Parts of Montana, North Dakota, South Dakota, and Wyoming--Geochemical Evolution of Ground-Water Composition in Two Confined Aquifer Systems,
W86-02400 1906 2K

KOREA
Heavy Metal Content of Oyster, Blue Mussel and Growing Water in Hansan-Geoje Bay (in Korean),
W86-00454 1902 5C

Water Quality Modelling of the Lower Han River, Korea,
W86-01236 1904 5B

Year of the African Drought,
W86-01429 1905 2B

KRAFT MILLS
Deposit Control Technology for Kraft Recovery Units,
W86-00170 1901 5D

Color Removal Process for Kraft Pulp and Paper Mill Effluents,
W86-01355 1905 5D

Stripping Kraft Foul Condensates with Waste Gases,
W86-03624 1909 5D

Metabolites of Xenobiotics in the Bile of Fish in Waterways Polluted by Pulpmill Effluents,
W86-05482 1912 5B

KRIGING
Comparison of Gaussian Conditional Mean and Kriging Estimation in the Geostatistical Solution of the Inverse Problem,
W86-01074 1904 2F

KURA-ARAXIN VALLEY
Agricultural and Ecological Features in the Exploitation of Irrigated Grounds and Means of Increasing Their Productivity (Agroekologicheskie Osobennosti Ispol'zovaniya Oroshaemykh Pochv i Puti Povysheniya ikh Proizvoditel'nosti),
W86-01258 1904 3F

KURA RIVER
Hygienic Evaluation of Bentonitic Clays and Filtrating Material from Azerbaijhan Deposits. 2nd Communication: Toxicologic and Hygienic Studies of the Bentonitic Clays from Agburun Deposits (Gigienicheskaya Otsenka Bentonitovykh Glini Fil'truyushchego Materiala Azerbaidzhandskogo Mestorozhdeniya),
W86-01257 1904 5F

KUZINSK
Structural Features of the Grey-Brownish Black Sandy Soils of Apsheron and Their Alteration Following Application of Water Pipe Sludge from Kuzinsk (Mikromorfologicheskie Osobennosti Sero-Burykh Peschanykh Pochv Apsherona i ikh Izmenenie Pri Vnesenii Kurinskogo Vodoprovodnogo Osadka),
W86-01256 1904 5E

KYONDO
Implementing the Taliha Mini Hydro Scheme in Zaire,
W86-04726 1911 8A

LA GRANDE HYDROELECTRIC COMPLEX
Simulating Fish Redistribution in the LG-2 Reservoir After Flooding,
W86-01166 1904 8I

LA MUELA
Construction of Spain's Cortes-La Muela Scheme,
W86-05000 1911 8C

LA TROBE RIVER
Phytoplankton of the La Trobe River, Victoria,
W86-00523 1902 2H

LABOR COSTS
Operation and Maintenance of the UOSA Water Reclamation Plant,
W86-04499 1910 5D

LABORATORY EQUIPMENT
Instruments and Methods. Field pH Determinations in Glacial Melt Waters,
W86-04355 1910 7B

LABRADOR
Sampling of Snow and Ice on Lakes,
W86-01788 1905 2C

LAC DES ALLEMANDS
Nutrient Fluxes in Eutrophic Coastal Louisiana Freshwater Lake,
W86-00724 1903 2H

LAGO DO REI
Fishing and Hydrologie in the Central Amazon (Peche et Hydrologie en Amazonie Centrale),
W86-00977 1904 2H

LAGOONS
Ponds and Lagoons of Horn and Petit Bois Islands, Mississippi, Gulf Islands National Seashore: Their Physical Size, Literature Review and Recommendations for Future Research,
W86-00278 1901 2H

Benthic Nutrient Remineralization in a Coastal Lagoon Ecosystem,
W86-01336 1905 2L

Eutrophication and Management Initiatives for the Control of Nutrient Inputs to Rhode Island Coastal Lagoons,
W86-01337 1905 5C

Tidal Exchange Between a Coastal Lagoon and Offshore Waters,
W86-01338 1905 2L

Zooplankton Abundance Distribution, of a Mediterranean Lagoon Ecosystem: The Sarrazine Lagoon (Distributions d'Abondances du Zooplancton d'un Ecosysteme Lagunaire Mediterraneen: la Lagune de la Sarrazine),
W86-01511 1905 2L

Organochlorine Hydrocarbon Residues in Sediments of Two Different Lagoons of Northwest Mexico,
W86-01899 1905 5B

Some Ecological Limits to the Use of Alternative Systems for Wastewater Management,
W86-02062 1906 5D

Chemical Quality of Landfill Leachate in Treatment Ponds and Migration of Leachate in the Surficial Aquifer, Pinellas County, Florida,
W86-03549 1909 5B

Analysis of a 24-Hour Cycle of Zooplankton Sampling in a Lagoon of the Po River Delta,
W86-05179 1911 2L

Distribution of Mercury in the Sediments and Fishes of the Lagoons of Aveiro, Portugal,
W86-05366 1911 5B

BEST COPY AVAILABLE

Selection and Verification of Hydraulic Flow Models for Lagoons,
W86-05846 1912 5D

LAGRANGIAN CIRCULATION
Effects of Spatial Variation in Amplitude and Phase of the Oscillatory Tidal Currents on the Residual Lagrangian Drifts,
W86-00085 1901 2L

LAGRANGIAN TRANSPORT MODEL
Lagrangian Multi-Level Model of Transport, Transformation and Deposition of Atmospheric Sulfur Dioxide and Sulfate,
W86-01883 1905 5B

LAHARIC BRECCIA
Map Showing Outcrops of Pre-Quaternary Ash-Flow Tuff and Laharic Breccia, Basin and Range Province, New Mexico,
W86-01939 1906 8E

LAHONTAN RESERVOIR
Species Composition and Seasonal Succession of the Zooplankton Community of Eutrophic Lahontan Reservoir, Nevada,
W86-01168 1904 2H

LAILAD
Effects of Temperature, Rainfall and Soil Moisture on Soil Respiration and Litter Decomposition in a Sub-Tropical Humid Forest Ecosystem,
W86-01759 1905 2G

LAKE
Phytoplankton-Environmental Interactions in Reservoirs, Volume II: Discussion of Workshop Papers and Open Literature,
W86-00206 1901 2H

LAKE ACIDIFICATION
Acid Precipitation in the Washington Cascades, Phase II,
W86-02513 1907 5B

Accumulation of Cadmium by White Suckers (Catostomus Commersoni) in Relation to fish Growth and Lake Acidification,
W86-05560 1912 5B

LAKE ANKETJARN
Lake Anketjarn, A Non-Acidified Lake in an Acidified Region,
W86-01165 1904 2H

LAKE BAIKAL
Investigations of the Ecology of Planktonic Algae of Water Bodies in the Baikal Region,
W86-01824 1905 2H

Microbiological Characteristics of Water Masses in the Mouth Regions of Large Rivers Flowing into Northern Baikal,
W86-01825 1905 2H

LAKE BALATON
Significance and Degree of Abioseston Consumption in the Filter-Feeder Daphnia galeata SARS am. RICHARD (Cladocera) in Lake Balaton,
W86-05085 1911 5B

LAKE BASINS
Special Contribution, Managing the Great Lakes Basin as a Home,
W86-04524 1910 2H

LAKE BEDS
Method for Locating Sediment Anomalies in Lakebeds That Can Be Caused by Groundwater Flow,
W86-01667 1905 2H

LAKE BIWA
Hypergame Analysis of the Lake Biwa Conflict,
W86-01762 1905 6B

Diagnostic Study on the Vertical Circulation and the Maintenance Mechanisms of the Cyclonic Gyre in Lake Biwa,
W86-05094 1911 2H

LAKE CARL BLACKWELL
Factors Influencing Inorganic Turbidity in a Great Plains Reservoir,
W86-00440 1902 2H

LAKE CHAMPLAIN
Study of the Distribution of Freshwater Mussels (Mollusca: Pelecypoda: Unionoida) of the Lake Champlain Drainage in Northwestern New England,
W86-01877 1905 2H

LAKE COMO
Management of Lake Como: A Multiobjective Analysis,
W86-04165 1910 6A

LAKE CONSTANCE
Seasonal Succession of Phytoplankton in Lake Constance,
W86-00051 1901 2H

Seasonal Observations of Heterotrophic Activity and Active Bacterial Number in Lake Constance,
W86-01329 1905 2H

LAKE DISCHARGES
Incidence of Vibrio cholerae and Related Vibrios in a Coastal Lagoon and Seawater Influenced by Lake Discharges along an Annual Cycle,
W86-04674 1910 5C

LAKE ERIE
Long-Term Impact of Dredged Material at Two Open-Water Sites: Lake Erie and Elliot Bay; Evaluative Summary,
W86-00160 1901 5C

Using Simulation to Assess the Impacts of Conservation Tillage on Movement of Sediment and Phosphorus into Lake Erie,
W86-00650 1903 4D

Evidence for Polynuclear Aromatic Hydrocarbons in the Diet of Bottom-Feeding Fish,
W86-00694 1903 5B

Estimating the Extent of Reduction Needed to Statistically Demonstrate Reduced Non-Point Phosphorus Loading to Lake Erie,
W86-01343 1905 5G

Lake Erie Nutrient Loads, 1970-1980,
W86-01344 1905 5G

LAKE ERKEN
Availability of Phosphorus and the Species Composition of the Spring Phytoplankton in Lake Erken,
W86-05156 1911 5C

LAKE EVAPORATION
Simplified Procedure for the Evaluation of the Lake Kinneret Evaporation,
W86-01475 1905 2D

LAKE EYRE CATCHMENT
Estimated Store of Soluble Salts in the Lake Eyre Catchment in Queensland and their Possible Transport in Streamflow to the Lake,
W86-01031 1904 2A

LAKE FISHERIES
Dynamics of the Structure of the Ichthyocenosis of Lake Ubinskoye,
W86-00912 1903 2H

LAKE FISHERIES, *FISH MANAGEMENT
Studies of the Limnology, Fish Populations, and Fishery of Turquoise Lake, Colorado: 1979-80,
W86-03339 1908 2H

LAKE FROME
Estimation of Evaporation from the Normally 'Dry' Lake Frome in South Australia,
W86-01471 1905 2D

LAKE GENEVA
Oligochaete Communities of the Sublittoral as Indicators of Lake Geneva Eutrophication,
W86-00624 1903 5A

Influence of the Sewage Treatment Plant Effluents on the Structure of the Benthic Communities of Lake of Geneva,
W86-00949 1904 5C

Egg Mortality of Lake Geneva Charr (Salvelinus Alpinus L.) Contaminated by PCB and DDT Derivatives,
W86-06070 1912 5C

LAKE GREVELINGEN
Lake Grevelingen: From an Estuary to a Saline Lake. An Introduction,
W86-01567 1905 6G

Phytoplankton and Nutrient Dynamics in Saline Lake Grevelingen (SW Netherlands) under Different Hydrodynamical Conditions in 1978-1980,
W86-01568 1905 6G

Nutrient Cycling and Ecosystem Behaviour in a Salt-Water Lake,
W86-01569 1905 2H

Phytoplankton Primary Production in Brackish Lake Grevelingen (SW Netherlands) During 1976-1981,
W86-01570 1905 2H

Changes of Sediment Distribution Patterns in Lake Grevelingen, an Enclosed Estuary in the SW Netherlands,
W86-01571 1905 2H

Sediment-Water Exchange in Lake Grevelingen under Different Environmental Conditions,
W86-01572 1905 2H

Nutrient Concentrations in the Interstitial Water of Lake Grevelingen Sediment: Effects of Sediment Redistribution and Benthic Primary Production Processes,
W86-01573 1905 2H

Carbon Fixation and Chlorophyll in Bottom Sediments of Brackish Lake Grevelingen, The Netherlands,
W86-01574 1905 2H

Dynamics, Migration and Growth of Nassarius reticulatus (Mollusca: Prosobranchia) Colonizing Saline Lake Grevelingen (SW Netherlands),
W86-01575 1905 2H

Long-Term Evolution of the Meiofauna at a Sandy Station in Lake Grevelingen, The Netherlands,
W86-01576 1905 2H

Density, Growth and Annual Food Consumption of Plaice (Pleuronectes platessa L.) and Flounder (Platichthys felsus (L.)) in Lake Grevelingen, The Netherlands,
W86-01577 1905 2H

Carbon Mineralization in the Water of Lake Grevelingen (The Netherlands), as Measured with the Oxygen Consumption Method,
W86-01578 1905 2H

Mineralization of Organic Carbon on and in the Sediment of Lake Grevelingen,
W86-01579 1905 2H

Carbon Balance of a Saline Lake (Lake Grevelingen, The Netherlands),
W86-01580 1905 2H

LAKE HOLMSJON
Stratification and Primary Production in a Small Brackish Lake Studied by Close-Interval Siphon Sampling,
W86-00930 1904 2H

LAKE HURON
Factors Affecting Growth and Recruitment of Yellow perch, Perca flavescens Mitchill, in South Bay, Lake Huron,
W86-01508 1905 8I

LAKE ICE
Sampling of Snow and Ice on Lakes,
W86-01788 1905 2C

Satellite Observation of Great Lakes Ice: 1980-81,
W86-03258 1908 2C

LAKE JACARETINGA
Responses of Phytoplankton in Lake Jacaretinga to Enrichment with Nitrogen and Phosphorus in Concentrations Similar to Those of the River Solimoes (Amazon, Brazil),
W86-01500 1905 2H

LAKE KASUMIGAURA
Photosynthesis and Primary Production of Microcystis aeruginosa Kutz. in Lake Kasumigaura,
W86-00518 1902 2H

Regression Models for Estimating Storm Runoff Load and its Application to Lake Kasumigaura,
W86-05584 1912 5B

LAKE KHURPATAL
Compositional and Structural Analysis of Phytoplankton in Lake Khurpatal, (U.P.), India,
W86-01133 1904 2H

LAKE KINNERET
Simplified Procedure for the Evaluation of the Lake Kinneret Evaporation,
W86-01475 1905 2D

LAKE KOCHEL
Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 1. Dynamics of Production and Population of the Phytoplankton in Dependence on Nutrients (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 1. Productions- und Populationsdynamik des Phytoplanktons in Abhangigkeit vom Nahrstoffangebot),
W86-04183 1910 5C

Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 2. Seasonal, Vertical and Horizontal Distribution of Bacteria (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 2. Saisonale, Vertikale und Horizontale Verteilung der Bakterien),
W86-04184 1910 5C

LAKE KOJIMA
Partitioning of Heavy Metals (Fe, Mn, Cd, Pb, Cu, Zn, Co, Ni and As) and P into Selective Chemical Fractions in Sediments from Lake Kojima (in Japanese),
W86-01362 1905 5B

LAKE KUORTANEENJARVI
Water Quality Model for Lake Kuortaneenjarvi, a Polyhumic Finnish Lake,
W86-00677 1903 2H

LAKE LE ROUX
Aspects of the Feeding Ecology of Turbin Water Zooplankton. In situ Studies of Community Filtration Rates in Silt-Laden Lake le Roux, Orange River, South Africa,
W86-05183 1911 2H

LAKE LEVELS
Drought of 1980-82 in Southeast Florida with Comparison to the 1961-62 and 1970-71 Droughts,
W86-03082 1908 2B

May 1984-April 1985 Water Budget of Reelfoot Lake with Estimates of Sediment Inflow and Concentrations of Pesticides in Bottom Material in Tributary Streams--Basic Data Report,
W86-03100 1908 5B

Hydrologic-Data Stations and Lake Levels, Kenai-Nikiski Area, Alaska, 1983,
W86-03115 1908 2E

Recent Heavy Precipitation in the Vicinity of the Great Salt Lake: Just How Unusual,
W86-05550 1912 2H

LAKE LOUISE
Aquatic Vegetation of a Natural Marl Lake in West Virginia,
W86-01594 1905 2H

LAKE LUODONJARVI
Landsat Study of the Aquatic Vegetation of the Lake Luodonjarvi Reservoir, Western Finland,
W86-00532 1902 2H

LAKE MAHKEENAC
Six Ponds Dioxin Survey,
W86-01551 1905 5C

LAKE MANAGEMENT
Economical and Effective Measures for Lake Protection and Management,
W86-05880 1912 4D

LAKE MANITOBA
Sediment Resuspension and Currents in Lake Manitoba,
W86-01341 1905 2H

LAKE MENDOTA
Effect of Fall Turnover on Terminal Carbon Metabolism in Lake Mendota Sediments,
W86-04253 1910 2H

LAKE MICHIGAN
Chlorinated Hydrocarbons as a Factor in the Reproduction and Survival of Lake Trout (Salvelinus namaycush) in Lake Michigan.
W86-00363 1902 5C

Introduction and Summary,
W86-00364 1902 5C

Comparative Hatchability of Lake Trout Eggs Differing in Contaminant Burden and Incubation Conditions,
W86-00365 1902 5C

Growth and Mortality of Fry of Lake Michigan Lake Trout During Chronic Exposure to PCB's and DDE,
W86-00366 1902 5C

Swimming Performance of Young Lake Trout after Chronic Exposure to PCB's and DDE,
W86-00367 1902 5C

Vulnerability of Young Lake Trout to Predation After Chronic Exposure to PCB's and DDE,
W86-00368 1902 5C

Temperature Selection by Young Lake Trout After Chronic Exposure to PCB's and DDE,
W86-00369 1902 5C

Biochemistry and Metabolism of Lake Trout: Laboratory and Field Studies on the Effects of Contaminants,
W86-00370 1902 5C

Machine Classification of Freshwater Ice Types from Landsat-1 Digital Data Using Ice Albedos as Training Sets,
W86-01288 1904 2C

Currents and Temperatures in Green Bay, Lake Michigan,
W86-01342 1905 2H

Contaminant Levels in Colonial Waterbirds from Green Bay and Lake Michigan, 1975-80,
W86-01885 1905 5C

Vapor Exchange of PCBs with Lake Michigan: The Atmosphere as a Sink for PCBs,
W86-02014 1906 5B

Processes Determining the Flux of PCBs Across Air/Water Interfaces,
W86-02019 1906 5B

Role of Surface Microlayers in the Air-Water Exchange of PCBs,
W86-02021 1906 5B

PCB Accumulation in Southern Lake Michigan Sediments: Evaluation from Core Analysis,
W86-02024 1906 5A

Model Simulation of PCB Dynamics in Lake Michigan,
W86-02028 1906 5A

Application of a Sediment Dynamics Model for Estimation of Vertical Burial Rates of PCBs in Southern Lake Michigan,
W86-02032 1906 5B

Seasonal and Spatial Distribution of Bacteria, Chlorophyll, and Nutrients in Nearshore Lake Michigan,
W86-04526 1910 2H

Relationships Between Chlorinated Hydrocarbon Concentrations and Rearing Mortality of Chinook Salmon (Oncorhynchus Tshawytscha) Eggs from Lake Michigan,
W86-04528 1910 5C

Evaluation of the Toxic Components of Toxaphene in Lake Michigan Lake Trout,
W86-05400 1911 5A

Mesoscale Frequencies and Seasonal Snowfalls for Different Types of Lake Michigan Snow Storms,
W86-05417 1912 2B

LAKE MODELING
Lake Modeling: State of the Art,
W86-00850 1903 2H

LAKE MORPHOLOGY
Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 2. Seasonal, Vertical and Horizontal Distribution of Bacteria (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 2. Saisonale, Vertikale und Horizontale Verteilung der Bakterien),
W86-04184 1910 5C

Use of Enhanced Landsat Imagery for Mapping Lake Depth,
W86-04603 1910 7B

Morphology and Content of Dry Matter and Some Elements in Cells and Stalks of Nevskia from an Eutrophic Lake,
W86-05419 1912 5A

Economical and Effective Measures for Lake Protection and Management,
W86-05880 1912 4D

LAKE NAINITAL
Analysis of the Biotic Community in a Kumaun Himalayan Lake, Nainital (U.P.), India,
W86-05159 1911 5C

LAKE NAKANUMA
Uptake of Inorganic Carbon and Nitrogen by Phytoplankton During the Winter Mixing

Period in a Freshwater Lake, Lake Nakanuma, Japan,
W86-04185 1910 2H

LAKE OKEECHOBEE
Water Quality and Regional Water Supply Planning,
W86-01101 1904 4A

LAKE ONTARIO
Postsettlement Diatom Succession in the Bay of Quinte, Lake Ontario,
W86-00609 1902 5C

Assessment of Ecological Changes During the Recent History of Lake Ontario Based on Siliceous Algal Microfossils Preserved in the Sediments,
W86-01110 1904 2H

Discrimination of the Stock of Fish (Eels, Anguilla rostrata) Based on the Presence of the Synthetic Chemical Mirex (Discrimination d'un Stock de Poisson, l'Anguille (Anguilla rostrata), Basee sur la Presence d'un Produit Chimique de Synthese, le Mirex),
W86-01584 1905 5C

Identification of New, Fluorinated Biphenyls in the Niagara River-Lake Ontario Area,
W86-01621 1905 5B

Fate of Hazardous Waste Derived Organic Compounds in Lake Ontario,
W86-04441 1910 5B

Anthropogenic, Polyhalogenated, Organic Compounds in Non-Migratory Fish from the Niagara River Area and Tributaries to Lake Ontario,
W86-04527 1910 2H

LAKE ONTOGENY
Accumulation of Sediment Organic Matter in a Hardwater Lake with Reference to Lake Ontogeny,
W86-00643 1903 2J

LAKE ORTA
Sediment as a Record of Copper Pollution in Lake Orta,
W86-00958 1904 5B

LAKE PAIJANNE
Distribution and Decomposition of Lignosulphonates in Lake Paijanne, Central Finland,
W86-00939 1904 5B

LAKE PATZCUARO
Benthic Organisms as Indicators of Water Quality in Lake Patzcuaro, Mexico,
W86-01608 1905 5A

LAKE PONTCHARTRAIN
Factors Influencing the Salinity Regime of Lake Pontchartrain, Lousisana, a Shallow Coastal Lagoon: Analysis of a Long-Term Data Set,
W86-01535 1905 6G

LAKE RESTORATION
Hypolimnetic Aeration: Practical Design and Application,
W86-00060 1901 5G

Flow Balancing Method for Stormwater and Combined Sewer Overflow.
W86-00191 1901 5D

In-Lake Water Quality Management Plan for a Recreational Lake in Central Illinois,
W86-00794 1903 5G

Restoration of a Small Lake by Combined Mechanical and Biological Methods,
W86-00946 1904 5G

Restoration of Lake Veluwe, The Netherlands, by Reduction of Phosphorus Loading and Flushing,
W86-01198 1904 5G

Dredging and Management Problems in Lake Suwa,
W86-03462 1909 5G

Restoration Study of Dredging in Lake Ksaumigaura,
W86-03468 1909 5G

State-of-the-Art Summary of Phosphorus Inactivation as a Lake Restoration Technique,
W86-03486 1909 5G

Aeration/Circulation for Control of Algal Production,

LAND USE
Preliminary Evaluation of Lake Susceptibility to Water-Quality Degradation by Recreational Use, Alpine Lakes Wilderness Area, Washington,
W86-00114 1901 5C

Effects of Acid Rain on Soil and Water,
W86-00166 1901 2K

Problem of People: Critical Areas and Floating Zones in the Chesapeake,
W86-00573 1902 6E

Ecological Alterations of Iowa Prairie-Agricultural Streams,
W86-00581 1902 6G

Surface Water Quality in Relation to Soil Type, Land Use and Discharge in a Rural Catchment Area,
W86-01249 1904 5B

Long-Term Streamflow Observations in Relation to Basin Development,
W86-01472 1905 4C

Projecting Land Use Changes Associated with Small Watershed Development,
W86-01976 1906 6G

Indian Land Use and Occupancy in the Franklin D. Roosevelt Lake Area of Washington State,
W86-01992 1906 6G

Fiscal Year 1983 Institute Program Report, (Virginia Water Resources Research Center),
W86-02522 1907 9D

Effects of Land Use Practices on Water Resources in Virginia,
W86-02523 1907 5G

Analysis of Urban Runoff Data and Effects on the South Platte River, Denver Metropolitan Area, Colorado,
W86-02813 1907 5B

Summary of Urban-Runoff Studies in the Denver Metropolitan Area, Colorado,
W86-02875 1907 5B

Relations of Urban Land-Use and Dry-Weather Storm and Snowmelt Flow Charactertistics to Stream-Water Quality, Shunganunga Creek Basin, Topeka, Kansas,
W86-02925 1908 4C

Water-Quality Reconnaissance and Statistical Analysis for Selected Water-Supply Lakes in Eastern Kansas,
W86-02927 1908 5A

Dirty Devil Project: Class II Cultral Resources Inventory in Central Utah,
W86-03518 1909 6G

Hydrology and Land Use in Van Buren County, Michigan,
W86-03554 1909 2E

Measurement of Soil Loss from Experimental Basins in Malawi,
W86-03590 1909 2J

Some Methods for Evaluating Soil Erosion Risk,
W86-03593 1909 2J

Final Environmental Impact Statement for Sludge Disposal for the Des Moines Integrated Community Area,
W86-03635 1909 5E

Effects of Regional Water Management on N-Pollution in Areas with Intensive Agriculture,
W86-03650 1909 5G

Operational Testing of Hydrological Simulation Models,
W86-04391 1910 7C

Hydrological Effects of Moorland Gripping: a Re-appraisal of the Moor House Research,
W86-04599 1910 4A

Delineating Zones of Contribution for Public Supply Wells to Protect Ground Water in New England,
W86-04705 1911 5G

Development of Sheet Erosion on Intensively Used Soils,
W86-04905 1911 2J

Output and Investment Frontiers of United States Irrigated Agriculture,
W86-05326 1911 6C

Prediction of Underground Water Regime and Balance in Lands Under Reclamation,
W86-05648 1912 4C

Effects of Land-Use Changes on Groundwater Recharge Assessed Using a Nonlinear Catchment Model,
W86-05655 1912 4C

Assessment of the Effects of Land Use on Groundwater Recharge,
W86-05660 1912 4C

LANDFILL
Suitability of Selected Organisms for Monitoring Leachate at a Refuse Disposal Site,
W86-02627 1907 5A

Volatile Organic Compounds at Hazardous Waste Sites and a Sanitary Landfill in New Jersey,
W86-04384 1910 5B

LANDFILL LEACHATE
Chemical Quality of Landfill Leachate in Treatment Ponds and Migration of Leachate in the Surficial Aquifer, Pinellas County, Florida,
W86-03549 1909 5B

LANDFILL LEACHATES
Leachate Treatment with Nitrification of Ammonia,
W86-01065 1904 5D

LANDFILL LINERS
Design Considerations for a Novel Landfill Liner,
W86-01730 1905 5G

LANDFILLS
Leachate from Hazardous Wastes Sites,
W86-00247 1901 5B

Biological Treatment of Landfill Leachates,
W86-00856 1903 5D

Gas-chromatographic Determination of Free Volatile Fatty Acids (C2 to C6) in Percolation Water of Household Refuse Dumping Places (Die Gaschromatographische Bestimmung von Freien Fluchtigen Fettsauren (C2 - C6) im Sickerwasser von Hausmulldeponien),
W86-01001 1904 5A

Leachate Attenuation in the Unsaturated Zone Beneath Landfills: Instrumentation and Monitoring of a Site in Southern England,
W86-01177 1904 5A

Application of Artificial Clays in the Control of Toxic Pollutants,
W86-01456 1905 5E

Measuring the Waterbalance of a Three-Layer Cover of a Domestic Waste Landfill,
W86-01459 1905 5G

Use of a Cement-Bentonite Cut-Off Wall to Contain Possible Pollutants from a Landfill Containing Highly Polluted Dredging Spoils,
W86-01460 1905 5G

Hazardous Waste Cleanup: The Preliminaries,
W86-01738 1905 5G

Test Well Installation and Water Quality, Hollywood Dump Area, Memphis, Tennessee,
W86-01928 1906 5B

Geological Factors in Disposal Site Selection,
W86-02043 1906 5E

Siting Hazardous Waste Management Facilities: Theory Versus Reality,
W86-02045 1906 5G

Dealing with Landfilled Hazardous Sludge, other Alternatives,
W86-02116 1906 5E

Environmental and Engineering Aspects Related to the Restoration of a Ferrous Sulfate (Copperas) Waste Disposal Site,
W86-02117 1906 5E

Construction Techniques for Remedial Design at a Connecticut Superfund Site: A Case Study,
W86-02118 1906 5G

Predicting Leachate Generation in Landfills: A New Method,
W86-02122 1906 5E

Formation of Volatile Haloorganic Compounds in the Chlorination of Municipal Landfill Leachates,
W86-02171 1906 5B

Hazardous Waste Management for the 80's.
W86-02219 1906 5E

Use of Aerial Photography and Remote Sensing in the Management of Hazardous Wastes,
W86-02224 1906 5G

Clay Liner Permeability - A Probabilistic Description,
W86-02227 1906 5E

Containment and Encapsulation of Hazardous Waste Disposal Sites,
W86-02228 1906 5E

Estimates of Seepage Through Clay Covers on Hazardous Waste Landfills,
W86-02229 1906 5E

Case Histories of Groundwater Assessment,
W86-02232 1906 5B

Evaluation of Tennessee Sites for the Disposal of Hazardous Wastes–Social, Economic and Technical Considerations,
W86-02539 1907 5E

Detection and Effects of Aperiodic Leachate Discharges from Landfills,
W86-02663 1907 5B

Preliminary Evaluation of Hydrology and Water Quality in Relation to the Tacoma Landfill, Pierce County, Washington,
W86-02961 1908 5B

Chemical Quality of Landfill Leachate in Treatment Ponds and Migration of Leachate in the Surficial Aquifer, Pinellas County, Florida,
W86-03549 1909 5B

Application of Multi-Phase Flow Theory at a Chemical Waste Landfill, Niagara Falls, New York,
W86-04069 1910 5G

Simplified Groundwater Sampling Techniques at Landfills,
W86-04098 1910 5B

Distribution of Plutonium and Americium Beneath a 33-yr-old Liquid Waste Disposal Site,
W86-04416 1910 5B

Field Aging of Fixed Sulfur Dioxide Scrubber Waste,
W86-04636 1910 5E

Two-dimensional Pollutant Migration in Soils of Finite Depth,
W86-05102 1911 5B

Practical Applications of Geological Methods at the West Valley Low-Level Radioactive Waste Burial Ground, Western New York,
W86-05138 1911 5E

Health Aspects of Hazardous Waste Disposal,
W86-05455 1912 5E

Groundwater Contamination from Hazardous Wastes,
W86-05794 1912 5B

LANDSAT
Monitoring of Reservoir Volume Using Landsat Data,
W86-00032 1901 7C

Kerr Reservoir LANDSAT Experiment Analysis for March 1981,
W86-05746 1912 5A

LANDSAT-1
Machine Classification of Freshwater Ice Types from Landsat-1 Digital Data Using Ice Albedos as Training Sets,
W86-01288 1904 2C

LANDSAT DATA
District-Wide Water Resources Investigation and Management using Landsat Data, Phase 1: Lake Volume,
W86-05744 1912 7B

LANDSLIDES
Integrated Debris Flow Observations,
W86-04868 1911 2J

Studies of Sediment Production on Mountain Slopes,
W86-04869 1911 4D

Some Laboratory Techniques of Investigating Land Erosion,
W86-04885 1911 2J

Re-Examination of Slide of Lower San Fernando Dam,
W86-05555 1912 8D

LANGMUIR ISOTHERM
Graphical Representation of a New Linear Form of the Langmuir Adsorption Isotherm (Representation Graphique d'une Nouvelle Forme Linearisee de l'Equation de l'Isotherme de Langmuir),
W86-04118 1910 5D

LANZHOU
Wastewater Treating at Lanzhou,
W86-01442 1905 5D

LARAMIE RIVER
Organic Contaminant Transport in Groundwater, Surface Water, and Surface Water Sediments. Year 1 Progress Report,
W86-02579 1907 5B

LARCH TREES
Light Reduction and Moisture Stress: Effects on Growth and Water Relations of Western Larch Seedlings,
W85-01785 1905 2I

LARGE SCALE STUDIES
International Perspective on Large-Scale Snow Studies,
W86-01446 1905 2C

LARIX
Canopy Transpiration and Water Fluxes in the Xylem of the Trunk of Larix and Picea Trees - a Comparison of Xylem Flow, Porometer and Cuvette Measurements,
W86-01601 1905 2I

LARVAE
Turbidity Enhances Feeding Abilities of Larval Pacific Herring, Clupea harengus pallasi,
W86-00444 1902 2L

Aquatic Bioassay of 11 Pesticides Using Larvae of the Mosquito, Wyeomyia smithii (Diptera: Culicidae),
W86-00733 1903 5A

Cr6+ Influence upon Ephemeroptera Larvae in a Pre-Alpine Torrent,
W86-00956 1904 5C

Combined Effects of Salinity and Cadmium Chloride upon Embryos and Larvae of the Japanese Oyster, Crassostrea gigas,
W86-01790 1905 5C

LAS VEGAS VALLEY AQUIFER
Some Computational Experiences Using Embedding Technique for Ground-Water Management,
W86-01307 1904 2F

LASER PROFILER
Inertial Instrument System for Aerial Surveying,
W86-02790 1907 7B

LASERS
Combined Hydrometeor Distributions from Three PMS Probes,
W86-00308 1902 3B

Drop Size Distribution Measurement Problems Using a Laser Unit,
W86-00502 1902 7B

LASSEN VOLCANIC NATIONAL PARK
Quantitative Analysis of the Lassen Hydrothermal System, North Central California,
W86-01077 1904 2F

Quantitative Analysis of the Hydrothermal System in Lassen Volcanic National Park and Lassen KGRA,
W86-02994 1908 2F

LATENT HEAT FLUX
Determination of the Latent Heat Flux in Fog,
W86-05497 1912 2B

LATERAL BED
Bed Topography in Bends of Sand-Silt Rivers,
W86-05976 1912 2J

LATEX CONCRETE
On-Site Tests of a New Type of Tunnel Lining at the Nurek Hydrostation Construction Site,
W86-00981 1904 8F

LATRINES
Low-Cost Alternatives to Sewerage,
W86-02334 1906 5D

LATROBE RIVER
Organization of Macroinvertebrate Communities in the Major Tributaries of the LaTrobe River, Victoria, Australia,
W86-01123 1904 2H

LAURENTIAN GREAT LAKES
Effects of Entrainment on Phytoplankton Primary Production at Four Thermal Electric Generating Stations on the Laurentian Great Lakes,
W86-01132 1904 5C

LAWRENCE LIVERMORE NATIONAL LABORATORY
On-Line Liquid-Effluent Monitoring of Sewage at Lawrence Livermore National Laboratory,
W86-05799 1912 5D

LAYERED SOILS
Steady-State Evaporation from Layered Soils,
W86-04409 1910 2G

LEACHATE
Estimates of Seepage Through Clay Covers on Hazardous Waste Landfills,
W86-02229 1906 5E

Suitability of Selected Organisms for Monitoring Leachate at a Refuse Disposal Site,
W86-02627 1907 5A

Some Hydrologic Aspects of Proposed Coal Mining in the North Fork of the Flathead River Headwaters Area, Northwest Montana and South East British Columbia,
W86-02707 1907 4C

Applications of Fluorescent Dye Tracers in the Planning and Hydrological Appraisal of Sanitary Landfills,
W86-04679 1910 5G

LEACHATES
Leachate from Hazardous Wastes Sites,
W86-00247 1901 5B

Biological Treatment of Landfill Leachates,
W86-00856 1903 5D

Gas-chromatographic Determination of Free Volatile Fatty Acids (C2 to C6) in Percolation Water of Household Refuse Dumping Places (Die Gaschromatographische Bestimmung von Freien Fluchtigen Fettsauren (C2 - C6) im Sickerwasser von Hausmulldeponien),
W86-01001 1904 5A

Leachate Treatment with Particular Reference to Aerated Lagoons,
W86-01023 1904 5D

Leachate Attenuation in the Unsaturated Zone Beneath Landfills: Instrumentation and Monitoring of a Site in Southern England,
W86-01177 1904 5A

Solvent Interactions with Complex, Concentrated Industrial Wastewaters,
W86-02111 1906 5D

Dealing with Landfilled Hazardous Sludge, other Alternatives,
W86-02116 1906 5E

Environmental and Engineering Aspects Related to the Restoration of a Ferrous Sulfate (Copperas) Waste Disposal Site,
W86-02117 1906 5E

Predicting Leachate Generation in Landfills: A New Method,
W86-02122 1906 5E

Formation of Volatile Haloorganic Compounds in the Chlorination of Municipal Landfill Leachates,
W86-02171 1906 5B

Attenuation of Leachate Generated from Co-Disposal of Volcanic Ash and Solid Waste,
W86-02432 1907 5C

Detection and Effects of Aperiodic Leachate Discharges from Landfills,
W86-02663 1907 5B

Study of Some Puerto Rican Soils as Natural Sealers of Attenuators Against Groundwater Pollution from Sanitary Landfill Leachates,
W86-02716 1907 5E

Stochastic-Convective Ensemble Method for Representing Dispersive Transport in Groundwater,
W86-03498 1909 5B

Transport of Contaminants from Energy Process Waste Leachates through Subsurface Soils and Soil Components Laboratory Experiments,
W86-03500 1909 5B

Distribution of Selected Trace Organics in the Leachate Plume of a Municipal Landfill,
W86-04059 1910 5B

Biological Treatment of a Landfill Leachate in Sequencing Batch Reactors,
W86-04385 1910 5D

Sanitary Landfill Leachate Recycle,
W86-04971 1911 5E

Toxicity of Coal Gasifier Solid Waste to the Aquatic Plants Selenastrum capricornutum and Spirodela oligorhiza,
W86-06073 1912 5C

Cadmium Soil Sorption at Low Concentrations. IV. Effect of Waste Leachates on Distribution Coefficients,
W86-06090 1912 5B

LEACHING

Factors Affecting Leaching of Nutrients from an Intensively Managed Grassland in County Antrim, Northern Ireland,
W86-00903 1903 5B

Leachability of Carbon-14-Labelled 3,4-Benzopyrene from Coal Ash into Aqueous Systems,
W86-00997 1904 5B

Effect of Leaching on the Integrity of a Natural Clay,
W86-01457 1905 5E

Model for Nitrate Leaching in Undisturbed Structured Clay Soil During Unsteady Flow,
W86-01655 1905 5B

Leaching Fraction Beyond Depth x, Caused by Percolation of a Soil Profile with an Initial Salt Accmulation at its Surface,
W86-01662 1905 2G

Effect of the Content of Organic Matter in Soil on Leaching of Chemical Fertilizers into the Zone of Aeration and Groundwaters,
W86-01822 1905 5B

Leaching Study of Oil Shale in Kentucky with a Section on Hydrologic Reconnaissance of the Oil Shale Outcrop in Kentucky,
W86-01918 1905 5B

Physical Properties and Leach Testing of Solidified/Stabilized Industrial Wastes.
W86-02001 1906 5E

Changes in Distribution of Mineral Nitrogen Under Native Range and Cultivated Fields at the Nebraska Sandhills Ag. Laboratory,
W86-02590 1907 5B

Some Implication of the Role of Kinetics in Enhancing Element Transport,
W86-03760 1909 2K

Undergound Oil Spill Investigation and Clean-up,
W86-04032 1910 5G

Groundwater Quality Changes Resulting from a Surface Bromide Application to a Pasture,
W86-04419 1910 5B

Measured and Creams-Predicted Nitrogen Losses from Tomato and Corn Management Systems,
W86-04538 1910 5B

Soil Formation on Tuff Parent Material in the Pokamenya Tunguska River Basin,
W86-04551 1910 2G

Leaching Tests of Heavy Metals Stabilized with Portland Cement,
W86-05054 1911 5E

Two-dimensional Pollutant Migration in Soils of Finite Depth,
W86-05102 1911 5B

Leaching of Herbicides Through Undisturbed Cores of a Structured Clay Soil,
W86-05125 1911 5B

Evaporite Mineralogy Associated with Saline Seeps in Southwestern North Dakota,
W86-05128 1911 3C

Practical Applications of Geological Methods at the West Valley Low-Level Radioactive Waste Burial Ground, Western New York,
W86-05138 1911 5E

Effect of Irrigation Efficiencies on Nitrogen Leaching Losses,
W86-05235 1911 3F

Evidence for Movement of Heavy Metals in a Soil Irrigated with Untreated Wastewater,
W86-05322 1911 5E

Leaching Tests of Heavy Metals Stabilized with Portland Cement,
W86-05896 1912 5E

Salinity of Motorway Soils. III. Simulation of the Effects of Salt Usage and Rainfall on Sodium and Chloride Concentrations in the Soil of Central Reserves,
W86-06035 1912 5B

Dissolved Organic Carbon of Coal Slurry Transport Water,
W86-06162 1912 5B

LEAD

Heavy Metal Accumulation (Cd, Cu, Pb and Zn) by Smelt (Osmerus mordax) From the North Shore of the St Lawrence Estuary (Accumulation de Queiques Metaux Lourds (Cd, Cu, Pb Et Zn) Chez L'Eperlan (Osmerus mordax) Preleve Sur La Rive Nord De L'Estuaire du Saint-Laurent),
W86-00059 1901 5C

Copper, Zinc, Cadmium, and Lead in Scallops (Placopecten magellanicus),
W86-00393 1902 5B

Effect of Sulfite Dechlorination on the Accumulation of Waterborne Lead by Rainbow Trout (Salmo gairdneri),
W86-00615 1903 5A

Mobility of Zinc, Cadmium, Copper, Lead, Iron and Arsenic in Ground Water as a Function of Redox Potential and pH,
W86-00706 1903 5B

Influence of Zinc and Lead Compounds in Water on the Assimilation of Fontinalis antipyretica (Zum Einfluss von Ruckstanden von Zink- und Bleiverbindungen im Wasser auf die Assimilation von Fontinalis antipyretica),
W86-01008 1904 5C

Diagenetic Remobilization of Manganese, Iron, Copper and Lead in Anoxic Sediment of a Freshwater Pond,
W86-01646 1905 2H

Biogeochemistry of Lead in McDonalds Branch Watershed, New Jersey Pine Barrens,
W86-01703 1905 5B

Lead Distribution and Fluxes in a High-Elevation Forest in Northern Vermont,
W86-01706 1905 5B

Occurrence and Dissipation of High Lead Level Episodes in the Lower Mississippi River,
W86-01735 1905 5B

Determination of Zinc, Cadmium, Lead and Copper in Precipitation by Computerized Differential Pulse Voltammetry,
W86-01846 1905 5A

Lead and Cadmium in Precipitation in the Essex Region of Southwestern Ontario,
W86-03772 1909 5B

Successful Abatement of Lead Exposure from Water Supplies in the West of Scotland,
W86-04146 1910 5C

Lead Cycling in an Acidic Adirondack Lake,
W86-04425 1910 2K

Speciation of Lead and Methyllead Ions in Water by Chromatography/Atomic Absorption Spectrometry after Ethylation with Sodium Tetraethylborate,
W86-04459 1910 5A

Examination of Environmentally Safe Levels of Zinc (II), Cadmium (II) and Lead (II) with Reference to Impact on Channelfish Nuria denricus,
W86-04661 1910 5C

Adsorption of Lead and Zinc on Blast Furnace Iron Oxide Solids,
W86-05055 1911 5D

Blast Furnace Recycle Water Quality and Reactions of Lead and Zinc,
W86-05056 1911 5F

Cadmium and Lead Cycling Between Water, Sediment, and Biota in an Artificially Contaminated Mud Flat on Borkum (F.R.G.),
W86-05365 1911 5B

Lead Concentrations in Bullfrog Rana Catesbeiana and Green Frog R. Clamitans Tadpoles Inhabiting Highway Drainages,
W86-05512 1912 5B

Separation and Determination of Traces of Heavy Metals Complexed with Humic Substances in Fresh Waters by Sorption on Diethylaminoethyl-Sephadex A-25,
W86-05574 1912 5A

Adsorption of Lead and Zinc on Blast Furnace Iron Oxide Solids,
W86-05897 1912 5D

Blast Furnace Recycle Water Quality and Reactions of Lead and Zinc,
W86-05898 1912 5D

Decline in Lead Transport by the Mississippi River,
W86-05906 1912 5B

LEAD COMPOUNDS
Methylation of Tin and Lead in the Environment: Oxidative Methyl Transfer as a Model for Environmental Reactions,
W86-01619 1905 5B

LEAD NITRATE
Binding of Cadmium, Copper, and Lead Ions by Modified Cellulosic Materials,
W86-00692 1903 5D

LEAD RADIOISOTOPES
Modelling of 210Pb Behaviour in the Catchment and Sediment of Lake Tali Karng, Victoria, and Estimation of Recent Sedimentation Rates,
W86-00520 1902 2J

Sediment Accumulation Rates in an Alaskan Arctic Lake Using A Modified 210Pb Technique,
W86-00612 1902 2H

Sediment Accumulation Rates in Irondequoit Bay, New York Based on Lead-210 and Cesium-137 Geochronology,
W86-01566 1905 2L

LEAF CONDUCTANCE
Stomatal Responses and Water Relations of Eucalyptus pauciflora in Summer Along an Elevational Gradient,
W86-01163 1904 2D

LEAF WATER POTENTIAL
Effect of Rate of Dehydration on Leaf Water Status and Osmotic Adjustment in Dactylis glomerata L., Lolium perenne L. and L. multiflorum Lam,
W86-06124 1912 2I

LEAKAGE
Formation of Useful Groundwater Resources in the Southwestern Part of the Moscow Artesian Basin Under Intense Withdrawal Conditions,
W86-01803 1905 2F

Better Accounting for Unaccounted for Water,
W86-05315 1911 3D

Economic Appraisal of Active and Passive Methods of Leakage Control,
W86-05317 1911 6C

Some Developments in Pressure Reduction,
W86-05318 1911 8C

LEAKY AQUIFERS
Transient Flow to a Large-Diameter Well in an Aquifer with Storative Semiconfining Layers,
W86-04309 1910 2F

Mathematical Model of Complex, Leaky, Multi-Aquifer Systems and Its Solution,
W86-05672 1912 2F

LEAST SQUARES METHOD
Empirical Equations of Groundwater Recharge Patterns,
W86-04390 1910 2F

LEAVES
Transpiration Rate and Water Use Efficiency of Soybean Leaves Adapted to Different CO2 Environments,
W86-00483 1902 2D

Potential for Using Leaf Turgidity to Select Drought Tolerance in Cotton,
W86-00486 1902 2I

Stomatal Responses and Water Relations of Eucalyptus pauciflora in Summer Along an Elevational Gradient,
W86-01163 1904 2D

Response of Groundwater Levels to Rainfall and to Leaf Growth of Farm Plantations Near Salt Seeps,
W86-01290 1904 2F

Microbial Degradation of the Leachable and Lignocellulosic Components of Leaves and Wood from Rhizophora mangle in a Tropical Mangrove Swamp,
W86-01503 1905 2L

Effect of Water Stress upon Polyamine Levels in Barley (Hordeum vulgare L.) Leaves,
W86-04700 1911 2I

Whole-Plant Responses to Salinity,
W86-05959 1912 2I

LEBISTES
Studies on the Toxicity of Some Insecticides to a Freshwater Teleost Lebistes reticulatus (Peters),
W86-00548 1902 5C

Relative Toxicity of Phenoxy Herbicides on Lebistes (Poecilia) reticulatus (Peters),
W86-00577 1902 5C

LEECHES
Inter- and Intra-Habitat Distribution of Leeches in a Eutrophic English Lake,
W86-01499 1905 2H

LEGAL ASPECTS
Major Project in the Age of the Environment: Out of Controversy, Complexity, and Challenge,
W86-00333 1902 6E

Environmental Management of the Malacca/Singapore Straits: Legal and Institutional Issues,

Transboundary Toxic Pollution and the Drainage Basin Concept,
W86-06006 1912 5G

Design and Implementation of Groundwater Recovery Systems,
W86-06084 1912 5G

LEMNA PAUCICOSTATA
Lemna as an Indicator of Water Pollution and the Absorption of Heavy Metals by Lemna,
W86-04779 1911 5A

LENSES
Assessment of Exploitable Resources of Fresh Water Lenses in Arid Regions,
W86-03995 1910 2F

LEON COUNTY
Magnitude and Frequency of Flood Volumes for Urban Watersheds in Leon County, Florida,
W86-02354 1906 2E

LEONTIEF MODELS
Water-Use Coefficients and Resouce Multiplier for Oahu, Hawaii,
W86-02629 1907 6D

LETHAL LIMIT
Cellular Mechanisms of Paraquat Toxicity,
W86-00356 1902 5C

Studies on the Acute and Chronic Effect of a 2,4-D-containing herbicide (Dikonirt) on Eudiaptomus gracilis (G. O. Sars) (Crustacea, Copepoda),
W86-04652 1910 5C

LETHAL TEMPERATURES
Effects of Salinity on Preferred and Lethal Temperatures of the Mozambique Tilapia, Oreochromis Mossambicus (Peters),
W86-06014 1912 5C

LEVEES
Assessment of Implanted Substrate Samplers for Macroinvertebrates Inhabiting Stone Dikes of the Lower Mississippi River,
W86-03309 1908 5C

Levee Policy for the National Flood Insurance Program,
W86-03622 1909 6F

LG-2 RESERVOIR
Simulating Fish Redistribution in the LG-2 Reservoir After Flooding,
W86-01166 1904 8I

LICENSING
Licensing a Major Industrial Discharge to Coastal Waters: The Practical Application of The EQO/EQS Approach,
W86-05381 1911 5G

LICHENS
Field Evidence for an Acid Rain Effect on Lichens,
W86-05511 1912 5C

LICHTERFELDE POWER PLANT
Oxygen Balances in the Teltow-Canal - With Special Regard to Heat Discharge from Lichterfelde Power Plant (Berlin, West) (Sauerstoffbilanzen im Teltowkanal - insbesondere unter dem Einfluss der Abwarmeeinleitung aus dem Kraftwerk Lichterfelde (Berlin, West)),
W86-01141 1904 5B

LIFE CYCLES
Life Cycles of Hydropsyche riola, H. slossonae and Cheumatopsyche pettiti (Trichoptera: Hydropsychidae) in a Spring-fed Stream in Minnesota,
W86-05930 1912 2H

LIFE-STAGE TESTS
Early Life-Stage Toxicity Test Methods for Gulf Toadfish (Opsanus Beta) and Results Using Chlorpyrifos,
W86-05490 1912 5A

LIGANDS
Copper Toxicity to Cyanobacteria and its Dependence on Extracellular Ligand Concentration and Degradation,
W86-00910 1903 5B

LIGHT
Degradation of MCPA by Ozone and Light,
W86-04110 1910 5D

LIGHT ATTENUATION
Attenuation Versus Transparency,
W86-01725 1905 5A

LIGHT INTENSITY
Device for the Continuous Measurement of Algal Photosynthetic Response to Light,
W86-04583 1910 5C

LIGHT PENETRATION
Device for the Continuous Measurement of Algal Photosynthetic Response to Light,
W86-04583 1910 5C

Variability in Thermal Stratification in a Reservoir,
W86-06016 1912 2H

LIGHT QUALITY
Effect of Light Attenuation on the Relationship of Phytoplankton Biomass to Phosphorus Levels,
W86-03726 1909 2H

LIGNIN
Distribution and Decomposition of Lignosulphonates in Lake Paijanne, Central Finland,
W86-00939 1904 5B

LIGNITE
Water Resources of the Rattlesnake Butte Area, a Site of Potential Lignite Mining in West-Central, North Dakota,
W86-02350 1906 2F

Geohydrologic Reconnaissance of the Avoca Lignite Deposit Area Near Williston, Northwestern North Dakota,
W86-02398 1906 2F

Background Hydrologic Information in Potential Lignite Mining Areas in North-Central Mississippi, August 1984,
W86-02761 1907 4C

Environmental Impact Statement: Martin Lake D Area Lignite Surface Mine, Henderson, Rusk County, Texas.
W86-05609 1912 5C

LIGNITE MINING
Conceptual Plan for Water Management Schemes in the Northern Part of the Rhenish Lignite Mining District,
W86-05681 1912 3E

LIGNOCELLULOSE
Effects of pH and Plant Source on Lignocellulose Biodegradation Rates in Two Wetland Ecosystems, the Okefenokee Swamp and a Georgia Salt Marsh,
W86-01413 1905 2L

Microbial Degradation of the Leachable and Lignocellulosic Components of Leaves and Wood from Rhizophora mangle in a Tropical Mangrove Swamp,
W86-01503 1905 2L

LIGNOSULFONATES
Distribution and Decomposition of Lignosulphonates in Lake Paijanne, Central Finland,
W86-00939 1904 5B

LILLE
Managing the Integration of Groundwater and Surface Water Resources: A Case Study of Supplying Potable Water to the Lille Metropolitan Area (Gestion Integree des Ressources en Eau Souterraine et Superficielle: le Case de l'Alimentation en Eau Potable de la Metropole Lilloise),
W86-05691 1912 6D

LIMA
Groundwater Studies for Lima, Peru,
W86-05752 1912 2F

LIMBURG
Biological Assessment of Water Quality in Running Water Using Macroinvertebrates: A Case Study for Limburg, The Netherlands,
W86-01227 1904 5A

LIME
Stabilizing Water with Chemical Doses,
W86-04295 1910 5F

Stream Acidity in Some Areas of Wales in Relation to Historical Trends in Afforestation and the Usage of Agricultural Limestone,
W86-04600 1910 5B

Sulfur Oxides Control Technology Series: Flue Gas Desulfurization; Lime/Limestone Processes,
W86-04819 1911 5D

LIME SOFTENING
Predicting The Removal of Soluble Organic Contaminants by Lime Softening,
W86-04105 1910 5F

LIMESTONE
Flow in a Limestone Aquifer as Determined From Water Tracing and Water Levels in Wells,
W86-01296 1904 2F

Sulfur Oxides Control Technology Series: Flue Gas Desulfurization; Lime/Limestone Processes,
W86-04819 1911 5D

Limestone Influences on Physical and Chemical Features of a Mountain Stream,
W86-05442 1912 2K

Recovering Fresh Water Stored in Saline Limestone Aquifers,
W86-06176 1912 4B

LIMESTONE AQUIFERS
Denitrification in a Limestone Aquifer in Relation to the Security of Low-Nitrate Groundwater Supplies,
W86-04751 1911 5B

LIMESULFUR
Application of Polysulfide for Pretreatment of Spent Cyanide Liquors,
W86-04496 1910 5D

LIMITED-DETAIL FLOOD-INSURANCE STUDIES
Evaluation of Communities for the Application of Limited-Detail Study Methods for Flood-Insurance Studies,
W86-02373 1906 6F

LIMITING NUTRIENTS
Unified Theory for Microbial Growth under Multiple Nutrient Limitation,
W86-00067 1901 2H

Phosphorus Limitation of Lotic Periphyton Growth Rates: An Intersite Comparison Using Continuous-Flow Troughs (Thomas River System, British Columbia),
W86-01416 1905 2H

Factors Controlling Phosphorus Limitation in Stream Sediments,
W86-01417 1905 2H

Molybdenum Availability, Nitrogen Limitation, and Phytoplankton Growth in Natural Waters,
W86-01863 1905 2H

Nutrient Demand and Availability among Planktonic Communities - An Attempt to Assess Nutrient Limitation to Plant Growth in 12 Central Volcanic Plateau Lakes,
W86-01911 1905 2H

Treatment of Nutrient Deficient Wastewaters,
W86-04506 1910 5D

LIMNOCORRALS
Use of Limnocorrals for Pesticide Toxicity Studies: Effect on Zooplankton Composition and Dynamics,
W86-00964 1904 5A

LIMNOCRENES
Population and Reproductive Dynamics of Nais communis (Oligochaeta: Naididae) from a Wisconsin Limnocrene,
W86-01879 1905 2H

LIMNOLOGIC DATA COLLECTION
Limnological Applications of Multispectral Remote Sensing,
W86-03277 1908 7B

LIMNOLOGY
Volunteer Lake Monitoring, 1981,
W86-00200 1901 5C

Limnological Studies of Waterfowl Habitat in South-western New South Wales. I. Water Chemistry,
W86-00522 1902 2H

Limnological Studies of Rashdiyah Reservoir, Baghdad, Iraq,
W86-00536 1902 2H

Seasonal Variation in Primary Production in Relation to Some Limnological Features in Lakhotia Lake (India),
W86-00578 1902 2H

Lake Modeling: State of the Art,
W86-00850 1903 2H

Limnology and Macrophyte Vegetation of a Deep, Clear Limestone Lake, Loch Borralie,
W86-00905 1903 2H

Limnology of a Naturally Acidic Tropical Water System in Australia; I. General Description and Wet Season Characteristics,
W86-00923 1904 2H

Limnology of a Naturally Acidic Tropical Water System in Australia; II. Dry Season Characteristics,
W86-00924 1904 2H

Limnology and Fisheries Management in Zimbabwe,
W86-00976 1904 2H

Phosphorus Loading to McGrath and Ellis Ponds, Kennebeck County, Maine,
W86-02859 1907 5B

Hydrologic Setting of Mirror Lake, West Thornton, New Hampshire,
W86-02905 1907 2H

Survey of Fena Reservoir, Island of Guam: Limnological Reconnaissance,
W86-03018 1908 2H

Chlorophyll a Concentration and Distribution in Twin Lakes, Colorado, Prior to Operation of Mt. Elbert Pumped-Storage Powerplant, 1977-81,
W86-03234 1908 2H

Effects of Operating the Mt. Elbert Pumped-Storage Powerplant on Twin Lakes, Colorado: 1981 Report of Findings,
W86-03336 1908 6G

Studies of the Limnology, Fish Populations, and Fishery of Turquoise Lake, Colorado: 1979-80,
W86-03339 1908 2H

Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 1. Dynamics of Production and Population of the Phytoplankton in Dependence on Nutrients (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 1. Productions- und Populationsdynamik des Phytoplanktons in Abhangigkeit vom Nahrstoffangebot),
W86-04183 1910 5C

Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 2. Seasonal, Vertical and Horizontal Distribution of Bacteria (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 2. Saisonale, Vertikale und Horizontale Verteilung der Bakterien),
W86-04184 1910 5C

Internal Factors Controlling Peatland-Lake Ecosystem Development,
W86-04400 1910 2H

Effects of Forest Fire and Other Disturbances on Wilderness Lakes in Northern Minnesota: 1. Limnology,
W86-04648 1910 4C

Hydrothermal-Biological Coupling of Lake Eutrophication Models,
W86-04938 1911 5C

Diagnostic Study on the Vertical Circulation and the Maintenance Mechanisms of the Cyclonic Gyre in Lake Biwa,
W86-05094 1911 2H

Clearance Rates of Crustacean Macrofiltrators: The Nature of in situ Rate Depressions in a Fertilized Oligotrophic Lake in the Kuokkel Area, Northern Sweden,
W86-05154 1911 5C

Environmental Effects on Specific Rate of Photosynthesis in Small Fertilized Lakes (Northwest of the USSR),
W86-05155 1911 5C

Availability of Phosphorus and the Species Composition of the Spring Phytoplankton in Lake Erken,
W86-05156 1911 5C

Primary Production and Effects of Enrichment with Nitrate and Phosphate on Phytoplankton in the Barra Bonita Reservoir (State of Sao Paulo, Brazil),
W86-05157 1911 5C

Analysis of the Biotic Community in a Kumaun Himalayan Lake, Nainital (U.P.), India,
W86-05159 1911 5C

Comparative Limnology of Several Reservoirs in Central India,
W86-05164 1911 5C

Limnological Observations on Rihand Reservoir (Uttar Pradesh) with Reference to the Physical and Chemical Parameters of its Water,
W86-05165 1911 2H

Food Size Spectra and Species Replacement within Herbivorous Zooplankton,
W86-05168 1911 2H

Fatty Acids in Lipids from Particulate Organic Matter in a Eutrophic Lake, Lake Nakanuma, Japan,
W86-05171 1911 5C

14C-Labelling Patterns of Phytoplankton: Specific Activity of Different Product Pools,
W86-05176 1911 5A

Aspects of the Feeding Ecology of Turbin Water Zooplankton. In situ Studies of Community Filtration Rates in Silt-Laden Lake le Roux, Orange River, South Africa,
W86-05183 1911 2H

Regulation of Bacterial Secondary Production in Two Eutrophic Lakes and in Experimental Enclosures,
W86-05186 1911 5C

Occurrence of Gastropoda in the Lake Littoral and Their Role in the Production and Transformation of Detritus I. Snails in the Littoral of Mikolajskie Lake – General Characteristics of Occurrence,
W86-05190 1911 2H

Occurrence of Gastropoda in the Lake Littoral and Their Role in the Production and Transformation of Detritus II. Ecological Activity of Snails,
W86-05191 1911 2H

Life Cycle and the Zones of Occurrence of Mesocyclops leuckarti Claus (Cyclopoida, Copepoda),
W86-05192 1911 2H

Thermal and Oxygen Conditions and the Chemical Composition of the Water in the Great Masurian Lakes,
W86-05194 1911 5C

Phosphorus Deposition from the Epilimnion of Onondaga Lake,
W86-05280 1911 2H

Trophic Status of 19 Subarctic Lakes in the Yukon Territory,
W86-05559 1912 5C

Oxygen Perception and O2 Toxicity in the Freshwater Ciliated Protozoan Loxodes,
W86-06029 1912 2H

LINDANE
Determination of Atrazine, Lindane, Pentachlorophenol, and Diazinon in Water and Soil by Isotope Dilution Gas Chromatography/Mass Spectrometry,
W86-04455 1910 5A

Studies on the Acute Toxicity of Pollutants to Freshwater Macroinvertebrates: 4. Lindane (gamma-Hexachlorocyclohexane),
W86-04651 1910 5C

LINEAMENTS
Linear Features Determined from Landsat Imagery in Wyoming,
W86-03120 1908 7C

Linear Features Determined from Landsat Imagery in North Dakota,
W86-03144 1908 7C

LINEAR ALKYLBENZENESULFONATES
Determination of Linear Alkylbenzenesulfonates in Sewage Sludge by High-Resolution Gas Chromatography/Mass Spectrometry,
W86-04721 1911 5A

LINEAR CASCADES
Discrete-Time Linear Cascade under Time Averaging,
W86-00028 1901 2A

LINEAR PROGRAMMING
Optimal Urban Water Distribution Design,
W86-00071 1901 5F

Chance-Constrained/Stochastic Linear Programming Model for Acid Rain Abatement - I. Complete Colinearity and Noncolinearity,
W86-01381 1905 5B

Optimal Expansion and Operation Under Uncertainty of a Water Supply System with Multiple Water Systems,
W86-02530 1907 6A

Optimization of Irrigation Techniques to Reduce Water Needs for Fields with Irregular Boundaries,
W86-02551 1907 3F

Groundwater Management Using Control Analysis and Multiple-Objective Techniques,
W86-02599 1907 6A

LINEAR PROGRAMMING MODEL
Numerical Model for Optimal Groundwater Management,
W86-05692 1912 4B

LINEAR PROGRAMMING SCREENING MODEL
Linear Programming Screening Model for the Grand River Basin,
W86-05471 1912 6A

LINEAR SOILS
Note on the Physical Characteristics of Linear Soils,
W86-04405 1910 2G

LINEAR TRENDS
Linear Features Determined from Landsat Imagery in Wyoming,
W86-03120 1908 7C

Linear Features Determined from Landsat Imagery in North Dakota,
W86-03144 1908 7C

Linear Features Determined from Landsat Imagery for the Richfield 1 deg. by 2 deg. Quadrangle and Adjacent Part of Southwestern Utah,
W86-03165 1908 7C

LINERS
Physical and Chemical Behaviour of Clay-Based Barriers under Percolation with Test Liquids,
W86-01458 1905 5G

Hydraulic Conductivity of Two Prototype Clay Liners,
W86-01531 1905 5G

Relationship of Laboratory and Field Determined Hydraulic Conductivity in Compacted Clay Soils,
W86-02119 1906 2F

LINING
Clay Liner Construction and Quality Control,
W86-04638 1910 5G

LININGS
Standard Number 54: Flexible Membrane Liners.
W86-00320 1902 8G

On-Site Tests of a New Type of Tunnel Lining at the Nurek Hydrostation Construction Site,
W86-00981 1904 8F

Asphaltic Concrete Linings for Pumped-Storage Reservoirs,
W86-01273 1904 8F

Laboratory Investigation of Physical Properties of Flexible Membrane Liners (FML),
W86-02120 1906 8G

Techniques and Materials for Preventing Corrosion,
W86-02214 1906 5F

Estimates of Seepage Through Clay Covers on Hazardous Waste Landfills,
W86-02229 1906 5E

Closed-System Freezing of Soils in Linings and Earth Embankment Dams,
W86-03328 1908 8D

Plastic Lining on Riverton Unit, Wyoming,
W86-05240 1911 8G

LIPIDS
Biochemical Determination of Biomass and Community Structure of Estuarine Detrital and Sedimentary Microbiota,
W86-00355 1902 5C

Reactions of Chlorine and Chlorine Dioxide with Free Fatty Acids, Fatty Acid Esters, and Triglycerides,
W86-02146 1906 5B

LIQUEFACTION
Liquefaction of Fine Sand Due to Wave Action,
W86-01845 1905 8D

Re-Examination of Slide of Lower San Fernando Dam,
W86-05555 1912 8D

LIQUID CHROMATOGRAPHY
Sulfate Determination in Industrial Wastewater by Liquid Chromatography with Postcolumn Solid-Phase Reaction Detection,
W86-00819 1903 5A

Microarray Electrochemical Flow Detectors at High Applied Potentials and Liquid Chromatography with Electrochemical Detection of Carbamate Pesticides in River Water,
W86-00820 1903 7B

Analysis of Hydrilla-Inhibiting Fractions in Natural Waters: The Concept of 'Fingerprinting' Through Liquid Chromatography,
W86-06023 1912 4A

LIQUID SCINTILLATORS
Suitability of Different Counting Vials and Liquid Scintillators for Determining Tritium in Water (Die Eignung verschiedener Messflaschchen und Szintillatorflussigkeiten zur Bestimmung von Tritium in Wasser),
W86-01142 1904 7B

LIQUID SLUDGE
Denver's Dual Utilization Sludge Program,
W86-04717 1911 [illegible]

LIQUID WASTES
Digital Simulation of the Regional Effects of Subsurface Injection of Liquid Waste near Pensacola, Florida,
W86-00122 1901 5B

Performance Evaluation of the Anaerobic Fluidised Bed System: II. Biomass Holdup and Characteristics,
W86-05942 1912 5D

Methane Production From Industrial Wastes by Two-Phase Anaerobic Digestion,
W86-06148 1912 5D

LITERATURE REVIEW
Microbiological Water Quality of Impoundments: A Literature Review,
W86-00185 1901 5A

Sludge Management: A Research Update,
W86-00715 1903 5E

Chaparral Management Effects on Water and the Environment,
W86-02570 1907 2I

Literature Survey on the Wetland Vegetation of Alaska,
W86-03312 1908 2A

Evaluation of the Published Literature in the Water Reuse/Recycle Area,
W86-03521 1909 3E

Removal of Various Toxic Heavy Metals and Cyanide from Water by Membrane Processes,
W86-03532 1909 5D

Analysis of Water Quality Indices,
W86-04598 1910 5G

LITERATURE REVIEWS
Recovery and Restoration of Rocky Shores, Sandy Beaches, Tidal Flats, and Shallow Subtidal Bottoms Impacted by Oil Spills,
W86-00240 1901 5C

Recovery and Restoration of Salt Marshes and Mangroves Following an Oil Spill,
W86-00242 1901 5C

Review of the Chemistry and Environmental Fate of Reactive Oxidant Species in Chlorinated Water,
W86-02136 1906 5F

Review of Analytical Methods for Reactive Oxidant Species in Chlorinated Waters,
W86-02177 1906 5A

LITHOLOGY
Estimates of Peak Runoff from Hilly Terrain with Varied Lithology,
W86-00036 1901 2E

LITIGATION
Exercise of Federal Jurisdiction in Reserved Water Rights Litigation. United States v. Adair, 723 F.2d 1394 (9th Cir. 1983), cert. denied sub. nom. Oregon v. United States, 104 S. Ct. 3536 (1984),
W86-00565 1902 6E

LITIGATION PROTECTION
Saturated Thickness for Drought and Litigation Protection,
W86-04280 1910 4B

LITTER
Effects of Temperature, Rainfall and Soil Moisture on Soil Respiration and Litter Decomposition in a Sub-Tropical Humid Forest Ecosystem,
W86-01759 1905 2G

Metals in Low-Elevation, Southern Appalachian Forest Floor And Soil,
W86-05553 1912 2K

LITTLE GRIZZLY CREEK
Multilevel Approach to the Assessment of Ecotoxicological Effects in a Heavy Metal Polluted Stream,
W86-00953 1904 5C

LITTLE MANATEE RIVER
Salinity Characteristics and Distribution and Effects of Alternative Plans for Freshwater Withdrawal, Little Manatee River Estuary and Adjacent Areas of Tampa Bay, Florida,
W86-02883 1907 2L

LITTON RESERVOIR
Design and Construction of New Spillways and other Remedial Works to the Litton Reservoirs, Near Bristol,
W86-04379 1910 8A

LITTORAL ENVIRONMENT
Spill of Light Fuel Oil in the Baltic Sea,
W86-04041 1910 5C

Detritus in the Littoral of Several Masurian Lakes (Sources and Fates),
W86-05189 1911 5B

Occurrence of Gastropoda in the Lake Littoral and Their Role in the Production and Transformation of Detritus I. Snails in the Littoral of Mikolajskie Lake – General Characteristics of Occurrence,
W86-05190 1911 2H

Occurrence of Gastropoda in the Lake Littoral and Their Role in the Production and Transformation of Detritus II. Ecological Activity of Snails,
W86-05191 1911 2H

LITTORAL ENVIRONMENTS
Recovery and Restoration of Rocky Shores, Sandy Beaches, Tidal Flats, and Shallow Subtidal Bottoms Impacted by Oil Spills,
W86-00240 1901 5C

LITTORAL ZONE
Heavy Metal in Isopods from the Supra-Littoral Zone on the Southern Shore of the Severn Estuary, UK,
W86-00865 1903 5B

LIVERPOOL BAY
Effects of Wind, Phytoplankton and Density Discontinuities upon Ammonia Distributions in Liverpool Bay,
W86-01120 1904 2L

LIVERWORTS
In Situ Measurements of Uptake of Inorganic Carbon and Nitrogen by the Aquatic Liverworts Jungermannia vulcanicola Steph. and Scapania undulata (L.) Dum. in an Acid Stream, Kashiranashigawa, Japan,
W86-00529 1902 2H

LIVINGSTON RESERVOIR
Composition and Productivity of the Benthic Macroinvertebrate Community of a Subtropical Reservoir,
W86-01130 1904 2H

LLOBREGAT RIVER
Factors Influencing the High Content of Brominated Trihalomethanes in Barcelona's Water Supply (Spain),
W86-00727 1903 5B

Diatom Flora of the Llobregat River and its Relation to Water Quality,
W86-00950 1904 2H

Monitoring of Enteroviruses in the Water Supply of Barcelona from Surface Water of the River Llobregat (Controle d'enterovirus das l'approvisionnement a Barcelone par l'eau de surface du fleuve Llobregat),
W86-04153 1910 5G

LLOBREGAT RIVER BASIN
Patterns of Macroinvertebrate Distribution in the Llobregat River Basin (NE Spain),
W86-00917 1903 2H

LOADING FACTORS
Use of Continuous Simulation Model Calibration Techniques to Develop Nonpoint Pollution Loading Factors,
W86-03828 1909 5B

LOADING RATE
Effect of Load Fluctuations on the Effluent Concentration Produced by Fixed-Film Reactors,
W86-00736 1903 5D

LOAM
Mechanism of Vertical Water Movement in Kanto Loam During and After Rainfall,
W86-05663 1912 2G

LOCAL GOVERNMENTS
Roles Along the Rivers,
W86-05327 1911 6E

LOCAL SEDIMENTS
Revision of the Churchill Reservoir Trap Efficiency Curves Using Smoothing Splines,
W86-06026 1912 2J

LOCH ARD FOREST
Uptake and Release of Some Trace Metals by Aquatic Bryophytes in Acidified Waters in Scotland,
W86-01452 1905 7B

LOCH BORRALIE
Limnology and Macrophyte Vegetation of a Deep, Clear Limestone Lake, Loch Borralie,
W86-00905 1903 2H

LOCH RAVEN RESERVOIR
Unionids (Bivalvia) of Loch Raven Reservoir, Maryland,
W86-00535 1902 2H

LOCHS
Aquatic Angiosperm Communities from Lochs on Rhum,
W86-00906 1903 2H

LOCK AND DAM 11
Discharge Ratings for Control Gages at Mississippi River Lock and Dam 11, Dubuque, Iowa,
W86-02401 1906 4A

LOCKS
Navigation Conditions in Vicinity of Walter Bouldin Lock and Dam Coosa River Project: Hydraulic Model Investigation,
W86-00171 1901 8A

Navigation Conditions at Mitchell Lock and Dam, Coosa River, Alabama,
W86-00177 1901 8A

Development of a Numerical Modeling Capability for the Computation of Unsteady Flow on the Ohio River and Its Major Tributaries,
W86-00220 1901 2E

Design of Dowels for Anchoring Replacement Concrete to Vertical Lock Walls,
W86-00312 1902 8F

Locks with Devices to Reduce Salt Intrusion,
W86-06115 1912 8A

LOESS
Establishment of Experimental Plots for Studying Runoff and Soil Loss in the Rolling Loess Regions of China,
W86-04889 1911 2J

LOG PEARSON TYPE-3 DISTRIBUTION
Variance of the T-year Event in the Log Pearson Type-3 Distribution,
W86-00031 1901 2E

LOG-PEARSON TYPE III DISTRIBUTION
Generalized Skew Coefficient for Flood Frequency Computations for the State of Hawaii,
W86-03143 1908 2E

LOGGING
Limits on the Usefulness of Erosion-Hazard Ratings: Experiences in Northwestern California,
W86-01783 1905 4D

Effects on the Forest Floor of Whole-Tree Harvesting in an Appalachian Oak Forest,
W86-01878 1905 2H

Response of Baetis Mayflies (Ephemeroptera) to Catchment Logging,
W86-05931 1912 4C

LOIRE ESTUARY
Water Quality in an Estuarine Environment: Annual Cycle of the Physical and Chemical Parameters of the Water of the Loire Estuary (Qualite des eaux en milieu estuarien: Suivi annuel de criteres physiques et chimiques dans les eaux de l'estuaire de la Loire),
W86-01505 1905 2L

LONG ASHTON
Recent Changes in Summer Rainfall Values Measured at Long Ashton,
W86-01303 1904 2B

LONG ISLAND
Nitrogenous Nutrient Uptake, Primary Production, and Species Composition of Phytoplankton in the Carmans River Estuary, Long Island, New York,
W86-01415 1905 2L

Measurement of Groundwater Recharge on Eastern Long Island, New York, U.S.A.,
W86-01665 1905 2F

Aldicarb-Pesticide Contamination of Ground Water in Eastern Suffolk County, Long Island, New York,
W86-02394 1906 5B

LONG ISLAND (NY)
Potentiometric Surfaces on Long Island, New York--A Bibliography of Maps,
W86-03030 1908 7C

LONG ISLAND SOUND
Origin of High Cadmium Concentrations in Hudson River Blue Crab (Callinectes sapidus Rathbun),
W86-01565 1905 5C

Metals and PCB Concentrations in Mussels from Long Island Sound,
W86-01900 1905 5C

LONG-RANGE TRANSPORT
Metals in Low-Elevation, Southern Appalachian Forest Floor And Soil,
W86-05553 1912 2K

LONG-TERM PLANNING
Hawaii Water Resources Institute Program: Fiscal Year 1983,
W86-02636 1907 9D

Texas Manufacturing Water Use: Long-Term Projections,
W86-03441 1909 6D

Application of Functional Analysis to Optimization of a Variable Head Multireservoir Power System for Long-Term Regulation,
W86-05242 1911 8C

Problems of Long-Term Groundwater Regime and Resources Forecasting,
W86-05651 1912 2F

LONGITUDINAL DISPERSION
Traveltime, Longitudinal-Dispersion, Reaeration, and Basin Characteristics of the White River, Colorado and Utah,
W86-02984 1908 2E

LONGTERM PLANNING
WATER 2000: Conservation Program.
W86-03445 1909 3D

LOS ANGELES
Chemical Characterization of Stratus Cloudwater and its Role as a Vector for Pollutant Deposition in a Los Angeles Pine Forest,
W86-01652 1905 5B

Ozonation at the 900 cfs Los Angeles Water Purification Plant,
W86-05044 1911 5F

LOTIC ECOSYSTEMS
Conceptual Framework for Process Studies in Lotic Ecosystems,
W86-03378 1908 5C

LOTIC ENVIRONMENT
Abiotic and Hydrobiologic Characteristics of the Mediterranean Running Waters (Caracteristiques Abiotiques and Hydrobiologiques des Eaux Courantes Mediterraneennes),
W86-00919 1903 2H

Dynamics of Lotic Systems,
W86-03375 1908 5C

Serial Discontinuity Concept of Lotic Ecosystems,
W86-03377 1908 5C

Energy Basis of Ecosystem Control at Silver Springs, Florida,
W86-03383 1908 2H

Alterations in the Biodynamics of the Red Cedar River Associated with Human Impacts During the Past 20 Years,
W86-03384 1908 5C

Influence of Hydrologic Variations on Phosphorus Cycling and Retention in a Swamp Stream Ecosystem,
W86-03386 1908 2H

Organic Carbon Supply and Demand in the Shetucket River of Eastern Connecticut,
W86-03387 1908 2E

Aquatic Macrophyte Contribution to the New River Organic Matter Budget,
W86-03388 1908 2E

Primary Production and Decomposition of Submergent and Emergent Aquatic Plants of Two Appalachian Rivers,
W86-03389 1908 5C

Biotic Interactions or Abiotic Limitations. A Model of Lotic Community Structure,
W86-03390 1908 5C

Intermediate-Disturbance Hypothesis: An Explanation for Biotic Diversity Patterns in Lotic Ecosystems,
W86-03391 1908 5C

Invertebrate Drift and Particulate Organic Material Transport in the Savannah River Below Lake Hartwell During a Peak Power Generation Cycle,
W86-03392 1908 5B

Dynamics of Leaf Processing in a Medium-Sized River,
W86-03393 1908 5C

Role of Shredders in Detrital Dynamics of Permanent and Temporary Streams,
W86-03394 1908 5C

Microbial Action in Detrital Leaf Processing and the Effects of Chemical Perturbation,
W86-03395 1908 5C

LOTIC ENVIRONMENTS
Resource Spiraling: An Operational Paradigm for Analyzing Lotic Ecosystems,
W86-03376 1908 5C

LOUGH NEAGH
Removal of Phosphate at Sewage Treatment Works and Implications on Phosphate Loadings into Lough Neagh,
W86-00834 1903 5D

LOUISIANA
Organochlorine Residues in Animals from Three Louisiana Watersheds in 1978 and 1979,
W86-00691 1903 5B

Nutrient Fluxes in Eutrophic Coastal Louisiana Freshwater Lake,
W86-00724 1903 2H

Factors Influencing the Salinity Regime of Lake Pontchartrain, Louisana, a Shallow Coastal Lagoon: Analysis of a Long-Term Data Set,
W86-01335 1905 6G

Computer Keeps New Orleans' Head Above Water,
W86-01740 1905 6A

Shoreline Evolution Along the Northern Coast of the Gulf of Mexico,
W86-01830 1905 2J

Economic and Cultural Consequences of Land Loss in Louisiana,
W86-01835 1905 6G

Contaminant Residues in Fish and Sediments from Lakes in the Atchafalaya River Basin (Louisiana),
W86-01890 1905 5B

Deterioration of Coastal Environments in the Mississippi Deltaic Plain: Options for Management,
W86-02091 1906 6G

Evaluation of the Crest-Stage Gage Program in Louisiana,
W86-02399 1906 7A

Louisiana Water Resources Research Institute, FY 1983 Program Report.
W86-02546 1907 9D

Nutrient Assimilation Capacity of Shallow Coastal Lakes,
W86-02547 1907 5C

Mathematical Models for Ungaged Watersheds with Potential for Quantifying the Effect of Land Use Changes on Streamflow,
W86-02548 1907 2A

Optimum Treatment for Coal Pile Runoff in Louisiana,
W86-02549 1907 5D

Development of a Simplified Chlorinated Hydrocarbon Screening Technique for Water and Sediment,
W86-02550 1907 5A

Trophic State Index for the Louisiana Coastal Zone,
W86-02710 1907 2H

Generalized Potentiometric Surface of Aquifers of Pleistocene Age, Southern Louisiana, 1980,
W86-02835 1907 7C

Regional Geohydrology of the Northern Louisiana Salt-Dome Basin, Part II, Geohydrologic Maps of the Tertiary Aquifers and Related Confining Layers,
W86-02956 1908 2F

Geohydrologic Sections, Northern Louisiana,
W86-03083 1908 7C

Generalized Potentiometric Surface of the Evangeline and Equivalent Aquifers in Louisiana, 1980,
W86-03107 1908 7C

Water Resources Data, Louisiana Water Year 1983, Volume 1. Central and Northern Louisiana,
W86-03150 1908 7C

Water Resources Data, Louisiana Water Year 1983, Volume 2, Southern Lousiana,
W86-03151 1908 7C

Proceedings of the Conference on Coastal Erosion and Wetland Modification in Louisiana: Causes, Consequences, and Options.
W86-03850 1909 2J

Sedimentation and Apparent Sea-Level Rise as Factors Affecting Land Loss in Coastal Louisiana,
W86-03851 1909 2J

Assessment of Geological and Human Factors Responsible for Louisiana Coastal Barrier Erosion,
W86-03852 1909 2J

Mudflat and Marsh Progradation Along Louisiana's Chenier Plain: A Natural Reversal in Coastal Erosion,
W86-03853 1909 2J

Wetland Loss Directly Associated with Canal Dredging in the Louisiana Coastal Zone,
W86-03854 1909 6G

Canals and Wetland Erosion Rates in Coastal Louisiana,
W86-03855 1909 6G

Effect of Coastal Alteration on Marsh Plants,
W86-03856 1909 2L

Effects of Wetland Deterioration on the Fish and Wildlife Resources of Coastal Louisiana,
W86-03857 1909 2L

Some Consequences of Wetland Modification to Louisiana's Fisheries,
W86-03858 1909 2L

Wetland Losses and Coastal Fisheries: An Enigmatic and Economically Significant Dependency,
W86-03859 1909 2L

Legal Implications of Coastal Erosion in Louisiana,
W86-03860 1909 6E

Economic and Cultural Consequences of Land Loss in Louisiana,
W86-03861 1909 6G

Future Sea Level Changes Along the Louisiana Coast,
W86-03862 1909 2L

Sand Dune Vegetation and Stabilization in Louisiana,
W86-03864 1909 2J

Reversal of Coastal Erosion by Rapid Sedimentation: The Atchafalaya Delta (South-Central Louisiana),
W86-03865 1909 2J

Comparison of Effectiveness of Management Options for Wetland Loss in the Coastal Zone of Louisiana,
W86-03866 1909 2L

Rising Water: The National Flood Insurance Program and Louisiana,
W86-05963 1912 6E

LOW FLOW
Gazatteer of Hydrologic Characteristics of Streams in Massachusetts--Merrimack River Basin,
W86-02381 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Hudson River Basin,
W86-02416 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Coastal River Basins of the North Shore,
W86-02418 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Connecticut River Basin,
W86-02419 1906 7C

Enhancement of Duration Curve Prediction Using Short Time Low Flow Measurements,
W86-02690 1907 2E

Low Flow Hydraulics in Alluvial Channels,
W86-02698 1907 8B

Low-Flow Characteristics of Streams in the Kishwaukee River Basin, Illinois,
W86-02787 1907 2E

Method for Estimating Mean and Low Flows of Streams in National Forests in Montana,
W86-02824 1907 2E

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Coastal River Basins of the South Shore and Buzzards Bay,
W86-02962 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Thames River Basin,
W86-02963 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Blackstone River Basin,
W86-02965 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Housatonic River Basin,
W86-02966 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Taunton and Tenmile River Basins and Coastal River Basins of Mount Hope Bay, Narragansett Bay, and Rhode Island Sound,
W86-02976 1908 4A

Low-Flow Characteristics of Kentucky Streams, 1983,
W86-02998 1908 7C

Low-Flow Data for Selected Partial-Record Stations in Ohio,
W86-03003 1908 7B

Background Hydrologic Information in Potential Lignite Mining Areas in Northeastern Mississippi, August 1983,
W86-03162 1908 2K

Characteristics of Streamflow in Maryland,
W86-03172 1908 2E

Probability of Extreme Low Flows of Various Durations,
W86-05753 1912 4A

Analysis and Simulation of Low Flow Hydraulics,
W86-05979 1912 2E

LOW HEAD
Low Head Canal Power Development in Punjab,
W86-01221 1904 6B

LOW-HEAD HYDRO
Economic Limits of Small and Low-Head Hydro,
W86-04724 1911 6B

LOW PRESSURE PIPE SEPTIC SYSTEMS
Sewage Effluent Pumps,
W86-00803 1903 5D

LOW QUALITY WASTEWATERS
Disinfection of Low Quality Wastewaters by Ultraviolet Light Irradiation,
W86-05049 1911 5D

LOW TURBIDITY WATERS
Removing Giardia Cysts from Low Turbidity Waters by Rapid Rate Filtration,
W86-06060 1912 5F

LOWER MAE PING PROJECT
Lower Mae Ping Project, Thailand,
W86-01374 1905 6B

LOWER MISSISSIPPI RIVER
Aquatic Habitat Studies on the Lower Mississippi River, River Mile 48-530: Report 2, Aquatic Habitat Mapping,
W86-00373 1902 6G

LOWER NEOSHO RIVER
Availabilty of Natural and Regulated Streamflows for Instream Uses During Historical Droughts, Lower Neosho River, Southeastern Kansas,
W86-02838 1907 2E

LOWER SAN FERNANDO DAM
Re-Examination of Slide of Lower San Fernando Dam,
W86-05555 1912 8D

LOWER SAXONY
Application of Information about Conductivity in the Computing of Ion Concentrations, Illustrated by Certain Surface Waters Situated in Lower Saxony,
W86-01224 1904 5A

LOXAHATCHEE RIVER ESTUARY
Sediment Concentrations and Loads in the Loxahatchee River Estuary, Florida, 1980-82,
W86-02797 1907 2J

LOXODES
Oxygen Perception and O2 Toxicity in the Freshwater Ciliated Protozoan Loxodes,
W86-06029 1912 2H

LUBUGE HYDROPOWER PROJECT
China's First World Bank-Assisted Hydro Scheme,
W86-05001 1911 8C

LUDWIGIA LEPTOCARPA
Effects of Flooding and Sedimentation on Germination and Survival of Ludwigia leptocarpa (Nutt.) Hara,
W86-05804 1912 5G

LUMPED PARAMETER VALUE
Lumped-Parameter Modeling of Multicomponent Adsorption in the Treatment of Coal-Conversion Wastewater by GAC,
W86-00815 1903 5D

LUNI RIVER BASIN
Dissolved Inorganic Phosphorus in Streams of the Indian Arid Zone,
W86-01292 1904 2J

LYSIMETERS
Design and Installation of Large Weighing Lysimeters,
W86-00489 1902 2D

Measurement of Evaporation and Transpiration with Lysimeters,
W86-00501 1902 2D

Sleeve and Casing Lysimeters for Soil Pore Water Sampling,
W86-01422 1905 7B

Operational Ranges for Suction Lysimeters,
W86-01697 1905 2G

Predicting Leachate Generation in Landfills: A New Method,
W86-02122 1906 5E

Soil Water Samplers in Ion Balance Studies on Acidic Forest Soils,
W86-04364 1910 7B

Variation in the Quality of Tension Lysimeter Soil Water Samples from a Finnish Forest Soil,
W86-04410 1910 2G

LYSIMITERS
Feasibility of Nylon and Polyvinylidenefluoride Membrane Filters and Materials for the Construction of Suction Cups (Eignung von Nylon- und Polyvinylidenfluoridmembranfiltern als materialien zum Bau von Saugkerzen),
W86-05821 1912 8G

MACROBENTHIC ECOSYSTEM
Effects of 1,2,4-Trichlorobenzene on Estuarine Macrobenthic Communities Exposed via Water and Sediment,
W86-04398 1910 5C

MACROBENTHOS
Responses of Macrobenthos Colonizing Estuarine Sediments Contaminated with Drilling Mud Containing Diesel Oil,
W86-00730 1903 5C

MACROBRACHIUM
Aldrin Induced Changes in the Activities of Three Phosphatases of Macrobrachium lamarrei (H. Milne Edwards),
W86-00547 1902 5C

MACROINVERTEBRATES
Benthic Macroinvertebrates of Selected Aquatic Habitats of the Lower Mississippi River,
W86-00324 1902 2H

Longitudinal Distribution of Macroinvertebrates and Fish in a Lower Niger Delta River (River Sombreiro) in Nigeria,
W86-00458 1902 2H

Patterns of Macroinvertebrate Distribution in the Llobregat River Basin (NE Spain),
W86-00917 1903 2H

Drift in Hawaiian Streams,
W86-00922 1904 2H

Macroinvertebrate Community of Stones in an Australian Upland Stream,
W86-00926 1904 2H

Influence of Organic Pollution on the Macroinvertebrate Communities of Mountain Streams,
W86-00948 1904 5C

Effects of Acute Parathion Pollution on Macroinvertebrates in a Stream,
W86-00963 1904 5C

Organization of Macroinvertebrate Communities in the Major Tributaries of the LaTrobe River, Victoria, Australia,
W86-01123 1904 2H

Results of Ohio River Macroinvertebrate Sampling for 1975-1981,
W86-01591 1905 5C

Low pH Tolerance Under Continuous-Flow Bioassay Conditions of Hellgrammite Larvae, Corydalus cornutus L. (Megaloptera: Corydalidae),
W86-01597 1905 5C

1983 Water Research Institute Program Final Report, (Maine),
W86-02500 1907 9D

Assessment of Implanted Substrate Samplers for Macroinvertebrates Inhabiting Stone Dikes of the Lower Mississippi River,
W86-03309 1908 5C

Studies on the Acute Toxicity of Pollutants to Freshwater Macroinvertebrates: 4. Lindane (gamma-Hexachlorocyclohexane),
W86-04651 1910 5C

Toxicity Testing with Freshwater Macroinvertebrates: Methods and Application in Environmental Management,
W86-04776 1911 5A

Studies on the Acute Toxicity of Pollutants to Freshwater Macroinvertebrates: 3. Ammonia,
W86-05086 1911 5C

Benthic Macroinvertebrate Community Structural and Functional Group Response to Thermal Enhancement in the Savannah River and a Coastal Plain Tributary,
W86-05089 1911 5C

Responses by Benthic Macroinvertebrates to Prolonged Flooding of Marsh Habitat,
W86-05567 1912 2H

Macroinvertebrate Drift in the Middle Course of the River Dunajec (Southern Poland),
W86-05891 1912 2H

MACROMIXING
Influence of Macromixing on Organic Carbon Uptake and Solids Production by Aerobic Suspended Biomass,
W86-00748 1903 5D

MACROPHYTES
Investigations on the Influence of Limnic Macrophytes on the Dying Rate of Escherichia coli in Water (Untersuchungen zum Einfluss Limnischer Makrophyten auf die Absterbegeschwindigkeit von Escherichia coli im Wasser),
W86-00414 1902 2H

Biomass of Macrophytes in the Channel Running Through Agricultural Areas,
W86-00436 1902 2H

Depth Distribution and Biomass of Submersed Aquatic Macrophyte Communities in Relation to Secchi Depth,
W86-00606 1902 2H

Sorptive Capacity of an Aquatic Macrophyte for the Pesticide Aminocarb,
W86-00812 1903 5A

Limnology and Macrophyte Vegetation of a Deep, Clear Limestone Lake, Loch Borralie,
W86-00905 1903 2H

Aquatic Angiosperm Communities from Lochs on Rhum,
W86-00906 1903 2H

Microfauna Distribution in Shallow Macrophyte-Covered Basins,
W86-00951 1904 5D

Changes in the Pleustic Macrophyte Flora of 54 Small Finnish Lakes in 30 Years,
W86-01156 1904 2H

Habitat Requirements and Bioindicator Value of the Main Communities of Aquatic Vegetation in North-East Poland,
W86-01326 1905 2H

Effects of Effluent of Municipal Wastewater on the Growth of Porphyra yezoensis in the Case of Static Culture (in Japanese),
W86-01363 1905 5C

Growth of Submersed Macrophyte Communities in the St. Clair - Detroit River System between Lake Huron and Lake Erie,
W86-01629 1905 2H

Role of Macrophytes in Removing Aliphatic Amines from Water,
W86-01823 1905 5D

Use of Macrophytes for Treating Agricultural Runoff,
W86-01826 1905 5D

Freshwater Aquatic Macrophytes as Heavy Metal Monitors - The Ottawa River Experience,
W86-01887 1905 5A

Use of Aquatic Macrophytes for Sludge Treatment,
W86-03669 1909 5D

Role of Recreational Boat Traffic in Interlake Dispersal of Macrophytes: A New Zealand Case Study,
W86-04604 1910 5G

Macrophyte Decomposition in Two Tropical Lakes,
W86-04649 1910 5C

Studies of Diurnal Acid Fluctuations in British Isoetid-type Submerged Aquatic Macrophytes,
W86-05064 1911 5C

Environmental pH Influences Growth and Tissue Chemistry of the Submersed Macrophyte Vallisneria americana,
W86-05347 1911 5C

Prairie Marshes in Western Canada, with Specific Reference to the Ecology of Five Emergent Macrophytes,
W86-05351 1911 2H

Effect of Agricultural and Residential Development on Aquatic Macrophytes in the New Jersey Pine Barrens,
W86-05935 1912 5C

Distribution of Xyris difformis along a gradient of exposure to waves: an experimental study,
W86-06002 1912 2I

MACROPORES
Influence of Cylindrical Macropores on Steady-State Infiltration in a Soil Under Pasture,
W86-01660 1905 2G

Prediction of Steady-State Ponded Infiltration Distributions in a Soil With Vertical Macropores,
W86-01661 1905 2G

Kinematic Wave Approximation to Infiltration into Soils with Sorbing Macropores,
W86-01771 1905 2G

MACROTITRIMETRY
Comparison of Microcolorimetric and Macrotitrimetric Methods for Chemical Oxygen Demand of Oil Shale Wastewaters,
W86-04448 1910 5A

MADAGASCAR
Year of the African Drought,
W86-01429 1905 2B

MADISON LIMESTONE
Stratigraphy and Sedimentary Facies of the Madison Limestone and Associated Rocks in Parts of Montana, Nebraska, North Dakota, South Dakota, Wyoming,
W86-00104 1901 2F

MAGALA RIVER
Limnology of a Naturally Acidic Tropical Water System in Australia; I. General Description and Wet Season Characteristics,
W86-00923 1904 2H

MAGELA CREEK
Limnology of a Naturally Acidic Tropical Water System in Australia; II. Dry Season Characteristics,
W86-00924 1904 2H

MAGNESIUM
Determination of Potassium, Sodium, Calcium, and Magnesium in Natural Waters by Ion Chromatography,
W86-01717 1905 5A

Effect of Seawater Magnesium on Natural Fluorescence During Estuarine Mixing, and Implications for Tracer Applications,
W86-01801 1905 2L

Hydrochemistry of Springs from Dolomite Reefs in the Southern Alps of Northern Italy,
W86-03765 1909 2K

Sequential Flow-Injection Determinations of Calcium and Magnesium in Waters,
W86-04989 1911 5A

MAGNESIUM OXIDES
Hydrous Fe and Mn Oxides - Scavengers of Heavy Metals in the Aquatic Environment,
W86-00852 1903 5B

MAGNETIC STUDIES
Indicators of Ground Water Quality and Yield for a Public Water Supply in Rock Fracture Zones of the Piedmont.
W86-02654 1907 2F

Practical Application of Theoretical Models to Magnetometer Surveys on Hazardous Waste Disposal Sites - A Case History,
W86-04654 1910 5E

MAGNETITE
Removal of Pesticides in Water by Microbial Cells Adsorbed to Magnetite,
W86-01057 1904 5F

MAGOTHY AQUIFER
Water-Level Declines in the Magothy Aquifer in Southern Maryland Related to Increases in Pumpage,
W86-02781 1907 2F

MAHARASHTRA
Mechanisation vs. Manual Execution of River Valley Projects in Maharashtra,
W86-01215 1904 6A

MAINE
Coastal Marine Resources Inventory, 1983: Pemaquid Point to Spruce Head,
W86-00322 1902 5C

Distribution of Polycyclic Aromatic Hydrocarbons in the Surficial Sediments of Penobscot Bay (Maine, USA) in Relation to Possible Sources and to Other Sites Worldwide,
W86-01795 1905 5B

Law of the Coast in a Clamshell; Part XVI: The Maine Approach,
W86-01838 1905 2L

1983 Water Research Institute Program Final Report, (Maine),
W86-02500 1907 9D

Suitability of Marine Clays as Liners for Hazardous Waste Disposal Sites,
W86-02516 1907 5E

Kinetic Study of the Effects of Acid Rain on Trace Metal Uptake,
W86-02517 1907 2K

Fiscal Year 1984 Program Report (Maine Land and Water Resources Center).
W86-02747 1907 9D

Present and Proposed Ground-Water Level Program in Maine,
W86-02788 1907 7A

Phosphorus Loading to McGrath and Ellis Ponds, Kennebeck County, Maine,
W86-02859 1907 5B

Water Resources Data, Maine Water Year 1982,
W86-03205 1908 7C

Water Resources Data, Maine Water Year 1983,
W86-03214 1908 7C

Monitoring Sebago Lake Water Quality Below the Thermocline,
W86-05027 1911 5F

MAINTENANCE
Self-Cleaning, Non-Powered Trash Screens for Small Irrigation Flows,
W86-00490 1902 4A

Developing an Effective Storm Drainage Maintenance Program,
W86-00806 1903 4A

Fiscal Year 1984 Program Report (Maryland Water Resources Research Center),
W86-02757 1907 9D

Water-Level Declines in the Magothy Aquifer in Southern Maryland Related to Increases in Pumpage,
W86-02781 1907 2F

Data on Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Transition Zone of the Potomac Estuary, 1983 and 1984,
W86-02944 1908 2L

Primary Productivity in the Potomac Tidal River, Maryland, May 1980 to August 1981,
W86-03000 1908 5B

Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Estuary, Maryland and Virginia,
W86-03012 1908 2L

Test Well DO-CE 88 at Cambridge, Dorchester County, Maryland,
W86-03098 1908 4B

Traveltime and Dispersion in the Potomac River, Cumberland, Maryland, to Washington, D.C.,
W86-03123 1908 2E

Characteristics of Streamflow in Maryland,
W86-03172 1908 2E

Water Resources Data, Maryland and Delaware Water Year 1982,
W86-03204 1908 7C

Water Resources Data, Maryland and Delaware Water Year 1983,
W86-03226 1908 7C

MASON COUNTY
Life History and Ecology of the Alderfly, Sialis aequalis Banks, from Flatfoot Creek, Mason County, West Virginia,
W86-01595 1905 2H

MASS
Linear Features Determined from Landsat Imagery in Wyoming,
W86-03120 1908 7C

MASS BALANCE
Time-Dependent Solution of Multi-Segment Mass Balance Models of Contaminants in the Great Lakes,
W86-01350 1905 5B

MASS CONCRETE
Concrete Performance in Morrow Point Dam: 10-year Core Report,
W86-00384 1902 8F

MASS CONSERVATION EQUATION
Profile of Suspended Sediment Due to Wave Action,
W86-05501 1912 2L

MASS SPECTROMETRY
Refinery Wastewater Priority Pollutant Study - Sample Analysis and Evaluation of Data.
W86-00378 1902 5A

Master Analytical Scheme: An Assessment of Factors Influencing Precision and Accuracy of Gas Chromatography/Mass Spectrometry Data,
W86-03795 1909 5A

Simultaneous Determination of Total Organic Carbon and Total Nitrogen in Waters by Pyrolysis - Gas Chromatography - Mass Spectrometry,
W86-04129 1910 5A

Characterization of Dyes in Environmental Samples by Thermospray High-Performance Liquid Chromatography/Mass Spectrometry,
W86-04452 1910 5A

Determination of Linear Alkylbenzenesulfonates in Sewage Sludge by High-Resolution Gas Chromatography/Mass Spectrometry,
W86-04721 1911 5A

MASS SPECTROPHOTOMETRY
Mass Spectrometric Determination of Polychlorinated Biphenyls as Isomer Groups,
W86-04450 1910 5A

MASS TRANSFER
Instrumentation for Measuring Lake and Reservoir Evaporation by the Energy-Budget and Mass-Transfer Methods,
W86-02379 1906 7B

Biological Neutralization of Acid Deposition in Ombrogenous and Mierotrophic Wetlands,
W86-02521 1907 5C

External Mass Transfer During the Adsorption of Various Pollutants onto Activated Carbon,
W86-04572 1910 5D

Liquid-Phase Mass Transfer Coefficients for Surface Impoundments,
W86-05900 1912 5D

MASS TRANSPORT
Unified Mass Transport Model for High and Low Groundwater Dispersivities,
W86-02467 1907 5B

Diffusion and Advection in Two-Dimensional Rotating Flow,
W86-02699 1907 2E

MASS TRANSPORT MODELS
Calibration of a Mass Transport Model Using Environmental Tritium,
W86-01289 1904 5B

MASSACHUSETTS
Spy Pond Diagnostic-Feasibility Study: Recommendations for Restoring a Lake Impacted by Urban Stormwater Runoff,
W86-01550 1905 2H

Six Ponds Dioxin Survey,
W86-01551 1905 5C

Source Movement and Effects of Nitrogen and Phosphorus in the Headwaters of Hop Brook, Marlborough, Massachusetts,
W86-02343 1906 5B

Gazatteer of Hydrologic Characteristics of Streams in Massachusetts--Merrimack River Basin,
W86-02381 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Hudson River Basin,
W86-02416 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Coastal River Basins of the North Shore,
W86-02418 1906 7C

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Connecticut River Basin,
W86-02419 1906 7C

Household Conservation During Water Emergencies, Two Case Studies,
W86-02496 1907 6D

Fiscal Year 1983 Program Report, Massachusetts Water Resources Research Center,
W86-02519 1907 9D

Hydrogeology and Processes of Acid Neutralization in Cadwell Creek Watershed, Quabbin Reservation, Massachusetts,
W86-02520 1907 5B

Biological Neutralization of Acid Deposition in Ombrogenous and Mierotrophic Wetlands,
W86-02521 1907 5C

Estimating Highest Ground-Water Levels for Construction and Land-Use Planning--A Cape Cod, Massachusetts, Example,
W86-02785 1907 2F

Ground-Water Resources of the Mattapoisett River Aquifer, Plymouth County, Massachusetts: Summary for Water-Resource Managers,
W86-02874 1907 4B

Estimated Water and Nutrient Inflows and Outflows, Lake Cochituate, Eastern Massachusetts,
W86-02904 1907 5B

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Coastal River Basins of the South Shore and Buzzards Bay,
W86-02962 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Thames River Basin,
W86-02963 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Blackstone River Basin,
W86-02965 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Housatonic River Basin,
W86-02966 1908 4A

Gazetteer of Hydrologic Characteristics of Streams in Massachusetts--Taunton and Tenmile River Basins and Coastal River Basins of Mount Hope Bay, Narragansett Bay, and Rhode Island Sound,
W86-02976 1908 4A

Determining the Effectiveness of Highway Drainage Systems in Preventing Salt Contamination of Ground Water,
W86-03044 1908 5G

Ground-Water Resources of the Mattapoisett River Valley, Plymouth County, Massachusetts,
W86-03079 1908 2E

Distribution of Polychlorinated Biphenyls in the Housatonic River and Adjacent Aquifer, Massachusetts,
W86-03093 1908 5B

Boston Maintenance Dredging, Boston Harbor, Boston, MA: Environmental Assessment.
W86-03297 1908 6G

Neponset River Basin Massachusetts, Flood Plain Management Study,
W86-03310 1908 2A

MASURIAN LAKES
Detritus in the Littoral of Several Masurian Lakes (Sources and Fates),
W86-05189 1911 5B

MATERIALS ENGINEERING
Standard Number 54: Flexible Membrane Liners.
W86-00320 1902 8G

Feasibility of Nylon and Polyvinylidenefluoride Membrane Filters and Materials for the Construction of Suction Cups (Eignung von Nylon- und Polyvinylidenfluoridmembranfiltern als materialien zum Bau von Saugkerzen),
W86-05821 1912 8G

MATERIALS TESTING
Laboratory Investigation of Physical Properties of Flexible Membrane Liners (FML),
W86-02120 1906 8G

MATHEMATICAL ANALYSIS
Desk Top Methodology for Nonpoint Source Load Evaluation,
W86-03836 1909 5B

Improved Numerical Modelling of Contaminant Transport in Saturated Aquifers,
W86-04073 1910 5B

Finite Analytic Method for Solution of One-Dimensional Transient Transport Equations,
W86-04079 1910 5B

Finite Element Method with Region Wise Iteration Scheme for Solving Groundwater Solute Transport Equation,
W86-04085 1910 5B

In-Situ Determination of Dispersion Coefficients and Adsorption Parameters for Contaminants Using a Push-Pull Test,
W86-04092 1910 5B

Solute Dispersion in Multidimensional Periodic Saturated Porus Media,
W86-04170 1910 2K

Adaptation of the Carter-Tracy Water Influx Calculation to Groundwater Flow Simulation,
W86-04206 1910 2F

Numerical Study of the Effects of Soil Surface Shape upon the Soil Temperature and Moisture Regimes,
W86-04404 1910 2G

Hydraulics of Two Flowing Layers with Different Densities,
W86-04714 1911 2E

Measure of Plankton Community Similarity Utilizing Variable Weighting of Total Density and Taxonomic Proportionality,
W86-05160 1911 2H

Comparative Study of the Green and Ampt Analysis for a Falling Water Table in a Stratified Profile,
W86-05218 1911 2F

Unconfined Groundwater Flow Calculation Into a Tunnel,
W86-05298 1911 2F

MATHEMATICAL EQUATIONS
Infiltration Under Ponded Conditions: 1. Optimal Analytical Solution and Comparison with Experimental Observations,
W86-00049 1901 2G

Effect of Potential Evapotranspiration Estimates on Crop Model Simulations,
W86-00470 1902 2D

Body-Fitted Coordinates for Flow Under Sluice Gates,
W86-01046 1904 8B

Sediment Transport under Ice Cover,
W86-01047 1904 2J

When and Where to Put a Discharge in an Oscillatory Flow,
W86-01056 1904 5B

Numerical Determination of Aquifer Constants,
W86-01096 1904 2F

Finite Amplitude Waves in Stratified Two-Phase Flow: Transition to Slug Flow,
W86-01364 1905 2E

Predicting Leachate Generation in Landfills: A New Method,
W86-02122 1906 5E

Morphological Modelling for Rivers with Non-uniform Sediment,
W86-03269 1908 2J

User's Manual for the Instream Sediment-Contaminant Transport Model SERATRA,
W86-03630 1909 5B

Functional Design of Activated Sludge Processes,
W86-03670 1909 5D

Mass-Balance Approach to the Understanding of Geochemical Processes in Aqueous Systems,
W86-03773 1909 5B

Graphical Representation of a New Linear Form of the Langmuir Adsorption Isotherm (Representation Graphique d'une Nouvelle Forme Linearisee de l'Equation de l'Isotherme de Langmuir),
W86-04118 1910 5D

Macroscopic Balance Equations in Soils and Aquifers: The Case of Space- and Time-Dependent Instrumental Response,
W86-04308 1910 2G

Steady State Infiltration: Consequences of (Alpha) Dependent on Moisture Content,
W86-04324 1910 2G

Equations for Estimating Discharge in Steep Channels with Coarse Bed Material,
W86-04791 1911 2E

Hydrodynamic Model of Sediment Transport in Rill Flows,
W86-04926 1911 4D

Prediction of Sediment Yield for Mountainous Basins in Columbia, South America,
W86-04927 1911 4D

Comparison of Several Methods for the Solution of the Inverse Problem in Two-Dimensional Steady State Groundwater Flow Modeling,
W86-05216 1911 2F

Equivalent Formulations for Solute and Water Movement in Soils,
W86-05251 1911 2G

General Expression of Basin Lag Time,
W86-05470 1912 2E

Self-Cleaning Slope for Partially Full Sewers,
W86-05535 1912 8B

Method of Defining the Exploitable Resource of a Large Deep Confined Aquifer Under the Condition of Annual Equilibrium,
W86-05652 1912 2F

Rainfall-Recharge Correlation; A Method for Evaluating Potential Groundwater,
W86-05662 1912 2F

MATHEMATICAL MODEL
Continuous Synthesis of Runoff From the Kawishiwi River in Northeastern Minnesota,
W86-02518 1907 2E

Development of a Two-Dimensional Digital Model for the Analysis of the Ground-Water Flow System in the San Antonio Creek Valley, Santa Barbara County, California,
W86-03108 1908 2F

Diurnal Mixed Layer,
W86-04510 1910 2H

MATHEMATICAL MODELING
Groundwater Recharge Estimate by Numerical Modeling: A Case Study,
W86-05146 1911 2F

MATHEMATICAL MODELS
Numerical Modelling of Subcritical Open Channel Flow Using the K-epsilon Turbulence Model and the Penalty Function Finite Element Technique,
W86-00003 1901 2E

Determination of Resistance Parameters of Pluvio-Nivo-Glacial Alpine Systems by Mathematical Modeling of Runoff,
W86-00034 1901 2E

SEDMNT: A Sediment Transport Submodel Based on Hydrodynamic Principles for the Unified Transport Model,
W86-00155 1901 2J

User's Guide for a Plane and Axisymmetric Finite Element Program for Steady-State Seepage Problems,
W86-00156 1901 2G

Preliminary User's Manual 3-D Mathematical Model of Coastal, Estuarine, and Lake Currents (CELC3D),
W86-00168 1901 2E

Characterization of Aerobic Chemical Processes in Reservoirs: Problem Description and Model Formulation,
W86-00176 1901 5B

Seepage Analysis Using the Boundary Element Method,
W86-00228 1901 2G

European and United States Case Studies in Application of the CREAMS Model.
W86-00294 1901 5B

CREAMS: A System for Evaluating Management Practices on Field-Size Areas,
W86-00295 1901 5B

Testing the Application of CREAMS to Finnish Conditions,
W86-00296 1901 5B

Environmental Effects of Nitrogen Fertilization Exemplified by Groundwater Pollution as Simulated by CREAMS,
W86-00297 1901 5B

Application of the CREAMS Model for Calculation of Leaching of Nitrate from Light Soils in the Notec River Valley,
W86-00298 1901 5B

Application of the CREAMS Model: Western Skane, Sweden,
W86-00299 1901 5B

Predicting Hillslope Runoff and Erosion in the United Kingdom: Preliminary Trials with the CREAMS Model,
W86-00300 1901 5B

Application of the CREAMS Model as Part of an Overall System for Optimizing Environmental Management in Lithuania, USSR: First Experiments,
W86-00301 1901 5B

Review of Case Studies of CREAMS Model Application,
W86-00302 1901 5B

Verification and Transfer of Thermal Pollution Model; Volume IV: User's Manual for Three-Dimensional Rigid-Lid Model,
W86-00346 1902 5B

Return Period Analysis with Sliding Polynomials,
W86-00374 1902 2A

Return Period Analysis of Minimum Events Using Sliding Polynomials,
W86-00375 1902 2A

Testing the Climatic Representativeness of Short-Period Records Through Simulation,
W86-00376 1902 2A

Infiltration and Soil Water Distribution in Layered Soils Computed by Green and Ampt and Richards Models,
W86-00377 1902 2G

Mathematical Modeling of Complex Formation of Metals and its Application to the Interpretation of Physicochemical Processes in Natural Waters (Mathematische Modellierung der Komplexbildung von Metallen und ihre Nutzung bei der Interpretation physikochemischer Prozesse in naturlichen Wassern),
W86-00394 1902 2K

Articulation, Accuracy and Effectiveness of Mathematical Models: A Review of Freshwater Wetland Applications,
W86-00433 1902 2H

Evaluation of the Relevance of Some Environmental Factors to the Estimation of Migratory Timing and Yield for the Brown Shrimp of Pamlico Sound, North Carolina,
W86-00589 1902 2L

Numerical Model for Tidal Current in the Changjiang River Estuary,
W86-00601 1902 2L

Evaluation by Field Experiments of the McLay Model of Stream Drift,
W86-00628 1903 2H

Model of Sulphate Concentration in a Small Stream in the Harp Lake Catchment, Ontario,
W86-00629 1903 5B

Mathematical Model of Simultaneous Organic Oxidation, Nitrification, and Denitrification in Rotating Biological Contactors,
W86-00762 1903 5D

Mathematical Model for Analysis of Sediment Core Data: Implications for Enrichment Factor Calculations and Trace-Metal Transport Mechanisms,
W86-00772 1903 5B

Application of Simple Moisture Accounting Models to Ungauged Catchments,
W86-00836 1903 2E

Modification of a Metal Adsorption Model to Describe the Effect of pH,
W86-00847 1903 5B

Structured Modeling of the Anaerobic Digestion of Biomass Particulates,
W86-00848 1903 5D

Assessment of the Significant Physicochemical Interactions Involved in Pesticide Diffusion within a Pesticide-Sediment-Water System,
W86-00995 1904 5B

Mathematical Simulation of the Conversion and Transport of Nutrients in Drainage Areas - A Review of the Literature (Mathematische Simulation von Nahrstoffumwandlung und -transport in Einzugsgebieten-Literaturubersicht),
W86-00999 1904 5B

Contribution to the Analytical Description of Transport Processes in the Aquifer at a Diffuse Substance Input (Beitrag zur analytischen Beschreibung von Transportprozessen im Grundwasserleiter bei diffusem Stoffeintrag),
W86-01012 1904 5B

Fluid and Sediment Interaction Over a Plane Bed,
W86-01045 1904 2J

Comparison of Gaussian Conditional Mean and Kriging Estimation in the Geostatistical Solution of the Inverse Problem,
W86-01074 1904 2F

Comparison of Two River Diffuser Models,
W86-01093 1904 8B

Modelling Kepone in the Striped Bass Food Chain of the James River Estuary,
W86-01116 1904 5B

Stream Modeling of Nonconvetional Water Quality Parameters: Phenol, Cyanide, Ammonia, Oil and Grease,
W86-01234 1904 5B

Role for a Simple Discrete-Time Model to Describe Dispersion in an Estuary,
W86-01237 1904 2L

Modelling of the Coagulation-Adsorption Process in Treatment Systems,
W86-01245 1904 5F

Mathematical Simulation of a Biofilm Process,
W86-01484 1905 5D

Numerical Model of Compaction-Driven Groundwater Flow and Heat Transfer and Its Application to the Paleohydrology of Intracratonic Sedimentary Basins,
W86-01485 1905 2F

Evaluation of Mathematical Models for the Effects of pH and Temperature on Ammonia Toxicity to Aquatic Organisms,
W86-01648 1905 5C

New Flow Models Can Help Solve Pump-Cavitation Problems,
W86-01680 1905 8B

Prediction of 2-D Bed Topography in Rivers,
W86-01734 1905 2J

Approximate Analysis of the Borehole Permeameter in Unsaturated Soil,
W86-01774 1905 2G

Computer Model of One-Dimensional Equilibrium Controlled Sorption Processes,
W86-01925 1906 5B

Habitat Suitability Index Models: Regression Models Based on Harvest of Coolwater and Coldwater Fishes in Reservoirs,
W86-01985 1906 2A

Clay Liner Permeability - A Probabilistic Description,
W86-02227 1906 5E

Mathematical Model of the Tesuque Aquifer System Near Pojoaque, New Mexico,
W86-02402 1906 2F

Identification of Critical Water Levels in Flooded Rice Fields,
W86-02446 1907 3F

Unified Mass Transport Model for High and Low Groundwater Dispersivities,
W86-02467 1907 5B

Adapting the Water Management Simulation Model DRAINMOD for the Great Lakes Region,
W86-02483 1907 2G

Mathematical Models for Water Resources Policy and Management with Application to the Eutaw-McShan Aquifer,
W86-02494 1907 2F

Complexity as a Measure of Simulation Model Appropriateness: Columbia River Conflict as a Case Study,
W86-02512 1907 6D

Sensitivity Analysis for an Activated Sludge Model Which Considers Toxicant Concentration,
W86-02542 1907 5D

Mathematical Models for Ungaged Watersheds with Potential for Quantifying the Effect of Land Use Changes on Streamflow,
W86-02548 1907 2A

Optimization of Irrigation Techniques to Reduce Water Needs for Fields with Irregular Boundaries,
W86-02551 1907 3F

Development of Frequency Functions for Urban Non-Point Source Risk Evaluation,
W86-02575 1907 5B

Migration of Heavy Elements in Groundwater Following Uranium Solution Mining Operations,
W86-02578 1907 2A

Groundwater Management Using Control Analysis and Multiple-Objective Techniques,
W86-02599 1907 6A

Low Flow Hydraulics in Alluvial Channels,
W86-02698 1907 8B

Bank Erosion Contribution to Stream Sediment Load,
W86-02718 1907 2J

Use of a Digital Model to Determine the Effects of Proposed Pumping from the Principal Artesian Aquifer, Savannah, Georgia, Area,
W86-02851 1907 2F

Application of the Conjugate-Gradient Method to Ground-Water Models,
W86-02954 1908 2F

Morphological Modelling for Rivers with Nonuniform Sediment,
W86-03269 1908 2J

Mathematical Simulation of Sediment and Radionuclide Transport in Estuaries,
W86-03284 1908 5B

Workshop on Riverine Water Quality Modeling,
W86-03293 1908 7B

Keilson-Ross Procedure for Estimating Climatic Probabilities of Duration of Weather Conditions,
W86-03294 1908 2A

Laboratory Tests of a Hydraulic Pressure Surge Reliever,
W86-03340 1908 8C

Stochastic-Convective Ensemble Method for Representing Dispersive Transport in Groundwater,
W86-03498 1909 5B

Nonlinear Programming Model of a Wastewater Treatment System: Sensitivity Analysis and a Robustness Constraint,
W86-03511 1909 5D

User's Manual for the Instream Sediment-Contaminant Transport Model SERATRA,
W86-03630 1909 5B

User's Manual for EXPLORE-I: A River Basin Water Quality Model, Hydraulic Module Only,
W86-03646 1909 2A

Mathematical Model, SERATRA, for Sediment-Contaminant Transport in Rivers and Its Application to Pesticide Transport in Four Mile and Wolf Creeks in Iowa,
W86-03648 1909 5B

Computation of Fractional Removal of Discrete and Flocculant Particles in Settling Basins,
W86-03667 1909 5D

Functional Design of Activated Sludge Processes,
W86-03670 1909 5D

Carbon Dioxide in the Soil Atmosphere: Simulation Model Parameter Estimation from Field Measurements,
W86-03755 1909 2G

Accumulation and Transport of Water and Solutes in the Saturated and Unsaturated Zones,
W86-03784 1909 2F

Proceedings of Stormwater and Water Quality Management Modeling Users Group Meeting.
W86-03822 1909 5B

Study of the Selection, Calibration and Verification of Mathematical Water Quality Models,
W86-03823 1909 5B

Calibration of Hydrology and Sediment Transport on Small Agricultural Watersheds Using HSPF,
W86-03825 1909 2J

Continuous DO Response Predicted Using CSPSS Is Verified for Springfield, Missouri,
W86-03826 1909 5B

Hydrologic Modeling for Studies of Pollutant Loadings and Transport in Large River Basins,
W86-03827 1909 5A

Use of Continuous Simulation Model Calibration Techniques to Develop Nonpoint Pollution Loading Factors,
W86-03828 1909 5B

Dynamic Model Adjustment,
W86-03831 1909 2A

Improved Surcharge Computation, in EXTRAN,
W86-03832 1909 3A

Predictive Model for Highway Runoff Pollutant Concentrations and Loadings,
W86-03834 1909 2A

Chimney Hill Off-Site Drainage Study,
W86-03835 1909 2A

Continuous Simulation of Instream Fecal Coliform Bacteria,
W86-03837 1909 5B

Atmospheric Pollution in Relation to Storm Water Quality Modelling: Literature Review for an Industrial City,
W86-03838 1909 5B

Models for Polluted Streams Subject to Fast Purification,
W86-04101 1910 5B

Simple Model of Estuarine Subtidal Fluctuations Forced by Local and Remote Wind Stress,
W86-04244 1910 2L

Analytical and Approximate Solutions to Radial Dispersion from an Injection Well to a Geological Unit with Simultaneous Diffusion Into Adjacent Strata,
W86-04304 1910 5B

Groundwater Mass Transport and Equilibrium Chemistry Model for Multicomponent Systems,
W86-04307 1910 5B

Solution to the Kinematic Wave Approach to Overland Flow Routing With Rainfall Excess Given by Philip's Equation,
W86-04310 1910 2E

Transient Movement and Transformation of Carbon Species in Soil During Wastewater Application,
W86-04311 1910 5E

Stochastic Dynamics of Precipitation: An Example,
W86-04319 1910 2B

Generalized Scale Invariance in the Atmosphere and Fractal Models of Rain,
W86-04320 1910 2B

Parameter Estimation for a Model of Space-Time Rainfall,
W86-04321 1910 2B

Fate of Soluble, Recalcitrant, and Adsorbing Compounds in Activated Sludge Plants, II,
W86-04356 1910 5B

Alternative RBC Design—Second Order Kinetics,
W86-04396 1910 5D

Health Risk Comparison between Groundwater Transport Models and Field Data,
W86-04397 1910 5B

Diffusion and Partitioning of Hexachlorobiphenyl in Sediments,
W86-04424 1910 5B

Parametric/Nonparametric Mixture Density Estimation with Application to Flood-Frequency Analysis,
W86-04531 1910 2E

Kalman Filter Estimation and Prediction of daily Stream Flows: I. Review, Algorithm, and Simulation Experiments,
W86-04533 1910 2E

Kalman Filter Estimation and Prediction of Daily Stream Flows: II Application to the Potomac River,
W86-04534 1910 2E

Analysis of Well-Aquifer Response to a Slug Test,
W86-04541 1910 2F

Short-Term Hydroelectric Scheduling Using the Progressive Optimality Algorithm,
W86-04542 1910 4A

Optimal Control of Nonlinear Groundwater Hydraulics: Theoretical Development and Numerical Experiments,

Morphology of a Delta Prograding by Bulk Sediment Transport,
W86-04702 1911 2J

Up-Dating of Discharge Rating Curves by Means of Mathematical Models,
W86-04789 1911 7B

Method for Uniformizing the Stage-Discharge Relations of Stable River Beds and Its Application,
W86-04790 1911 7B

Mathematical Simulation of Erosion on Graded Terraces,
W86-04919 1911 4D

Development of Drainage Networks,
W86-04921 1911 4D

Sediment Modelling and Data Sources: A Compromise in Assessment,
W86-04922 1911 2J

Entrainment Descriptions for Mathematical Modeling of Pumped-Storage Inflows in Reservoirs,
W86-04940 1911 8B

Armor Layer Stability of Rubble-Mound Breakwaters,
W86-04988 1911 8B

Model of Gas Transfer Across Air-Water Interfaces with Capillary Waves,
W86-05099 1911 2H

Modelling of River Water Infiltration Using Oxygen-18 Data,
W86-05118 1911 2F

Modeling and Performance of the Activated Sludge-Powdered Activated Carbon Process in the Presence of 4,6-Dinitro-o-Cresol,
W86-05136 1911 5D

Comparison of Several Methods for the Solution of the Inverse Problem in Two-Dimensional Steady State Groundwater Flow Modeling,
W86-05216 1911 2F

Basic Encoded Model for Flow-Through Fixed-Bed Adsorber and One-Dimensional Ground Water Systems,
W86-05465 1912 5B

Computer-Aided Simulation of an Activated Sludge Reactor,
W86-05525 1912 5D

Mathematical Modelling of Mobile Bed Filtration with Contact Flocculation-Filtration Arrangement,
W86-05607 1912 5F

Methods Used in the Prediction and Control of the Groundwater Regime in Basins Adjacent to Large Rivers.
W86-05647 1912 2F

Artificial Groundwater Recharge in Quaternary Gravel Aquifers in the Foreland of the Alps,
W86-05649 1912 4B

Nonlinear Optimization for Aquifer Parameter Estimation with Inadequate Data,
W86-05664 1912 2F

Aquifer Demands Met from Storage or Recharge,
W86-05668 1912 2F

Multivariate Stochastic Model for the Reconstruction of Groundwater Data,
W86-05669 1912 2F

Equation Based Theoretical Approach to Network Design for Groundwater Levels Using Kalman Filters,
W86-05671 1912 2F

Mathematical Model of Complex, Leaky, Multi-Aquifer Systems and Its Solution,
W86-05672 1912 2F

Simulation Model for the Management of Groundwater in the Yun-Lin Basin,
W86-05678 1912 4B

Modelling of the Processes of Seepage and Transport of Dissolved Solids in Groundwater,
W86-05703 1912 5B

Mathematical Models of Ground-Water Basins: Their Application for Study and Management of Hydrogeological Processes,
W86-05704 1912 2F

Use of Mathematical Programming in the Management and Development of Israel's Water Resources,
W86-05709 1912 6B

Selection and Verification of Hydraulic Flow Models for Lagoons,
W86-05846 1912 5D

Prediction of 2-D Bed Topography in Rivers,
W86-05858 1912 2J

Time Dependent Three Dimensional Simulation of Flows in Shallow Domains with Vegetative Obstruction,
W86-06065 1912 4A

Application of Boundary Integral Equation Method for Modelling Unsteady Nonlinear Water Waves,
W86-06066 1912 2E

Hydrologic Budget Analysis for the Nile Valley in Egypt,
W86-06168 1912 2F

MATHEMATICAL STUDIES

Transport of Suspended Material in Open and Submerged Streams,
W86-00013 1901 2J

Statistical Choice of Extremal Models for Complete and Censored Data,
W86-00026 1901 2A

Analytical Solutions for Periodic Well Recharge in Rectangular Aquifers with Third-Kind Boundary Conditions,
W86-00041 1901 2F

Mixing Zone Model for Conservative Parameters,
W86-00089 1901 5G

Estimation of Missing Values in Monthly Rainfall Series,
W86-00094 1901 2B

Areal Intensity-Duration-Frequency Curves: A Possible Way of Improving the Rainfall Input,
W86-00095 1901 2B

MATHEMATICAL STUDIES

Boundary-Fitted Coordinate Code for General Two-Dimensional Regions with Obstacles and Boundary Instrusions,
W86-00323 1902 8B

Return Period Analysis with Sliding Polynomials,
W86-00374 1902 2A

Return Period Analysis of Minimum Events Using Sliding Polynomials,
W86-00375 1902 2A

Policy Analysis of Reservoir Operation, Volume I: Executive Summary; Volume II: Component Studies,
W86-02730 1907 6A

Keilson-Ross Procedure for Estimating Climatic Probabilities of Duration of Weather Conditions,
W86-03294 1908 2A

Mathematical Analysis of Groundwater Resources,
W86-03478 1909 2F

Probable Maximum Precipitation Estimates for the Drainage Above Dewey Dam, Johns Creek, Kentucky,
W86-03503 1909 2B

Computation of Fractional Removal of Discrete and Flocculant Particles in Settling Basins,
W86-03667 1909 5D

Dynamic Model Adjustment,
W86-03831 1909 2A

Preparing a Design Storm,
W86-03833 1909 2A

Prediction of Multicomponent Adsorption Equilibria using Ideal Adsorbed Solution Theory,
W86-04136 1910 5D

Stabilizing Water with Chemical Doses,
W86-04295 1910 5F

Macroscopic Balance Equations in Soils and Aquifers: The Case of Space- and Time-Dependent Instrumental Response,
W86-04308 1910 2G

Transient Flow to a Large-Diameter Well in an Aquifer with Storative Semiconfining Layers,
W86-04309 1910 2F

Discrimination of Groundwater Sources Using Cluster Analysis, MANOVA, Canonical Analysis and Discriminant Analysis,
W86-04312 1910 2F

Comparative Study of Green and Ampt Analysis for a Falling Water Table in a Homogeneous Sand Profile,
W86-04313 1910 2G

Errors and Parameter Estimation in Precipitation-Runoff Modeling. 1. Theory,
W86-04317 1910 2A

Hydrodynamic Pressure on a Dam During Earthquakes,
W86-04621 1910 8B

Finite Element Modeling of Infinite Reservoirs,
W86-04622 1910 8B

Hailstone Size Distributions and Their Relationship to Storm Thermodynamics,
W86-04627 1910 2B

Up-Dating of Discharge Rating Curves by Means of Mathematical Models,
W86-04789 1911 7B

Multilayer Width-Integrated Velocity Measurement Method,
W86-04792 1911 7B

Methods Used in the Prediction and Control of the Groundwater Regime in Basins Adjacent to Large Rivers,
W86-05647 1912 2F

Method of Defining the Exploitable Resource of a Large Deep Confined Aquifer Under the Condition of Annual Equilibrium,
W86-05652 1912 2F

Long-Range Groundwater Level Prediction Based on Time Series Analysis,
W86-05665 1912 2F

Evaluation of Pumping Tests; Identification of Parameter Values and Their Reliability,
W86-05666 1912 4B

Multivariate Stochastic Model for the Reconstruction of Groundwater Data,
W86-05669 1912 2F

Use of Mathematical Programming in the Management and Development of Israel's Water Resources,
W86-05709 1912 6B

Estimation of Hydraulic Data by Spline Functions,
W86-05859 1912 2E

Axisymmetric Withdrawal and Inflow in a Density-Stratified Container,
W86-06145 1912 5G

Water Quality Surveys: A Statistical Method Based on Determinism, Quantiles and the Binomial Distribution,
W86-06159 1912 7C

MATHEMETICAL MODELS

Atchafalaya River Delta; Report 8: Numerical Modeling of Hurricane-Induced Storm Surge,
W86-00164 1901 2A

MAURITANIA

Agricultural Benefits for Senegal River Basin,
W86-01432 1905 3B

MAXIMUM LIKELIHOOD

Maximum Likelihood Parameter Estimation of Hydrologic Spatial Processes by the Gauss-Newton Method,
W86-01656 1905 2A

MAXIMUM LIKELIHOOD METHOD

Persistence in the Size Distribution of Surficial Bed Material During an Extreme Snowmelt Flood,
W86-04173 1910 2J

MAXIMUM LIKLIHOOD METHOD

Estimation of Aquifer Parameters Under Transient and Steady State Conditions: 1. Maximum Likelihood Method Incorporating Prior Information,
W86-04174 1910 2F

MAYFLIES

Replacement of Stenonema spp. by Caenis diminuta Walker as the Numerical Dominant in the Mayfly Assemblage of a Thermally-Stressed Stream,
W86-00617 1903 5C

Influence of Development of the River Widawka on the Ephemeroptera Fauna (Influence des Amenagements de la Riviere Widawka sur la Faune des Ephemeropteres),
W86-00914 1903 5C

Effects of Stream Regulation on Density, Growth, and Emergence of Two Mayflies (Ephemeroptera: Ephemerellidae) and a Caddisfly (Trichoptera: Hydropsychidae) in Two Rocky Mountain Rivers (U.S.A.),
W86-05570 1912 6G

Response of Baetis Mayflies (Ephemeroptera) to Catchment Logging,
W86-05931 1912 4C

MAZAWA

Characteristic Distribution of Chironomids in the Rivers Polluted with Heavy Metals,
W86-00954 1904 5C

MCCLOUD LAKE

Sediment Acid Neutralization in Softwater Lakes,
W86-00432 1902 2H

MCDONALDS BRANCH WATERSHED

Biogeochemistry of Lead in McDonalds Branch Watershed, New Jersey Pine Barrens,
W86-01703 1905 5B

Bioggochemistry of Aluminum in McDonalds Branch Watershed, New Jersey Pine Barrens,
W86-01704 1905 5B

MCELMO PROJECT

Two Projects Become One,
W86-01741 1905 6A

MCLAY MODEL

Evaluation by Field Experiments of the McLay Model of Stream Drift,
W86-00628 1903 2H

MEADOWFOAM

Physiological Response of Meadowfoam to Crop Water Deficits,
W86-00461 1902 3F

MEAN ANNUAL DISCHARGE

Streamflow Characteristics of Mountain Streams in Western Montana,
W86-02972 1908 2E

MEAN CELL RESIDENCE TIME

Performance Evaluation of an Anoxic/Oxic Activated Sludge System: Effects of Mean Cell Residence Time and Anoxic Hydraulic Retention Time,
W86-06107 1912 5D

MEAN FLOW

Method for Estimating Mean and Low Flows of Streams in National Forests in Montana,
W86-02824 1907 2E

MEAN MONTHLY DISCHARGE

Streamflow Characteristics of Mountain Streams in Western Montana,
W86-02972 1908 2E

MEAN SQUARED INTERPOLATION ERROR METHOD

Variogram Identification by the Mean-Squared Interpolation Error Method with Application to Hydrologic Fields,
W86-00024 1901 2A

MEANDERING STREAMS

Direct Measurements of Secondary Currents in a Meandering Sand-Bed River,
W86-01171 1904 2E

MEANDERS

Objective Identification of Meanders and Bends,
W86-05117 1911 2E

Migration Patterns of an Asymmetric Meandering River: The Rouge River, Quebec,
W86-05219 1911 2E

Bed Topography in Bends of Sand-Silt Rivers,
W86-05976 1912 2J

Formation of Alternate Bars,
W86-05977 1912 2J

Unified Bar-Bend Theory of River Meanders,
W86-06144 1912 2E

MEASURING INSTRUMENTS

Combined Hydrometeor Distributions from Three PMS Probes,
W86-00308 1902 3B

Design and Installation of Large Weighing Lysimeters,
W86-00489 1902 2D

Drop Size Distribution Measurement Problems Using a Laser Unit,
W86-00502 1902 7B

Surface Soil Water Content Measurement Using Pulsed Nuclear Magnetic Resonance Techniques,
W86-00698 1903 2G

Suitability of Different Counting Vials and Liquid Scintillators for Determining Tritium in Water (Die Eignung verschiedener Messflaschchen und Szintillatorflussigkeiten zur Bestimmung von Tritium in Wasser),
W86-01142 1904 7B

Laboratory Investigation and Analysis of a Ground-Water Flowmeter,
W86-01310 1904 2F

Method for Locating Sediment Anomalies in Lakebeds That Can Be Caused by Groundwater Flow,
W86-01667 1905 2H

Instrument for Measuring the Average Stomatal Conductance of Conifer Seedlings,
W86-01782 1905 2I

Observation and Measurement of Hailfall,
W86-02007 1906 7B

Weather Radar,
W86-02008 1906 7B

Measuring the Surface Area of Sediment-Particles,
W86-03007 1908 7B

International Comparison of National Precipitation Gauges with a Reference Pit Gauge,
W86-03414 1908 7B

1981 CCOPE PROBE Mesonet Calibration and Maintenance Procedures,
W86-03481 1909 7B

Low Cost Hydrological Data Collection,
W86-03581 1909 7B

Continuous Monitoring of Rainfall, Streamflow and Suspended Sediment Concentration in Semiarid Environments,
W86-03591 1909 7B

Multi-Parameter Remote Measurement of Rainfall,
W86-03618 1909 2B

Measurement, Scale, and Scaling,
W86-04167 1910 7A

Factors Which Affect Soil-Pore Liquid: A Comparison of Currently Available Samplers with Two New Designs,
W86-04209 1910 5B

Performance Tests for the Measurement of pH with Glass Electrodes in Low Ionic Strength Solutions Including Natural Waters,
W86-04451 1910 7B

Device for the Continuous Measurement of Algal Photosynthetic Response to Light,
W86-04583 1910 5C

Use of Iron Rods to Determine the Depth of Seasonal Water Tables for Absorption Fields in Sewage Disposal Systems,
W86-04608 1910 5E

Nuclear Techniques for Measuring Sediment Transport in Natural Streams, Examples From Instrumented Basins,
W86-04849 1911 2J

Development of Nuclear Sediment Concentration Gauges for Use on the Yellow River,
W86-04850 1911 2J

Latest Achievements in the Development of Nuclear Suspended Sediment Gauges,
W86-04851 1911 2J

Continuous Measurement of Suspended Sediment in Rivers by Means of a Double Beam Turbidity Meter,
W86-04852 1911 2J

Analysis of a Simple Suspended Load Integrating Sampler,
W86-04854 1911 2J

Recent Developments in Pump Samplers for the Measurement of Sand Transport,
W86-04855 1911 2J

Field Measurements of Suspended Sediment Concentration in the Surf Zone,
W86-04856 1911 2J

Sediment Measurement Techniques Used by the Soil Conservation Service of New South Wales, Australia,
W86-04858 1911 2J

Instrumentation for Studies of the Erosive Power of Rainfall,
W86-04881 1911 7B

Soil Erosion Under Simulated Rainfall in the Field and Laboratory: Variability of Erosion Under Controlled Conditions,
W86-04882 1911 2J

Laboratory and Field Testing of a Programmable Plot-Sized Rainfall Simulator,
W86-04883 1911 2J

Outdoor Portable Rainfall Erosion Laboratory,
W86-04884 1911 7B

Portable Rill Meter for Field Measurement of Soil Loss,
W86-04890 1911 7B

MEAT PROCESSING INDUSTRY

Evaluation of the 'Lectro Clear Z' Electrocoagulation Process for Meat Packing Wastewater Treatment.
W86-00252 1901 5D

Water and Waste Management in the Canadian Meat and Poultry Processing Industry,
W86-03612 1909 5E

Evaluation of Startup and Operation of Four Anaerobic Processes Treating a Synthetic Meat Waste,
W86-05477 1912 5D

MECHANICAL EQUIPMENT

Mechanical Equipment of the Dnester Multipurpose Hydropower Development,
W86-01624 1905 8C

MECHANICAL VAPOR COMPRESSION PROCESS

Mechanical Vapour Compression Process Applied to Seawater Desalination: A 1,500 Ton/Day Unit Installed in the Nuclear Power Plant of Flamanville, France,
W86-01670 1905 3A

MECHANIZATION

Mechanisation vs. Manual Execution of River Valley Projects in Maharashtra,
W86-01215 1904 6A

MEDIAN SURVIVAL TIMES

Toxicity Curve Estimation: Fitting a Compartment Model to Median Survival Times,
W86-01152 1904 5C

MEDICAL SURVEILLANCE

Health Effects of Work at Waste Water Treatment Plants: A Review of the Literature with Guidelines for Medical Surveillance,
W86-06129 1912 5C

MEDICINE BOW NATIONAL FOREST

Distribution of Denitrifying and Sulfate Reducing Bacteria within a Riparian Zone Along a Mountain Stream,
W86-02603 1907 6G

MEDITERRANEAN BASIN

Abiotic and Hydrobiologic Characteristics of the Mediterranean Running Waters (Caracteristiques Abiotiques and Hydrobiologiques des Eaux Courantes Mediterraneennes),
W86-00919 1903 2H

MEDITERRANEAN-DEAD SEA PROJECT

Evaluating Alternative Investment Programs for the Mediterranean-Dead Sea Project,
W86-01761 1905 6B

MEDITERRANEAN SEA

Fluxes and Residence Times of Hydrocarbons in the Coastal Mediterranean: How Important are the Biota,
W86-01115 1904 5B

MEDIUM LOAM SOIL

Height and Speed of Capillary Rise of Water in Medium Loam Soils,
W86-04730 1911 2G

MEKONG RIVER

Lower Mekong Basin Development,
W86-03962 1910 6E

MELT WATER

Model for Pollutant Concentrations During Snow-Melt,
W86-04354 1910 5B

MELT WATERS

Solute Acquisition in Glacial Melt Waters. I. Fjallsjokull (South-East Iceland): Bulk Melt Waters with Closed-System Characteristics,
W86-04351 1910 2C

Solute Acquisition in Glacial Melt Waters. II. Argentiere (French Alps): Bulk Melt Waters with Open-System Characteristics,
W86-04352 1910 2C

Chemical Models of Solute Acquisition in Glacial Melt Waters,
W86-04353 1910 2C

Instruments and Methods. Field pH Determinations in Glacial Melt Waters,
W86-04355 1910 7B

MELTING

Snowmelt Induced Urban Runoff in Northern Sweden,
W86-00097 1901 2C

MELTWATER

Contamination of Firn Layers by Radioactive Fission Products from Atmospheric Fallout,
W86-05141 1911 5B

MEMBRANE FILTERS

Filtrable Solids as a Design Parameter for Wastewater Treatment Processes,
W86-03662 1909 5D

Statistics of Enumerating Total Coliforms in Water Samples by Membrane Filter Procedures,
W86-04585 1910 5A

Comparison of Gauze Swabs and Membrane Filters for Isolation of Campylobacter spp. from Surface Water,
W86-04666 1910 5A

Hepatitis A Virus Concentration on Cellulose Membranes (Concentration du Virus de L'Hepatite A sur des Membranes de Cellulose),
W86-06158 1912 5A

MEMBRANE FOULING
Fouling of Reverse Osmosis Systems,
W86-02728 1907 3A

MEMBRANE PROCESSES
Membrane Controlled Processes for the Energy-Efficient Conversion of Sludges to Fuels and Marketable Chemicals.
W86-00361 1902 5D

Bacterial Adhesion and Fouling of Reverse Osmosis Membranes,
W86-01748 1905 5D

Evaluation of Hollow Fiber Ultrafiltration and Reverse Osmosis for Waste Water Reuse in the Metal Finishing Industry,
W86-02726 1907 5D

Removal of Toxic Metals in Electroplating Wash Water by a Donnan Dialysis Process,
W86-03239 1908 5D

Automated Plugging Factor Monitor: Specifications,
W86-03325 1908 3A

Removal of Various Toxic Heavy Metals and Cyanide from Water by Membrane Processes,
W86-03532 1909 5D

Coupled Transport Membranes for Removal of Chromium from Electroplating Rinse Solutions,
W86-03534 1909 5D

Hyperfiltration of Textile Process Water for Reuse,
W86-03535 1909 5D

Removal of Chemical Carcinogens from Water/Wastewater by Reverse Osmosis,
W86-03536 1909 5D

Potential of Reverse Osmosis for Recycling and Reuse of Sewage Effluents,
W86-03537 1909 5D

MEMBRANES
Standard Number 54: Flexible Membrane Liners.
W86-00320 1902 8G

Design Considerations for a Novel Landfill Liner,
W86-01730 1905 5G

Laboratory Investigation of Physical Properties of Flexible Membrane Liners (FML),
W86-02120 1906 8G

Optimization of Hollow Fiber Ultrafiltration Membrane Type and System Design for Wastewater Reuse in the Textile Industry,
W86-02426 1907 5D

Novel Polymers in Asymmetric and Composite Membranes,
W86-02656 1907 3A

Development of a Low Pressure Hollow Fiber Reverse Osmosis Membrane Utilizing Internal Flow for Use on a Low Salinity Water,
W86-02724 1907 3A

Preparation of Ion-Exchange Membranes with Extremely Low Areal Resistances,
W86-03615 1909 3A

MEMPHIS
Flood Frequency and Storm Runoff of Urban Areas of Memphis and Shelby County, Tennessee,
W86-03078 1908 4A

MEMPHIS SAND AQUIFER
Potentiometric Surface Map of the Sparta Sand and Memphis Sand Aquifers in Eastern and South-Central Arkansas, Spring 1983,
W86-01944 1906 2F

MERCURIC CHLORIDE
Acute Toxicity of Mercuric Chloride and Cadmium Chloride to Freshwater Prawn, Macrobrachium lammarrei (H. Milne Edwards),
W86-00553 1902 5C

In Vitro Effect of Mercuric Chloride on Acid and Alkaline Phosphatase Activity of a Freshwater Prawn,
W86-00625 1903 5C

Effects of Environmental and Biological Variables on the Toxicity of Mercuric Chloride,
W86-01353 1905 5C

Acid Phosphatase Activity in the Intestine and Caeca of Bluegill, Exposed to Methyl Mercuric Chloride,
W86-05486 1912 5C

MERCURY
Accumulation, Elimination and Chemical Speciation of Mercury in the Bivalves Mytilus edulis and Macroma balthica,
W86-00453 1902 5C

Distribution and Background of Total Mercury in Sediments from Bohai Bay,
W86-00579 1902 5B

Mercury Cycle in Lakes; Some New Hypotheses,
W86-00681 1903 5B

Sorption of Mercury(II) by Humic Acids,
W86-00866 1903 5B

Mercury in Sediment in Swedish Forest Lakes,
W86-00952 1904 5B

Catalytic Effect of Various Metal Ions on the Methylation of Mercury in the Presence of Humic Substances,
W86-01607 1905 5B

Mercury in Peat and its Drainage Waters in Eastern North Carolina,
W86-02485 1907 5A

Status Report on Compliance with the Chlor-Alkali Mercury Liquid Effluent Regulations 1978-79,
W86-03613 1909 5D

Status Report on Compliance with the Chlor-Alkali Mercury Liquid Effluent Regulations 1980-81,
W86-03633 1909 5E

Analytical Methods for Measuring Organochlorines and Methyl Mercury by Gas Chromatography,
W86-03999 1910 5A

Mercury Removal from Petrochemical Wastes,
W86-04109 1910 5D

Selective Recovery of Gold and Other Metal Ions from an Algal Biomass,
W86-04231 1910 5B

Acute Metal Toxicology of Olfaction in Coho Salmon: Behavior, Receptors, and Odor-Metal Complexation,
W86-04366 1910 5C

Determination of Sub-Nanogram-per-Liter Levels of Mercury in Lake Water with Atmospheric Pressure Helium Microwave Induced Plasma Emission Spectrometry,
W86-04436 1910 5A

Airborne Mercury in Precipitation in the Lake Superior Region,
W86-04525 1910 5B

Enhancement of Mercury (II) Sorption from Water by Coal Through Chemical Pretreatment,
W86-04574 1910 5D

Sulfate-Reducing Bacteria: Principal Methylators of Mercury in Anoxic Estuarine Sediment,
W86-04676 1910 5B

Hg- and Cu-Induced Hepatocellular Changes in the Mummichog, Fundulus Heteroclitus,
W86-04762 1911 5C

Distribution of Mercury in the Sediments and Fishes of the Lagoons of Aveiro, Portugal,
W86-05366 1911 5B

Mercury Contamination in Components of an Estuarine Ecosystem,
W86-05369 1911 5C

Role of Speciation in Mercury Methylation in Sediments and Water,
W86-05395 1911 5B

Levels of Chemical Versus Biological Methylation of Mercury in Sediments,
W86-05480 1912 5B

Effects of Metal Salt Mixtures on Daphnia Magna Reproduction,
W86-05489 1912 5C

Adsorption of Mercury Compounds by Tropical Soils,
W86-05911 1912 2G

Mercury Pollution of Effluent, Air, and Soil near a Battery Factory in Tanzania,
W86-05914 1912 5B

Mercury in Plants, Soil, and Water from a Caustic Chlorine Industry,
W86-06000 1912 5B

MERCURY COMPOUNDS
Tolerance of Bathyporeia pilosa Lindstrom (Amphipoda: Haustoriidae) to Organic and Inorganic Salts of Mercury,
W86-01794 1905 5C

Effect of Selenite on the Uptake of Methylmercury in Cod (Gadus morhua),
W86-01901 1905 5C

MERCURY INTRUSION METHOD
Characterization of Pore Size Distributions Within Soils by Mercury Intrusion and Water-Release Methods,
W86-01420 1905 2G

Moisture Curve of Compacted Clay; Mercury Intrusion Method,
W86-05556 1912 8D

MERCURY RESISTANT BACTERIA
Mercury Resistant Bacteria Isolated from Sediment,
W86-05481 1912 5C

MEROMICTIC LAKES
Relations Between Phytoplankton and Environmental Factors in a Small, Spring-Meromictic Lake in Southern Finland,
W86-00672 1903 2H

MERSEY ESTUARY
Mersey Estuary Pollution Alleviation Scheme,
W86-05304 1911 5D

Mersey Estuary (U.K.) Bird Mortalities - Causes, Consequences and Correctives,
W86-05370 1911 5C

MERSEY RIVER
Short-Term Stability of Trace Metals in Estuarine Water Samples,
W86-04232 1910 2L

MESODINIUM
Role of Phytoplankton in the Dissolved Oxygen Budget of a Stratified Estuary,
W86-01197 1904 2L

MESOSCALE STORMS
Mesoscale Frequencies and Seasonal Snowfalls for Different Types of Lake Michigan Snow Storms,
W86-05417 1912 2B

MESOTROPHIC LAKES
In Situ Pulse Light Fluorometer for Chlorophyll Determination as a Monitor for Vertical and Horizontal Phytoplankton Distribution in Lakes,
W86-05175 1911 2H

MESOZOIC-CENOZOIC AQUIFER
Formation of Useful Groundwater Resources in the Southwestern Part of the Moscow Artesian Basin Under Intense Withdrawal Conditions,
W86-01803 1905 2F

METABOLISM
Environmental Risk Assessment: The Potential Role of Microbial Effects Testing,
W86-00353 1902 5C

Biochemistry and Metabolism of Lake Trout: Laboratory and Field Studies on the Effects of Contaminants,
W86-00370 1902 5C

Alteration of Microbial Metabolic Activities in Association with Detritus,
W86-00639 1903 2K

Studies on the Sequence of 2,6-Diisopropylnaphthalene Metabolite Formation Using Carp Hepatocyte,
W86-00879 1903 5C

Sublethal Effects of Simulated Pulp Mill Effluents on the Respiration and Energy Metabolism of Rainbow Trout (Salmo gairdneri),
W86-00881 1903 5C

Effect of Drought on Metabolism and Partitioning of Carbon in Two Wheat Varieties Differing in Drought-Tolerance,
W86-00907 1903 2I

Test Instructions for Measuring the Microbial Metabolic Activity in Water Samples,
W86-01302 1904 5A

Energy Basis of Ecosystem Control at Silver Springs, Florida,
W86-03383 1908 2H

Bacterial Biomass, Metabolic State, and Activity in Stream Sediments: Relation to Environmental Variables and Multiple Assay Comparisons,
W86-04677 1910 5A

In Vivo Metabolism of Fenitrothion (0,0-dimethyl-0-(4-nitro-m-tolyl) phosphorothioate) in Fresh Water Teleost (Tilapia Mossambica),
W86-05268 1911 5B

Acid Phosphatase Activity in the Intestine and Caeca of Bluegill, Exposed to Methyl Mercuric Chloride,
W86-05486 1912 5C

Effects of pH on the Environmental fate of (14c) Aldicarb in an Aquatic Microcosm,
W86-05493 1912 5B

Metabolic Effects of Water and Salinity Stress in Relation to Expansion of the Leaf Surface,
W86-05956 1912 2I

Estimates of Ecosystem Metabolism in the La Trobe River, Victoria,
W86-06128 1912 5B

METAL BIOAVAILABILITY
Accumulation of Cadmium by White Suckers (Catostomus Commersoni) in Relation to fish Growth and Lake Acidification,
W86-05560 1912 5B

METAL COMPLEXES
Effect of Nitrilotriacetic Acid on the Solubilities of Metals in Soil-Sludge Mixtures,
W86-04420 1910 5E

Trace Metals in Humic Acids and their Hydrolysis Products,
W86-05571 1912 5B

METAL CYANIDE COMPLEXES
Application of Polysulfide for Pretreatment of Spent Cyanide Liquors,
W86-04496 1910 5D

METAL-FINISHING WASTES
Market Assessment and Technological Evaluation of the CPU-4000 Chemical Precipitation Unit,
W86-00386 1902 5D

Total Effluent Treatment and Rinse Water Reclamation in a Semiconductor Device Manufacturing Facility,
W86-00758 1903 5D

Electrolytic Recovery of Zinc from Metal Finishing Rinse Waters,
W86-02104 1906 5D

Soluble-Sulfide Precipitation Treatment of Metal Finishing Wastewater,
W86-02105 1906 5D

Co-Precipitation of Heavy Metals with Soluble Sulfides Using Statistics for Process Control,
W86-02106 1906 5D

Industrial Water Reuse with Coupled-Transport Membranes,
W86-02425 1907 5D

Evaluation of Hollow Fiber Ultrafiltration and Reverse Osmosis for Waste Water Reuse in the Metal Finishing Industry,
W86-02726 1907 5D

Coupled Transport Membranes for Removal of Chromium from Electroplating Rinse Solutions,
W86-03534 1909 5D

Effect of Electroplating Factory Effluent on the Germination and Growth of Hyacinth Bean and Mustard,
W86-04145 1910 5C

Pretreatment by the Metal Finishing Industry,
W86-05012 1911 5D

Centralised Metal Recovery from Metal Finishing Wastes,
W86-05522 1912 5D

METAL ORGANIC PESTICIDES
Behavior of Methyltin Compounds Under Simulated Estuarine Conditions,
W86-04133 1910 5B

METAL RECOVERY
Centralised Metal Recovery from Metal Finishing Wastes,
W86-05522 1912 5D

METAL TOXICITY
Effect of Selected Metals and Water Hardness on the Oxygen Uptake of Activated Sludge,
W86-05845 1912 5D

METALLOIDS
Effects of Acidification on the Mobility of Metals and Metalloids: An Overview,
W86-04269 1910 5C

METALLOTHIONEIN
Survival and Hepatic Metallothionein in Developing Rainbow Trout Exposed to a Mixture of Zinc, Copper, and Cadmium,
W86-05993 1912 5C

METALS
Mathematical Modeling of Complex Formation of Metals and its Application to the Interpretation of Physicochemical Processes in Natural Waters (Mathematische Modellierung der Komplexbildung von Metallen und ihre Nutzung bei der Interpretation physikochemischer Prozesse in naturlichen Wassern),
W86-00394 1902 2K

Retention and Release of Selected Major and Minor Metals by the Altamaha River Marsh Ecosystem,
W86-00431 1902 2L

Effects of Metal Speciation on Growth of Phytoplankton with Special Reference to Iron,
W86-00455 1902 5C

State of Metal Ions in Natural Waters,
W86-00537 1902 2K

Distribution of Heavy Metals in Water and Sediments of Selected Sites of Yamuna River (India); Environmental Monitoring of the Yamuna River - Part I,
W86-00685 1903 5B

Chemical Composition of Highway Drainage Waters; II. Chemical Associations of Metals in the Suspended Sediment,
W86-00709 1903 5B

Chemical Composition of Highway Drainage Waters; III. Runoff Water Metal Speciation Characteristics,
W86-00710 1903 5B

Modification of a Metal Adsorption Model to Describe the Effect of pH,
W86-00847 1903 5B

Control of Metal Application Rates from Sewage Sludge Utilization in Agriculture,
W86-00854 1903 5G

Fish Physiology and Metal Pollution: Results and Experiences from Laboratory and Field Studies,
W86-00873 1903 5C

Effects of Some Divalent Metals on Cardiac and Branchial Ca2+-ATPase in Freshwater Fish Saccobranchus fossilis,
W86-00880 1903 5C

Drift Response of Aquatic Insects to Copper,
W86-00961 1904 5C

Sea-Surface Microlayer Metals Enrichments in an Urban and Rural Bay,
W86-01114 1904 5B

Arsenic Incorporation in a Salt Marsh Ecosystem,
W86-01118 1904 5B

Controlling Metal Uptake from Heat-Treated Sludge Applied to Grasslands,
W86-01185 1904 5E

Metal Mobilization in Home Well Water Systems in Nova Scotia,
W86-01264 1904 5B

Biosphere Levels of Cadmium, Zinc and Copper Around an Old Swedish Copper Mine,
W86-01280 1904 5C

Analysis of Organically Complexed Element Contents in Sediments and Sludges (Zur Analytik organisch-komplexierter Elementgehalte in Sedimenten und Schlammen),
W86-01301 1904 7B

Metal Concentrations in the Ground Water of the Ouchita Mountains, Arkansas, U.S.A.,
W86-01357 1905 5A

Partitioning and Transport of Metals Across the O2/H2S Interface in a Permanently Anoxic Basin: Framvaren Fjord, Norway,
W86-01396 1905 5B

Morphometric Analysis of the Response of Anabaena flos-aquae and Anabaena variabilis (Cyanophyceae) to Selected Concentrations of Zinc,
W86-01405 1905 5C

Effect of Lethal Copper Solutions on the Behavior of Rainbow Trout, Salmo gairdneri,
W86-01410 1905 5C

Catalytic Effect of Various Metal Ions on the Methylation of Mercury in the Presence of Humic Substances,
W86-01607 1905 5B

Influence of Transient Phenomena on the Biodegradation of Nitrilotriacetic Acid in the Activated Sludge Process II. Variations in Influent Metal and NTA Concentrations,
W86-01610 1905 5D

Contaminant Residues in Fish and Sediments from Lakes in the Atchafalaya River Basin (Louisiana),
W86-01890 1905 5B

Metals and PCB Concentrations in Mussels from Long Island Sound,
W86-01900 1905 5C

Effect of Selenite on the Uptake of Methylmercury in Cod (Gadus morhua),
W86-01901 1905 5C

Effects of Gut Sediment Contents on Measurement of Metal Levels in Benthic Invertebrates - a Cautionary Note,
W86-01902 1905 5B

Absorption of Cu++ by Long-term Cultures of Dunaliella salina, D. tertiolecta, and D. viridis,
W86-01904 1905 5C

Passive Films on Iron: The Mechanism of Breakdown in Chloride-Containing Solutions,
W86-02438 1907 8G

Processes of Atmospheric Deposition of Metals and Acids to Forests,
W86-03236 1908 5B

Capping of Dredged Material Disposal Management for New York Harbor,
W86-03464 1909 5G

Distribution and Enrichment of Trace Metals (Cd, Cr, Cu, Ni, Pb, Zn) in Bottom Sediments of Navigation Pools 4 (Lake Pepin), 5 and 9 of the Upper Mississippi River,
W86-03742 1909 5B

Longitudinal Distribution of Trace Elements (As, Cd, Cr, Hg, Pb, and Se) in Fishes and Sediments in the Upper Mississippi River,
W86-03743 1909 5B

Heavy Metal Accumulation in Selected Sessile Components of Fountain City Bay, Pool 5A, of the Upper Mississippi River,
W86-03744 1909 5B

Trace Elements in the Water, Sediments, and Fish of the Upper Mississippi River, Twin Cities Metropolitan Area,
W86-03745 1909 5B

Some Implication of the Role of Kinetics in Enhancing Element Transport,
W86-03760 1909 2K

Manual of Methods in Aquatic Environment Research, Part 9: Analyses of Metals and Organochlorines in Fish.
W86-03996 1910 5A

Analytical Methods for Measuring Metals by Atomic Absorption Spectrophotometry,
W86-03998 1910 5A

Effect of Calcium Ion on Sludge Characteristics,
W86-04247 1910 5D

Potential Health Implications for Acid Precipitation, Corrosion, and Metals Contamination of Drinking Water,
W86-04264 1910 5C

Effects of Acidification on Metal Availability to Aquatic Biota, with Special Reference to Filamentous Algae,
W86-04265 1910 5C

Effects of Acidification on the Mobility of Metals and Metalloids: An Overview,
W86-04269 1910 5C

Impact of Effects of Acid Precipitation on Toxicity of Metals,
W86-04273 1910 5C

Optimization of the ICP Working Conditions for the Analysis of Waste Waters and Industrial Solutions,
W86-04548 1910 5A

Metal-Binding Proteins as Metal Pollution Indicators,
W86-04763 1911 5C

Fate of Trace Metals in the Sediments of the New York Bight,
W86-04834 1911 5B

Accumulation and Metabolic Effects of Di-n-Butyltin Dichloride in the Freshwater Clam, Anodonta Anatina,
W86-04965 1911 5C

Simplified Method for the Extraction of the Metals Fe, Zn, Cu, Ni, Cd, Pb, Cr, Co and Mn from Soils and Sewage Sludges,
W86-05076 1911 5A

Temporal and Spatial Trends in Metal Loadings to Sediments of the Turkey Lakes, Ontario,
W86-05346 1911 5B

Metals in Low-Elevation, Southern Appalachian Forest Floor And Soil,
W86-05553 1912 2K

Contents of Metals and Suspended Solids in the Rhine. Part II,
W86-05823 1912 5B

Separation of Metals in Wastewater Sludge by Centrifugal Classification,
W86-06085 1912 5D

METEOROLOGIC DATA COLLECTION
Boulder Upslope Cloud Observation Experiment.
W86-00261 1901 2B

Airborne Doppler Radar Observations of a Convective Storm,
W86-04633 1910 2B

METEOROLOGIC DATA COLLECTIONS
Summary of Climatic Conditions in Natal.
W86-00321 1902 2A

METEOROLOGICAL DATA COLLECTION
1981 CCOPE PROBE Mesonet Calibration and Maintenance Procedures,
W86-03481 1909 7B

Investigations of Large Scale Storm Systems: Final Report,
W86-03647 1909 2B

Sea Ice Dynamics and Regional Meteorology for the Arctic Polynya Experiment (APEX) - Bering Sea 1985,

Climatic Pattern Analysis of Three- and Seven-Day Summer Rainfall in the Central United States: Some Methodological Considerations and a Regionalization,
W86-04593 1910 2B

Sub-Saharan Rainfall 1981-1984,
W86-04595 1910 2B

Towards a Satellite-Based Hydrometric Data Collection System,
W86-04810 1911 7B

Use of Satellite Data in Rainfall Monitoring,
W86-05802 1912 2B

METEOROLOGICAL DATA COLLECTIONS
STREX TOVS/Radiosonde Comparison, Part I: TOVS/AVHRR and Radiosonde Inventory,
W86-00187 1901 7B

Thuderstorms: A Social, Scientific, and Technological Documentary. Volume 3: Instruments and Techniques for Thunderstorm Observation and Analysis.
W86-02003 1906 2B

Station Networks for Storm Observation,
W86-02004 1906 7B

Observations from Instrumented Aircraft,
W86-02005 1906 7B

Photogrammetry of Thunderstorms,
W86-02006 1906 7B

Weather Radar,
W86-02008 1906 7B

Annual Average Climatic Maps of the United States,
W86-02321 1906 7A

METEOROLOGY
Marine Weather of the Inland Waters of Western Washington,
W86-00165 1901 2B

Atmospheric Moisture Balance in the Proposed Water Transfer Region,
W86-03942 1910 2A

Tracking a Stormy Beast in the Night,
W86-05905 1912 2B

METERED CONSUMPTION
Method For Using Computerized Customer Information in Water Distribution Network Models,
W86-04749 1911 7B

METERING
Winning the War Against Unaccounted for Water,
W86-01751 1905 6D

METHANE
Dissolved Methane Concentrations in the Southeast Bering Sea, 1980 and 1981,
W86-00180 1901 2K

Anaerobic Pretreatment Facility Also Provides Sludge Disposal Capability and Source of Renewable Energy for Food Processor,
W86-03661 1909 5D

Comparison of Stirred Suspension and Fixed Film Anaerobic Digestion Systems,
W86-03668 1909 5D

Low-Cost Apparatus for On-Site Monitoring of Methane in Ground Water,
W86-04211 1910 5B

Small Plant Captures Gas Economically,
W86-04300 1910 5D

Methanogenic Digestion Using Mixed Substrate of Acetic, Propionic and Butyric Acids,
W86-05345 1911 5D

METHANE BACTERIA
Effects of Engineering Controls on Methane Fermentation Toxicity Response,
W86-04501 1910 5D

Gas Metabolism Evidence in Support of the Juxtaposition of Hydrogen-Producing and Methanogenic Bacteria in Sewage Sludge and Lake Sediments,
W86-04665 1910 5C

Model for the Distribution of Sulfate Reduction and Methanogenesis in Freshwater Sediments,
W86-04680 1910 2H

Effect of Nickel on Methane Production and Butyric Acid Utilization in a Downflow Fixed-Film Reactor,
W86-04743 1911 5D

Influence of Different Substrate pH Values on the Performance of a Downflow Anaerobic Fixed Bed Reactor Treating a Petrochemical Effluent,
W86-04744 1911 5D

Recent Developments in Hydrogen Management During Anaerobic Biological Wastewater Treatment,
W86-04746 1911 5D

Flocculation in Methanogens, a Comparative Study of Methanosarcina barkeri Strains Julich and Fusaro,
W86-05422 1912 5A

METHANE RECOVERY
Methane Recovery from Water Hyacinth through Anaerobic Activated Sludge Process,
W86-06108 1912 5D

METHANOGENESIS
Batch Anaerobic Methanogensis of Phenolic Coal Conversion Wastewater,
W86-00743 1903 5D

Methanogenesis in an Upflow Anaerobic Sludge Blanket Reactor at pH 6 on an Acetate-Propionate Mixture,
W86-00776 1903 5D

Experience with the Anodek Process,
W86-01022 1904 5D

Performance of Expanded-Bed Methanogenic Reactor,
W86-01726 1905 5D

Evaluation of Startup and Operation of Four Anaerobic Processes Treating a Synthetic Meat Waste,
W86-05477 1912 5D

METHANOSARCINA BARKERI
Flocculation in Methanogens, a Comparative Study of Methanosarcina barkeri Strains Julich and Fusaro,
W86-05422 1912 5A

METHOD OF CHARACTERISTICS
Evaluation of Data Requirements for Groundwater Contaminant Transport Modeling,
W86-02723 1907 5B

METHYL MERCURY
Effect of pH on Methyl Mercury Production and Decomposition in Lake Sediments,
W86-00605 1902 5B

Mercury Distribution in a Polluted Marine Area. Concentrations of Methyl Mercury in Sediments and Some Marine Organisms,
W86-00707 1903 5A

METHYL OCTADEC-9-ENOATE
Action of Ozone on Methyl Octadec-9-enoate in Polar Solvents: A Model for Aqueous Ozonization of Organic Compounds,
W86-04123 1910 5F

METHYL PARATHION
Methyl Parathion (O-O-Dimethyl O-4-Nitrophenyl Thiophosphate) Effects on Whole-Body and Tissue Respiration in the Teleost, Tilapia mossambica (Peters),
W86-00878 1903 5C

Comparison of Ultraviolet and Reductive Amperometric Detection for Determination of Ethyl and Methyl Parathion in Green Vegetables and Surface Water Using High-Performance Liquid Chromatography,
W86-04446 1910 5A

METHYLAMINE
Role of Macrophytes in Removing Aliphatic Amines from Water,
W86-01823 1905 5D

METHYLATION
Catalytic Effect of Various Metal Ions on the Methylation of Mercury in the Presence of Humic Substances,
W86-01607 1905 5B

Methylation of Tin and Lead in the Environment: Oxidative Methyl Transfer as a Model for Environmental Reactions,
W86-01619 1905 5B

Sulfate-Reducing Bacteria: Principal Methylators of Mercury in Anoxic Estuarine Sediment,
W86-04676 1910 5B

METHYLMERCURY
Determination of Methylmercury by Phase-Sensitive A.C. Polarography,
W86-01755 1905 5A

Effect of Selenite on the Uptake of Methylmercury in Cod (Gadus morhua),
W86-01901 1905 5C

Levels of Chemical Versus Biological Methylation of Mercury in Sediments,
W86-05480 1912 5B

Acid Phosphatase Activity in the Intestine and Caeca of Bluegill, Exposed to Methyl Mercuric Chloride,
W86-05486 1912 5C

METHYLTIN COMPOUNDS
Behavior of Methyltin Compounds Under Simulated Estuarine Conditions,
W86-04133 1910 5B

METHYLUMBELLIFERONE
Fluorescence Correction for Measurements of Enzyme Activity in Natural Waters Using Methylumbelliferyl-substrates,
W86-05087 1911 2K

METROPOLITAN WATER MANAGEMENT
Applied Models for Improved Urban Water Management,

W86-00705 1903 3B

MICROCOLORIMETRY
Comparison of Microcolorimetric and Macrotitrimetric Methods for Chemical Oxygen Demand of Oil Shale Wastewaters,
W86-04448 1910 5A

MICROCOMPUTERS
Use of Microcomputers to Aid Wastewater Treatment Plant Operations,
W86-02444 1907 5D

Determination of Requirements for Sanitation Facilities at Large Gatherings,
W86-05548 1912 5D

MICROCOSMS
Lakes and Microcosms: Extending Microcosm Data to Aquatic Ecosystems,
W86-00231 1901 5C

Optimum Microcosms for Lake Ecotoxicology,
W86-00232 1901 5C

Classes of Ecotoxicological Tests: Their Advantages and Disadvantages for Regulation,
W86-00236 1901 5C

Modular Containers for Microcosm and Process Model Studies on the Fate and Effects of Aquatic Contaminants,
W86-00996 1904 5B

Fate and Effects of Pentachlorophenol in Hard- and Soft-Water Microcosms,
W86-00998 1904 5B

Minimizing Problems Caused by Unequal Development of Biological Activity Within Column Microcosms Used to Predict the Fate of Pollutants in Subsurface Materials,
W86-04095 1910 5A

Use of Protozoan Communities to Predict Environmental Effects of Pollutants,
W86-06027 1912 5C

MICROCYSTIS
Photosynthesis and Primary Production of Microcystis aeruginosa Kutz. in Lake Kasumigaura,
W86-00518
1902 2H

Hyperscums of the Cyanobacterium Microcystis aeruginosa in a Hypertrophic Lake (Hartbeespoort Dam, South Africa),
W86-00519
1902 5C

MICROCYSTIS AERUGINOSA
Simulation of Water-Bloom in a Eutrophic Lake - IV: Modeling the Vertical Migration in a Population of Microcystis Aeruginosa,
W86-04579
1910 5C

MICROELECTRONICS
Ultrapure Water in the Microelectronics Industry,
W86-05288
1911 5F

MICROENVIRONMENT
Lakes and Microcosms: Extending Microcosm Data to Aquatic Ecosystems,
W86-00231
1901 5C

Indices Identifying Subsurface Microbial Communities that are Adapted to Organic Pollution,
W86-04099
1910 5B

Microbial Biomass, Activity, and Community Structure in Subsurface Soils,
W86-04281
1910 5C

MICROHABITATS
Characterization of Benthic Microhabitat; An Experimental System for Aquatic Insects,
W86-00443
1902 2H

MICROLAYERS
Sea-Surface Microlayer Metals Enrichments in an Urban and Rural Bay,
W86-01114
1904 5B

MICRONESIA
Rainwater Catchment Water Quality in Micronesia,
W86-00061
1901 3B

MICROORGANISMS
Monitoring Marine Microbial Fouling.
W86-00227
1901 5A

Impact of Xenobiotic Chemicals on Microbial Ecosystems.
W86-00352
1902 5C

Environmental Risk Assessment: The Potential Role of Microbial Effects Testing,
W86-00353
1902 5C

Microbial Toxicity Testing of Synthetic Organic Chemicals,
W86-00354
1902 5C

Biochemical Determination of Biomass and Community Structure of Estuarine Detrital and Sedimentary Microbiota,
W86-00355
1902 5C

Alteration of Microbial Metabolic Activities in Association with Detritus,
W86-00639
1903 2K

Determination of Kinetic Constants of Activated Sludge Microorganisms,
W86-00752
1903 5D

Removal of Pesticides in Water by Microbial Cells Adsorbed to Magnetite,
W86-01057
1904 5F

Investigation into the Occurrence of Sewage Fungus in Rivers Containing Papermill Effluents - I; Review of Previous Research,
W86-01635
1905 5C

Investigation into the Occurrence of Sewage Fungus in Rivers Containing Papermill Effluents - IV; Growth in Experimental Channels Dosed with Effluents and Pure Compounds,
W86-01638
1905 5C

Attenuation of Heavy Metal Toxicity of the Activated Sludge Process by Treatment with Ferric Chloride,
W86-05566
1912 5D

Environmental Biotechnology and the Water Industry,
W86-05604
1912 5G

Monitoring the Impact of Acid Deposition on the Soil Microbiota, Using Glucose and Vanillin Decomposition,
W86-05913
1912 5C

MICROPOLLUTANTS
Elimination of Micropollutants by NaAlO2 Flocculation During Primary Treatment of Mixed Wastewater,
W86-04566
1910 5D

Organic Micropollutants in Dutch Coastal Waters,
W86-05359
1911 5B

Alternative Aluminium Flocculants Controlling Micropollutants,
W86-05404
1911 5F

Organic Micropollutants and the Protection of Water Supplies,
W86-05405
1911 5B

MICROSCOPIC ANALYSIS
Use of Immunofluorescence and Phase-Contrast Microscopy for Detection and Identification of Giardia Cysts in Water Samples,
W86-04255
1910 5A

MICROWAVES
Multi-Parameter Remote Measurement of Rainfall,
W86-03618
1909 2B

Retrieval of Precipitable Water from Bhaskara-II Microwave Measurements and Its Comparison with NOAA-7 and Radiosonde Data,
W86-04653
1910 7B

Differential Bare Field Drainage Properties from Airborne Microwave Observations,
W86-05245
1911 2G

Correlations Between Nimbus-7 Scanning Multichannel Microwave Radiometer Data and an Antecedent Precipitation Index,
W86-05476
1912 2B

Precipitable Water: Its Linear Retrieval using Leaps and Bounds Procedure and its Global Distribution from Seasat SMMR Data,
W86-05742
1912 2B

MIDDLESEX COUNTY
Six Ponds Dioxin Survey,
W86-01551
1905 5C

MIDGES
Survey of the Distribution of Chironomidae (Diptera, Insecta) of the River Rhine by Sampling Pupal Exuviae,
W86-00457
1902 2H

Characteristic Distribution of Chironomids in the Rivers Polluted with Heavy Metals,
W86-00954
1904 5C

Identifying Pollution Related Changes in Chironomid Communities as a Function of Taxonomic Rank,
W86-01583
1905 5C

Effects of Temperature on the Acute Toxicity of PCP in the Midge Chironomus Riparius Meigen,
W86-04964
1911 5C

Simple Method of Chironomid Control at Water Treatment Works,
W86-05079
1911 5F

Effects of pH on the Acute Toxicity and Uptake of (14C) Pentachlorophenol in the Midge, Chironomus Riparius,
W86-05488
1912 5C

MIGRATION
Evaluation of the Relevance of Some Environmental Factors to the Estimation of Migratory Timing and Yield for the Brown Shrimp of Pamlico Sound, North Carolina,
W86-00589
1902 2L

Short-Term and Long-Term Influences on the Immigration of Postlarval Banana Prawns Penaeus merguiensis, Into a Mangrove Estuary of the Gulf of Carpentaria, Australia,
W86-01125
1904 2L

MIKAWA BAY
In Situ Measurement of Oxygen Consumption Rate in the Bottom Layer in Mikawa Bay,
W86-00451
1902 2L

MIKOLAJSKIE LAKE
Occurrence of Gastropoda in the Lake Littoral and Their Role in the Production and Transformation of Detritus I. Snails in the Littoral of Mikolajskie Lake – General Characteristics of Occurrence,
W86-05190
1911 2H

MILITARY HYDROLOGY
Military Hydrology; Report 3: A Review of Army Doctrine on Military Hydrology,
W86-03456
1909 10F

MINE ACID
Effects on Water Quality of Coal Mining in the Basin of the North Fork Kentucky River, Eastern Kentucky,
W86-03136
1908 5B

MINE DRAINAGE
Assessment of Water Resources in Lead-Zinc Mined Areas in Cherokee County, Kansas, and Adjacent Areas,
W86-00121
1901 5A

Mine Waste Discharge Rich in Copper - An Example of Effects on Planktonic Communities,
W86-00959
1904 5C

Boron Pollution in the Simav River, Turkey and Various Methods of Boron Removal,
W86-01061
1904 5D

Preliminary Appraisal of the Hydrology of the Red Oak Area, Latimer County, Oklahoma,
W86-02951
1908 5B

Simulated Effects of Anticipated Coal Mining on Dissolved Solids in Selected Tributaries of the Yampa River, Northwestern Colorado,
W86-02982
1908 5B

Classification of Stream Basins in Southeastern Ohio According to Extent of Surface Coal Mining,
W86-03071
1908 4C

Reconnaissance of Mine Drainage in the Coal Fields of Eastern Pennsylvania,
W86-03092
1908 5B

Effects on Water Quality of Coal Mining in the Basin of the North Fork Kentucky River, Eastern Kentucky,
W86-03136
1908 5B

Changes in Ground-Water Resources as a Results of Mine Drainage in the Severouralsk Bauxite Area,
W86-03984 1910 2F

Simulated Oil-Shale Mine Dewatering Using a Confined Multiaquifer Model, Piceance Basin, Colorado, U.S.A.,
W86-03988 1910 4C

Microbiological Treatment of Uranium Mine Waters,
W86-04438 1910 5D

Analytical Modeling of Ground-Water Impacts by Mining,
W86-05448 1912 4C

Design Manual: Neutralization of Acid Mine Drainage,
W86-05789 1912 5D

Potential Formation of Bromophenols in Barcelona's Tap Water Due to Daily Salt Mine Discharges and Occasional Phenol Spills,
W86-05997 1912 5F

MINE DRAINAGE, WATER QUALITY
Effects of Coal Mining on the Water Quality and Sedimentation of Lake Tuscaloosa and Selected Tributaries, North River Basin, Alabama,
W86-02863 1907 5C

MINE WASTES
Oil Shale Mining, Processing, Uses, and Environmental Impacts, 1978-July, 1981: Citations from the NTIS Data Base.
W86-00201 1901 4C

Oil Shale Mining, Processing, Uses, and Environmental Impacts, August, 1981-October, 1982: Citations from the NTIS Data Base.
W86-00215 1901 5D

Long-Term Ecological Behaviour of Abandoned Uranium Mill Tailings; 2.: Growth Patterns of Indigenous Vegetation on Terrestrial and Semi-Aquatic Areas,
W86-00217 1901 5C

Toxic Effects of Iron Ore Tailings and the Response of Watercress from Tailings at High Concentrations of Fe, Zn and Mn,
W86-00653 1903 5C

Use of Watershed Characteristics to Select Control Streams for Estimating Effects of Metal Mining Wastes on Extensively Disturbed Streams,
W86-00725 1903 5C

Development of a New Process for Treating Uranium Mining Effluents,
W86-00759 1903 5D

Risk Analysis for Seismic Design of Tailings Dams,
W86-01090 1904 8D

Biosphere Levels of Cadmium, Zinc and Copper Around an Old Swedish Copper Mine,
W86-01280 1904 5C

Fixation of Sewage Sludge and Fly Ash; An Alternative Method for Ocean Disposal,
W86-02115 1906 5E

Hydrologic Data for Leviathan Mine and Vicinity, Alpine County, California, 1981-83,
W86-03091 1908 5B

Some Environmental Consequences of Water and Energy Conservation in the Handling of Mine Tailings in Sub-Arctic Regions,
W86-04486 1910 3C

Dissolved Organic Carbon of Coal Slurry Transport Water,
W86-06162 1912 5B

MINE WATER
Ground-Water System and Possible Effects of Underground Coal Mining in the Trail Mountain Area, Central Utah,
W86-02765 1907 4C

Environmental Isotope Hydrology in Southern Africa,
W86-03576 1909 2F

MINERAL FLOTATION
Treatment Methods for Reuse of Municipal Sewage Effluent for Mineral Flotation in the Mining Industry,
W86-02587 1907 3C

MINERAL OIL
Thin-layer Chromatographic Determination of Mineral Oil in Well Water (Dunnschichtchromatographischer Nachweis von Mineralol in Brunnenwasser),
W86-00415 1902 5A

MINERAL SPRINGS
Characterization of Glenwood Springs and Dotsero Springs Waters,
W86-03333 1908 2K

MINERAL WATER
Search for Acid-fast Bacilli in Bottled Mineral Waters,
W86-01054 1904 5A

Evaluation of the Intensity of Some Recent Exogenic Geological Processes in the U.S.S.R. by the Hydrogeochemical Balances Method,
W86-03777 1909 2K

MINERALIZATION
Water-Quality Appraisal, Mammoth Creek and Hot Creek, Mono County, California,
W86-00106 1901 5A

Sedimentation, Mineralization and Resuspension of Sludge in a Sewerage System: A Case Study,
W86-01255 1904 5D

Degradation and Mineralization of the Polycyclic Aromatic Hydrocarbons Anthracene and Naphthalene in Intertidal Marine Sediments,
W86-01481 1905 5B

Nitrogen Mineralization in a Sequence of Hydromorphic Soils in a Valley in the High Semois (Belgium) (Mineralisation de l'azote dans une sequence de sols hydromorphes de la vallee de la Haute Semois (Belgique)),
W86-01510 1905 2G

Carbon Mineralization in the Water of Lake Grevelingen (The Netherlands), as Measured with the Oxygen Consumption Method,
W86-01578 1905 2H

Mineralization of Organic Carbon on and in the Sediment of Lake Grevelingen,
W86-01579 1905 2H

Study of Anthropogenic Influence on Water Quality in Some Rivers of the Baltic Sea Basin,
W86-03779 1909 5B

Considerations about Water Mineralization of some Mozambican Rivers,
W86-04151 1910 2E

Mineralization of Nitrogen in Soils Amended with Organic Wastes,
W86-05391 1911 5E

MINERALS
Biomass and Mineral Composition of Aquatic Macrophytes in the Hygam Wetland, Kashmir with Reference to Substrate Nutrients,
W86-00400 1902 2L

Hydrogeological Prospecting Group and Types of Mineral Deposits Filled with Karst Water in China (in Chinese).
W86-00897 1903 2F

Effects of Water and Mineral Nutrient Supply on a Deciduous and an Evergreen Dwarf Shrub: Vaccinium uliginosum L. and V. vitis-idaea L.,
W86-01360 1905 2I

Acidity, Nutrients, and Minerals in Atmospheric Precipitation Over Florida: Deposition Patterns, Mechanisms, and Ecological Effects,
W86-03246 1908 5B

Interaction Water-Silicate Minerals in the Unsaturated Zone Controlled by Thermodynamic Disequilibria,
W86-03756 1909 2K

Groundwater Quality Evolution in the Upper Aquifer of the Coastal Dune Area of the Western Netherlands,
W86-03761 1909 2F

Geochemical Studies in the Drainage Basin of the Rio Vouga (Portugal). I. General Hydrogeochemistry from Its Origin to the Ria de Aveiro,
W86-03776 1909 2K

Algae Reactions to Mineral and Organic Micropollutants, Ecological Consequences and Possibilities for Industrial-Scale Application: A Review (Revue des Reactions des Algues aux Micropollutants Mineraux et Organiques; Consequences Ecologiques et Possibilities d'Applications Industrielles),
W86-04568 1910 5C

Soil and Slash Pine Response to Sludge Applications in Florida,
W86-05127 1911 5E

MINES
Multivariate Analysis of Water Contamination by Heavy Metals at Donana National Park,
W86-01286 1904 5B

Power from Mine Cooling Water,
W86-04703 1911 8C

MINESOILS
Effect of Sewage Sludge on Microbial Activity in an Old, Abandoned Minesoil,
W86-01702 1905 5E

MINING
Quality of Runoff Water from Finnish Fuel Peat Mining Areas,
W86-00682 1903 5B

Radiological Impact of Mining in a Th-Rich Norwegian Area,
W86-00823 1903 5B

Stress-Strain State of Earth Dams on Undermined Territories,
W86-00988 1904 8E

Effect of Sewage Sludge on Microbial Activity in an Old, Abandoned Minesoil,
W86-01702 1905 5E

MINING EFFECTS
Water Resources and Potential Hydrologic Effects of Oil-Shale Development in the Southeastern Uinta Basin, Utah and Colorado,
W86-03021 1908 4C

MINING ENGINEERING
Effects of Hydraulic Borehole Mining on Ground Water at a Test Site in Northeast St. Johns County, Florida,
W86-03116 1908 4C

MINNESOTA
Utility Battles Iron and Manganese,
W86-00807 1903 5F

Bank-Erosion Processes in a Cool-Temperate Environment, Orwell Lake, Minnesota,
W86-00898 1903 2J

Use of the Rb/K Ratio to Evaluate Potassium Nutrition of Peatlands,
W86-01164 1904 2L

Aerosol Chemistry in Minnesota and Wisconsin and its Relation to Rainfall Chemistry,
W86-01382 1905 2K

Appraisal of the Surficial Aquifers in the Pomme De Terre and Chippewa River Valleys, Western Minnesota,
W86-02357 1906 2F

Rainfall-Runoff Relationships and Water-Quality Assessment of Coon Creek Watershed, Anoka County, Minnesota,
W86-02370 1906 2A

Increasing Economic Efficiency of Water Use for Irrigation in the Upper Midwest,
W86-02428 1907 3F

Continuous Synthesis of Runoff From the Kawishiwi River in Northeastern Minnesota,
W86-02518 1907 2E

Fiscal Year 1983 Program Report, Water Resources Research Center (Minnesota),
W86-02637 1907 9D

Policy and Organizational Considerations for Improving Transfer of University Research Information and Effecting Availability of Expertise to State Agencies,
W86-02638 1907 9D

Land Treatment of Septage,
W86-02646 1907 5D

Runoff and Chemical Loading in Small Watersheds in the Twin Cities Metropolitan Area, Minnesota,
W86-02794 1907 2E

Hydrogeologic Setting and the Potentiometric Surfaces of Regional Aquifers in the Hollandale Embayment, Southeastern Minnesota, 1970-80,
W86-02809 1907 2F

Hydrologic Effects of Impoundments in Sherburne National Wildlife Refuge, Minnesota,
W86-02939 1908 2F

Hydrogeologic and Water-Quality Characteristics of Prairie du Chien-Jordan, Aquifer, Southeast Minnesota,
W86-03042 1908 2F

Ground-Water Quality Appraisal of Surficial Sand-Plain Aquifers in Hubbard, Morrison, Otter Tail, and Wadena Counties, Minnesota,
W86-03080 1908 2F

Atmospheric Deposition of Selected Chemicals and Their Effect on Nonpoint-Source Pollution in the Twin Cities Metropolitan Area, Minnesota,
W86-03125 1908 5B

Water Resources Data, Minnesota Water Year 1982, Volume 1. Great Lakes and Souris-Red-Rainy River Basins,
W86-03221 1908 7C

Water Resources Data, Minnesota Water Year 1982, Volume 2: Upper Mississippi and Missouri River Basins,
W86-03222 1908 7C

Effects of Forest Fire and Other Disturbances on Wilderness Lakes in Northern Minnesota: 1. Limnology,
W86-04648 1910 4C

Life Cycles of Hydropsyche riola, H. slossonae and Cheumatopsyche pettiti (Trichoptera: Hydropsychidae) in a Spring-fed Stream in Minnesota,
W86-05930 1912 2H

MINNOWS
Nitrite Exposure and Respiration Rates in Fathead Minnows,
W86-00729 1903 5C

MIRELANDS
Water Movement in Mirelands,
W86-05801 1912 2H

MIRES
Some Mire Systems in Japan,
W86-00904 1903 2H

MIREX
Discrimination of the Stock of Fish (Eels, Anguilla rostrata) Based on the Presence of the Synthetic Chemical Mirex (Discrimination d'un Stock de Poisson, l'Anguille (Anguilla rostrata), Basee sur la Presence d'un Produit Chimique de Synthese, le Mirex),
W86-01584 1905 5C

MISSIPPI RIVER ALLUVIAL AQUIFER
Potentiometric Surface Map of the Alluvial Aquifer, Eastern Arkansas, Spring 1983,
W86-01943 1906 2F

MISSISSIPPI
City Implements Trihalomethane Control Program,
W86-00808 1903 5F

Potentiometric Map of the Paleozoic Aquifer in Northeastern Mississippi, November and December 1982,
W86-01942 1906 2F

Summary of Results of an Investigation to Define the Geohydrology and Simulate the Effects of Large Groundwater Withdrawals on the Mississippi River Alluvial Aquifer in Northwestern Mississippi,
W86-02405 1906 4B

Final Program Report: Fiscal Year 1983 Mississippi Water Resources Research Institute,
W86-02492 1907 9D

Institutional Framework for Conjunctive Use of Surface and Ground Water,
W86-02493 1907 6E

Mathematical Models for Water Resources Policy and Management with Application to the Eutaw-McShan Aquifer,
W86-02494 1907 2F

Incentives for Industrial Conversion to Surface Water,
W86-02501 1907 6D

Fiscal Year 1984 Program Report (Mississippi Water Resources Research Institute),
W86-02722 1907 9D

Background Hydrologic Information in Potential Lignite Mining Areas in North-Central Mississippi, August 1984,
W86-02761 1907 4C

Potential Ground-Water Level Changes in the Mississippi River Alluvial Aquifer in Response to Proposed Navigation Improvements on the Yazoo River in Mississippi,
W86-03122 1908 2F

Background Hydrologic Information in Potential Lignite Mining Areas in Northeastern Mississippi, August 1983,
W86-03162 1908 2K

MISSISSIPPI ALLUVIAL PLAIN
Summary of Results of an Investigation to Define the Geohydrology and Simulate the Effects of Large Groundwater Withdrawals on the Mississippi River Alluvial Aquifer in Northwestern Mississippi,
W86-02405 1906 4B

MISSISSIPPI EMBAYMENT
Geohydrologic Sections, Northern Louisiana,
W86-03083 1908 7C

MISSISSIPPI RIVER
Removal by Coagulation of Trace Organics from Mississippi River Water,
W86-00011 1901 5F

Deterioration of Coastal Environments in the Mississippi Deltaic Plain: Options for Management,
W86-02091 1906 6G

Discharge Ratings for Control Gages at Mississippi River Lock and Dam 11, Dubuque, Iowa,
W86-02401 1906 4A

Aquatic Habitat Studies on the Lower Mississippi River, River Mile 480 to 530: Report 1, Introduction,
W86-03302 1908 6G

Summary Report: Model-Prototype Comparison Study of Dike Systems, Mississippi River; Potamology Investigations,
W86-03307 1908 8A

Assessment of Implanted Substrate Samplers for Macroinvertebrates Inhabiting Stone Dikes of the Lower Mississippi River,
W86-03309 1908 5C

Contaminants in the Upper Mississippi River: Proceedings of the 15th Annual Meeting of the Mississippi River Research Consortium.
W86-03737 1909 6G

Nature of Organics Removed During Treatment of Mississippi River Water,
W86-05887 1912 5F

Decline in Lead Transport by the Mississippi River,
W86-05906 1912 5B

MISSISSSIPPI RIVER
Occurrence and Dissipation of High Lead Level Episodes in the Lower Mississippi River,
W86-01735 1905 5B

MISSOURI
Ground-Water Resources of Audrain County, Missouri,
W86-00113 1901 2F

Lowland Hardwood Wetland Invertebrate Community and Production in Missouri,
W86-01502 1905 2H

Occurrence of Tetrachlorodibenzo-p-dioxin in Environmental Samples from Southwest Missouri,
W86-02236 1906 5A

Water-Resources Activities of the U.S. Geological Survey in Missouri, Fiscal Year 1985,
W86-02375 1906 7C

F.Y. 1983 Institute Final Program Report, (Missouri Water Resources Research Center),
W86-02616 1907 9D

Fiscal Year 1984 Program Report (Missouri Water Resources Research Center).
W86-02731 1907 9D

Data Uses and Funding of the Stream-Gaging Program in Missouri,
W86-03070 1908 7A

Water Resources Data, Missouri Water Year 1983,
W86-03209 1908 7C

MISSOURI RIVER
Numerical Solution of Two-Dimensional Transverse Diffision Equation,
W86-02503 1907 5B

MIST IRRIGATION
Implications for Total Water Demand from the Adoption of Drip Irrigation in Western Agriculture,
W86-02571 1907 3F

MIXED LAKES
Comparison of the Phosphorus-Chlorophyll Relationships in Mixed and Stratified Lakes,
W86-00614 1903 2H

MIXED LAYERS
Wind-Forced Motions in Stratified Lakes and Their Effect on Mixed-Layer Shear,
W86-05279 1911 2H

Mixed-Layer Deepening in Lakes After Wind Setup,
W86-05967 1912 2H

MIXED LIQUOR SOLIDS
New Concepts and Practices in Activated Sludge Process Control,
W86-00221 1901 5D

MIXING
Mixing Zone Model for Conservative Parameters,
W86-00089 1901 5G

Environmental Aspects of Artificial Aeration and Oxygenation of Reservoirs: A Review of Theory, Techniques, and Experiences,
W86-00327 1902 5G

Mixing Characteristics and Performance of the Anaerobic Upflow Blanket Filter (UBF) Reactor,
W86-00423 1902 5D

Mixing and Detention Time Distribution in Activated Sludge Tanks,
W86-00747 1903 5D

Mixed Layer Dynamics in a Lake Exposed to a Spatially Variable Wind Field,
W86-01412 1905 2H

Exchange of Water in Fjords: The Efflux/Reflux Theory of Advective Reaches Separated by Mixing Zones,
W86-01536 1905 2L

Effect of Seawater Magnesium on Natural Fluorescence During Estuarine Mixing, and Implications for Tracer Applications,
W86-01801 1905 2L

Turbulence and Mixing in Estuaries,
W86-02072 1906 2L

Diffusion and Advection in Two-Dimensional Rotating Flow,
W86-02699 1907 2E

Surface and Groundwater Mixing and Identification of Local Recharge-Discharge Zones from Seasonal Fluctuations of Oxygen-18 in Groundwater in Fissured Rock,
W86-03790 1909 2F

Water Supply by Optimal Mixing of Waters of Variable Quantity and Quality,
W86-04154 1910 5F

Mixing of a Stratified River by Barge Tows,
W86-04306 1910 5G

Biological Treatment of a Landfill Leachate in Sequencing Batch Reactors,
W86-04385 1910 5D

MIXOLIMNION
Diurnal Mixed Layer,
W86-04510 1910 2H

MIXTURES
Quantitative Structure Activity Relationships and Mixture Toxicity Studies of Alcohols and Chlorohydrocarbons: Effects on Growth of Daphnia magna,
W86-01160 1904 5C

MOBILE BED FILTRATION
Mathematical Modelling of Mobile Bed Filtration with Contact Flocculation-Filtration Arrangement,
W86-05607 1912 5F

MOBILHY
HAPEX-MOBILHY: A Hydrologic Atmospheric Experiment for the Study of Water Budget and Evaporation Flux at the Climatic Scale,
W86-05847 1912 2B

MODEL SELECTION CRITERIA
Periodic Autoregressive-Moving Average (Parma) Modeling with Applications to Water Resources,
W86-04529 1910 2E

MODEL SIMULATIONS
Some Effects of Surface Heating and Topography on the Regional Severe Storm Environment. Part I: Three-Dimensional Simulations,
W86-06130 1912 2B

MODEL STUDIES
Nonlinear Time-Variant Constrained Model for Rainfall-Runoff,
W86-00022 1901 2A

Analysis of the Effects of Orography on Surface Rainfall by a Parameterized Numerical Model,
W86-00023 1901 2B

Discrete-Time Linear Cascade under Time Averaging,
W86-00028 1901 2A

Comparison of Two Daily Streamflow Simulation Models of an Alpine Watershed,
W86-00033 1901 2E

Regional Unsteady Interface Between Fresh Water and Salt Water in a Confined Coastal Aquifer,
W86-00042 1901 2F

Two Algorithms For Parameter Estimation in Groundwater Flow Problems,
W86-00044 1901 2F

Comparing the Performance of Root-Water-Uptake Models,
W86-00048 1901 2D

Unified Theory for Microbial Growth under Multiple Nutrient Limitation,
W86-00067 1901 2H

Dynamic Model for Multireservoir Operation,
W86-00069 1901 6A

Quadratic Model for Reservoir Management: Application to the Central Valley Project,
W86-00070 1901 6A

Application of the STORM Model to Design Problems in Singapore and in Kaosiung, Republic of China,
W86-00086 1901 6A

Attempt to Implement SWMM in Tunisia,
W86-00087 1901 6A

Sediment-Water Interface in Modeling Pesticides in Sedimentation Ponds,
W86-00088 1901 5B

Mixing Zone Model for Conservative Parameters,
W86-00089 1901 5G

Some Recent Adaptations and Applications of QUAL-II in the Northeast,
W86-00090 1901 5B

Review of Model Use in Evaluating Nonpoint Source Loads from Forest Management Activities,
W86-00091 1901 5B

Mechanistic Simulation for Transport of Nonpoint Source Pollutants,
W86-00092 1901 5B

Data Management for Continuous Hydrologic Simulation,
W86-00093 1901 2A

Estimation of Missing Values in Monthly Rainfall Series,
W86-00094 1901 2B

Planning and Implementation of Regional Stormwater Management Facilities in Montgomery County, Maryland,
W86-00099 1901 4A

Pointe Coupee Pumping Station Sump and Outlet Structure, Upper Pointe Coupee Loop Area, Louisiana: Hydraulic Model Investigation,
W86-00101 1901 8C

Dimensions for Safe and Efficient Deep-Draft Navigation Channels: Hydraulic Model Investigation,
W86-00148 1901 8B

Buhne Point, Humboldt Bay, California, Design for the Prevention of Shoreline Erosion: Hydraulic and Numerical Model Investigations,
W86-00169 1901 4D

Navigation Conditions in Vicinity of Walter Bouldin Lock and Dam Coosa River Project: Hydraulic Model Investigation,
W86-00171 1901 8A

Navigation Conditions at Mitchell Lock and Dam, Coosa River, Alabama,
W86-00177 1901 8A

Foundations of Principal Component Selection Rules,
W86-00186 1901 7C

User Guide for LARM2: A Longitudinal-Vertical, Time-Varying Hydrodynamic Reservoir Model,
W86-00190 1901 5B

Hydrological Simulation Program--FORTRAN (HSPF): Users Manual for Release 8.0,
W86-00199 1901 2A

Modeling of an ANFLOW Municipal Waste-Treatment Unit,
W86-00246 1901 5D

Mathematical Model, SERATRA, for Sediment-Contaminant Transport in Rivers and Its Application to Pesticide Transport in Four Mile and Wolf Creeks in Iowa.
W86-00259 1901 5B

Modeling Water Demands.
W86-00270 1901 6D

Water Demand,
W86-00271 1901 6D

Methodological Framework,
W86-00272 1901 6D

Industrial Water Demands,
W86-00273 1901 6D

Agricultural Water Demands,
W86-00274 1901 6D

Municipal Water Demands,
W86-00275 1901 6D

Programming Models for Regional Water Demand Analysis,
W86-00276 1901 6D

National Perspective in Water Demand Modeling,
W86-00277 1901 6D

Bloomington Spillway North Branch Potomac River Maryland and West Virginia: Hydraulic Model Investigation,
W86-00285 1901 8B

ANSWERS (Areal Nonpoint Source Watershed Environment Response Simulation) User's Manual.
W86-00287 1901 4D

European and United States Case Studies in Application of the CREAMS Model.
W86-00294 1901 5B

CREAMS: A System for Evaluating Management Practices on Field-Size Areas,
W86-00295 1901 5B

Testing the Application of CREAMS to Finnish Conditions,
W86-00296 1901 5B

Environmental Effects of Nitrogen Fertilization Exemplified by Groundwater Pollution as Simulated by CREAMS,
W86-00297 1901 5B

Application of the CREAMS Model for Calculation of Leaching of Nitrate from Light Soils in the Notec River Valley,
W86-00298 1901 5B

Application of the CREAMS Model: Western Skane, Sweden,
W86-00299 1901 5B

Predicting Hillslope Runoff and Erosion in the United Kingdom: Preliminary Trials with the CREAMS Model,
W86-00300 1901 5B

Application of the CREAMS Model as Part of an Overall System for Optimizing Environmental Management in Lithuania, USSR: First Experiments,
W86-00301 1901 5B

Review of Case Studies of CREAMS Model Application,
W86-00302 1901 5B

Evaluation of Marsh/Estuarine Water Quality and Ecological Models: An Interim Guide,
W86-00314 1902 2L

Columbia River Estuary Hybrid Model Studies: Report 4, Entrance Channel Tests,
W86-00357 1902 2L

Return Period Analysis of Minimum Events Using Sliding Polynomials,
W86-00375 1902 2A

Testing the Climatic Representativeness of Short-Period Records Through Simulation,
W86-00376 1902 2A

Infiltration and Soil Water Distribution in Layered Soils Computed by Green and Ampt and Richards Models,
W86-00377 1902 2G

Hydraulic Model Study of Choke Canyon Dam Spillway and Stilling Basin,
W86-00382 1902 8B

Articulation, Accuracy and Effectiveness of Mathematical Models: A Review of Freshwater Wetland Applications,
W86-00433 1902 2H

Stability of Artificially-Drained Lowlands: A Theoretical Assessment,
W86-00434 1902 6G

Soyphen: Soybean Growth Stages Modeled from Temperature, Daylength, and Water Availability,
W86-00462 1902 2I

Effect of Potential Evapotranspiration Estimates on Crop Model Simulations,
W86-00470 1902 2D

Interrill Soil Erosion - Part I: Development of Model Equations,
W86-00495 1902 2J

Model to Simulate Response of Plant Stomata to Environmental Conditions,
W86-00504 1902 2D

Model Ecosystems as a Tool in Freshwater and Marine Research,
W86-00526 1902 5A

Modeling Hydroclimatic Processes in Large Watersheds,
W86-00647 1903 2A

Modeling the Cumulative Effects of Forest Practices on Downstream Aquatic Ecosystems,
W86-00651 1903 6G

Statistical Determination of the Optimal Sample Size of Secondary Effluent BOD5 and SS,
W86-00683 1903 5A

Development of Pollutant Specific Models for Toxic Organic Compounds in the Activated Sludge Process,
W86-00754 1903 5D

Modeling, Optimization and Design of Fluidized Beds for Biological Denitrification,
W86-00761 1903 5D

Seasonal Precipitation Forecasting with a 6-7 Month Lead Time in the Pacific Northwest Using an Information Theoretic Model,
W86-00778 1903 2B

Pollutant Runoff Models: Selection and Use in Decision Making,
W86-00780 1903 5B

Net Benefit Model for Recreation Planning at Drinking Water Reservoirs,
W86-00792 1903 6G

Lake Modeling: State of the Art,
W86-00850 1903 2H

Development and Use of an Empirical Model for Dissolved Oxygen in the River Don, Aberdeenshire,
W86-00937 1904 5A

Model for Forecasting Acute Toxicity of River Water for Fish (Modele de Prevision de la Toxicite aigue des eaux de Rivieres Pour le Poisson),
W86-00968 1904 5C

Modular Containers for Microcosm and Process Model Studies on the Fate and Effects of Aquatic Contaminants,
W86-00996 1904 5B

Flux Use for Calibrating and Validating Models,
W86-01039 1904 5A

Validity of the Local Equilibrium Assumption for Modeling Sorbing Solute Transport Through Homogeneous Soils,
W86-01072 1904 5B

Identification of Parameter Structure in Groundwater Inverse Problem,
W86-01078 1904 2F

Analytical Representation of the van Everdingen-Hurst Aquifer Influence Functions for Reservoir Simulation,
W86-01139 1904 2F

Simulating Fish Redistribution in the LG-2 Reservoir After Flooding,
W86-01166 1904 8I

Synthesis Modeling of Municipal Wastewater Treatment Systems,
W86-01188 1904 5D

Modelling of Oxygen Depletion in Coastal Waters,
W86-01235 1904 5C

Modeling Water Quality and the Effects of Agricultural Best Management Practices in the Iowa River Basin,

Simulated Effects of Surface Coal Mining and Agriculture on Dissolved Solids in Rosebud Creek, Southeastern Montana, W86-01962 1906 5B

Analysis of Ground-Water-Quality Data in Montana, W86-02361 1906 7C

Application of the U.S. Geological Survey's Precipitation-Runoff Modeling System to the Prairie Dog Creek Basin, Southeastern Montana, W86-02390 1906 2A

Regional Aquifer-System Analysis of the Northern Great Plains in Parts of Montana, North Dakota, South Dakota, and Wyoming--Geochemical Evolution of Ground-Water Composition in Two Confined Aquifer Systems, W86-02400 1906 2K

Biohydrology of Mountain Fluvial Systems: the Yellowstone (Parts I and II), W86-02452 1907 6G

Effects of U.S. Antimony's Disposal Ponds on Alluvial Aquifer and Prospect Creek, Western Montana, W86-02618 1907 5B

Verification of Shoreline Sewage Leachates in Flathead Lake, Montana, W86-02619 1907 5B

Fiscal Year 1983, Program Report, Montana Water Resources Research Center, W86-02620 1907 9D

Some Hydrologic Aspects of Proposed Coal Mining in the North Fork of the Flathead River Headwaters Area, Northwest Montana and South East British Columbia, W86-02707 1907 4C

Method for Estimating Mean and Low Flows of Streams in National Forests in Montana, W86-02824 1907 2E

Potential Effects of Surface Coal Mining on the Hydrology of the West Otter Area, Ashland and Birney-Broadus Coal Fields, Southeastern Montana W86-02827 1907 4C

Ground-Water Resources and Potential Hydrologic Effects of Surface Coal Mining in the

Northern Powder River Basin, Southeastern Montana,
W86-02841 1907 4C

Example Calculations of Possible Ground-Water Inflow to Mine Pits at the West Decker, East Decker, and Proposed North Decker Mines, Southeastern Montana,
W86-02886 1907 4B

Reconnaissance Evaluation of Contamination of the Alluvial Aquifer in the East Poplar Oil Field, Roosevelt County, Montana,
W86-02915 1907 5B

Historical Water-Quality Data for the Clark Fork (River) and the Mouths of Selected Tributaries, Western Montana,
W86-02937 1908 5B

Hydrology of Area 45, Northern Great Plains and Rocky Mountain Coal Provinces, Montana and North Dakota,
W86-02959 1908 4C

Potential Effects of Surface Coal Mining on the Hydrology of the Horse Creek Area, Sheridan and Moorhead Coal Fields, Southeastern Montana,
W86-02968 1908 4C

Floods of May 1978 in Southeastern Montana and Northeastern Wyoming,
W86-02971 1908 2E

Streamflow Characteristics of Mountain Streams in Western Montana,
W86-02972 1908 2E

Hydrogeologic Data Related to the Potential for Stock-Water Development on Federally Owned Rangeland Near Dillon, Montana,
W86-03016 1908 7C

Uses, Funding, and Availability of Continuous Streamflow Data in Montana,
W86-03036 1908 7B

Field Guidelines for Collection, Treatment, and Analysis of Water Samples, Montana District,
W86-03060 1908 7B

Selected Hydrogeologic Data for the Big Muddy Creek Valley Near Plentywood, Northeastern Montana,
W86-03068 1908 4B

Water-Resources Investigations of the U.S. Geological Survey in Montana, October 1983 through September 1984.
W86-03166 1908 10C

Water Resources Data, Montana Water Year 1983, Volume 1: Hudson Bay and Missouri River Basins,
W86-03228 1908 7C

Water Resources Data, Montana Water Year 1983, Volume 2, Columbia River Basin,
W86-03229 1908 7C

Geochemistry and Geohydrology of the West Decker and Big Sky Coal-Mining Areas, Southeastern Montana,
W86-03545 1909 2K

MONTE CARLO METHOD
Simulation Model to Forecast Project Completion Time,
W86-04620 1910 6A

Daily Rainfall Probabilities: Conditional upon Prior Occurrence and Amount of Rain,
W86-04623 1910 2B

Monte Carlo Simulation of Snow Depth in a Forest,
W86-05244 1911 2C

MONTE-CARLO PROCESS
Monte-Carlo Simulation of Noninteracting Solute Transport in a Spatially Heterogeneous Soil,
W86-00702 1903 2G

MONTE CARLO SIMULATION
Variability of Pesticide Loads to Surface Waters,
W86-04491 1910 5B

MONTHLY VARIATION
Characteristics of Thunderstorms in Zaria, Nigeria,
W86-04509 1910 2B

MONTMORILLONITE
Adsorption of Metal Ions and Mineral Complexes on Minerals,
W86-02662 1907 2K

Adsorption of Metal Ions and Mineral Complexes on Minerals,
W86-02715 1907 2K

Adsorption of Organic Pollutants on Montmorillonite Treated with Amines,
W86-05022 1911 5F

MOORLAND
Contact Flocculation-Filtration Of Low-Turbidity, Highly Coloured Acid Moorland Water,
W86-05303 1911 5F

MOORLAND SOILS
Annual Losses of Iron From Moorland Soils and Their Relation to Free Iron Contents,
W86-01468 1905 2H

MORAINES
Effect of Groundwater on Soil Formation in a Morainal Landscape in Saskatchewan,
W86-00670 1903 2F

Glaciers and Glaciolithic Systems of the Central Andes,
W86-03675 1909 2C

MORICHAL LARGO RIVER
Limnological Investigation of the Rivers Uracoa, Yabo, Morichal Largo and Claro in the Eastern Plains of Venezuela,
W86-00928 1904 2H

MORINGA
Toxicity and Mutagenicity Evaluation of Water Coagulated with Moringa oleifera Seed Preparations Using Fish, Protozoan, Bacterial, Coliphage, Enzyme and Ames Salmonella Assays,
W86-01858 1905 5F

MOROCCO
Effects of Insufficient Recharge for Aquifer Layers in Ain Beni Mathar (Oujda Province, East Morroco) (Alimentation Insuffisante des Couches Aquiferes et ses Consequences dans la Region d'Ain Beni Mathar (Province d'Oujda, Maroc Oriental)),
W86-05682 1912 4B

MORPHOEDAPHIC INDEX
Simple Method to Estimate Lake Phosphorus Concentrations Resulting from Natural, Background, Loadings,
W86-01640 1905 2H

MORPHOMETRY
Filling in the Gap Between Hydrology and Hydrobiology - the Viewpoint of a Hydrologist,
W86-00675 1903 2H

MORTALITY
Growth and Mortality of Fry of Lake Michigan Lake Trout During Chronic Exposure to PCB's and DDE,
W86-00366 1902 5C

Separating Starvation Losses from Other Early Feeding Fry Mortality in Steelhead Trout Salmo gairdneri, Chinook Salmon Oncorhynchus tshawytscha, and Lake Trout Salvelinus namaycush,
W86-00728 1903 5C

Rate of Bacterial Mortality in Aquatic Environments,
W86-00777 1903 2A

Mortality of Juvenile American Shad and Blueback Herring Passed through a Low-Head Kaplan Hydroelectric Turbine,
W86-01155 1904 8I

Water Hardness and Cardiovascular Mortality Rate in Abruzzo, Italy,
W86-04434 1910 5C

Mersey Estuary (U.K.) Bird Mortalities - Causes, Consequences and Correctives,
W86-05370 1911 5C

Histological and Biochemical Effects of Cadmium Exposure in the Bluegill Sunfish (Lepomis Macrochirus),
W86-05492 1912 5C

Survival and Hepatic Metallothionein in Developing Rainbow Trout Exposed to a Mixture of Zinc, Copper, and Cadmium,
W86-05993 1912 5C

MORTAR
Use of Grout-Filled Sausages in Coastal Structures,
W86-05503 1912 8D

MOSCOW
Formation of Useful Groundwater Resources in the Southwestern Part of the Moscow Artesian Basin Under Intense Withdrawal Conditions,
W86-01803 1905 2F

MOSQUITOFISH
Cadmium Partitioning and Related Effects in Parasitized and Non-Parasitized Mosquitofish (Gambusia affinis: Poeciliidae),
W86-00960 1904 5C

Insecticide Resistance in Mosquitofish of the Lower Rio Grande Valley of Texas - An Ecological Hazard,
W86-01889 1905 5C

MOSQUITOS
Aquatic Bioassay of 11 Pesticides Using Larvae of the Mosquito, Wyeomyia smithii (Diptera: Culicidae),
W86-00733 1903 5A

Response of Invertebrates in Temporary Vernal Wetlands to Altosid SR-10 as Used in Mosquito Abatement Programs,
W86-01582 1905 5C

Efficacy and Chemical Persistence of Two Highly Active Carbamate Developmental Inhibitors,
W86-04465 1910 5C

MOSSES
Monitoring of Polychlorinated Biphenyls (PCBs) and Hexchlorocyclohexanes (HCH) in Freshwater Using the Aquatic Moss Cinclidotus danubicus,
W86-01916 1905 5A

Effect of Water Level on Desiccation of Sphagnum in Relation to Surrounding Sphagna,
W86-06142 1912 2I

MOTORS
Variable Speed A-C Motor Controller for Canal Gate Hoists,
W86-03341 1908 8C

MOULLE
Artificial Recharge of Water Level in Moulle (P of C): An Example of Water Resource Management(L'Alimentation Artificielle de la Nappe de Moulle (P of C): un Exemple de Gestion de la Ressource),
W86-05697 1912 4B

MOUNT ETNA
Joint Use of Surface Water and Ground Water or Large Aquifers of Volcanic Origin (L'Usage Conjoint d'Eaux Superficielles et d'Eaux Souterraines dans un Bassin ou l'On a un Grand Aquifere Constitue de Roches Volcaniques),
W86-05690 1912 6D

MOUNT ST. HELENS
Sedimentation in a Blast-Zone Lake at Mount St. Helens, Washington - Implications for Varve Formation,
W86-00517 1902 2J

Spirit Lake Dam-Failure Flood Routing Assessment,
W86-02846 1907 4A

Changes in Channel Geomorphology of Six Eruption-Affected Tributaries of the Lewis River, 1980-82, Mount St. Helens, Washington,
W86-02979 1908 2J

Impact of an Outburst of Spirit Lake on the Columbia River,
W86-03008 1908 2J

MOUNTAIN STREAMS
Variations in the Amount of Organic Carbon (Dissolved and Particulate) in a Small Mediterranean Mountain Stream (Corsica) (Les Variations des Teneurs en Carbone Organique (Dissous et Particulaire) d'un Petit Torrent Mediterraneen Montagnard (Corse)),
W86-00918 1903 2H

Influence of Organic Pollution on the Macroinvertebrate Communities of Mountain Streams,
W86-00948 1904 5C

Cr6+ Influence upon Ephemeroptera Larvae in a Pre-Alpine Torrent,
W86-00956 1904 5C

MOUNTAINOUS REGIONS
Problems and Prospects of Power Evacuation Management from Hydro Station in Himalayan Ranges,
W86-01205 1904 8C

MOUNTAINS
Runoff from Glacierized Mountains: A Model for Annual Variation and Its Forecasting,
W86-0007[illegible] 1901 2E

Some Problems Related to Sediment Transport Measurement in Steep Mountain Streams,
W86-04867 1911 2J

Studies of Sediment Production on Mountain Slopes,
W86-04869 1911 4D

Applicability of the Universal Soil Loss Equation in Mountain Watersheds in Semiarid and Humid Regions,
W86-04920 1911 4D

Characteristics and Distribution of Cloud Water over the Mountains of Northern Colorado during Wintertime Storms. Part II: Spatial Distribution and Microphysical Characteristics,
W86-05457 1912 2B

Mesoscale Indexing of the Distribution of Orographic Precipitation over High Mountains,
W86-05459 1912 2B

MOZAMBIQUE
Considerations about Water Mineralization of some Mozambican Rivers,
W86-04151 1910 2E

MOZHAISK RESERVOIR
Hydrological and Hydrochemical Aspects of the Transformation of Organic Matter in the Mozhaisk Reservoir,
W86-01812 1905 2H

Space-Time Inhomogeneity of Distribution of Organic Matter in the Mozhaisk Reservoir,
W86-01813 1905 2H

MT. FUJI
Observation on Microphysical Processes in the Stratiform Precipitations Including Melting Layers at Mt. Fuji,
W86-00425 1902 2B

MT. ST. HELENS
Assessment of Changes in Storm and Seasonal Runoff Response of Watersheds Impacted by Mt. St. Helens Ash Deposition,
W86-02434 1907 2E

Flow Properties of the Mt. St. Helens Mudflow Material,
W86-02453 1907 2J

MUD
Management of Mud, Problematic in the Foundations of Chandan and Getalsud Earth Dams in Bihar (India),
W86-01213 1904 8D

Behaviour of Suspended Sediments and Muds in an Estuary,
W86-01231 1904 2L

MUDFLOWS
Flow Properties of the Mt. St. Helens Mudflow Material,
W86-02453 1907 2J

Impact of an Outburst of Spirit Lake on the Columbia River,
W86-03008 1908 2J

MUGGELSEE
Contribution to the Application of the Regression Analysis in Connection with the Estimation of the Primary Production in the Grosser Muggelsee (Berlin) for the Period of 1979-1982 (Ein Beitrag zur Anwendung der Regressionsanalyse im Zusammenhang mit der Schatzung der Primarproduktion im Grossen Muggelsee (Berlin) fur den Zeitraum 1979...1982),
W86-00551 1902 2H

Photosynthetic Activity of Dominant Algal Species in Eutrophic Shallow Lake (Grosser Muggelsee, Berlin) Investigated by Microautoradiography,
W86-01131 1904 2H

MULCHES
Soil Water Evaporation Suppression by Sand Mulches,
W86-00050 1901 2G

MULCHING
Mulch Requirements for Erosion Control with the No-Till System in the Tropics: A Review,
W86-03600 1909 4D

Sludge Management Method Gets Updated,
W86-04298 1910 5E

Pilot Studies Indicate Composting Choices,
W86-04299 1910 5E

MULTILAYER AQUIFERS
Parameter Identification in Layered Aquifer Systems,
W86-02524 1907 2F

MULTIOBJECTIVE PLANNING
Management of Lake Como: A Multiobjective Analysis,
W86-04165 1910 6A

MULTIPHASE FLOW
Application of Multi-Phase Flow Theory at a Chemical Waste Landfill, Niagara Falls, New York,
W86-04069 1910 5G

MULTIPHASE FLOW SYSTEMS
Chemical Transport Facilitated by Multiphase Flow Systems,
W86-06095 1912 5B

MULTIPHASE SUSPENSION FLOW
Generalized Continuum Theory for Multiphase Suspension Flows,
W86-01533 1905 2J

MULTIPLE PLATE SAMPLERS
Comparison of Four Artificial Substrates and the Ponar Grab for Benthic Invertebrate Collection,
W86-06018 1912 7B

MULTIPLE REGRESSION
Sediment Yields in Eastern Montana: Summary of Data and Proposed Techniques for Estimating Sediment Yields from Small, Ungaged Watersheds,
W86-01922 1906 2J

MULTIPLE REGRESSION ANALYSIS
Determination of the Accuracy of Water Level Observation,
W86-04801 1911 7B

MULTIPURPOSE NETWORKS
Pragmatic Approach to Evaluating a Multipurpose Stream-Gaging Network,
W86-02417 1906 7A

MULTIPURPOSE PROJECTS
Two Projects Become One,
W86-01741 1905 6A

MULTIPURPOSE RESERVOIRS
Management of Lake Como: A Multiobjective Analysis,
W86-04165 1910 6A

MULTIRESERVOIR NETWORKS
Stochastic Optimization of a Multireservoir Hydroelectric System: A Decomposition Approach,
W86-01069 1904 4A

MULTISTAGE FLASH DISTILLATION
Economics of MSF Plants: Influence of Variations in the Design Parameters and Use of Different Construction Materials,
W86-01668 1905 3A

Seawater Reverse Osmosis - an Economic Alternative to Distillation,
W86-01674 1905 3A

MULTISTAGE ORIFICES
Preventing Cavitation with Multistage Orifices,
W86-01721 1905 8C

MULTIVARIATE ANALYSIS
Multivariate Analysis and Interpretation of the Hydrochemistry of a Dolomitic Reef Aquifer, Northern Italy,
W86-01773 1905 2F

Evaluation of Environmental Factors Affecting Major Dissolved-Ion Yields of Streams in the United States,
W86-02923 1908 5B

Multivariate Analysis of Petroleum Hydrocarbon Weathering in the Subarctic Marine Environment,
W86-04034 1910 5B

Discrimination of Groundwater Sources Using Cluster Analysis, MANOVA, Canonical Analysis and Discriminant Analysis,
W86-04312 1910 2F

Periodic Autoregressive-Moving Average (Parma) Modeling with Applications to Water Resources,
W86-04529 1910 2E

Geochemistry of Suspended Particulate Matter in Two Natural Sedimentation Basins of the River Rhine,
W86-04547 1910 5B

MUNICIPAL CONSTUCTION GRANTS
Sewage Treatment: When the Federal Government Pulls the Plug,
W86-05509 1912 6E

MUNICIPAL LANDFILLS
Distribution of Selected Trace Organics in the Leachate Plume of a Municipal Landfill,
W86-04059 1910 5B

MUNICIPAL PUMPING
Ground-Water Resources of the Mattapoisett River Aquifer, Plymouth County, Massachusetts: Summary for Water-Resource Managers,
W86-02874 1907 4B

MUNICIPAL WASTES
Effects of Toxicants on Plankton,
W86-00360 1902 5C

Microbial Survival in Cured Municipal Compost,
W86-02685 1907 5C

Physical and Chemical Correlates of Microbial Activity and Biomass in Composting Municipal Sewage Sludge,
W86-04254 1910 5D

Evaluating Maturity and Metal Transfer of MSW Compost,
W86-04972 1911 5E

Feasibility of Constructing a Waste-to-Energy Incinerator to Generate Electricity for a Colocated Wastewater Treatment Plant,
W86-05129 1911 5E

Municipal Sludge Composting Technology Evaluation,
W86-05131 1911 5E

MUNICIPAL WASTEWATER
Heavy Metal Concentrations in Municipal Wastewater Treatment Plant Sludge,
W86-00726 1903 5B

Wastewater Applications in Forest Ecosystems,
W86-03295 1908 5D

Evaluation of Biological Nitrification-Denitrification at Penticton, British Columbia,
W86-03619 1909 5D

Pilot-Scale Assessment of the Biological Fluidized Bed Process for Municipal Wastewater Treatment,
W86-03631 1909 5D

Proceedings of the 6th Symposium on Wastewater Treatment,
W86-03659 1909 5D

Implementation of Sequencing Batch Reactors for Municipal Wastewater Treatment,
W86-03664 1909 5D

Application of Biological Batch Reactor Technology in Wastewater Treatment,
W86-03665 1909 5D

Proceedings of the Conference on Combined Municipal/Industrial Wastewater Treatment.
W86-03883 1909 5D

Investigation on the Suitability of Various Pesticide Manufacturing Wastewater for Discharge to Municipal Waste Treatment Facilities,
W86-03900 1909 5D

Behavior of Chlorophenoxy Herbicides During the Activated Sludge Treatment of Municipal Waste Water,
W86-04107 1910 5D

Treatment Optimization of Municipal Wastewater and Reuse for Regional Irrigation,
W86-04196 1910 3C

Evaluation of Conventional Treatment Processes for removal of mutagenic Activity from Municipal Wastewaters,
W86-04330 1910 5D

Continuing the Development of Municipal Effluent Guidelines for the Northwest Territories,
W86-04490 1910 5G

Feasibility for Performing a Risk Assessment on Pathogens,
W86-04507 1910 5D

Improving POTW Performance Using the Composite Correction Program Approach: Handboodk,
W86-04830 1911 5D

Municipal Wastewater Sludge Combustion Technology.
W86-04835 1911 5D

Process Design Manual for Land Treatment of Municipal Wastewater: Supplement on Rapid Infiltration and Overland Flow.
W86-04840 1911 5D

Overland Flow,
W86-04842 1911 5D

Pretreatment by the Metal Finishing Industry,
W86-05012 1911 5D

MUNICIPAL WATER
Public Water Supplies in Gloucester County, N.J.,
W86-00174 1901 2F

Modeling Water Demands,
W86-00270 1901 6D

Municipal Water Demands,
W86-00275 1901 6D

National Perspective in Water Demand Modeling,
W86-00277 1901 6D

Optimal Expansion and Operation Under Uncertainty of a Water Supply System with Multiple Water Systems,
W86-02530 1907 6A

Epidemic Campylobacteriosis Associated with a Community Water Supply,
W86-04403 1910 5C

Shortage of Water Fluoridation chemicals Developing,
W86-04976 1911 5F

Upgrading the Salem Municipal Water System from 1914 to 1984,
W86-05538 1912 5F

Water Reuse: Problems and Solutions,
W86-05800 1912 5D

Private Operation of U.S. Water Utilities,
W86-05883 1912 6C

Full-Cost Water Pricing,
W86-05884 1912 6C

Efficiency of Water Pricing: A Rate of Return Analysis for Municipal Water Departments,
W86-06024 1912 6C

MUNICIPAL WATER CONSUMPTION
Policy Analysis of Reservoir Operation, Volume I: Executive Summary; Volume II: Component Studies,
W86-02730 1907 6A

MUNICIPAL WELLS
Nitrate Concentrations in Municipal Wells Located Within a River Bed,
W86-04078 1910 4B

MUNITIONS WASTEWATER
Reversed-Phase High-Performance Liquid Chromatographic Determination of Nitroorganics in Munitions Wastewater,
W86-04462 1910 5A

Interlaboratory Evaluation of High-Performance Liquid Chromatographic Determination of Nitroorganics in Munition Plant Wastewater,
W86-04463 1910 5A

MURRAY BASIN
Radiocarbon Dating of Groundwater in Tertiary Sediments of the Eastern Murray Basin,
W86-01036 1904 2F

MURRELS
Effect of Safe Concentrations of Some Pesticides on Ovarian Recrudescence in the Freshwater Murrel, Channa punctatus (Bl.): A Quantitative Study,
W86-00872 1903 5C

MURRUMBIDGIL SWAMP
Limnological Studies of Waterfowl Habitat in South-western New South Wales. I. Water Chemistry,
W86-00522 1902 2H

MUSKINGUM FLOOD ROUTING
Negative Outflows from Muskingum Flood Routing,
W86-01052 1904 2E

MUSKINGUM METHOD
River Flood Routing by Nonlinear Muskingum Method,
W86-05980 1912 2E

MUSSELS
Instruction Report on Freshwater Mussels,
W86-00325 1902 2H

Accumulation, Elimination and Chemical Speciation of Mercury in the Bivalves Mytilus edulis and Macroma balthica,
W86-00453 1902 5C

Heavy Metal Content of Oyster, Blue Mussel and Growing Water in Hansan-Geoje Bay (in Korean),
W86-00454 1902 5C

Freshwater Naiad (Mussel) Fauna of the Nolin River in the Green River Drainage of Central Kentucky (Mollusca: Bivalvia),
W86-00534 1902 2H

Unionids (Bivalvia) of Loch Raven Reservoir, Maryland,
W86-00535 1902 2H

State Mussel Watch: Toxics Surveillance in California,
W86-00598 1902 5A

Growth Inhibition and Recovery in Mussels (Mytilus edulis) Exposed to Low Copper Concentrations,
W86-00668 1903 5C

Accumulation of Radium-226 by Populations of the Freshwater Mussel, Velesunio angasi, from the Alligator Rivers Uranium Province, Northern Territory, Australia,
W86-00972 1904 5C

Organochlorines and Trace Metals in Green-Lipped Mussels Perna viridis from Hong Kong Waters: A Test of Indicator Ability,
W86-01514 1905 5A

Survey of the Freshwater Mussel Fauna of the Kanawha River September 1981-September 1982,
W86-01592 1905 2H

Influence of Cyclic Exposure on the Accumulation of Heavy Metals by Mytilus edulis planulatus (Lamarck),
W86-01796 1905 5C

Detoxification of Copper in the Cells of the Digestive Gland of Mussel: The Role of Lysosomes and Thioneins,
W86-01866 1905 5C

Study of the Distribution of Freshwater Mussels (Mollusca: Pelecypoda: Unionoida) of the Lake Champlain Drainage in Northwestern New England,
W86-01877 1905 2H

Metals and PCB Concentrations in Mussels from Long Island Sound,
W86-01900 1905 5C

Effects of Pollution on Growth of Midwestern Mussel Shells,
W86-02563 1907 5C

Trace Metals in Mussels (Mytilus edulis) from the Waddenzee, Coastal North Sea and the Estuaries of Ems, Western and Eastern Scheldt,
W86-04967 1911 5C

MUTAGENICITY
Mutagenicity Assessment of Different Drinking Water Supplies before and after Treatments,
W86-00690 1903 5A

Toxicity and Mutagenicity Evaluation of Water Coagulated with Moringa oleifera Seed Preparations Using Fish, Protozoan, Bacterial, Coliphage, Enzyme and Ames Salmonella Assays,
W86-01858 1905 5F

Screening Complex Hazardous Wastes for Mutagenic Activity using a Modified Version of the TLC/Salmonella Assay,
W86-04709 1911 5A

MUTAGENS
Mutagenicity and Organic Halogen Determination in Body Fluids and Tissues of Rats Treated with Drinking Water and Pulp Mill Bleachery Effluent Concentrates,
W86-00993 1904 5C

Effect of Soil on the Mutagenic Properties of Waste Water,
W86-03502 1909 5C

Detection and Quantification of Electrophiles in Environmental Samples: Labeling of Potential Mutagens in Drinking Water by 4-Nitrothiophenol,
W86-03820 1909 5A

Persistence and Mutagenic Potential of Herbicide-derived Aniline Residues in Pond Water,
W86-05851 1912 5B

MYCOBACTERIA
Search for Acid-fast Bacilli in Bottled Mineral Waters,
W86-01054 1904 5A

MYCOFLORA
Myco-Ecological Studies of Two Water-Bodies from Andhra Pradesh, India,
W86-05397 1911 2I

MYRIOPHYLLUM
Effects of 2,4-D on Natural Phytoplankton Systems in Association with Myriophyllum spicatum,
W86-00965 1904 5C

NAEGLERIA
Inactivation of Naegleria gruberi Cysts by Chlorine Dioxide,
W86-00066 1901 5F

NAKA RIVER ESTUARY
Regional Unsteady Interface Between Fresh Water and Salt Water in a Confined Coastal Aquifer,
W86-00042 1901 2F

NANHAI
Estimation of Discharge and Loads from the Rivers Flowing into Littoral Seas of China (in Chinese),
W86-01167 1904 2J

NAPHTHALENE
Degradation and Mineralization of the Polycyclic Aromatic Hydrocarbons Anthracene and Naphthalene in Intertidal Marine Sediments,
W86-01481 1905 5B

Effect of Naphthalene on Soil and Fresh-Water Algae,
W86-04100 1910 5C

Ozonation of Naphthalene in Aqueous Solution - I: Ozone Consumption and Ozonation Products,
W86-04126 1910 5D

Ozonation of Naphthalene in Aqueous Solution - II: Kinetic Studies of the Initial Reaction Step,
W86-04127 1910 5D

NAPHTHALENES
Effect of Hydrocarbon Mixtures on Adsorption of Substituted Naphthalenes by Clay and Sediment from Water,
W86-01852 1905 5B

NAPROPAMIDE
Field Study of Napropamide Movement through Unsaturated Soil,
W86-05221 1911 5B

NAPTHOL
Dissipation of Carbaryl and the 1-Naphthol Metabolite in Flooded Rice Fields,
W86-01708 1905 5B

NARRAGANSETT BAY
Estuarine Total System Metabolism and Organic Exchange Calculated from Nutrient Ratios: An Example from Narragansett Bay,
W86-02082 1906 2L

NASHFORK HYDROLOGICAL OBSERVATORY
Distribution of Denitrifying and Sulfate Reducing Bacteria within a Riparian Zone Along a Mountain Stream,
W86-02603 1907 6G

NATIONAL FORESTS
New Rules for National Forest Water,
W86-00716 1903 6D

NATIONAL LAKESHORES
Chemical and Biological Quality of Streams at the Indiana Dunes National Lakeshore, Indiana, 1978-80,
W86-03163 1908 5B

NATIONAL WATER ASSESSMENT
National Water Summary 1983--Hydrologic Events and Issues.
W86-00131 1901 6B

NATURAL FLOW
Phase I Summary and Phase II Plan for Comparing Regulated with Unregulated Streamflow in the Yakima River at Union Gap, Washington,
W86-02378 1906 4A

NATURAL GAS
Determination of Toxic Organic Compounds in Discharge Water from Hydrostatic Testing of Natural Gas Pipelines,
W86-02602 1907 5A

Results of 4-m3 LNG Spills onto Water,
W86-03909 1910 5B

NATURAL RECHARGE
Assessment of the Effects of Land Use on Groundwater Recharge,
W86-05660 1912 4C

Rainfall-Recharge Correlation; A Method for Evaluating Potential Groundwater,
W86-05662 1912 2F

Mechanism of Vertical Water Movement in Kanto Loam During and After Rainfall,
W86-05663 1912 2G

Nonlinear Optimization for Aquifer Parameter Estimation with Inadequate Data,
W86-05664 1912 2F

NATURAL RESOURCES
Overview of Capabilities Available Through the TNRIS Geographic Information System.
W86-03261 1908 10D

Texas Natural Resources Information System (TNRIS): A Progress Report,
W86-03263 1908 10D

Update of Texas Land Cover Maps by Computer-Assisted Analysis of Landsat Digital Data: Support Activities Report,
W86-03272 1908 7B

Computer Based Mapping System for Storage and Retrieval of Soil and Land Use Data: Support Activities Report,
W86-03279 1908 10D

Role of Natural Resource Inventories in the Passaic River Basin, New Jersey,
W86-03321 1908 6B

Natural Resources Damage Assessment Study: The Ixtoc I Blowout,
W86-04040 1910 5C

NATURAL RESOURCES DEFENSE COUNCIL
Environmental Law--The Role of FDF Variances in Implementing the Clean Water Act's Toxic Pollutant Discharge Provisions. Chemical Manufacturers Association v. Natural Resources Defense Council, Inc., 105 S. Ct. 1102 (1985),
W86-05861 1912 6E

NATURAL WATERS
Mathematical Modeling of Complex Formation of Metals and its Application to the Interpretation of Physicochemical Processes in Natural Waters (Mathematische Modellierung der Komplexbildung von Metallen und ihre Nutzung bei der Interpretation physikochemischer Prozesse in naturlichen Wassern),
W86-00394 1902 2K

State of Metal Ions in Natural Waters,
W86-00537 1902 2K

Tritium in Natural Waters of Moldavia and a Hydrogeological Interpretation of the Results of its Determination,
W86-01806 1905 2H

Phosphorus Forms and Content in Natural Water and Factors Determining its Cycling,
W86-01811 1905 2K

Redox Potential: Its Measurement and Importance in Water Systems,
W86-02259 1906 2K

Alkalinity and Acidity,
W86-02260 1906 2K

Surface Charge and Adsorption Properties of Chrysotile Asbestos in Natural Waters,
W86-04429 1910 5B

Performance Tests for the Measurement of pH with Glass Electrodes in Low Ionic Strength Solutions Including Natural Waters,
W86-04451 1910 7B

Extraction of Arsenic (III) and Arsenic (V) from Natural Waters for Neutron Activation Analysis,
W86-04461 1910 2K

Sorption of Trace Metals by Humic Materials in Soils and Natural Waters,
W86-04715 1911 5B

Fluorescence Correction for Measurements of Enzyme Activity in Natural Waters Using Methylumbelliferyl-substrates,
W86-05087 1911 2K

NAVAJO INDIAN RESERVATION
Progress Report on Black Mesa Monitoring Program-1984,
W86-02408 1906 2F

NAVIGABLE RIVERS
Aquatic Habitat Studies on the Lower Mississippi River, River Mile 480 to 530: Report 1, Introduction,
W86-03302 1908 6G

NAVIGABLE WATERS
Chicago Area's Tunnel and Reservoir Plan,
W86-04498 1910 5G

NAVIGATION
Dimensions for Safe and Efficient Deep-Draft Navigation Channels: Hydraulic Model Investigation,
W86-00148 1901 8B

Navigation Conditions in Vicinity of Walter Bouldin Lock and Dam Coosa River Project: Hydraulic Model Investigation,
W86-00171 1901 8A

Navigation Conditions at Mitchell Lock and Dam, Coosa River, Alabama,
W86-00177 1901 8A

Cleveland Harbor, Ohio: Design for the Safe and Efficient Passage of 1,000-ft-Long Vessels at the West (Main) Entrance, Hydraulic Model Investigation,
W86-00204 1901 8A

Development of a Numerical Modeling Capability for the Computation of Unsteady Flow on the Ohio River and Its Major Tributaries,
W86-00220 1901 2E

Columbia River Estuary Hybrid Model Studies: Report 4, Entrance Channel Tests,
W86-00357 1902 2L

Influence of Channel Regulating Structures on Fish and Wildlife Habitat: Appendix - Volume I, Figures and Photographs.
W86-03509 1909 6G

Potential Biological Impacts of Navigation Traffic,
W86-03645 1909 6G

Ecological History of the Upper Mississippi River,
W86-03738 1909 6G

Role of Contaminants in the Decline of the Illinois River: Implications for the Upper Mississippi,
W86-03739 1909 6G

Investigation of Effects of Navigation Traffic Activities on Hydrologic, Hydraulic, and Geomorphic Characteristics in the Upper Mississippi River System,
W86-03750 1909 5B

Mixing of a Stratified River by Barge Tows,
W86-04306 1910 5G

NAWDEX MEMBERSHIP
Directory of Member Organizations of the National Water Data Exchange (NAWDEX),
W86-03557 1909 10D

NEARSHORE PROCESSES
Profile of Suspended Sediment Due to Wave Action,
W86-05501 1912 2L

NEBRASKA
Time-of-Travel Data for Nebraska Streams, 1968 to 1977,
W86-00120 1901 2E

Simulation of Moisture Stress Effects on Soybean Yield Components in Nebraska,
W86-00491 1902 2I

Changes in Soil Carbon and Nitrogen Due to Irrigation Development in Nebraska's Sandhill Soils,
W86-00703 1903 6G

Simulation and Decisionmaking: The Platte River Basin in Nebraska,
W86-00790 1903 6B

Irrigation Data from Chase, Dundy, and Perkins Counties, Nebraska,
W86-01957 1906 2F

Mass Water-Level Measurements of Fall 1984 in the Central Platte River Basin, Nebraska,
W86-02360 1906 7C

Phytoplankton Control and Water Quality Improvement Through Manipulation of Animal Communities,
W86-02583 1907 5C

Evaluation of Surface Water Runoff from Swine Facilities for Contamination with Viruses,
W86-02584 1907 5B

Changes in Distribution of Mineral Nitrogen Under Native Range and Cultivated Fields at the Nebraska Sandhills Ag. Laboratory,
W86-02590 1907 5B

Implication of Temporal Variations and Vertical Stratification of Groundwater Nitrate-Nitrogen in the Hall County Special Use Area,
W86-02591 1907 5B

Maximizing Water Use Efficiency of Limited Irrigation Plus Natural Precipitation Using Conservation Cropping Systems,
W86-02593 1907 3F

Field Measurement of Evaporation and Transpiration for Irrigated Corn, Sorghum and Soybeans,
W86-02594 1907 2D

Nebraska Water Resources Center Program, FY 1983 Report,
W86-02595 1907 9D

Groundwater Management Using Control Analysis and Multiple-Objective Techniques,
W86-02599 1907 6A

Fiscal Year 1984 Program Report (Nebraska Water Resources Center).
W86-02749 1907 9D

Appraisal of Data for Ground-Water Quality in Nebraska,
W86-02810 1907 2F

Cost-Effectiveness of the Stream-Gaging Program in Nebraska,
W86-02885 1907 7A

Hydrologic Characteristics of Nebraska Soils,
W86-03028 1908 2G

Descriptive, Geologic, and Borehole Geophysical Logs for 23 Test Holes in South-Central Nebraska,
W86-03176 1908 2F

Water Resources Data, Nebraska Water Year 1982,
W86-03218 1908 7C

Water Resources Data, Nebraska Water Year 1983,
W86-03225 1908 7C

NEEBING-MCINTYRE FLOODWAY
Morphologic Effects of Channelization: the Case of the Neebing-McIntyre Floodway, Thunder Bay, Ontario, Canada,
W86-05408 1911 8B

NEEDLES
Needle Water Potential and Soil-to-Foliage Flow Resistance During Soil Drying: A Comparison of Douglas-fir, Western Hemlock, and Mountain Hemlock,
W86-01787 1905 2I

NEGEV DESERT
Fossil Water under the Sinai-Negev Peninsula,
W86-00911 1903 2F

NEGOTIATIONS
Trading 404 Permits for Enhanced Fish Habitat,
W86-01681 1905 6G

NEMATODES
Long-Term Evolution of the Meiofauna at a Sandy Station in Lake Grevelingen, The Netherlands,
W86-01576 1905 2H

Effects of Moisture on Soil Microorganisms and Nematodes: A Field Experiment,
W86-05203 1911 2G

NEPAL
Glacier Inventory in the Dudh Kosi Region, East Nepal,
W86-03682 1909 2C

Developing the Ganges Basin,
W86-03959 1910 6E

Regional Co-Operation in the Utilization of Water Resources of the Himalayan River,
W86-03965 1910 6E

Water and Nepal,
W86-05075 1911 5C

NETHERLANDS
Using Several Indices for Biological Assessment of Water Quality in Running Water,
W86-00942 1904 5A

Phosphorus, Nitrogen and Chlorophyll-a Concentrations in a Typical Dutch Polder Lake, Tjeukemeer, in Relation to its Water Regime Between 1968 and 1982,
W86-01196 1904 2H

Restoration of Lake Veluwe, The Netherlands, by Reduction of Phosphorus Loading and Flushing,
W86-01198 1904 5G

Water Quality Control of the Andelse Maas Basin, The Netherlands, by Iron Dosing,
W86-01199 1904 5G

Biological Assessment of Water Quality in Running Water Using Macroinvertebrates: A Case Study for Limburg, The Netherlands,
W86-01227 1904 5A

Amsterdam Water Supply,
W86-01260 1904 5F

Developing Regional Water Systems in the Netherlands,
W86-01263 1904 5F

Hydrology of Bank Groundwater Withdrawals in the Netherlands,
W86-01298 1904 4B

Drainage Coefficients for Heavy Land,
W86-01431 1905 2G

Lake Grevelingen: From an Estuary to a Saline Lake. An Introduction,
W86-01567 1905 6G

Phytoplankton and Nutrient Dynamics in Saline Lake Grevelingen (SW Netherlands) under Different Hydrodynamical Conditions in 1978-1980,
W86-01568 1905 6G

Nutrient Cycling and Ecosystem Behaviour in a Salt-Water Lake,
W86-01569 1905 2H

Phytoplankton Primary Production in Brackish Lake Grevelingen (SW Netherlands) During 1976-1981,
W86-01570 1905 2H

Changes of Sediment Distribution Patterns in Lake Grevelingen, an Enclosed Estuary in the SW Netherlands,
W86-01571 1905 2H

Sediment-Water Exchange in Lake Grevelingen under Different Environmental Conditions,
W86-01572 1905 2H

Nutrient Concentrations in the Interstitial Water of Lake Grevelingen Sediment: Effects of Sediment Redistribution and Benthic Primary Production Processes,
W86-01573 1905 2H

Carbon Fixation and Chlorophyll in Bottom Sediments of Brackish Lake Grevelingen, The Netherlands,
W86-01574 1905 2H

Dynamics, Migration and Growth of Nassarius reticulatus (Mollusca: Prosobranchia) Colonizing Saline Lake Grevelingen (SW Netherlands),
W86-01575 1905 2H

Long-Term Evolution of the Meiofauna at a Sandy Station in Lake Grevelingen, The Netherlands,
W86-01576 1905 2H

Density, Growth and Annual Food Consumption of Plaice (Pleuronectes platessa L.) and Flounder (Platichthys felsus (L.)) in Lake Grevelingen, The Netherlands,
W86-01577 1905 2H

Carbon Mineralization in the Water of Lake Grevelingen (The Netherlands), as Measured with the Oxygen Consumption Method,
W86-01578 1905 2H

Mineralization of Organic Carbon on and in the Sediment of Lake Grevelingen,
W86-01579 1905 2H

Carbon Balance of a Saline Lake (Lake Grevelingen, The Netherlands),
W86-01580 1905 2H

Overview of the Dutch Water Management System,
W86-05760 1912 6E

NETWORK ANALYSIS
Evaluation of the Crest-Stage Gage Program in Louisiana,
W86-02399 1906 7A

NETWORK DATA
Fourier Inference: Some Methods for the Analysis of Array and Nongaussian Series Data,
W86-04530 1910 7C

NETWORK DESIGN
SCPP Data Collection and Analysis for the Period 1 September 1981 through 31 August 1982,
W86-00216 1901 2B

Density of Precipitation Chemistry Networks,
W86-00684 1903 7A

Environmental Audit. II. Application to Stream Network Design,
W86-00723 1903 7A

Ground-Water-Quality Monitoring Network Design for the San Joaquin Valley Groundwater Basin, California,
W86-01953 1906 7A

Evaluation of the Crest-Stage Gage Program in Louisiana,
W86-02399 1906 7A

Pragmatic Approach to Evaluating a Multipurpose Stream-Gaging Network,
W86-02417 1906 7A

Cost-Effectiveness of the Stream-Gaging Program in Iowa,
W86-02773 1907 7A

Water-Data Program of the U.S. Geological Survey in Kansas, Fiscal Year 1983,
W86-02778 1907 7C

Present and Proposed Ground-Water Level Program in Maine,
W86-02788 1907 7A

Design of a Ground-Water Quality Monitoring Network for the Salinas River Drainage Basin, California,
W86-02909 1907 7A

Cost-Effectiveness of the Stream-Gaging Program in North Carolina,
W86-02973 1908 7A

Evaluation of the Cost Effectiveness of the 1983 Stream-Gaging Program in Kansas,
W86-02992 1908 2E

Some Critical Issues with Monitoring Crystalline Rock Aquifers for Groundwater Management in Rural Areas,
W86-03567 1909 2F

Appraisal of Sediment Transport Measurement in Ghanaian Rivers,
W86-03586 1909 7A

Evaluating Changes in Dike Field Fishes with Community Information Indices,
W86-03628 1909 7A

Water Quality Monitoring: A System's Perspective,
W86-03655 1909 7A

Problems on the Upper Mississippi River and Its Tributaries: Need for a Long-Term Resource Monitoring Program,
W86-03751 1909 7A

Design of a Hydrochemical Data Collection Programme,
W86-03767 1909 7A

Optimization of a Snow Network by Multivariate Statistical Analysis,
W86-04395 1910 2C

Equation Based Theoretical Approach to Network Design for Groundwater Levels Using Kalman Filters,
W86-05671 1912 2F

NETWORKS
Station Networks for Storm Observation,
W86-02004 1906 7B

Observation and Measurement of Hailfall,
W86-02007 1906 7B

Water-Resources Activities of the U.S. Geological Survey in Missouri, Fiscal Year 1985,
W86-02375 1906 7C

Cost Effectiveness of the U.S. Geological Survey's Stream-Gaging Program in Illinois,
W86-02782 1907 7A

Hydrologic-Data Stations and Lake Levels, Kenai-Nikiski Area, Alaska, 1983,
W86-03115 1908 2E

Digital Distribution System Records: A Joint Venture,

Water Quality Simulation Study of a Natural Harbor,
W86-05500 1912 5B

Study of Nitrogen Reduction,
W86-06057 1912 5D

NITROORGANIC COMPOUNDS
Reversed-Phase High-Performance Liquid Chromatographic Determination of Nitroorganics in Munitions Wastewater,
W86-04462 1910 5A

Interlaboratory Evaluation of High-Performance Liquid Chromatographic Determination of Nitroorganics in Munition Plant Wastewater,
W86-04463 1910 5A

NITROPHENOL
Ring Test of a Method for Assessing the Phototransformation of Chemicals in Water,
W86-01850 1905 5B

NITROPHENOLS
High-Performance Liquid Chromatographic Analysis of Nitrophenols,
W86-03814 1909 5A

Abundance, Heterotrophic Activity and Taxonomy of Bacteria in a Stream Subject to Pollution by Chlorophenols, Nitrophenols and Phenoxyalkanoic Acids,
W86-04113 1910 5C

NITROSAMINES
Example of Interaction Between Environmental Pollutants: Modification of Thiram Toxicity to Freshwater Organisms by Nitrites or Nitrates in Relation to Nitrosamine Synthesis,
W86-00877 1903 5C

High-Performance Liquid Chromatographic Determination of Nitrosamines in Water and Wastewater,
W86-03818 1909 5A

NITROUS OXIDE
Upwelling and River Runoff as Sources of Dissolved Nitrous Oxide to the Alsea Estuary, Oregon,
W86-01117 1904 2L

Estimation of Night-Time N2O5 Concentrations From Ambient NO2 and NO3 Radical Concentrations and the Role of N2O5 in Night-Time Chemistry,
W86-05496 1912 5B

NITRPOGEN OXIDES
Estimation of Night-Time N2O5 Concentrations From Ambient NO2 and NO3 Radical Concentrations and the Role of N2O5 in Night-Time Chemistry,
W86-05496 1912 5B

NOAA-7 SATELLITE
Evapotranspiration Over an Agricultural Region Using a Surface Flux/Temperature Model Based on NOAA-AVHRR Data,
W86-05549 1912 2D

NODULARIA
Relationship of Cellular Phosphorus in the Cyanobacterium Nodularia to Phosphorus Availability in the Peel-Harvey Estuarine System,
W86-00531 1902 2L

NOISE
Noise in the Water Industry,
W86-01633 1905 8C

NOISY DATA
Identification of Water Demand Models from Noisy Data,
W86-04195 1910 6D

NOLIN RIVER
Freshwater Naiad (Mussel) Fauna of the Nolin River in the Green River Drainage of Central Kentucky (Mollusca: Bivalvia),
W86-00534 1902 2H

NON-PARAMETRIC TECHNIQUES
Percentile Estimation Procedures for Water Quality Management,
W86-04340 1910 7C

NON-POINT POLLUTION
Sediment and Pesticide/Herbicide Transport Relationships,

W86-02977 1908 2F

Apparent Water Resistivity, Porosity, and Water Temperature of the Madison Limestone and Underlying Rocks in Parts of Montana, Nebraska, North Dakota, South Dakota, and Wyoming,
W86-03081 1908 2F

Linear Features Determined from Landsat Imagery in Wyoming,
W86-03120 1908 7C

Linear Features Determined from Landsat Imagery in North Dakota,
W86-03144 1908 7C

NORTHERN IRELAND

Factors Affecting Leaching of Nutrients from an Intensively Managed Grassland in County Antrim, Northern Ireland,
W86-00903 1903 5B

NORTHERN TERRITORY

Limnology of a Naturally Acidic Tropical Water System in Australia; I. General Description and Wet Season Characteristics,
W86-00923 1904 2H

Limnology of a Naturally Acidic Tropical Water System in Australia; II. Dry Season Characteristics,
W86-00924 1904 2H

Accumulation of Radium-226 by Populations of the Freshwater Mussel, Velesunio angasi, from the Alligator Rivers Uranium Province, Northern Territory, Australia,
W86-00972 1904 5C

NORTHWEST TERRITORIES

Water Circulation in Small Arctic Lakes in Winter,
W86-01586 1905 2H

Winter Respiration of Lakes at Saqvaqjuac, N.W.T.,
W86-01587 1905 2H

Lagoon Treatment of Municipal Sewage Effluent in a Subarctic Region of Canada (Yellowknife, N.W.T.),
W86-04485 1910 5D

Some Considerations of Enhanced Water Quality Monitoring in the Northwest Territories: An Inland Waters Directorate Perspective,
W86-04489 1910 5G

Continuing the Development of Municipal Effluent Guidelines for the Northwest Territories,
W86-04490 1910 5G

NORWALK VIRUS

Inactivation of Norwalk Virus in Drinking Water by Chlorine,
W86-04670 1910 5F

NORWAY

Sedimentation of Particulate Material in Nordasvannet, a Hypertrophic, Land-Locked Fjord in Western Norway,
W86-00527 1902 2L

Radiological Impact of Mining in a Th-Rich Norwegian Area,
W86-00823 1903 5B

Some Hydraulic Properties of Sandy-Silty Norwegian Tills,
W86-01111 1904 2G

Factor Interaction Influencing the Distribution of the Freshwater 'Shrimp' Gammarus,
W86-01162 1904 2H

Partitioning and Transport of Metals Across the O2/H2S Interface in a Permanently Anoxic Basin: Framvaren Fjord, Norway,
W86-01396 1905 5B

Water Temperature as the Primary Influence on Timing of Seaward Migrations of Atlantic Salmon (Salmo salar) Smolts,
W86-01589 1905 2H

NOVA SCOTIA

Qualitative Analysis of the Pelagic Foodwebs of Three Acid-Impacted Lakes in Nova Scotia, Canada,
W86-01129 1904 2H

Metal Mobilization in Home Well Water Systems in Nova Scotia,
W86-01264 1904 5B

Survival of Bacillus thuringiensis var. kurstaki in Waters,
W86-01354 1905 5B

NUCLEAR MAGNETIC RESONANCE

Surface Soil Water Content Measurement Using Pulsed Nuclear Magnetic Resonance Techniques,
W86-00698 1903 2G

NUCLEAR POWERPLANTS

Ecological Studies of Wood-Boring Bivalves in the Vicinity of the Oyster Creek Nuclear Generating Station,
W86-03230 1908 5C

Intervention Analysis of Power Plant Impact on Fish Populations,
W86-05561 1912 6G

NUCLEAR WASTES

Water-Quality Data for 34 Sites, April and June, 1984, Near the Y-12 Plant, The Oak Ridge Reservation, Tennessee,
W86-03048 1908 5B

Review of Buried Crystalline Rocks of Eastern States in Selected Hydrogeologic Environments Potentially Suitable for Isolating High-Level Radioactive Wastes,
W86-03127 1908 5E

NUCLEIC ACIDS
Chlorine Dioxide Reactivity with Nucleic Acids,
W86-05341 1911 5F

NUISANCE ALGAE
Evaluation of Non-Point Pollution Control Practices and Copper Treatments on Control of Nuisance Filamentous Algae,
W86-02564 1907 5G

Review of Control Measures for Objectional Algal 'Blooms',
W86-03484 1909 5G

Algal Control through Trophic-Level Interactions: A Subtropical Persepctive,
W86-03490 1909 5G

Cyanophages: Are They Potential Biological Control Agents of Nuisance Blue-Green Algae,
W86-03492 1909 2H

NUMERICAL ANALYSIS
Field Observations and Numerical Experiments on a Drying Front in a Volcanic Ash Soil Called Kanto Loam,
W86-00038 1901 2F

Mixing Zone Model for Conservative Parameters,
W86-00089 1901 5G

Locating the Groundwater Pollution Sources Using Computer Models,
W86-02121 1906 5B

Carbon Dioxide in the Soil Atmosphere: Simulation Model Parameter Estimation from Field Measurements,
W86-03755 1909 2G

Numerical Modeling of Immiscible Organic Transport at the Hyde Park Landfill,
W86-04158 1910 5B

Comparative Study of Green and Ampt Analysis for a Falling Water Table in a Homogeneous Sand Profile,
W86-04313 1910 2G

Analysis of Well-Aquifer Response to a Slug Test,
W86-04541 1910 2F

Influence of Local Land-Surface Processes on the Indian Monsoon: A Numerical Study,
W86-04624 1910 2B

Artificial Groundwater Recharge in Quaternary Gravel Aquifers in the Foreland of the Alps,
W86-05649 1912 4B

Analysis of Migration Processes in Groundwater by Aid of Numerical Models,
W86-05716 1912 5B

Mesoscale Numerical Forecast of an Intense Convective Snowburst Along the East Coast,
W86-06102 1912 2C

NUMERICAL MODELS
Note on the Use of a Simple Numerical Model for Vertical, Unsaturated Fluid Flow,
W86-01425 1905 2G

Numerical Model for Optimal Groundwater Management,
W86-05692 1912 4B

NUMERICAL NODELING
Quantitative Analysis of the Hydrothermal System in Lassen Volcanic National Park and Lassen KGRA,
W86-02994 1908 2F

NUTRIENT AVAILABILITY
Evaluation of Nitrogen Availability Indexes for a Sludge Compost Amended Soil,
W86-05386 1911 5E

Prediction of Available Zinc in Sewage Sludge-amended Soils,
W86-05387 1911 5E

NUTRIENT CYCLING
Nutrient Assimilation Capacity of Shallow Coastal Lakes,
W86-02547 1907 5C

NUTRIENT FILM TECHNIQUE
Development of the Nutrient Film Technique for Renovation of Wastewater for Nonpotable Reuse,
W86-02532 1907 5D

NUTRIENT LOADING
Groundwater Seepage Nutrient Loading in a Florida Lake,
W86-00065 1901 2H

NUTRIENT LOADS
Estimated Water and Nutrient Inflows and Outflows, Lake Cochituate, Eastern Massachusetts,
W86-02904 1907 5B

NUTRIENT REMOVAL
Technical Guide on Biological Nutrient Removal: The Phoredox Process,
W86-01998 1906 5D

Seagrass Filter: Purification of Estuarine and Coastal Waters,
W86-02088 1906 2L

Development of Energy Efficient Activated Sludge Systems Through Utilization of Nutrient Removal Processes,
W86-02097 1906 5D

Effect of Simulated Canopy Cover on Regulation of Nitrate Uptake and Primary Production by Natural Periphyton Assemblages,
W86-03382 1908 5B

State-of-the-Art Summary of Phosphorus Inactivation as a Lake Restoration Technique,
W86-03486 1909 5G

Pilot-Scale Evaluation of the Nutrient Film Technique for Wastewater Treatment,
W86-03515 1909 5D

Publications of the Water Research Institute, 58.
W86-03842 1909 5D

Combined Nitrogen and Phosphorus Removal from Wastewaters,
W86-03844 1909 5D

Concentration of Impurities During Melting of Snow Made from Secondary Sewage Effluent,
W86-04487 1910 5D

NUTRIENT SPIRALLING
Phosphorus Spiralling in a Woodland Stream: Seasonal Variations,
W86-00830 1903 2H

NUTRIENT TRANSPORT
Method for Measuring Horizontal Transport of Organic Carbon Over Sediments,
W86-01590 1905 2H

Nutrient and Detritus Transport in the Apalachicola River, Florida,
W86-02356 1906 5B

NUTRIENTS
Some Recent Adaptations and Applications of QUAL-II in the Northeast,
W86-00090 1901 5B

Nutrient Input from the Loxahatchee River Environmental Control District Sewage-Treatment Plant to the Loxahatchee River Estuary, Southeastern Florida,
W86-00110 1901 5B

Influence of the Fish Clarias batrachus on the Physicochemical Properties of Water under Laboratory Conditions,
W86-00401 1902 2H

Fluctuation in Nutrients during Tidal Cycles at Oyster Beds in the River Penze (North Finistere) (Fluctuations des Nutriments au cours de la Maree sur les parcs Ostreicoles de la Riviere Penze (Nord-Finistere)),
W86-00447 1902 2L

Transpiration Efficiency in Relation to Nutrient Status,

Accumulation of Cadmium by White Suckers (Catostomus Commersoni) in Relation to fish Growth and Lake Acidification,
W86-05560 1912 5B

OPACITY
Factors Influencing Inorganic Turbidity in a Great Plains Reservoir,
W86-00440 1902 2H

Depth Distribution and Biomass of Submersed Aquatic Macrophyte Communities in Relation to Secchi Depth,
W86-00606 1902 2H

OPEN-CHANNEL FLOW
Numerical Modelling of Subcritical Open Channel Flow Using the K-epsilon Turbulence Model and the Penalty Function Finite Element Technique,
W86-00003 1901 2E

Fluid Flows: Pumps, Pipes and Channels,
W86-03415 1908 8B

Optimal Discharge Profiles for Sudden Contaminant Releases in Steady Uniform Open-Channel Flow,
W86-04344 1910 5E

Resistance to Flow and Velocity Distribution in Rigid Boundary Channels Carrying Sediment-Laden Flow,
W86-05255 1911 2E

Characteristics of Free Surface Flow over Gravel Bed,
W86-05915 1912 2E

OPEN CHANNELS
Assessment of a Steady-State Propane-Gas Tracer Method for Determining Reaeration Coefficients-Chenango River,
W86-03033 1908 5B

OPERATING COSTS
Cost-Effectiveness of the Stream-Gaging Program in Iowa,
W86-02773 1907 7A

OPERATING POLICIES
Dynamic Model for Multireservoir Operation,
W86-00069 1901 6A

OPERATIONS
Good Process Control: Planning and Implementation,
W86-03735 1909 5D

OPPORTUNITY COSTS
Opportunity Costs: Irrigation vs. Hydropower,
W86-02679 1907 6C

OPTICAL BRIGHTENER
Investigation of Pollution in a Karst Aquifer Utilizing Optical Brightener,
W86-02740 1907 5A

OPTIMAL CONTROL THEORY
Optimal Control of Sea Level in a Tidal Basin by Means of the Pontryagin Maximum Principle,
W86-05829 1912 8B

OPTIMAL PUMPING PATTERN

Optimal Control of Nonlinear Groundwater Hydraulics: Theoretical Development and Numerical Experiments,
W86-04544 1910 2F

OPTIMIZATION

Storm Sewer Optimum Design,
W86-00100 1901 8B

Articulation, Accuracy and Effectiveness of Mathematical Models: A Review of Freshwater Wetland Applications,
W86-00433 1902 2H

Modeling, Optimization and Design of Fluidized Beds for Biological Denitrification,
W86-00761 1903 5D

Stochastic Optimization of a Multireservoir Hydroelectric System: A Decomposition Approach,
W86-01069 1904 4A

Optimization of a Spatially Variable Resource: An Illustration for Irrigated Crops,
W86-01070 1904 3F

Synthesis Modeling of Municipal Wastewater Treatment Systems,
W86-01188 1904 5D

Optimization Modeling of Water Quality in an Uncertain Environment,
W86-01764 1905 5G

Cost-Effective Design and Operation of Urban Stormwater Control Systems: Decision-Support Software,
W86-02427 1907 5D

Groundwater Management Using Control Analysis and Multiple-Objective Techniques,
W86-02599 1907 6A

Cost Effectiveness of the U.S. Geological Survey's Stream-Gaging Program in Illinois,
W86-02782 1907 7A

Cost-Effectiveness of the Stream-Gaging Program in New Jersey,
W86-03073 1908 7A

Optimization of Real-Time Reservoir Operations with Markov Decision Processes,
W86-04198 1910 4A

Parameter Estimation in Water Resources Planning and Management: Optimal Actions or Optimal Parameters,
W86-04199 1910 6A

Implications of Head Loss Path Choice in the Optimization of Water Distribution Networks,
W86-05229 1911 5F

Use of a Generalized Computer Program for Resources Systems Optimization in Developing Countries,
W86-05778 1912 6A

Application of Stochastic Dynamic Programming in Optimizing the Regulation of Hydropower Reservoirs,
W86-05780 1912 4A

Surface Irrigation Optimization Models,
W86-05923 1912 3F

OPTIMUM DEVELOPMENT PLANS

Optimal Water Supply Planning Based on Seasonal Runoff Forecasts,
W86-04194 1910 6B

ORANGE COUNTY

Two-Dimensional Dam-Break Flood-Flow Analysis for Orange County Reservoir,
W86-06019 1912 8A

ORANGE RIVER

Aspects of the Feeding Ecology of Turbin Water Zooplankton. In situ Studies of Community Filtration Rates in Silt-Laden Lake le Roux, Orange River, South Africa,
W86-05183 1911 2H

OREGON

Analysis and Interpretation of Data Obtained in Tests of the Geothermal Aquifer at Klamath Falls, Oregon,
W86-00107 1901 2F

CZM in California, Oregon, and Washington,
W86-00568 1902 6E

Evaluation of Instream Enhancement Structures for Salmonid Spawning and Rearing in a Coastal Oregon Stream,
W86-00591 1902 8I

Modeling Hydroclimatic Processes in Large Watersheds,
W86-00647 1903 2A

Seasonal Precipitation Forecasting with a 6-7 Month Lead Time in the Pacific Northwest Using an Information Theoretic Model,
W86-00778 1903 2B

Upwelling and River Runoff as Sources of Dissolved Nitrous Oxide to the Alsea Estuary, Oregon,
W86-01117 1904 2L

Estimating the Population Dynamics of Coho Salmon (Oncorhynchus kisutch) Using Pooled Time-Series and Cross-Sectional Data,
W86-01585 1905 2H

Map Showing Outcrops of Granitic Rocks and Pre-Quaternary Ash-Flow Tuffs, Basin and Range Province, Oregon,
W86-01973 1906 8E

Map Showing Outcrops of Pre-Quaternary Basaltic Rocks, Basin and Range Province, Oregon,
W86-01974 1906 8E

Streambank Erosion Protection and Channel Scour Manipulation Using Rockfill Dikes and Gabions,
W86-02665 1907 8A

Fiscal Year 1983 Program Report for the Oregon Water Resources Research Institute,
W86-02666 1907 9D

Acid Rain Buffering Potential in Oregon Cascade Lakes: Secondary Mineral Solubility Control of Solution Ionic Composition,
W86-02667 1907 5B

Riparian Zone Systems, Uses, and Management,
W86-02668 1907 4D

Director's Technology/Information Transfer Program 1983-1984,
W86-02669 1907 9D

Applicability of Microcomputers for Managing Water in Small River Basins,
W86-02681 1907 6E

Maps Showing Distribution of Dissolved Solids and Dominant Chemical Type in Ground Water, Basin and Range Province, Oregon,
W86-02800 1907 2K

Oregon Ground-Water Quality and its Relation to Hydrogeologic Factors--A Statistical Approach,
W86-02860 1907 2F

Maps Showing Ground-Water Units and Number of Large-Capacity Wells, Basin and Range Province, Oregon,
W86-02890 1907 7C

Maps Showing Ground-Water Levels, Springs, and Depth to Ground Water, Basin and Range Province, Oregon,
W86-02891 1907 7C

Description of Aquifer Units in Western Oregon,
W86-02950 1908 2F

Storm Runoff as Related to Urbanization Based on Data Collected in Salem, and Portland, and Generalized for the Willamette Valley, Oregon,
W86-03015 1908 4C

Preliminary Study Using Digital Modeling Techniques to Understand and Predict the Temperature Regime in a Stream Below a Major Reservoir--The North Sanitiam River Below Detroit Dam, OR,
W86-03022 1908 6G

Data from Pumping and Injection Tests and Chemical Sampling in the Geothermal Aquifer at Klamath Falls, Oregon,
W86-03169 1908 2F

Water Resources Data, Oregon, Water Year 1983, Volume 2: Western Oregon,
W86-03188 1908 7C

Water Resources Data, Oregon Water Year 1983, Volume 1: Eastern Oregon,
W86-03200 1908 7C

Statistical Summaries of Streamflow Data in Oregon; Volume 1 Eastern Oregon,
W86-03550 1909 2E

Oil Spill Protection Planning for Natural Resources in Oregon,
W86-04020 1910 6A

Using the Fecal Coliform Test for Sewer and Storm Drain Maintenance,
W86-04687 1911 5D

Using a Filter to Remove Giardia Cysts,
W86-04735 1911 5F

ORGANIC ACIDS

Role of Natural Organics on Water Interaction with Soil and Rock,
W86-03754 1909 2K

Model Experimental Study of Hydrochemical Processes in the Saturated Zone,
W86-03785 1909 2K

Methanogenic Digestion Using Mixed Substrate of Acetic, Propionic and Butyric Acids,
W86-05345 1911 5D

Simplex Optimization of Extractive Alkylation Procedures for Organic Acids in Aqueous Samples,
W86-05944 1912 5A

ORGANIC BROMINE

Effect of Bromide Ion in Water Treatment: II. A Literature Review of Ozone and Bromide Ion Interactions and the Formation of Organic Bromine Compounds,
W86-05990 1912 5D

ORGANIC CARBON

Relationship Between Organic Carbon and Chemical Oxygen Demand,
W86-00540 1902 2K

Nitrogen, Phosphorus, and Organic Carbon Cycling in an Arctic Lake,
W86-00611 1902 2H

Influence of Macromixing on Organic Carbon Uptake and Solids Production by Aerobic Suspended Biomass,
W86-00748 1903 5D

Variations in the Amount of Organic Carbon (Dissolved and Particulate) in a Small Mediterranean Mountain Stream (Corsica) (Les Variations des Teneurs en Carbone Organique (Dissous et Particulaire) d'un Petit Torrent Mediterraneen Montagnard (Corse)), W86-00918 1903 2H

Contribution to the Determination of Particulate Organic Carbon in Water Samples (Ein Beitrag zur Bestimmung von Partikularem Organischen Kohlenstoff in Wasserproben), W86-01000 1904 5A

Stabilization of Organic Carbon and Nitrogen in Consolidating Benthal Deposits, W86-01232 1904 5D

Mineralization of Organic Carbon on and in the Sediment of Lake Grevelingen, W86-01579 1905 2H

Method for Measuring Horizontal Transport of Organic Carbon Over Sediments, W86-01590 1905 2H

Estuary Extended - A Recipient-System Study of Estuarine Outwelling in Georgia, W86-02084 1906 2L

Salinity, Alkalinity, and Dissolved and Particulate Organic Carbon in the Sacramento River Water at Rio Vista, California, and at Other Locations in the Sacramento-San Joaquin Delta, 1980, W86-03063 1908 5B

Interactions Between Dissolved Humic and Fulvic Acids and Pollutants in Aquatic Environments, W86-03371 1908 5B

Organic Carbon Supply and Demand in the Shetucket River of Eastern Connecticut, W86-03387 1908 2E

Determination of Carbohydrates and Primary Amines in River Water, W86-03524 1909 5A

Ultraviolet Multiwavelength Absorbance Measurements for Monitoring Trace Organics in Water, W86-03525 1909 5A

Development of a TOC/COD Analyzer for Process Applications, W86-03526 1909 5A

Influence Of Waste Activated Sludge on Primary Clarifier Operation, W86-04334 1910 5D

Biological Treatment of Hazardous Waste in Sequencing Batch Reactors, W86-04504 1910 5D

Precursor Size and Organic Halide Formation Rates in Raw and Coagulated Surface Waters, W86-04646 1910 5F

Removal of Dissolved Organic Carbon by Coagulation with Iron Sulfate, W86-06061 1912 5F

Extracellular Organic Carbon (EOC) Released by Phytoplankton and Bacterial Production, W86-06141 1912 2H

Dissolved Organic Carbon of Coal Slurry Transport Water, W86-06162 1912 5B

ORGANIC CHEMICALS

Sorption and Transport of Hydrophobic Organic Chemicals in Aqueous and Mixed Solvent Systems: Model Development and Preliminary Evaluation, W86-01711 1905 5B

ORGANIC COMPOUNDS

In-Home Treatment Methods for Removing Volatile Organic Chemicals, W86-00010 1901 5F

Removal by Coagulation of Trace Organics from Mississippi River Water, W86-00011 1901 5F

Toxic Organics Removal Kinetics in Overland Flow Land Treatment, W86-00057 1901 5D

Laboratory Protocols for Evaluating the Fate of Organic Chemicals in Air and Water, W86-00154 1901 5A

Ecotoxicology at the Watershed Level, W86-00234 1901 5B

Survey of Polychlorinated Biphenyls in Industrial Effluents in Canada. W86-00286 1901 5B

Effects, Pathways, Processes, and Transformation of Puget Sound Contaminants of Concern, W86-00293 1901 5B

Impact of Xenobiotic Chemicals on Microbial Ecosystems. W86-00352 1902 5C

Capacity of Macroporous Adsorber Polymers in the Elimination of Organic Microcontaminants (Zum Leistungsvermogen Makroporoser Adsorberpolymere bei der Elimination Organischer Mikroverunreinigungen), W86-00409 1902 5F

Development of Pollutant Specific Models for Toxic Organic Compounds in the Activated Sludge Process, W86-00754 1903 5D

Carbon Adsorption Isotherm Test for Volatile Organic Chemicals in Water, W86-00845 1903 5A

Joint Toxicity of Mixtures of Groups of Organic Aquatic Pollutants to the Guppy (Poecilia reticulata), W86-00876 1903 5C

Identification and Treatability of Organics in Oil Shale Retort Water, W86-01060 1904 5D

Organic Removal Mechanisms in Biophysical Treatment Systems, W86-01240 1904 5D

Occurrence and Transport of Organic Macrocontaminants in the Duluth-Superior Harbor, W86-01346 1905 5B

Anthropogenic, Polyhalogenated, Organic Compounds in Sedentary Fish from Lake Huron and Lake Superior Tributaries and Embayments, W86-01347 1905 5B

High-Tech Solution to Contaminated Drinking Water, W86-01880 1905 5F

Organochlorine Hydrocarbon Residues in Sediments of Two Different Lagoons of Northwest Mexico, W86-01899 1905 5B

Feedwater Cleanup for Combined Electrolysis Catalytic Exchange, W86-01980 1906 5D

Industrial Wastewater Treatability Study Achieving BCT/BAT Treatment, W86-02102 1906 5D

Reactions of Chlorine and Chlorine Dioxide with Free Fatty Acids, Fatty Acid Esters, and Triglycerides, W86-02146 1906 5B

Analysis of Organic Compounds Adsorbed on Granular Activated Carbon Filters Used in Treatment Plants, W86-02166 1906 5A

Influence of Prechlorination on the Amount and Toxicity of Micropollutants Extracted from Water at the Morsang Plant, W86-02168 1906 5B

Nonvolatile Organics in Disinfected Wastewater Effluents: Chemical Characterization, W86-02170 1906 5B

New Developments in Dynamic Headspace Analysis of Halogenated Organics, W86-02175 1906 5A

Gas Chromatographic Analysis of Purgeable Halocarbon and Aromatic Compounds in Drinking Water Using Two Detectors in Series, W86-02176 1906 5A

Removal of Volatile Organic Contaminants from Ground Water, W86-03254 1908 5F

Evaluation of the Adsorption Properties of Silicalite for Potential Application to Isolating Polar Low-Molecular-Weight Organics from Drinking Water, W86-03266 1908 5F

Water Analysis, Volume III: Organic Species, W86-03406 1908 5A

Waste Strength and Water Pollution Parameters, W86-03407 1908 5A

Chemical Nonspecific Organics Analysis, W86-03408 1908 5A

Concentration, Partitioning, and Isolation Techniques, W86-03409 1908 5A

Gas Chromatography, W86-03410 1908 5A

Organic Mass Spectrometry, W86-03411 1908 5A

Use of HPLC for Water Analysis, W86-03412 1908 5A

Infrared Spectrophotometry of Pollutants in Water Systems, W86-03413 1908 5A

Priority Pollutant Methodology Quality Assurance Review, W86-03529 1909 5A

Removal of Chemical Carcinogens from Water/Wastewater by Reverse Osmosis, W86-03536 1909 5D

Lead and Cadmium in Precipitation in the Essex Region of Southwestern Ontario, W86-03772 1909 5B

Advances in the Identification and Analysis of Organic Pollutants in Water, Volume 1. W86-03791 1909 5A

Validation and Priority Pollutant Analysis, W86-03792 1909 5A

Master Analytical Scheme: An Overview of Interim Procedures, W85-03793 1909 5A

Master Analytical Scheme: Development of Effective Techniques for Isolation and Concentration of Organics in Water,
W86-03794 1909 5A

Master Analytical Scheme: An Assessment of Factors Influencing Precision and Accuracy of Gas Chromatography/Mass Spectrometry Data,
W86-03795 1909 5A

Quantitative Aspects of the Master Analytical Scheme for Organics in Water,
W86-03796 1909 5A

Quality of Master Analytical Scheme Data: Purgeables and Volatile Organic Acids,
W86-03797 1909 5A

Determination of Phenolic Water Pollutants by Glass Capillary Gas Chromatography,
W86-03799 1909 5A

Chromatographic Considerations for the Analysis of Acid-Extractable Priority Pollutants,
W86-03800 1909 5A

Part-per-Trillion Analysis of Volatile, Base/Neutral and Acidic Water Contaminants on a Single Fused-Silica Capillary Column,
W86-03801 1909 5A

Analysis of Polychlorinated Biphenyls by Glass Capillary and Packed-Column Chromatography,
W86-03802 1909 5A

High-Resolution Gas Chromatography and Negative Ion Chemical Ionization Mass Spectrometry of Polychlorinated Biphenyls,
W86-03803 1909 5A

Determination of Priority Pollutants in Industrial Wastewaters by Stable-Isotope Dilution Gas Chromatography/Mass Spectrometry,
W86-03804 1909 5A

Stable Activable Tracers for Environmentally Significant Organic Molecules,
W86-03805 1909 5A

Microextraction as an Approach to Analysis for Priority Pollutants in Industrial Wastewater,
W86-03806 1909 5A

Evaluation of the Microextraction Technique to Analyze Organics in Water,
W86-03807 1909 5A

Further Optimization of the Pentane Liquid-Liquid Extraction Method for the Analysis of Trace Organic Compounds in Water,

W86-00913 1903 2H

Influence of Organic Pollution on the Macroinvertebrate Communities of Mountain Streams,
W86-00948 1904 5C

Calcium Sulfate Solubility in Organic-Laden Wastewater,
W86-01042 1904 5D

Effects of Dissolved Organic Matter on the Aqueous Partitioning of Polynuclear Aromatic Hydrocarbons,
W86-01119 1904 5B

Fish Abundance Related to Organic Matter in the Plata River Basin, South America,
W86-01149 1904 2H

Ozone Enhanced Biological Activated Carbon Filtration and its Effect on Organic Matter Removal, and in Particular on AOC Reduction,
W86-01241 1904 5F

Solubilization Effects of Simulated Acid Rain on the Organic Matter of Forest Soil; Preliminary Results,
W86-01421 1905 5C

Organic Matter in the Volga Delta and Delta Front,
W86-01810 1905 2L

Hydrological and Hydrochemical Aspects of the Transformation of Organic Matter in the Mozhaisk Reservoir,
W86-01812 1905 2H

Space-Time Inhomogeneity of Distribution of Organic Matter in the Mozhaisk Reservoir,
W86-01813 1905 2H

Effect of the Content of Organic Matter in Soil on Leaching of Chemical Fertilizers into the Zone of Aeration and Groundwaters,
W86-01822 1905 5B

Estuarine Total System Metabolism and Organic Exchange Calculated from Nutrient Ratios: An Example from Narragansett Bay,
W86-02082 1906 2L

Surface Foam Chemistry and Productivity in the Duckabush River Estuary, Puget Sound, Washington,
W86-02085 1906 2L

Influences of Submerged Vascular Plants on Ecological Processes in Upper Chesapeake Bay,
W86-02087 1906 2L

Chlorine Demand: Studies Concerning Its Chemical Basis,
W86-02147 1906 5F

Chlorination Products from Aquatic Humic Material at Neutral pH,
W86-02148 1906 5B

Fulvic Acid and Chlorinated Fulvic Acid in Water and Sediment: HPLC Fractionation and Spectroscopic Characterization,
W86-02149 1906 5B

Empirical Model for Predicting Chloroform Formation from Humic and Fulvic Acids,
W86-02152 1906 5B

Formation of Trihalomethanes from the Halogenation of 1,3-Dihydroxybenzenes in Dilute Aqueous Solution: Synthesis of 2-13 C-Resorcinol and Its Reaction with Chlorine and Bromine,
W86-02153 1906 5B

Selective Isolation of Dissolved Organic Matter from Aquatic Systems,
W86-02700 1907 2K

Filtration and Column-Adsorption System for Onsite Concentration and Fractionation of Organic Substances from Large Volumes of Water,
W86-03065 1908 5A

Aquatic Macrophyte Contribution to the New River Organic Matter Budget,
W86-03388 1908 2E

Dissolved Organic Matter and Lake Metabolism: Biogeochemistry and Controls of Nutrient Flux Dynamics in Lakes,
W86-03504 1909 2H

Functional Design of Activated Sludge Processes,
W86-03670 1909 5D

Size Exclusion, Reverse-Phase and Weak Anion Exchange Chromatography of National Organics in Water,
W86-03815 1909 5A

Description of the Aggregation Properties of Aquatic Pedogenic Fulvic Acids: Combining Physico-chemical Data and Microscopical Observations,
W86-04125 1910 2K

Geochemistry of Suspended Particulate Matter in Two Natural Sedimentation Basins of the River Rhine,
W86-04547 1910 5B

Tracer Measurements in Lowland Rivers,
W86-04797 1911 7B

Comparative Removal of Toxic Pollutants by Six Wastewater Treatment Processes,
W86-05016 1911 5D

Alternative Aluminium Flocculants Controlling Micropollutants,
W86-05404 1911 5F

Organic Micropollutants and the Protection of Water Supplies,
W86-05405 1911 5B

Time-Dependent Changes in Soluble Organics, Copper, Nickel, and Zinc From Sludge Amended Soils,
W86-05554 1912 5B

Nitrification in Rotating Disc Systems - I: Criteria for Transition From Oxygen to Ammonia Rate Limitation,
W86-06153 1912 5D

ORGANIC PESTICIDES
Biodetoxification of Hazardous Wastewaters with Activated Rotating Biological Contactors,
W86-02095 1906 5D

Effect of Water Quality on the Uptake and Loss of Biologically Important Organic and Inorganic Chemicals by Organisms,
W86-02565 1907 5C

Effects of Temperature on the Acute Toxicity of PCP in the Midge Chironomus Riparius Meigen,
W85-04964 1911 5C

Gas Chromatographic Determination of Organochlorine Pesticides; Contamination of Dicofol, Fenson, and Tetradifon in Fish and Natural Waters of a Wet Area beside the Mediterranean Sea,
W86-05996 1912 5B

Fate of 2,4-D Entering a Freshwater Aquatic Environment,
W86-06074 1912 5B

ORGANIC POLLUTANTS
Quality and Quantity of Urban Runoff and Atmospheric Deposition in Urban Areas of Salt Lake County, Utah, 1980-1981,
W86-02346 1906 5B

Sorption Kinetics of Toxic and Hazardous Organic Substances on New Jersey Coastal Plain Aquifer Solids,
W86-04052 1910 5B

ORGANIC SOLVENTS
Solvent Interactions with Complex, Concentrated Industrial Wastewaters,
W86-02111 1906 5D

Benefits of Microprocessor Control of Curing Ovens for Solvent-Based Coatings.
W86-04818 1911 5B

ORGANIC WASTES
Biodetoxification of Hazardous Wastewaters with Activated Rotating Biological Contactors,
W86-02095 1906 5D

Evaluation of Biological Nitrification-Denitrification at Penticton, British Columbia,
W86-03619 1909 5D

Groundwater Contamination at Conroe Waste Disposal Site,
W86-04054 1910 5B

Two Options for Treatment of Acidic Organic Industrial Wastes,
W86-04561 1910 5D

Omaha Moves From 'Dispose All' To Management,
W86-04974 1911 5E

Fused Silica Open Tubular Column Optimized for the Analysis of Volatile Organic Pollutants,
W86-04985 1911 5A

Mineralization of Nitrogen in Soils Amended with Organic Wastes,
W86-05391 1911 5E

Evaluation of Selected Sediment Parameters as a Rapid Means of Assessing the Impact of Organic Waste Discharges to Tidal Waters,
W86-05528 1912 5B

ORGANICS
Organic Contamination: Whistling Past the Graveyard,
W86-05014 1911 5G

ORGANICS COMPOUNDS
Influence of pH on the Removal of Organics by Granular Activated Carbon,
W86-06063 1912 5F

ORGANIZATIONS
Flotation that Might Sink,
W86-00831 1903 6E

ORGANOCHLORIDE COMPOUNDS
Analytical Methods for Measuring Organochlorines and Methyl Mercury by Gas Chromatography,
W86-03999 1910 5A

ORGANOCHLORINE COMPOUNDS
Manual of Methods in Aquatic Environment Research, Part 9: Analyses of Metals and Organochlorines in Fish.
W86-03996 1910 5A

ORGANOCHLORINE INSECTICIDES
Residues of Organochlorine Insecticides in Fish from Polluted Water,
W86-05264 1911 5B

ORGANOCHLORINE PESTICIDES
Ecosystem Approach to the Toxicology of Residue Forming Xenobiotic Organic Substances in the Great Lakes,
W86-00237 1901 5B

Sources and Transport of Organochlorine Compounds and Heavy Metals into Waters of the National Park of Donana,
W86-06069 1912 5B

ORGANOCHLORINE RESIDUES
Organochlorine Residues in Freshwater Fishes in Nigeria,
W86-05579 1912 5B

ORGANOCHLORINES
Gas Chromatographic Determination of Organochlorine Pesticides; Contamination of Dicofol, Fenson, and Tetradifon in Fish and Natural Waters of a Wet Area beside the Mediterranean Sea,
W86-05996 1912 5B

ORGANOLEPTIC PROPERTIES
Stripping Analysis and Chromatographic Sniffing for the Source Identification of Odorous Compounds in Drinking Water,
W86-01696 1905 7B

Flavor Profile Analysis: Taste and Odor Control of the Future,
W86-04370 1910 5F

ORGANOMERCURY COMPOUNDS
Mercury Cycle in Lakes; Some New Hypotheses,
W86-00681 1903 5B

ORGANOMETALLIC PESTICIDES
Mossbauer Studies of the Speciation of Tributyltin Compounds in Seawater and Sediment Samples,
W86-05842 1912 5B

ORGANOPHOSPHATE PESTICIDES
Continuous, Automatic Detection of Organophosphates and Carbamates in Water Utilizing Enzyme Microcalorimetry.
W86-01226 1904 5A

ORGANOPHOSPHOROUS PESTICIDES
Nature of Dichlorvos Intoxication in a Freshwater Prawn, Macrobrachium Lamarrei (H. Milne Edwards),
W86-05412 1911 5C

ORGANOPHOSPHORUS INSECTICIDES
Effect of Commerical Formulation of Four Organophosphorus Insecticides on the Ovaries of a Freshwater Teleost, Mystus vittatus (Bloch) - A Histological and Histochemical Study,
W86-04238 1910 5C

ORGANOPHOSPHORUS PESTICIDES
Abate: Effects of the Organophosphate Insecticide on Bluegills and Invertebrates in Ponds,
W86-00341 1902 5C

Determination of Trace Amounts of Organophosphorus Pesticides and Related Compounds in Soils and Sediments using Capillary Gas Chromatography and a Nitrogen-Phosphorus Detector,
W86-01083 1904 5A

Comparative Acute Sensitivities of Early Life Stages of Atherinid Fishes to Chlorpyrifos and Thiobencarb,
W86-01408 1905 5C

ORGANOTIN COMPOUNDS
Fate and Effects of Organotin Compounds,
W86-00665 1903 5B

Acute and Sublethal Effects of Organotin Compounds on Aquatic Biota: An Interpretative Literature Evaluation,
W86-01400 1905 5C

OROGRAPHIC PRECIPITATION
Probable Maximum Precipitation Estimates for the Drainage Above Dewey Dam, Johns Creek, Kentucky,
W86-03503 1909 2B

Characteristics and Distribution of Cloud Water over the Mountains of Northern Colorado during Wintertime Storms. Part 1: Temporal Variations,
W86-05456 1912 2B

Mesoscale Indexing of the Distribution of Orographic Precipitation over High Mountains,
W86-05459 1912 2B

Origins and Types of Rainfall in West Africa,
W86-05953 1912 2B

OROGRAPHY
Analysis of the Effects of Orography on Surface Rainfall by a Parameterized Numerical Model,
W86-00023 1901 2B

Present and Late Pleistocene Equilibrium Line Altitudes in the Mt Everest Region - An Application of the Glacier Inventory,
W86-03681 1909 2C

Parameterization of Glacier Equilibrium Line Altitude,
W86-03696 1909 2C

ORTHOCRESOL
Biodegradation Pathway of o-Cresol by Heterogeneous Culture: Phenol Acclimated Activated Sludge,
W86-04578 1910 5D

ORTHOPHOSPHATES
Comparison of Several Methods for the Determination of Iron Hydroxides and Associated Orthophosphates in Estuarine Particulate Matter,
W86-00769 1903 2L

Time-Dependent Changes in Soluble Organics, Copper, Nickel, and Zinc From Sludge Amended Soils,
W86-05554 1912 5B

Multivariate Analysis of Protist Communities in Lentic Systems,
W86-06028 1912 2H

ORWELL LAKE
Bank-Erosion Processes in a Cool-Temperate Environment, Orwell Lake, Minnesota,
W86-00898 1903 2J

OSCILLATORY FLOW
When and Where to Put a Discharge in an Oscillatory Flow,
W86-01056 1904 5B

OSMOTIC PRESSURE
Quantitative Structure-Toxicity Relationships with Osmotically Stressed Artemia salina Nauplii,
W86-00864 1903 5C

Ion Relations of Plants Under Drought and Salinity,
W86-05957 1912 2I

Water Relations of the Dune Grasses Ammophila arenaria and Elymus mollis on the Coast of Oregon, USA,
W86-06140 1912 2I

OSTEOPOROSIS
Does Fluoridation of Drinking-Water Prevent Bone Fragility and Osteoporosis,
W86-04453 1910 5F

OTAGO
Hydrology of Mid-Altitude Tussock Grasslands, Upper Waipori Catchment, Otago. I. Erosion, Sediment Yields and Water Quality,
W86-01383 1905 2J

OUACHITA MOUNTAINS
Metal Concentrations in the Ground Water of the Ouchita Mountains, Arkansas, U.S.A.,
W86-01357 1905 5A

OUACHITA RIVER
Compilation of Data Collected and Derived for Water Years 1980 and 1981 for the Purpose of Water-Quality Modeling of the Lower Ouachita River and Selected Tributaries, South-Central Arkansas,
W86-01965 1906 5B

OUTFALL
Outfall Dilution: The Role of a Far-Field Model,
W86-01727 1905 5B

OUTFALL SEWERS
Influence of Deep Ocean Sewage Outfalls on the Microbial Activity of the Surrounding Sediment,
W86-04257 1910 5E

OUTFALL TUNNELS
Seawater Circulation in Sewage Outfall Tunnels,
W86-00017 1901 5E

OUTFALLS
Initial Dilution for Outfall Parallel to Current,
W86-00016 1901 5B

Use of Aerial Photography and Image Processing to Measure Dye Dispersion from a Long Sea Outfall,
W86-01518 1905 7B

Planning, Design and Construction of the Great Grimsby Sewage Outfall,
W86-05593 1912 8A

San Francisco Outfall: The Champ,
W86-06080 1912 5E

OUTGOING LONGWAVE RADIATION
Statistical Analysis of the Relationships among Rainfall, Outgoing Longwave Radiation and the Moisture Budget During January-March 1979,
W86-06055 1912 2B

OUTLETS
Technique to Optimally Locate Multilevel Intakes for Selective Withdrawal Structures,
W86-00213 1901 8A

Design Criteria for Reservoir Bottom Outlets,
W86-01690 1905 8A

Virden Creek Pumping Station and Gravity-Flow Outlet Structure, Waterloo, Iowa: Hydraulic Model Investigation,
W86-03299 1908 8B

Discharge Characteristics of Flow Past a Floor Slot,
W86-05924 1912 8B

OUTWASH
Appraisal of the Surficial Aquifers in the Pomme De Terre and Chippewa River Valleys, Western Minnesota,
W86-02357 1906 2F

OUTWASH AQUIFER
Availability of Ground Water in the Outwash Aquifer, Marion County, Indiana,
W86-02958 1908 2F

OVERDRAFT
Ground-Water Conditions in the Cottonwood-West Oakley Fan Area, South-Central Idaho,
W86-00117 1901 2F

Incentives for Industrial Conversion to Surface Water,
W86-02501 1907 6D

OVERLAND FLOW
Toxic Organics Removal Kinetics in Overland Flow Land Treatment,
W86-00057 1901 5D

Snowmelt Induced Urban Runoff in Northern Sweden,
W86-00097 1901 2C

Similarity Solution of Overland Flow on Pervious Surface,
W86-01092 1904 2E

Field Studies of the Overland Flow Process for the Treatment of Raw and Primary Treated Municipal Wastewater,
W86-01546 1905 5D

Modeling of Overland Flow by the Diffusion Wave Approach,
W86-02738 1907 5B

Solution to the Kinematic Wave Approach to Overland Flow Routing With Rainfall Excess Given by Philip's Equation,
W86-04310 1910 2E

Process Design Manual for Land Treatment of Municipal Wastewater: Supplement on Rapid Infiltration and Overland Flow.
W86-04840 1911 5D

Overland Flow,
W86-04842 1911 5D

Development of Drainage Networks,
W86-04921 1911 4D

Design Model for the Overland Flow Process,
W86-05034 1911 5D

Overland Flow Hydrographs for SCS Type II Rainfall,
W86-05239 1911 2E

Modeling of Rainfall Erosion,
W86-05971 1912 2J

OXIDANTS
Influence of Water Preozonation on the Consumption of Oxidants,
W86-05065 1911 5F

OXIDATION
Mathematical Model of Simultaneous Organic Oxidation, Nitrification, and Denitrification in Rotating Biological Contactors,
W86-00762 1903 5D

Physicochemical Treatment Methods for Oil Shale Wastewater: Evaluation as Aids to Biooxidation,
W86-01982 1906 5D

Review of the Chemistry and Environmental Fate of Reactive Oxidant Species in Chlorinated Water,
W86-02136 1906 5F

Chlorine Demand: Studies Concerning Its Chemical Basis,
W86-02147 1906 5F

Neutralization of Wastewaters Containing Cyanides: Conclusion: Other Methods of Cyanide destruction,
W86-04341 1910 5D

Oxidation of 2-Chlorophenol Using Ozone and Ultraviolet Radiation,
W86-05057 1911 5D

Neutralization of Wastewaters Containing Cyanides; Part II: Elimination by Chemical Oxidation in Solution,
W86-05289 1911 5D

Oxidation-Induced Leaching of Sulphate and Cations from Acid Sulphate Soils,
W86-05909 1912 2G

OXIDATION DITCH
Kinetic Analysis of BOD and Nitrogen Removal in an Oxidation Ditch,
W86-00755 1903 5D

OXIDATION LAGOONS
Occurrence of Multiple-Antibiotic-Resistant Enteric Bacteria in Domestic Sewage and Oxidation Lagoons,
W86-04235 1910 5D

OXIDATION PONDS
Oxidation Ponds and Fish Culture,
W86-02336 1906 5D

Nitrification of Ammonia in Wastewater. Field Observations and Laboratory Studies,
W86-06150 1912 5D

OXIDATION PROCESS
Destruction of Hazardous Wastes by Ultraviolet Catalyzed Oxidation,
W86-02421 1907 5D

OXIDATION-REDUCTION POTENTIAL
Self-Purification with Controlled Redox Conditions,
W86-00945 1904 5B

Redox Potential: Its Measurement and Importance in Water Systems,
W86-02259 1906 2K

Comparative Study of Sequential Redox Processes in Three British Aquifers,
W86-03758 1909 2F

Rapid Consumption of Bromine Oxidants in River and Estuarine Waters,
W86-04426 1910 5B

Loss and Uptake of 15N-Ammonium in Submerged Soils of a Cattail Marsh,
W86-06098 1912 2H

OXYGEN
Hydrochemical Processes in Groundwater Discharge Areas,
W86-03762 1909 2F

Respiratory Gas Content (O2 and CO2) and Ionic Composition of River Water in the Plain of Alsace (Eastern France),
W86-03763 1909 2F

Alternative RBC Design---Second Order Kinetics,
W86-04396 1910 5D

Gas-Liquid Interactions in Oxygen Activated Sludge,
W86-04641 1910 5D

Multivariate Analysis of Protist Communities in Lentic Systems,
W86-06028 1912 2H

OXYGEN BALANCE

Oxygen Balances in the Teltow-Canal - With Special Regard to Heat Discharge from Lichterfelde Power Plant (Berlin, West) (Sauerstoffbilanzen im Teltowkanal - insbesondere unter dem Einfluss der Abwarmeeinleitung aus dem Kraftwerk Lichterfelde (Berlin, West)),
W86-01141 1904 5B

Water Quality and Streamflow Data for the West Fork Trinity River in Fort Worth, Texas,
W86-03020 1908 5B

OXYGEN CONSUMPTION

In Situ Measurement of Oxygen Consumption Rate in the Bottom Layer in Mikawa Bay,
W86-00451 1902 2L

Calculation of Oxygen Consumption and Amount of Excess Activated Sludge in Multistage Aeration Tanks,
W86-01814 1905 5D

OXYGEN CONTENT

Effects of Gravel Extraction on the Meade River at Atqasuk, Alaska,
W86-02475 1907 5B

OXYGEN DEFICIT

Declining Lake Sediment Phosphorus Release and Oxygen Deficit Following Wastewater Diversion,
W86-05025 1911 5C

Influence of an Artificial Hydraulic Regime on Water Quality in the Tidal River Lagan, Northern Ireland,
W86-05080 1911 5G

OXYGEN DEMAND

Anomalies Arising from Arbitrary Measures of the Strength of Sewage,
W86-00814 1903 5D

Nutrient Regeneration and Oxygen Consumption by Sediments Along an Estuarine Salinity Gradient,
W86-01126 1904 2L

Waste Strength and Water Pollution Parameters,
W86-03407 1908 5A

In Situ Sediment Oxygen Demand Determinations in the Passaic River (NJ) During the Late Summer/Early Fall 1983,
W86-06155 1912 5B

OXYGEN DEPLETION

Modelling of Oxygen Depletion in Coastal Waters,
W86-01235 1904 5C

Comparative Study of Sequential Redox Processes in Three British Aquifers,
W86-03758 1909 2F

OXYGEN ISOTOPE RATIOS

Oxygen Isotope Ratios in N2O from Nitrification at a Wastewater Treatment Facility,
W86-05600 1912 5D

OXYGEN ISOTOPES

Hydrogen and Oxygen Isotope Geochemistry of Cold and Warm Springs from the Tuscarora, Nevada Thermal Area,
W86-03308 1908 2K

Surface and Groundwater Mixing and Identification of Local Recharge-Discharge Zones from Seasonal Fluctuations of Oxygen-18 in Groundwater in Fissured Rock,
W86-03790 1909 2F

OXYGEN PROBE

Activated Sludge Respirometric Measurements,
W86-04120 1910 5D

OXYGEN TRANSFER

Comparative Study of Sequential Redox Processes in Three British Aquifers,
W86-03758 1909 2F

Evaluation of Factors Affecting the Oxygen Transfer from High-Speed Floating Surface Aerators,
W86-05133 1911 5D

Effect of Biomass on Oxygen Transfer in RBC Systems,
W86-05134 1911 5D

OXYGEN TRANSFER RATE

Effect of Temperature on Oxygen Transfer Rate in Wastewater Treatment,
W86-00658 1903 5D

OXYGEN UPTAKE

Effect of Biomass on Oxygen Transfer in RBC Systems,
W86-05134 1911 5D

OXYGENATION

Mobile Oxygenation in the Thames Estuary,
W86-01439 1905 5G

Accuracy and Precision of Plant Scale and Shop Clean Water Oxygen Transfer Tests,
W86-05132 1911 5D

OXYGENATION CAPACITY

Steady State Measurement of Oxygenation Capacity,
W86-00756 1903 5D

OYGENATION

Dissolved Nitrogen Measurements at Clarks Hill Reservoir Georgia-South Carolina,
W86-03304 1908 8A

OYSTER

Identification of Ferritin as a Major High Molecular Weight Zinc-Binding Protein in the Tropical Rock Oyster, Saccostrea cucullata,
W86-01406 1905 5C

OYSTERS

Fluctuation in Nutrients during Tidal Cycles at Oyster Beds in the River Penze (North Finistere) (Fluctuations des Nutriments au cours de la Maree sur les parcs Ostreicoles de la Riviere Penze (Nord-Finistere)),
W86-00447 1902 2L

Heavy Metal Content of Oyster, Blue Mussel and Growing Water in Hansan-Geoje Bay (in Korean),
W86-00454 1902 5C

Setting of the American Oyster Crassostrea virginica in the James River, Virginia, USA: Temporal and Spatial Distribution,
W86-01504 1905 2L

Combined Effects of Salinity and Cadmium Chloride upon Embryos and Larvae of the Japanese Oyster, Crassostrea gigas,
W86-01790 1905 5C

Heavy Metals in Oyster Tissue Around Three Coastal Marinas,
W86-04367 1910 5B

Effects of Hydraulic Dredging to Control Oyster Drills on Benthic Macrofauna of Oyster Grounds in Delaware Bay, New Jersey,
W86-05153 1911 5C

Benthic Macrofauna Associated with the Oyster Reefs of the James River Estuary, Virginia, USA,
W86-05166 1911 2L

Impact of Tributyl Tin (TBT) Antifouling Paints on Molluscan Fisheries,
W86-05372 1911 5C

OZONATION

Ozone Enhanced Biological Activated Carbon Filtration and its Effect on Organic Matter Removal, and in Particular on AOC Reduction,
W86-01241 1904 5F

Ozonation of Non-Ionic Surfactants in Aqueous Solutions,
W86-01242 1904 5F

Ozone Inactivation of Botulinum Type E Toxin,
W86-01267 1904 5F

Factors Influencing the Ozone Inactivation of Enteric Viruses in Effluent,
W86-01268 1904 5D

Purification of Polluted Source Water with Ozonation and Biological Activated Carbon,
W86-01269 1904 5F

Preliminary Study of the Efficiency and Mechanism of THM Removal in the Ozonation and BAC Process,
W86-01270 1904 5F

Kinetics and Mechanism of Ozonation of Free Cyanide Species in Water,
W86-01870 1905 5D

Broad-Spectrum Analysis of the Removal of Trace Organics in an Ozone-Granular Activated Carbon Potable-Water Pilot Plant Study,
W86-02165 1906 5B

Evaluation of Ozone Pretreatment of Surface Waters Prior to Chlorination for Reduction in Trihalomethane Formation,
W86-02167 1906 5F

Pilot Studies Demonstrating the Feasibility of Ozonation for Selected Municipal Water Supplies,
W86-02725 1907 5F

Review of the Use of Ozone for Improving Combined Municipal/Industrial Wastewater Treatment,
W86-03894 1909 5D

Degradation of MCPA by Ozone and Light,
W86-04110 1910 5D

Volatile Ozonization Products of Aqueous Humic Material,
W86-04122 1910 5F

Ozonation of Naphthalene in Aqueous Solution - I: Ozone Consumption and Ozonation Products,
W86-04126 1910 5D

Ozonation of Naphthalene in Aqueous Solution - II: Kinetic Studies of the Initial Reaction Step,
W86-04127 1910 5D

Predominant Bacterial Genera in Granular Activated Carbon Water Treatment Systems,
W86-04339 1910 5F

Neutralization of Wastewaters Containing Cyanides: Conclusion: Other Methods of Cyanide destruction,
W86-04341 1910 5D

Use of Ozone in the Treatment of Water for Potable Purposes,
W86-04520 1910 5F

Treatment of Tar Sand Wastewaters with Activated Carbon, Ozone and Reverse Osmosis,
W86-04564 1910 5D

Ozonization of Humic Acids. Medium Term Toxicity Towards Daphnia Magna,
W86-05041 1911 5C

Application of Ozone for Water Treatment in the United Kingdom Current Practice and Recent Research,
W86-05059 1911 5F

Influence of Water Preozonation on the Consumption of Oxidants,
W86-05065 1911 5F

Automation of a Plant Treating Water with Ozone,
W86-05066 1911 5F

Removal of Aromatic Nitro-Compounds from Water by Ozonation,
W86-05148 1911 5D

Catalytic Effects of Ultraviolet Light and/or Ultrasound on the Ozone Oxidation of Humic Acid and Trihalomethane Precursors,
W86-05270 1911 5D

Principles of Ozone Oxidation and Disinfection Design,
W86-05271 1911 5D

Control of a Fully Automated Ozone Application System,
W86-05272 1911 5D

Treatment Efficiency of an Improved Ozonation Unit Applied to Fish Culture Situations,
W86-05273 1911 5F

Powered Activated Carbon and Ozone-Assisted Activated Sludge Treatment for Removal of Toxic Organic Compounds,
W86-05274 1911 5D

Ozone Absorption with Reaction in Benzesulfonic Acid Aqueous Solutions,
W86-05284 1911 5F

Utilization of Ozone for the Treatment of Recycleable Papers,
W86-05540 1912 5D

Efficiency of O3 and BAC in THMs Removal,
W86-05606 1912 5D

Effect of Ozonation and UV Irradiation on Biorefractory Organic Solutes in Oil Shale Retort Water,
W86-05902 1912 5D

Improvement in the Effectiveness of Ozonation of Drinking Water through the Use of Hydrogen Peroxide,
W86-05989 1912 5D

Effect of Bromide Ion in Water Treatment: II. A Literature Review of Ozone and Bromide Ion Interactions and the Formation of Organic Bromine Compounds,
W86-05990 1912 5D

OZONE
Destroying Pyrogens in Water,
W86-00870 1903 5F

Influence of Bubble Sizes on Ozone Solubility Utilization and Disinfection,
W86-01243 1904 5D

High Temperature Treatment of Trinitrotoluene (TNT) and Cyclotrimethylene-Trinitramine (RDX) with Ozone and Ultrasound,
W86-01271 1904 5D

Rate Constants of Reactions of Ozone with Organic and Inorganic Compounds in Water - III; Inorganic Compounds and Radicals,
W86-01641 1905 2K

Growth Response of Yellow-Poplar (Liriodendron tulipifera L.) Seedlings to Ozone, Sulfur Dioxide, and Simulated Acidic Precipitation, Alone and in Combination,
W86-01876 1905 5C

Ozonation of Naphthalene in Aqueous Solution - I: Ozone Consumption and Ozonation Products,
W86-04126 1910 5D

Oxidation of Five Earthy-Musty Taste and Odor Compounds,
W86-04372 1910 5F

Decomposition of Ozone in Water in the Presence of Organic Solutes Acting as Promoters and Inhibitors of Radical Chain Reactions,
W86-04428 1910 5B

Effects of O3 and Acidic Rain on Photosynthesis and Growth in Sugar Maple and Northern Red Oak Seedlings,
W86-04660 1910 5C

Uses of Ozone in Water Treatment – A Review,
W86-04955 1911 5F

Biodegradability and GAC Adsorbability of Micropollutants by Preozonation,
W86-05040 1911 5F

New York City's Ozone Demonstration Plant Design,
W86-05042 1911 5F

Bromoform Formation in Ozonated Groundwater Containing Bromide and Humic Substances,
W86-05043 1911 5F

Ozonation at the 900 cfs Los Angeles Water Purification Plant,
W86-05044 1911 5F

Oxidation of 2-Chlorophenol Using Ozone and Ultraviolet Radiation,
W86-05057 1911 5D

Application of Ozone for Water Treatment in the United Kingdom Current Practice and Recent Research,
W86-05059 1911 5F

Influence of Water Preozonation on the Consumption of Oxidants,
W86-05065 1911 5F

Automation of a Plant Treating Water with Ozone,
W86-05066 1911 5F

Reliable Ozone Disinfection using Off-gas Control,
W86-05068 1911 5D

Ozone and Activated Carbon for Tertiary Wastewater Treatment,
W86-05269 1911 5D

Potable Water Treatment with O3 and BAC in China,
W86-05521 1912 5F

Ozone and Biological Treatments - Effects on the Elimination of Cyanides,
W86-05539 1912 5D

Influence of Ozone, Oxygen, and Chlorine on Biological Activity on Biological Activated Carbon,
W86-05840 1912 5F

Pilot-Scale Reuse System for Salmonids,
W86-06007 1912 5D

Is Ozone the Solution to your Water Treatment Problems,
W86-06047 1912 5F

Comparative Disinfection of Treated Sewage with Chlorine and Ozone Effect of Nitrification,
W86-06154 1912 5D

PACIFIC AREA
Water Resources Data Hawaii, Other Pacific Areas, Water Year 1981. Volume 2. Guam, Northern Mariana Islands, Federated States of Micronesia, Palau Islands and American Samoa.
W86-00130 1901 7C

Water Resources Data, Hawaii and Other Pacific Areas Water Year 1983. Volume 2,
W86-03160 1908 7C

PACIFIC OCEAN
Estimation of Discharge and Loads from the Rivers Flowing into Littoral Seas of China (in Chinese),
W86-01167 1904 2J

PACKED BED REACTORS
Application of Anaerobic Packed-Bed Reactors to Industrial Waste-Water Treatment,
W86-01019 1904 5D

PACKED BEDS
Composting Reaction Rate of Sewage Sludge in an Autothermal Packed Bed Reactor,
W86-04248 1910 5E

Basic Encoded Model for Flow-Through Fixed-Bed Adsorber and One-Dimensional Ground Water Systems,
W86-05465 1912 5B

Biological Sulphate Removal in an Upflow Packed Bed Reactor,
W86-06151 1912 5D

PACKED-COLUMN PEAK ANALYSIS
Polychlorinated Biphenyls in the Hudson River: The Value of Individual Packed-Column Peak Analysis,
W86-01556 1905 5A

PACKED COLUMNS
Removing Trihalomethanes by Packed-Column and Diffused Aeration,
W86-05885 1912 5F

PACKERS
Analysis of a Contaminated Bedrock Aquifer by Means of a Packer and Attempts at Remediation Using a Packer,
W86-04220 1910 5B

PAKISTAN
Agricultural Water Management and the Environment,
W86-03921 1910 6D

Regional Co-Operation in the Utilization of Water Resources of the Himalayan River,
W86-03965 1910 6E

PALAEMONETES ANTENNARIUS
Ecological Zoogeography of Palaemonetes antennarius (Crustacea, Decapoda),
W86-04650 1910 2H

PALEOCLIMATES
Vegetation and Climates of the Last 45,000 Years in the Vicinity of the Nevada Test Site, South-Central Nevada,
W86-03168 1908 2I

PALEOHYDROLOGY
Numerical Model of Compaction-Driven Groundwater Flow and Heat Transfer and Its Application to the Paleohydrology of intracratonic Sedimentary Basins,
W86-01485 1905 2F

Paleoflood Hydrology and Flood Frequency Analysis,
W86-05434 1912 2E

PALEOLIMNOLOGY
Assessment of Ecological Changes During the Recent History of Lake Ontario Based on Siliceous Algal Microfossils Preserved in the Sediments,
W86-01110 1904 2H

PALEOSTRUCTURE
Correlation of Paleostructure and Sediment Deposition in the Madison Limestone and Associated Rocks in Parts of Montana, North Dakota, South Dakota, Wyoming, and Nebraska,
W86-02977 1908 2F

PALEOZOIC AQUIFERS
Paleozoic Artesian Aquifers in the Ten Sleep Area of the Bighorn Basin, North-Central Wyoming,
W86-02847 1907 2F

PALM OIL MILL EFFLUENT
Anaerobic Treatment of Palm Oil Mill Effluent by Tank Digesters,
W86-05941 1912 5D

PALM OIL MILLS
Thermophilic Anaerobic Contact Digestion of Palm Oil Mill Effluent,
W86-00744 1903 5D

PALM OIL PROCESSING
Palm Oil Processing - New Development in Effluent Treatment,
W86-04514 1910 5D

PAMLICO SOUND
Evaluation of the Relevance of Some Environmental Factors to the Estimation of Migratory Timing and Yield for the Brown Shrimp of Pamlico Sound, North Carolina,
W86-00589 1902 2L

PAPER WASTES
Investigation into the Occurrence of Sewage Fungus in Rivers Containing Papermill Effluents - III; Removal of Sewage Fungus-Nutrients,
W86-01637 1905 5D

PAPUA NEW GUINEA
From Swamp to Lake: Recent changes in a Lowland Tropical Swamp,
W86-04697 1911 5C

PARAGUAY
Itaipu, South America's Grande Dame,
W86-00886 1903 8A

Fish Abundance Related to Organic Matter in the Plata River Basin, South America,
W86-01149 1904 2H

PARAMECIUM
Passage of Selected Heavy Metals From Sphaerotilus (Bacteria: Chlamydobacteriales) to Paramecium caudatum (Protozoa: Ciliata),
W86-00055 1901 5C

PARAMETER ESTIMATION
Maximum Likelihood Parameter Estimation of Hydrologic Spatial Processes by the Gauss-Newton Method,
W86-01656 1905 2A

PARAMETER IDENTIFICATION
Identification of Parameters in Unconfined Aquifers,
W86-01657 1905 2F

Evaluation of Data Requirements for Groundwater Contaminant Transport Modeling,
W86-02723 1907 5B

PARAMETER STRUCTURE
Identification of Parameter Structure in Groundwater Inverse Problem,
W86-01078 1904 2F

PARAMETIZATION
Parameterization Scheme for Convective Cloud Water and Cloud Cover,
W86-05743 1912 2B

PARAMETRIC HYDROLOGY
Application of the U.S. Geological Survey's Precipitation-Runoff Modeling System to the Prairie Dog Creek Basin, Southeastern Montana,
W86-02390 1906 2A

Review of Parameter Identification Procedures in Groundwater Hydrology: The Inverse Problem,
W86-04164 1910 2F

Parameter Uncertainty in Estimation of Spatial Functions: Bayesian Analysis,
W86-05430 1912 2A

PARAMETRIC TECHNIQUES
Percentile Estimation Procedures for Water Quality Management,
W86-04340 1910 7C

PARANA RIVER
Itaipu, South America's Grande Dame,
W86-00886 1903 8A

Fish Abundance Related to Organic Matter in the Plata River Basin, South America,
W86-01149 1904 2H

PARAQUAT
Impact of Xenobiotic Chemicals on Microbial Ecosystems.
W86-00352 1902 5C

Cellular Mechanisms of Paraquat Toxicity,
W86-00356 1902 5C

Investigations on Paraquat Toxicity in Fishes,
W86-01378 1905 5C

Removal of Paraquat, Diquat, and Amitrole from Aqueous Solution by Chemically Modified Peat,
W86-05383 1911 5G

PARASITES
Cadmium Partitioning and Related Effects in Parasitized and Non-Parasitized Mosquitofish (Gambusia affinis: Poeciliidae),
W86-00960 1904 5C

Epidemiological Evidence for Helminth and Cholera Transmission by Vegetables Irrigated with Wastewater: Jerusalem - A Case Study,
W86-01173 1904 5D

Effects of Salmincola Californiensis (Copepoda: Lernaeopodidae) on the Gills of Farm-raised Rainbow Trout, Salmo gairdneri,
W86-06125 1912 8I

PARATHION
Effects of Acute Parathion Pollution on Macroinvertebrates in a Stream,
W86-00963 1904 5C

PARK RANGE
Atmospheric Water Balance over a Mountain Barrier,
W86-05474 1912 2B

PARTICLE SHAPE
Angularity of Aggregate Particles as a Measure of Their Shape and Hydraulic Resistance,
W86-05596 1912 8G

PARTICLE SIZE
Organic Matter in Gravel Streams (Project RITRODAT-LUNZ),
W86-00913 1903 2H

Sediment Data for Georgia Streams, Water Years 1958-82,
W86-02821 1907 7C

Filtrable Solids as a Design Parameter for Wastewater Treatment Processes,
W86-03662 1909 5D

Computation of Fractional Removal of Discrete and Flocculant Particles in Settling Basins,
W86-03667 1909 5D

Changes in Particle Size Distributions on a Fixed Bed of Granular Activated Carbon,
W86-04563 1910 5F

Hailstone Size Distributions and Their Relationship to Storm Thermodynamics,
W86-04627 1910 2B

Particle Size Characteristics of Fluvial Suspended Sediment,
W86-04934 1911 5B

Angularity of Aggregate Particles as a Measure of Their Shape and Hydraulic Resistance,
W86-05596 1912 8G

PARTICLE STABILITY
Colloidal Stability of Particles in Lakes: Measurement and Significance,
W86-01194 1904 2H

PARTICLE TRACKING MODEL
Two-Dimensional Particle Tracking Estuarine Transport Model,
W86-06012 1912 5B

PARTICULATE MATTER
Sources, Composition, and Transport of Suspended Particulate Matter in Lower Cook Inlet and Northwestern Shelikof Strait, Alaska,
W86-00150 1901 2J

Suspended Particulate Matter in Elliott Bay,
W86-00151 1901 2J

Influence of Particulate Organics on the Removal of Dissolved Organics in Fixed-Film Biological Reactors,
W86-007[illegible] 1903 5D

Comparison of Several Methods for the Determination of Iron Hydroxides and Associated Orthophosphates in Estuarine Particulate Matter,
W86-00769 1903 2L

Variations in the Amount of Organic Carbon (Dissolved and Particulate) in a Small Mediterranean Mountain Stream (Corsica) (Les Variations des Teneurs en Carbone Organique (Dissous et Particulaire) d'un Petit Torrent Mediterraneen Montagnard (Corse)),
W86-00918 1903 2H

Contribution to the Determination of Particulate Organic Carbon in Water Samples (Ein Beitrag zur Bestimmung von Partikularem Organischen Kohlenstoff in Wasserproben),
W86-01000 1904 5A

Variations in the Natural Abundance of 15N in Estuarine Suspended Particulate Matter: A Specific Indicator of Biological Processing,
W86-01121 1904 2L

Colloidal Stability of Particles in Lakes: Measurement and Significance,
W86-01194 1904 2H

Genotoxic Activity of Particulate Material in Petroleum Refinery Effluents,
W86-01283 1904 5C

Impact of Alkaline Particulates on pH of Rain Water in India,
W86-01606 1905 5B

Estuary as a Filter,
W86-02070 1906 2L

Estuary as a Filter: An Introduction,
W86-02071 1906 2L

Estuary as a Filter for Fine-Grained Suspended Sediment,
W86-02075 1906 2L

Estuary as a Sediment Trap: Alternate Approaches to Estimating Its Filtering Efficiency,
W86-02076 1906 2L

Role of Flocculation in the Filtering of Particulate Matter in Estuaries,
W86-02078 1906 2L

On-Line Particle Counting Improves Filter Efficiency,
W86-04285 1910 5F

Factors Controlling Sensitivity in Ultraviolet Disinfection of Secondary Effluents,
W86-04331 1910 5D

Determination of Linear Alkylbenzenesulfonates in Sewage Sludge by High-Resolution Gas Chromatography/Mass Spectrometry,
W86-04721 1911 5A

In situ Measurements of Particulate Matter Transport in Rivers,
W86-04857 1911 2J

Fatty Acids in Lipids from Particulate Organic Matter in a Eutrophic Lake, Lake Nakanuma, Japan,
W86-05171 1911 5C

Some Recent Developments in the Characterization of Estuarine Particulates,
W86-05360 1911 5A

PARTICULATE TRANSPORT

Spatial and Temporal Coupling of Nutrient Inputs to Estuarine Primary Production: The Role of Particulate Transport and Decomposition,
W86-00642 1903 2L

PARTICULATES

Dispersal Pathways for Particle-Associated Pollutants,
W86-01677 1905 5B

PARTITION COEFFICIENTS

Quantitative Structure-Toxicity Relationships with Osmotically Stressed Artemia salina Nauplii,
W86-00864 1903 5C

Sorbent Concentration Effects in Liquid/Solid Partitioning,
W86-01869 1905 5B

Estimating Bioconcentration Potential from Octanol/Water Partition Coefficients,
W86-02026 1906 5A

PARTITIONING

Effect of Drought on Metabolism and Partitioning of Carbon in Two Wheat Varieties Differing in Drought-Tolerance,
W86-00907 1903 2I

Effects of Drought on Partitioning of Nitrogen in Two Wheat Varieties Differing in Drought-Tolerance,
W86-00908 1903 2I

PASSAGE CREEK

Bottomland Vegetation Distribution Along Passage Creek, Virginia, In Relation to Fluvial Landforms,
W86-00826 1903 2H

PASTURES

Differences in Annual Evaporation Between Grazed Pasture and Eucalyptus Species in Plantations on a Saline Farm Catchment,
W86-01473 1905 2D

Influence of Cylindrical Macropores on Steady-State Infiltration in a Soil Under Pasture,
W86-01660 1905 2G

PATH OF CONTAMINATION

Second International Conference on Ground Water Quality Research: Proceedings.
W86-04042 1910 2F

PATH OF POLLUTANTS

Alternating Direction Galerkin Technique for Simulation of Contaminant Transport in Complex Groundwater Systems,
W86-00072 1901 5B

One-Dimensional Analytical Solutions for the Migration of a Three-Member Radionuclide Decay Chain in a Multilayered Geologic Medium,

Use of Limnocorrals for Pesticide Toxicity Studies: Effect on Zooplankton Composition and Dynamics,
W86-00964 1904 5A

Effect of Commerical Formulation of Four Organophosphorus Insecticides on the Ovaries of a Freshwater Teleost, Mystus vittatus (Bloch) - A Histological and Histochemical Study,
W86-04238 1910 5C

Inhibition of Brain AChE in Brook Trout by Aminocarb and its Toxic Metabolites,
W86-04261 1910 5C

Studies on the Acute Toxicity of Pollutants to Freshwater Macroinvertebrates: 4. Lindane (gamma-Hexachlorocyclohexane),
W86-04651 1910 5C

Toxic Effects of Disyston and Furadan on the Bimodal Pattern of Oxygen Consumption in the Climbing Perch, Anabas testudineus (Bloch),
W86-06161 1912 5C

PESTICIDES

Fate of Aldicarb, Aldicarb Sulfoxide, and Aldicarb Sulfone in Floridan Groundwater,
W86-00045 1901 5B

Ecosystem Approach to the Toxicology of Residue Forming Xenobiotic Organic Substances in the Great Lakes,
W86-00237 1901 5B

Mathematical Model, SERATRA, for Sediment-Contaminant Transport in Rivers and Its Application to Pesticide Transport in Four Mile and Wolf Creeks in Iowa.
W86-00259 1901 5B

Introduction and Summary,
W86-00364 1902 5C

Comparative Hatchability of Lake Trout Eggs Differing in Contaminant Burden and Incubation Conditions,
W86-00365 1902 5C

Growth and Mortality of Fry of Lake Michigan Lake Trout During Chronic Exposure to PCB's and DDE,
W86-00366 1902 5C

Swimming Performance of Young Lake Trout after Chronic Exposure to PCB's and DDE,
W86-00367 1902 5C

Temperature Selection by Young Lake Trout After Chronic Exposure to PCB's and DDE,
W86-00369 1902 5C

Biochemistry and Metabolism of Lake Trout: Laboratory and Field Studies on the Effects of Contaminants,
W86-00370 1902 5C

Effect of Aldrin on the Carbohydrate Metabolism of a Freshwater Prawn Macrobrachium lamarrei (H.-M. Edwards) Crustacea, Decapoda,
W86-00421 1902 5C

Biomonitoring of the Contamination of Water by a Sublethal Concentration of Pesticides - A System Analysis Approach,
W86-00542 1902 5A

Organochlorine Residues in Animals from Three Louisiana Watersheds in 1978 and 1979,
W86-00691 1903 5B

Aquatic Bioassay of 11 Pesticides Using Larvae of the Mosquito, Wyeomyia smithii (Diptera: Culicidae),
W86-00733 1903 5A

Effects of 2,4-D on Natural Phytoplankton Systems in Association with Myriophyllum spicatum,
W86-00965 1904 5C

Influence of Pesticides in the Pollution of Continental African Waters (Incidence des Pesticides dans la Pollution des Eaux Continentales Africaines),
W86-00967 1904 5C

Assessment of the Significant Physicochemical Interactions Involved in Pesticide Diffusion within a Pesticide-Sediment-Water System,
W86-00995 1904 5B

Removal of Pesticides in Water by Microbial Cells Adsorbed to Magnetite,
W86-01057 1904 5F

Organochlorine Pesticides and Polychlorinated Biphenyls in Sediment and Fish from Wetlands in the North Central United States,
W86-01651 1905 5C

Reductive Dechlorination of the Pesticides 2,4-D, 2,4,5-T, and Pentachlorophenol in Anaerobic Sludges,
W86-01707 1905 5D

Contaminants in Fish from Great Lakes Harbors and Tributary Mouths,
W86-01891 1905 5B

Aldicarb-Pesticide Contamination of Ground Water in Eastern Suffolk County, Long Island, New York,
W86-02394 1906 5B

Aquatic Bacteria and Pesticide Degradation,
W86-02671 1907 5B

Water-Quality Investigations of the Jordan River, Salt Lake County, Utah, 1980-82,
W86-02916 1907 5B

May 1984-April 1985 Water Budget of Reelfoot Lake with Estimates of Sediment Inflow and Concentrations of Pesticides in Bottom Material in Tributary Streams--Basic Data Report,
W86-03100 1908 5B

Mathematical Modeling Application to Environmental Risk Assessments,
W86-03373 1908 5B

Fate and Transport Modeling for Toxic Substances,
W86-03425 1909 5B

Polychlorinated Biphenyls and Organochlorine Insecticides in Great Blue Heron and Great Egret Eggs from the Upper Mississippi River,
W86-03747 1909 5B

Development of Methods for Pesticides in Wastewater: Applicability of a General Approach,
W86-03798 1909 5A

Anionic and Neutral Organic Components in Water by Anion Exchange,
W86-03810 1909 5A

Investigation on the Suitability of Various Pesticide Manufacturing Wastewater for Discharge to Municipal Waste Treatment Facilities,
W86-03900 1909 5D

Analytical Methods for Measuring Organochlorines and Methyl Mercury by Gas Chromatography,
W86-03999 1910 5A

Chronic Toxicity of 4-Nitrophenol to Daphnia magna Straus Under Static-Renewal and Flow-Through Conditions,
W86-04962 1911 5C

Distribution of Carbofuran in a Rice-Paddy-Fish Microecosystem,
W86-04966 1911 5B

Methyl Bromide in Surface Drinking Waters,
W86-05331 1911 5A

Permethrin Washoff from Cotton Plants by Simulated Rainfall,
W86-05385 1911 5B

Early Life-Stage Toxicity Test Methods for Gulf Toadfish (Opsanus Beta) and Results Using Chlorpyrifos,
W86-05490 1912 5A

Acute Toxicity of Pentachlorophenol to the Freshwater Snail, Gillia altilis,
W86-05534 1912 5C

Organochlorine Residues in Freshwater Fishes in Nigeria,
W86-05579 1912 5B

Gas Chromatographic Determination of Organochlorine Pesticides; Contamination of Dicofol, Fenson, and Tetradifon in Fish and Natural Waters of a Wet Area beside the Mediterranean Sea,
W86-05996 1912 5B

Toxic Effects of Disyston and Furadan on the Bimodal Pattern of Oxygen Consumption in the Climbing Perch, Anabas testudineus (Bloch),
W86-06161 1912 5C

PETROCHEMICAL EFFLUENT
Influence of Different Substrate pH Values on the Performance of a Downflow Anaerobic Fixed Bed Reactor Treating a Petrochemical Effluent,
W86-04744 1911 5D

PETROCHEMICAL WASTES
Mercury Removal from Petrochemical Wastes,
W86-04109 1910 5D

PETROGRAPHIC ANALYSES
Description and Some Hydrogeologic Implications of Cores from the Radioactive Waste Management Complex, Idaho,
W86-02999 1908 5E

PETROGRAPHY
Evaluation of Concrete Cores, Black Canyon Dam, Idaho,
W86-03324 1908 8F

PETROLEUM
Preparation of Water Soluble Fractions of Crude Oils for Toxicity Studies,
W86-05998 1912 5A

PETROLEUM PRODUCTS
Testing of Crude Oils and Petroleum Products for Environmental Purposes,
W86-04027 1910 5C

Wastewater Treatment costs and Outlays in Organic Petrochemicals: Standards Versus Taxes With Methodology Suggestions for marginal Cost Pricing and Analysis,
W86-05426 1912 5D

PHASE COMPOSITION
Solution of Hydrocarbons in a Hydrocarbon-Water System with Changing Phase Composition due to Evaporation,
W86-04443 1910 5B

PHASE SEPARATED ANAEROBIC FILTERS
Recent Developments in Hydrogen Management During Anaerobic Biological Wastewater Treatment,
W86-04746 1911 5D

PHENOL
Microbial Assay for Determining the Influence of Physicochemical Environmental Factors on the Toxicity of Organics: Phenol,
W86-01407 1905 5C

Adsorption, Desorption, and Bioregeneration in an Anaerobic, Granular Activated Carbon Reactor for the Removal of Phenol,
W86-05017 1911 5D

Anaerobic Treatment of Phenol by an Expanded-Bed Reactor,
W86-05895 1912 5D

PHENOLIC COMPOUNDS
Determination of Phenolic Water Pollutants by Glass Capillary Gas Chromatography,
W86-03799 1909 5A

Chromatographic Considerations for the Analysis of Acid-Extractable Priority Pollutants,
W86-03800 1909 5A

High-Performance Liquid Chromatographic Analysis of Nitrophenols,
W86-03814 1909 5A

PHENOLICS
Ecotoxicological Aspects of Pulp and Paper Mill Effluents Discharged to an Inland Water System: Distribution in Water, and Toxicant Residues and Physiological Effects in Caged Fish (Salmo gairdneri),
W86-01161 1904 5C

Chlorinated Phenolics and Their Conjugates in the Bile of Trout (Salmo gairdneri) Exposed to Contaminated Waters,
W86-05853 1912 5C

PHENOLS
Analysis of Phenols by Chemical Derivatization. IV. Rapid and Sensitive Method for Analysis of 21 Chlorophenols by Improved Chloroacetylation Procedure,
W86-00002 1901 5A

Toxicity to Daphnia of the End Products of Wet Oxidation of Phenol and Substituted Phenols,
W86-00064 1901 5D

Effects of Activated Carbon on the Reactions of Combined Chlorine with Phenols,
W86-01066 1904 5F

Stream Modeling of Nonconvetional Water Quality Parameters: Phenol, Cyanide, Ammonia, Oil and Grease,
W86-01234 1904 5B

Organic Removal Mechanisms in Biophysical Treatment Systems,
W86-01240 1904 5D

Brominated Phenols and Anisoles in River and Marine Sediments in Japan,

Response of Phenol-Acclimated Activated Sludge Process to Quantitative Shock Loading,
W86-01547 1905 5D

Solvent Interactions with Complex, Concentrated Industrial Wastewaters,
W86-02111 1906 5D

Membrane-Organic Phase Oxidation Process for the Destruction of Toxic Organics in Hazardous Wastewaters,
W86-02461 1907 5D

Development of a Simplified Chlorinated Hydrocarbon Screening Technique for Water and Sediment,
W86-02550 1907 5A

Anaerobic Treatment of Phenolic coal Conversion Wastewater in Semicontinuous Cultures,
W86-04117 1910 5D

Migration of Wood-preserving Chemicals in Contaminated Groundwater in a Sand Aquifer at Pensacola, Florida,
W86-04141 1910 5B

Desorption Kinetics of Phenol on Activated Carbon,
W86-04402 1910 5F

Trace Organic Compounds in Rain. 4. Identities, Concentrations, and Scavenging Mechanisms for Phenols in Urban Air and Rain,
W86-04422 1910 5B

Biodegradation Pathway of o-Cresol by Heterogeneous Culture: Phenol Acclimated Activated Sludge,
W86-04578 1910 5D

Anaerobic Treatment of Phenol by an Expanded-Bed Reactor,
W86-05053 1911 5D

Note on the Feasibility of Degradation of Phenol by Some Crustacean Larvae,
W86-05380 1912 5D

Behavioral Reactions of Fathead Minnow (Pimephales promelas) and Rainbow Trout (Salmo gairdneri) to a Coal Liquid Water-Soluble Fraction,
W86-05803 1912 5C

Gas Chromatographic Micromethod for Trace Determinations of Phenols,
W86-05945 1912 5A

PHENOXY COMPOUNDS
Acute Toxicity of Four Phenoxy Herbicides to Aquatic Organisms,
W86-01898 1905 5C

PHENOXY HERBICIDES
Relative Toxicity of Phenoxy Herbicides on Lebistes (Poecilia) reticulatus (Peters),
W86-00577 1902 5C

PHENOXYALKANOIC ACIDS
Abundance, Heterotrophic Activity and Taxonomy of Bacteria in a Stream Subject to Pollution by Chlorophenols, Nitrophenols and Phenoxyalkanoic Acids,
W86-04113 1910 5C

PHENYL MERCURIC ACETATE
Comparison of Metabolic Inhibitors, Film-Forming Antitranspirants, and Microject Irrigation for Water Use Efficiency of Rabbiteye Blueberries,
W86-02433 1907 3D

PHILADELPHIA
Hydrologic Data for Aquifers in Philadelphia, Pennsylvania,
W86-02815 1907 7C

Case Study of Geosmin in Philadelphia's Water,
W86-04371 1910 5F

PHILIPPINES
Year of the African Drought,
W86-01429 1905 2B

Efficient Water Use in Run-of-the-River Irrigation,
W86-01435 1905 3F

PHILLIPINES
Electro-Mechanical Equipment for the Kalayaan Pumped-Storage Plant,
W86-04999 1911 8C

PHOSPHATE MINING
Design and Performance of a Groundwater Treatment System for Toxic Organic Removal,
W86-05018 1911 5G

PHOSPHATES
Effects of Waterlogging and Subsequent Drainage of a Pasture Soil on Phosphate Sorption, Extractable Phosphate and Oxalate-Extractable Iron,
W86-01038 1904 2K

Calculation of Transport Coefficients of Phosphate and Calcium Fluxes across the Sediment-Water Interface, from Experiments with Undisturbed Sediment Cores,
W86-01233 1904 2J

Variability of Dissolved Reactive Phosphate Flux Rates in Nearshore Estuarine Sediments: Effects of Groundwater Flow,
W86-01339 1905 2L

Combined Effect of Geology, Phosphate Sources and Runoff on Phosphate Export from Drainage Basin,
W86-01639 1905 5B

Controls on Phosphorus Mobility in the Potomac River, Near the Blue Plains Wastewater Treatment Plant,
W86-02762 1907 5B

Role of Bottom Sediments in Modifying Soluble Phosphate Loads to a Dendritic, Hypertrophic Reservoir,
W86-03787 1909 2J

Insight into the Mechanism of Accumulation of Arsenate and Phosphate in Hydro Lake Sediments by Measuring the Rate of Dissolution with Ethylenediaminetetraacetic acid,
W86-04228 1910 5B

Phosphate Adsorption onto Hydrous Manganese (IV) Oxide in the Presence of Divalent Cations,
W86-04577 1910 5F

Detergent Phosphate Bans and Eutrophication,
W86-04719 1911 5G

Primary Production and Effects of Enrichment with Nitrate and Phosphate on Phytoplankton in the Barra Bonita Reservoir (State of Sao Paulo, Brazil),
W86-05157 1911 5C

PHOSPHOROUS
Significance of Floodplain Sediments in Nutrient Exchange Between a Stream and Its Floodplain,
W86-03385 1908 5C

Trophic Status of 19 Subarctic Lakes in the Yukon Territory,
W86-05559 1912 5C

Evaluation of factors Related to the Unusually Low Chlorophyll Levels in Prairie Saline Lakes,
W86-05562 1912 2H

Evidence that Filterable Phosphorous is a Significant Atmospheric Link in the Phosphorous Cycle,
W86-06143 1912 2H

PHOSPHOROUS REMOVAL
Phosphorus Transformation in a Rapid Infiltration Column,
W86-05139 1911 5D

PHOSPHORUS
Nitrogen and Phosphorus Speciation and Flux in a Large Florida River Wetland System,
W86-00080 1901 2H

Some Recent Adaptations and Applications of QUAL-II in the Northeast,
W86-00090 1901 5B

Phosphorus and Nitrogen Excretion by Lake Zooplankton (Rotifers and Crustaceans) in Relationship to Individual Body Weights of the Animals, Ambient Temperature and Presence or Absence of Food,
W86-00435 1902 2H

Relationship of Cellular Phosphorus in the Cyanobacterium Nodularia to Phosphorus Availability in the Peel-Harvey Estuarine System,
W86-00531 1902 2L

Nitrogen, Phosphorus, and Organic Carbon Cycling in an Arctic Lake,
W86-00611 1902 2H

Comparison of the Phosphorus-Chlorophyll Relationships in Mixed and Stratified Lakes,
W86-00614 1903 2H

Using Simulation to Assess the Impacts of Conservation Tillage on Movement of Sediment and Phosphorus into Lake Erie,
W86-00650 1903 4D

Movement of Septic Tank Effluent through Sandy Soils near Perth. II. Movement of Phosphorus,
W86-01035 1904 5B

Phosphorus, Nitrogen and Chlorophyll-a Concentrations in a Typical Dutch Polder Lake, Tjeukemeer, in Relation to its Water Regime Between 1968 and 1982,
W86-01196 1904 2H

Restoration of Lake Veluwe, The Netherlands, by Reduction of Phosphorus Loading and Flushing,
W86-01198 1904 5G

Dissolved Inorganic Phosphorus in Streams of the Indian Arid Zone,
W86-01292 1904 2J

Estimating the Extent of Reduction Needed to Statistically Demonstrate Reduced Non-Point Phosphorus Loading to Lake Erie,
W86-01343 1905 5G

Time-Dependent Solution of Multi-Segment Mass Balance Models of Contaminants in the Great Lakes,
W86-01350 1905 5B

Partitioning of Heavy Metals (Fe, Mn, Cd, Pb, Cu, Zn, Co, Ni and As) and P into Selective Chemical Fractions in Sediments from Lake Kojima (in Japanese),
W86-01362 1905 5B

Phosphorus Limitation of Lotic Periphyton Growth Rates: An Intersite Comparison Using Continuous-Flow Troughs (Thomas River System, British Columbia),
W86-01416 1905 2H

Factors Controlling Phosphorus Limitation in Stream Sediments,
W86-01417 1905 2H

Limitations of Phosphorus Water Quality Criteria,
W86-C1492 1905 5G

Responses of Phytoplankton in Lake Jacaretinga to Enrichment with Nitrogen and Phosphorus in Concentrations Similar to Those of the River Solimoes (Amazon, Brazil),
W86-01500 1905 2H

Simple Method to Estimate Lake Phosphorus Concentrations Resulting from Natural, Background, Loadings,
W86-01640 1905 2H

Estimating Algal Available Phosphorus in Suspended Sediments by Chemical Extraction,
W86-01714 1905 5A

Sorption of Carbon and Phosphorus from Liquid Poultry Manure by Soil Aggregates of Differing Size,
W86-01908 1905 5D

Evaluation of Nitrogen and Phosphorus Enrichment Using In Situ Enclosure Bags with Temporal Indigenous Phytoplankton Populations,
W86-02449 1907 2H

Sediment-Water Column Exchanges of Nutrients and Oxygen in the Tidal James and Appomattox Rivers,
W86-02660 1907 5B

Fate of Phosphorus in Secondarily Treated Wastewater Applied to a Freshwater Marsh,
W86-02720 1907 5E

Phosphorus Loading to McGrath and Ellis Ponds, Kennebeck County, Maine,
W86-02859 1907 5B

Estimated Water and Nutrient Inflows and Outflows, Lake Cochituate, Eastern Massachusetts,
W86-02904 1907 5B

Chemical and Physical Properties of Connecticut Lakes,
W86-03438 1909 2H

Large-Scale Operations Management Test of Use of the White Amur for Control of Problem Aquatic Plants, Report 2: First Year Poststocking Results,
W86-03454 1909 2H

Effect of Light Attenuation on the Relationship of Phytoplankton Biomass to Phosphorus Levels,
W86-03726 1909 2H

Mass-Balance Approach to the Understanding of Geochemical Processes in Aqueous Systems,
W86-03773 1909 5B

Erosion of Agricultural Land - A Growing Water Quality Problem in Rural Areas,
W86-03780 1909 5B

Role of Bottom Sediments in Modifying Soluble Phosphate Loads to a Dendritic, Hypertrophic Reservoir,
W86-03787 1909 2J

Treatment of Nutrient Deficient Wastewaters,
W86-04506 1910 5D

Declining Lake Sediment Phosphorus Release and Oxygen Deficit Following Wastewater Diversion,
W86-05025 1911 5C

Availability of Phosphorus and the Species Composition of the Spring Phytoplankton in Lake Erken,
W86-05156 1911 5C

Chemical and Microbiological Processes as Regulators of the Exchange of Substances between Sediments and Water in Shallow Eutrophic Lakes,
W86-05161 1911 5C

Phosphorus Deposition from the Epilimnion of Onondaga Lake,
W86-05280 1911 2H

Monitoring Effects of Catchment Management Practices on Phosphorus Loads into the Eutrophic Peel-Harvey Estuary, Western Australia,
W86-05357 1911 5B

Effect of Phosphorus Limitation Decree in Detergents on the Phosphorus Load in Municipal Wastewater- Comparison of Calculated and Measured Data,
W86-05820 1912 5G

Response of Pinus radiata Seedlings to Carbon Dioxide Enrichment at Different Levels of Water and Phosphorus: Growth, Morphology and Anatomy,
W86-06123 1912 2I

Rate and Pathways of Phosphorous Assimilation in the Nepean River at Camden, New South Wales,
W86-06149 1912 5B

PHOSPHORUS FLUX
Estimation of Phosphorus Flux in a Regulated Channel,
W86-00062 1901 5A

PHOSPHORUS LOADING
Description and Application of an Animal Waste Phosphorus Loading Model,
W86-01710 1905 5B

PHOSPHORUS RADIOISOTOPES
Phosphorus Spiralling in a Woodland Stream: Seasonal Variations,
W86-00830 1903 2H

PHOSPHORUS REMOVAL
Role of an Anaerobic Stage on Biological Phosphorus Removal,
W86-00738 1903 5D

Influence of Extended Anaerobic Retention Time on the Performance of Phoredox Nutrient Removal Plants,
W86-00739 1903 5D

Location of Phosphorus in Activated Sludge and Function of Intracellular Polyphosphates in Biological Phosphorus Removal Process,
W86-00740 1903 5D

Phosphorus Removal from Wastewater by the Crystallization Method,
W86-00741 1903 5D

Phosphate Removal by Crystallization in a Fluidized Bed,
W86-00742 1903 5D

Removal of Phosphate at Sewage Treatment Works and Implications on Phosphate Loadings into Lough Neagh,
W86-00834 1903 5D

Biological Removal of Phosphorus From Wastewater,
W86-00857 1903 5D

Influence of Nitrates on Biological Phosphorus Removal from Wastewater,
W86-01857 1905 5D

State-of-the-Art Summary of Phosphorus Inactivation as a Lake Restoration Technique,
W86-03486 1909 5G

Implementation of Sequencing Batch Reactors for Municipal Wastewater Treatment,
W86-03664 1909 5D

Alkalinity Feed Forward Control of Alum Addition in Wastewater Treatment,
W86-03666 1909 5D

Pollution Control: The Hidden Profit Centre,
W86-03671 1909 5D

Nutrient Removal Potential of Selected Aquatic Macrophytes,
W86-04262 1910 5G

Assessing Phosphorus Control in the James River Basin,
W86-04640 1910 5G

Detergent Phosphate Bans and Eutrophication,
W86-04719 1911 5G

Phosphorus Removal at the Lower Molongo Water Quality Control Centre,
W86-05081 1911 5D

Rate and Pathways of Phosphorous Assimilation in the Nepean River at Camden, New South Wales,
W86-06149 1912 5B

PHOSPHOUS
Phosphorus Forms and Content in Natural Water and Factors Determining its Cycling,
W86-01811 1905 2K

PHOTOCATALYSIS
Contaminant Degradation in Water,
W86-00660 1903 5F

PHOTOCHEMICAL DEGRADATION
Photochemical and Microbial Degradation of 2,4,5-Trichloroaniline in a Freshwater Lake,
W86-05392 1911 5B

PHOTOCHEMISTRY
Photochemical Behavior of Chlorsulfuron in Water and in Adsorbed Phase,
W86-01849 1905 5B

Ring Test of a Method for Assessing the Phototransformation of Chemicals in Water,
W86-01850 1905 5B

PHOTOGRAMMETRY
Photogrammetric Techniques for Monitoring Soil Erosion,
W86-00342 1902 2J

Photogrammetry of Thunderstorms,
W86-02006 1906 7B

PHOTOGRAPHY
Photogrammetric Techniques for Monitoring Soil Erosion,
W86-00342 1902 2J

PHOTOLYSIS
Products and Quantum Yields for Photolysis of Chloroaromatics in Water,
W86-04433 1910 5B

Singlet Oxygen in Surface Waters. 3. Photochemical Formation and Steady-State Concentrations in Various Types of Waters,
W86-04720 1911 2K

PHOTOMETRY
Photometric Determination of Boron in Ground- and Surface Water (Photometrische Bestimmung von Bor Im Grund- und Oberflachenwasser),
W86-04707 1911 5A

PHOTOOXIDATION
Sunlight Photooxidation of Organic Pollutants in Wastewater,
W86-01187 1904 5D

PHOTOSYNTHESIS
Photosynthesis and Primary Production of Microcystis aeruginosa Kutz. in Lake Kasumigaura,
W86-00518 1902 2H

Photosynthetic Activity of Dominant Algal Species in Eutrophic Shallow Lake (Grosser Muggelsee, Berlin) Investigated by Microautoradiography,
W86-01131 1904 2H

Simple, Community Level, Ecotoxicological Test System Using Samples of Periphyton,
W86-01507 1905 5A

Estimating Phytoplankton Biomass and Productivity,
W86-03303 1908 2H

DCMU-Enhanced Chlorophyll Fluorescence as an Indication of the Physiological Status of Reservoir Phytoplankton: An Initial Evaluation,
W86-03721 1909 2H

Device for the Continuous Measurement of Algal Photosynthetic Response to Light,
W86-04583 1910 5C

Response of Photosynthetic Parameters to Environmental Factors in Siggeforasjon, Sweden,
W86-04647 1910 5C

Effects of O3 and Acidic Rain on Photosynthesis and Growth in Sugar Maple and Northern Red Oak Seedlings,
W86-04660 1910 5C

Photosynthetic Production of a Brackish Water Community of Chara Tomentosa L. and Its Dependence on Environmental Conditions,
W86-05151 1911 2C

Environmental Effects on Specific Rate of Photosynthesis in Small Fertilized Lakes (Northwest of the USSR),
W86-05155 1911 5C

Comparison of Carbon-Specific Growth Rates and Rates of Cellular Increase of Phytoplankton in Large Limnetic Enclosures,
W86-05178 1911 2H

Kinetic Model of Algal Growth Incorporating Intracellular Carbohydrate and Phosphorus Pools,
W86-05583 1912 2H

Automatic Method for On-Line Estimation of the Photosynthetic Rate in Open Algal Ponds,
W86-06104 1912 2H

PHREATIC SURFACE
Improved Formulas for a Dam Phreatic Surface with accretion,
W86-04546 1910 2F

PHREATOPHYTES
Salinity Balance of the Lower Virgin River Basin, Nevada and Arizona,
W86-02277 1906 5B

Water Relations of High-Elevation Salix Phreatophytes in Wyoming,
W86-02604 1907 2D

Water Relations and Growth Characteristics of Prosopis Glandulosa Var. Torreyana in a Simulated Phreatophytic Environment,
W86-06147 1912 2I

PHTHALATES
Fate of Di-2-(ethylhexyl)phthalate in Three Sludge-Amended New Mexico Soils,
W86-04413 1910 5B

Environmental Fate and Aquatic Toxicology Studies on Phthalate Esters,
W86-04765 1911 5C

PHYSICAL CHEMISTRY
Improved Rotating Cylinder Technique for Quantitative Measurements of the Scour Resistance of Clays,
W86-04338 1910 7B

PHYSICAL MODELING
Physical Modeling of Reservoir Hydrodynamics,
W86-05806 1912 2A

PHYSICAL PROPERTIES
Concrete Performance at Pueblo Dam, Colorado: Initial Core Report,
W86-00380 1902 8F

Concrete Performance in Morrow Point Dam: 10-year Core Report,
W86-00384 1902 8F

Concrete Performance in Crystal Dam, Colorado: 1-Year Core Report,
W86-00385 1902 8F

Conductance: A Collective Measure of Dissolved Ions,
W86-02261 1906 1B

Theory and Measurement of Turbidity and Residue,
W86-02262 1906 2K

Deducing the Microphysical Character of Precipitation from Multiple-Parameter Radar Polarization Measurements,
W86-04625 1910 2B

Field and Laboratory Studies on Nile Phytoplankton in Egypt. I. Some Physical and Chemical Characteristics,
W86-05173 1911 2H

Some Recent Developments in the Characterization of Estuarine Particulates,
W86-05360 1911 5A

PHYSICO-CHEMICAL STRESS
Impact of Physio-Chemical Stress on the Toxigenicity of Vibrio Cholerae,
W86-05105 1911 5B

PHYSICOCHEMICAL CHARACTERISTICS
Chemical and Physical Characteristics of Some Wetland Waters of Kashmir,
W86-00405 1902 2H

Studies of Water Pollution of the River Cauvery - Physico-Chemical Characteristics,
W86-00657 1903 5B

Anomalies Arising from Arbitrary Measures of the Strength of Sewage,
W86-00814 1903 5D

Chemical-Physical Changes Associated With Environmental Gradients in the Oka River Basin,
W86-00916 1903 2H

Limnological Investigation of the Rivers Uracoa, Yabo, Morichal Largo and Claro in the Eastern Plains of Venezuela,
W86-00928 1904 2H

River Typology of Sao Paulo State, Brazil,
W86-00929 1904 2H

Some Physical and Chemical Properties of Water from an Undisturbed Tropical Catchment Area (Guma Dam, Sierra Leone),
W86-01134 1904 2H

Factor Interaction Influencing the Distribution of the Freshwater 'Shrimp' Gammarus,
W86-01162 1904 2H

Microbial Assay for Determining the Influence of Physicochemical Environmental Factors on the Toxicity of Organics: Phenol,
W86-01407 1905 5C

Deciphering Hydrological Systems by Means of Geochemical Processes,
W86-01448 1905 2F

PHYSICOCHEMICAL PROPERTIES
Influence of the Fish Clarias batrachus on the Physicochemical Properties of Water under Laboratory Conditions,
W86-00401 1902 2H

Impact of the Silver Carp (Hypophthalmichthys molitrix Val.) on the Ecosystem of Carp Ponds,
W86-00439 1902 5B

Compositional and Structural Analysis of Phytoplankton in Lake Khurpatal, (U.P.), India,
W86-01133 1904 2H

Physicochemistry of the Upper Gila River Watershed: II. Influence of Precipitation Runoff and Flood Events on the San Francisco River,
W86-01358 1905 2K

Simulation of Physicochemical Interactions in a Water-Rock System in Assessing Ground-Water Quality,
W86-03759 1909 2K

Physico-Chemical Characteristics of Surface Waters and Hydrological Behavior of a Small Granitic Basin (Vosges Massif, France): Annual and Daily Variations,
W86-03775 1909 5B

Thermal and Oxygen Conditions and the Chemical Composition of the Water in the Great Masurian Lakes,
W86-05194 1911 5C

PHYSICOCHEMICAL TREATMENT
Advantages of Dissolved-Air Flotation for Water Treatment,
W86-00005 1901 5F

Physicochemical Treatment Methods for Oil Shale Wastewater: Evaluation as Aids to Biooxidation,
W86-01982 1906 5D

Treatment of Industrial Wastewaters,
W86-04511 1910 5D

PHYSIOGRAPHY
Brahmaputra River, Assam, India: Physiography, Basin Denudation, and Channel Aggradation,
W86-01768 1905 2J

PHYSIOLOGICAL ECOLOGY
Physiological Responses to Pollution,
W86-00597 1902 5C

Ecological Zoogeography of Palaemonetes antennarius (Crustacea, Decapoda),
W86-04650 1910 2H

PHYSIOLOGICAL ECOLOGY

Effects of Acid Exposure on the Ion Regulation and Seawater Adaptation of Coho Salmon (Oncorhynchus kisutch) Parrs and Smolts,
W86-05061 1911 5C

PHYTOPLANKTON

Seasonal Succession of Phytoplankton in Lake Constance,
W86-00051 1901 2H

Phytoplankton-Environmental Interactions in Reservoirs, Volume II: Discussion of Workshop Papers and Open Literature,
W86-00206 1901 2H

Biomass and Structure of Phytoplankton in Konin Lakes in the Years 1976-1980,
W86-00438 1902 5C

Effects of Metal Speciation on Growth of Phytoplankton with Special Reference to Iron,
W86-00455 1902 5C

Phytoplankton of the La Trobe River, Victoria,
W86-00523 1902 2H

Whole-Lake Fertilization Experiments in Coastal British Columbia Lakes: Empirical Relationships Between Nutrient Inputs and Phytoplankton Biomass and Production,
W86-00603 1902 5C

Effects of Treated Sewage Effluent and Bay-Bottom Mud on Growth of Marine Phytoplankton,
W86-00616 1903 5C

Checklist of Phytoplankton (Exclusive of Diatoms) in Kentucky Reservoir,
W86-00631 1903 2H

Relations Between Phytoplankton and Environmental Factors in a Small, Spring-Meromictic Lake in Southern Finland,
W86-00672 1903 2H

Seasonal Cycles of Phytoplankton Populations and Total Chlorophyll of the Lower St. Johns River Estuary, Florida,
W86-00900 1903 2L

Limnological Investigation of the Rivers Uracoa, Yabo, Morichal Largo and Claro in the Eastern Plains of Venezuela,
W86-00928 1904 2H

Comparison of Planktonic and Periphytic Microalgal Parameters as Indicators of Eutrophication in a Baltic Archipelago: Annual Succession of Community Parameters,
W86-00931 1904 7B

Phytoplankton Dynamics in a Hypertrophic Brackish-Water Bay,
W86-00932 1904 5C

Mine Waste Discharge Rich in Copper - An Example of Effects on Planktonic Communities,
W86-00959 1904 5C

Effects of 2,4-D on Natural Phytoplankton Systems in Association with Myriophyllum spicatum,
W86-00965 1904 5C

Some Aspects on Algal Toxicity Tests with Natural Phytoplankton,
W86-00969 1904 5A

Effects of Power Plant Entrainment on Phytoplankton Response,
W86-00973 1904 5C

Effects of Wind, Phytoplankton and Density Discontinuities upon Ammonia Distributions in Liverpool Bay,
W86-01120 1904 2L

Hydrology and Changes in the Nutrients and Phytoplankton Levels in Goat Island Bay, Northern New Zealand,
W86-01127 1904 2L

Experimental Studies on the Susceptibility of Freshwater Phytoplankton to Variation of Salinity in the Fjord of Saguenay (St. Lawrence Estuary), Canada (Etudes experimentalles sur la sensibilite du phytoplancton d'eau douce aux variations de salinite dans le fjord du Saguenay (Estuaire du St-Laurent), Canada),
W86-01128 1904 2L

Effects of Entrainment on Phytoplankton Primary Production at Four Thermal Electric Generating Stations on the Laurentian Great Lakes,
W86-01132 1904 5C

Compositional and Structural Analysis of Phytoplankton in Lake Khurpatal, (U.P.), India,
W86-01133 1904 2H

Effect of Biotic and Abiotic Factors on the Occurrence of Planktonic Rotifers (Rotatoria) in the Plawniowice Duze Reservoir (Upper Silesia, Poland),
W86-01321 1905 2H

Phytoplankton Distribution in Saginaw Bay,
W86-01345 1905 2H

Nitrogenous Nutrient Uptake, Primary Production, and Species Composition of Phytoplankton in the Carmans River Estuary, Long Island, New York,
W86-01415 1905 2L

Responses of Phytoplankton in Lake Jacaretinga to Enrichment with Nitrogen and Phosphorus in Concentrations Similar to Those of the River Solimoes (Amazon, Brazil),
W86-01500 1905 2H

Phytoplankton and Nutrient Dynamics in Saline Lake Grevelingen (SW Netherlands) under Different Hydrodynamical Conditions in 1978-1980,
W86-01568 1905 6G

Phytoplankton Primary Production in Brackish Lake Grevelingen (SW Netherlands) During 1976-1981,
W86-01570 1905 2H

Investigations of the Ecology of Planktonic Algae of Water Bodies in the Baikal Region,
W86-01824 1905 2H

Molybdenum Availability, Nitrogen Limitation, and Phytoplankton Growth in Natural Waters,
W86-01863 1905 2H

Nutrient Demand and Availability among Planktonic Communities - An Attempt to Assess Nutrient Limitation to Plant Growth in 12 Central Volcanic Plateau Lakes,
W86-01911 1905 2H

Impact of Point and Non-Point Nutrient Enrichment on the Dynamics of Natural Phytoplankton,
W86-02488 1907 5C

Water-Quality Characteristics of Abha Reservoir, Abha, Saudi Arabia,
W86-02820 1907 5B

Primary Productivity in the Potomac Tidal River, Maryland, May 1980 to August 1981,
W86-03000 1908 5B

Estimating Phytoplankton Biomass and Productivity,
W86-03303 1908 2H

Common Plankton of Twin Lakes, Colorado,
W86-03337 1908 6G

Phytoplankton-Environmental Interactions in Reservoirs: Volume 1.
W86-03716 1909 2H

Phytoplankton-Nutrient Kinetics Mechanisms in Mathematical Simulation Models, with Special Attention to Reservoirs and Impoundments,
W86-03717 1909 2H

Modeling Combined Effects of Environmental Factors on Phytoplankton,
W86-03718 1909 2H

Use and Interpretation of Detailed, Mechanistic Models of Phytoplankton Dynamics,
W86-03719 1909 2H

Nitrogen Fixation and Phytoplankton Interactions in Southwestern Reservoirs,
W86-03720 1909 2H

DCMU-Enhanced Chlorophyll Fluorescence as an Indication of the Physiological Status of Reservoir Phytoplankton: An Initial Evaluation,
W86-03721 1909 2H

Use of Bioassay Approaches for Assessing Phytoplankton Growth in Lakes and Reservoirs,
W86-03723 1909 5C

Relationship of Common Dominant Phytoplankton to Water Temperature and Season,
W86-03724 1909 2H

Relationship of Common Phytoplankton Genera to Nutrients in Eastern and Southeastern Lakes,
W86-03725 1909 2H

Effect of Light Attenuation on the Relationship of Phytoplankton Biomass to Phosphorus Levels,
W86-03726 1909 2H

From Phytoplankton to Detritus and Bacteria: Effects of Short-Term Nutrient and Fish Perturbations in a Eutrophic Lake,
W86-04180 1910 5C

Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 1. Dynamics of Production and Population of the Phytoplankton in Dependence on Nutrients (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 1. Productions- und Populationsdynamik des Phytoplanktons in Abhangigkeit vom Nahrstoffangebot),
W86-04183 1910 5C

Uptake of Inorganic Carbon and Nitrogen by Phytoplankton During the Winter Mixing Period in a Freshwater Lake, Lake Nakanuma, Japan,
W86-04185 1910 2H

Clearance Rates of Crustacean Macrofiltrators: The Nature of in situ Rate Depressions in a Fertilized Oligotrophic Lake in the Kuokkel Area, Northern Sweden,
W86-05154 1911 5C

Environmental Effects on Specific Rate of Photosynthesis in Small Fertilized Lakes (Northwest of the USSR),
W86-05155 1911 5C

Availability of Phosphorus and the Species Composition of the Spring Phytoplankton in Lake Erken,
W86-05156 1911 5C

Primary Production and Effects of Enrichment with Nitrate and Phosphate on Phytoplankton in the Barra Bonita Reservoir (State of Sao Paulo, Brazil),
W86-05157 1911 5C

Analysis of the Biotic Community in a Kumaun Himalayan Lake, Nainital (U.P.), India,
W86-05159 1911 5C

Influence of Copper in Various Forms on Natural Phytoplanktonic Populations from the Saguenay River, Quebec, Canada. (Influence de la Speciation du Cuivre sur les Populations Phytoplanctoniques Naturelles de la Riviere du Saguenay, Quebec, Canada.),
W86-05162 1911 5C

Fatty Acids in Lipids from Particulate Organic Matter in a Eutrophic Lake, Lake Nakanuma, Japan,
W86-05171 1911 5C

Field and Laboratory Studies on Nile Phytoplankton in Egypt. I. Some Physical and Chemical Characteristics,
W86-05173 1911 2H

Compatibility of Carbon Uptake Rates Calculated from Stable and Radioactive Isotope Data: Implications for the Design of Experimental Protocols in Aquatic Primary Productivity,
W86-05174 1911 2H

In Situ Pulse Light Fluorometer for Chlorophyll Determination as a Monitor for Vertical and Horizontal Phytoplankton Distribution in Lakes,
W86-05175 1911 2H

14C-Labelling Patterns of Phytoplankton: Specific Activity of Different Product Pools,
W86-05176 1911 5A

Phytoplankton Productivity in Turbid Waters,
W86-05177 1911 5C

Comparison of Carbon-Specific Growth Rates and Rates of Cellular Increase of Phytoplankton in Large Limnetic Enclosures,
W86-05178 1911 2H

Seasonal Fluctuations in the Biomass and Metabolic Activity of Bacterioplankton and Phytoplankton in a Well-Mixed Estuary: the Ems-Dollard (Wadden Sea),
W86-05181 1911 2L

Regulation of Bacterial Secondary Production in Two Eutrophic Lakes and in Experimental Enclosures,
W86-05186 1911 5C

Effects of Atrazine and 2,4-Dichlorophenoxyacetic Acid to the Population Density of Phyto- and Zooplankton in an Aquatic Outdoor System,
W86-05825 1912 5C

Extracellular Organic Carbon (EOC) Released by Phytoplankton and Bacterial Production,
W86-06141 1912 2H

Impact on Phytoplankton Populations of Sewage Discharges in the Saronikos Gulf (West Aegean),
W86-06152 1912 5C

PHYTOTOXICITY
Some Aspects on Algal Toxicity Tests with Natural Phytoplankton,
W86-00969 1904 5A

Simple, Community Level, Ecotoxicological Test System Using Samples of Periphyton,
W86-01507 1905 5A

Inhibition of Growth of Freshwater Microalgae by Long-Chained Aliphatic Amines Employed in Solvent Extraction Processes,
W86-01893 1905 5C

Extracellular Metabolite Involvement in Plankton Community Structure,
W86-03491 1909 2H

Effect of River Water on Phytotoxicity of Ba, Cd and Cr,
W86-05101 1911 5C

PICEA
Canopy Transpiration and Water Fluxes in the Xylem of the Trunk of Larix and Picea Trees - a Comparison of Xylem Flow, Porometer and Cuvette Measurements,
W86-01601 1905 2I

PICEANCE BASIN
Harmonic Analyses of Stream Temperatures in the Upper Colorado River Basin,
W86-02917 1907 7

PICEANCE CREEK BASIN
Water-Quality Characteristics of Streams in the Piceance Creek and Yellow Creek Drainage Basins, Northwestern Colorado,
W86-02767 1907 5B

PICLORAM
Acute and Chronic Toxicity of Technical Picloram (4-amino-3,5,6-trichloropicolinic acid) to Daphnia magna Straus,
W86-00731 1903 5C

PIEDMONT REGION
Inventorying Ground Water in Crystalline Rocks of Piedmont Region,
W86-01104 1904 2F

PIEDRA DEL AGUILA
Modelling Vibration and Vortex Formation at Piedra del Aguila,
W86-00800 1903 8B

PIERS
Effect of Pier Spacing on Scour Around Bridge Piers,
W86-01095 1904 8B

PIEZOMETERS
Results of Geohydrologic Test Drilling in the Eastern Snake River Plain, Gooding County, Idaho,
W86-0[illegible]6 1907 2F

Groundwater Quality Evolution in the Upper Aquifer of the Coastal Dune Area of the Western Netherlands,
W86-03761 1909 2F

PIEZOMETRIC HEAD
Two Algorithms For Parameter Estimation in Groundwater Flow Problems,
W86-00044 1901 2F

Low-Cost System to Remotely Measure Piezometric Head,
W86-04214 1910 2E

PIKE
Impact of Pulp and Paper Mill Effluent on Egg Hatchability of Pike (Esox lucius L.),
W86-04963 1911 5C

PIKE COUNTY
Chemical Study of the Shohola Creek Headwaters, Pike County, Pennsylvania,
W86-00636 1903 5B

PIKE-PERCH
Natural Occurrence of Pike-Perch (Stizostedion lucioperca (L.)) and Success of Introductions in Relation to Water Quality and Lake Area in Finland,
W86-00678 1903 2H

PILOT PLANTS
Polysar Biological Oxidation Treatment Plant,
W86-03660 1909 5D

Pilot Studies Indicate Composting Choices,
W86-04299 1910 5E

Hydrogen as a Process Control Index in a Pilot Scale Anaerobic Digester,
W86-04345 1910 5D

Method for Evaluation and Procurement of In-Vessel Composting Systems,
W86-04741 1911 5D

Field Evaluation of Arsenic and Selenium Removal by Iron Coprecipitation,
W86-05015 1911 5D

Treatment Methods to be Studied at Demonstration Plant,
W86-06045 1912 5F

Study of Nitrogen Reduction,
W86-06057 1912 5D

PINE BARRENS
Biogeochemistry of Lead in McDonalds Branch Watershed, New Jersey Pine Barrens,
W86-01703 1905 5B

Biogeochemistry of Aluminum in McDonalds Branch Watershed, New Jersey Pine Barrens,

PCB Accumulation in Southern Lake Michigan Sediments: Evaluation from Core Analysis,
W86-02024 1906 5A

PCBs in Sediment and Fluvial Suspended Solids in the Great Lakes,
W86-02025 1906 5B

Estimating Bioconcentration Potential from Octanol/Water Partition Coefficients,
W86-02026 1906 5A

Steady State Modeling of Toxic Chemicals-Theory and Application to PCBs in the Great Lakes and Saginaw Bay,
W86-02027 1906 5B

Model Simulation of PCB Dynamics in Lake Michigan,
W86-02028 1906 5A

Dynamic Mass Balance of PCB and Suspended Solids in Saginaw Bay -- A Case Study,
W86-02029 1906 5B

Monitoring of PCBs in Water, Sediments and Biota of the Great Lakes - Some Recent Examples,
W86-02030 1906 5A

Volatilization of PCB from Sediment and Water: Experimental and Field Data,
W86-02031 1906 5B

Application of a Sediment Dynamics Model for Estimation of Vertical Burial Rates of PCBs in Southern Lake Michigan,
W86-02032 1906 5B

PCB's: Human and Environmental Hazards,
W86-02248 1906 5B

PCB Problem: An Overview,
W86-02249 1906 5B

Overview of the Scientific Basis for Concern with Polychlorinated Biphenyls in the Great Lakes,
W86-02250 1906 5B

PCBs in the Great Lakes: Sources, Sinks, Burdens,
W86-02251 1906 5B

Environmentalist's View of the PCBs in the Great Lakes,
W86-02252 1906 5B

Edible Tissue Sampling for Fish Contaminant Analysis,
W86-02253 1906 5B

Analysis of PCBs Using Specific Isomer High Resolution Capillary Gas Chromatography,
W86-02254 1906 5A

Biotransformation and Persistence of Polychlorinated Biphenyls (PCBs) in Fish,
W86-02255 1906 5B

Economic Impacts of PCB Regulation in Food Fish,
W86-02256 1906 5C

Distribution of Polychlorinated Biphenyls in the Housatonic River and Adjacent Aquifer, Massachusetts,
W86-03093 1908 5B

Polychlorinated Biphenyls (PCBs),
W86-03446 1909 5G

Eco-Kinetic Model for the Accumulation of PCB in Marine Fishes,
W86-03475 1909 5B

Polychlorinated Biphenyls (PCBs) in Common Carp (Cyprinus carpio) of the Upper Mississippi River,
W86-03746 1909 5B

Polychlorinated Biphenyls and Organochlorine Insecticides in Great Blue Heron and Great Egret Eggs from the Upper Mississippi River,
W86-03747 1909 5B

Lead and Cadmium in Precipitation in the Essex Region of Southwestern Ontario,
W86-03772 1909 5B

Analysis of Polychlorinated Biphenyls by Glass Capillary and Packed-Column Chromatography,
W86-03802 1909 5A

High-Resolution Gas Chromatography and Negative Ion Chemical Ionization Mass Spectrometry of Polychlorinated Biphenyls,
W86-03803 1909 5A

Accumulation of Sediment-Bound PCBS by Fiddler Crabs,
W86-04365 1910 5B

Diffusion and Partitioning of Hexachlorobiphenyl in Sediments,
W86-04424 1910 5B

PCBs Have Declined More than DDT-Group Residues in Arctic Ringed Seals (Phoca hispida) between 1972 and 1981,
W86-04440 1910 5B

Interlaboratory Study on Determination of Polychlorinated Biphenyls in Environmentally Contaminated Sediments,
W86-04449 1910 5A

Mass Spectrometric Determination of Polychlorinated Biphenyls as Isomer Groups,
W86-04450 1910 5A

Biogeochemistry of PCBs in Interstitial Waters of a Coastal Marine Sediment,
W86-05292 1911 5B

Bioassay System for Industrial Chemical Effects on the Waste Treatment Process: PCB Interactions,
W86-05312 1911 5D

Egg Mortality of Lake Geneva Charr (Salvelinus Alpinus L.) Contaminated by PCB and DDT Derivatives,
W86-06070 1912 5C

POLYCHLORINATED BIPHENYLS. *PLANT TISSUES

Assessment of Heavy Metals and PCB's at Selected Sludge Application Sites in Ontario,
W86-00102 1901 5A

POLYCHLORINATED DIBENZO-P-DIOXINS

Historical Record of Polychlorinated Dioxins and Furans in Lake Huron Sediments,
W86-02241 1906 5A

POLYCYCLIC AROMATIC HYDROCARBONS

Degradation and Mineralization of the Polycyclic Aromatic Hydrocarbons Anthracene and Naphthalene in Intertidal Marine Sediments,
W86-01481 1905 5B

Distribution of Polycyclic Aromatic Hydrocarbons in the Surficial Sediments of Penobscot Bay (Maine, USA) in Relation to Possible Sources and to Other Sites Worldwide,
W86-01795 1905 5B

Activation of Polycyclic Aromatic Hydrocarbons by Hepatic S-9 from a Marine Fish,
W86-01896 1905 5C

Determination of Polycyclic Aromatic Hydrocarbons in Industrial Discharges and Other Aqueous Effluents,
W86-03506 1909 5A

Biological Half-Lives of Eight Polycyclic Aromatic Hydrocarbons (PAHs) in Rainbow Trout (Salmo gairdneri),
W86-04582 1910 5C

POLYELECTROLYTES

Conditioning of Anaerobically Digested Sludge,
W86-01728 1905 5E

Effects of Synthetic Polyelectrolytes on Selected Aquatic Organisms,
W86-05050 1911 5C

POLYHUMIC LAKES

Statistical Model for Conversion of Absorbance Measurements with Significant Iron Interference into Organic Carbon in a Polyhumic Lake,
W86-00676 1903 5A

Water Quality Model for Lake Kuortaneenjarvi, a Polyhumic Finnish Lake,
W86-00677 1903 2H

POLYMERIC ADSORBENTS

Kraft Wastewater Cleaning with Polymeric Adsorbents,
W86-05875 1912 5D

POLYMERIC ALUMINUM HYDROXIDE

Combined Use of Calcium Salts and Polymeric Aluminium Hydroxide for Defluoridation of Waste Waters,
W86-04573 1910 5D

POLYMERIC MEMBRANES

Industrial Water Reuse with Coupled-Transport Membranes,
W86-02425 1907 5D

POLYMERS

Standard Number 54: Flexible Membrane Liners.
W86-00320 1902 8G

Capacity of Macroporous Adsorber Polymers in the Elimination of Organic Microcontaminants (Zum Leistungsvermogen Makroporoser Adsorberpolymere bei der Elimination Organischer Mikroverunreinigungen),
W86-00409 1902 5F

Case History - Optimization of Dissolved Air Flotation Sludge Thickener Reduces Sludge Treatment Costs by Eliminating Additional Dewatering Process,
W86-02113 1906 5D

Optimum Treatment for Coal Pile Runoff in Louisiana,
W86-02549 1907 5D

Insoluble Polymeric Contact Disinfectants: An Alternative Approach to Water Disinfection,
W86-03543 1909 5F

Selecting Polymeric Flocculants for Water Treatment,
W86-05876 1912 5F

POLYNUCLEAR AROMATIC HYDROCARBONS
Evidence for Polynuclear Aromatic Hydrocarbons in the Diet of Bottom-Feeding Fish,
W86-00694 1903 5B

Occurrence of Chlorinated Polynuclear Aromatic Hydrocarbons in Tap Water,
W86-00895 1903 5B

Carbonized Coal Products as a Source of Aromatic Hydrocarbons to Sediments from a Highly Industrialized Estuary,
W86-00896 1903 5B

Effects of Dissolved Organic Matter on the Aqueous Partitioning of Polynuclear Aromatic Hydrocarbons,
W86-01119 1904 5B

POLYNUCLEAR HYDROCARBONS
Effect of Polynuclear Hydrocarbons on Algal Nitrogen Fixation (Acetylene Reduction),
W86-01285 1904 5C

POLYPHOSPHATES
Location of Phosphorus in Activated Sludge and Function of Intracellular Polyphosphates in Biological Phosphorus Removal Process,
W86-00740 1903 5D

POLYVINYL CHLORIDE PIPE
Water is the Key to Municipal Growth,
W86-04734 1911 6D

POMME DE TERRE RIVER
Appraisal of the Surficial Aquifers in the Pomme De Terre and Chippewa River Valleys, Western Minnesota,
W86-02357 1906 2F

PONDEROSA PINES
Effects of Ponderosa Pine Treatments on Water Yield in Arizona,
W86-04161 1910 4C

PONDING
Infiltration Under Ponded Conditions: 1. Optimal Analytical Solution and Comparison with Experimental Observations,
W86-00049 1901 2G

Simulated Solute Movement in Wastewater-Ponded Soil,
W86-00699 1903 5D

Prediction of Steady-State Ponded Infiltration Distributions in a Soil With Vertical Macropores,
W86-01661 1905 2G

PONDS
Locations and Areas of Ponds and Carolina Bays at the Savannah River Plant,
W86-00263 1901 2H

Ponds and Lagoons of Horn and Petit Bois Islands, Mississippi, Gulf Islands National Seashore: Their Physical Size, Literature Review and Recommendations for Future Research,
W86-00278 1901 2H

Distribution and Rate of Disappearance of Fluorene in Pond Ecosystems,
W86-00391 1902 5B

Effects of Annual Draining on Water Quality and Production of Channel Catfish in Ponds,
W86-01322 1905 8I

Nutrient Enrichment of Estuarine Submersed Vascular Plant Communities. 1. Algal Growth and Effects on Production of Plants and Associated Communities,
W86-01351 1905 2L

Distribution and Characteristics of Carboxypeptidase Activity in Pond, River, and Seawaters, in the Vicinity of Tokyo,
W86-01418 1905 2H

Fate of the Pyrethroid Insecticide Deltamethrin in Small Ponds: A Mass Balance Study,
W86-01526 1905 5B

Spy Pond Diagnostic-Feasibility Study: Recommendations for Restoring a Lake Impacted by Urban Stormwater Runoff,
W86-01550 1905 2H

Source Movement and Effects of Nitrogen and Phosphorus in the Headwaters of Hop Brook, Marlborough, Massachusetts,
W86-02343 1906 5B

Aquaculture in Dredged Material Containment Areas: Proceedings,
W86-03704 1909 2H

Site Description of Dredged Material Containment Areas: An Overview of Physical, Chemical, Biological Features,
W86-03705 1909 2H

Review of Species Suitable for Containment Site Culture (Fresh Water),
W86-03706 1909 2H

Pond Management: Polyculture vs. Monoculture,
W86-03707 1909 2H

Pond Management: Water Quality Criteria and Control,
W86-03708 1909 5G

Health and Disease Control for Aquatic Animals in Dredged Material Containment Sites,
W86-03709 1909 5C

Pond Design and Management for Coastal Aquaculture,
W86-03710 1909 2H

Mariculture in Old Rice Field Impoundments: An Analogy for Dredged Material Containment Areas,
W86-03711 1909 2L

Selection Criteria and Procedures for Establishing Mariculture Facilities in Existing Containment Sites,
W86-03712 1909 5C

Design Criteria for Aquaculture Ponds on Dredged Material,
W86-03713 1909 8I

Aquaculture and Dredged Material Containment Sites: Significance of Contaminated Sediments,
W86-03714 1909 5B

Legal Environment of a Containment Site: Laws Governing the Acquisition, Maintenance, and Operation of Dredged Material Disposal Sites,
W86-03715 1909 6E

Self-Sealing of Earthen Liquid Manure Storage Ponds: I. A Case Study,
W86-04417 1910 5B

Self-Sealing of Earthen Liquid Manure Storage Ponds: II. Rate and Mechanism of Sealing,
W86-04418 1910 5B

Chemical and Biological Changes in Model Ponds Supplied with Post-Waste Water: III. Plankton, Periphyton, Benthos,
W86-05196 1911 5D

Enteric Luminous Microflora of the Pond-Cultured Milk Fish Chanos chanos (Forskal),
W86-05204 1911 2H

Persistence and Mutagenic Potential of Herbicide-derived Aniline Residues in Pond Water,
W86-05851 1912 5B

PONORS
Specific Hydrometry of Karst Regions,
W86-04812 1911 2F

POORVOO
Phytoplankton Dynamics in a Hypertrophic Brackish-Water Bay,
W86-00932 1904 5C

POPLAR TREES
Growth Response of Yellow-Poplar (Liriodendron tulipifera L.) Seedlings to Ozone, Sulfur Dioxide, and Simulated Acidic Precipitation, Alone and in Combination,
W86-01876 1905 5C

POPULATION DYNAMICS
Present and Prospective Use of Water by the Manufacturing Industries of New Jersey,
W86-00175 1901 6D

Checklist of Phytoplankton (Exclusive of Diatoms) in Kentucky Reservoir,
W86-00631 1903 2H

Long-Term Variation of Macrobenthos in a Mesohaline Region of Chesapeake Bay,
W86-01330 1905 2L

Population Dynamics of the Devils Hole Pupfish,
W86-01364 1905 2H

Long-Term Evolution of the Meiofauna at a Sandy Station in Lake Grevelingen, The Netherlands,
W86-01576 1905 2H

Density, Growth and Annual Food Consumption of Plaice (Pleuronectes platessa L.) and Flounder (Platichthys felsus (L.)) in Lake Grevelingen, The Netherlands,
W86-01577 1905 2H

Estimating the Population Dynamics of Coho Salmon (Oncorhynchus kisutch) Using Pooled Time-Series and Cross-Sectional Data,
W86-01585 1905 2H

Population and Reproductive Dynamics of Nais communis (Oligochaeta: Naididae) from a Wisconsin Limnocrene,
W86-01879 1905 2H

Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 1. Dynamics of Production and Population of the Phytoplankton in Dependence on Nutrients (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 1. Productions- und Populationsdynamik des Phytoplanktons in Abhangigkeit vom Nahrstoffangebot),
W86-04183 1910 5C

Studies on the Population Dynamics of Gammarus tigrinus SEXTON (Crustacea: Amphipoda) in the River Weser near Bremen(Untersuchungen zur Populationsdyna-

mik von Gammarus tigrinus SEXTON (Crustacea: Amphipoda) in der Weser bei Bremen),
W86-04186 1910 5C

Energy Flow in the Populations of Eudiaptomus graciloides and Daphnia galeata in Lake Esrom,
W86-04189 1910 5C

Municipal and Industrial Water Supply in Ciudad Juarez, Mexico,
W86-04535 1910 6D

Seasonal Dynamics of Skistodiaptomus pallidus Herrick and Other Zooplankton Populations in Deer Lake, S. W. British Columbia,
W86-05180 1911 2H

Predator Species Richness and Prey Population Variability: Effects on Diets of Benthic Stream Fishes,
W86-05932 1912 2H

POPULATION EXPOSURE
Toxicology of Selenium in a Freshwater Reservoir: Implications for Environmental Hazard Evaluation and Safety,
W86-04358 1910 5C

PORE PRESSURE
Comparison of Soil Moisture Characteristics Predicted by the Arya-Paris Model with Laboratory-Measured Data,
W86-03636 1909 2G

PORE SIZE
Characterization of Pore Size Distributions Within Soils by Mercury Intrusion and Water-Release Methods,
W86-01420 1905 2G

Moisture Curve of Compacted Clay; Mercury Intrusion Method,
W86-05556 1912 8D

PORE WATER
Characterization of Pore Size Distributions Within Soils by Mercury Intrusion and Water-Release Methods,
W86-01420 1905 2G

Sleeve and Casing Lysimeters for Soil Pore Water Sampling,
W86-01422 1905 7B

PORE WATER *ACID RAIN
Biological Neutralization of Acid Deposition in Ombrogenous and Mierotrophic Wetlands,
W86-02521 1907 5C

PORES
Characterization of Pore Size Distributions Within Soils by Mercury Intrusion and Water-Release Methods,
W86-01420 1905 2G

POREWATER PRESSURE
Differential Evapo-Transpiration from a Clay Surface and its Influence on Equilibrium Porewater Pressure,
W86-01451 1905 2G

POROMETERS
Canopy Transpiration and Water Fluxes in the Xylem of the Trunk of Larix and Picea Trees - a Comparison of Xylem Flow, Porometer and Cuvette Measurements,
W86-01601 1905 2I

POROSITY
Study of the Hydrogeophysical Properties of Fissured Aquifers Using a Double Porosity Model,
W86-01478 1905 2F

Characterizing Water Movement in the Weathered Zone of Glacial Tills Under Continuous Irrigation,
W86-02626 1907 2F

Correlation of Paleostructure and Sediment Deposition in the Madison Limestone and Associated Rocks in Parts of Montana, North Dakota, South Dakota, Wyoming, and Nebraska,
W86-02977 1908 2F

Apparent Water Resistivity, Porosity, and Water Temperature of the Madison Limestone and Underlying Rocks in Parts of Montana, Nebraska, North Dakota, South Dakota, and Wyoming,
W86-03081 1908 2F

Dependence of Effective Porosity on Fracture Continuity in Fractured Media,
W86-06167 1912 2F

POROUS AQUIFERS
Application of Contaminant Arrival Distributions to the Simulation and Design of Hydraulic Decontamination Measures in Porous Aquifers,
W86-05728 1912 5G

POROUS FLOW MODEL
Porous Flow Model for Steady State Transport of Radium in Groundwater,
W86-04159 1910 5B

POROUS MEDIA
Dispersion in Anisotropic, Homogeneous, Porous Media,
W86-00015 1901 2F

Advancement in Hydraulic Modeling of Porous Pavement Facilities,
W86-00098 1901 2E

Practical Method for Modeling Fluid and Heat Flow in Fractured Porous Media,
W86-01138 1904 2F

Considerations on Water, Oil and Air in Porous Media,
W86-01176 1904 5B

Experimental Measurement of Channeling of Flow in Porous Media,
W86-01419 1905 2F

Stability Analysis of Water Movement in Unsaturated Porous Materials; 3. Experimental Studies,
W86-01769 1905 2G

Experimental Investigation of Solute Transport in Stratified Porous Media; 1. The Nonreactive Case,
W86-01775 1905 2F

Experimental Investigation of Solute Transport in Stratified Porous Media 2. The Reactive Case,
W86-01776 1905 2F

Second-Order Approach for the Modeling of Dispersive Transport in Porous Media: 1. Theoretical Development,
W86-05205 1911 5B

Second-Order Approach for the Modeling of Dispersive Transport in Porous Media: 2. Application to Solute Motion in Pipes and Capillary Tubes,
W86-05206 1911 5B

Velocity Effects on Dispersion in Porous Media with a Single Heterogeneity,
W86-05252 1911 5B

POROUS PAVEMENT
Advancement in Hydraulic Modeling of Porous Pavement Facilities,
W86-00098 1901 2E

PORPHYRA
Effects of Effluent of Municipal Wastewater on the Growth of Porphyra yezoensis in the Case of Static Culture (in Japanese),
W86-01363 1905 5C

PORTLAND CEMENTS
Leaching Tests of Heavy Metals Stabilized with Portland Cement,
W86-05054 1911 5E

Leaching Tests of Heavy Metals Stabilized with Portland Cement,
W86-05896 1912 5E

PORTS
Ship Simulation Models: An Aid To Harbor Design,
W86-05506 1912 8B

PORTSMOUTH
Salvaging a Water Reservoir,
W86-04739 1911 8A

PORTUGAL
Mine Waste Discharge Rich in Copper - An Example of Effects on Planktonic Communities,
W86-00959 1904 5C

PORUS MEDIA
Solute Dispersion in Multidimensional Periodic Saturated Porus Media,
W86-04170 1910 2K

POSITIVELY CHARGED MEMBRANE FILTERS
Comparison of Positively Charged Membrane Filters and Their Use in Concentrating Bacteriophages in Water,
W86-04121 1910 5A

POTABLE WATER
Health Effects of Indirect Potable Water Reuse,
W86-01747 1905 5G

Dimethyl Trisulphide and Objectionable Odours in Potable Water,
W86-01851 1905 5F

Quality of Ground Water Used for Public Supply in Florida, 1983-84,
W86-02986 1908 7C

Water for Human Consumption, Man and His Environment: Proceedings of the 4th World Congress of the International Water Resources Association (IWRA).
W86-03907 1910 6E

Developments of Total Kieldahl Nitrogen and Bacterial Biomers along a Potabitization Line.
W86-04130 1910 5F

Selective Medium for the Isolation of Opportunistic Flavobacteria from Potable Water,
W86-04239 1910 5F

Study of the Trace Organics Profiles of Raw and Potable Water Systems,
W86-04382 1910 5F

Use of Ozone in the Treatment of Water for Potable Purposes,
W86-04520 1910 5F

Survey of Legionella pneumophila in Water in 12 Canadian Cities,
W86-04581 1910 5A

Statistics of Enumerating Total Coliforms in Water Samples by Membrane Filter Procedures,
W86-04585 1910 5A

Uses of Ozone in Water Treatment -- A Review,
W86-04955 1911 5F

Disinfection for Potable Reuse,
W86-05048 1911 5F

Application of Ozone for Water Treatment in the United Kingdom Current Practice and Recent Research,
W86-05059 1911 5F

Potable Water Treatment with O3 and BAC in China,
W86-05521 1912 5F

Managing the Integration of Groundwater and Surface Water Resources: A Case Study of Supplying Potable Water to the Lille Metropolitan Area (Gestion Integree des Ressources en Eau Souterraine et Superficielle: le Case de l'Alimentation en Eau Potable de la Metropole Lilloise),
W86-05691 1912 6D

Potable Groundwater Supplies and Low-Cost Sanitary Engineering: How Compatible,
W86-05719 1912 5G

Ways to Tackle the VOC Problem,
W86-06038 1912 5F

POTAMOGETON
Density, Biomass, and Respiration of Phytophilous Macrofauna of Associations of Potamogeton perfoliatus L. of a Polymictic, Eutrophic Lake,
W86-05892 1912 5C

POTASSIUM
Use of the Rb/K Ratio to Evaluate Potassium Nutrition of Peatlands,
W86-01164 1904 2L

Determination of Potassium, Sodium, Calcium, and Magnesium in Natural Waters by Ion Chromatography,
W86-01717 1905 5A

Potassium Losses in Runoff and Drainage Waters from Cropped, Large-scale Lysimeters,
W86-05388 1911 5B

POTATO STARCH FACTORY
Anaerobic Purification of Waste Water from a Potato-Starch Producing Factory,
W86-04115 1910 5D

POTENTIAL EVAPOTRANSPIRATION
Practical Estimates of Lake Evaporation,
W86-05551 1912 2H

POTENTIAL WATER SUPPLY
Public Water Supplies in Gloucester County, N.J.,
W86-00174 1901 2F

Hydrogeologic Data Related to the Potential for Stock-Water Development on Federally Owned Rangeland Near Dillon, Montana,
W86-03016 1908 7C

WATER 2000, Volume V: Water Supply Facility Optimization in Northern New Castle County
W86-03443 1909 5F

WATER 2000, Volume VI: Forecast of Future Water Demand in New Castle County.
W86-03444 1909 6D

POTENTIOMETERS
Determination of Nickel and Cobalt in Natural Waters and Biological Material by Reductive Chronopotentiometric Stripping Analysis in a Flow System Without Sample Deoxygenation,
W86-04591 1910 5A

POTENTIOMETRIC CONTOURS
Generalized Potentiometric-Surface Map of the High Plains Aquifer in Wyoming, 1981,
W86-02795 1907 7C

POTENTIOMETRIC FLOW
Potentiometric Surface of the Floridan Aquifer, Southwest Florida Water Management District, May 1984,
W86-03130 1908 2F

POTENTIOMETRIC LEVEL
Potentiometric Surface of the Upper Floridan Aquifer, West-Central Florida, May 1985,
W86-01920 1906 2F

Potentiometric Surface Map of the Sparta Sand and Memphis Sand Aquifers in Eastern and South-Central Arkansas, Spring 1983,
W86-01944 1906 2F

Ground-Water Level Data and Preliminary Potentiometric-Surface Maps, Yucca Mountain and Vicinity, Nye County, Nevada.
W86-01964 1906 2F

Water-Level Declines in the Magothy Aquifer in Southern Maryland Related to Increases in Pumpage,
W86-02781 1907 2F

Hydrogeologic Setting and the Potentiometric Surfaces of Regional Aquifers in the Hollandale Embayment, Southeastern Minnesota, 1970-80,
W86-02809 1907 2F

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, 1980,
W86-02919 1907 7C

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, 1970,
W86-02970 1908 2F

Potentiometric Surface of the Upper Floridan Aquifer in Central Sumter County, Florida, September 1984,
W86-02985 1908 7C

Potentiometric Surfaces on Long Island, New York--A Bibliography of Maps,
W86-03030 1908 7C

Impact of Development on Availability and Quality of Ground Water in Eastern Nassau County, Florida, and Southeastern Camden County, Georgia,
W86-03119 1908 2F

Potentiometric Surface of the Floridan Aquifer, Southwest Florida Water Management District, May 1984,
W86-03130 1908 2F

POTENTIOMETRIC MAP
Potentiometric Map of the Paleozoic Aquifer in Northeastern Mississippi, November and December 1982,
W86-01942 1906 2F

POTENTIOMETRIC SUFACE
Potentiometric Surface of the Upper Floridan Aquifer in the St. Johns River Water Management District and Vicinity, Florida, September 1984,
W86-03096 1908 7C

POTENTIOMETRIC SURFACE
Ground-Water Resources of Audrain County, Missouri,
W86-00113 1901 2F

Altitude and Configuration of the Water Table in the High Plains Aquifer in Kansas, Pre-1950,
W86-02807 1907 2F

Potentiometric Surface of the Upper Floridan Aquifer in the St. Johns River Water Management District and Vicinity, Florida, May 1985,
W86-03095 1908 7C

Potentiometric Surface of the Upper Floridan Aquifer System in the St. Johns River Water Management District and Vicinity, Florida, May 1984,
W86-03097 1908 7C

POTENTIOMETRY
Potentiometric Fluoride Determination in Drinking Water (Potentiometrische Fluoridbestimmung in Trinkwasser),
W86-00539 1902 5F

POTOMAC ESTUARY
Methods for the Collection of Geochemical Data from the Sediments of the Tidal Potomac River and Estuary, Including Data for 1978-1980 as an Appendix,
W86-01930 1906 2L

Water Quality of the Tidal Potomac River and Estuary Hydrologic Data Reports Supplement 1979 Through 1981 Water Years,
W86-02997 1908 5A

POTOMAC RIVER
Investigation of Relationships Among Pollutant Loadings and Fish Stock Levels in Northeastern Estuaries,
W86-01332 1905 5C

Controls on Phosphorus Mobility in the Potomac River, Near the Blue Plains Wastewater Treatment Plant,
W86-02762 1907 5B

Water-Quality Study of the Tidal Potomac River and Estuary - An Overview,
W86-02975 1908 5B

Water Quality of the Tidal Potomac River and Estuary Hydrologic Data Reports Supplement 1979 Through 1981 Water Years,
W86-02997 1908 5A

Primary Productivity in the Potomac Tidal River, Maryland, May 1980 to August 1981,
W86-03000 1908 5B

Traveltime and Dispersion in the Potomac River, Cumberland, Maryland, to Washington, D.C.,
W86-03123 1908 2E

POTOMAC RIVER BASIN
Policy Analysis of Reservoir Operation, Volume I: Executive Summary; Volume II: Component Studies,
W86-02730 1907 6A

POTOMAC RIVER ESTUARY
Data on Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Transition Zone of the Potomac Estuary, 1983 and 1984,
W86-02944 1908 2L

Water-Quality Study of the Tidal Potomac River and Estuary - An Overview,
W86-02975 1908 5B

Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Estuary, Maryland and Virginia,
W86-03012 1908 2L

POTTER POND
Benthic Nutrient Remineralization in a Coastal Lagoon Ecosystem,
W86-01336 1905 2L

POWDER RIVER BASIN
Potential Effects of Surface Coal Mining on the Hydrology of the Horse Creek Area, Sheridan and Moorhead Coal Fields, Southeastern Montana,
W86-02968 1908 4C

POWER FUNCTIONS
Height and Speed of Capillary Rise of Water in Medium Loam Soils,
W86-04730 1911 2G

POWER HEAD
Power Conduits for High-Head Plants; Part Two,
W86-01695 1905 8A

Application of Functional Analysis to Optimization of a Variable Head Multireservoir Power System for Long-Term Regulation,
W86-05242 1911 8C

POWER PLANTS
Self-Similar Character of the Propagation of a Density Front in a Shallow Water Body,
W86-01807 1905 5B

Presence of Pathogenic Microorganisms in Power Plant Cooling Waters: Report for October 1, 1979, to September 30, 1981,
W86-03243 1908 5B

Prey Selection and Feeding Patterns of Fish in a Southern United States Hydropower Tailwater,
W86-03902 1910 5C

Assessing Population Effects from Entrainment of Fish at a Large Volume Water Intake,
W86-04383 1910 8I

POWERHOUSE
Underground Works at Kenya's Kiambere Project,
W86-05006 1911 8A

POWERPLANT WASTES
Statistical Analysis of Heavy Metal Concentrations from Lake Sediments,
W86-06088 1912 5B

POWERPLANTS
James River Fisheries and Thermal Effects,
W86-00585 1902 6G

Effects of Power Plant Entrainment on Phytoplankton Response,
W86-00973 1904 5C

Acid Rain: Dousing Community Resources,
W86-01488 1905 5G

Abundance of West Indian Manatees (Trichechus manatus) around Selected Florida Power Plants following Winter Cold Fronts, 1982-1983,
W86-01758 1905 5C

Effects of Operating the Mt. Elbert Pumped-Storage Powerplant on Twin Lakes, Colorado: 1981 Report of Findings,
W86-03336 1908 6G

Present and Potential Use of Micro-Hydro-Electric Schemes in Remote Locations,
W86-03505 1909 8A

Oil Stop Valve: Oil Spill Containment Research and Development Project,
W86-03627 1909 5G

Solid Waste Management for Utility Reconversions,
W86-04635 1910 5G

Innovative Design Overcomes Multiple Institutional Barriers at Hydro Plant,
W86-04682 1911 8C

Trace Elements in Sediments, Water, and American Coots (Fulica Americana) at a Coal-Fired Power Plant in Texas, 1979-1982,
W86-05479 1912 5B

Circulation Induced by Coastal Diffuser Discharge,
W86-06114 1912 5B

PRAGUE
Molecular Mass Distribution of Organic Substances in the Drinking Water of Prague (Molmasseverteilung der Organischen Stoffe im Prager Trinkwasser),
W86-00403 1902 5F

PRAIRIE DOG CREEK VALLEY
Hydrology of Prairie Dog Creek Valley, Norton Dam to State Line, North-Central Kansas,
W86-02377 1906 2E

Hydrology of Prairie Dog Creek Valley, Norton Dam to State Line, North-Central Kansas,
W86-02406 1906 4B

PRAIRIE SALINE LAKES
Evaluation of factors Related to the Unusually Low Chlorophyll Levels in Prairie Saline Lakes,
W86-05562 1912 2H

PRAIRIES
1984 Drought on the Canadian Prairies,
W86-04508 1910 2G

PRAWN
Toxicity of the Herbicide 2,4-D-Na to Two Species of Freshwater Prawn of the Genus Macrobrachium,
W86-00413 1902 5C

Effect of Aldrin on the Carbohydrate Metabolism of a Freshwater Prawn Macrobrachium lamarrei (H.-M. Edwards) Crustacea, Decapoda,
W86-00421 1902 5C

Acute Toxicity of Mercuric Chloride and Cadmium Chloride to Freshwater Prawn, Macrobrachium lammarrei (H. Milne Edwards),
W86-00553 1902 5C

Patterns of Bioaccumulation of an Essential Trace Element (Zinc) and a Pollutant Metal (Cadmium) in Larvae of the Prawn Palaemon serratus,
W86-00580 1902 5C

In Vitro Effect of Mercuric Chloride on Acid and Alkaline Phosphatase Activity of a Freshwater Prawn,
W86-00625 1903 5C

Dichlorvos Intoxication in a Freshwater Prawn, Macrobrachium lamarrei (H. Milne Edwards),
W86-00882 1903 5C

PRECIPITATION
Soil Moisture Content: Statistical Estimation of Its Probability Distribution,
W86-00021 1901 2G

Marine Weather of the Inland Waters of Western Washington,
W86-00165 1901 2B

Hydrological Yearbook: 1980.
W86-00182 1901 2A

SCPP Data Collection and Analysis for the Period 1 September 1981 through 31 August 1982,
W86-00216 1901 2B

Ground-Base Snow and Ice Crystal Observation System Used in Sierra Nevada Winter Orographic Storms,
W86-00222 1901 2B

Application of Probable Maximum Precipitation Estimates: United States East of the 105th Meridian,
W86-00229 1901 2B

Boulder Upslope Cloud Observation Experiment.
W86-00261 1901 2B

Poststorm Reconnaissance of Tropical Storm Chris,
W86-00279 1901 2B

Cloud Physics Studies in the SCPP: Interim Progress Report, 1983-84.
W86-00305 1901 3B

Structure of Cold Fronts Over California,
W86-00306 1901 3B

Responses to Seeding Clouds with Dry Ice in the SCPP-1 Experiment,
W86-00307 1901 3B

Combined Hydrometeor Distributions from Three PMS Probes,
W86-00308 1902 3B

Summary of Climatic Conditions in Natal.
W86-00321 1902 2A

Observation on Microphysical Processes in the Stratiform Precipitations Including Melting Layers at Mt. Fuji,
W86-00425 1902 2B

Experiments on Aerosol Scavenging by Natural Snow Crystals, Part I: Collection Efficiency of Uncharged Snow Crystals for Micron and Submicron Particles,
W86-00426 1902 2B

Seasonal Precipitation Forecasting with a 6-7 Month Lead Time in the Pacific Northwest Using an Information Theoretic Model,
W86-00778 1903 2B

Chemical Components in the Precipitation at Komoro and Tsukuba, Japan in 1983,
W86-00810 1903 5B

Flocculation, Precipitation, Sedimentation and Flotation for use as Pretreatment Stages for Brackish Water and Seawater in Desalination Plants,
W86-01370 1905 3A

Diurnal Variability of Precipitation in the Northeastern United States,
W86-01525 1905 2B

Zirconium Coprecipitation for Simultaneous Multielement Determination of Trace Metals in Seawater by Inductively Coupled Plasma Atomic Emission Spectrometry,
W86-01720 1905 5A

SCPP Data Collection and Analysis for the Period 1 January 1979 through 30 September 1984: Volume One - Executive Summary,
W86-01984 1906 2B

Total Precipitable Water and Rainfall Determinations from the Seasat Scanning Multichannel Microwave Radiometer (SMMR),
W86-03238 1908 2B

Acidity, Nutrients, and Minerals in Atmospheric Precipitation Over Florida: Deposition Patterns, Mechanisms, and Ecological Effects,
W86-03246 1908 5B

International Comparison of National Precipitation Gauges with a Reference Pit Gauge,
W86-03414 1908 7B

Streamflow Summaries from Twelve Tributaries of Farmington Creek, Davis County Experimental Watershed, Northern Utah,
W86-03640 1909 2A

Investigations of Large Scale Storm Systems: Final Report,
W86-03647 1909 2B

Present and Late Pleistocene Equilibrium Line Altitudes in the Mt Everest Region - An Application of the Glacier Inventory,
W86-03681 1909 2C

Lead and Cadmium in Precipitation in the Essex Region of Southwestern Ontario,
W86-03772 1909 5B

Post-Precipitation in Wastewater Treatment,
W86-03845 1909 5D

View on Our Knowledge of Water Resources in Relation to Climate in the Alps,
W86-03847 1909 2B

Atmospheric Moisture Balance in the Proposed Water Transfer Region,
W86-03942 1910 2A

Stochastic Dynamics of Precipitation: An Example,
W86-04319 1910 2B

Generalized Scale Invariance in the Atmosphere and Fractal Models of Rain,
W86-04320 1910 2B

Scaling Limits and Self-Similarity in Precipitation Fields,
W86-04323 1910 2B

1984 Drought on the Canadian Prairies,
W86-04508 1910 2G

Airborne Mercury in Precipitation in the Lake Superior Region,
W86-04525 1910 5B

Soil Formation on Tuff Parent Material in the Pokamenya Tunguska River Basin,
W86-04551 1910 2G

Simple Stochastic Model of the Precipitation Process,
W86-04592 1910 2B

Warm Season Nocturnal Precipitation in the Great Plains of the United States,
W86-04594 1910 2B

Deducing the Microphysical Character of Precipitation from Multiple-Parameter Radar Polarization Measurements,
W86-04625 1910 2B

Solution to Residential Sewer Backups,
W86-04686 1911 5D

Automated Ion Chromatographic Determination of Anions In Precipitation Samples,
W86-04984 1911 5A

World's Highest Dam Conquers Harsh Environment,
W86-05002 1911 8D

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part I. Attenuation of Radar Wave Due to Precipitation Particles and Correction Method,
W86-05091 1911 2B

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part II. Study on Size Distribution Change of Precipitation Particles,
W86-05092 1911 2B

New Technique for Monitoring the Water Vapor in the Atmosphere,
W86-05097 1911 2B

Time Variation of Rn 222 Progeny Concentrations in Rainwater,
W86-05142 1911 2B

Heavy Metals in Rain Water Collected Over the Reservoirs at Kozlowa Gora and Goczalkowice,
W86-05195 1911 5B

State Estimation of a Scalar Dynamic Precipitation Model from Time-Aggregate Observations,
W86-05220 1911 2B

Seasonal and Regional Variability of Parameters for Stochastic Daily Precipitation Models: South Dakota, U.S.A.,
W86-05257 1911 2B

Point Rainfall Generator With Internal Storm Structure,
W86-05427 1912 2A

Continuous-Time Versus Discrete-Time Point Process Models for Rainfall Occurrence Series,
W86-05433 1912 2B

Precipitation Anomaly Classification: A Method for Monitoring Regional Precipitation Deficiency and Excess on a Global Scale,
W86-05461 1912 2B

Relationships for Deriving Thunderstorm Anvil Ice Mass for CCOPE Storm Water Budget Estimates,
W86-05464 1912 2B

Atmospheric Water Balance over a Mountain Barrier,
W86-05474 1912 2B

Importance of Reducing Sample Contamination in Routine Monitoring of Trace Metals in Atmospheric Precipitation,
W86-05498 1912 5A

Precipitable Water: Its Linear Retrieval using Leaps and Bounds Procedure and its Global Distribution from Seasat SMMR Data,
W86-05742 1912 2B

Power of a Rainshower (Puissance d'une averse),
W86-05899 1912 2B

Variations in Precipitable Water Over Some West African Stations During the Special Observation Period of WAMEX,
W86-06053 1912 2B

Recent Heavy Precipitation in the Vicinity of the Great Salt Lake: Just How Unusual,
W86-06099 1912 2B

Application of Model Output Statistics to Precipitation Prediction in Australia,
W86-06121 1912 2B

PRECIPITATION CHEMISTRY
Density of Precipitation Chemistry Networks,
W86-00684 1903 7A

Estimates of Average Major Ion Concentrations in Bulk Precipitation at Two High-Altitude Sites Near the Continental Divide in Southwestern Colorado,
W86-01515 1905 5B

Impact of Alkaline Particulates on pH of Rain Water in India,
W86-01606 1905 5B

Characterization of Aluminum Chemistry for Acid Precipitation,
W86-02458 1907 2B

PRECIPITATION FORECASTING
Yes, Precipitation Forecasts have Improved,
W86-05070 1911 2B

PRECIPITATION FREQUENCY
Statistical Analysis of Precipitation Frequency in the Conterminous United States, Including Comparisons with Precipitation Totals,
W86-00020 1901 2B

PRECIPITATION INTENSITY
Areal Intensity-Duration-Frequency Curves: A Possible Way of Improving the Rainfall Input,
W86-00095 1901 2B

Disposition of Silver Released from Soviet OBLAKO Rockets in Precipitation during the Hail Suppression Experiment Grossversuch IV. Part II: Case Studies of Seeded Cells,
W86-04630 1910 3B

PRECIPITATION-RUNOFF MODELING SYSTEM
Calibration Procedure for a Daily Flow Model of Small Watersheds with Snowmelt Runoff in the Green River Coal Region of Colorado,
W86-02403 1906 2A

PRECISION
Assessment of the Measurement Uncertainty in the Estimation of Stream Reaeration Rate Coefficients Using Direct Tracer Techniques,
W86-03824 1909 5A

PREDATION
Vulnerability of Young Lake Trout to Predation After Chronic Exposure to PCB's and DDE,
W86-00368 1902 5C

Phytoplankton Control and Water Quality Improvement Through Manipulation of Animal Communities,
W86-02583 1907 5C

Predator Species Richness and Prey Population Variability: Effects on Diets of Benthic Stream Fishes,
W86-05932 1912 2H

Feeding Relationships Between the Benthic Infauna and the Dominant Benthic Fish of the Rance Estuary (France),
W86-06030 1912 2L

PREDENITRIFICATION NITRIFICATION
Application of Predenitrification Nitrification Technology for Trace Contaminant Control,
W86-00763 1903 5D

PREDICTION
Multiple Nonlinear Statistical Models for Runoff Simulation and Prediction,
W86-00035 1901 2E

Predicted Extreme High Tides for California: 1983-2000,
W86-01100 1904 2L

Nutrient Runoff Losses as Predicted by Annual and Monthly Soil Sampling,
W86-01709 1905 5B

Predicting the Effect of Toxic Substances on Pelagic Ecosystems,
W86-01865 1905 5C

Predictions by Two One-Dimensional Cloud Models: A Comparison,
W86-04632 1910 2B

Prediction of the Toxicity of Copper to Australian Freshwater Animals,
W86-04777 1911 5C

Proposed Method for Accurately Calculating Sediment Yields from Reservoir Deposition Volumes,
W86-04913 1911 2J

Methods Used in the Prediction and Control of the Groundwater Regime in Basins Adjacent to Large Rivers,
W86-05647 1912 2F

Prediction of Underground Water Regime and Balance in Lands Under Reclamation,
W86-05648 1912 4C

Long-Range Prediction of Groundwater Levels in a Volcanic Upland Using an Aquifer Model with Soil Water Subsystem,
W86-05650 1912 2F

Long-Range Groundwater Level Prediction Based on Time Series Analysis,
W86-05665 1912 2F

Groundwater Regime Forecasting with Inadequate Data in Argentina,
W86-05677 1912 4B

PREDICTIONS
Two-Dimensional Calculation of Tide by Explicit Weighted Residual Method - I Shibushi Bay,
W86-01144 1904 2L

PREIMPOUNDMENT
Appraisal of Water-Quality Conditions, Lower Black River, Windsor County, Vermont,
W86-02770 1907 5B

PRESSURE DISTRIBUTION
B-Jumps at Abrupt Channel Drops,
W86-00018 1901 8B

Determining Head and Pressure Distribution in Low Transmissivity Formations and Soils,
W86-04215 1910 2F

PRESSURE HEAD
Determining Head and Pressure Distribution in Low Transmissivity Formations and Soils,
W86-04215 1910 2F

Charts for Water Hammer in Pipelines Resulting from Valve Closure from Full Opening Only,
W86-05468 1912 8C

PRESSURE REGULATOR VALVE
Jones Fork Small Hydro Scheme,
W86-04727 1911 8C

PRESSURE SHAFTS
Underground Works at Kenya's Kiambere Project,
W86-05006 1911 8A

PRESSURE TUNNELS
Power Conduits for High-Head Plants,
W86-01277 1904 8A

PRETREATMENT
Pretreatment Standards for Hazardous Wastes,
W86-05545 1912 5D

Effect of Pretreatment on the Enzymic Hydrolysis of Cellulosic Industrial Waste,
W86-05943 1912 5D

PRETREATMENT OF WATER
Flocculation, Precipitation, Sedimentation and Flotation for use as Pretreatment Stages for Brackish Water and Seawater in Desalination Plants,
W86-01370 1905 3A

City of Chattanooga Industrial-Municipal Pretreatment Program,
W86-03899 1909 5D

Enhancement of Mercury (II) Sorption from Water by Coal Through Chemical Pretreatment,
W86-04574 1910 5D

Pretreatment by the Metal Finishing Industry,
W86-05012 1911 5D

PRETREATMENT REQUIREMENTS
Economic Impact of Limiting Electroplating Discharges to Achieve Specified Water Quality Objectives,
W86-02664 1907 5G

PRICES
Water Demand,
W86-00271 1901 6D

Monetary Valuation of Timber, Forage, and Water Yields from Public Forest Lands,
W86-05749 1912 6C

PRICING
Paying for Reuse Water,
W86-01745 1905 6C

Conservation Using a Rate of Return Decision Rule: Some Examples from California Municipal Water Departments,
W86-01763 1905 3D

Water Demand Estimation Under Block Rate Pricing: A Simultaneous Equation Approach,
W86-05243 1911 6D

Water Allocation: The Roles of Value and Prices,
W86-05576 1912 6C

Full-Cost Water Pricing,
W86-05884 1912 6C

Efficiency of Water Pricing: A Rate of Return Analysis for Municipal Water Departments,
W86-06024 1912 6C

PRIMARY PRODUCTION
Stratification and Primary Production in a Small Brackish Lake Studied by Close-Interval Siphon Sampling,
W86-00930 1904 2H

Enhancement of Marine Primary Production by Nitrogen-Enriched Acid Rain,
W86-01172 1904 5C

Nitrogenous Nutrient Uptake, Primary Production, and Species Composition of Phytoplankton in the Carmans River Estuary, Long Island, New York,
W86-01415 1905 2L

PRIMARY PRODUCTIVITY
Studies on Primary Productivity and Some Hydrochemical Aspects of a Polluted Water-body of the Himalayan Jhelum Valley,
W86-00420 1902 2H

Photosynthesis and Primary Production of Microcystis aeruginosa Kutz. in Lake Kasumigaura,
W86-00518 1902 2H

Contribution to the Application of the Regression Analysis in Connection with the Estimation of the Primary Production in the Grosser Muggelsee (Berlin) for the Period of 1979-1982 (Ein Beitrag zur Anwendung der Regressionsanalyse im Zusammenhang mit der Schatzung der Primarproduktion im Grossen Muggelsee (Berlin) fur den Zeitraum 1979...1982),
W86-00551 1902 2H

Seasonal Variation in Primary Production in Relation to Some Limnological Features in Lakhotia Lake (India),
W86-00578 1902 2H

Spatial and Temporal Coupling of Nutrient Inputs to Estuarine Primary Production: The Role of Particulate Transport and Decomposition,
W86-00642 1903 2L

Suspended Sediment - Microbial Interactions in a Shallow Turbid Impoundment,
W86-00979 1904 2H

Seasonal Observations of Heterotrophic Activity and Active Bacterial Number in Lake Constance,
W86-01329 1905 2H

Phytoplankton Primary Production in Brackish Lake Grevelingen (SW Netherlands) During 1976-1981,
W86-01570 1905 2H

Appraisal of Water-Quality Conditions, Lower Black River, Windsor County, Vermont,
W86-02770 1907 5B

Primary Productivity in the Potomac Tidal River, Maryland, May 1980 to August 1981,
W86-03000 1908 5B

Chlorophyll a Concentration and Distribution in Twin Lakes, Colorado, Prior to Operation of Mt. Elbert Pumped-Storage Powerplant, 1977-81,
W86-03234 1908 2H

Primary Production and Decomposition of Submergent and Emergent Aquatic Plants of Two Appalachian Rivers,
W86-03389 1908 5C

Photosynthetic Production of a Brackish Water Community of Chara Tomentosa L. and Its Dependence on Environmental Conditions,
W86-05151 1911 2C

Primary Production and Effects of Enrichment with Nitrate and Phosphate on Phytoplankton in the Barra Bonita Reservoir (State of Sao Paulo, Brazil),
W86-05157 1911 5C

Phytoplankton Productivity in Turbid Waters,
W86-05177 1911 5C

Preliminary Investigation of Primary Production and Decomposition in Four Peatlands near Schefferville, Quebec,
W86-06003 1912 2H

Extracellular Organic Carbon (EOC) Released by Phytoplankton and Bacterial Production,
W86-06141 1912 2H

PRIMARY SLUDGE
Performance of SBR/Denitrification with a Primary Sludge Carbon Source,
W86-05035 1911 5D

Kinetics and Stoichiometry of SBR/Denitrification with a Primary Sludge Carbon Source,
W86-05036 1911 5D

PRIMARY WASTEWATER TREATMENT
Waterloo Clarifier: Principles and Practice,
W86-03663 1909 5D

Elimination of Micropollutants by NaAlO2 Flocculation During Primary Treatment of Mixed Wastewater,
W86-04566 1910 5D

PRINCIPAL ARTESIAN AQUIFER
Evaluation of the Ground-Water Resources of Coastal Georgia: Preliminary Report on the Data Available as of July 1983,
W86-02352 1906 7C

PRINCIPAL COMPONENT ANALYSIS
Interannual Steamflow Variability in the United States Based on Principal Components,
W86-00076 1901 2E

Optimization of a Snow Network by Multivariate Statistical Analysis,
W86-04395 1910 2C

Recent Patterns of Sulfate Variability in Pristine Streams,
W86-05467 1912 5B

PRIORITY POLLUTANTS
Contaminants in Fish from Great Lakes Harbors and Tributary Mouths,
W86-01891 1905 5B

Comparative Removal of Toxic Pollutants by Six Wastewater Treatment Processes,
W86-05016 1911 5D

Adsorption of Organic Pollutants on Montmorillonite Treated with Amines,
W86-05022 1911 5F

Oxidation of 2-Chlorophenol Using Ozone and Ultraviolet Radiation,
W86-05057 1911 5D

Effects of Suspended Solids on the Biotransformation of Acenaphthene,
W86-05999 1912 5B

PRIVATE STANDING
Forfeiture Proceedings in Wyoming Water Law: The Legislature Revives Private Standing,

PUMPING WELLS

Quality of Water in an Aquifer and its Manifestation In Pumping Wells,
W86-01299 1904 2F

PUMPS

Pointe Coupee Pumping Station Sump and Outlet Structure, Upper Pointe Coupee Loop Area, Louisiana: Hydraulic Model Investigation,
W86-00101 1901 8C

Sewage Effluent Pumps,
W86-00803 1903 5D

Evaluating Pump Characteristics in Developing Countries,
W86-00884 1903 8C

Pumps Crucial to Success of Long-distance Aqueducts,
W86-01085 1904 8C

Results of Investigating the Effect of Cavitation in Hydroabrasive Wear of Elements of the Water Passageway of Axial-Flow Pumps,
W86-01628 1905 8C

New Flow Models Can Help Solve Pump-Cavitation Problems,
W86-01680 1905 8B

Hand-pump Technology for the Development of Groundwater Resources,
W86-02327 1906 8C

Renewable Energy Pumping from Rivers and Streams,
W86-02328 1906 8C

Wind-Power Pumping,
W86-02329 1906 8C

Solar Powered Groundwater Pumping for Medium Heads,
W86-03583 1909 8C

Evaluation of Oil Skimmers and Pumps,
W86-03625 1909 5G

OHMSETT Pump Tests,
W86-04013 1910 5G

Motor Control Eliminates Erratic Distribution Pressure,
W86-04296 1910 5F

Submersible Propeller Pump as an Alternative to the Tubular Axial Flow Pump,
W86-04986 1911 8C

Submersible Pumps Help Improve Water Supply from Deep Limestone Well,
W86-05320 1911 8C

Station Employs Giant Submersible Propeller Pumps,
W86-05878 1912 8C

PUNJAB

Low Head Canal Power Development in Punjab,
W86-01221 1904 6B

PUPFISH

Population Dynamics of the Devils Hole Pupfish,
W86-01364 1905 2H

PURIFICATION

Contaminant Degradation in Water,
W86-00660 1903 5F

PUTREFACTION

Source of Hydrogen Sulfide in Anoxic Sediment,
W86-01063 1904 2H

PYRITE

Formation of Pyrite in Freshwater Sediments: Implications for C/S Ratios,
W86-01615 1905 2J

PYROGENS

Destroying Pyrogens in Water,
W86-00870 1903 5F

PYROLYSIS

Simultaneous Determination of Total Organic Carbon and Total Nitrogen in Waters by Pyrolysis - Gas Chromatography - Mass Spectrometry,
W86-04129 1910 5A

QATAR

Proposed Artificial Recharge Studies in Northern Qatar,
W86-03058 1908 2F

QUADRATIC MODELS

Quadratic Model for Reservoir Management: Application to the Central Valley Project,
W86-00070 1901 6A

QUAL-II MODEL

Drinking Water Supply Management: An Interactive Approach,
W86-05575 1912 5G

QUALITY ASSURANCE

Results of the U.S. Geological Survey's Second International Interlaboratory Analytical Comparison Study--Standard-Reference Water Samples M-86 (Major Constituents), T-87 (Trace Constituents), and P-5 (Precipitation Snowmelt),
W86-03013 1908 7B

QUALITY ASSURANCE DATA

Quality-Assurance Data for Routine Water Analysis in the Laboratories of the U.S. Geological Survey for Water-Year 1983,
W86-02834 1907 5A

QUALITY CONTROL

AWWA Survey of Inorganic Contaminants in Water Supplies.
W86-00009 1901 5F

Microcomputer Assisted Quality Assurance,
W86-00203 1901 5A

Quality Assurance for Water and Wastewater Analyses,
W86-03528 1909 5A

Priority Pollutant Methodology Quality Assurance Review,
W86-03529 1909 5A

Quality Assurance in the Evaluation of Pollution Control Technology: Experiences at the Industrial Environmental Research Laboratory, U.S. Environmental Protection Agency, Cincinnati, Ohio,
W86-03530 1909 5A

QUANTITATIVE ANALYSIS

Quantitative Characterization of Microbial Biomass and Community Structure in Subsurface Material: A Prokaryotic Consortium Responsive to Organic Contamination,
W86-05421 1912 5A

Quantitative Importance of Alkalinity Flux from the Sediments of Acid Lakes,
W86-05599 1912 5B

Analysis of Explosives in Water by Capillary Gas Chromatography,
W86-05947 1912 5A

QUASIPARTICLE MODELS

Sorption of Trace Metals by Humic Materials in Soils and Natural Waters,
W86-04715 1911 5B

QUEBEC

Sensitivity of Southern Quebec Lakes to Acidic Precipitation,
W86-00427 1902 5C

Zinc Deposition in Acid Lakes: The Role of Diffusion,
W86-00689 1903 5B

Influence of Salinity on Scirpus americanus Tidal Marshes in the St. Lawrence River Estuary, Quebec,
W86-00902 1903 2L

Experimental Studies on the Susceptibility of Freshwater Phytoplankton to Variation of Salinity in the Fjord of Saguenay (St. Lawrence Estuary), Canada (Etudes experimentalles sur la sensibilite du phytoplancton d'eau douce aux variations de salinite dans le fjord du Saguenay (Estuaire du St-Laurent), Canada),
W86-01128 1904 2L

Simulating Fish Redistribution in the LG-2 Reservoir After Flooding,
W86-01166 1904 8I

Discrimination of the Stock of Fish (Eels, Anguilla rostrata) Based on the Presence of the Synthetic Chemical Mirex (Discrimination d'un Stock de Poisson, l'Anguille (Anguilla rostrata), Basee sur la Presence d'un Produit Chimique de Synthese, le Mirex),
W86-01584 1905 5C

Quebec: Surface Water Data, 1984,
W86-03235 1908 2E

Geologic Control on Soil Composition and Properties, Lake Ojibway Clay Plain, Matagami, Quebec.
W86-05103 1911 2G

Migration Patterns of an Asymmetric Meandering River: The Rouge River, Quebec,
W86-05219 1911 2E

QUEEN ANNES COUNTY

Preliminary Analysis of Geohydrologic Data from Test Wells Drilled Near Chester, on Kent Island, Queen Annes County, Maryland,
W86-02349 1906 5A

QUEENSLAND

Estimated Store of Soluble Salts in the Lake Eyre Catchment in Queensland and their Possible Transport in Streamflow to the Lake,
W86-01031 1904 2A

QUESTIONNAIRES

Delphi Technique in Environmental Assessment. I. Implementation and Effectiveness,
W86-04596 1910 6G

QUEUING THEORY
Storage Analysis for Ephemeral Streams in Semiarid Regions,
W86-03171 1908 2E

RABAGAO RIVER
Mine Waste Discharge Rich in Copper - An Example of Effects on Planktonic Communities,
W86-00959 1904 5C

RADAR
Synthesis of Radar Rainfall Data,
W86-00084 1901 2A

Outline of Severe Local Storms with the Morphology of Associated Radar Echoes,
W86-00146 1901 2B

Computer Simulation of a Space SAR Using a Range-Sequential Processor for Soil Moisture Mapping,
W86-00351 1902 2G

Thuderstorms: A Social, Scientific, and Technological Documentary. Volume 3: Instruments and Techniques for Thunderstorm Observation and Analysis.
W86-02003 1906 2B

Station Networks for Storm Observation,
W86-02004 1906 7B

Observations from Instrumented Aircraft,
W86-02005 1906 7B

Weather Radar,
W86-02008 1906 7B

Measuring Storm Rainfall by Radar and Rain Gage,
W86-02009 1906 7B

Multi-Parameter Remote Measurement of Rainfall,
W86-03618 1909 2B

New Approach for Instantaneous Rain Area Delineation in the Midlatitudes Using GOES Data,
W86-04325 1910 2B

Deducing the Microphysical Character of Precipitation from Multiple-Parameter Radar Polarization Measurements,
W86-04625 1910 2B

Physical Response of Convective Clouds over the Sierra Nevada to Seeding with Dry Ice,
W86-04628 1910 3B

Disposition of Silver Released from Soviet OBLAKO Rockets in Precipitation during the Hail Suppression Experiment Grossversuch IV. Part II: Case Studies of Seeded Cells,
W86-04630 1910 3B

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part I. Attenuation of Radar Wave Due to Precipitation Particles and Correction Method,
W86-05091 1911 2B

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part II. Study on Size Distribution Change of Precipitation Particles,
W86-05092 1911 2B

Achieving Improved Frequency Response of the Rain Structure from Spaceborne Radar Altimeters by Employing Deconvolution Methods,
W86-05098 1911 2B

Accuracy of Rainfall Estimates by Radar, Part I: Calibration by Telemetering Raingauges,
W86-05109 1911 2B

Accuracy of Rainfall Estimates by Radar, Part II: Comparison with Raingauge Network,
W86-05110 1911 2B

Accuracy in Rainfall Estimates by Radar, Part III: Application for Short-Term Flood Forecasting,
W86-05111 1911 2B

Relationships for Deriving Thunderstorm Anvil Ice Mass for CCOPE Storm Water Budget Estimates,
W86-05464 1912 2B

Correlations Between Nimbus-7 Scanning Multichannel Microwave Radiometer Data and an Antecedent Precipitation Index,
W86-05476 1912 2B

Discrimination in the Use of Radar Data Adjusted by Sparse Gauge Observations for Determining Surface Rainfall,
W86-06056 1912 2B

RADIAL GATES
Hydraulic Model Studies of Modification to Klang Gates Dam, Malaysia,
W86-03329 1908 8C

Variable Speed A-C Motor Controller for Canal Gate Hoists,
W86-03341 1908 8C

RADIAL INJECTION
Radial Injection Tracer Experiment in a Confined Aquifer, Scarborough, Ontario, Canada,
W86-04276 1910 2F

RADIATION
Radiocesium Levels in Irish Sea Fish and the Resulting Dose to the Population of the Irish Republic,
W86-00822 1903 5B

RADIO WAVES
Interpretation of VLF Resistivity Data for Ground Water Contamination Surveys,
W86-04656 1910 5B

RADIOACTIVE SPRINGS
Radioactivity of Spas on the Greek Island Ikaria and Influencing Factors,
W86-04691 1911 2K

RADIOACTIVE-TRACER FLOW SURVEY
Geohydrologic and Drill-Hole Data for Test Well USW H-4, Yucca Mountain, Nye County, Nevada,
W86-02895 1907 2F

RADIOACTIVE TRACERS
Studies of the Hydrodynamic Properties in Biological Clarification Plants Using Radiotracers,
W86-00543 1902 5D

New Approaches to the Production of 36 Cl-Labeled Chlorinating Agents and the Measurement of 36Cl Incorporated into Biological Materials,
W86-02172 1906 5A

Groundwater Quality Evolution in the Upper Aquifer of the Coastal Dune Area of the Western Netherlands,
W86-03761 1909 2F

Flood Flow Gauging with Tritium in Southern Africa,
W86-04796 1911 7B

Identification and Quantification of Sediment Sources Using 137-Cs,
W86-04931 1911 2J

RADIOACTIVE WASTE
Hydrogeologic Setting East of Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02871 1907 2F

Radioactive and Chemical Waste Migration in the Snake River Plain Aquifer, Idaho National Engineering Laboratory,
W86-03983 1910 5B

RADIOACTIVE WASTE BURIAL GROUND
Description and Some Hydrogeologic Implications of Cores from the Radioactive Waste Management Complex, Idaho,
W86-02999 1908 5E

RADIOACTIVE WASTE DISPOSAL
Modification of Bell Canyon Test (BCT) 1-FF Grout,
W86-00248 1901 8G

Geohydrology of Volcanic Tuff Penetrated by Test Well UE-25bNo1, Yucca Mountain, Nye County, Nevada,
W86-01923 1906 2F

Hydrology of Yucca Mountain and Vicinity, Nevada-California--Investigative Results Through Mid-1983,
W86-02413 1906 2F

Hydrogeologic Reconnaissance of the San Miguel River Basin, Southwestern Colorado,
W86-02789 1907 2F

Preliminary Evaluation of Hydrologic Properties of Cores of Unsaturated Tuff, Test Well USW H-1, Yucca Mountain, Nevada,
W86-02792 1907 2F

General Description of the Geohydrology and Burial Trenches at the Low-Level Radioactive Waste Burial Facility Near Barnwell, South Carolina,
W86-02862 1907 5B

Conceptual Hydrologic Model of Flow in the Unsaturated Zone, Yucca Mountain, Nevada,
W86-02974 1908 5B

Water-Quality Data for 34 Sites, April and June, 1984, Near the Y-12 Plant, The Oak Ridge Reservation, Tennessee,
W86-03048 1908 5B

Measurement of Ground-Water Velocity Using Rhodamine WT Dye Near Sheffield, Illinois,
W86-03051 1908 2F

Review of Buried Crystalline Rocks of Eastern States in Selected Hydrogeologic Environments Potentially Suitable for Isolating High-Level Radioactive Wastes,
W86-03127 1908 5E

Selected Hydrologic and Geochemical Issues in Site Characterization for Nuclear Waste Disposal: Flood Basalts at the Hanford Reservation,
W86-03282 1908 5E

Consequence Assessment of Hydrological Communications through Borehole Plugs,
W86-03629 1909 5G

Distribution of Plutonium and Americium Beneath a 33-yr-old Liquid Waste Disposal Site,
W86-04416 1910 5B

Practical Applications of Geological Methods at the West Valley Low-Level Radioactive Waste Burial Ground, Western New York,
W86-05138 1911 5E

Simulation of Fluid Flow and Energy Transport Processes Associated with High-Level Radioactive Waste Disposal in Unsaturated Alluvium,
W86-05223 1911 5E

RADIOACTIVE WASTES

One-Dimensional Analytical Solutions for the Migration of a Three-Member Radionuclide Decay Chain in a Multilayered Geologic Medium,
W86-00081 1901 5B

Sorption Behaviour of 14C in Groundwater/Rock and in Groundwater/Concrete Environments,
W86-00184 1901 5B

Utility of Single Species and Ecosystem Tests in Assessing the Environmental Impact of Radionuclide Ecotoxicants,
W86-00235 1901 5B

Water Plants, an Indicator for Radioactive Contamination (Wasserpflanzen, ein Indikator for Radioaktive Veruneinigungen),
W86-00971 1904 5A

Grouting as a Remedial Technique for Buried Low-Level Radioactive Wastes,
W86-01712 1905 5G

Radio-Telemetry as an Aid to Environmental Contaminant Evaluation of Mobile Wildlife Species,
W86-01886 1905 7B

Results of the Separations Area Ground-Water Monitoring Network for 1981,
W86-01977 1906 5B

Feedwater Cleanup for Combined Electrolysis Catalytic Exchange,
W86-01980 1906 5D

Sediment and Radionuclide Transport in Rivers: Field Sampling Program for Cattaraugus and Buttermilk Creeks, New York,
W86-01988 1906 5B

Hydrogeology of a Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02371 1906 2F

Geologic and Hydrologic Data Collected During 1976-1984 at the Sheffield Low-Level Radioactive-Waste Disposal Site and Adjacent Areas. Sheffiele, Illinois,
W86-02372 1906 2E

Mathematical Simulation of Sediment and Radionuclide Transport in Estuaries,
W86-03284 1908 5B

New Aqueous Waste Treatment Facility at Rocky Flats,
W86-03904 1910 5D

Geohydrology Surrounding a Potential High Level Nuclear Waste Repository in the Palo Duro Basin, TX,
W86-04064 1910 2F

Radionuclide Migration in Strongly Fissured Zones: The Sensitivity to Some Assumptions and Parameters,
W86-05436 1912 5B

Diffusivity Measurements and Electrical Resistivity Measurements in Rock Samples Under Mechanical Stress,
W86-05437 1912 5B

Transport of 60Co Between Water and Sediments in a Small Shield Lake,
W86-05563 1912 5B

RADIOACTIVITY

1983 Water Research Institute Program Final Report, (Maine),
W86-02500 1907 9D

Occurence of Radioactivity in Public Water Supplies in the United States,
W86-05407 1911 5B

RADIOCHEMICAL ANALYSIS

FY 1983 (South Dakota Water Resources Research Institute) Final Program Report,
W86-02628 1907 9D

Ground-Water-Quality Data From the Southern Powder River Basin, Northeastern Wyoming,
W86-03014 1908 2K

RADIOISOTOPES

Radiological Impact of Mining in a Th-Rich Norwegian Area,
W86-00823 1903 5B

Radionuclide Content Measurement and Interpretation in Fish from the Upper Rhone River in France (Mesure et Interpretation des Teneurs en Radionucleides de Poissons du Haut-Rhone Francais),
W86-00970 1904 5A

Results of the Separations Area Ground-Water Monitoring Network for 1981,
W86-01977 1906 5B

Sediment and Radionuclide Transport in Rivers: Field Sampling Program for Cattaraugus and Buttermilk Creeks, New York,
W86-01988 1906 5B

Fates of Uranium and Thorium Decay Series, Nuclides in the Estuarine Environment,
W86-02079 1906 2L

Contamination of Firn Layers by Radioactive Fission Products from Atmospheric Fallout,
W86-05141 1911 5B

Solutions for Radionuclide Transport From an Injection Well Into a Single Fracture in a Porous Formation,
W86-05431 1912 5B

Groundwater Transport of Strontium 90 in a Glacial Outwash Environment,
W86-05432 1912 5B

RADIOMETRY

Use of Satellite Observations,
W86-02010 1906 7B

Total Precipitable Water and Rainfall Determinations from the Seasat Scanning Multichannel Microwave Radiometer (SMMR),
W86-03238 1908 2B

Multi-Parameter Remote Measurement of Rainfall,
W86-03618 1909 2B

Relation Between L-Band Soil Emittance and Soil Water Content,
W86-04688 1911 7B

Satellite Thermal Observation of Oil Slicks on the Persian Gulf,
W86-04689 1911 7B

Precipitable Water: Its Linear Retrieval using Leaps and Bounds Procedure and its Global Distribution from Seasat SMMR Data,
W86-05742 1912 2B

RADIONUCLIDES

Sediment and Radionuclide Transport in Rivers: Field Sampling Program for Cattaraugus and Buttermilk Creeks, New York,
W86-01988 1906 5B

Radioactivity Levels in Municipal Sludge,
W86-05546 1912 5E

RADIOSONDE

Retrieval of Precipitable Water from Bhaskara-II Microwave Measurements and Its Comparison with NOAA-7 and Radiosonde Data,
W86-04653 1910 7B

RADIOSONDES

STREX TOVS/Radiosonde Comparison, Part I: TOVS/AVHRR and Radiosonde Inventory,
W86-00187 1901 7B

Total Precipitable Water and Rainfall Determinations from the Seasat Scanning Multichannel Microwave Radiometer (SMMR),
W86-03238 1908 2B

Radio Echo-Sounding Studies of Englacial Water Movement in Variegated Glacier, Alaska,
W86-04350 1910 2C

RADIOTELEMETRY

FM Radiotelemetry Coupled with Sonic Transducers for Remote Monitoring of Water Levels in Deep Aquifers,
W86-04218 1910 7B

RADISHES

Modeling the Response of Greenhouse-Grown Radish Plants to Acidic Rain,
W86-04668 1910 5C

RADIUM

Removing Barium and Radium Through Calcium Cation Exchange,
W86-00008 1901 5F

Development of a New Process for Treating Uranium Mining Effluents,
W86-00759 1903 5D

Porous Flow Model for Steady State Transport of Radium in Groundwater,
W86-04159 1910 5B

RADIUM RADIOISOTOPES

Accumulation of Radium-226 by Populations of the Freshwater Mussel, Velesunio angasi, from the Alligator Rivers Uranium Province, Northern Territory, Australia,
W86-00972 1904 5C

Distribution and Flux of 226Ra and 228Ra in the Amazon River Estuary,
W86-01535 1905 2L

Occurrence of Natural Radium-226 Radioactivity in Ground Water of Sarasota County, Florida,
W86-02861 1907 5B

226Ra and 228Ra in Water Supplies,
W86-05869 1912 5A

RADON

222Rn Concentrations and Variations in Unconfined Groundwater,
W86-01658 1905 2K

Removal of Radon From Water Supplies,
W86-01729 1905 5F

Occurence of Radioactivity in Public Water Supplies in the United States,
W86-05407 1911 5B

RADON RADIOISOTOPES

Time Variation of Rn 222 Progeny Concentrations in Rainwater,
W86-05142 1911 2B

Health Effects and Risks from Rn222 in Drinking Water,
W86-05143 1911 5C

RAIN

Observation on Microphysical Processes in the Stratiform Precipitations Including Melting Layers at Mt. Fuji,
W86-00425 1902 2B

Estimating Soil Detachment Caused by Raindrop Impact,
W86-00494 1902 2B

Interrill Soil Erosion - Part I: Development of Model Equations,
W86-00495 1902 2J

Effects of Storage on the Composition of Main Components in Rainwater Samples,
W86-00717 1903 2K

Eulerian Model for Scavenging of Pollutants by Raindrops,
W86-00718 1903 5B

Effect of Kinetic Energy of Excess Rainfall on Soil Loss from Non-vegetated Plots,
W86-01028 1904 2J

Atmospheric Sulfur Dioxide and Rainwater at a Coastal Locality in N.W. England,
W86-01352 1905 5B

Effects of Drop Size Distribution Truncation on Rainfall Integral Parameters and Empirical Relations,
W86-01534 1905 2B

Hydrochemical Relationships Between Rainwater, Floods, Groundwater and Lithology in the Avedat Group on the Negev Highlands, Israel,
W86-03789 1909 2A

Generalized Scale Invariance in the Atmosphere and Fractal Models of Rain,
W86-04320 1910 2B

Trace Organic Compounds in Rain. 4. Identities, Concentrations, and Scavenging Mechanisms for Phenols in Urban Air and Rain,
W86-04422 1910 5B

Determination of Trace Elements in Rainwater by Total-Reflection X-Ray Fluorescence,
W86-04457 1910 5A

Gas Chromatographic Evaluation of the Organic Components present in the Atmosphere at Trace Levels with the Aid of Carbopack B for Pre-Concentration of the Sample,
W86-04710 1911 5A

Bromination and Gas Chromatographic Determination of Micro Amounts of Acrolein in Rain Water,
W86-04711 1911 5A

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part I. Attenuation of Radar Wave Due to Precipitation Particles and Correction Method,
W86-05091 1911 2B

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part II. Study on Size Distribution Change of Precipitation Particles,
W86-05092 1911 2B

Achieving Improved Frequency Response of the Rain Structure from Spaceborne Radar Altimeters by Employing Deconvolution Methods,
W86-05098 1911 2B

Rainwater for Drinking in Sri Lanka,
W86-05145 1911 3B

Differences in Ionic Compositions and Behavior in Winter Rain and Snow,
W86-05466 1912 5B

Numerical Simulation of Clouds, Rain, and Airflow over the Vosges and Black Forest Mountains: A Meso-Beta Model with Parameterized Microphysics,
W86-06132 1912 2B

RAIN COMPOSITION

Use of Rain and Dry Deposition Compositions for Interpreting Ground-Water Chemistry,
W86-05394 1911 2K

RAIN FORESTS

Interception Storage Capacities of Tropical Rainforest Canopy Trees,
W86-00037 1901 2I

RAIN GAGES

Measuring Storm Rainfall by Radar and Rain Gage,
W86-02009 1906 7B

International Comparison of National Precipitation Gauges with a Reference Pit Gauge,
W86-03414 1908 7B

Water Balance of Lake Victoria,
W86-04386 1910 2H

Accuracy of Rainfall Estimates by Radar, Part II: Comparison with Raingauge Network,
W86-05110 1911 2B

Accuracy in Rainfall Estimates by Radar, Part III: Application for Short-Term Flood Forecasting,
W86-05111 1911 2B

Design and Laboratory Evaluation of a Simple Fractionating Precipitation Collector,
W86-06091 1912 7B

RAIN WATER

Provisions in Design and Maintenance to Protect Water Quality from Roof Catchments,
W86-05581 1912 5F

RAIN WATER HARVESTING

Effects of Various Factors on the Sizing of Rain Water Cistern Systems,
W86-02650 1907 3B

RAINBOW TROUT

Biological Half-Lives of Eight Polycyclic Aromatic Hydrocarbons (PAHs) in Rainbow Trout (Salmo gairdneri),
W86-04582 1910 5C

Variable Sensitivity of Rainbow Trout (Salmo Gairdneri) Eggs and Alevins to Heavy Metals,
W86-05487 1912 5C

Behavioral Reactions of Fathead Minnow (Pimephales promelas) and Rainbow Trout (Salmo gairdneri) to a Coal Liquid Water-Soluble Fraction,
W86-05803 1912 5C

Pilot-Scale Reuse System for Salmonids,
W86-06007 1912 5D

RAINFALL

Analysis of the Effects of Orography on Surface Rainfall by a Parameterized Numerical Model,
W86-00023 1901 2B

Variance of the T-year Event in the Log Pearson Type-3 Distribution,
W86-00031 1901 2E

Synthesis of Radar Rainfall Data,
W86-00084 1901 2A

Data Management for Continuous Hydrologic Simulation,
W86-00093 1901 2A

Runoff, Sediment Transport, and Water Quality in a Northern Illinois Agricultural Watershed before Urban Development, 1979-81,
W86-00133 1901 2J

Application of Probable Maximum Precipitation Estimates: United States East of the 105th Meridian,
W86-00229 1901 2B

Effects of Soil Erosion on Soybean Production in the Southern Piedmont of Georgia in 1982,
W86-00340 1902 4C

Testing the Climatic Representativeness of Short-Period Records Through Simulation,
W86-00376 1902 2A

Grossversuch IV: 'Extended Area' Effects on Rainfall,
W86-00424 1902 3B

Budget of Nitrogen Dissolved in Rainfall During its Passing Through the Crown Canopy in Forest Ecosystems,

Reclaimed California Wastewater Provides Drought Insurance,
W86-06040 1912 3C

RECONNAISSANCE
Analysis and Interpretation of Data Obtained in Tests of the Geothermal Aquifer at Klamath Falls, Oregon,
W86-00107 1901 2F

RECONSTRUCTION
Reconstruction of a Dam Water Intake Under Conditions of Continuous Operation of the Reservoir,
W86-00990 1904 8A

RECOVERY WELLS
Simulation of Two-Fluid Response in Vicinity of Recovery Wells,
W86-01733 1905 2F

RECREATION
Net Benefit Model for Recreation Planning at Drinking Water Reservoirs,
W86-00792 1903 6G

Relationship Between Stream Recreational Use and Stream Characteristics with Implications for Management of Illinois Streams,
W86-03451 1909 5G

Planning Approach for Improved Management of Illinois Streams for Recreation and Conservation,
W86-03452 1909 5G

River Recreation Experience Opportunities in Two Recreation Opportunity Spectrum (ROS) Classes,
W86-04536 1910 6B

Ingenuity Solves the City's Drainage and Recreational Space Needs,
W86-04737 1911 4A

Phosphorus Removal at the Lower Molongo Water Quality Control Centre,
W86-05081 1911 5D

Evaluating Regional Demand Models for Estimating Recreational Use and Economic Benefits: A Case Study,
W86-05423 1912 6D

Aquatic Weed Control in a Recreational Lake,
W86-05877 1912 4A

RECREATION FACILITIES
Innovative/Alternative Wastewater Collection Systems for Corps of Engineers Recreation Areas,
W86-00331 1902 5D

Red River Gorge Residents: A Cultural and Historical Perspective,
W86-02712 1907 6B

RECREATION PLANNING
Preliminary Evaluation of Lake Susceptibility to Water-Quality Degradation by Recreational Use, Alpine Lakes Wilderness Area, Washington,
W86-00114 1901 5C

RECREATIONAL BENEFITS
Derivation of Unit-Day-Values for Recreation Benefit Valuation in Water Resource Planning, Based on a Comprehensive Theoretical Framework,
W86-02573 1907 6B

RECREATIONAL WATERS
Microbiological Quality of Recreational Waters in the Pacific Northwest,
W86-00840 1903 5B

RECRUITMENT
Factors Affecting Growth and Recruitment of Yellow perch, Perca flavescens Mitchill, in South Bay, Lake Huron,
W86-01508 1905 8I

RECTANGULAR AQUIFERS
Analytical Solutions for Periodic Well Recharge in Rectangular Aquifers with Third-Kind Boundary Conditions,
W86-00041 1901 2F

RECURRENCE INTERVALS
Recurrence Interval of Drought Events Through Stochastic Analysis of Rainfall and Streamflow Data,
W86-01444 1905 2A

RECYCLABLE PAPERS
Utilization of Ozone for the Treatment of Recycleable Papers,
W86-05540 1912 5D

RECYCLING
Utilization of an Industrial Waste Oil as an Alternative Fuel for a Municipal Sludge Incinerator,
W86-02099 1906 5D

Excreta Reuse Options: Composting and Biogas,
W86-02335 1906 5D

Sludge - Recycling for Agricultural Use,
W86-03275 1908 5E

Water Recycling in the Pulp and Paper Industry in California,
W86-03437 1909 3E

Evaluation of the Published Literature in the Water Reuse/Recycle Area,
W86-03521 1909 3E

Anaerobic Pretreatment Facility Also Provides Sludge Disposal Capability and Source of Renewable Energy for Food Processor,
W86-03661 1909 5D

Mile-Deep Reactor Destroys Sludge with Ease,
W86-04289 1910 5E

Small Plant Captures Gas Economically,
W86-04300 1910 5D

Effects of Water Reuse, Recycling and Resource Recovery on Food Processing Waste Treatment in Thailand,
W86-04513 1910 5D

Reuse, Recycling and Resource Recovery in Industrial Applications,
W86-04517 1910 5D

Recycling -- Key to One Steel Mill's Pollution Control,
W86-04956 1911 5D

Sanitary Landfill Leachate Recycle,
W86-04971 1911 5E

Omaha Moves From 'Dispose All' To Management,
W86-04974 1911 5E

Blast Furnace Recycle Water Quality and Reactions of Lead and Zinc,
W86-05056 1911 5F

Utilization of Ozone for the Treatment of Recycleable Papers,
W86-05540 1912 5D

RED RIVER
Economic Evaluation of Salinity Control,
W86-02275 1906 6B

Shoreline Revegetation Studies at Lake Texoma on the Red River, Texas-Oklahoma,
W86-05805 1912 2I

REDOX POTENTIAL
Mobility of Zinc, Cadmium, Copper, Lead, Iron and Arsenic in Ground Water as a Function of Redox Potential and pH,
W86-00706 1903 5B

Redox Potential - Basis of Measurement and Application,
W86-05601 1912 5D

REDUCED PRESSURE IRRIGATION
Reduced Pressure Irrigation Investment Economics,
W86-04166 1910 6C

REDUCTION
Reductive Dechlorination of the Pesticides 2,4-D, 2,4,5-T, and Pentachlorophenol in Anaerobic Sludges,
W86-01707 1905 5D

REDUCTIVE PRECIPITATION
Concentration of Trace Elements in Water Samples by Reductive Precipitation,
W86-04456 1910 5A

REFERENCE MATERIALS
Results of the U.S. Geological Survey's Second International Interlaboratory Analytical Comparison Study--Standard-Reference Water Samples M-86 (Major Constituents), T-87 (Trace Constituents), and P-5 (Precipitation Snowmelt),
W86-03013 1908 7B

REFERENCE SAMPLES
Results of the U.S. Geological Survey's Second International Interlaboratory Analytical Comparison Study--Standard-Reference Water Samples M-86 (Major Constituents), T-87 (Trace Constituents), and P-5 (Precipitation Snowmelt),
W86-03013 1908 7B

REFINERIES
Influence of Oil Refinery Effluents on the Structure of Algal Communities,
W86-00623 1903 5C

REFLECTANCE
Achieving Improved Frequency Response of the Rain Structure from Spaceborne Radar Altimeters by Employing Deconvolution Methods,
W86-05098 1911 2B

REFORESTATION
Stream Acidity in Some Areas of Wales in Relation to Historical Trends in Afforestation and the Usage of Agricultural Limestone,
W86-04600 1910 5B

REFRACTION
Shallow Seismic Refraction Survey of Near-Surface Ground Water Flow,
W86-04658 1910 2F

REGIONAL ANALYSIS
Areal Intensity-Duration-Frequency Curves: A Possible Way of Improving the Rainfall Input
W86-00095 1901 2B

Hydrological Regionalisation: A Question of Problem and Scale,
W86-00096 1901 2E

Techniques for Estimating Magnitude and Frequency of Floods on Streams in Indiana,
W86-02780 1907 2E

Regional Aquifer-System Analysis of the Northern Great Plains in Parts of Montana, North Dakota, South Dakota, and Wyoming--Freshwater Heads and Ground-Water Temperatures in Aquifers,
W86-02914 1907 2F

Geohydrologic Sections, Northern Louisiana,
W86-03083 1908 7C

Climatic Pattern Analysis of Three- and Seven-Day Summer Rainfall in the Central United States: Some Methodological Considerations and a Regionalization,
W86-04593 1910 2B

Methodology of Regional Hydrogeological Forecasts for Inter-Basin Water Transfer Operation,
W86-05646 1912 4B

REGIONAL AQUIFER SYSTEM
Hydrogeologic Framework for the Sand Aquifer of the Southeastern United States Coastal Plain,
W86-03041 1908 2F

REGIONAL DEVELOPMENT
Regionalization of Water Supply and Sanitation Services,
W86-02326 1906 5F

Effect of Agricultural and Residential Development on Aquatic Macrophytes in the New Jersey Pine Barrens,
W86-05935 1912 5C

REGIONAL FLOODS
Flood Frequency and Storm Runoff of Urban Areas of Memphis and Shelby County, Tennessee,
W86-03078 1908 4A

REGIONAL PLANNING
Programming Models for Regional Water Demand Analysis,
W86-00276 1901 6D

REGIONAL VARIATION
Seasonal and Regional Variability of Parameters for Stochastic Daily Precipitation Models: South Dakota, U.S.A.,
W86-05257 1911 2B

REGIONALIZATION
Regionalization: A Decade Points to More Change,
W86-01086 1904 6E

REGOLITH AQUIFERS
Empirical Equations of Groundwater Recharge Patterns,
W86-04390 1910 2F

REGRESSION ANALYSIS
Data Management for Continuous Hydrologic Simulation,
W86-00093 1901 2A

Trend Analysis of Salt Load and Evaluation of the Frequency of Water-Quality Measurements for the Gunnison, the Colorado, and the Dolores Rivers in Colorado and Utah,
W86-00123 1901 5B

Magnitude and Frequency of Flood Volumes for Urban Watersheds in Leon County, Florida,
W86-02354 1906 2E

Statistical Models for Estimating Flow Characteristics of Michigan Streams,
W86-02411 1906 2E

Techniques for Estimating Magnitude and Frequency of Floods on Streams in Indiana,
W86-02780 1907 2E

Magnitude and Frequency of Floods in Alabama,
W86-02857 1907 2E

Method of Estimating Flood Volumes in Western Kansas,
W86-02922 1908 4A

Flood Frequency and Storm Runoff of Urban Areas of Memphis and Shelby County, Tennessee,
W86-03078 1908 4A

Relations of Suspended Sediment to Streamflow in the Green River, Wyoming,
W86-03174 1908 2J

Conditions and Frequency of Sampling for Elucidations of Transport Mechanisms and Element Budgets in Upland Drainage Basins,
W86-03770 1909 7A

Practical Guidelines for the Use of Zooplankton Length-Weight Regression Equations,
W86-05182 1911 2H

REGRESSION MODELS
Regression Models for Estimating Storm Runoff Load and its Application to Lake Kasumigaura,
W86-05584 1912 5B

REGULATED FLOW
Estimation of Phosphorus Flux in a Regulated Channel,
W86-00062 1901 5A

Phase I Summary and Phase II Plan for Comparing Regulated with Unregulated Streamflow in the Yakima River at Union Gap, Washington,
W86-02378 1906 4A

Availabilty of Natural and Regulated Streamflows for Instream Uses During Historical Droughts, Lower Neosho River, Southeastern Kansas,
W86-02838 1907 2E

REGULATIONS
When Water Quantity Regulation is Not Water Quantity Regulation. Riverside v. Andrews, 568 F. Supp. 583 (D. Colo. 1983),
W86-00564 1902 6E

Effluent Regulation and Long-Run Optimality,
W86-01684 1905 6E

Revised Section 301 (h) Technical Support Document,
W86-03259 1908 6E

Status Report on Compliance with the Chlor-Alkali Mercury Liquid Effluent Regulations 1978-79,
W86-03613 1909 5D

Status Report on Compliance with the Chlor-Alkali Mercury Liquid Effluent Regulations 1980-81,
W86-03633 1909 5E

Estimating Risk to Human Health,
W86-04977 1911 5B

Exception that Approves the Rule: FDF Variances Under the Clean Water Act,
W86-05952 1912 6E

REHABILITATION
Salvaging a Water Reservoir,
W86-04739 1911 8A

Evaluation of High Density Cross Flow Media for Rehabilitating an Existing Trickling Filter,
W86-05031 1911 5D

Egypt Sewerage Fix Begins to Take Hold,
W86-05510 1912 5D

REINFORCED EARTH
Technology of Reinforced Earth Walls,
W86-01214 1904 8D

RELATIVE HUMIDITY
Comparison of Metabolic Inhibitors, Film-Forming Antitranspirants, and Microject Irrigation for Water Use Efficiency of Rabbiteye Blueberries,
W86-02433 1907 3D

RELIABILITY
Interpolating Water-Table Altitudes in West-Central Kansas Using Kriging Techniques,
W86-02880 1907 2F

Confirmation of the Water Quality Model CE-QUAL-R1 Using Data from Eau Galle Reservoir, Wisconsin,
W86-04941 1911 5B

RELIEF SEWERS
Making Effective Use of Existing Collection Capacity,
W86-04291 1910 5D

REMEDIES
Remedial Action at Waste Disposal Sites (Revised): Handbook.
W86-04820 1911 5D

REMOTE CONTROL
Low-Cost System to Remotely Measure Piezometric Head,
W86-04214 1910 2E

REMOTE SENSING
Monitoring of Reservoir Volume Using Landsat Data,
W86-00032 1901 7C

STREX TOVS/Radiosonde Comparison, Part I: TOVS/AVHRR and Radiosonde Inventory,
W86-00187 1901 7B

Arctic Marine Oilspill Program (AMOP) Remote Sensing Study,
W86-00258 1901 7B

Boulder Upslope Cloud Observation Experiment.
W86-00261 1901 2B

Use of Satellite Imagery for Tracking the Kurdistan Oil Spill,
W86-00291 1901 7B

Remote Detection of Groundwater Contaminants Using Far-Ultraviolet Laser-Induced Fluorescence,
W86-00818 1903 7B

Rain Estimation in Extratropical Cyclones Using GMS Imagery,
W86-00859 1903 2B

Evapotranspiration Derived from Satellite Observed Surface Temperatures,
W86-01135 1904 2D

Machine Classification of Freshwater Ice Types from Landsat-1 Digital Data Using Ice Albedos as Training Sets,
W86-01288 1904 2C

Set of Remote-Sensing Apparatus for Quick Methods of Hydrologic Observations on Inland Water Bodies,
W86-01828 1905 7B

Observation and Measurement of Hailfall,
W86-02007 1906 7B

Weather Radar,
W86-02008 1906 7B

Measuring Storm Rainfall by Radar and Rain Gage,
W86-02009 1906 7B

Evapotranspiration Obtained from Remote Sensing Methods,
W86-02134 1906 7B

Use of Aerial Photography and Remote Sensing in the Management of Hazardous Wastes,
W86-02224 1906 5G

Utilization of Thermal Emittance Data to Monitor Soil Moisture and Subsurface Groundwater,
W86-02429 1907 2F

Linear Features Determined from Landsat Imagery in Wyoming,
W86-03120 1908 7C

Linear Features Determined from Landsat Imagery in North Dakota,
W86-03144 1908 7C

Linear Features Determined from Landsat Imagery for the Richfield 1 deg. by 2 deg. Quadrangle and Adjacent Part of Southwestern Utah,
W86-03165 1908 7C

Total Precipitable Water and Rainfall Determinations from the Seasat Scanning Multichannel Microwave Radiometer (SMMR),
W86-03238 1908 2B

Limnological Applications of Multispectral Remote Sensing,
W86-03277 1908 7B

Determination of Turbidity Patterns in Lake Chicot from Landsat MSS Imagery,
W86-03291 1908 2J

Remote Sensing Applications in African Erosion and Sedimentation Studies,
W86-03592 1909 7B

Multi-Parameter Remote Measurement of Rainfall,
W86-03618 1909 2B

Use of Landsat Digital Information for Assessing Glacier Inventory Parameters,
W86-03702 1909 2C

Groundwater Pollution in Northwest Arkansas,
W86-04074 1910 5B

FM Radiotelemetry Coupled with Sonic Transducers for Remote Monitoring of Water Levels in Deep Aquifers,
W86-04218 1910 7B

Retrieval of Precipitable Water from Bhaskara-II Microwave Measurements and Its Comparison with NOAA-7 and Radiosonde Data,
W86-04653 1910 7B

Relation Between L-Band Soil Emittance and Soil Water Content,
W86-04688 1911 7B

Satellite Thermal Observation of Oil Slicks on the Persian Gulf,
W86-04689 1911 7B

Satellite Data as Basis for the Estimation of Rainfall and Runoff,
W86-04809 1911 7B

Grid History: A Geostationary Satellite Technique for Estimating Daily Rainfall in the Tropics,
W86-05475 1912 2B

Measurement of Areal Water Equivalent of Snow by Natural Gamma Radiation - Experiences from Northern Sweden,
W86-05543 1912 2C

Kerr Reservoir LANDSAT Experiment Analysis for March 1981,
W86-05746 1912 5A

Model for Estimating Time-Variant Rainfall Infiltration as a Function of Antecedent Surface Moisture and Hydrologic Soil Type,
W86-05792 1912 2G

Use of Satellite Data in Rainfall Monitoring,
W86-05802 1912 2B

Correlation of Chlorophyll Concentrations and Suspended Solids with Near-Surface Upward Irradiance within Landsat Bands 4, 5 and 6,
W86-05813 1912 5A

Tracking a Stormy Beast in the Night,
W86-05905 1912 2B

REMOVAL EFFFICIENCY
New Conceptual Formulation for Predicting Filter Performance,
W86-00661 1903 5D

REPLENISHMENT
Estimating Interface Advance Due to Abrupt Changes in Replenishment in Unconfined Coastal Aquifers,
W86-01474 1905 2F

REPRODUCTION
Effect of Safe Concentrations of Some Pesticides on Ovarian Recrudescence in the Freshwater Murrel, Channa punctatus (Bl.): A Quantitative Study,
W86-00872 1903 5C

Short-Term Test for Predicting the Potential of Xenobiotics to Impair Reproductive Success in Fish,
W86-00874 1903 5A

Population and Reproductive Dynamics of Nais communis (Oligochaeta: Naididae) from a Wisconsin Limnocrene,
W86-01879 1905 2H

Effect of Fluorides on Survival and Reproduction of Daphnia Magna,
W86-05024 1911 5C

Effects of Metal Salt Mixtures on Daphnia Magna Reproduction,
W86-05489 1912 5C

Preliminary Investigation of Effects of Sublethal Acid Exposure on Maternal Behavior in the Crayfish Orconectes Virilis,
W86-05849 1912 5C

Bass Nurseries on the West Coast of the U.K.,
W86-06031 1912 2L

REPTILES
Large-Scale Operations Management Test of Use of the White Amur for Control of Problem Aquatic Plants: The Herpetofauna of Lake Conway, Species Accounts,
W86-00202 1901 6G

Large-Scale Operations Management Test of Use of the White Amur for Control of Problem Aquatic Plants, Report 1: Baseline Studies, Volume V, The Herpetofauna of Lake Conway, Florida,
W86-03458 1909 2H

RHODAMINE B
Sensitive, Simple Determination of Oxidants in Chlorinated Waters,
W86-02180 1906 5A

RHODE ISLAND
Benthic Nutrient Remineralization in a Coastal Lagoon Ecosystem,
W86-01336 1905 2L

Eutrophication and Management Initiatives for the Control of Nutrient Inputs to Rhode Island Coastal Lagoons,
W86-01337 1905 5C

Stormwater Runoff From Highways,
W86-01605 1905 5B

Watershed Protection Strategies for the Scituate Reservoir,
W86-01752 1905 4C

Estuarine Total System Metabolism and Organic Exchange Calculated from Nutrient Ratios: An Example from Narragansett Bay,
W86-02082 1906 2L

Rapid Detection and Identification of Bacteria in Sewage and Natural Waters by Means of Time-Resolved Laser Spectroscopies,
W86-02489 1907 5A

Rhode Island Water Resources Center, Annual Program Report, Fiscal Year 1983,
W86-02490 1907 9D

Acid Precipitation: Source Identification and Its Effects on Water Quality,
W86-02491 1907 5B

Role of Nitrification in Contributing to Low Oxygen Conditions in an Urban Waterway,
W86-02508 1907 5B

Ground-Water Development Alternatives in the Chipuxet Ground-Water Reservoir, Rhode Island,
W86-03001 1908 2F

RHONE RIVER
Radionuclide Content Measurement and Interpretation in Fish from the Upper Rhone River in France (Mesure et Interpretation des Teneurs en Radionucleides de Poissons du Haut-Rhone Francais),
W86-00970 1904 5A

Contribution of Backwaters to the Ecology of Fish Populations in Large Rivers. Preliminary Results on Fish Migrations within a Side Arm and from the Side Arm to the Main Channel of the Rhone,
W86-00975 1904 2H

RHUM
Aquatic Angiosperm Communities from Lochs on Rhum,
W86-00906 1903 2H

RICE
Persistence of Aldrin in Flooded Soil under the Cover of Rice,
W86-00875 1903 5B

Volumetric Pricing of Agricultural Water Supplies: A Case Study,
W86-01766 1905 6C

Rice Herbicides: Molinate (Ordram) and Thiobencarb (Bolero),
W86-03447 1909 5G

Distribution of Carbofuran in a Rice-Paddy-Fish Microecosystem,
W86-04966 1911 5B

Salinity Resistance in Rice (Oryza sativa L.) and a Pyramiding Approach to Breeding Varieties for Saline Soils,
W86-05960 1912 3C

RICE FIELDS
Dissipation of Carbaryl and the 1-Naphthol Metabolite in Flooded Rice Fields,
W86-01708 1905 5B

Algal Ecology of Deepwater Rice-Fields in Thailand,
W86-04181 1910 5C

RIDRACOLI DAM
Construction of the Ridracoli Dam,
W86-01692 1905 8A

RIFT VALLEY FEVER
Rainfall and Epizootic Rift Valley Fever,
W86-04663 1910 5G

RIHAND RESERVOIR
Limnological Observations on Rihand Reservoir (Uttar Pradesh) with Reference to the Physical and Chemical Parameters of its Water,
W86-05165 1911 2H

RILL EROSION
Effect of Soil Characteristics on Erosion and Nutrient Loss,
W86-04908 1911 2J

RIME
Role of Liquid Water on an Ice Surface During Riming Electrification - Basic Experiment in Thunderstorm Electrification,
W86-01528 1905 2C

RINSE WATER
Industrial Water Reuse with Coupled-Transport Membranes,
W86-02425 1907 5D

RIO GRANDE BASIN
Potential Seepage Losses in an Alluvial Channel--Rio Grande Basin Between Cochiti Dam and Elephant Butte Reservoir, New Mexico,
W86-02779 1907 2A

RIO GRANDE VALLEY
Insecticide Resistance in Mosquitofish of the Lower Rio Grande Valley of Texas - An Ecological Hazard,
W86-01889 1905 5C

RIO MACHO
Evaluation of Thornthwaite's Water Balance Technique in Predicting Stream Runoff in Costa Rica,
W86-04393 1910 2E

RIPARIAN ECOLOGY
Biohydrology of Mountain Fluvial Systems: the Yellowstone (Parts I and II),
W86-02452 1907 6G

RIPARIAN ECOSYSTEMS
Riparian Zone Systems, Uses, and Management,
W86-02668 1907 4D

RIPARIAN LAND
Riparian Zone Systems, Uses, and Management,
W86-02668 1907 4D

RIPARIAN VEGETATION
Riparian Zone Systems, Uses, and Management,
W86-02668 1907 4D

Riparian Shrubby Vegetation Protection Against Herbivore Browsing,
W86-02670 1907 4D

RIPARIAN WATERS
Riparian and Stream Enhancement Management and Research in the Rocky Mountains,
W86-00588 1902 6B

Riparian Zone Systems, Uses, and Management,
W86-02668 1907 4D

RIPARIAN ZONE MANAGEMENT
Riparian Zone Systems, Uses, and Management,
W86-02668 1907 4D

RIPARIAN ZONES
Riparian Zone Systems, Uses, and Management,
W86-02668 1907 4D

RIPPLE GEOMETRY
Determination of Ripple Geometry,
W86-01732 1905 2E

Determination of Ripple Geometry,
W86-05856 1912 2E

RIPPLE MARKS
Formation of Ripples in Erodible Channels,
W86-01538 1905 2J

Determination of Ripple Geometry,
W86-01732 1905 2E

RIPRAP
Wave Stability Study of Riprap-Filled Cells: Hydraulic Model Investigation,
W86-00283 1901 8A

Stability of Armor Units on Composite Slopes,
W86-06112 1912 8A

RISK
Application of the Preliminary Pollutant Limit Value (PPLV) Environmental Risk Assessment Approach to Selected Land Uses,
W86-03374 1908 5B

Flexibility - A Key to the Management of Risk and Uncertainty in Water Supply,
W86-05766 1912 6A

RISK ANALYSIS
Risk Analysis for Seismic Design of Tailings Dams,
W86-01090 1904 8D

RISK ASSESSMENT
Recent Heavy Precipitation in the Vicinity of the Great Salt Lake: Just How Unusual,
W86-05550 1912 2H

RISK ASSESSMENTS
Detection and Assessment of Groundwater Contaminations by Organic Chemicals,
W86-05720 1912 5A

RISKS
Optimal Expansion and Operation Under Uncertainty of a Water Supply System with Multiple Water Systems,
W86-02530 1907 6A

Role of Multimedia Fate Models in Chemical Risk Assessment,
W86-03366 1908 5B

Mathematical Modeling Application to Environmental Risk Assessments,
W86-03373 1908 5B

Risk Costs for New Dams: Economic Analysis and Effects of Monitoring,
W86-04156 1910 6C

Health Risk Comparison between Groundwater Transport Models and Field Data,
W86-04397 1910 5B

Risk Penalty Functions for Hazardous Waste Management,
W86-04644 1910 5G

Estimating Risk to Human Health,
W86-04977 1911 5B

RIVER
Estimation of Discharge and Loads from the Rivers Flowing into Littoral Seas of China (in Chinese),
W86-01167 1904 2J

RIVER BASINS
Discrete-Time Linear Cascade under Time Averaging,
W86-00028 1901 2A

Role of Natural Resource Inventories in the Passaic River Basin, New Jersey,
W86-03321 1908 6B

Induced Change and Its Impact on Aquatic Community Quality in the Sangamon River Basin of Illinois,
W86-03453 1909 5G

Distribution and Relative Abundance of Fishes in Wisconsin; V: Grant and Platte, Coon and Bad Axe, and LaCrosse River Basins,
W86-03501 1909 6G

Application Guide for Hydrological Simulation Program: FORTRAN (HSPF),
W86-03614 1909 2A

User's Manual for EXPLORE-I: A River Basin Water Quality Model, Hydraulic Module Only,
W86-03646 1909 2A

Geochemical Studies in the Drainage Basin of the Rio Vouga (Portugal). I. General Hydrogeochemistry from Its Origin to the Ria de Aveiro,
W86-03776 1909 2K

River Basin Development: Proceedings of the National Symposium on River Basin Development.
W86-03957 1910 6E

Some Major Issues in River Basin Management for Developing Countries,
W86-03958 1910 6E

Developing the Ganges Basin,
W86-03959 1910 6E

Integrated Development of the Delta and Upland Portions of a River Basin,
W86-03960 1910 6E

Considerations for Development of a Basin Model for Bangladesh,
W86-03961 1910 2A

Lower Mekong Basin Development,
W86-03962 1910 6E

Brahmaputra River Basin Development,
W86-03963 1910 6B

Ganges Basin Development: A Long-Term Problem and Some Short-Term Options,
W86-03964 1910 6E

Regional Co-Operation in the Utilization of Water Resources of the Himalayan River,
W86-03965 1910 6E

Functions of Integrated National Water Planning in the Netherlands and Bangladesh,
W86-03966 1910 6E

Management of River Systems in the Ganges and Brahmaputra Basins for Development of Water Resources,
W86-03967 1910 6E

Irrigation Water Requirements in Bangladesh,
W86-03968 1910 6D

Contribution of Isotope Techniques in the Determination of the Relationship Surface Water/Groundwater in Bangladesh (Ganges and Brahmaputra areas),
W86-03969 1910 2A

International River Law,
W86-03970 1910 6E

Institutional and Legal Framework for Co-operation Between Bangladesh and India on Shared Water Resources,
W86-03971 1910 6E

Sedimentation Problems in River Basins.
W86-03973 1910 2J

Installation and Operation of a Bubble Gauge Network in the Mahakam River Basin, East Kalimantan, Indonesia,
W86-04800 1911 7B

Developments in Hydrometry in Central America and Brazil,
W86-04813 1911 7B

River Basins,
W86-04816 1911 8I

Accuracy of Estimating Basin Denudation Processes from Suspended Sediment Measurements,
W86-04864 1911 2J

Basin-Wide Impacts of Irrigation Efficiency,
W86-05236 1911 3F

Roles Along the Rivers,
W86-05327 1911 6E

Joint Use of Surface Water and Ground Water or Large Aquifers of Volcanic Origin (L'Usage Conjoint d'Eaux Superficielles et d'Eaux Souterraines dans un Bassin ou l'On a un Grand Aquifere Constitue de Roches Volcaniques),
W86-05690 1912 6D

Large Basin Deterministic Hydrology: A Case Study,
W86-05860 1912 2E

RIVER BEDS
Direct Measurements of Secondary Currents in a Meandering Sand-Bed River,
W86-01171 1904 2E

PCB Transport in the Ft. Edward Area,
W86-01562 1905 5B

Prediction of 2-D Bed Topography in Rivers,
W86-01734 1905 2J

River Mechanics,
W86-04750 1911 2J

Method for Uniformizing the Stage-Discharge Relations of Stable River Beds and Its Application,
W86-04790 1911 7B

Equations for Estimating Discharge in Steep Channels with Coarse Bed Material,
W86-04791 1911 2E

Long Term Prediction of the Extremes of River Bed Level Fluctuations,
W86-04909 1911 2E

Morphological Investigations on the Lower Salzach River Downstream of Salzburg,
W86-04918 1911 2J

Effects of Cross Dykes on Alternate Bars,
W86-05641 1912 2J

Unified Bar-Bend Theory of River Meanders,
W86-06144 1912 2E

RIVER CAUVERY
Studies of Water Pollution of the River Cauvery - Physico-Chemical Characteristics,
W86-00657 1903 5B

RIVER DART
Nitrate Behaviour in Streamflow from a Grassland Catchment in Devon, U.K.,
W86-01642 1905 5B

RIVER DEE
River Dee Scheme and Intake Protection Systems,
W86-04752 1911 5F

RIVER DIFFUSERS
Comparison of Two River Diffuser Models,
W86-01093 1904 8B

RIVER DON
Development and Use of an Empirical Model for Dissolved Oxygen in the River Don, Aberdeenshire,
W86-00937 1904 5A

RIVER ENGINEERING
River Mechanics,
W86-04750 1911 2J

RIVER ERMS
Use of Bacteria Attached to Submerged Macrophytes and Glass Slides as Indicators of an Increasing Water Pollution,
W86-00943 1904 7B

RIVER FLOW
Estimation of Discharge and Loads from the Rivers Flowing into Littoral Seas of China (in Chinese),
W86-01167 1904 2J

Comparison of Two Models for Predicting River Water Quality,
W86-01438 1905 5B

Migration Patterns of an Asymmetric Meandering River: The Rouge River, Quebec,
W86-05219 1911 2E

Effects of Cross Dykes on Alternate Bars,
W86-05641 1912 2J

RIVER FORECASTING
Streamflow Routing in the Schoharie Creek Basin, Near North Blenheim, New York,
W86-01968 1906 2E

Evaluation of Future Base-Flow Water-Quality Conditions in the Hillsborough River, Florida,
W86-03546 1909 5B

Study of a Real Time Adaptive Closed-Loop Reservoir Control Algorithm,
W86-05781 1912 4A

RIVER GEUL
Using Several Indices for Biological Assessment of Water Quality in Running Water,
W86-00942 1904 5A

RIVER ICE
Flow Resistance of River Ice Cover,
W86-05818 1912 2C

RIVER LAGAN
Influence of an Artificial Hydraulic Regime on Water Quality in the Tidal River Lagan, Northern Ireland,
W86-05080 1911 5G

RIVER LOADS
River Loads Underestimated by Rating Curves,
W86-04162 1910 5B

RIVER MECHANICS
River Mechanics,
W86-04750 1911 2J

River Rsponse to Dredging,
W86-05499 1912 8B

RIVER MORPHOLOGY
Morphological Investigations on the Lower Salzach River Downstream of Salzburg,
W86-04918 1911 2J

RIVER MOUTH
Computer Simulations of the Fraser River Plume,
W86-01328 1905 2L

RIVER PLONIA
Possibilities of Obtaining Zooplankton from the River Plonia to Feed Young Fish,
W86-01320 1905 2H

RIVER QUALITY ASSESSMENT
Nutrient and Detritus Transport in the Apalachicola River, Florida,
W86-02356 1906 5B

RIVER RAJANG
About a Source of Nutrients in the Tropical River Rajang (N Borneo) in Relation to Future Impoundment,
W86-00921 1904 6G

RIVER RAY
Comparing Some Methods of Estimating Mean Areal Rainfall,
W86-06022 1912 2B

RIVER REGULATIONS
Phase I Summary and Phase II Plan for Comparing Regulated with Unregulated Streamflow in the Yakima River at Union Gap, Washington,
W86-02378 1906 4A

RIVER SEDIMENTS
Chemical Composition of River Sediments from the Indian Sub-Continent,
W86-00771 1903 2J

Mercury Resistant Bacteria Isolated from Sediment,
W86-05481 1912 5C

RIVER SOLIMOES
Responses of Phytoplankton in Lake Jacaretinga to Enrichment with Nitrogen and Phosphorus in Concentrations Similar to Those of the River Solimoes (Amazon, Brazil),
W86-01500 1905 2H

RIVER SYSTEMS
River Typology of Sao Paulo State, Brazil,
W86-00929 1904 2H

RIVER WYE
Epipelic Algal Flora of the River Wye System, Wales, UK. 1. Productivity and Total Biomass Dynamics,
W86-05158 1911 2H

RIVERS
Heterotrophic Slimes in Irish Rivers, Evaluation of the Problem,
W86-00053 1901 5B

Hydrocarbons Associated with Suspended Matter in the Green River, Washington,
W86-00196 1901 5B

Development of a Numerical Modeling Capability for the Computation of Unsteady Flow on the Ohio River and Its Major Tributaries,
W86-00220 1901 2E

Opportunities to Protect Instream Flows in Alaska,
W86-00280 1901 6E

Report of Freshwater Mollusks Workshop, May 19-20, 1981.
W86-00329 1902 6G

Habitat Development for Freshwater Mollusks in the Tombigbee River near Columbus, Mississippi,
W86-00330 1902 8I

Automatic Water Quality Monitoring in Rivers Exposed to Injurious Activities,
W86-00671 1903 5A

Flowing Water Resources,
W86-00791 1903 2A

Diatom Communities of the Polluted Rivers of Central Poland (Les Communautes des Diatomees dans les Rivieres Polluees de la Pologne Centrale),
W86-00947 1904 5C

Model Study of Salt-Water Intrusion to a River Using the Sharp Interface Approximation,
W86-01308 1904 2F

Analysis of the Benthic Macroinvertebrate Community of a Fluctuating River-Reservoir Zone in Middle Tennessee,
W86-01317 1904 6G

Impact of River Channelization; IV. The Ecological Effects of Channelization,
W86-01404 1905 6G

Distribution and Characteristics of Carboxypeptidase Activity in Pond, River, and Seawaters, in the Vicinity of Tokyo,
W86-01418 1905 2H

Survey of 2,3,7,8-Tetrachlorobidenzo-p-dioxin in Fish from the Great Lakes and Selected Michigan Rivers,
W86-01527 1905 5B

Results of Ohio River Macroinvertebrate Sampling for 1975-1981,
W86-01591 1905 5C

Microbiological Characteristics of Water Masses in the Mouth Regions of Large Rivers Flowing into Northern Baikal,
W86-01825 1905 2H

Chemical Composition of Transkei River Water,
W86-01862 1905 2H

Morphological Modelling for Rivers with Nonuniform Sediment,
W86-03269 1908 2J

Workshop on Riverine Water Quality Modeling,
W86-03293 1908 7B

Human Adaptation Along the Columbia River 4700-1600 BP.: A Report of Test Excavation at River Mile 590, North Central Washington,
W86-03460 1909 6E

Impounded Rivers: Perspectives for Ecological Management,
W86-03516 1909 6G

Sediment Yields of African Rivers,

RIVERSIDE BAYVIEW HOMES
Sixth Circuit's Unsettling Interpretation of the Corps of Engineers' Wetland Definition. United States v. Riverside Bayview Homes, Inc., 729 F. 2d 391 (6th Cir. 1984), cert. granted, 53 U.S.L.W. 3597 (U.S. Feb. 19, 1985) (No. 84-701),
W86-00562 1902 6E

RIVERSIDE IRRIGATION DISTRICT
When Water Quantity Regulation is Not Water Quantity Regulation. Riverside v. Andrews, 568 F. Supp. 583 (D. Colo. 1983),
W86-00564 1902 6E

RIVERTON UNIT
Plastic Lining on Riverton Unit, Wyoming,
W86-05240 1911 8G

RNA SYNTHESIS
Rapidity of RNA Synthesis in Human Cells; A Highly Sensitive Parameter for Water Cytotoxicity Evaluation,
W86-00052 1901 5A

ROACH
Metabolites of Xenobiotics in the Bile of Fish in Waterways Polluted by Pulpmill Effluents,
W86-05482 1912 5B

ROAD CONSTRUCTION
Calculating Sediment Discharge from a Highway Construction Site in Central Pennsylvania,
W86-03102 1908 4C

Handbook for Protection of Fish and Wildlife From Construction of Farm and Forest Roads,
W86-03257 1908 6B

ROAD SALT
CMA: An Alternative to Road Salt,
W86-04359 1910 5G

ROCK FILL
Hydraulic Conductivity of Rockfill: Volume I,
W86-02555 1907 8E

ROCK GLACIERS
Rock Glaciers: Glacial and Non-Glacial Origins,
W86-03698 1909 2C

ROCK MATRICES
Measurement of Important Parameters Determining Aqueous Phase Diffusion Rates through Crystalline Rock Matrices,
W86-05297 1911 5B

ROCK MECHANICS
Ways of Using the Bearing Properties of a Rock Mass When Designing Underground Hydraulic Structures,
W86-00982 1904 8E

ROCK PROPERTIES
Generalized Relations Between Static and Dynamic Indices of Rock Deformability,
W86-00985 1904 8E

Design of Pervious Pressure Tunnels,
W86-05008 1911 8A

ROCKBURSTS
Rockburst Drama in Northern India,
W86-01462 1905 8A

ROCKFILL DAMS
Hydraulic Conductivity of Rockfill: Volume I,
W86-02555 1907 8E

Hydraulic Conductivity of Rockfill: Volume II,
W86-02556 1907 8E

World's Highest Dam Conquers Harsh Environment,
W86-05002 1911 8D

ROCKS
Macroinvertebrate Community of Stones in an Australian Upland Stream,
W86-00926 1904 2H

Comparative Study of Sequential Redox Processes in Three British Aquifers,
W86-03758 1909 2F

Hydrochemical Relationships Between Rainwater, Floods, Groundwater and Lithology in the Avedat Group on the Negev Highlands, Israel,
W86-03789 1909 2A

On-Site Assessment of Rock Discontinuities from Resistivity Logs. T-L Log: A New Logging Technique,
W86-05113 1911 8E

ROCKY MOUNTAINS
Riparian and Stream Enhancement Management and Research in the Rocky Mountains,
W86-00588 1902 6B

Acid Precipitation and Surface-Water Vulnerability on the Western Slope of the High Colorado Rockies,
W86-01356 1905 5B

RODENTS
Cellular Mechanisms of Paraquat Toxicity,
W86-00356 1902 5C

Peculiar Structure of the Tularemia Natural Focus in the Don River Delta with Special Reference to Economical Influence (Sovremennaya Struktura Prirodhogo Ochaga Tulyaremii Del'ty Dona v Svyazi s Khozyaistvennym Vozdeistviem),
W86-00593 1902 6G

ROGUN DAM
World's Highest Dam Conquers Harsh Environment,
W86-05002 1911 8D

ROOFTOP COLLECTION
Provisions in Design and Maintenance to Protect Water Quality from Roof Catchments,
W86-05581 1912 5F

ROOT DEVELOPMENT
Model of Root Growth and Water Uptake Accounting for Photosynthesis, Respiration, Transpiration, and Soil Hydraulics,
W86-02132 1906 2I

ROOT-WATER-UPTAKE MODELS
Comparing the Performance of Root-Water-Uptake Models,
W86-00048 1901 2D

ROOT ZONE
Effects of Irrigation and Soil Management for Fodder Crops on Root Zone Conditions in a Red-brown Earth,
W86-01032 1904 3F

At the Root of the Matter,
W86-05122 1911 5D

Chemical Reactions within Root Zone of Arid Zone Soils,
W86-05233 1911 5B

ROSOCYANIN
Photometric Determination of Boron in Ground- and Surface Water (Photometrische Bestimmung von Bor Im Grund- und Oberflachenwasser),
W86-04707 1911 5A

ROTATING BIOLOGICAL CONTACTOR
Alternative RBC Design—Second Order Kinetics,
W86-04396 1910 5D

Energy Usage of Rotating Biological Contactor Facilities,
W86-05019 1911 5D

COD Removal Rates in RBC Systems,
W86-05519 1912 5D

ROTATING BIOLOGICAL CONTACTORS
Mathematical Model of Simultaneous Organic Oxidation, Nitrification, and Denitrification in Rotating Biological Contactors,
W86-00762 1903 5D

Effect of Operation Conditions on Biological Fe(2+) Oxidation with Rotating Biological Contactors,
W86-04111 1910 5F

ROTAVIRUS
Replication of Human Rotavirus in Tissue Culture: Recovery and Detection in Fecal, Sewage, and Natural Water Samples,
W86-02630 1907 5A

ROTAVIRUSES
Concentration of Rotavirus by Ultrafiltration,
W86-04112 1910 5G

ROTENONE
Uptake, Biotransformation, and Elimination of Rotenone by Bluegills (Lepomis macrochirus),
W86-01159 1904 5C

Further Investigations of Goldfish in Eastern Washington Lakes and Evaluation of Electrofishing as a Tool for Conducting Removal Operations,
W86-02511 1907 5G

ROTIFERS
Effect of Biotic and Abiotic Factors on the Occurrence of Planktonic Rotifers (Rotatoria) in the Plawniowice Duze Reservoir (Upper Silesia, Poland),
W86-01321 1905 2H

ROTORUA
Relationships Between Zooplankton Abundance and Trophic State in Seven New Zealand Lakes,
W86-00441 1902 2H

ROUGE RIVER
Migration Patterns of an Asymmetric Meandering River: The Rouge River, Quebec,
W86-05219 1911 2E

ROUGHNESS COEFFICIENT
Roughness Coefficients for Routing Surface Runoff,
W86-05926 1912 2A

ROUTING
Availabilty of Natural and Regulated Streamflows for Instream Uses During Historical Droughts, Lower Neosho River, Southeastern Kansas,
W86-02838 1907 2E

ROW SPACING
Row Spacing, Plant Population, and Water Management Effects on Corn in the Atlantic Coastal Plain,
W86-00460 1902 3F

ROZKOS RESERVOIR
Elimination of Nutrients in the Rozkos-Reservoir,
W86-01002 1904 5B

ROZTOKA
Influence of Organic Pollution on the Macroinvertebrate Communities of Mountain Streams,
W86-00948 1904 5C

RUBBER
Rubber Based Industries: A Case Study on Effluent Treatment,
W86-04515 1910 5D

RUBBLE MOUNDS
Rubble Mounds: Hydraulic Conductivity Equation,
W86-06109 1912 8B

Rubble Mounds: Numerical Modeling of Wave Motion,
W86-06110 1912 8B

RUBIDIUM
Use of the Rb/K Ratio to Evaluate Potassium Nutrition of Peatlands,
W86-01164 1904 2L

RUN ANALYSIS
Run Analysis of Rainfall Data Affected by Urbanization,
W86-06166 1912 2B

RUN-OF-RIVER
Small Hydro Cascade Developments in China,
W86-04723 1911 8C

RUN-OF-RIVER HYDRO
Standard Design for Six Mini Hydro Sites in Indonesia,
W86-04725 1911 8C

RUNNING WATERS
Invertebrate Drift in the Biological Monitoring of Water Quality,
W86-04771 1911 5A

RUNOFF
Determination of Resistance Parameters of Pluvio-Nivo-Glacial Alpine Systems by Mathematical Modeling of Runoff,
W86-00034 1901 2E

Multiple Nonlinear Statistical Models for Runoff Simulation and Prediction,
W86-00035 1901 2E

Estimates of Peak Runoff from Hilly Terrain with Varied Lithology,
W86-00036 1901 2E

Runoff from Glacierized Mountains: A Model for Annual Variation and Its Forecasting,
W86-00077 1901 2E

Unit Hydrograph Approximations Assuming Linear Flow Through Topologically Random Channel Networks,
W86-00082 1901 2E

Data Management for Continuous Hydrologic Simulation,
W86-00093 1901 2A

Hydrological Regionalisation: A Question of Problem and Scale,
W86-00096 1901 2E

Snowmelt Induced Urban Runoff in Northern Sweden,
W86-00097 1901 2C

Planning and Implementation of Regional Stormwater Management Facilities in Montgomery County, Maryland,
W86-00099 1901 4A

Hydrological Yearbook: 1980.
W86-00182 1901 2A

Runoff Reduction by Venting with Shallow Subsurface Drainage,
W86-00471 1902 2E

Length and Slope Effects on Runoff from Sodium Dispersed, Compacted Earth Microcatchments,
W86-00705 1903 3B

Chemical Composition of Highway Drainage Waters; III. Runoff Water Metal Speciation Characteristics,
W86-00710 1903 5B

Storm Water Runoff from Industrial Sites,
W86-00766 1903 5B

Pollutant Runoff Models: Selection and Use in Decision Making,
W86-00780 1903 5B

Application of Simple Moisture Accounting Models to Ungauged Catchments,
W86-00836 1903 2E

Upwelling and River Runoff as Sources of Dissolved Nitrous Oxide to the Alsea Estuary, Oregon,
W86-01117 1904 2L

Chronic Pollution of Intercity Motorway Runoff Waters,
W86-01250 1904 5B

Conceptual Runoff Model for a Mountainous Rain-on-Snow Environment, Craigieburn Range, New Zealand,
W86-01386 1905 2A

Stormwater Runoff From Highways,
W86-01605 1905 5B

Combined Effect of Geology, Phosphate Sources and Runoff on Phosphate Export from Drainage Basin,
W86-01639 1905 5B

Correlation Between Sample First Autocorrelation Coefficient and Extreme Hydrologic Runs,
W86-01666 1905 2A

Nutrient Runoff Losses as Predicted by Annual and Monthly Soil Sampling,
W86-01709 1905 5B

Temperature Regime in Water Bodies of the Volga Delta Under Regulated Runoff Conditions,
W86-01809 1905 2E

Snowmelt Infiltration into Frozen Ground,
W86-02477 1907 2C

Optimum Treatment for Coal Pile Runoff in Louisiana,
W86-02549 1907 5D

Runoff and Chemical Loading in Small Watersheds in the Twin Cities Metropolitan Area, Minnesota,
W86-02794 1907 2E

Freshwater Runoff and Salinity Distribution in the Loxahatchee River Estuary, Southeastern Florida, 1980-82,
W86-03118 1908 2L

Accumulation and Transport of Water and Solutes in the Saturated and Unsaturated Zones,
W86-03784 1909 2F

Separation of Runoff Components by NO3-N Loading and Estimation of Runoff Loading by Each Component,
W86-03788 1909 5B

Preliminary Estimation of Natural Runoff in the Huai He Basin,
W86-03935 1910 2A

Errors and Parameter Estimation in Precipitation-Runoff Modeling. 1. Theory,
W86-04317 1910 2A

Suspended Sediment Production in a Suburban Tropical Basin (Lubumbashi, Zaire),
W86-04392 1910 2J

Bayesian Models of Forecasted Time Series,
W86-04532 1910 2A

Satellite Data as Basis for the Estimation of Rainfall and Runoff,
W86-04809 1911 7B

Automation of Daily Water Discharge Computation for Rivers with Different Regimes,
W86-04814 1911 7C

Recent Developments in the Explanation and Prediction of Erosion and Sediment Yield.
W86-04896 1911 2J

Effects of Slope Length and Terracing on Runoff and Erosion on a Tropical Soil,
W86-04899 1911 2E

Impacts of Soil Characteristics on Soil Erodibility,
W86-04900 1911 2J

Variations in Runoff and Erosion Under Various Methods of Protection,
W86-04901 1911 2J

Surface Flow and Erosional Processes in Semiarid Mesoscale Channels and Drainage Basins,
W86-04910 1911 2J

Gully Hydrology and Related Soil Properties in Lesotho,
W86-04911 1911 2E

Erosional Processes and Sediment Yield in the Upper Oldman River Basin, Alberta, Canada,
W86-04916 1911 4D

Sediment Dynamics in a Partially Cultivated Catchment in New South Wales, Australia,
W86-05114 1911 2J

Drainage from a Uniform Soil Layer on a Hillslope,
W86-05209 1911 2E

Hydrological Relationships in a Glacierized Mountain Basin,
W86-05616 1912 2E

Flow Pattern of Meltwater in Mountain Snow Cover,
W86-05617 1912 2C

Importance of the Structure of the Glacier Internal and External Runoff System of Channels and Streams to Glacier Activity,
W86-05623 1912 2C

Modeling Runoff from a Glacierized Basin,
W86-05624 1912 2C

Water Resources Investigations in Pakistan with the Help of Landsat Imagery - Snow Surveys 1975-1978,
W86-05630 1912 2C

WMO Project for the Intercomparison of Conceptual Models of Snowmelt Runoff.
W86-05631 1912 2C

Large-Scale Assessment of Snow Resources for Forecasting Spring Flow,
W86-05632 1912 2C

Methods of Regional Computation of Glacier Melting Intensity in Central Asia,
W86-05633 1912 2C

Characteristics of Glacial Hydrology in the Mount Tomur Area of China,
W86-05638 1912 2C

Study on the Variation Coefficient of Annual Runoff of the Rivers in Northwest China,
W86-05639 1912 4A

Basic Characteristics of Runoff in Glacierized Areas in China,
W86-05640 1912 2C

Change of Runoff Characteristics by Urbanization,
W86-05656 1912 4A

Combination of Simulated Discharges of Hydrological Models. Application of the WMO Intercomparison of Conceptual Models of Snowmelt Runoff,
W86-06164 1912 2E

RUNOFF DETENTION
Effects of Stormwater Runoff on an Urban Lake, Lake Ellyn at Glen Ellyn, Illinois,
W86-02392 1906 5B

RUNOFF FORECASTING
Probability-Distributed Principle and Runoff Production at Point and Basin Scales,
W86-01449 1905 2E

Assessment of Changes in Storm and Seasonal Runoff Response of Watersheds Impacted by Mt. St. Helens Ash Deposition,
W86-02434 1907 2E

Desk Top Methodology for Nonpoint Source Load Evaluation,
W86-03836 1909 5B

Applied Climatology.
W86-03846 1909 2B

Discharge Forecasting from Glacierized Areas to Optimize Hydroelectric Power Management,
W86-03848 1909 8C

Stochastic Model of Seasonal Runoff Forecasts,
W86-04192 1910 2E

Optimal Water Supply Planning Based on Seasonal Runoff Forecasts,
W86-04194 1910 6B

Monte Carlo Simulation of Snow Depth in a Forest,
W86-05244 1911 2C

RUNOFF MODELS
Estimating Peak Runoff from Field-Size Watersheds,
W86-06021 1912 2E

RUNOFF POLLUTION
Subsurface Transport of Urban Runoff Pollutants,
W86-04084 1910 5B

RUNOFF PREDICTION
Calibration Procedure for a Daily Flow Model of Small Watersheds with Snowmelt Runoff in the Green River Coal Region of Colorado,
W86-02403 1906 2A

RUNOFF RATE
New Method for Obtaining a Spatially Averaged Infiltration Rate from Rainfall and Runoff Rates,
W86-05074 1911 2G

RUNOFF RATES
Fourier Inference: Some Methods for the Analysis of Array and Nongaussian Series Data,
W86-04530 1910 7C

RUNOFF VOLUME
Estimated Water and Nutrient Inflows and Outflows, Lake Cochituate, Eastern Massachusetts,
W86-02904 1907 5B

Stormwater Runoff Treatment by Impoundment: Barrhaven Pilot Study,
W86-03632 1909 5D

RURAL AREAS
Surface Water Quality in Relation to Soil Type, Land Use and Discharge in a Rural Catchment Area,
W86-01249 1904 5B

Ground-Water Dams for Rural-Water Supplies in Developing Countries,
W86-06174 1912 8A

RURAL BASINS
Simulator for Water Resources in Rural Basins,
W86-01049 1904 2A

RYBI POTOK
Influence of Organic Pollution on the Macroinvertebrate Communities of Mountain Streams,
W86-00948 1904 5C

SACCOBRANCHUS
Effects of Some Divalent Metals on Cardiac and Branchial Ca2+-ATPase in Freshwater Fish Saccobranchus fossilis,
W86-00880 1903 5C

SACRAMENTO RIVER
Salinity, Alkalinity, and Dissolved and Particulate Organic Carbon in the Sacramento River Water at Rio Vista, California, and at Other Locations in the Sacramento-San Joaquin Delta, 1980,
W86-03063 1908 5B

Comparison of Four Artificial Substrates and the Ponar Grab for Benthic Invertebrate Collection,
W86-06018 1912 7B

SADD-EL-KAFARA
Sadd-el-Kafara: the World's Oldest Large Dam,
W86-01693 1905 8A

SAFETY
Safety Treatment of Roadside Parallel-Drainage Structures,
W86-03250 1908 8A

New Safety for Old Dams,
W86-06077 1912 8A

SAGINAW BAY
Phytoplankton Distribution in Saginaw Bay,
W86-01345 1905 2H

Dynamic Mass Balance of PCB and Suspended Solids in Saginaw Bay -- A Case Study,
W86-02029 1906 5B

SAGUENAY FJORD
Background Levels of Dissolved/Dispersed Petroleum Residues in the Gulf of St. Lawrence, 1970-79,
W86-01588 1905 5B

SAGUENAY RIVER
Influence of Copper in Various Forms on Natural Phytoplanktonic Populations from the Saguenay River, Quebec, Canada. (Influence de la Speciation du Cuivre sur les Populations Phytoplanctoniques Naturelles de la Riviere du Saguenay, Quebec, Canada.),
W86-05162 1911 5C

SAHEL
Year of the African Drought,
W86-01429 1905 2B

SAIJO BASIN
Phytosociological Studies on the Vegetation of Irrigation Ponds in the Saijo Basin, Hiroshima Prefecture, Japan,
W86-01109 1904 2H

SAINT JOHN HARBOR
Effects of Dredging and Dumping on Benthos of Saint John Harbour, Canada,
W86-01798 1905 5C

SAINT LAWRENCE RIVER
Discrimination of the Stock of Fish (Eels, Anguilla rostrata) Based on the Presence of the Synthetic Chemical Mirex (Discrimination d'un Stock de Poisson, l'Anguille (Anguilla rostrata), Basee sur la Presence d'un Produit Chimique de Synthese, le Mirex),
W86-01584 1905 5C

SAIPAN
Summary of Water Resources Development and Hydrologic Data of Saipan, Mariana Islands,
W86-02887 1907 2E

SALAMONDE
Mine Waste Discharge Rich in Copper - An Example of Effects on Planktonic Communities,
W86-00959 1904 5C

SALEM
Upgrading the Salem Municipal Water System from 1914 to 1984,
W86-05538 1912 5F

SALINE-FRESHWATER INTERFACE
Regional Unsteady Interface Between Fresh Water and Salt Water in a Confined Coastal Aquifer,
W86-00042 1901 2F

Decrease of Hydraulic Conductivity in Sand at the Interface Between Seawater and Dilute Clay Suspensions,
W86-01300 1904 2F

Model Study of Salt-Water Intrusion to a River Using the Sharp Interface Approximation,
W86-01308 1904 2F

Salinity Characteristics and Distribution and Effects of Alternative Plans for Freshwater Withdrawal, Little Manatee River Estuary and Adjacent Areas of Tampa Bay, Florida,
W86-02883 1907 2L

SALINE-FRESHWATER INTERFACES
Salt-Water-Freshwater Transient Upconing - An Implicit Boundary-Element Solution,
W86-01291 1904 5B

Estimating Interface Advance Due to Abrupt Changes in Replenishment in Unconfined Coastal Aquifers,
W86-01474 1905 2F

Microbiological Changes Occurring at the Freshwater-Seawater Interface of the Neuse River Estuary, North Carolina,
W86-02086 1906 2L

Aquifem-Salt: A Finite Element Model for Aquifers Containing a Seawater Interface,
W86-02822 1907 2F

Effect of Eustatic Sea-Level Changes on Saltwater-Freshwater Relations in the Northern Atlantic Coastal Plain,
W86-03010 1908 2F

Drought of 1980-82 in Southeast Florida with Comparison to the 1961-62 and 1970-71 Droughts,
W86-03082 1908 2B

Evaluation of Transient Electromagnetic Soundings for Deep Detection of Conductive Fluids,
W86-04279 1910 2F

Dynamics of a Tidal Estuary: Estimation of the Principal Factors. (Estimation des Parametres Fondamentaux de la Dynamique d'un Estuaire a Marees),
W86-05170 1911 2L

SALINE LAKES
Lake Grevelingen: From an Estuary to a Saline Lake. An Introduction,
W86-01567 1905 6G

Carbon Balance of a Saline Lake (Lake Grevelingen, The Netherlands),
W86-01580 1905 2H

Impact of a Future Qattara Salt-Water Lake on the Nubian Sandstone Aquifer System in the Western Desert, Egypt,
W86-05676 1912 4B

SALINE SOILS
Evaluation of Drainage Tile to Alleviate Salt Building in Heavy Soils Irrigated with Brackish Water and Cropped with Rice and Soybeans,
W86-02450 1907 3C

Changes in Soil Porosity and Surface Shrinkage in a Remolded, Saline Clay Soil Treated with Compost,
W86-04406 1910 2G

Evaporite Mineralogy Associated with Saline Seeps in Southwestern North Dakota,
W86-05128 1911 3C

Nondestructive Observations of Solution Displacement in Soils,
W86-06008 1912 2G

Salinity of Motorway Soils. I. Variation in Time and Between Regions in the Salinity of Soils on Central Reserves,
W86-06033 1912 5B

Salinity of Motorway Soils. II. Distance from the Carriageway and Other Sources of Local Variation in Salinity,
W86-06034 1912 5B

Salinity of Motorway Soils. III. Simulation of the Effects of Salt Usage and Rainfall on Sodium and Chloride Concentrations in the Soil of Central Reserves,
W86-06035 1912 5B

Salinity of Motorway Soils. IV. Effects of Sodium Chloride on Some Native British Shrub Species, and the Possibility of Establishing Shrubs on the Central Reserves of Motorways,
W86-06036 1912 5B

SALINE WATER
Salinity in Watercourses and Reservoirs,
W86-02264 1906 5B

Colorado River Salinity - The User's Perspective,
W86-02265 1906 5B

Evolution of a Cost Sharing Policy for Federal Chloride Projects,
W86-02266 1906 6C

Problem of Salinity and Its Control, River Murray, Australia,
W86-02267 1906 5B

Legal and Institutional Constraints to Salinity Control,
W86-02269 1906 6E

USDA Planning Process for Colorado River Basin Salinity Control,
W86-02270 1906 5G

Salinity Bubbles and Offsets: A Concept Paper,
W86-02271 1906 5G

Planning and Implementation Framework for Salinity Control in the Indus River Basin,
W86-02272 1906 5G

Salinity Sources and Problems of the Danube River Basin,
W86-02273 1906 5B

Southwestern Salinity Situation: The Rockies to the Mississippi,
W86-02274 1906 5B

Economic Evaluation of Salinity Control,
W86-02275 1906 6B

Natural Salt Pollution Control Brazos River Basin, Texas,
W86-02276 1906 5B

Salinity Balance of the Lower Virgin River Basin, Nevada and Arizona,
W86-02277 1906 5B

Impact of Reservoirs on Seasonal and Historical Salinity of the Colorado River,
W86-02279 1906 5B

Historical Trends in Concentration and Load of Major Ions in the Colorado River Systems,
W86-02280 1906 5B

Effect of Assumptions on Model Calibration and Prediction,
W86-02281 1906 5B

Improving Water Management Practices on Surface Irrigated Lands: The Role of Modeling,
W86-02282 1906 5G

Longitudinal-Vertical Hydrodynamics and Transport with Chemical Equilibria for Lake Powell and Lake Mead,
W86-02283 1906 5B

Conceptual Models of Geologic and Agricultural Salt Loads in Streams of the Upper Colorado River Basin,
W86-02284 1906 5B

Skimming Well Model for Salinity Control,
W86-02285 1906 5G

Salinity Control Through Water Conservation in the Upper Colorado River Basin,
W86-02286 1906 3F

Irrigation with Saline Groundwater as a Strategy for Salinity Control in the Shepparton Region of Northern Victoria,
W86-02287 1906 3C

Salinity Control Problems Associated with Irrigation in South-West New South Wales, Australia,
W86-02288 1906 5B

Case Study of a Salinity Control Program, Vinta Basin, Utah,
W86-02289 1906 5G

Case Study of a Major Agricultural Control Program - The Grand Valley Experience,
W86-02290 1906 3F

Grand Valley State One Monitoring Plan and Implementation,
W86-02291 1906 5G

Measures for Reducing Return Flows from the Wellton-Mohawk Irrigation and Drainage District,
W86-02292 1906 5G

Salinity Control and Drainage in Northern Victoria (Australia),
W86-02293 1906 3F

Characteristics, Trends and Surface Water Quality Implications of Saline Tile Effluent,
W86-02294 1906 5B

Controlling Salinity in the Colorado River Basin, The Arid West,
W86-02295 1906 5G

Salinity Control by Pumping and Deep Well Injection - The Paradox Valley Unit,
W86-02296 1906 5G

Meeker Dome Salinity Investigation,
W86-02297 1906 5B

Salinity Control Benefits Through Regulation of Produced Water,
W86-02298 1906 5G

Arkansas-Red River Basins Chloride Control Project: Technical Feasibility Studies for Plan of Control,
W86-02299 1906 5G

Glenwood-Dotsero Springs Salinity Control Project,
W86-02300 1906 5G

Salinity Control on the Smoky Hill River in Central Kansas,
W86-02301 1906 5G

Price/San Rafael River Basins Salinity Investigation,
W86-02302 1906 5B

Ecology of Scum Causing Actinomycetes in Sewage Treatment Plants,
W86-04586 1910 5D

Plate Separation - Budding Conventional Technology,
W86-05011 1911 5D

SEA GRASSES
Effects of Oil on Seagrass Ecosystems,
W86-00241 1901 5C

SEA ICE
Recent Secular Variations of Snow and Sea Ice Cover,
W86-03695 1909 2C

Sea Ice Dynamics and Regional Meteorology for the Arctic Polynya Experiment (APEX) - Bering Sea 1985,
W86-03903 1910 2C

Random Transport of Oil by Sea Ice,
W86-04477 1910 5B

Oil in Ice Computer Simulation Model,
W86-04478 1910 5B

SEA ICE DYNAMICS
Sea Ice Dynamics and Regional Meteorology for the Arctic Polynya Experiment (APEX) - Bering Sea 1985,
W86-03903 1910 2C

SEA LEVEL
Mudflat and Marsh Progradation Along Louisiana's Chenier Plain: A Natural Reversal in Coastal Erosion,
W86-03853 1909 2J

Future Sea Level Changes Along the Louisiana Coast,
W86-03862 1909 2L

Reversal of Coastal Erosion by Rapid Sedimentation: The Atchafalaya Delta (South-Central Louisiana),
W86-03865 1909 2J

Optimal Control of Sea Level in a Tidal Basin by Means of the Pontryagin Maximum Principle,
W86-05829 1912 8B

SEALANTS
Seawater Pumped-Storage Scheme Under Study in Japan,
W86-04995 1911 8C

SEAS
Estimation of Discharge and Loads from the Rivers Flowing into Littoral Seas of China (in Chinese),
W86-01167 1904 2J

SEASAT
Total Precipitable Water and Rainfall Determinations from the Seasat Scanning Multichannel Microwave Radiometer (SMMR),
W86-03238 1908 2B

SEASONAL DISTRIBUTION
Method of Predicting Daily Peak Flows in the High-Flow Season,
W86-00027 1901 2E

Sources, Composition, and Transport of Suspended Particulate Matter in Lower Cook Inlet and Northwestern Shelikof Strait, Alaska,
W86-00150 1901 2J

Seasonal Changes in the Distribution of Heterotrophic Bacteria in Kagoshima Bay,
W86-01147 1904 5B

Limnology of a Subalpine Lake with a High Through Flow Rate (Lake Kochel): 2. Seasonal, Vertical and Horizontal Distribution of Bacteria (Zur Limnologie des Stark Durchstromten Subalpinen Kochelsees: 2. Saisonale, Vertikale und Horizontale Verteilung der Bakterien),
W86-04184 1910 5C

Investigation of Heaviest Rainfalls Over Coastal Andhra Pradesh of India During October,
W86-06054 1912 2B

SEASONAL FROST
Snowmelt Infiltration into Frozen Ground,
W86-02477 1907 2C

SEASONAL KENDALL TEST
Hydrologic Bench-Mark Program as a Standard to Compare and Evaluate Time-Series Trends in Selected Water-Quality Constituents for Streams in Georgia,
W86-02940 1908 7A

SEASONAL NITRIFICATION
Activated Sludge Control for Seasonal Nitrification,
W86-05030 1911 5D

SEASONAL RUNOFF
Stochastic Model of Seasonal Runoff Forecasts,
W86-04192 1910 2E

Optimal Water Supply Planning Based on Seasonal Runoff Forecasts,
W86-04194 1910 6B

SEASONAL VARIATION
Seasonal Succession of Phytoplankton in Lake Constance,
W86-00051 1901 2H

Overwinter Soil Moisture Changes,
W86-00466 1902 2G

Studies on Riverine Ecology of Torrential Waters in the Uplands of the Garhwal Region, II. Seasonal Fluctuations in Diatom Density,
W86-00576 1902 2H

Seasonal and Diurnal Water Relations Adjustments in Three Evergreen Chaparral Shrubs,
W86-00827 1903 2I

Phosphorus Spiralling in a Woodland Stream: Seasonal Variations,
W86-00830 1903 2H

Seasonal Cycles of Phytoplankton Populations and Total Chlorophyll of the Lower St. Johns River Estuary, Florida,
W86-00900 1903 2L

Limnology of a Naturally Acidic Tropical Water System in Australia; I. General Description and Wet Season Characteristics,
W86-00923 1904 2H

Limnology of a Naturally Acidic Tropical Water System in Australia; II. Dry Season Characteristics,
W86-00924 1904 2H

Seasonal Changes in the Generic Composition of Heterotrophic Bacteria in Seawater of Kagoshima Bay (in Japanese),
W86-01148 1904 5B

Species Composition and Seasonal Succession of the Zooplankton Community of Eutrophic Lahontan Reservoir, Nevada,
W86-01168 1904 2H

Recent Changes in Summer Rainfall Values Measured at Long Ashton,
W86-01303 1904 2B

Seasonal Observations of Heterotrophic Activity and Active Bacterial Number in Lake Constance,
W86-01329 1905 2H

Investigations of the Ecology of Planktonic Algae of Water Bodies in the Baikal Region,
W86-01824 1905 2H

Seasonal Changes in Abundance of Brown Trout (Salmo trutta) and Rainbow Trout (S. gairdnerii) Assessed by Drift Diving in the Rangitikei River, New Zealand,
W86-01910 1905 2H

Chlorophyll a Concentration and Distribution in Twin Lakes, Colorado, Prior to Operation of Mt. Elbert Pumped-Storage Powerplant, 1977-81,
W86-03234 1908 2H

Relationship of Common Dominant Phytoplankton to Water Temperature and Season,
W86-03724 1909 2H

Respiratory Gas Content (O2 and CO2) and Ionic Composition of River Water in the Plain of Alsace (Eastern France),
W86-03763 1909 2F

Conditions and Frequency of Sampling for Elucidations of Transport Mechanisms and Element Budgets in Upland Drainage Basins,
W86-03770 1909 7A

Physico-Chemical Characteristics of Surface Waters and Hydrological Behavior of a Small Granitic Basin (Vosges Massif, France): Annual and Daily Variations,
W86-03775 1909 5B

Study of the Hydrochemical Regime and Its Long-Term Variations in the Case of Some Rivers in U.S.S.R.,
W86-03778 1909 2K

Study of Anthropogenic Influence on Water Quality in Some Rivers of the Baltic Sea Basin,
W86-03779 1909 5B

Surface and Groundwater Mixing and Identification of Local Recharge-Discharge Zones from Seasonal Fluctuations of Oxygen-18 in Groundwater in Fissured Rock,
W86-03790 1909 2F

Expected Utility, Benefit, and Loss Criteria for Seasonal Water Supply Planning,
W86-04193 1910 6B

Monitoring Changes in Total and Unfrozen Water Content in Seasonally Frozen Soil Using Time Domain Reflectometry and Neutron Moderation Techniques,
W86-04305 1910 2G

Assessing Population Effects from Entrainment of Fish at a Large Volume Water Intake,
W86-04383 1910 8I

Variations in Nitrate Concentrations at an Idaho Site Due to Seasonal Influences,
W86-04607 1910 5B

Diurnal Variation of Thunderstorm Activity in the United States,
W86-04626 1910 2B

Influence of Season, Source and Distance on Physical and Chemical Properties of Suspended Sediment,
W86-04932 1911 5B

Seasonal and Regional Variability of Parameters for Stochastic Daily Precipitation Models: South Dakota, U.S.A.,
W86-05257 1911 2B

Seasonal and Diurnal Variation of Energy Budget Components in Coniferous Forests,
W86-05296 1911 2D

Interstation Correlations and Nonstationarity of Burkina Faso Rainfall,
W86-05458 1912 2B

Relationship between Indian Summer Monsoon Rainfall and Location of the Ridge at the 500-mb Level along 75 Degrees E,
W86-05462 1912 2B

Spatial and Temporal Changes of Nitrifying Bacterial Populations in Fish Ponds of Differing Management Practices,
W86-058[illegible] 1912 5G

SEAWALLS
Taraval Vertical Sea Wall,
W86-01841 1905 2L

SEAWATER
Seawater Circulation in Sewage Outfall Tunnels,
W86-00017 1901 5E

Seasonal Changes in the Generic Composition of Heterotrophic Bacteria in Seawater of Kagoshima Bay (in Japanese),
W86-01148 1904 5B

Optimizing Design and Cost of Seawater Reverse Osmosis Systems,
W86-01371 1905 3A

Distribution and Characteristics of Carboxypeptidase Activity in Pond, River, and Seawaters, in the Vicinity of Tokyo,
W86-01418 1905 2H

Mechanical Vapour Compression Process Applied to Seawater Desalination: A 1,500 Ton/Day Unit Installed in the Nuclear Power Plant of Flamanville, France,
W86-01670 1905 3A

Low-Temperature Vapour Compression and Multi-Effect Distillation of Seawater. Effects of Design on Operation and Economics,
W86-01676 1905 3A

Zirconium Coprecipitation for Simultaneous Multielement Determination of Trace Metals in Seawater by Inductively Coupled Plasma Atomic Emission Spectrometry,
W86-01720 1905 5A

Effect of Seawater Magnesium on Natural Fluorescence During Estuarine Mixing, and Implications for Tracer Applications,
W86-01801 1905 2L

Passive Films on Iron: The Mechanism of Breakdown in Chloride-Containing Solutions,
W86-02438 1907 8G

Seasonal Variation in Weathering and Toxicity of Crude Oil on Seawater Under Arctic Conditions,
W86-04134 1910 5B

Rapid Consumption of Bromine Oxidants in River and Estuarine Waters,
W86-04426 1910 5B

Incidence of Vibrio cholerae and Related Vibrios in a Coastal Lagoon and Seawater Influ-

enced by Lake Discharges along an Annual Cycle,
W86-04674 1910 5C

Correlation of Chlorophyll Concentrations and Suspended Solids with Near-Surface Upward Irradiance within Landsat Bands 4, 5 and 6,
W86-05813 1912 5A

Mossbauer Studies of the Speciation of Tributyltin Compounds in Seawater and Sediment Samples,
W86-05842 1912 5B

SEAWATER INTRUSION
Some Analytical Solutions for Seawater Intrusion Control with Recharge Wells,
W86-05987 1912 4B

SEAWATER WELLS
Sources of Water to the Seawater Well which Supplies the Fish Ponds in Eilat: Implications for Fishpond Management,
W86-04576 1910 5B

SEBAGO LAKE
Monitoring Sebago Lake Water Quality Below the Thermocline,
W86-05027 1911 5F

SECCHI DISKS
Attenuation Versus Transparency,
W86-01725 1905 5A

SECOND DERIVATIVE ULTRAVIOLET SPECTROSCOPY
Second Derivative Ultraviolet Spectroscopy and Sulfamic Acid Method for Determination of Nitrates in Water,
W86-05072 1911 5A

SECONDARY CURRENTS
Direct Measurements of Secondary Currents in a Meandering Sand-Bed River,
W86-01171 1904 2E

SECONDARY PERMEABILITY
Delineation and Description of a Zone of Higher Secondary Permeability in the Surficial Aquifer of Eastern Palm Beach County, Florida,
W86-02393 1906 2F

SECONDARY PRODUCTIVITY
Secondary Production, Emergence, and Export of Aquatic Insects of a Sonoran Desert Stream,
W86-05451 1912 2I

SECONDARY RECOVERY
Recovery of Water from the Unsaturated Zone by Air Injection: I-Design of a Large Physical Model,
W86-02640 1907 4B

Investigation of the Feasibility of Secondary Recovery of Ground Water from the Ogallala Aquifer: A Report to the Sixty-Eighth Legislature.
W86-03442 1909 3B

SECONDARY TREATMENT
Operation and Maintenance of the UOSA Water Reclamation Plant,
W86-04499 1910 5D

SECONDARY WASTEWATER TREATMENT
Effects on Groundwater Quality of the Introduction of Secondary Sewage Treatment to an Effluent Recharge Site on the Chalk of Southern England,
W86-00043 1901 5D

Operational Dynamics and Control of Secondary Clarifiers,
W86-01544 1905 5D

Pilot Tests of Chlorination Facility for Disinfecting Secondary Effluent,
W86-01545 1905 5D

Study of Operational Ultraviolet Disinfection Equipment at Secondary Treatment Plants,
W86-05047 1911 5D

SEDIMENT
Distribution and Persistence of Aminocarb in Stream Water, Sediment and Fish After Application of Three Matacil Formulations,
W86-00811 1903 5B

Hudson River PCB Relationships Between Resident Fish, Water and Sediment,
W86-01554 1905 5C

Surface Flow and Erosional Processes in Semiarid Mesoscale Channels and Drainage Basins,
W86-04910 1911 2J

Identification and Quantification of Sediment Sources Using 137-Cs,
W86-04931 1911 2J

Sediment Dynamics in a Partially Cultivated Catchment in New South Wales, Australia,
W86-05114 1911 2J

Vertical Migration and Mortality of Marine Benthos in Dredged Material: A Synthesis,
W86-05169 1911 5C

Wave Propagation Over a Sediment Trench,
W86-05502 1912 2L

Erosion of Soft Cohesive Sediment Deposits,
W86-05969 1912 2J

SEDIMENT ACCUMULATION
Sediment Accumulation Rates in an Alaskan Arctic Lake Using A Modified 210Pb Technique,
W86-00612 1902 2H

SEDIMENT ANALYSIS
Determination of Trace Amounts of Organophosphorus Pesticides and Related Compounds in Soils and Sediments using Capillary Gas Chromatography and a Nitrogen-Phosphorus Detector,
W86-01083 1904 5A

Effect of Fall Turnover on Terminal Carbon Metabolism in Lake Mendota Sediments,
W86-04253 1910 2H

SEDIMENT CHARACTERISTICS
Sediment Quality Related to Discharge in a Mineralized Region of Wales,
W86-04929 1911 5B

SEDIMENT CONCENTRATION
Sediment Data for Georgia Streams, Water Years 1958-82,
W86-02821 1907 7C

Relations of Suspended Sediment to Streamflow in the Green River, Wyoming,
W86-03174 1908 2J

Erosion and Recovery of Sediment Concentration in the River Channel Downstream from Danjiankou Reservoir,
W86-04912 1911 2J

Analysis of the Vertical Distribution of High Sediment Concentrations in the Yellow River and Studies of Methods of Observation,
W86-04936 1911 2J

Statistical Analysis of Heavy Metal Concentrations from Lake Sediments,
W86-06088 1912 5B

SEDIMENT CONCENTRATIONS
Sediment Characteristics of Tennessee Streams and Reservoirs,
W86-02829 1907 2J

Pollutant Transport in Mississippi Sound: Interim Technical Report III,
W86-03839 1909 5B

SEDIMENT CONTAMINATION
Organochlorine Pesticides and Polychlorinated Biphenyls in Sediment and Fish from Wetlands in the North Central United States,
W86-01651 1905 5C

SEDIMENT CONTROL
Sediment Yield Estimation and the Design of Sediment Control Structures in Rural Africa,
W86-03595 1909 4D

Surface Erosion and Sediment Control at Open-Cast Mines in Southern Africa,
W86-03602 1909 4D

Sediment Storage Requirements for Reservoirs,
W86-03607 1909 2J

Feasibility of Flushing Sediments through Reservoirs,
W86-03608 1909 2J

Anti-Turbidity Overflow System (ATOS) Used for Reducing the Dispersion of Fine Sediments from a Dredge Plane,
W86-03874 1909 5E

SEDIMENT CORES
Historical Changes in Submerged Macrophyte Communities of Upper Chesapeake Bay,
W86-00828 1903 2H

SEDIMENT DATA
Sediment Data for Georgia Streams, Water Years 1958-82,
W86-02821 1907 7C

Streamflow and Sediment Data Collected at Seven Stream-Gaging Stations in the James River Basin Downstream from Forestburg, South Dakota, from Oct 1, 1982 - Sep 30, 1983,
W86-02912 1907 2E

SEDIMENT DEPOSITS
Erosion of Soft Cohesive Sediment Deposits,
W86-05969 1912 2J

SEDIMENT DISCHARGE
Runoff, Sediment Transport, and Water Quality in a Northern Illinois Agricultural Watershed before Urban Development, 1979-81,
W86-00133 1901 2J

Annual Suspended-Sediment Loads in the Green River at Green River, Utah, 1930-82,
W86-01935 1906 2J

Annual Suspended-Sediment Loads in the Colorado River Near Cisco, Utah, 1930-82,
W86-02828 1907 2J

Calculating Sediment Discharge from a Highway Construction Site in Central Pennsylvania,
W86-03102 1908 4C

Relations of Suspended Sediment to Streamflow in the Green River, Wyoming,
W86-03174 1908 2J

Quebec: Surface Water Data, 1984,
W86-03235 1908 2E

Impact of Sediment on Reservoir Life,
W86-03604 1909 2J

Sediment Availability and the Prediction of Storm-Period Sediment Yields,
W86-04928 1911 4D

SEDIMENT DISPOSAL
Long-Term Impact of Dredged Material Disposal in Lake Erie off Ashtabula, Ohio,
W86-00162 1901 5C

SEDIMENT DISTRIBUTION
Distribution of Polychlorinated Biphenyls in the Housatonic River and Adjacent Aquifer, Massachusetts,
W86-03093 1908 5B

SEDIMENT EROSION
Erosional Process of Cohesive Sediments,
W86-01229 1904 2J

Engineering Geology and Geomorphology of Streambank Erosion: Report 4, Supplemental Update to Report 3: The Application of Waterborne Geophysical Techniques in Fluvial Environments,
W86-03320 1908 2J

Recent Developments in the Explanation and Prediction of Erosion and Sediment Yield.
W86-04896 1911 2J

Sediment Production Under Various Forest-Site Conditions,
W86-04898 1911 2J

Sediment Modelling and Data Sources: A Compromise in Assessment,
W86-04922 1911 2J

SEDIMENT FLUX
Ecological Survey of Sediment Flux in Coastal Fish Farms - I Decomposition Features of the Flux (in Japanese),
W86-01145 1904 5B

SEDIMENT LOAD
Annual Suspended-Sediment Loads in the Green River at Green River, Utah, 1930-82,
W86-01935 1906 2J

Bank Erosion Contribution to Stream Sediment Load,
W86-02718 1907 2J

Computer Program for the Computation of Total Sediment Discharge by the Modified Einstein Procedure,
W86-02964 1908 2J

May 1984-April 1985 Water Budget of Reelfoot Lake with Estimates of Sediment Inflow and Concentrations of Pesticides in Bottom Material in Tributary Streams--Basic Data Report,
W86-03100 1908 5B

Estimates of Long-Term Suspended-Sediment Loads in Bay Creek at Nebo, Pike County, Illinois, 1940-80,
W86-03138 1908 2J

Background Hydrologic Information in Potential Lignite Mining Areas in Northeastern Mississippi, August 1983,
W86-03162 1908 2K

Persistence in the Size Distribution of Surficial Bed Material During an Extreme Snowmelt Flood,
W86-04173 1910 2J

SEDIMENT LOADS
Estimation of Discharge and Loads from the Rivers Flowing into Littoral Seas of China (in Chinese),
W86-01167 1904 2J

Annual Suspended-Sediment Loads in the Colorado River Near Cisco, Utah, 1930-82,
W86-02828 1907 2J

SEDIMENT LOSS
Storm Flow and Sediment Losses from Site-Prepared Forestland in East Texas,
W86-05224 1911 4C

SEDIMENT OXYGEN DEMAND
Model for Sediment Oxygen Demand in Lakes,
W86-04639 1910 5B

SEDIMENT RATES
Annual Suspended-Sediment Loads in the Colorado River Near Cisco, Utah, 1930-82,
W86-02828 1907 2J

SEDIMENT REDISTRIBUTION
Vertical Distribution of Feeding and Particle-Selective Transport of 137Cs in Lake Sediments by Lumbriculid Oligochaetes,
W86-04246 1910 2J

SEDIMENT TRANSPORT
Transport of Suspended Material in Open and Submerged Streams,
W86-00013 1901 2J

Sediment-Water Interface in Modeling Pesticides in Sedimentation Ponds,
W86-00088 1901 5B

Sediment Transport by Irrigation Return Flows in Four Small Drains Within the DID-18 Drainage of the Sulphur Creek Basin, Yakima County, Washington, April 1979 to October 1981,
W86-00112 1901 2J

Preliminary Appraisal of Sediment Sources and Transport in Kings Bay and Vicinity, Georgia and Florida,
W86-00125 1901 2J

Sources, Composition, and Transport of Suspended Particulate Matter in Lower Cook Inlet and Northwestern Shelikof Strait, Alaska,

W86-05265 1911 5C

SELENATE
Rapid Determination in Water of Chloride, Sulphate, Sulphite, Selenite, Selenate and Arsenate Among Other Inorganic and Organic Solutes by Ion Chromatography With UV Detection Below 195 nm,
W86-05302 1911 5A

SELENATES
Absence of Selenate Avoidance by Fathead Minnows (Pimephales promelas),
W86-01067 1904 5C

SELENITE
Rapid Determination in Water of Chloride, Sulphate, Sulphite, Selenite, Selenate and Arsenate Among Other Inorganic and Organic Solutes by Ion Chromatography With UV Detection Below 195 nm,
W86-05302 1911 5A

SELENIUM
Separation and Determination of Selenium(IV) in Environmental Water Samples by an Anion-Exchange Resin Modified with Bismuthiol-II and Diaminonaphthalene Fluorophotometry,
W86-00825 1903 5A

Determination of Selenium in Sewage Sludge Using an Acid-Digestion Bomb and Fluorimetry,
W86-01026 1904 5A

Effect of Selenite on the Uptake of Methylmercury in Cod (Gadus morhua),
W86-01901 1905 5C

Selenium Concentrations in Waters Tributary to and in the Vicinity of the Kesterson National Wildlife Refuge, Fresno and Merced Counties, California,
W86-03124 1908 5A

Potential Impact of Acid Precipitation on Arsenic and Selenium,
W86-04268 1910 5C

Toxicology of Selenium in a Freshwater Reservoir: Implications for Environmental Hazard Evaluation and Safety,
W86-04358 1910 5C

Determination of Selenium Speciation in Biogenic Particles and Sediments,
W86-04458 1910 5A

Field Evaluation of Arsenic and Selenium Removal by Iron Coprecipitation,
W86-05015 1911 5D

SELF-CLEANSING SLOPE
Self-Cleaning Slope for Partially Full Sewers,
W86-05535 1912 8B

SELF-PURIFICATION
Self-Purification with Controlled Redox Conditions,
W86-00945 1904 5B

BEST COPY AVAILABLE

Dispersion and Self-Purification of Pollutants in Surface Water Systems.
W86-03906 1910 5B

Chemical and Biological Changes in Model Ponds Supplied with Post-Waste Water: III. Plankton, Periphyton, Benthos,
W86-05196 1911 5D

SELLAFIELD
Radiocesium Levels in Irish Sea Fish and the Resulting Dose to the Population of the Irish Republic,
W86-00822 1903 5B

SEMI-CONTINUOUS PROCESS
Nitrogen Removal in a Semi-Continuous Process,
W86-04124 1910 5D

SEMIARID CLIMATES
Evapotranspiration Model for Semiarid Regions,
W86-05920 1912 2D

SEMIARID LANDS
Application of the U.S. Geological Survey's Precipitation-Runoff Modeling System to the Prairie Dog Creek Basin, Southeastern Montana,
W86-02390 1906 2A

Conjunctive Use of Rainfall and Irrigation in Semiarid Regions,
W86-03399 1908 3F

Continuous Monitoring of Rainfall, Streamflow and Suspended Sediment Concentration in Semiarid Environments,
W86-03591 1909 7B

Sub-Saharan Rainfall 1981-1984,
W86-04595 1910 2B

Soil Water Movement and Recharge Through Sand at a Semiarid Site in New Mexico,
W86-05247 1911 2G

SEMIARID REGIONS
Anatomy of a Rainfall Index,
W86-06052 1912 2B

SEMICONDUCTOR INDUSTRY
Total Effluent Treatment and Rinse Water Reclamation in a Semiconductor Device Manufacturing Facility,
W86-00758 1903 5D

SEMIPERMEABLE MEMBRANES
Nonfouling Coatings for Thin Film Composite Membranes,
W86-02677 1907 3A

Preparation of Ion-Exchange Membranes with Extremely Low Areal Resistances,
W86-03615 1909 3A

SEMOIS
Nitrogen Mineralization in a Sequence of Hydromorphic Soils in a Valley in the High Semois (Belgium) (Mineralisation de l'azote dans une sequence de sols hydromorphes de la vallee de la Haute Semois (Belgique)),
W86-01510 1905 2G

SENASAKA
Characteristic Distribution of Chironomids in the Rivers Polluted with Heavy Metals,
W86-00954 1904 5C

SENEGAL RIVER
Irrigation Water Requirements for Senegal River Basin,
W86-05238 1911 6D

SENEGAL RIVER BASIN
Agricultural Benefits for Senegal River Basin,
W86-01432 1905 3B

SENSITIVITY ANALYSIS
User's Manual for the Evaluation and Sensitivity Analysis Program (ESAP),
W86-00328 1902 6G

Relative Sensitivity of Seabird Populations in Alaska to Oil Pollution,
W86-01975 1906 5C

Nonlinear Programming Model of a Wastewater Treatment System: Sensitivity Analysis and a Robustness Constraint,
W86-03511 1909 5D

Regional Water Resources Simulation with Stream Aquifer Interaction, Sensitivity Analysis and Inverse Modelling,
W86-05696 1912 2F

SENSORS
Electronic Sensing Devices Used for In Situ Ground Water Monitoring,
W86-04217 1910 7B

SEPARATION TECHNIQUES
Market Assessment and Technological Evaluation of the CPU-4000 Chemical Precipitation Unit,
W86-00386 1902 5D

Selective Isolation of Dissolved Organic Matter from Aquatic Systems,
W86-02700 1907 2K

Removal of Toxic Metals in Electroplating Wash Water by a Donnan Dialysis Process,
W86-03239 1908 5D

Evaluation of the Adsorption Properties of Silicalite for Potential Application to Isolating Polar Low-Molecular-Weight Organics from Drinking Water,
W86-03266 1908 5F

Characteristics and Treatability of Urban Runoff Residuals,
W86-03508 1909 5B

Waterloo Clarifier: Principles and Practice,
W86-03663 1909 5D

Implementation of Sequencing Batch Reactors for Municipal Wastewater Treatment,
W86-03664 1909 5D

Use of Different Physical Separation Techniques for Trace Element Speciation Studies in Natural Waters,
W86-03771 1909 2K

Copper (2+), Zinc (2+), and Nickel (2+) Uptake by Activated Sludge,
W86-04755 1911 5D

Design of Rapid Small-Scale Adsorption Tests for a Constant Diffusivity,
W86-05135 1911 5D

PAC-Activated Sludge Treatment of a Steel Mill Coke-Plant Wastewater,
W86-05137 1911 5D

NTA Biodegradation and Removal in Subsurface Sandy Soil,
W86-05339 1911 5B

Algae Removal by Fine Sand/Silt Filtration,
W86-05344 1911 5F

Separation of Metals in Wastewater Sludge by Centrifugal Classification,
W86-06085 1912 5D

Hepatitis A Virus Concentration on Cellulose Membranes (Concentration du Virus de L'Hepatite A sur des Membranes de Cellulose),
W86-06158 1912 5A

Relation Between Activated Carbon Adsorption and Water Quality Indexes,
W86-06160 1912 5D

SEPTAGE
Land Treatment of Septage,
W86-02646 1907 5D

SEPTIC SLUDGE
Gas Metabolism Evidence in Support of the Juxtaposition of Hydrogen-Producing and Methanogenic Bacteria in Sewage Sludge and Lake Sediments,
W86-04665 1910 5C

SEPTIC TANK EFFLUENT
Chemical Quality of Perched Septic Tank Effluent for Plant Use and Recharge,
W86-05311 1911 5D

SEPTIC TANKS
Innovative/Alternative Wastewater Collection Systems for Corps of Engineers Recreation Areas,
W86-00331 1902 5D

Sewage Effluent Pumps,
W86-00803 1903 5D

Movement of Septic Tank Effluent through Sandy Soils near Perth. I. Movement of Nitrogen,
W86-01034 1904 5B

Movement of Septic Tank Effluent through Sandy Soils near Perth. II. Movement of Phosphorus,
W86-01035 1904 5B

Wet Method for Excreta Disposal,
W86-02333 1906 5D

Low-Cost Alternatives to Sewerage,
W86-02334 1906 5D

Studies of Effectiveness of Commercial Home Treatment Systems,
W86-02443 1907 5F

Impacts of Individual On-Site Sewage Disposal Facilities on Mountain Valleys - Phase II - Water-Quality Considerations,
W86-02694 1907 5B

Small-Diameter, Variable Grade Gravity Sewers,
W86-04493 1910 5D

Temperature Effects on Onsite Wastewater Treatment and Disposal System,
W86-04606 1910 5D

Septage Treatment and Disposal: Handbook,
W86-04828 1911 5D

NTA Biodegradation and Removal in Subsurface Sandy Soil,
W86-05339 1911 5B

Septic Tank Effluent Treatment Using an Anaerobic Filter,
W86-05566 1912 5D

SEPTIC WASTEWATER
Septage Treatment and Disposal: Handbook,
W86-04828 1911 5D

SEQUENCING BATCH REACTORS
Implementation of Sequencing Batch Reactors for Municipal Wastewater Treatment,
W86-03664 1909 5D

Biological Treatment of a Landfill Leachate in Sequencing Batch Reactors,
W86-04385 1910 5D

Biological Treatment of Hazardous Waste in Sequencing Batch Reactors,
W86-04504 1910 5D

Performance of SBR/Denitrification with a Primary Sludge Carbon Source,
W86-05035 1911 5D

Kinetics and Stoichiometry of SBR/Denitrification with a Primary Sludge Carbon Source,
W86-05036 1911 5D

Organic Loading Study Of Full-Scale Sequencing Batch Reactors,
W86-05308 1911 5D

Technology Evaluation of Sequencing Batch Reactors,
W86-05309 1911 5D

SETO INLAND SEA
Numerical Simulation of the Distribution of Water Temperature and Salinity in the Seto Inland Sea,
W86-05815 1912 2L

SETTLEMENT
Elastic Deformation of the Foundation of the Bratsk Concrete Dam,
W86-00991 1904 8E

SETTLING FLUX THEORY
Relationship between SVI and Activated Sludge Settling Characteristics,
W86-05082 1911 5D

SETTLING TANKS
Flow under Tilt Surface for High-Rate Settling,
W86-01040 1904 5D

Numerical Simulation of Rectangular Settling Tanks,
W86-01390 1905 5D

SETTLING TUBES
Progress Report: Performance of the Vibrating U-Tube Fluid Density Gage for Measuring Suspended-Sediment Concentration,
W86-02348 1906 7B

SETTLING VELOCITY
Computation of Fractional Removal of Discrete and Flocculant Particles in Settling Basins,
W86-03667 1909 5D

SEVERN ESTUARY
Heavy Metal in Isopods from the Supra-Littoral Zone on the Southern Shore of the Severn Estuary, UK,
W86-00865 1903 5B

SEVERN RIVER
Groundwater Development as an Integral Part of River Basin Resource Systems,
W86-05687 1912 4B

SEVERN TRENT WATER SYSTEM
Computer Aided Mapping Project Aids Severn Trent,
W86-01631 1905 6A

SEVIER DESERT
Ground-Water Hydrology of the Sevier Desert, Utah, with Results of Digital-Computer Modeling,
W86-02351 1906 2F

SEWAGE
Microbial Survival in Cured Municipal Compost,
W86-02685 1907 5C

SEWAGE BACTERIA
Microbial Survival in Cured Municipal Compost,
W86-02685 1907 5C

Occurrence, Growth, and Suppression of Salmonellae in Composted Sewage Sludge,
W86-04234 1910 5E

Comparison of Muller-Kauffmann Tetrathionate Broth with Rappaport-Vassiliadis (RV) Medium for the Isolation of Salmonellas from Sewage Sludge,
W86-04994 1911 5A

SEWAGE DISPOSAL
Controls on Phosphorus Mobility in the Potomac River, Near the Blue Plains Wastewater Treatment Plant,
W86-02762 1907 5B

SEWAGE EFFLUENTS
Nutrient Input from the Loxahatchee River Environmental Control District Sewage-Treatment Plant to the Loxahatchee River Estuary, Southeastern Florida,
W86-00110 1901 5B

Lagoon Treatment of Municipal Sewage Effluent in a Subarctic Region of Canada (Yellowknife, N.W.T.),
W86-04485 1910 5D

SEWAGE FUNGUS SLIMES
Evaluation of the Use of Artificial Substrates in Sampling the Invertebrate Fauna of Sewage Fungus Slimes in Irish Rivers,
W86-00936 1904 7B

SEWAGE LEACHATES
Verification of Shoreline Sewage Leachates in Flathead Lake, Montana,
W86-02619 1907 5B

SEWAGE SLUDGE
Simplified Method for the Extraction of the Metals Fe, Zn, Cu, Ni, Cd, Pb, Cr, Co and Mn from Soils and Sewage Sludges,
W86-05076 1911 5A

Winning Strategies for Land Application,
W86-05544 1912 5E

Radioactivity Levels in Municipal Sludge,
W86-05546 1912 5E

Chemical Composition of Vegetables Grown on an Agricultural Soil Amended with Sewage Sludges,
W86-05552 1912 5B

SEWAGE TREATMENT
Determination of Trace Polymer in Waste Water,
W86-06068 1912 5D

SEWAGE TREATMENT PLANTS
Water Quality of the Tidal Potomac River and Estuary Hydrologic Data Reports Supplement 1979 Through 1981 Water Years,
W86-02997 1908 5A

SEWER GAS
Simultaneous Multi-Instrumental Monitoring of Vapors in Sewer Headspaces by Several Direct-Reading Instruments,
W86-05572 1912 5A

SEWER HEADSPACES
Simultaneous Multi-Instrumental Monitoring of Vapors in Sewer Headspaces by Several Direct-Reading Instruments,
W86-05572 1912 5A

SEWER HYDRAULICS
Energy Losses at Straight-Flow-Through Sewer Junctions,
W86-00103 1901 8B

SEWER INFILTRATION
Durable Chemical Grout Solves 'Case of the Disappearing Lake',
W86-04742 1911 8A

SEWER SYSTEMS
Application of the STORM Model to Design Problems in Singapore and in Kaosiung, Republic of China,
W86-00086 1901 6A

Storm Sewer Optimum Design,
W86-00100 1901 8B

Energy Losses at Straight-Flow-Through Sewer Junctions,
W86-00103 1901 8B

Innovative/Alternative Wastewater Collection Systems for Corps of Engineers Recreation Areas,
W86-00331 1902 5D

Sedimentation, Mineralization and Resuspension of Sludge in a Sewerage System: A Case Study,
W86-01255 1904 5D

Using the Sewerage System Main Conduits for Biological Treatment; Greater Tel-Aviv as a Conceptual Model,
W86-01644 1905 5D

Sewerage: The Developing Country Dilemma,
W86-02332 1906 5D

Cost-Effective Design and Operation of Urban Stormwater Control Systems: Decision-Support Software,
W86-02427 1907 5D

Occurrence of Multiple-Antibiotic-Resistant Enteric Bacteria in Domestic Sewage and Oxidation Lagoons,
W86-04235 1910 5D

Making Effective Use of Existing Collection Capacity,
W86-04291 1910 5D

Sagging Sewers: A Serious Problem Getting Worse,
W86-04292 1910 5D

Summer Discount Methods in Sanitary Sewer Rate Structures,
W86-04684 1911 6C

Used Chassis Makes Sewer and Catch Basin Cleaner Affordable,
W86-04685 1911 5D

Solution to Residential Sewer Backups,
W86-04686 1911 5D

Using the Fecal Coliform Test for Sewer and Storm Drain Maintenance,
W86-04687 1911 5D

Simplicity is Mark of Pump Station in the Round,
W86-05120 1911 8C

Egypt Sewerage Fix Begins to Take Hold,
W86-05510 1912 5D

Computerization of Sewer Maintenance Scheduling Part 1 - Principles of Operation,
W86-05879 1912 7C

SEWERS
Environmental Engineering,
W86-00188 1901 5F

Kinetic Studies of the Microbiological Conversion of Sulphate to Hydrogen Sulphide and Their Relevance to Sulphide Generation Within Sewers,
W86-00746 1903 5D

Construction Techniques for Remedial Design at a Connecticut Superfund Site: A Case Study,
W86-02118 1906 5G

Making Effective Use of Existing Collection Capacity,
W86-04291 1910 5D

Sagging Sewers: A Serious Problem Getting Worse,
W86-04292 1910 5D

Small-Diameter, Variable Grade Gravity Sewers,
W86-04493 1910 5D

Big Bucks Saved on Sewer Rehabilitation Project,
W86-04740 1911 8A

Self-Cleaning Slope for Partially Full Sewers,
W86-05535 1912 8B

Solutions in the Pipeline,
W86-06076 1912 8A

SHAD
Mortality of Juvenile American Shad and Blueback Herring Passed through a Low-Head Kaplan Hydroelectric Turbine,
W86-01155 1904 8I

SHADNAGAR BASIN
Prognostic Study of Water Levels for Evaluating the Hydrogeological Character of Shadnagar Basin, (A.P.), India,
W86-05695 1912 2F

SHALLOW AQUIFERS
Characterization of Subsurface Bacteria Associated with Two Shallow Aquifers in Oklahoma,
W86-04664 1910 5A

SHALLOW WATER
Time Dependent Three Dimensional Simulation of Flows in Shallow Domains with Vegetative Obstruction,
W86-06065 1912 4A

SHEAR
Wind-Forced Motions in Stratified Lakes and Their Effect on Mixed-Layer Shear,
W86-05279 1911 2H

SHEAR STRESS
Dominant Shear Stresses in Arrested Saline Wedges,
W86-01099 1904 2L

SHEET EROSION
Prevention of Gully Formation and Associated Water Degradation in West Tennessee,
W86-02538 1907 2J

SHEET RUNOFF
Development of Sheet Erosion on Intensively Used Soils,
W86-04905 1911 2J

SHELLFISH
Report of Freshwater Mollusks Workshop, May 19-20, 1981.
W86-00329 1902 6G

EEC Shellfish Directive in Wales,
W86-01253 1904 5G

SHIBUSHI BAY
Two-Dimensional Calculation of Tide by Explicit Weighted Residual Method - I Shibushi Bay,
W86-01144 1904 2L

SHINERS
Concordant Variation in Thermal Tolerance and Allozymes of the Red Shiner, Notropis lutrensis, Inhabitating Tailwater Sections of the Brazos River, Texas,
W86-00452 1902 5C

SHINNECOCK INLET
Inlets and Barrier Beach Dynamics: A Case Study of Shinnecock Inlet, New York,
W86-01843 1905 2L

SHIP SIMULATION MODELS
Ship Simulation Models: An Aid To Harbor Design,
W86-05506 1912 8B

SHOALS
Sand Resources and Geological Character of Long Island Sound,
W86-00205 1901 8E

Design for Flood Control, Wave Protection, and Prevention of Shoaling, Rogue River, Oregon: Hydraulic Model Investigation,
W86-00326 1902 8B

Columbia River Estuary Hybrid Model Studies: Report 4, Entrance Channel Tests,
W86-00357 1902 2L

SHOHOLA CREEK
Chemical Study of the Shohola Creek Headwaters, Pike County, Pennsylvania,
W86-00636 1903 5B

SHORE EROSION
Statistical Modeling of Historic Shore Erosion Rates on the Chesapeake Bay in Maryland,
W86-00556 1902 2J

SHORE PROTECTION
Shore Stabilization with Salt Marsh Vegetation,
W86-00189 1901 8G

Sand Resources and Geological Character of Long Island Sound,
W86-00205 1901 8E

Effects of Beach Nourishment on the Nearshore Environment in Lake Huron at Lexington Harbor (Michigan),
W86-00224 1901 6G

Mission Bay Harbor, California, Design for Wave and Surge Protection and Flood Control: Hydraulic Model Investigation,
W86-00255 1901 8B

Edgewater Marina, Cleveland, Ohio: Design for Wave Protection, Hydraulic Model Investigation,
W86-00256 1901 8B

Design for Prevention of Beach Erosion at Presque Isle Beaches, Erie, Pennsylvania: Hydraulic Model Investigation,
W86-00257 1901 8B

Prevention of Shoaling at Little Lake Harbor, Michigan: Hydraulic Model Investigation,
W86-00317 1902 8B

Model Study on Wave Absorbers for Application in Harbours Along the South African Coastline,
W86-02000 1906 8A

Canadian Inland Waters: Coastal Environments and the Cleanup of Oil Spills,
W86-03621 1909 5G

Use of Grout-Filled Sausages in Coastal Structures,
W86-05503 1912 8D

SHORELINE
Biological Impacts on Beach Replenishment and Borrowing,
W86-01844 1905 6G

Germination of Ten Shoreline Plants in Relation to Seed Size, Soil Particle Size and Water Level: An Experimental Study,
W86-04694 1911 2I

SHORELINE CHANGES
Historical Changes to Lake Washington and Route of the Lake Washington Ship Canal, King County, Washington,
W86-00105 1901 2H

SHORELINE COVER
Distribution of Xyris difformis along a gradient of exposure to waves: an experimental study,
W86-06002 1912 2I

SHORELINES
Historical Changes to Lake Washington and Route of the Lake Washington Ship Canal, King County, Washington,
W86-00105 1901 2H

SHORES
Design for Flood Control, Wave Protection, and Prevention of Shoaling, Rogue River, Oregon: Hydraulic Model Investigation,
W86-00326 1902 8B

Shoreline Evolution Along the Northern Coast of the Gulf of Mexico,
W86-01830 1905 2J

Oil Spill on Northern Shorelines: An Evaluation of Some Options Dealing with this Problem,
W86-04022 1910 5G

SHRIMP
Evaluation of the Relevance of Some Environmental Factors to the Estimation of Migratory Timing and Yield for the Brown Shrimp of Pamlico Sound, North Carolina,
W86-00589 1902 2L

Quantitative Structure-Toxicity Relationships with Osmotically Stressed Artemia salina Nauplii,
W86-00864 1903 5C

Short-Term and Long-Term Influences on the Immigration of Postlarval Banana Prawns Penaeus merguiensis, Into a Mangrove Estuary of the Gulf of Carpentaria, Australia,
W86-01125 1904 2L

Factor Interaction Influencing the Distribution of the Freshwater 'Shrimp' Gammarus,
W86-01162 1904 2H

Ecological Zoogeography of Palaemonetes antennarius (Crustacea, Decapoda),
W86-04650 1910 2H

Evaluation of Metabolic Responses of Artemia Salina to Oil and Oil Dispersant as a Potential Indicator of Toxicant Stress,
W86-05484 1912 5C

Contamination and Growth of the Shrimp, Penaeus Stylirostris Stimpson, Cultured in a Seawater/Wastewater Aquaculture System,
W86-06071 1912 3C

SHRUBS
Comparative Water Relations of Adjacent California Shrub and Grassland Communities,
W86-01602 1905 2I

Salinity of Motorway Soils. IV. Effects of Sodium Chloride on Some Native British Shrub Species, and the Possibility of Establishing Shrubs on the Central Reserves of Motorways,
W86-06036 1912 5B

SICILY
Joint Use of Surface Water and Ground Water or Large Aquifers of Volcanic Origin (L'Usage Conjoint d'Eaux Superficielles et d'Eaux Souterraines dans un Bassin ou l'On a un Grand Aquifere Constitue de Roches Volcaniques),
W86-05690 1912 6D

SIERRA COOPERATIVE PILOT PROJECT
SCPP Data Collection and Analysis for the Period 1 January 1979 through 30 September 1984: Volume One - Executive Summary,
W86-01984 1906 2B

SIERRA LEONE
Some Physical and Chemical Properties of Water from an Undisturbed Tropical Catchment Area (Guma Dam, Sierra Leone),
W86-01134 1904 2H

Seasonality of Bacterial Quality of Water in a Tropical Developing Country (Sierra Leone),
W86-05106 1911 5A

SIERRA NEVADA
Radiometric Observations of Supercooled Liquid Water within a Split Front over the Sierra Nevada,
W86-04326 1910 2B

SIERRA NEVADA MOUNTAINS
Snow Chemistry of the Cascade-Sierra Nevada Mountains,
W86-04442 1910 5B

SILICA
Interaction Water-Silicate Minerals in the Unsaturated Zone Controlled by Thermodynamic Disequilibria,
W86-03756 1909 2K

Multivariate Analysis of Protist Communities in Lentic Systems,
W86-06028 1912 2H

SILICATE GEL INJECTIONS
Influence of Silicate Gel Injections on Groundwater Quality,
W86-05714 1912 5B

SILICATES
Interaction Water-Silicate Minerals in the Unsaturated Zone Controlled by Thermodynamic Disequilibria,
W86-03756 1909 2K

SILICIC SHALLOW-INSTRUSIVE ROCKS
Map Showing Outcrops of Granitic Rocks and Silicic Shallow-Intrusive Rocks, Basin and Range Province, Southern California,
W86-02805 1907 8E

SILICONE COMPOUNDS
Study of the Toxicity of Some Silicone Compounds in Relation to Marine Biological Chains,
W86-01853 1905 5C

SILL
Hydraulics of Two Flowing Layers with Different Densities,
W86-04714 1911 2E

SILT
Aspects of the Feeding Ecology of Turbin Water Zooplankton. In situ Studies of Community Filtration Rates in Silt-Laden Lake le Roux, Orange River, South Africa,
W86-05183 1911 2H

SILTING
Impact of Sediment on Reservoir Life,
W86-03604 1909 2J

Predicting the Distribution of Depostied Sediment in Southern African Reservoirs,
W86-03605 1909 2J

Sediment Deposition in Major Reservoirs in the Zambezi Basin,
W86-03606 1909 2J

Sediment Storage Requirements for Reservoirs,
W86-03607 1909 2J

Feasibility of Flushing Sediments through Reservoirs,
W86-03608 1909 2J

SILVER
Effect of Adherent Bacteria and Bacterial Extracellular Polymers upon Assimilation by Macoma balthica of Sediment-Bound Cd, Zn and Ag,
W86-00528 1902 5C

Copper and Silver Accumulation in Transplanted and Resident Clams (Macoma balthica) in South San Francisco Bay,
W86-01793 1905 5A

Selective Recovery of Gold and Other Metal Ions from an Algal Biomass,
W86-04231 1910 5B

Disposition of Silver Released from Soviet OBLAKO Rockets in Precipitation during the Hail Suppression Experiment Grossversuch IV. Part II: Case Studies of Seeded Cells,
W86-04630 1910 3B

SILVER CARP
Impact of the Silver Carp (Hypophthalmichthys molitrix Val.) on the Ecosystem of Carp Ponds,
W86-00439 1902 5B

SILVER-SIDE
Comparative Acute Sensitivities of Early Life Stages of Atherinid Fishes to Chlorpyrifos and Thiobencarb,
W86-01408 1905 5C

SILVERSIDE
Effects of Sublethal Copper Concentrations on the Structure and Activity of Atlantic Silverside Schools,
W86-01153 1904 5C

SIMAV RIVER
Boron Pollution in the Simav River, Turkey and Various Methods of Boron Removal,
W86-01061 1904 5D

SIMILARITY SOLUTION
Similarity Solution of Overland Flow on Pervious Surface,
W86-01092 1904 2E

SIMPLEX OPTIMIZATION PROCEDURES
Simplex Optimization of Extractive Alkylation Procedures for Organic Acids in Aqueous Samples,
W86-05944 1912 5A

SIMULATED RAINFALL
Responses of Three Wheat Cultivars to Simulated Acid Rain,
W86-04669 1910 5C

Permethrin Washoff from Cotton Plants by Simulated Rainfall,
W86-05385 1911 5B

SIMULATION
Comparison of Two Daily Streamflow Simulation Models of an Alpine Watershed,
W86-00033 1901 2E

Condensed Disaggregation Model for Incorporating Parameter Uncertainty Into Monthly Reservoir Simulations,
W86-00075 1901 2E

Computer Simulation of a Space SAR Using a Range-Sequential Processor for Soil Moisture Mapping,
W86-00351 1902 2G

Simulation of Nitrate Degradation in Groundwater (Simulation des Nitratabbaus im Grundwasser),
W86-00408 1902 5B

Simulation of Correlated Rainfall Amount and Duration Data,
W86-00492 1902 2B

Model to Simulate Response of Plant Stomata to Environmental Conditions,
W86-00504 1902 2D

Water Quality Model for Lake Kuortaneenjarvi, a Polyhumic Finnish Lake,
W86-00677 1903 2H

Simulated Solute Movement in Wastewater-Ponded Soil,
W86-00699 1903 5D

Monte-Carlo Simulation of Noninteracting Solute Transport in a Spatially Heterogeneous Soil,
W86-00702 1903 2G

Estimating Regional Snow Water Equivalent with a Simple Simulation Model,
W86-00789 1903 2C

Simulation and Decisionmaking: The Platte River Basin in Nebraska,
W86-00790 1903 6B

Simple Governing and Surging Simulation, Part One,
W86-00801 1903 8B

Mathematical Simulation of the Conversion and Transport of Nutrients in Drainage Areas - A Review of the Literature (Mathematische Simulation von Nahrstoffumwandlung und -transport in Einzugsgebieten-Literaturubersicht),
W86-00999 1904 5B

Simulator for Water Resources in Rural Basins,
W86-01049 1904 2A

Aquifem-Salt: A Finite Element Model for Aquifers Containing a Seawater Interface,
W86-02822 1907 2F

Operational Testing of Hydrological Simulation Models,
W86-04391 1910 7C

Using Soil Survey Information to Characterize the Soil-Water State,
W86-04713 1911 2G

Mathematical Simulation of Erosion on Graded Terraces,
W86-04919 1911 4D

Field Validation of the Geohydrology Simulation Model, FEWA,
W86-05071 1911 5B

Analysis and Simulation of Low Flow Hydraulics,
W86-05979 1912 2E

Salinity of Motorway Soils. III. Simulation of the Effects of Salt Usage and Rainfall on Sodium and Chloride Concentrations in the Soil of Central Reserves,
W86-06035 1912 5B

SIMULATION ANALYSIS
Spatially Varying Rainfall and Floodrisk Analysis,
W86-00012 1901 2E

Mechanistic Simulation for Transport of Nonpoint Source Pollutants,
W86-00092 1901 5B

Advancement in Hydraulic Modeling of Porous Pavement Facilities,
W86-00098 1901 2E

Atchafalaya River Delta; Report 8: Numerical Modeling of Hurricane-Induced Storm Surge,
W86-00164 1901 2A

Return Period Analysis of Minimum Events Using Sliding Polynomials,
W86-00375 1902 2A

Analytical Representation of the van Everdingen-Hurst Aquifer Influence Functions for Reservoir Simulation,
W86-01139 1904 2F

Simple Governing and Surging Simulation,
W86-01276 1904 8B

Simulated Effects of Surface Coal Mining and Agriculture on Dissolved Solids in Rosebud Creek, Southeastern Montana,
W86-01962 1906 5B

Simulated Effects of an Artificial-Recharge Experiment Near Proctor, Logan County, Colorado,
W86-0234[illegible] 1906 4B

Summary of Results of an Investigation to Define the Geohydrology and Simulate the Effects of Large Groundwater Withdrawals on the Mississippi River Alluvial Aquifer in Northwestern Mississippi,
W86-02405 1906 4B

Mathematical Models for Water Resources Policy and Management with Application to the Eutaw-McShan Aquifer,
W86-02494 1907 2F

Irrigation Scheduling Procedures with Limited Water for Improved Water Use Efficiency for Corn and Soybeans, 1982-1984 Studies,
W86-02727 1907 3F

Simulation of an Aquifer Test on the Tesuque Pueblo Grant, New Mexico,
W86-02866 1907 2F

Analysis of Water-Level Fluctuations of the U.S. Highway 90 Retention Pond, Madison, Florida,
W86-02881 1907 2A

Simulated Ground-Water Flow in the Potomac Aquifers, New Castle County, Delaware,
W86-02920 1908 2F

Predictive Simulations of Alternatives for Managing the Water Resources of North Fork Solomon River Valley Between Kirwin Dam and Waconda Lake, North-Central Kansas,
W86-02941 1908 2A

Physical Basis and Potential Estimation Techniques for Soil Erosion Parameters in the Precipitation Runoff Modeling System (PRMS),
W86-02943 1908 2J

Ground-Water System and Simulated Effects of Ground-Water Withdrawals in Northern Utah Valley, Utah,
W86-02948 1908 2F

Application of the Conjugate-Gradient Method to Ground-Water Models,
W86-02954 1908 2F

Simulation of Groundwater Flow and Contaminant Transport Using the Deterministic-Probabilistic Contaminant Transport (DPCT) Model,
W86-03288 1908 5B

Keilson-Ross Procedure for Estimating Climatic Probabilities of Duration of Weather Conditions,
W86-03294 1908 2A

Laboratory Tests of a Hydraulic Pressure Surge Reliever,
W86-03340 1908 8C

Large-Scale Operations Management Test of Use of the White Amur for Control of Problem Aquatic Plants, Report 2: First Year Poststocking Results,
W86-03454 1909 2H

Application Guide for Hydrological Simulation Program: FORTRAN (HSPF),
W86-03614 1909 2A

Mathematical Model, SERATRA, for Sediment-Contaminant Transport in Rivers and Its Application to Pesticide Transport in Four Mile and Wolf Creeks in Iowa,
W86-03648 1909 5B

Simulation of Physicochemical Interactions in a Water-Rock System in Assessing Ground-Water Quality,
W86-03759 1909 2K

Role of Bottom Sediments in Modifying Soluble Phosphate Loads to a Dendritic, Hypertrophic Reservoir,
W86-03787 1909 2J

Continuous DO Response Predicted Using CSPSS Is Verified for Springfield, Missouri,
W86-03826 1909 5B

Chimney Hill Off-Site Drainage Study,
W86-03835 1909 2A

Continuous Simulation of Instream Fecal Coliform Bacteria,
W86-03837 1909 5B

Behavior of Methyltin Compounds Under Simulated Estuarine Conditions,
W86-04133 1910 5B

Muddy Water and American Agriculture: How to Best Control Sedimentation From Agricultural Land,
W86-04303 1910 4D

Approximations of Temporal Rainfall From a Multidimensional Model,
W86-04322 1910 2B

Oil in Ice Computer Simulation Model,
W86-04478 1910 5B

Simulation of Water-Bloom in a Eutrophic Lake - IV: Modeling the Vertical Migration in a Population of Microcystis Aeruginosa,
W86-04579 1910 5C

Curvilinear Finite Element Model for Simulating Two-Well Tracer Tests and Transport in Stratified Aquifers,
W86-05213 1911 2F

Simulation of Fluid Flow and Energy Transport Processes Associated with High-Level Radioactive Waste Disposal in Unsaturated Alluvium,
W86-05223 1911 5E

Monte Carlo Simulation of Snow Depth in a Forest,
W86-05244 1911 2C

Long-Range Prediction of Groundwater Levels in a Volcanic Upland Using an Aquifer Model with Soil Water Subsystem,
W86-05650 1912 2F

Groundwater Simulation Model for a Shallow Water Table Aquifer.
W86-05670 1912 4B

Small Models for the Simulation of Groundwater Flow (Miniaturisation des Modeles d'Ecoulement Souterrain),
W86-05702 1912 2F

Groundwater Level Management in the Plain of Alsace in Moyen: Model Simulations and Information Exchange (Gestion de la Nappe Phreatique de la Plaine d'Alsace au Moyen d'une Banque de Donnees et de Models de Simulation),
W86-05711 1912 2F

Use of Simulation Models in Water Resources Systems Analysis,
W86-05771 1912 6A

Combination of Simulated Discharges of Hydrological Models. Application of the WMO Intercomparison of Conceptual Models of Snowmelt Runoff,
W86-06164 1912 2E

SIMULATION MODEL
Feasibility of Subirrigation Systems on Claypan Soils in the Midwest,
W86-02697 1907 4B

SIMULATION MODELS
Migration of Heavy Elements in Groundwater Following Uranium Solution Mining Operations,
W86-02578 1907 2A

Geohydrology of the Madison and Associated Aquifers in Parts of Montana, North Dakota, South Dakota, and Wyoming,
W86-02921 1908 2F

Solute-Transport Simulation of Brackish-Water Intrusion Near Baltimore, Maryland,
W86-04274 1910 5B

SIMULTANEOUS EQUATIONS
Simultaneous Equation Demand Model for Block Rates,
W86-04155 1910 6D

Water Demand Estimation Under Block Rate Pricing: A Simultaneous Equation Approach,
W86-05243 1911 6D

SINAI DESERT
Fossil Water under the Sinai-Negev Peninsula,
W86-00911 1903 2F

SINGLE PHASE ANAEROBIC FILTER
Recent Developments in Hydrogen Management During Anaerobic Biological Wastewater Treatment,
W86-04746 1911 5D

SINGLE RESERVOIR MODEL
Transport of 60Co Between Water and Sediments in a Small Shield Lake,
W86-05563 1912 5B

SINGLE SLUDGE PROCESS
Single Sludge Anoxic-Aerobic Systems for Biological Treatment of Coke Plant Wastewaters,
W86-00765 1903 5D

SINGLET OXYGEN
Singlet Oxygen in Surface Waters. 3. Photochemical Formation and Steady-State Concentrations in Various Types of Waters,
W86-04720 1911 2K

SINKHOLES
Durable Chemical Grout Solves 'Case of the Disappearing Lake',
W86-04742 1911 8A

SIPHONS
MeGee Creek Pumping Station Siphon, Pike County, Illinois: Hydraulic Model Investigation,
W86-00219 1901 8B

SITE SELECTION
Investigation of Dam Sites: Modern Practices,
W86-01210 1904 8E

SITKA SPRUCE
Gamma Ray Attenuation Studies of Interception from Sitka Spruce: Some Evidence for an Additional Transport Mechanism,
W86-04204 1910 2I

SJAELSO WATER WORKS
Preformed Monochloramine Used as a Post-Disinfectant in Drinking Water Treatment at Sjaelso Water Works,
W86-04152 1910 5F

SKIMMERS
Research and Development in the Insitute of Ocean Environmental Technology,
W86-04014 1910 5G

SKIMMING
Self-Contained Oil Recovery System for Use in Protected Waters,
W86-04011 1910 5G

SKIMMING WELLS
Simulation of Two-Fluid Response in Vicinity of Recovery Wells,
W86-05857 1912 2F

SLEEVE LYSIMETERS
Sleeve and Casing Lysimeters for Soil Pore Water Sampling,
W86-01422 1905 7B

SLIDING POLYNOMIALS
Return Period Analysis with Sliding Polynomials,
W86-00374 1902 2A

Return Period Analysis of Minimum Events Using Sliding Polynomials,
W86-00375 1902 2A

Testing the Climatic Representativeness of Short-Period Records Through Simulation,
W86-00376 1902 2A

SLIME
Slime Growth on Fine Bubble Diffusers,
W86-03672 1909 5D

SLIMES
Heterotrophic Slimes in Irish Rivers, Evaluation of the Problem,
W86-00053 1901 5B

SLIP CIRCLE MODEL
Analysis of Stratigraphic Control on River Bank Failure,
W86-04748 1911 4D

SLOPE
Length and Slope Effects on Runoff from Sodium Dispersed, Compacted Earth Microcatchments,
W86-00705 1903 3B

SLOPE ANALYSIS
Determination of Aquifer Parameters by the Slope-Matching Method,
W86-05447 1912 2F

SLOPE EROSION
Rate of Erosion Processes on Experimental Areas in the Marchiazza Basin (Northwestern Italy),
W86-04888 1911 4D

SLOPE PROTECTION
Stability of Armor Units on Composite Slopes,
W86-06112 1912 8A

SLOPES
Unsaturated and Saturated Flow Through a Thin Porous Layer on a Hillslope,
W86-01073 1904 2F

Predicting the Sediment Capacity of a Channel,
W86-03594 1909 2J

Role of Water in Soil Formation,
W86-04550 1910 2G

Studies of Sediment Production on Mountain Slopes,
W86-04869 1911 4D

New Methods of Measurement of Slow Particulate Processes on Hillside Slopes,
W86-04870 1911 7B

Investigation of Source Areas of Sediment and Sediment Transport by Overland Flow Along Arid Hillslopes,
W86-04886 1911 2J

Rate of Erosion Processes on Experimental Areas in the Marchiazza Basin (Northwestern Italy),
W86-04888 1911 4D

Establishment of Experimental Plots for Studying Runoff and Soil Loss in the Rolling Loess Regions of China,
W86-04889 1911 2J

Drainage from a Uniform Soil Layer on a Hillslope,
W86-05209 1911 2E

SLOPING WAVES
Channel and Flow Relationships in Tidal Salt Marsh Wetlands,
W86-02566 1907 2L

SLOSH
Evaluation of the SLOSH Storm-Surge Model,
W86-06101 1912 2B

SLOVENIA
Case of Polychlorinated Biphenyl Contamination of Water and Sediment in the Slovenian Karst Region (Yugoslavia),
W86-00392 1902 5B

SLUDGE
Sludge Management: A Research Update,
W86-00715 1903 5E

Heavy Metal Concentrations in Municipal Wastewater Treatment Plant Sludge,
W86-00726 1903 5B

Effect of Aeration, Cadmium Concentration, and Solids Content on Acid Extraction of Cadmium from a Municipal Wastewater Sludge,
W86-00846 1903 5D

Determination of Selenium in Sewage Sludge Using an Acid-Digestion Bomb and Fluorimetry,
W86-01026 1904 5A

Fractionation of Heavy Metals in Sewage Sludges,
W86-01184 1904 5D

Hazardous Substances in Waste Water,

SLUDGE EXCESS

Some Rheological Features of Concentrated Excess Activated Sludge of Thixotropic Nature,
W86-05262 1911 5D

SLUDGE FILTERS

Belt Filter Press Selection for Chemical Process Waste Biosludges,
W86-02114 1906 5D

Limitations of Sludge Filtration Theory at Constant Vacuum Pressure,
W86-05287 1911 5D

SLUDGE LAGOONS

Sludge Disposal,
W86-02197 1906 5F

SLUDGE MANAGEMENT

US Sludge Management Guidelines Explained,
W86-01461 1905 5E

SLUDGE SETTLING

Settling of Nutrient Removal Activated Sludges,
W86-01178 1904 5D

SLUDGE SOLIDS

Separation of Metals in Wastewater Sludge by Centrifugal Classification,
W86-06085 1912 5D

SLUDGE STABILIZATION

Liquid Sludge Stabilization Using Vermistabilization,
W86-01549 1905 5D

SLUDGE THICKENING

Soluble-Sulfide Precipitation Treatment of Metal Finishing Wastewater,
W86-02105 1906 5D

Use of Aquatic Macrophytes for Sludge Treatment,
W86-03669 1909 5D

Pollution Control: The Hidden Profit Centre,
W86-03571 1909 5D

Start-up of a High-purity, Oxygen-Activated Sludge System at the Los Angeles County Sanitation Districts' Joint Water Pollution Control Plant,
W86-04332 1910 5D

Developments in Sludge Dewatering.
W86-04612 1910 5D

Auto-Oxidation Effect on Flue Gas Sludge Systems,
W86-04634 1910 5D

SLUDGE TREATMENT

Environmental Engineering,
W86-00188 1901 5F

Sludge Treatment Technology and Ionizing Radiation,
W86-01181 1904 5D

Decontaminating Biological Sludge for Agricultural Use,
W86-01183 1904 5D

Physical Properties and Leach Testing of Solidified/Stabilized Industrial Wastes.
W86-02001 1906 5E

SLUDGE UTILIZATION

Assessment of Heavy Metals and PCB's at Selected Sludge Application Sites in Ontario,
W86-00102 1901 5A

Structural Features of the Grey-Brownish Black Sandy Soils of Apsheron and Their Alteration Following Application of Water Pipe Sludge from Kuzinsk (Mikromorfologicheskie Osobennosti Sero-Burykh Peschanykh Pochv Apsherona i ikh Izmenenie Pri Vnesenii Kurinskogo Vodoprovodnogo Osadka),
W86-01256 1904 5E

Utilization of an Industrial Waste Oil as an Alternative Fuel for a Municipal Sludge Incinerator,
W86-02099 1906 5D

Sludge Disposal and the A.P. Black Process,
W86-02193 1906 5F

Sludge - Recycling for Agricultural Use,
W86-03275 1908 5E

Sludge and the Land: The Role of Soil and Water Conservation Districts in Land Application of Sewage Sludge.
W86-03514 1909 5E

Proceedings of the 6th Symposium on Wastewater Treatment,
W86-03659 1909 5D

Anaerobic Pretreatment Facility Also Provides Sludge Disposal Capability and Source of Renewable Energy for Food Processor,
W86-03661 1909 5D

Pollution Control: The Hidden Profit Centre,
W86-03671 1909 5D

Alkylate Sludge Reuse Potential,
W86-05406 1911 5E

Time-Dependent Changes in Soluble Organics, Copper, Nickel, and Zinc From Sludge Amended Soils,
W86-05554 1912 5B

Effects on Cattle from Exposure to Sewage Sludge,
W86-05808 1912 5C

Environmental Movement of Indicator Bacteria from Soil Amended with Undigested Sewage Sludge,
W86-06083 1912 5B

SLUDGE VOLUME INDEX

Response of Activated Sludge Process to Stepwise Shortening of Biological Solids Retention Time,
W86-04250 1910 5D

Relationship between SVI and Activated Sludge Settling Characteristics,
W86-05082 1911 5D

SLUG FLOW

Finite Amplitude Waves in Stratified Two-Phase Flow: Transition to Slug Flow,
W86-01864 1905 2E

SLUICE GATES

Body-Fitted Coordinates for Flow Under Sluice Gates,
W86-01046 1904 8B

SLUICES

Local Scour Downstream of an Apron,
W86-05974 1912 8B

SLURRIES

Enhanced Reuse Potential of Coal Slurry Transport Water: Toxic Organics Assessment and Removal (Phase II),
W86-02543 1907 5D

Enhanced Reuse Potential of Coal Slurry Transport Water: Toxic Organics Assessment and Removal,
W86-02682 1907 5D

Effects of Temperature Shock Treatments on the Stability of Anaerobic Digesters Operated on Separated Cattle Slurry,
W86-04575 1910 5D

SMALL HYDRO

Economic Limits of Small and Low-Head Hydro,
W86-04724 1911 6B

Jones Fork Small Hydro Scheme,
W86-04727 1911 8C

Developing Small Hydro in India,
W86-04728 1911 8C

SMALL WATERSHEDS

Projecting Land Use Changes Associated with Small Watershed Development,
W86-01976 1906 6G

Preliminary Report on a Study to Estimate Flood Volumes of Small Rural Streams in Ohio: Methods, Site Selection, and Data Base,
W36-02906 1907 7C

Streamflow and Water Quality of Onion River, Wisconsin--An Assessment of Nonpoint-Source Discharges,
W86-02932 1908 5B

SMELT

Heavy Metal Accumulation (Cd, Cu, Pb and Zn) by Smelt (Osmerus mordax) From the North Shore of the St Lawrence Estuary (Accumulation de Quelques Metaux Lourds (Cd, Cu, Pb Et Zn) Chez L'Eperlan (Osmerus mordax) Preleve Sur La Rive Nord De L'Estuaire du Saint-Laurent),
W86-00059 1901 5C

SMOKY HILL RIVER

Model Study of Salt-Water Intrusion to a River Using the Sharp Interface Approximation,
W86-01308 1904 2F

SMOLTS

Water Temperature as the Primary Influence on Timing of Seaward Migrations of Atlantic Salmon (Salmo salar) Smolts,
W86-01589 1905 2H

SNAILS

Acute Toxicity of Distillery Effluent on a Freshwater Fish and Three Pond Snails,
W86-01011 1904 5C

Dynamics, Migration and Growth of Nassarius reticulatus (Mollusca: Prosobranchia) Colonizing Saline Lake Grevelingen (SW Netherlands),
W86-01575 1905 2H

Occurrence of Gastropoda in the Lake Littoral and Their Role in the Production and Transformation of Detritus I. Snails in the Littoral of Mikolajskie Lake – General Characteristics of Occurrence,
W86-05190 1911 2H

Occurrence of Gastropoda in the Lake Littoral and Their Role in the Production and Transformation of Detritus II. Ecological Activity of Snails,
W86-05191 1911 2H

Acute Toxicity of Pentachlorophenol to the Freshwater Snail, Gillia altilis,
W86-05534 1912 5C

SNOW

Ground-Base Snow and Ice Crystal Observation System Used in Sierra Nevada Winter Orographic Storms,
W86-00222 1901 2B

Observation on Microphysical Processes in the Stratiform Precipitations Including Melting Layers at Mt. Fuji,
W86-00425 1902 2B

Experiments on Aerosol Scavenging by Natural Snow Crystals, Part I: Collection Efficiency of Uncharged Snow Crystals for Micron and Submicron Particles,
W86-00426 1902 2B

Modelling Alpine Snow Accumulation and Ablation Using Daily Climate Observations,
W86-01385 1905 2C

Conceptual Runoff Model for a Mountainous Rain-on-Snow Environment, Craigieburn Range, New Zealand,
W86-01386 1905 2A

Uneven Pattern; The 1982-83 Snow Season,
W86-01428 1905 2B

Heavy in the West, Light in the East: Snowfall in 1983-84,
W86-01430 1905 2B

International Perspective on Large-Scale Snow Studies,
W86-01446 1905 2C

Sampling of Snow and Ice on Lakes,
W86-01788 1905 2C

World's Highest Dam Conquers Harsh Environment,
W86-05002 1911 8D

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part I. Attenuation of Radar Wave Due to Precipitation Particles and Correction Method,
W86-05091 1911 2B

Two-Wavelength (0.86 cm and 3.2 cm) Radar Observation of Microphysical Process in Stratiform Precipitation Part II. Study on Size Distribution Change of Precipitation Particles,
W86-05092 1911 2B

Experiments on Aerosol Scavenging by Natural Snow Crystals Part III. The Effect of Snow Crystal Charge on Collection Efficiency,
W86-05093 1911 2C

Mesoscale Frequencies and Seasonal Snowfalls for Different Types of Lake Michigan Snow Storms,
W86-05417 1912 2B

Differences in Ionic Compositions and Behavior in Winter Rain and Snow,
W86-05466 1912 5B

Hydrological Aspects of Alpine and High-Mountain Areas.
W86-05610 1912 2C

Maps of Streamflow Resources of Some High-Mountain Areas in Asia and North America,
W86-05612 1912 2E

Snow Accumulation Derived from Modified Depletion Curves of Snow Coverage,
W86-05619 1912 2C

Operational Snow Mapping by Satellites,
W86-05626 1912 2C

Application of Cosmic Rays to the Solution of Some Hydrological Problems,
W86-05627 1912 2C

Assessing Snow Storage and Melt in a New Zealand Mountain Environment,
W86-05628 1912 2C

Mesoscale Numerical Forecast of an Intense Convective Snowburst Along the East Coast,
W86-06102 1912 2C

SNOW ACCUMULATION

Snow Accumulation Derived from Modified Depletion Curves of Snow Coverage,
W86-05619 1912 2C

Variations of the Hydrological Properties of Alpine Snow-Cover Stores,
W86-05620 1912 2C

Operational Snow Mapping by Satellites,
W86-05626 1912 2C

Water Resources Investigations in Pakistan with the Help of Landsat Imagery - Snow Surveys 1975-1978,
W86-05630 1912 2C

Large-Scale Assessment of Snow Resources for Forecasting Spring Flow,
W86-05632 1912 2C

SNOW COVER

Influences of Snow Cover and Soil Moisture on Monthly Air Temperature,
W86-00860 1903 2A

Recent Secular Variations of Snow and Sea Ice Cover,
W86-03695 1909 2C

Operational Snow Mapping by Satellites,
W86-05626 1912 2C

SNOW DENSITY

High Densities, Water Equivalents, and Melt Rates of Snow in the Cairngorm Mountains, Scotland,
W86-04559 1910 2C

SNOW DEPTH

High Densities, Water Equivalents, and Melt Rates of Snow in the Cairngorm Mountains, Scotland,
W86-04559 1910 2C

Monte Carlo Simulation of Snow Depth in a Forest,
W86-05244 1911 2C

SNOW REMOVAL

Determining the Effectiveness of Highway Drainage Systems in Preventing Salt Contamination of Ground Water,
W86-03044 1908 5G

SNOW SAMPLING

Snow Chemistry of the Cascade-Sierra Nevada Mountains,
W86-04442 1910 5B

SNOW SURVEYS

Optimization of a Snow Network by Multivariate Statistical Analysis,
W86-04395 1910 2C

Interception of Snow by the Forest Canopy,
W86-04555 1910 2C

Monte Carlo Simulation of Snow Depth in a Forest,
W86-05244 1911 2C

Mesoscale Frequencies and Seasonal Snowfalls for Different Types of Lake Michigan Snow Storms,
W86-05417 1912 2B

Measurement of Areal Water Equivalent of Snow by Natural Gamma Radiation - Experiences from Northern Sweden,
W86-05543 1912 2C

SNOWFALL

Sensitivity of an Energy Balance Climate Model with Predicted Snowfall Rates,
W86-01750 1905 2B

SNOWFALL AUGMENTATION

Atmospheric Water Balance over a Mountain Barrier,
W86-05474 1912 2B

SNOWFIELDS

Water Supply and Waste Disposal on Permanent Snowfields,
W86-05473 1912 5F

SNOWLINE

East-West and North-South Snow Line Gradients in the Northern Patagonian Andes, Argentina,
W86-03674 1909 2C

Present and Late Pleistocene Equilibrium Line Altitudes in the Mt Everest Region - An Application of the Glacier Inventory,
W86-03681 1909 2C

Mountain Glaciers in the Mediterranean Area and in Africa,
W86-03691 1909 2C

Glacier Snow Line Variations in the Southern Alps, New Zealand,
W86-03692 1909 2C

SNOWMELT

Runoff from Glacierized Mountains: A Model for Annual Variation and Its Forecasting,
W86-00077 1901 2E

Snowmelt Induced Urban Runoff in Northern Sweden,
W86-00097 1901 2C

Snowmelt Energy Budgets in Southern and East-Central Wisconsin,
W86-00648 1903 2C

Volatile Trace-Element Concentrations in Snowmelt Contributions to Streams Monitored by Hydrologic Bench Mark Network Stations in the Conterminous United States Where Average Annual Snowfall Exceeds 12 Inches,
W86-02397 1906 5B

SNOWMELT

Calibration Procedure for a Daily Flow Model of Small Watersheds with Snowmelt Runoff in the Green River Coal Region of Colorado,
W86-02403 1906 2A

Snowmelt Infiltration into Frozen Ground,
W86-02477 1907 2C

Floods of March 1982, Indiana, Michigan, and Ohio,
W86-03552 1909 2E

Discharge Forecasting from Glacierized Areas to Optimize Hydroelectric Power Management,
W86-03848 1909 8C

Monitoring Changes in Total and Unfrozen Water Content in Seasonally Frozen Soil Using Time Domain Reflectometry and Neutron Moderation Techniques,
W86-04305 1910 2G

Bayesian Models of Forecasted Time Series,
W86-04532 1910 2A

Field and Laboratory Measurements of Snow Liquid Water by Dilution,
W86-04540 1910 2C

Flow Pattern of Meltwater in Mountain Snow Cover,
W86-05617 1912 2C

Water Storage and Drainage within the Firn of a Temperate Glacier (Vernagtferner, Oetztal Alps, Austria),
W86-05618 1912 2C

Snow Accumulation Derived from Modified Depletion Curves of Snow Coverage,
W86-05619 1912 2C

Variations of the Hydrological Properties of Alpine Snow-Cover Stores,
W86-05620 1912 2C

Glacier Discharge Model Based on Results from Field Studies of Energy Balance, Water Storage and Flow,
W86-05621 1912 2C

Importance of the Structure of the Glacier Internal and External Runoff System of Channels and Streams to Glacier Activity,
W86-05623 1912 2C

Modeling Runoff from a Glacierized Basin,
W86-05624 1912 2C

Snowmelt and Groundwater Storage in an Alpine Basin,
W86-05629 1912 2F

Water Resources Investigations in Pakistan with the Help of Landsat Imagery - Snow Surveys 1975-1978,
W86-05630 1912 2C

WMO Project for the Intercomparison of Conceptual Models of Snowmelt Runoff.
W86-05631 1912 2C

Large-Scale Assessment of Snow Resources for Forecasting Spring Flow,
W86-05632 1912 2C

Methods of Regional Computation of Glacier Melting Intensity in Central Asia,
W86-05633 1912 2C

Sensitivity of the European Hydrological System Snow Models,
W86-05634 1912 2C

Water and Nutrient Discharge During Snowmelt in Subalpine Areas,
W86-05643 1912 2C

Combination of Simulated Discharges of Hydrological Models. Application of the WMO Intercomparison of Conceptual Models of Snowmelt Runoff,
W86-06164 1912 2E

SNOWPACK

Snowmelt Induced Urban Runoff in Northern Sweden,
W86-00097 1901 2C

Estimating Regional Snow Water Equivalent with a Simple Simulation Model,
W86-00789 1903 2C

SNOWY MOUNTAINS

Stomatal Responses and Water Relations of Eucalyptus pauciflora in Summer Along an Elevational Gradient,
W86-01163 1904 2D

SOCIAL ASPECTS

Environmental and Socio-Economic Impact of the Jonglei Canal Project, Southern Sudan,
W86-00557 1902 6G

Addressing Social and Environmental Issues in Water Resources Planning and Management,
W86-00793 1903 6A

Reservoir Impacts: A Synthesis of a 10-Year Research Project,
W86-01071 1904 6G

Overview of the Legal, Political, and Social Implications of Wastewater Treatment Through Aquaculture,
W86-02068 1906 5D

PCB's: Human and Environmental Hazards,
W86-02248 1906 5B

PCB Problem: An Overview,
W86-02249 1906 5B

Overview of the Scientific Basis for Concern with Polychlorinated Biphenyls in the Great Lakes,
W86-02250 1906 5B

Environmentalist's View of the PCBs in the Great Lakes,
W86-02252 1906 5B

Edible Tissue Sampling for Fish Contaminant Analysis,
W86-02253 1906 5B

Analysis of PCBs Using Specific Isomer High Resolution Capillary Gas Chromatography,
W86-02254 1906 5A

Economic Impacts of PCB Regulation in Food Fish,
W86-02256 1906 5C

Comparison of Freshwater Use Customs on Ulithi Atoll with Those of Selected Other Micronesian Atolls,
W86-02598 1907 3B

Community Responses to Non-point Pollution from Agriculture,
W86-04605 1910 5B

SOCIAL IMPACT

Water and the City,
W86-00264 1901 6D

SODIUM

Sodium in Drinking Water in South Carolina,
W86-01411 1905 5C

Determination of Potassium, Sodium, Calcium, and Magnesium in Natural Waters by Ion Chromatography,
W86-01717 1905 5A

Data from a Solute Transport Experiment in the Leviathan Mine Drainage, Alpine County, California, October 1982,
W86-03055 1908 5B

Effects of Exposure to Salty Drinking Water in an Arizona Community: Cardiovascular Mortality, Hypertension Prevalence, and Relationships between Blood Pressure and Sodium Intake,
W86-04223 1910 5C

CMA: An Alternative to Road Salt,
W86-04359 1910 5G

SODIUM ALUMINATE

Elimination of Micropollutants by NaAlO2 Flocculation During Primary Treatment of Mixed Wastewater,
W86-04566 1910 5D

SODIUM CHLORIDE

Salinity of Motorway Soils. I. Variation in Time and Between Regions in the Salinity of Soils on Central Reserves,
W86-06033 1912 5B

Salinity of Motorway Soils. II. Distance from the Carriageway and Other Sources of Local Variation in Salinity,
W86-06034 1912 5B

SODIUM COMPOUNDS

Removal of Heavy Metals in POTW Using Alum or Sodium Aluminate for Phosphorus Removal,
W86-02108 1906 5D

SODIUM HYDROXIDE

Influence of Different Substrate pH Values on the Performance of a Downflow Anaerobic Fixed Bed Reactor Treating a Petrochemical Effluent,
W86-04744 1911 5D

SODIUM PENTACHLOROPHENATE

Effect of pH on Toxicity of Sodium Pentachlorophenate to Fry of Common Carp in Softwater,
W86-00626 1903 5C

SODIUM SULFATE

Selenium Concentrations in Waters Tributary to and in the Vicinity of the Kesterson National Wildlife Refuge, Fresno and Merced Counties, California,
W86-03124 1908 5A

SODIUM TRIPHOSPHATE

Adsorption of Humic Acids onto Powdered Activased Carbon; The Influence of Sodium Triphosphate (Adsorption des Acides Humiques sur Charbon Active en Poudre Influence du Triphosphate de Sodium),
W86-01649 1905 5F

SOFTWARE

Database Management,
W86-05010 1911 7C

SOFTWOODS

Chlorinated Carboxylic Acids in Softwood Kraft Pulp Spent Bleach Liquors,
W86-04224 1910 5A

SOIL

Laboratory and Field Studies on the Fate of 1,3,6,8-Tetrachlorodibenzo-p-dioxin in Soil and Sediments,
W86-00047 1901 5B

Effect of the Content of Organic Matter in Soil on Leaching of Chemical Fertilizers into the Zone of Aeration and Groundwaters,
W86-01822 1905 5B

Irrigation in Australia: Development and Prospects,
W86-02127 1906 3F

Soil and Groundwater Fate Modeling,
W86-03365 1908 5B

Transient Movement and Transformation of Carbon Species in Soil During Wastewater Application,
W86-04311 1910 5E

Distribution of Carbofuran in a Rice-Paddy-Fish Microecosystem,
W86-04966 1911 5B

Water Transfer by Plant Roots from Wet to Dry Soil,
W86-05964 1912 2D

Seepage beneath a Concrete Dam with a Downstream Filter,
W86-06078 1912 8D

SOIL AGGREGATES
Sorption of Carbon and Phosphorus from Liquid Poultry Manure by Soil Aggregates of Differing Size,
W86-01908 1905 5D

SOIL AMENDMENTS
Fate of Di-2-(ethylhexyl)phthalate in Three Sludge-Amended New Mexico Soils,
W86-04413 1910 5B

Availability of Applied Heavy Metals as a Function of Type of Soil Material and Metal Source,
W86-05299 1911 5E

Mineralization of Nitrogen in Soils Amended with Organic Wastes,
W86-05391 1911 5E

Environmental Movement of Indicator Bacteria from Soil Amended with Undigested Sewage Sludge,
W86-06083 1912 5B

SOIL ANALYSIS
Quantification of Pinhole Test Equipment Hydraulic Characteristics,
W86-03323 1908 8D

SOIL BACTERIA
Distribution of Denitrifying and Sulfate Reducing Bacteria within a Riparian Zone Along a Mountain Stream,
W86-02603 1907 6G

SOIL CEMENT
Cement-Modified Soil in Canal Lining,
W86-00381 1902 8F

SOIL CHARACTERISTICS
Impacts of Soil Characteristics on Soil Erodibility,
W86-04900 1911 2J

SOIL CHEMISTRY
Effect of Simulated Sulfuric Acid Rain on the Chemistry of a Sulfate-Adsorbing Forest Soil,
W86-00430 1902 5C

Effects of Artifical Drainage on Soil Mineral Nitrogen Dynamics in Winter Wheat on the Southern Piedmont,
W86-00513 1902 4A

Changes in Soil Carbon and Nitrogen Due to Irrigation Development in Nebraska's Sandhill Soils,
W86-00703 1903 6G

Effect of Acid Rain on Soils,
W86-00858 1903 5C

Evaluation of 0.1 N NaHCO3 Extraction for Determination of Available Nitrogen,
W86-02703 1907 2G

Dielectric Properties of Saturated Soils,
W86-04087 1910 2G

Metal Movement in Sludge-Treated Soils after Six years of Sludge Addition: 2. Nickel, Cobalt, Iron, Manganese, Chromium, and Mercury,
W86-04408 1910 5B

Acid Rain - A Further Look at the Evidence,
W86-04704 1911 5B

Sorption of Trace Metals by Humic Materials in Soils and Natural Waters,
W86-04715 1911 5B

Possibility of Melioration and Agricultural use of Liman and Marine Sediments,
W86-04729 1911 5G

Effects of Coal-Fired Thermal Power Plant Discharges on Agricultural Soil and Crop Plants,
W86-05573 1912 5C

Oxidation-Induced Leaching of Sulphate and Cations from Acid Sulphate Soils,
W86-05909 1912 2G

Adsorption of Mercury Compounds by Tropical Soils,
W86-05911 1912 2G

Salinity of Motorway Soils. I. Variation in Time and Between Regions in the Salinity of Soils on Central Reserves,
W86-06033 1912 5B

SOIL CLASSIFICATION
Quantification of Pinhole Test Equipment Hydraulic Characteristics,
W86-03323 1908 8D

Hydromorphic Soils Wetted by Groundwater in Northern Kazakhstan,
W86-04556 1910 2G

SOIL COLUMNS
Some Concepts Pertaining to Investigative Methodology for Subsurface Process Research,
W86-04086 1910 5B

SOIL COMPACTION
Furrow Compaction for Controlling Excessive Irrigation Water Intake,
W86-00475 1902 3F

Comparison of Soil Moisture Characteristics Predicted by the Arya-Paris Model with Laboratory-Measured Data,
W86-03636 1909 2G

Influence of Silicate Gel Injections on Groundwater Quality,
W86-05714 1912 5B

SOIL CONSERVATION
ANSWERS (Areal Nonpoint Source Watershed Environment Response Simulation) User's Manual.

SOIL DETACHMENT
Estimating Soil Detachment Caused by Raindrop Impact,
W86-00494 1902 2B

SOIL DEVELOPMENT
Possibility of Melioration and Agricultural use of Liman and Marine Sediments,
W86-04729 1911 5G

SOIL DISPOSAL FIELDS
Study and Prediction of Bacterial and Viral Contamination of Groundwater from Landfills and Septic Tank Systems,
W86-02535 1907 5B

Process Design Manual for Land Treatment of Municipal Wastewater: Supplement on Rapid Infiltration and Overland Flow.
W86-04840 1911 5D

Overland Flow,
W86-04842 1911 5D

SOIL ENGINEERING
Quantification of Pinhole Test Equipment Hydraulic Characteristics,
W86-03323 1908 8D

Closed-System Freezing of Soils in Linings and Earth Embankment Dams,
W86-03328 1908 8D

SOIL ENVIRONMENT
Carbon Dioxide in the Soil Atmosphere: Simulation Model Parameter Estimation from Field Measurements,
W86-03755 1909 2G

Quantitative Characterization of Microbial Biomass and Community Structure in Subsurface

Material: A Prokaryotic Consortium Responsive to Organic Contamination,
W86-05421 1912 5A

Monitoring the Impact of Acid Deposition on the Soil Microbiota, Using Glucose and Vanillin Decomposition,
W86-05913 1912 5C

SOIL EROSION

Review of Model Use in Evaluating Nonpoint Source Loads from Forest Management Activities,
W86-00091 1901 5B

Effects of Soil Erosion on Soybean Yields and Characteristics of Cecil-Pacolet Soils,
W86-00339 1902 2J

Effects of Soil Erosion on Soybean Production in the Southern Piedmont of Georgia in 1982,
W86-00340 1902 4C

Photogrammetric Techniques for Monitoring Soil Erosion,
W86-00342 1902 2J

Field Erosion Estimated from 137Cs Activity Measurements,
W86-00472 1902 2J

Interrill Soil Erosion - Part I: Development of Model Equations,
W86-00495 1902 2J

Interrill Soil Erosion - Part II: Testing and Use of Model Equations,
W86-00496 1902 2J

Soil Loss from Cotton with Conservation Tillage,
W86-00497 1902 4D

Field Rainfall Simulator Studies on Two Clay Soils of the Darling Downs, Queensland. III; An Evaluation of Current Methods for Deriving Soil Erodibilities (K Factors),
W86-01037 1904 2J

Hydrology of Mid-Altitude Tussock Grasslands, Upper Waipori Catchment, Otago. I. Erosion, Sediment Yields and Water Quality,
W86-01383 1905 2J

Soil Erosion Measurement and Soil Conservation Research in Cultivated Areas of the UK,
W86-01401 1905 2J

Soil Erosion and Sediment Transport Research in Tropical Africa,
W86-01447 1905 2J

Computer Assisted Mapping of Soil Erosion Potential,
W86-01906 1905 2J

Eroding Soils: The Off-Farm Impacts,
W86-02247 1906 4D

Prevention of Gully Formation and Associated Water Degradation in West Tennessee,
W86-02538 1907 2J

Physical Basis and Potential Estimation Techniques for Soil Erosion Parameters in the Precipitation Runoff Modeling System (PRMS),
W86-02943 1908 2J

Engineering Geology and Geomorphology of Streambank Erosion: Report 4, Supplemental Update to Report 3: The Application of Waterborne Geophysical Techniques in Fluvial Environments,
W86-03320 1908 2J

Quantification of Pinhole Test Equipment Hydraulic Characteristics,
W86-03323 1908 8D

Instrumentation and Methods Evaluations for Shallow Land Burial of Waste Materials: Water Erosion,
W86-03510 1909 5E

Measurement of Soil Loss from Experimental Basins in Malawi,
W86-03590 1909 2J

Some Methods for Evaluating Soil Erosion Risk,
W86-03593 1909 2J

Testing the Applicability of a Soil Erodibility Nomogram for Some Tropical Soils,
W86-03599 1909 2J

Erosion of Agricultural Land - A Growing Water Quality Problem in Rural Areas,
W86-03780 1909 5B

Muddy Water and American Agriculture: How to Best Control Sedimentation From Agricultural Land,
W86-04303 1910 4D

Improved Rotating Cylinder Technique for Quantitative Measurements of the Scour Resistance of Clays,
W86-04338 1910 7B

Community Responses to Non-point Pollution from Agriculture,
W86-04605 1910 5B

Upland Erosion: Evaluation and Measurement,
W86-04877 1911 2J

Analyses of Different Processes Governing Soil Erosion by Water in the Tropics,
W86-04878 1911 2J

Study of the Dynamics of Drop Erosion Under Laboratory Conditions,
W86-04879 1911 2J

Field Measurement of Splash Erosion,
W86-04880 1911 2J

Relationship Between Three Scales of Erosion Measurement on Two Small Basins in Sierra Leone,
W86-04891 1911 2J

Land Erosion, Research Equipment, Forecasting Methods and Prospects for Their Improvement,
W86-04895 1911 2J

Effects of Slope Length and Terracing on Runoff and Erosion on a Tropical Soil,
W86-04899 1911 2E

Results of Recent Research on Erosion Processes in Hungary,
W86-04903 1911 2J

Effect of Soil Characteristics on Erosion and Nutrient Loss,
W86-04908 1911 2J

Soil Erosion and Agriculture in the World: An Assessment and Hydrological Implications,
W86-04923 1911 4D

Estimation of Extreme Sediment Transport from Torrential Drainage Basins in the East Alps,
W86-04924 1911 4D

Loss of Productive Soil in India,
W86-05578 1912 4D

Forests, Man and Water,
W86-05589 1912 4C

Sediment Transport in Shallow Flows,
W86-05970 1912 2J

Modeling of Rainfall Erosion,
W86-05971 1912 2J

SOIL FERTILITY

Fertilization Management of Crops Irrigated with Saline Water,
W86-06089 1912 3C

SOIL FILTERS

Study of Some Puerto Rican Soils as Natural Sealers of Attenuators Against Groundwater Pollution from Sanitary Landfill Leachates,
W86-02716 1907 5E

SOIL GASES

Carbon Dioxide in the Soil Atmosphere: Simulation Model Parameter Estimation from Field Measurements,
W86-03755 1909 2G

SOIL GENESIS

Effect of Groundwater on Soil Formation in a Morainal Landscape in Saskatchewan,
W86-00670 1903 2F

Role of Water in Soil Formation,
W86-04550 1910 2G

Soil Formation on Tuff Parent Material in the Pokamenya Tunguska River Basin,
W86-04551 1910 2G

SOIL GEOMETRY

Dynamic Soil and Water Pressures of Submerged Soils,
W86-05557 1912 8D

SOIL GROUTING

Chemical Grouting in Soils Permeated by Water,
W86-01089 1904 8D

SOIL HORIZONS

Infiltration and Soil Water Distribution in Layered Soils Computed by Green and Ampt and Richards Models,
W86-00377 1902 2G

SOIL HYDRAULIC PROPERTIES

Some Hydraulic Properties of Sandy-Silty Norwegian Tills,
W86-01111 1904 2G

SOIL LOSS

Sediment Losses from Cropland Furrows of Different Gradients,
W86-00467 1902 2J

Soil Loss from Cotton with Conservation Tillage,
W86-00497 1902 4D

Effect of Kinetic Energy of Excess Rainfall on Soil Loss from Non-vegetated Plots,
W86-01028 1904 2J

Estimating Universal Soil Loss Equation Factor Values with Aerial Photography,
W86-01493 1905 2J

Sheet Erosion from Arable Lands in Zimbabwe: Prediction and Control,
W86-03596 1909 2J

Approach to Testing the USLE Factor Values in Kenya,
W86-03597 1909 2J

Evaluation of Factors Influencing Water Erosion in West Africa Using Rainfall Simulation,
W86-03598 1909 2J

Runoff, Erosion and Soil Fertility Restoration on the Mossi Plateau (Central Upper Volta),
W86-03601 1909 4D

Surface Erosion and Sediment Control at Open-Cast Mines in Southern Africa,
W86-03602 1909 4D

Indigenous Soil Conservation Studies in Sierra Leone,
W86-03603 1909 4D

National Erosion Inventory of the Soil Conservation Service, US Department of Agriculture, 1977-1979,
W86-04875 1911 7C

Portable Rill Meter for Field Measurement of Soil Loss,
W86-04890 1911 7B

SOIL MANAGEMENT
Effects of Irrigation and Soil Management for Fodder Crops on Root Zone Conditions in a Red-brown Earth,
W86-01032 1904 3F

Tracking Salty Soil, Saving Fresh Water,
W86-04982 1911 3C

SOIL MATRIX
Variation of Infiltration Into a Homogeneous Soil Matrix Containing a Population of Macropores,
W86-04202 1910 2G

SOIL MECHANICS
Program Criteria Specifications Document: Computer Program TWDA for Design and Analysis of Inverted-T Retaining Walls and Floodwalls,
W86-00193 1901 8A

List of Soils, Soil-Structure Interaction and Other Related Computer Programs Available for LMVD Engineers,
W86-00262 1901 8D

Wave Stability Study of Riprap-Filled Cells: Hydraulic Model Investigation,
W86-00283 1901 8A

Validation Report: Computer Program for Design and Analysis of Inverted-T Retaining Walls and Floodwalls (TWDA),
W86-00318 1902 8A

Influence of a Shallow Water Table on Cratering,
W86-01999 1906 8D

Relationship of Laboratory and Field Determined Hydraulic Conductivity in Compacted Clay Soils,
W86-02119 1906 2F

Frost Action in Soil Foundations and Control of Surface Structure Heaving,
W86-03317 1908 2C

Quantification of Pinhole Test Equipment Hydraulic Characteristics,
W86-03323 1908 8D

Integrated Debris Flow Observations,
W86-04868 1911 2J

Studies of Sediment Production on Mountain Slopes,
W86-04869 1911 4D

New Methods of Measurement of Slow Particulate Processes on Hillside Slopes,
W86-04870 1911 7B

Some Laboratory Techniques of Investigating Land Erosion,
W86-04885 1911 2J

Field Measurements of Rates of Bank Erosion and Bank Material Strength,
W86-04893 1911 7B

Re-Examination of Slide of Lower San Fernando Dam,
W86-05555 1912 8D

SOIL MICROFLORA
Soil Algae in Polluted Soils,
W86-06010 1912 5C

SOIL MOISTURE
Computer Simulation of a Space SAR Using a Range-Sequential Processor for Soil Moisture Mapping,
W86-00351 1902 2G

Effect of Entrapped Air on Water Permeability of Soils (Theory and Experiment),
W86-01804 1905 2G

Utilization of Thermal Emittance Data to Monitor Soil Moisture and Subsurface Groundwater,
W86-02429 1907 2F

Relationship Between Soil Moisture Storage and Deep Percolation and Subsurface Return Flow,
W86-02439 1907 2G

Effects of Moisture on Soil Microorganisms and Nematodes: A Field Experiment,
W86-05203 1911 2G

Effects of Land-Use Changes on Groundwater Recharge Assessed Using a Nonlinear Catchment Model,
W86-05655 1912 4C

SOIL MOISTURE CHARACTERISTIC CURVE
Moisture Curve of Compacted Clay; Mercury Intrusion Method,
W86-05556 1912 8D

SOIL MOISTURE DEFICIENCY
Determination of Growing Season Soil Water Deficits on a Forested Slope Using Water Balance Analysis,
W86-01786 1905 2A

SOIL MOISTURE METERS
Irrigation Scheduling Using Soil Moisture Measurements: Theory and Practice,
W86-03400 1908 3F

Numerical Technique for Modeling Transient Flow of Water to a Soil Water Sampler,
W86-06009 1912 2G

SOIL MOISTURE RETENTION
Physical Characteristics of Soils in the Southern Region: Cecil,
W86-00343 1902 2G

Infiltration and Soil Water Distribution in Layered Soils Computed by Green and Ampt and Richards Models,
W86-00377 1902 2G

Effects of Clay-Solution Interactions on Water Retention,
W86-05925 1912 2G

SOIL MORPHOLOGY
Using Soil Survey Information to Characterize the Soil-Water State,
W86-04713 1911 2G

SOIL ORGANIC MATTER
Description of the Aggregation Properties of Aquatic Pedogenic Fulvic Acids: Combining Physico-chemical Data and Microscopical Observations,
W86-04125 1910 2K

Feedlot Manure Use on Desert Cropland,
W86-04973 1911 5E

SOIL PERMEABILITY
Dynamic Soil and Water Pressures of Submerged Soils,
W86-05557 1912 8D

SOIL PHYSICAL PROPERTIES
Physical Characteristics of Soils in the Southern Region: Cecil,
W86-00343 1902 2G

Hydraulic Potential in Unfrozen Soil in Response to Diurnal Freezing and Thawing of the Soil Surface,
W86-00498 1902 2G

Experimental Investigation of Hydraulic Fracturing,
W86-01207 1904 8D

Discrimination of Soil Physical Parameters, Thermal Inertia, and Soil Moisture from Diurnal Surface Temperature Fluctuations,
W86-01772 1905 2G

Field Variability of Soil Physical Properties,
W86-02129 1906 2G

Hydrologic Characteristics of Nebraska Soils,
W86-03028 1908 2G

Dielectric Properties of Saturated Soils,
W86-04087 1910 2G

Note on the Physical Characteristics of Linear Soils,
W86-04405 1910 2G

Geologic Control on Soil Composition and Properties, Lake Ojibway Clay Plain, Matagami, Quebec.
W86-05103 1911 2G

SOIL POLLUTION
Soil Algae in Polluted Soils,
W86-06010 1912 5C

SOIL POROSITY
Factors Which Affect Soil-Pore Liquid: A Comparison of Currently Available Samplers with Two New Designs,
W86-04209 1910 5B

Transiometer: An Alternative Method of Soil Moisture Measurement in Slowly Permeable Soils,
W86-04216 1910 2G

Comparative Study of Green and Ampt Analysis for a Falling Water Table in a Homogeneous Sand Profile,
W86-04313 1910 2G

Changes in Soil Porosity and Surface Shrinkage in a Remolded, Saline Clay Soil Treated with Compost,
W86-04406 1910 2G

SOIL PRESSURE
Numerical Technique for Modeling Transient Flow of Water to a Soil Water Sampler,
W86-06009 1912 2G

SOIL PROFILES
Physical Characteristics of Soils in the Southern Region: Cecil,
W86-00343 1902 2G

Infiltration and Soil Water Distribution in Layered Soils Computed by Green and Ampt and Richards Models,
W86-00377 1902 2G

Soil Formation on Tuff Parent Material in the Pokamenya Tunguska River Basin,
W86-04551 1910 2G

Evidence for Movement of Heavy Metals in a Soil Irrigated with Untreated Wastewater,
W86-05322 1911 5E

SOIL PROPERTIES
Runoff Reduction by Venting with Shallow Subsurface Drainage,
W86-00471 1902 2E

Drainage Coefficients for Heavy Land,
W86-01431 1905 2G

SOIL PROPERTIES

Hydrologic Characteristics of Nebraska Soils,
W86-03028 1908 2G

Quantification of Pinhole Test Equipment Hydraulic Characteristics,
W86-03323 1908 8D

Cadmium Soil Sorption at Low Concentrations. IV. Effect of Waste Leachates on Distribution Coefficients,
W86-06090 1912 5B

SOIL-PURE LIQUID SAMPLES
Factors Which Affect Soil-Pore Liquid: A Comparison of Currently Available Samplers with Two New Designs,
W86-04209 1910 5B

SOIL RESPIRATION
Effects of Temperature, Rainfall and Soil Moisture on Soil Respiration and Litter Decomposition in a Sub-Tropical Humid Forest Ecosystem,
W86-01759 1905 2G

SOIL SAMPLING
Nutrient Runoff Losses as Predicted by Annual and Monthly Soil Sampling,
W86-01709 1905 5B

SOIL SATURATION
Prediction of Surface Saturation Zones in Natural Catchments by Topographic Analysis,
W86-05226 1911 2E

SOIL SOLUTION
Picloram Movement in an Appalachian Hardwood Forest Watershed,
W86-04421 1910 5B

Soil Formation on Tuff Parent Material in the Pokamenya Tunguska River Basin,
W86-04551 1910 2G

Tracking Salty Soil, Saving Fresh Water,
W86-04982 1911 3C

SOIL STABILITY
Recent Developments in the Explanation and Prediction of Erosion and Sediment Yield.
W86-04896 1911 2J

Impacts of Soil Characteristics on Soil Erodibility,
W86-04900 1911 2J

Variations in Runoff and Erosion Under Various Methods of Protection,
W86-04901 1911 2J

SOIL STABILIZATION
Cement-Modified Soil in Canal Lining,
W86-00381 1902 8F

SOIL STRUCTURE
Frost Action in Soil Foundations and Control of Surface Structure Heaving,
W86-03317 1908 2C

Constraints on the Validity of Equilibrium and First-Order Kinetic Transport Models in Structured Soils,
W86-04203 1910 2G

SOIL SURFACE
Evaporation from Wet Soil Surfaces Beneath Plant Canopies,
W86-00510 1902 2D

SOIL SURFACES
Numerical Study of the Effects of Soil Surface Shape upon the Soil Temperature and Moisture Regimes,
W86-04404 1910 2G

SOIL SURVEY
Using Soil Survey Information to Characterize the Soil-Water State,
W86-04713 1911 2G

SOIL SURVEYS
Physical Characteristics of Soils in the Southern Region: Cecil,
W86-00343 1902 2G

SOIL TEMPERATURE
Evapotranspiration Derived from Satellite Observed Surface Temperatures,
W86-01135 1904 2D

Discrimination of Soil Physical Parameters, Thermal Inertia, and Soil Moisture from Diurnal Surface Temperature Fluctuations,
W86-01772 1905 2G

Numerical Study of the Effects of Soil Surface Shape upon the Soil Temperature and Moisture Regimes,
W86-04404 1910 2G

Relationship between Tibet-Tropical Ocean Thermal Contrast and Interannual Variability of Indian Monsoon Rainfall,
W86-04631 1910 2B

SOIL TESTS
Quantification of Pinhole Test Equipment Hydraulic Characteristics,
W86-03323 1908 8D

Evaluating Maturity and Metal Transfer of MSW Compost,
W86-04972 1911 5E

SOIL TYPE
Surface Water Quality in Relation to Soil Type, Land Use and Discharge in a Rural Catchment Area,
W86-01249 1904 5B

SOIL TYPES
Structural Features of the Grey-Brownish Black Sandy Soils of Apsheron and Their Alteration Following Application of Water Pipe Sludge from Kuzinsk (Mikromorfologicheskie Osobennosti Sero-Burykh Peschanykh Pochv Apsherona i ikh Izmenenie Pri Vnesenii Kurinskogo Vodoprovodnogo Osadka),
W86-01256 1904 5E

Redistribution of Bromide by Rainfall Infiltration into a Cecil Sandy Loam Landscape,
W86-01716 1905 5B

Transport of Contaminants from Energy Process Waste Leachates through Subsurface Soils and Soil Components Laboratory Experiments,
W86-03500 1909 5B

Measured and Creams-Predicted Nitrogen Losses from Tomato and Corn Management Systems,
W86-04538 1910 5B

Chemical Reactions within Root Zone of Arid Zone Soils,
W86-05233 1911 5B

Availability of Applied Heavy Metals as a Function of Type of Soil Material and Metal Source,
W86-05299 1911 5E

Use of Dyes and Proteins as Indicators of Virus Adsorption to Soils,
W86-05330 1911 5B

SOIL WATER
Soil Moisture Content: Statistical Estimation of Its Probability Distribution,
W86-00021 1901 2G

Field Observations and Numerical Experiments on a Drying Front in a Volcanic Ash Soil Called Kanto Loam,
W86-00038 1901 2F

Comparing the Performance of Root-Water-Uptake Models,
W86-00048 1901 2D

Soil Water Evaporation Suppression by Sand Mulches,
W86-00050 1901 2G

Numerical Calculation of Saturated-Unsaturated Infiltration in a Cracked Soil,
W86-00078 1901 2G

Tables for Estimating Daily Evaporation Rates Over Crops using Temperature, Elevational and Latitudinal Data Only,
W86-00313 1902 2I

Effects of Soil Erosion on Soybean Production in the Southern Piedmont of Georgia in 1982,
W86-00340 1902 4C

Physical Characteristics of Soils in the Southern Region: Cecil,
W86-00343 1902 2G

Infiltration and Soil Water Distribution in Layered Soils Computed by Green and Ampt and Richards Models,
W86-00377 1902 2G

Growth and Water Use of Tall Fescue as Influenced by Several Soil Drying Cycles,
W86-00459 1902 2I

Overwinter Soil Moisture Changes,
W86-00466 1902 2G

Three-Dimensional Infiltration and Trickle Irrigation,
W86-00474 1902 3F

Evaluating the Effect of Increased Concentration of CO2 on Infiltration Rate,
W86-00500 1902 2G

Effect of Standing Stubble on Soil Water Loss by Evaporation,
W86-00507 1902 2D

Estimating Evaporation: A Comparison Between Penman, Idso-Jackson, and Zero-Flux Methods,
W86-00509 1902 2D

Corn Yield Variation as Related to Soil Water Fluctuation and Nitrogen Fertilizer. I. Soil Water-Yield Relationships,
W86-00514 1902 2G

Corn Yield Variation as Related to Soil Water Fluctuation and Nitrogen Fertilizer. II. Soil Water-Nitrogen-Yield Relationships,
W86-00515 1902 2G

Determination of Moisture in Solids,
W86-00644 1903 2G

Surface Soil Water Content Measurement Using Pulsed Nuclear Magnetic Resonance Techniques,
W86-00698 1903 2G

Monte-Carlo Simulation of Noninteracting Solute Transport in a Spatially Heterogeneous Soil,
W86-00702 1903 2G

Influences of Snow Cover and Soil Moisture on Monthly Air Temperature,
W86-00860 1903 2A

Effect of Flooding of Soil on Growth and Subsequent Responses of Taxodium distichum Seedlings to SO2,
W86-00861 1903 5C

Use of Computer-Assisted Tomography to Determine Spatial Distribution of Soil Water Content,
W86-01027 1904 2G

Moisture Measurement in a Swelling Clay Soil Using Neutron Moisture Meters,
W86-01030 1904 2G

Infiltration From a Trickle Source in a Heterogeneous Soil Medium,
W86-01295 1904 2G

Estimating Vertical Soil Moisture Flux at a Land Treatment Site,
W86-01312 1904 2G

Experimental Measurement of Channeling of Flow in Porous Media,
W86-01419 1905 2F

Characterization of Pore Size Distributions Within Soils by Mercury Intrusion and Water-Release Methods,
W86-01420 1905 2G

Design of a Sensitive and Practical Closed-Top Infiltrometer,
W86-01423 1905 2G

Note: The Relation Between Desorptivity and Soil-Water Diffusivity,
W86-01424 1905 2G

Note on the Use of a Simple Numerical Model for Vertical, Unsaturated Fluid Flow,
W86-01425 1905 2G

Observations of the Behaviour of Large Cores of Soil During Drainage, and the Calculation of Hydraulic Conductivity,
W86-01467 1905 2G

'Mixing-Cell' Concept Applied to Transport of Non-Reactive and Reactive Components in Soils and Groundwater,
W86-01469 1905 5B

Scaling the Exponential Soil-Water Diffusivity for Soils from Ghana,
W86-01659 1905 2G

Leaching Fraction Beyond Depth x, Caused by Percolation of a Soil Profile with an Initial Salt Accmulation at its Surface,
W86-01662 1905 2G

Effects of Temperature, Rainfall and Soil Moisture on Soil Respiration and Litter Decomposition in a Sub-Tropical Humid Forest Ecosystem,
W86-01759 1905 2G

Stability Analysis of Water Movement in Unsaturated Porous Materials; 3. Experimental Studies,
W86-01769 1905 2G

Discrimination of Soil Physical Parameters, Thermal Inertia, and Soil Moisture from Diurnal Surface Temperature Fluctuations,
W86-01772 1905 2G

Summer Soil Moisture Content and the Water Table in a Forested Wetland Peat,
W86-01779 1905 2G

Calculating Thornthwaite and Mather's Actual Evapotranspiration Using an Approximating Function,
W86-01780 1905 2D

Determination of Growing Season Soil Water Deficits on a Forested Slope Using Water Balance Analysis,
W86-01786 1905 2A

Needle Water Potential and Soil-to-Foliage Flow Resistance During Soil Drying: A Comparison of Douglas-fir, Western Hemlock, and Mountain Hemlock,
W86-01787 1905 2I

Atrazine Hydrolysis in Soils: Catalysis by the Acidic Functional Groups of Fulvic Acid,
W86-01907 1905 5B

Field Variability of Soil Physical Properties,
W86-02129 1906 2G

Organic Groundwater Contamination Evaluation and Prediction,
W86-02614 1907 5B

Frost Action in Soil Foundations and Control of Surface Structure Heaving,
W86-03317 1908 2C

Irrigation Scheduling Using Soil Moisture Measurements: Theory and Practice,
W86-03400 1908 3F

Comparison of Soil Moisture Characteristics Predicted by the Arya-Paris Model with Laboratory-Measured Data,
W86-03636 1909 2G

Role of Natural Organics on Water Interaction with Soil and Rock,
W86-03754 1909 2K

Dielectric Properties of Saturated Soils,
W86-04087 1910 2G

Stochastic Soil Moisture Estimation and Forecasting for Irrigated Fields,
W86-04172 1910 2G

Transfer Function Model of Solute Transport through Soil: 1. Fundamental Concepts,
W86-04177 1910 2G

Transfer Function Model of Solute Transport Through Soil: 2. Illustrative Applications,
W86-04178 1910 2G

Transfer Function Model of Solute Transport Through Soil. 3. The Convection-Dispersion Equation,
W86-04179 1910 2G

Factors Which Affect Soil-Pore Liquid: A Comparison of Currently Available Samplers with Two New Designs,
W86-04209 1910 5B

Determining Head and Pressure Distribution in Low Transmissivity Formations and Soils,
W86-04215 1910 2F

Transiometer: An Alternative Method of Soil Moisture Measurement in Slowly Permeable Soils,
W86-04216 1910 2G

Monitoring Changes in Total and Unfrozen Water Content in Seasonally Frozen Soil Using Time Domain Reflectometry and Neutron Moderation Techniques,
W86-04305 1910 2G

Macroscopic Balance Equations in Soils and Aquifers: The Case of Space- and Time-Dependent Instrumental Response,
W86-04308 1910 2G

Steady State Infiltration: Consequences of (Alpha) Dependent on Moisture Content,

Geologic and Hydrologic Data from a Test-Drilling Program in the High Plains Areas of South Dakota, 1979-1980,
W86-03558 1909 2F

Seasonal and Regional Variability of Parameters for Stochastic Daily Precipitation Models South Dakota, U.S.A.,
W86-05257 1911 2B

SOUTH PLATTE RIVER
Selected Hydrologic Data for the South Platte River Through Denver, Colorado,
W86-02391 1906 5B

SOUTHAMPTON WATER
Trace Metals and Hydrocarbons in Sediments from the Southampton Water Region, with Particular Reference to the Influence of Oil Refinery Effluent,
W86-01797 1905 5B

SOUTHEASTERN U.S
Maps to Estimate Average Streamflow and Headwater Limits for Streams in U.S. Army Corps of Engineers, Mobile District, Alabama and Adjacent States,
W86-02981 1908 7C

SOUTHERN HEMISPHERE
Southern Oscillation and Rainfall Patterns in the Southern Hemisphere,
W86-01497 1905 2B

SOUTHERN OSCILLATION
Southern Oscillation and Rainfall Patterns in the Southern Hemisphere,
W86-01497 1905 2B

Mechanisms of Java Rainfall Anomalies,
W86-06051 1912 2B

SOUTHERN POWDER RIVER BASIN
Ground-Water-Quality Data From the Southern Powder River Basin, Northeastern Wyoming,
W86-03014 1908 2K

SOUTHLAND
Southland Flood of January 1984,
W86-01388 1905 2E

SOVIET UNION
Hydrogeological Training in the USSR,
W86-06169 1912 9A

SOYBEANS
Effects of Soil Erosion on Soybean Yields and Characteristics of Cecil-Pacolet Soils,
W86-00339 1902 2J

Effects of Soil Erosion on Soybean Production in the Southern Piedmont of Georgia in 1982,
W86-00340 1902 4C

Soyphen: Soybean Growth Stages Modeled from Temperature, Daylength, and Water Availability,
W86-00462 1902 2I

Response of Selected Soybean Cultivars to Soil Moisture Deficit,
W86-00465 1902 2I

Simulation of Moisture Stress Effects on Soybean Yield Components in Nebraska,
W86-00491 1902 2I

Water Use Efficiency in a Soybean Field: Influence of Plant Water Stress,
W86-00505 1902 2I

SPAIN
Estimates of Peak Runoff from Hilly Terrain with Varied Lithology,
W86-00036 1901 2E

Factors Influencing the High Content of Brominated Trihalomethanes in Barcelona's Water Supply (Spain),
W86-00727 1903 5B

Chemical-Physical Changes Associated With Environmental Gradients in the Oka River Basin,
W86-00916 1903 2H

Patterns of Macroinvertebrate Distribution in the Llobregat River Basin (NE Spain),
W86-00917 1903 2H

Diatom Flora of the Llobregat River and its Relation to Water Quality,
W86-00950 1904 2H

Superficial Accumulation of Heavy Metals in Near Shore Marine Sediments: An Objective Index of Environmental Pollution,
W86-01903 1905 5B

Construction of Spain's Cortes-La Muela Scheme,
W86-05000 1911 8C

SPARTA SAND AQUIFER
Potentiometric Surface Map of the Sparta Sand and Memphis Sand Aquifers in Eastern and South-Central Arkansas, Spring 1983,
W86-01944 1906 2F

SPARTINA
Effects of Autumn Application of Oil on Spartina alterniflora in a Texas Salt Marsh,
W86-01465 1905 5C

SPATFALL
Setting of the American Oyster Crassostrea virginica in the James River, Virginia, USA: Temporal and Spatial Distribution,
W86-01504 1905 2L

SPATIAL DISTRIBUTION
Longitudinal Distribution of Macroinvertebrates and Fish in a Lower Niger Delta River (River Sombreiro) in Nigeria,
W86-00458 1902 2H

Patterns of Macroinvertebrate Distribution in the Llobregat River Basin (NE Spain),
W86-00917 1903 2H

Setting of the American Oyster Crassostrea virginica in the James River, Virginia, USA: Temporal and Spatial Distribution,
W86-01504 1905 2L

222Rn Concentrations and Variations in Unconfined Groundwater,
W86-01658 1905 2K

Heterotrophic Bacteria in Water Distribution Systems. I. Spatial and Temporal Variation,
W86-01914 1905 5F

Moments of Catchment Storm Area,
W86-04316 1910 2A

Parameter Estimation for a Model of Space-Time Rainfall,
W86-04321 1910 2B

Implications of a Gradient in Acid and Ion Deposition Across the Northern Great Lakes States,
W86-04431 1910 5B

Seasonal and Spatial Distribution of Bacteria, Chlorophyll, and Nutrients in Nearshore Lake Michigan,
W86-04526 1910 2H

Warm Season Nocturnal Precipitation in the Great Plains of the United States,
W86-04594 1910 2B

Parameter Uncertainty in Estimation of Spatial Functions: Bayesian Analysis,
W86-05430 1912 2A

SPATIAL PATTERN
Empirical Equations of Groundwater Recharge Patterns,
W86-04390 1910 2F

SPATIAL RANDOM FUNCTIONS
Statistical Inference of Spatial Random Functions,
W86-05254 1911 2A

SPAWNING
Chlorinated Hydrocarbons and Hatching Success in Baltic Herring Spring Spawners,
W86-01799 1905 5C

SPECIATION
Determination of Selenium Speciation in Biogenic Particles and Sediments,
W86-04458 1910 5A

Speciation of Lead and Methyllead Ions in Water by Chromatography/Atomic Absorption Spectrometry after Ethylation with Sodium Tetraethylborate,
W86-04459 1910 5A

Role of Speciation in Mercury Methylation in Sediments and Water,
W86-05395 1911 5B

SPECIES COMPOSITION

Replacement of Stenonema spp. by Caenis diminuta Walker as the Numerical Dominant in the Mayfly Assemblage of a Thermally-Stressed Stream,
W86-00617 1903 5C

Relationships Between Surface Sediment Diatom Assemblages and Lakewater Characteristics in Adirondack Lakes,
W86-00829 1903 2H

Patterns of Macroinvertebrate Distribution in the Llobregat River Basin (NE Spain),
W86-00917 1903 2H

Dynamics of Colonization in an Experimental Channel, Fed by the Po River Waters,
W86-00920 1904 2H

Phytoplankton Dynamics in a Hypertrophic Brackish-Water Bay,
W86-00932 1904 5C

Organization of Macroinvertebrate Communities in the Major Tributaries of the LaTrobe River, Victoria, Australia,
W86-01123 1904 2H

Species Composition and Seasonal Succession of the Zooplankton Community of Eutrophic Lahontan Reservoir, Nevada,
W86-01168 1904 2H

Nitrogenous Nutrient Uptake, Primary Production, and Species Composition of Phytoplankton in the Carmans River Estuary, Long Island, New York,
W86-01415 1905 2L

Ecological Studies of Wood-Boring Bivalves in the Vicinity of the Oyster Creek Nuclear Generating Station,
W86-03230 1908 5C

Evaluation of Community Information Indices for Mississippi River Fisheries,
W86-03499 1909 7C

Evaluating Changes in Dike Field Fishes with Community Information Indices,
W86-03628 1909 7A

SPECIES DIVERSITY

Species Diversity of Algal Flora in Vishwamitri River, Baroda (India),
W86-01325 1905 5A

Results of Ohio River Macroinvertebrate Sampling for 1975-1981,
W86-01591 1905 5C

Limits to the Control of Algal Populations by Grazing Zooplankton: The Environmental Theater and the Ecological Play,
W86-03489 1909 5G

Evaluation of Community Information Indices for Mississippi River Fisheries,
W86-03499 1909 7C

Predator Species Richness and Prey Population Variability: Effects on Diets of Benthic Stream Fishes,
W86-05932 1912 2H

Changes of In-Channel Vegetation Following Two-Stage Channel Construction on a Small Rural Clay River,
W86-06037 1912 4A

SPECIFIC ANOSMIA

Chemistry and Physiology of Odor Sensitivity,
W86-04373 1910 5F

SPECIFIC CAPACITY

Hydrology of the Southern Parts of Okaloosa and Walton Counties, Northwest Florida, with Special Emphasis on Upper Limestone of the Floridan Aquifer,
W86-02853 1907 2F

SPECIFIC CONDUCTANCE

Streamflow and Specific-Conductance Data for Selected Sites, February 15 Through April 9, 1984, Near the Y-12 Plant, the Oak Ridge Reservation, Tennessee,
W86-02817 1907 2E

SPECIFIC CONDUCTIVITY

Conductance: A Collective Measure of Dissolved Ions,
W86-02261 1906 1B

Inland Travel of Tide-Driven Saline Water in the Altamaha and Satilla Rivers, Georgia, and the St. Marys River, Georgia-Florida,
W86-03561 1909 2L

Specific Conductance as an Indicator of Total Dissolved Solids in Cold, Dilute Waters,
W86-04394 1910 2K

SPECTROFLUOROMETRY

Determination of the Carbamate Herbicide Propham by Synchronous Derivative Spectrofluorometry Following Fluorescamine Fluorogenic Labeling,
W86-04460 1910 5A

SPECTROMETRY

Preconcentration and X-Ray Spectrometric Determination of Arsenic(III/V) and Chromium(III/VI) in Water,
W86-01719 1905 5A

Organic Mass Spectrometry,
W86-03411 1908 5A

SPECTROPHOTOMETRY

Method for Determining Ammonia Nitrogen in Waters (Methode zur Bestimmung des Ammoniakstickstoffes in Gewassern),
W86-00550 1902 5A

Summary of Methods for Water-Quality Analysis of Specific Species,
W86-02263 1906 5A

Variability of Aluminum Concentrations in Organs and Whole Bodies of Smallmouth Bass (Micropterus dolomieui),
W86-04144 1910 5C

SPECTROSCOPY

Statistical Evaluation of an Inductively Coupled Plasma Atomic Emission Spectrometric Method for Routine Water Quality Testing,
W86-01304 1904 5A

Preparation of Polyethlene Sacks for Collection of Samples for Chemical Analysis,
W86-03072 1908 5A

Development of a System for the Identification of Oil Spills,
W86-03286 1908 5A

Determination of Turbidity Patterns in Lake Chicot from Landsat MSS Imagery,
W86-03291 1908 2J

Infrared Spectrophotometry of Pollutants in Water Systems,
W86-03413 1908 5A

Portable Instrument for Screening Spill and Source Oil Samples,
W86-04015 1910 5A

Optimization of the ICP Working Conditions for the Analysis of Waste Waters and Industrial Solutions,
W86-04548 1910 5A

NMR Studies of Crab and Plaice Metallothioneins,
W86-04761 1911 5C

SPHAEROTILUS

Passage of Selected Heavy Metals From Sphaerotilus (Bacteria: Chlamydobacteriales) to Paramecium caudatum (Protozoa: Ciliata),
W86-00055 1901 5C

SPILLAGE

Spillage Over an Inclined Embankment,
W86-05968 1912 2E

SPILLS

Ethylene: Environmental and Technical Information for Problem Spills.
W86-00303 1901 5C

Calcium Chloride: Environmental and Technical Information for Problem Spills.
W86-00309 1902 5C

Ferric Chloride: Environmental and Technical Information for Problem Spills.
W86-00310 1902 5C

Chlorine: Environmental and Technical Information for Problem Spills.
W86-00319 1902 5C

SPILLWAY CAPACITY

Lake Sherburne Dam Model Study,
W86-00383 1902 8B

SPILLWAY GATES

Hydraulic Model Studies of Modification to Klang Gates Dam, Malaysia,
W86-03329 1908 8C

Hydraulic Model Studies of Bartlett Dam,
W86-03343 1908 8B

Control of Spillway Gates During Floods,
W86-04993 1911 8A

SPILLWAYS

Barkley Dam Spillway Tainter Gate and Emergency Bulkheads, Cumberland River, Kentucky: Hydraulic Model Investigation,
W86-00284 1901 8C

Bloomington Spillway North Branch Potomac River Maryland and West Virginia: Hydraulic Model Investigation,
W86-00285 1901 8B

Grays Landing Spillway and Stilling Basin, Monongahela River, Pennsylvania: Hydraulic Model Investigation,
W86-00304 1901 8B

State of the Art on the Dimensioning of Spillways for Dams, Appendix: Crossed Jet Spillways (Etat des connaissances sur le dimensionnement des evacuateurs de crue des barrages, Annexe: Evacuateurs a jets croises),
W86-00655 1903 8A

Hydraulic Design of Free Over-Fall Spillway,
W86-01208 1904 8A

Design and Operation of a Fuse-Plug Spillway in Swaziland,
W86-01275 1904 8A

Numerical Analysis of Kielder Dam Spillway,
W86-01523 1905 8B

Design and Construction of New Spillways and other Remedial Works to the Litton Reservoirs, Near Bristol,
W86-04379 1910 8A

Brink Depth in Nonaerated Overfalls,
W86-05922 1912 8B

Stepped Spillway Hydraulic Model Investigation,
W86-05981 1912 2E

SPIRODELA
Toxicity of Coal Gasifier Solid Waste to the Aquatic Plants Selenastrum capricornutum and Spirodela oligorhiza,
W86-06073 1912 5C

SPLASH EROSION
Field Measurement of Splash Erosion,
W86-04880 1911 2J

SPLINE FUNCTIONS
Estimation of Hydraulic Data by Spline Functions,
W86-05859 1912 2E

SPOIL BANKS
Use of a Cement-Bentonite Cut-Off Wall to Contain Possible Pollutants from a Landfill Containing Highly Polluted Dredging Spoils,
W86-01460 1905 5G

Determination of Disposal Sites for PCB Contaminated Material Dredged from the Hudson River Bed,
W86-02221 1906 5E

Wind and Water Erosion of Waste Heaps at Concentration Plants for Potassium Production,
W86-04894 1911 5B

Marine Benthos in Relation to Pore Water Chemistry and Sediment Geochemistry of Simulated Dredged Material,
W86-05152 1911 5C

Vertical Migration and Mortality of Marine Benthos in Dredged Material: A Synthesis,
W86-05169 1911 5C

SPOIL DISPOSAL
Creative Spoil: Design Concepts, Construction Techniques, and Disposal of Excavated Materials,
W86-00337 1902 8A

River Rsponse to Dredging,
W86-05499 1912 8B

SPOKANE
Policy Relevant Information and Public Attitudes: Is Public Ignorance a Barrier to Nonpoint Pollution Management,
W86-06017 1912 5G

SPRAY IRRIGATION
Wastewater Application by Spray Irrigation on a Field Southeast of Tallahassee, Florida: Effects on Ground-Water Quality and Quantity, 1980-82,
W86-02929 1908 5B

Reconnaissance of Water Quality at a U.S. Department of Energy Site, Pinellas County, Florida,
W86-02930 1908 5B

Upgrading with Spray Irrigation,
W86-04975 1911 5E

SPRING TIDES
Inland Travel of Tide-Driven Saline Water in the Altamaha and Satilla Rivers, Georgia, and the St. Marys River, Georgia-Florida,
W86-03561 1909 2L

SPRING WATER
Using a Filter to Remove Giardia Cysts,
W86-04735 1911 5F

SPRINGS
Acid Mine Drainage Contaminates Groundwater of a Tennessee Watershed,
W86-00555 1902 5B

Maps Showing Ground-Water Levels, Springs, and Depth to Ground Water, Basin and Range Province, Southern California,
W86-01921 1906 2F

Maps Showing Ground-Water Levels, Springs, and Depth to Ground Water, Basin and Range Province, Arizona,
W86-01971 1906 2F

Maps Showing Ground-Water Levels, Springs, and Depth to Ground Water, Basin and Range of Province, Texas,
W86-02366 1906 7C

Water Resources of the Cottonwood Wash Watershed, Ute Mountain, Ute Indian Reservation, Southwestern Colorado,
W86-02404 1906 2E

Groundwater Quality and Mineral Deposits Relationships in the Ozark Mountains,
W86-02448 1907 2K

Compilation of Selected Hydrologic Data from the MX Missile-Siting Investigation, East-Central Nevada and Western Utah,
W86-02903 1907 2F

Hydrochemistry of Springs from Dolomite Reefs in the Southern Alps of Northern Italy,
W86-03765 1909 2K

Assessment of Exploitable Ground-Water Resources on the Basis of Measurements of Spring Flow,
W86-03985 1910 2F

Springs are More Efficient and Reliable than Wells for Monitoring Ground Water Quality in Most Limestone Terrains - A Consequence of Transport Processes Occurring in Conduits,
W86-04081 1910 5B

Bacteriological Quality of Selected Backcountry Drinking Water Sources in Pisgah National Forest,
W86-05547 1912 5B

Spring Characteristics and Hydrological Models of Catchments, A Case Study from Astdalen, S.E. Norway,
W86-06163 1912 2F

SPRINKLER IRRIGATION
Droplet Size Distribution and Water Application with Low-Pressure Sprinklers,
W86-00477 1902 3F

Sprinkler Irrigation as an Energy and Water Saving Approach to Rice Production and Management of Riceland Pests,
W86-02431 1907 3F

Low Energy Irrigation for the Pacific Northwest,
W86-02437 1907 3F

Optimization of Irrigation Techniques to Reduce Water Needs for Fields with Irregular Boundaries,
W86-02551 1907 3F

Measured and Creams-Predicted Nitrogen Losses from Tomato and Corn Management Systems,
W86-04538 1910 5B

SPRINKLERS
Determination of the Parameters of Water Intake by Soil With the Energy Characteristics of Rain Taken into Account,
W86-04732 1911 2G

SPRUCE TREES
Fenitrothion and Aminocarb Residues in Water and Balsam Fir Foliage Following Spruce Budworm Spraying Programs in Quebec, 1979 to 1982,
W86-04368 1910 5B

SPUR DIKES
Summary Report: Model-Prototype Comparison Study of Dike Systems, Mississippi River; Potamology Investigations,
W86-03307 1908 8A

SPY POND
Spy Pond Diagnostic-Feasibility Study: Recommendations for Restoring a Lake Impacted by Urban Stormwater Runoff,
W86-01550 1905 2H

SQUAWFISH
Growth Rate of Yearling Colorado Squawfish at Different Water Temperatures,
W86-01169 1904 6G

SRI LANKA
Rainwater for Drinking in Sri Lanka,
W86-05145 1911 3B

Stochastic Time Series Analysis and the Village Dam Management Problem in Sri Lanka,
W86-05775 1912 4A

ST. CLAIR RIVER
Growth of Submersed Macrophyte Communities in the St. Clair - Detroit River System between Lake Huron and Lake Erie,
W86-01629 1905 2H

ST. JOHN
Floods of April 18, 1983 on St. Thomas and St. John, U.S. Virgin Islands,
W86-02362 1906 2E

ST JOHNS COUNTY
Drainage Basins in St. Johns County, Florida,
W86-02363 1906 7C

ST. JOHNS RIVER ESTUARY
Seasonal Cycles of Phytoplankton Populations and Total Chlorophyll of the Lower St. Johns River Estuary, Florida,
W86-00900 1903 2L

ST. LAWRENCE ESTUARY
Heavy Metal Accumulation (Cd, Cu, Pb and Zn) by Smelt (Osmerus mordax) From the North Shore of the St Lawrence Estuary (Accumulation de Quelques Metaux Lourds (Cd, Cu, Pb Et Zn) Chez L'Eperlan (Osmerus mordax) Preleve Sur La Rive Nord De L'Estuaire du Saint-Laurent),
W86-00059 1901 5C

Experimental Studies on the Susceptibility of Freshwater Phytoplankton to Variation of Salinity in the Fjord of Saguenay (St. Lawrence Estuary), Canada (Etudes experimentalles sur la sensibilite du phytoplancton d'eau douce aux variations de salinite dans le fjord du Saguenay (Estuaire du St-Laurent), Canada),
W86-01128 1904 2L

Background Levels of Dissolved/Dispersed Petroleum Residues in the Gulf of St. Lawrence, 1970-79,
W86-01588 1905 5B

ST. LAWRENCE RIVER ESTUARY
Influence of Salinity on Scirpus americanus Tidal Marshes in the St. Lawrence River Estuary, Quebec,
W86-00902 1903 2L

ST. LUCIE COUNTY
Water Quality and Regional Water Supply Planning,
W86-01101 1904 4A

ST. MARYS COUNTY
Records of Selected Wells, St. Marys and Calvert Counties, Maryland,
W86-02359 1906 7C

ST. THOMAS
Floods of April 18, 1983 on St. Thomas and St. John, U.S. Virgin Islands,
W86-02362 1906 2E

ST. VENANT EQUATIONS
Two-Dimensional Diffusion-Probabilistic Model of a Slow Dam Break,
W86-06020 1912 8A

STABILITY
Stability of Turbidity in Raw Water and Its Relationship to Chlorine Demand,
W86-05886 1912 5F

STABILITY ANALYSIS
Armor Layer Stability of Rubble-Mound Breakwaters,
W86-04988 1911 8B

Leaching Tests of Heavy Metals Stabilized with Portland Cement,
W86-05054 1911 5E

STABILITY CONSTANTS
Influence of pH on the Binding Capacity and Conditional Stability Constants of Aluminum and Naturally-Occurring Organic Matter,
W86-00773 1903 2K

STABILIZATION
Stabilization of Organic Carbon and Nitrogen in Consolidating Benthal Deposits,
W86-01232 1904 5D

STABILIZATION PONDS
Zooflagellates in an Anaerobic Waste Stabilization Pond System in Mexico,
W86-05843 1912 5D

STABILIZING AGENTS
Heavy Metal Removal in the Presence of Colloid-Stabilizing Organic Material and Complexing Agents,
W86-04562 1910 5D

STABLE CARBON ISOTOPES
Stable Carbon Isotopes and Carbon Flow in Ecosystems,
W86-05558 1912 2K

STADSFJARDEN
Phytoplankton Dynamics in a Hypertrophic Brackish-Water Bay,
W86-00932 1904 5C

STAGE
Maximum Known Stages and Discharges of New York Streams Through September 1981,
W86-03038 1908 2E

STAGE-DISCHARGE RELATION
Preliminary Investigation of Flow Characteristics of the Alabama River Upstream from Selma, Alabama,
W86-03077 1908 2E

STAGE-DISCHARGE RELATIONS
Cost Effectiveness of the U.S. Geological Survey's Stream-Gaging Program in Illinois,
W86-02782 1907 7A

Discharge Ratings at Gaging Stations,
W86-03029 1908 7B

Equations for Estimating Discharge in Steep Channels with Coarse Bed Material,
W86-04791 1911 2E

Improvement of Ultrasonic Flowmeter in Rivers in Japan,
W86-04802 1911 7B

STANDARD FORMULATION
Feasibility for Performing a Risk Assessment on Pathogens,
W86-04507 1910 5D

STANDARDS
Development Document for Effluent Limitations Guidelines and Standards for the Textile Mills Point Source Category.
W86-00207 1901 5G

Survey of National and State Regulatory Agency Policy and Procedures for the Determination of the Toxicity of Wastewater Effluents.
W86-00211 1901 6E

Marine Quality Standards: Their Derivation and Application in the United Kingdom,
W86-01252 1904 5G

US Sludge Management Guidelines Explained,
W86-01461 1905 5E

Results of the U.S. Geological Survey's Second International Interlaboratory Analytical Comparison Study--Standard-Reference Water Samples M-86 (Major Constituents), T-87 (Trace Constituents), and P-5 (Precipitation Snowmelt),
W86-03013 1908 7B

Environmental Compliance Guide: Guidance Manual for Department of Energy Compliance with Corps of Engineers Permits on Dredging and Filling Activities.
W86-03252 1908 6B

Standards and Limits for Water Quality Control,
W86-03350 1908 5C

European Community Policy on Environmental Management,
W86-03353 1908 5C

Approach of the Federal German Republic-Anticipating Environmental Effects,
W86-03354 1908 5C

UK Approach - Environmental Quality Standards,
W86-03355 1908 5C

Establishment of an Ammonia Effluent Limitation for the Twin Cities Metro Plant,
W86-03748 1909 5B

Viruses in Drinking Water,
W86-04978 1911 5F

Ecologically Derived Guidelines for Managing Two New Zealand Lakes,
W86-05399 1911 6E

Hypertrophy, A Consequence of Development,
W86-05590 1912 5C

STANDING CROPS
Differences in Standing Live and Dead Crops in Estuarine Marshes on Vancouver Island,
W86-05348 1911 2L

STANDING WAVES
Laboratory Modeling of a Coastal Upwelling,
W86-04980 1911 2L

STARVATION
Separating Starvation Losses from Other Early Feeding Fry Mortality in Steelhead Trout Salmo gairdneri, Chinook Salmon Oncorhynchus tshawytscha, and Lake Trout Salvelinus namaycush,
W86-00728 1903 5C

STATE AGENCIES
Policy and Organizational Considerations for Improving Transfer of University Research Information and Effecting Availability of Expertise to State Agencies,
W86-02638 1907 9D

STATE WATER ISSUES
National Water Summary 1983--Hydrologic Events and Issues.
W86-00131 1901 6B

STATE WATER RESOURCES RESEARCH INSTITUTE PROGRAM
History of the State Water Resources Research Institue Program,
W86-02347 1906 9D

STATISTIAL MODELS
Statistical Modeling of Historic Shore Erosion Rates on the Chesapeake Bay in Maryland,
W86-00556 1902 2J

STATISTICAL ANALYSES
Statistical Summaries of Streamflow Data in Oregon; Volume 1 Eastern Oregon,
W86-03550 1909 2E

STATISTICAL ANALYSIS
Statistical Analysis of Precipitation Frequency in the Conterminous United States, Including Comparisons with Precipitation Totals,
W86-00020 1901 2B

Soil Moisture Content: Statistical Estimation of Its Probability Distribution,
W86-00021 1901 2G

Regional Frequency Analysis of Multiyear Droughts Using Watershed and Climatic Information,
W86-00025 1901 2A

Statistical Choice of Extremal Models for Complete and Censored Data,
W86-00026 1901 2A

Estimation of Missing Values in Monthly Rainfall Series,
W86-00094 1901 2B

Covariance Between Subsample Mean and Variance as Related to Storage Variables,
W86-01297 1904 2E

Chance-Constrained/Stochastic Linear Programming Model for Acid Rain Abatement - I. Complete Colinearity and Noncolinearity,
W86-01381 1905 5B

Probability-Distributed Principle and Runoff Production at Point and Basin Scales,
W86-01449 1905 2E

Estimating the Population Dynamics of Coho Salmon (Oncorhynchus kisutch) Using Pooled Time-Series and Cross-Sectional Data,
W86-01585 1905 2H

Cost-Effectiveness of the U.S. Geological Survey Stream-Gaging Program in Arkansas,
W86-01961 1906 7A

Development and Evaluation of Techniques for the Determination of the Ground-Water Potential in the Southern Orange Free State and Northern Cape Province; Volume 5: Statistics and Data Analysis,
W86-01993 1906 7C

Approach for Appraising the Accuracy of Suspended-Sediment Data,
W86-02415 1906 7C

Statistical Analyses of Spatial and Temporal Storm Rainfall Characteristics in Puerto Rico,
W86-02675 1907 2B

Statistical Approach to Evaluating the Relation of Coal Mining, Land Reclamation, and Surface-Water Quality in Ohio,
W86-02775 1907 4C

Summary of Statistical and Trend Analyses of Selected Water-Quality Data Collected Near the Big Thicket National Preserve, Southeast Texas,
W86-02893 1907 5B

Evaluation of Ground-Water Quality Data from Kentucky,
W86-03142 1908 2K

Use of Log-Normal Statistics in Environmental Monitoring,
W86-03531 1909 7C

Effect of Topographic Orientation on the Variations of Glacier Length,
W86-03700 1909 2C

Data Collection for Hydrochemical Balances: Theoretical Aspects,
W86-03766 1909 2A

Temporal Changes in Ground Water Quality in the Phreatic Zone Uttar Pradesh (India) and Their Impact on Sampling Schedule,
W86-03768 1909 2F

Statistical Examination of Small-Scale Spatial Variability of Volatile Organic Compounds and Inorganic Anions in Groundwater,
W86-04089 1910 5B

Identification of Subsurface Brines Using Statistical Technique,
W86-04093 1910 5A

Monitoring Statistics,
W86-04137 1910 5A

River Loads Underestimated by Rating Curves,
W86-04162 1910 5B

Estimation of Distributional Parameters for Censored Trace Level Water Quality Data. 1. Estimation Techniques,
W86-04168 1910 5A

Estimation of Distributional Parameters for Censored Trace Level Water Quality Data. 2. Verification and Applications,
W86-04169 1910 5A

Estimation of Aquifer Parameters Under Transient and Steady State Conditions: 1. Maximum Likelihood Method Incorporating Prior Information,
W86-04174 1910 2F

Errors and Parameter Estimation in Precipitation-Runoff Modeling. 1. Theory,
W86-04317 1910 2A

Evaluation of Thornthwaite's Water Balance Technique in Predicting Stream Runoff in Costa Rica,
W86-04393 1910 2E

Fourier Inference: Some Methods for the Analysis of Array and Nongaussian Series Data,
W86-04530 1910 7C

Statistics of Enumerating Total Coliforms in Water Samples by Membrane Filter Procedures,
W86-04585 1910 5A

Daily Flow Statistics of Alaskan Streams,
W86-04784 1911 4A

Disjunctive Kriging: 1. Overview of Estimation and Conditional Probability,
W86-05207 1911 6A

Disjunctive Kriging: 2. Examples,
W86-05208 1911 6A

Statistical Inference of Spatial Random Functions,
W86-05254 1911 2A

Probability Plot Correlation Coefficient Test for the Normal, Lognormal, and Gumbel Distributional Hypotheses,
W86-05439 1912 2A

Problems of Long-Term Groundwater Regime and Resources Forecasting,
W86-05651 1912 2F

Skill Tests and Parametric Statistics for Model Evaluation,
W86-05817 1912 4A

Comparing Some Methods of Estimating Mean Areal Rainfall,
W86-06022 1912 2B

Statistical Analysis of the Relationships among Rainfall, Outgoing Longwave Radiation and the Moisture Budget During January-March 1979,
W86-06055 1912 2B

Water Quality Surveys: A Statistical Method Based on Determinism, Quantiles and the Binomial Distribution,
W86-06159 1912 7C

STATISTICAL FORECASTING MODELS
Flood Forecasting for Tucurui Hydroelectrical Plant, Brazil,
W86-06015 1912 8B

STATISTICAL HYDROLOGY
Statistical Inference of Spatial Random Functions,
W86-05254 1911 2A

STATISTICAL METHODS
Trend Analysis of Salt Load and Evaluation of the Frequency of Water-Quality Measurements for the Gunnison, the Colorado, and the Dolores Rivers in Colorado and Utah,
W86-00123 1901 5B

Microcomputer Assisted Quality Assurance,
W86-00203 1901 5A

Return Period Analysis with Sliding Polynomials,
W86-00374 1902 2A

Projecting Land Use Changes Associated with Small Watershed Development,
W86-01976 1906 6G

Approach for Appraising the Accuracy of Suspended-Sediment Data,
W86-02415 1906 7C

Study of Anthropogenic Influence on Water Quality in Some Rivers of the Baltic Sea Basin,
W86-03779 1909 5B

Monitoring Statistics,
W86-04137 1910 5A

Discrimination of Groundwater Sources Using Cluster Analysis, MANOVA, Canonical Analysis and Discriminant Analysis,
W86-04312 1910 2F

Methods for Validation of Precipitation pH: Applications to Texas Data,
W86-04389 1910 5A

Parametric/Nonparametric Mixture Density Estimation with Application to Flood-Frequency Analysis,
W86-04531 1910 2E

Bayesian Models of Forecasted Time Series,
W86-04532 1910 2A

Practical Guidelines for the Use of Zooplankton Length-Weight Regression Equations,
W86-05182 1911 2H

Comparison of Several Methods for the Solution of the Inverse Problem in Two-Dimensional Steady State Groundwater Flow Modeling,
W86-05216 1911 2F

Further Assessment of Treatment Effects in the Florida Area Cumulus Experiment through Guided Linear Modeling,
W86-05460 1912 3B

Water Quality Surveys: A Statistical Method Based on Determinism, Quantiles and the Binomial Distribution,
W86-06159 1912 7C

STATISTICAL MODELING
Application of Model Output Statistics to Precipitation Prediction in Australia,
W86-06121 1912 2B

STATISTICAL MODELS
Multiple Nonlinear Statistical Models for Runoff Simulation and Prediction,
W86-00035 1901 2E

Estimation of Missing Values in Monthly Rainfall Series,
W86-00094 1901 2B

Testing the Climatic Representativeness of Short-Period Records Through Simulation,
W86-00376 1902 2A

Statistical Model for Conversion of Absorbance Measurements with Significant Iron Interference into Organic Carbon in a Polyhumic Lake,
W86-00676 1903 5A

Statistical Models for Estimating Flow Characteristics of Michigan Streams,
W86-02411 1906 2E

Monitoring Statistics,
W86-04137 1910 5A

Skill Tests and Parametric Statistics for Model Evaluation,
W86-05817 1912 4A

Statistically Derived Prediction Procedure for Tropical Storm Formation,
W86-06122 1912 2B

STATISTICS
Daily Flow Statistics of Alaskan Streams,
W86-04784 1911 4A

STEADY-STATE CONDITIONS
Estimation of Aquifer Parameters Under Transient and Steady State Conditions: 1. Maximum Likelihood Method Incorporating Prior Information,
W86-04174 1910 2F

Estimation of Aquifer Parameters Under Transient and Steady State Conditions: 2. Uniqueness, Stability, and Solution Algorithms,
W86-04175 1910 2F

Estimation of Aquifer Parameters Under Transient and Steady State Conditions: 3. Application to Synthetic and Field Data,
W86-04176 1910 2F

STEADY STATE MEASUREMENT
Steady State Measurement of Oxygenation Capacity,
W86-00756 1903 5D

STEADY-STATE STRENGTH
Re-Examination of Slide of Lower San Fernando Dam,
W86-05555 1912 8D

STEADY STATE TRANSPORT
Porous Flow Model for Steady State Transport of Radium in Groundwater,
W86-04159 1910 5B

STEEL
Preventative Measures to Limit Stress Corrosion Cracking in Prestressed Concrete,
W86-00249 1901 8G

Design of Dowels for Anchoring Replacement Concrete to Vertical Lock Walls,
W86-00312 1902 8F

Genesis of the Protective Layers upon the Mild Steel Surface in the Neutral Natural Waters,
W86-00419 1902 8G

STEP-DRAWDOWN TESTS
Step-Drawdown and Constant-Rate Pumping Tests,
W86-00712 1903 2F

STILLING BASIN
Hydraulic Model Study of Choke Canyon Dam Spillway and Stilling Basin,
W86-00382 1902 8B

STILLING BASINS
Pointe Coupee Pumping Station Sump and Outlet Structure, Upper Pointe Coupee Loop Area, Louisiana: Hydraulic Model Investigation,
W86-00101 1901 8C

Flow Characteristics of the Hydraulic Jump in a Stilling Basin with an Abrupt Bottom Rise,
W86-01391 1905 8B

STOCHASTIC HYDROLOGY
Effects of Incorrectly Removed Periodicity in Parameters on Stochastic Dependence,
W86-00075 1901 2A

Estimation of Missing Values in Monthly Rainfall Series,
W86-00094 1901 2B

Stochastic Flood Analysis in a Region of Mixed Generating Processes,
W86-00646 1903 2E

Recurrence Interval of Drought Events Through Stochastic Analysis of Rainfall and Streamflow Data,
W86-01444 1905 2A

Effect of Stochastic Inputs and Parameters in Solue-Transport Modeling,
W86-04082 1910 5B

Fundamental Problems in the Stochastic Convection-Dispersion Model of Solute Transport in Aquifers and Field Soils,
W86-04163 1910 5B

Stochastic Modeling of the Space-Time Structure of Atmospheric Chemical Deposition,
W86-04171 1910 5B

Stochastic Dynamics of Precipitation: An Example,
W86-04319 1910 2B

Generalized Scale Invariance in the Atmosphere and Fractal Models of Rain,
W86-04320 1910 2B

Stochastic Modeling of Irrigation Requirements,
W86-05928 1912 3F

STOCHASTIC MODELS
Stochastic Model of Seasonal Runoff Forecasts,
W86-04192 1910 2E

STOCHASTIC PROCESS
Estimation of Missing Values in Monthly Rainfall Series,
W86-00094 1901 2B

Return Period Analysis of Minimum Events Using Sliding Polynomials,
W86-00375 1902 2A

Testing the Climatic Representativeness of Short-Period Records Through Simulation,
W86-00376 1902 2A

Stochastic Optimization of a Multireservoir Hydroelectric System: A Decomposition Approach,
W86-01069 1904 4A

Stoichiometry of Processes of Aerobic Biochemical Wastewater Treatment,
W86-01827 1905 5D

Stochastic-Convective Ensemble Method for Representing Dispersive Transport in Groundwater,
W86-03498 1909 5B

Stochastic Soil Moisture Estimation and Forecasting for Irrigated Fields,
W86-04172 1910 2G

Frequency Domain Approach to Water Quality Modeling in Groundwater: Theory,
W86-04315 1910 5B

Simple Stochastic Model of the Precipitation Process,
W86-04592 1910 2B

Multivariate Stochastic Model for the Reconstruction of Groundwater Data,
W86-05669 1912 2F

STOCHASTIC PROCESSES
Stochastic Analysis of Three-Dimensional Flow in a Bounded Domain,
W86-05215 1911 2F

Parameter Uncertainty in Estimation of Spatial Functions: Bayesian Analysis,
W86-05430 1912 2A

STOCK PONDS
Effect of Stockponds on Downstream Surface Water Yields,
W86-02645 1907 2A

STOCKBRIDGE BOWL
Six Ponds Dioxin Survey,
W86-01551 1905 5C

STOICHIOMETRY
Kinetics and Stoichiometry of SBR/Denitrification with a Primary Sludge Carbon Source,
W86-05036 1911 5D

STOMACHS
Evidence for Polynuclear Aromatic Hydrocarbons in the Diet of Bottom-Feeding Fish,
W86-00694 1903 5B

STOMATA
Model to Simulate Response of Plant Stomata to Environmental Conditions,
W86-00504 1902 2D

Stomatal Responses and Water Relations of Eucalyptus pauciflora in Summer Along an Elevational Gradient,
W86-01163 1904 2D

Adaptation to Water Deficits: A Changing Perspective,
W86-05961 1912 2I

STOMATAL CONDUCTANCE
Instrument for Measuring the Average Stomatal Conductance of Conifer Seedlings,
W86-01782 1905 2I

STOMATAL DIFFUSIVE RESISTANCE
Comparison of Metabolic Inhibitors, Film-Forming Antitranspirants, and Microject Irrigation for Water Use Efficiency of Rabbiteye Blueberries,
W86-02433 1907 3D

STOMATAL RESISTANCE
Evaluating Plant and Canopy Resistances of Field-Grown Wheat from Concurrent Diurnal Observations of Leaf Water Potential, Stomatal Resistance, Canopy Temperature, and Evapotranspiration Flux,
W86-00506 1902 2I

STONES
Macroinvertebrate Community of Stones in an Australian Upland Stream,
W86-00926 1904 2H

STORAGE
Covariance Between Subsample Mean and Variance as Related to Storage Variables,
W86-01297 1904 2E

Self-Contained Oil Recovery System for Use in Protected Waters,
W86-04011 1910 5G

Short-Term Hydroelectric Scheduling Using the Progressive Optimality Algorithm,
W86-04542 1910 4A

STORAGE CAPACITY
Basin-Scale Evapotranspiration Determination Through Watershed and Climate Analysis,
W86-02420 1907 2D

Analysis of the Water Balance of B. Everett Jordan Lake Including Estimates of Flows Between Segments,
W86-02686 1907 4A

STORAGE-FREQUENCY CURVES
Storage Analysis for Ephemeral Streams in Semiarid Regions,
W86-03171 1908 2E

STORAGE RESERVOIRS
Salvaging a Water Reservoir,
W86-04739 1911 8A

STORAGE TANKS
Rooftop Rainwater Catchment Systems for Drinking Water Supply,
W86-02330 1906 3B

Spillage Over an Inclined Embankment,
W86-05968 1912 2E

STORATIVITY
Ratio, Transmissivity/Storativity from Electric Analog Values of Streamflow,
W86-05440 1912 2E

STORM DAMAGE
Ice Storm Damage to a Southern Wisconsin Mesic Forest,
W86-01760 1905 2C

STORM DEPTH
Runoff Probability, Storm Depth, and Curve Numbers,
W86-05917 1912 2A

STORM DRAINS
Developing an Effective Storm Drainage Maintenance Program,
W86-00806 1903 4A

Using the Fecal Coliform Test for Sewer and Storm Drain Maintenance,
W86-04687 1911 5D

STORM FLOW
Storm Flow and Sediment Losses from Site-Prepared Forestland in East Texas,
W86-05224 1911 4C

STORM LOADS
Analysis of Urban Runoff Data and Effects on the South Platte River, Denver Metropolitan Area, Colorado,
W86-02813 1907 5B

Summary of Urban-Runoff Studies in the Denver Metropolitan Area, Colorado,
W86-02875 1907 5B

STORM MORPHOLOGY
Investigations of Large Scale Storm Systems: Final Report,
W86-03647 1909 2B

STORM RUNOFF
Probabilistic Structure of Storm Surface Runoff,
W86-00083 1901 2E

Attempt to Implement SWMM in Tunisia,
W86-00087 1901 6A

Advancement in Hydraulic Modeling of Porous Pavement Facilities,
W86-00098 1901 2E

Planning and Implementation of Regional Stormwater Management Facilities in Montgomery County, Maryland,
W86-00099 1901 4A

Runoff, Sediment Transport, and Water Quality in a Northern Illinois Agricultural Watershed before Urban Development, 1979-81,
W86-00133 1901 2J

Storm Water Runoff from Industrial Sites,
W86-00766 1903 5B

Proportional Weirs for Stormwater Pond Outlets,
W86-00887 1903 8A

Operation and Efficiency of Automatically Operating Weir Structures - A Contribution to Cleaner Waters,
W86-01254 1904 4A

Stormwater Management Emphasizes Soft Improvements,
W86-01315 1904 4A

Hydrology of Mid-Altitude Tussock Grasslands, Upper Waipori Catchment: II - Water Balance, Flow Duration and Storm Runoff,
W86-01384 1905 2A

Stormwater Runoff From Highways,
W86-01605 1905 5B

Evaluation of Rainfall-Runoff Data for the Denver Federal Center, Lakewood, Jefferson County, Colorado,
W86-01956 1906 2E

Effects of Stormwater Runoff on an Urban Lake, Lake Ellyn at Glen Ellyn, Illinois,
W86-02392 1906 5B

Operation of Detention Facilities for Urban Stream Quality Enhancement,
W86-02436 1907 5G

Stream Channel Response to the January 3-5, 1982 Storm in the Santa Cruz Mountains, West Central California,
W86-02858 1907 2J

Relations of Urban Land-Use and Dry-Weather Storm and Snowmelt Flow Charactertistics to Stream-Water Quality, Shunganunga Creek Basin, Topeka, Kansas,
W86-02926 1908 4C

Storm Runoff as Related to Urbanization Based on Data Collected in Salem, and Portland, and Generalized for the Willamette Valley, Oregon,
W86-03015 1908 4C

Hydrologic Data for Urban Studies in the Houston, Texas, Metropolitan Area, 1982,
W86-03106 1908 7C

Characteristics and Treatability of Urban Runoff Residuals,
W86-03508 1909 5B

Stormwater Runoff Treatment by Impoundment: Barrhaven Pilot Study,
W86-03632 1909 5D

Conditions and Frequency of Sampling for Elucidations of Transport Mechanisms and Element Budgets in Upland Drainage Basins,
W86-03770 1909 7A

Separation of Runoff Components by NO3-N Loading and Estimation of Runoff Loading by Each Component,
W86-03788 1909 5B

Improved Surcharge Computation in EXTRAN,
W86-03832 1909 3A

Chimney Hill Off-Site Drainage Study,
W86-03835 1909 2A

Errors and Parameter Estimation in Precipitation-Runoff Modeling. 2. Case Study,
W86-04318 1910 2A

Treatment of Solids and Petroleum Hydrocarbons in Storm Runoff with an On-Site Detention Basin,
W86-04363 1910 5D

Ingenuity Solves the City's Drainage and Recreational Space Needs,
W86-04737 1911 4A

Prediction of Surface Saturation Zones in Natural Catchments by Topographic Analysis,
W86-05226 1911 2E

Regression Models for Estimating Storm Runoff Load and its Application to Lake Kasumigaura,
W86-05584 1912 5B

Runoff Probability, Storm Depth, and Curve Numbers,
W86-05917 1912 2A

Errors In Stormwater Modeling - A Quantitative Assessment,
W86-05985 1912 2A

STORM RUNOFF MODELING
Evaluation of Combined Sewer Overflow Management Strategies Through Pipe Network Computer Simulation,
W86-02505 1907 5G

STORM SEEPAGE
Unsaturated and Saturated Flow Through a Thin Porous Layer on a Hillslope,
W86-01073 1904 2F

Generation of Delayed Peaks in Stream Discharge,
W86-01480 1905 2A

Separation of Runoff Components by NO3-N Loading and Estimation of Runoff Loading by Each Component,
W86-03788 1909 5B

Role of Subsurface Water Exfiltration in Soil Erosion Processes,
W86-04904 1911 2J

STORM SEWERS
Storm Sewer Optimum Design,
W86-00100 1901 8B

Operation and Efficiency of Automatically Operating Weir Structures - A Contribution to Cleaner Waters,
W86-01254 1904 4A

Control of Non-Point Nutrient Caused Algal Problems Especially by Dilution,
W86-03488 1909 5G

Solution to Residential Sewer Backups,
W86-04686 1911 5D

Flow Measurement in Open and Closed Conduits of Gravitational Urban Storm Sewer Networks,
W86-04787 1911 7B

Gravity Pressure Collection System Drains Viaduct,
W86-06044 1912 8A

STORM SURGES
Skill Tests and Parametric Statistics for Model Evaluation,
W86-05817 1912 4A

Evaluation of the SLOSH Storm-Surge Model,
W86-06101 1912 2B

STORM WARNINGS
Outline of Severe Local Storms with the Morphology of Associated Radar Echoes,
W86-00146 1901 2B

STORM WASTEWATER
Flow Balancing Method for Stormwater and Combined Sewer Overflow.
W86-00191 1901 5D

Cost-Effective Design and Operation of Urban Stormwater Control Systems: Decision-Support Software,
W86-02427 1907 5D

Characteristics and Treatability of Urban Runoff Residuals,
W86-03508 1909 5B

Continuous DO Response Predicted Using CSPSS Is Verified for Springfield, Missouri,
W86-03826 1909 5B

Lift Station Design,
W86-04959 1911 8A

Automating Stormwater and Combined Sewer Systems: The Possibilities,
W86-06041 1912 5D

STORM WATER
Attempt to Implement SWMM in Tunisia,
W86-00087 1901 6A

Stormwater Runoff Treatment by Impoundment: Barrhaven Pilot Study,
W86-03632 1909 5D

Preparing a Design Storm,
W86-03833 1909 2A

State-Of-The-Art Update on Combined Sewer Overflow Control,
W86-05038 1911 5D

Planning Detention Storage for Stormwater Management,
W86-05810 1912 4A

STORM WATER DETENTION
Operation of Detention Facilities for Urban Stream Quality Enhancement,
W86-02436 1907 5G

STORMS
Outline of Severe Local Storms with the Morphology of Associated Radar Echoes,
W86-00146 1901 2B

Poststorm Reconnaissance of Tropical Storm Chris,
W86-00279 1901 2B

Fourier Inference: Some Methods for the Analysis of Array and Nongaussian Series Data,
W86-04530 1910 7C

Hailstone Size Distributions and Their Relationship to Storm Thermodynamics,
W86-04627 1910 2B

Airborne Doppler Radar Observations of a Convective Storm,
W86-04633 1910 2B

Characteristics and Distribution of Cloud Water over the Mountains of Northern Colorado during Wintertime Storms. Part 1: Temporal Variations,
W86-05456 1912 2B

Some Effects of Surface Heating and Topography on the Regional Severe Storm Environment. Part I: Three-Dimensional Simulations,
W86-06130 1912 2B

Some Effects of Surface Heating and Topography on the Regional Severe Storm Environment. Part II: Two-Dimensional Idealized Experiments,
W86-06131 1912 2B

STORMWATER
Oil Stop Valve: Oil Spill Containment Research and Development Project,
W86-03627 1909 5G

STORMWATER MANAGEMENT
Hydrometeorological Data Acquisition: Innovative, High-Resolution Programmable Instrumentation for Stormwater Management,
W86-03829 1909 7B

STRAIGHT OF GEORGIA
Computer Simulations of the Fraser River Plume,
W86-01328 1905 2L

STRATIFICATION
Stratification and Primary Production in a Small Brackish Lake Studied by Close-Interval Siphon Sampling,
W86-00930 1904 2H

Prediction of Characteristics for Vertical Round Buoyant Jets in Stably Linear Stratified Environment,
W86-01392 1905 8B

Implication of Temporal Variations and Vertical Stratification of Groundwater Nitrate-Nitrogen in the Hall County Special Use Area,
W86-02591 1907 5B

Boundary Conditions of Sediment Surfaces Viewed from DO Behavior,
W86-03467 1909 2H

Mixing of a Stratified River by Barge Tows,
W86-04306 1910 5G

STRATIFIED-DRIFT AQUIFERS
Distribution of Polychlorinated Biphenyls in the Housatonic River and Adjacent Aquifer, Massachusetts,
W86-03093 1908 5B

STRATIFIED FLOW
Influence of an Artificial Hydraulic Regime on Water Quality in the Tidal River Lagan, Northern Ireland,
W86-05080 1911 5G

Curvilinear Finite Element Model for Simulating Two-Well Tracer Tests and Transport in Stratified Aquifers,
W86-05213 1911 2F

Comparative Study of the Green and Ampt Analysis for a Falling Water Table in a Stratified Profile,
W86-05218 1911 2F

STRATIFIED LAKES
Comparison of the Phosphorus-Chlorophyll Relationships in Mixed and Stratified Lakes,
W86-00614 1903 2H

Wind-Forced Motions in Stratified Lakes and Their Effect on Mixed-Layer Shear,
W86-05279 1911 2H

STRATIFIED MEDIA
Experimental Investigation of Solute Transport in Stratified Porous Media; 1. The Nonreactive Case,
W86-01775 1905 2F

Experimental Investigation of Solute Transport in Stratified Porous Media 2. The Reactive Case,
W86-01776 1905 2F

STRATIGRAPHY
Stratigraphy and Sedimentary Facies of the Madison Limestone and Associated Rocks in Parts of Montana, Nebraska, North Dakota, South Dakota, Wyoming,
W86-00104 1901 2F

Hydrogeologic Setting East of Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02871 1907 2F

Strata-Movement Concepts and the Hydrogeological Impact of Underground Coal Mining,
W86-06175 1912 4C

STRAW
Straw-based Techniques for Composting,
W86-04614 1910 5E

STREAM BANK EROSION
Bank Erosion Contribution to Stream Sediment Load,
W86-02718 1907 2J

STREAM BIOTA
Acidification Effects on Stream Biota and Organic Matter Processing,
W86-00604 1902 5C

Evaluation by Field Experiments of the McLay Model of Stream Drift,
W86-00628 1903 2H

Resource Spiraling: An Operational Paradigm for Analyzing Lotic Ecosystems,
W86-03376 1908 5C

Relationship Between Microbial Activity of Stream Sediments, Determined by Three Different Methods, and Abiotic Variables,
W86-05202 1911 5A

STREAM CHEMISTRY
Use of Stream Chemistry to Estimate Hydrologic Parameters,
W86-05227 1911 2K

STREAM CLASSIFICATION
Alternative for Characterizing Stream Size,
W86-03380 1908 2E

STREAM DEGRADATION
Reconnaissance of Water-Quality Characteristics of Streams in the City of Charlotte and Mecklenburg County, North Carolina,
W86-02879 1907 5B

Engineering Geology and Geomorphology of Streambank Erosion: Report 4, Supplemental Update to Report 3: The Application of Waterborne Geophysical Techniques in Fluvial Environments,
W86-03320 1908 2J

STREAM DISCHARGE
Effects of Reduced Discharge on Production and Distribution of Age-0 Rainbow Trout in Seminatural Channels,
W86-01150 1904 8I

Generation of Delayed Peaks in Stream Discharge,
W86-01480 1905 2A

Trapezoidal Channels with Increasing Discharge,
W86-01541 1905 2E

Surface-Water Inflow to Puget Sound, Washington,
W86-02395 1906 7C

Analysis of the Water Balance of B. Everett Jordan Lake Including Estimates of Flows Between Segments,
W86-02686 1907 4A

Cost-Effectiveness of the Stream-Gaging Program in Northeastern California,
W86-02774 1907 7A

Streamflow and Specific-Conductance Data for Selected Sites, February 15 Through April 9, 1984, Near the Y-12 Plant, the Oak Ridge Reservation, Tennessee,
W86-02817 1907 2E

Estimation of Incomplete Streamflow for Selected Sites on the Carson and Truckee Rivers in California and Nevada, 1944-80,
W86-02990 1908 2E

Quebec: Surface Water Data, 1984,
W86-03235 1908 2E

Water Balance of Lake Victoria,
W86-04386 1910 2H

Evaluation of Thornthwaite's Water Balance Technique in Predicting Stream Runoff in Costa Rica,
W86-04393 1910 2E

Hydrometric Cableways in the Yangtze Valley,
W86-04786 1911 7B

STREAM ENHANCEMENT
Riparian and Stream Enhancement Management and Research in the Rocky Mountains,
W86-00588 1902 6B

STREAM ENHANCEMENT STRUCTURES
Evaluation of Instream Enhancement Structures for Salmonid Spawning and Rearing in a Coastal Oregon Stream,
W86-00591 1902 8I

STREAM FISHERIES
Instream Flow Needs in Critical Areas of the Great Lakes Region,
W86-02468 1907 2E

Comparison of Habitats Near Spur Dikes, Continuous Revetments, and Natural Banks for Larval, Juvenile, and Adult Fishes of the Willamette River,
W86-02672 1907 6G

Evaluation of Community Information Indices for Mississippi River Fisheries,
W86-03499 1909 7C

STREAM FLOW
Long Term Prediction of the Extremes of River Bed Level Fluctuations,
W86-04909 1911 2E

STREAM GAGES
Cost Effectiveness of the U.S. Geological Survey's Stream-Gaging Program in Illinois,
W86-02782 1907 7A

Discharge Ratings at Gaging Stations,
W86-03029 1908 7B

Manitoba: Surface Water Data, 1984,
W86-03287 1908 2E

Hydrometric Cableways in the Yangtze Valley,
W86-04786 1911 7B

STREAM GAGING

Cost-Effectiveness of the U.S. Geological Survey Stream-Gaging Program in Arkansas,
W86-01961 1906 7A

Evaluation of the Cost Effectiveness of the 1983 Stream-Gaging Program in Kansas,
W86-02992 1908 2E

STREAM-GAGING PROGRAM

Stream-Gaging Program in Colorado,
W86-03057 1908 7B

Cost-Effectiveness of the Stream-Gaging Program in New Jersey,
W86-03073 1908 7A

STREAM IMPROVEMENT

Final Environmental Impact Statement: Regional Flood Control Tonawanda Creek, Genesee County, New York,
W86-03626 1909 4A

Rehabilitation of a Trout Stream,
W86-06049 1912 8I

STREAM ORDER

Alternative for Characterizing Stream Size,
W86-03380 1908 2E

STREAM POLLUTION

Assessment of Water Resources in Lead-Zinc Mined Areas in Cherokee County, Kansas, and Adjacent Areas,
W86-00121 1901 5A

Indicator Bacteria in Water and Stream Sediments near the Snowy Range in Southern Wyoming,
W86-00428 1902 5B

Gold-Mining Effects on Heavy Metals in Streams, Circle Quadrangle, Alaska,
W86-00786 1903 5C

Modification of the Relative Importance of the Carbon Balance in a Polluted Brook after a Period of Spate (Modification de l'Importance relative des flux de Carbone d'un Ruisseau Pollue Apres une Periode de Crue),
W86-00940 1904 5B

Stream Modeling of Nonconvetional Water Quality Parameters: Phenol, Cyanide, Ammonia, Oil and Grease,
W86-01234 1904 5B

Effects of a Crude Oil Spill on Water Quality and Macrobenthos of a Southeast Texas Stream,
W86-01506 1905 5C

Volatile Trace-Element Concentrations in Snowmelt Contributions to Streams Monitored by Hydrologic Bench Mark Network Stations in the Conterminous United States Where Average Annual Snowfall Exceeds 12 Inches,
W86-02397 1906 5B

Water-Quality Data for 34 Sites, April and June, 1984, Near the Y-12 Plant, The Oak Ridge Reservation, Tennessee,
W86-03048 1908 5B

Water Quality and Water Pollution Problems on the Indian Sub-Continent,
W86-03781 1909 5B

Aerobic Transformation of Nitrogenous Substances in a Freshwater Ecosystem,
W86-03782 1909 5C

Clostridium Perfringens, A Reliable Indicator of Stream Water Quality,
W86-04328 1910 5G

STREAM PROFILES

Relationship Between Stream Recreational Use and Stream Characteristics with Implications for Management of Illinois Streams,
W86-03451 1909 5G

STREAM REGULATION

Effects of Stream Regulation on Density, Growth, and Emergence of Two Mayflies (Ephemeroptera: Ephemerellidae) and a Caddisfly (Trichoptera: Hydropsychidae) in Two Rocky Mountain Rivers (U.S.A.),
W86-05570 1912 6G

STREAM SEDIMENTS

Factors Controlling Phosphorus Limitation in Stream Sediments,
W86-01417 1905 2H

Bacterial Biomass, Metabolic State, and Activity in Stream Sediments: Relation to Environmental Variables and Multiple Assay Comparisons,
W86-04677 1910 5A

STREAM STABILIZATION

Streambank Erosion Protection and Channel Scour Manipulation Using Rockfill Dikes and Gabions,
W86-02665 1907 8A

Summary Report: Model-Prototype Comparison Study of Dike Systems, Mississippi River; Potamology Investigations,
W86-03307 1908 8A

STREAM SULFATE

Recent Patterns of Sulfate Variability in Pristine Streams,
W86-05467 1912 5B

STREAM TEMPERATURE

Preliminary Study Using Digital Modeling Techniques to Understand and Predict the Temperature Regime in a Stream Below a Major Reservoir--The North Sanitiam River Below Detroit Dam, OR,
W86-03022 1908 6G

STREAMBEDS

Macroinvertebrate Community of Stones in an Australian Upland Stream,
W86-00926 1904 2H

Inflow Seepage Influence on Straight Alluvial Channels,
W86-01731 1905 2E

Determination of Ripple Geometry,
W86-01732 1905 2E

Channel Width Adjustment During Scour and Fill,
W86-05973 1912 2J

STREAMFLOW

Discrete-Time Linear Cascade under Time Averaging,
W86-00028 1901 2A

Gould's Probability Matrix Method; 1. The Starting Month Problem,
W86-00029 1901 2E

Gould's Probability Matrix Method; 2. The Annual Autocorrelation Problem,
W86-00030 1901 2E

Comparison of Two Daily Streamflow Simulation Models of an Alpine Watershed,
W86-00033 1901 2E

Interannual Steamflow Variability in the United States Based on Principal Components,
W86-00076 1901 2E

Runoff from Glacierized Mountains: A Model for Annual Variation and Its Forecasting,
W86-00077 1901 2E

Minimum Variance Streamflow Record Augmentation Procedures,
W86-00079 1901 2E

Hydrological Regionalisation: A Question of Problem and Scale,
W86-00096 1901 2E

Streamflow Variability in the United States: 1931-78,
W86-01137 1904 2E

Recurrence Interval of Drought Events Through Stochastic Analysis of Rainfall and Streamflow Data,
W86-01444 1905 2A

Long-Term Streamflow Observations in Relation to Basin Development,
W86-01472 1905 4C

Evaluation of Rainfall-Runoff Data for the Denver Federal Center, Lakewood, Jefferson County, Colorado,
W86-01956 1906 2E

Surface-Water Inflow to Puget Sound, Washington,
W86-02395 1906 7C

Stream Discharge in Michigan--Miscellaneous Measurements,
W86-02409 1906 7C

Cost Effectiveness of the U.S. Geological Survey's Stream-Gaging Program in Illinois,
W86-02782 1907 7A

Runoff and Water Quality Characteristics of Surface-Mined Lands in Illinois,
W86-02826 1907 4C

Availabilty of Natural and Regulated Streamflows for Instream Uses During Historical Droughts, Lower Neosho River, Southeastern Kansas,
W86-02838 1907 2E

Water-Resources Activities of the U.S. Geological Survey in Kansas--Fiscal Years 1983 and 1984,
W86-02865 1907 2E

Ground-Water Resources of the Mattapoisett River Aquifer, Plymouth County, Massachusetts: Summary for Water-Resource Managers,
W86-02874 1907 4B

Cost-Effectiveness of the Stream-Gaging Program in Nebraska,
W86-02885 1907 7A

Traveltime, Longitudinal-Dispersion, Reaeration, and Basin Characteristics of the White River, Colorado and Utah,
W86-02984 1908 2E

Low-Flow Characteristics of Kentucky Streams, 1983,
W86-02998 1908 7C

Low-Flow Data for Selected Partial-Record Stations in Ohio,
W86-03003 1908 7B

Data Collection for a Time-of-Travel and Dispersion Study on the Coosa River Near Childersburg, Alabama,
W86-03052 1908 2F

Streamflow in the Southeastern Uinta Basin, Utah and Colorado,
W86-03064 1908 2E

Streamflow and Suspended-Sediment Discharge from Two Small Watersheds in Southwestern Wyoming and Northeastern Utah, 1984,
W86-03066 1908 2E

Cost-Effectiveness of the Stream-Gaging Program in New Jersey,
W86-03073 1908 7A

Ground-Water Resources of the Mattapoisett River Valley, Plymouth County, Massachusetts,
W86-03079 1908 2E

May 1984-April 1985 Water Budget of Reelfoot Lake with Estimates of Sediment Inflow and Concentrations of Pesticides in Bottom Material in Tributary Streams--Basic Data Report,
W86-03100 1908 5B

Stream-Gaging Program in South Dakota,
W86-03105 1908 7A

Statistical Summaries of Streamflow Data in Oregon; Volume 1 Eastern Oregon,
W86-03550 1909 2E

Streamflow Augmentation at Fosters Brook, Long Island, New York - A Hydraulic Feasibility Study,
W86-03551 1909 4A

Continuous Monitoring of Rainfall, Streamflow and Suspended Sediment Concentration in Semiarid Environments,
W86-03591 1909 7B

Streamflow Summaries from Twelve Tributaries of Farmington Creek, Davis County Experimental Watershed, Northern Utah,
W86-03640 1909 2A

Rising Air Float Technique for the Measurement of Stream Discharge,
W86-04799 1911 7B

Erosion and Sediment Tranport Processes in Step-Pool Torrents,
W86-04907 1911 2J

Ratio, Transmissivity/Storativity from Electric Analog Values of Streamflow,
W86-05440 1912 2E

Limestone Influences on Physical and Chemical Features of a Mountain Stream,
W86-05442 1912 2K

Maps of Streamflow Resources of Some High-Mountain Areas in Asia and North America,
W86-05612 1912 2E

STREAMFLOW CHARACTERISTICS
Streamflow and Basin Characteristics at Selected Sites in Kentucky,
W86-02993 1908 7C

Water-Resources Appraisal of the Upper Arkansas River Basin from Leadville to Pueblo, Colorado,
W86-03025 1908 2E

STREAMFLOW DATA
Streamflow and Sediment Data Collected at Seven Stream-Gaging Stations in the James River Basin Downstream from Forestburg, South Dakota, from Oct 1, 1982 - Sep 30, 1983,
W86-02912 1907 2E

Uses, Funding, and Availability of Continuous Streamflow Data in Montana,
W86-03036 1908 7B

Water Budget for Major Streams in the Central Valley, California, 1961-77,
W86-03050 1908 2E

STREAMFLOW DEPLETION
Appraisal of the Surficial Aquifers in the Pomme De Terre and Chippewa River Valleys, Western Minnesota,
W86-02357 1906 2F

STREAMFLOW FORECASTING
Instream Flow Needs in Critical Areas of the Great Lakes Region,
W86-02468 1907 2E

Enhancement of Duration Curve Prediction Using Short Time Low Flow Measurements,
W86-02690 1907 2E

Estimation of the Flow and Water-Quality Characteristics of Alaskan Streams,
W86-02864 1907 4A

National Verification Plan: Report of the National Verification Task Team.
W86-03292 1908 2A

Kalman Filter Estimation and Prediction of daily Stream Flows: I. Review, Algorithm, and Simulation Experiments,
W86-04533 1910 2E

Kalman Filter Estimation and Prediction of Daily Stream Flows: II Application to the Potomac River,
W86-04534 1910 2E

Up-Dating of Discharge Rating Curves by Means of Mathematical Models,
W86-04789 1911 7B

STREAMFLOW-GAGING PROGRAM
Uses, Funding, and Availability of Continuous Streamflow Data in Montana,
W86-03036 1908 7B

STREAMFLOW GAINS
Streamflow Losses Along the Balcones Fault Zone, Nueces River Basin, Texas,
W86-00124 1901 2E

STREAMFLOW LOSSES
Streamflow Losses Along the Balcones Fault Zone, Nueces River Basin, Texas,
W86-00124 1901 2E

STREAMFLOW MEASUREMENT
Pragmatic Approach to Evaluating a Multipurpose Stream-Gaging Network,
W86-02417 1906 7A

STREAMFLOW ROUTING
Applicability of Microcomputers for Managing Water in Small River Basins,
W86-02681 1907 6E

STREAMFLOW TIME SERIES
Periodic Autoregressive-Moving Average (Parma) Modeling with Applications to Water Resources,
W86-04529 1910 2E

STREAMFLOW VELOCITY
Time of Travel and Dispersion of Solutes in a 36.4-Mile Reach of the North Platte River Downstream from Casper, Wyoming,
W86-03559 1909 2E

STREAMS
Stream Channel Stability Assessment,
W86-00214 1901 2J

Stream Water Quality in the Coal Region of Alabama and Georgia,
W86-00250 1901 5B

Guide to Stream Habitat Analysis Using the Instream Flow Incremental Methodology,
W86-00251 1901 6G

Stream Water Quality in the Coal Region of West Virginia and Maryland,
W86-00253 1901 5B

Mathematical Model, SERATRA, for Sediment-Contaminant Transport in Rivers and Its Application to Pesticide Transport in Four Mile and Wolf Creeks in Iowa.
W86-00259 1901 5B

Stream Water Quality in the Coal Region of Ohio,
W86-00267 1901 5B

Stream Water Quality in the Coal Region of Pennsylvania,
W86-00281 1901 5B

Spring Benthic Macroinvertebrate Communities of Selected Streams in the High Caucasus (Azerbaijan SSR),
W86-00442 1902 2H

Studies on Riverine Ecology of Torrential Waters in the Uplands of the Garhwal Region, II. Seasonal Fluctuations in Diatom Density,
W86-00576 1902 2H

Ecological Alterations of Iowa Prairie-Agricultural Streams,
W86-00581 1902 6G

Probability-of-Use for Depth, Velocity, and Substrate by Subyearling Coho Salmon and Steelhead in Lake Ontario Tributary Streams,
W86-00590 1902 2H

Model of Sulphate Concentration in a Small Stream in the Harp Lake Catchment, Ontario,
W86-00629 1903 5B

Factors Controlling Mass Loss and Nitrogen Dynamics of Plant Litter Decaying in Northern Streams,
W86-00637 1903 2K

Environmental Audit. II. Application to Stream Network Design,
W86-00723 1903 7A

Use of Watershed Characteristics to Select Control Streams for Estimating Effects of Metal Mining Wastes on Extensively Disturbed Streams,
W86-00725 1903 5C

Flowing Water Resources,
W86-00791 1903 2A

Distribution and Persistence of Aminocarb in Stream Water, Sediment and Fish After Application of Three Matacil Formulations,
W86-00811 1903 5B

Drift in Hawaiian Streams,

Revetment Stability Study, Fort Fisher State Historic Site, North Carolina: Hydraulic Model Investigation,
W86-03479 1909 8A

Effects of Water Interactions on Engineering Structures,
W86-05276 1911 8B

New Safety for Old Dams,
W86-06077 1912 8A

STRUCTURAL GEOLOGY
Correlation of Paleostructure and Sediment Deposition in the Madison Limestone and Associated Rocks in Parts of Montana, North Dakota, South Dakota, Wyoming, and Nebraska,
W86-02977 1908 2F

STRUCTURAL GEOLOGY; *GROUNDWATER MOVEMENT
Tectonic Structures Responsible for Anisotropic Transmissivities in the Paleozoic Aquifers--Southern Bighorn Basin, Wyoming,
W86-02582 1907 2F

STRUCTURAL MODELS
Buhne Point, Humboldt Bay, California, Design for the Prevention of Shoreline Erosion: Hydraulic and Numerical Model Investigations,
W86-00169 1901 4D

STRUCTURE
Unusual Microorganisms Observed in New Zealand Hot Springs,
W86-05200 1911 5A

STRUCTURE ACTIVITY RELATIONSHIPS
Quantitative Structure Activity Relationships and Mixture Toxicity Studies of Alcohols and Chlorohydrocarbons: Effects on Growth of Daphnia magna,
W86-01160 1904 5C

STRUCTURED MODELLING
Structured Modeling of the Anaerobic Digestion of Biomass Particulates,
W86-00848 1903 5D

STUBBLE
Effect of Standing Stubble on Soil Water Loss by Evaporation,
W86-00507 1902 2D

SUBARCTIC LAKES
Trophic Status of 19 Subarctic Lakes in the Yukon Territory,
W86-05559 1912 5C

SUBARCTIC ZONE
Lagoon Treatment of Municipal Sewage Effluent in a Subarctic Region of Canada (Yellowknife, N.W.T.),
W86-04485 1910 5D

Some Environmental Consequences of Water and Energy Conservation in the Handling of Mine Tailings in Sub-Arctic Regions,
W86-04486 1910 3C

SUBLETHAL EFFECTS
Preliminary Investigation of Effects of Sublethal Acid Exposure on Maternal Behavior in the Crayfish Orconectes Virilis,
W86-05849 1912 5C

SUBMARINE SPRINGS
Thermal Infrared Detection of Submarine Springs Associated with the Plymouth Limestone,
W86-01443 1905 2F

SUBMERGED BACKFILL SOILS
Dynamic Soil and Water Pressures of Submerged Soils,
W86-05557 1912 8D

SUBMERGED PLANTS
Recording Echo Sounder for Assessing Submerged Aquatic Plant Populations in Shallow Lakes,
W86-00533 1902 7B

SUBMERSED AQUATIC PLANTS
Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Estuary, Maryland and Virginia,
W86-03012 1908 2L

SUBMERSED AQUATIC VEGETATION
Data on Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Transition Zone of the Potomac Estuary, 1983 and 1984,
W86-02944 1908 2L

SUBSIDENCE
Modeling of the Subsidence of Venice,
W86-03987 1910 6G

Modeling of Ground-water Hydrology in the Houston District, Texas,
W86-03989 1910 2F

Sinking Cities,
W86-05321 1911 4B

SUBSIDIES
Effect of Hydroperiod on Floodplain Forest Production,
W86-02462 1907 2I

SUBSTRATE SPECIFICITIES
Recent Developments in Hydrogen Management During Anaerobic Biological Wastewater Treatment,
W86-04746 1911 5D

SUBSTRATES
Probability-of-Use for Depth, Velocity, and Substrate by Subyearling Coho Salmon and Steelhead in Lake Ontario Tributary Streams,
W86-00590 1902 2H

Performance Evaluation of the Anaerobic Fluidised Bed System: I. Substrate Utilisation and Gas Production.
W86-05940 1912 5D

SUBSURFACE BACTERIA
Characterization of Subsurface Bacteria Associated with Two Shallow Aquifers in Oklahoma,
W86-04664 1910 5A

SUBSURFACE DRAINAGE
Runoff Reduction by Venting with Shallow Subsurface Drainage,
W86-00471 1902 2E

Hydrologic and Water Quality Impacts of Peat Mining in North Carolina,
W86-02696 1907 5B

SUBSURFACE DRAINS
Rehabilitation of a Calcium Carbonate Clogged Drainage System Using Sulfamic Acid,
W86-03268 1908 4B

SUBSURFACE INVESTIGATIONS
Hydrogeologic Data from a Test Well in East-Central Duval County, Florida,
W86-02938 1908 4B

Hydrogeologic Data from a Test Well at Kathryn Abbey Hanna Park, City of Jacksonville, Florida,
W86-03555 1909 2F

SUBSURFACE MAPPING
Method of Working and Employment of EDP During the Preparation of Groundwater Vulnerability Maps,
W86-05723 1912 7C

SUBSURFACE SOILS
Microbial Biomass, Activity, and Community Structure in Subsurface Soils,
W86-04281 1910 5C

SUBSURFACE WATER
Military Hydrology; Report 3: A Review of Army Doctrine on Military Hydrology,
W86-03456 1909 10F

Hydrogeological Aspects of Groundwater Nitrification,
W86-03651 1909 5B

Evaluation of the Intensity of Some Recent Exogenic Geological Processes in the U.S.S.R. by the Hydrogeochemical Balances Method,
W86-03777 1909 2K

Identification of Subsurface Brines Using Statistical Technique,
W86-04093 1910 5A

Indices Identifying Subsurface Microbial Communities that are Adapted to Organic Pollution,
W86-04099 1910 5B

Quantitative Characterization of Microbial Biomass and Community Structure in Subsurface Material: A Prokaryotic Consortium Responsive to Organic Contamination,
W86-05421 1912 5A

SUBSURFACE WATERS
Minimizing Problems Caused by Unequal Development of Biological Activity Within Column Microcosms Used to Predict the Fate of Pollutants in Subsurface Materials,
W86-04095 1910 5A

SUBTERRANEAN WASTEWATER FACILITIES
Advanced Subterranean Wastewater Treatment Plant,
W86-05603 1912 5D

SUBURBAN AREAS
Suspended Sediment Production in a Suburban Tropical Basin (Lubumbashi, Zaire),
W86-04392 1910 2J

SUCCESSION
Seasonal Succession of Phytoplankton in Lake Constance,
W86-00051 1901 2H

Postsettlement Diatom Succession in the Bay of Quinte, Lake Ontario,
W86-00609 1902 5C

Comparison of Planktonic and Periphytic Microalgal Parameters as Indicators of Eutrophication in a Baltic Archipelago: Annual Succession of Community Parameters,
W86-00931 1904 7B

Species Composition and Seasonal Succession of the Zooplankton Community of Eutrophic Lahontan Reservoir, Nevada,
W86-01168 1904 2H

Succession and Biomass Allocation as Controlled by Sphagnum in an Alaskan Peatland,
W86-06004 1912 2H

SUCHA WODA
Influence of Organic Pollution on the Macroinvertebrate Communities of Mountain Streams,
W86-00948 1904 5C

SUCKER
Part per Trillion Residues of 2,3,7,8-Tetrachlorodibenzo-p-dioxin in Michigan Fish,
W86-02245 1906 5B

Temperature Requirements of Pacific Coastal Stream Fishes,
W86-02568 1907 5C

SUCTION CUPS
Feasibility of Nylon and Polyvinylidenefluoride Membrane Filters and Materials for the Construction of Suction Cups (Eignung von Nylon- und Polyvinylidenfluoridmembranfiltern als materialien zum Bau von Saugkerzen),
W86-05821 1912 8G

SUCTION LYSIMETERS
Operational Ranges for Suction Lysimeters,
W86-01697 1905 2G

SUDAN
Environmental and Socio-Economic Impact of the Jonglei Canal Project, Southern Sudan,
W86-00557 1902 6G

Nile Inside the Sudan - Increasing Demands and Their Consequences,
W86-01377 1905 6D

Ethiopian Interests in the Division of the Nile River Waters,
W86-01379 1905 6D

Low Technology Water Purification by Bentonite Clay Flocculation as Performed in Sudanese Villages: Virological Examinations,
W86-04106 1910 5F

SUDBURY
Trace Metal Deposition and Mobility in the Sediments of Two Lakes Near Sudbury, Ontario,
W86-04349 1910 5B

SUFATES
Biological Neutralization of Acid Deposition in Ombrogenous and Mierotrophic Wetlands,
W86-02521 1907 5C

SULFATE
Appraisal of Data for Ground-Water Quality in Nebraska,
W86-02810 1907 2F

Data from a Solute Transport Experiment in the Leviathan Mine Drainage, Alpine County, California, October 1982,
W86-03055 1908 5B

Differences in Ionic Compositions and Behavior in Winter Rain and Snow,
W86-05466 1912 5B

SULFATE DEPOSITION
Recent Patterns of Sulfate Variability in Pristine Streams,
W86-05467 1912 5B

SULFATE REDUCTION
Short-Term Endproducts of Sulfate Reduction in a Salt Marsh: Formation of Acid Volatile Sulfides, Elemental Sulfur, and Pyrite,
W86-01614 1905 2L

SULFATES
Model of Sulphate Concentration in a Small Stream in the Harp Lake Catchment, Ontario,
W86-00629 1903 5B

Sulfate Determination in Industrial Wastewater by Liquid Chromatography with Postcolumn Solid-Phase Reaction Detection,
W86-00819 1903 5A

Treatment of Industrial Wastewaters Carrying Oily Emulsions, Surfactans and Sulphates,
W86-01014 1904 5D

Indications of the Capacity for Rapid Reversibility of Lake Acidification,
W86-01279 1904 5B

Atmospheric Sulfur Dioxide and Rainwater at a Coastal Locality in N.W. England,
W86-01352 1905 5B

Cation Exchange Pretreatment Studies for High Recovery: Yuma Desalting Plant,
W86-03335 1908 3A

Hydrochemical Budgets of Some Dutch Woodland Soils with High Inputs of Atmospheric Acid Deposition: Mobilization of Aluminum,
W86-03774 1909 5B

Post-Precipitation in Wastewater Treatment,
W86-03845 1909 5D

Origin and Distribution of Sulfate in a Fractured Till in Southern Alberta, Canada,
W86-04160 1910 2K

Trace Analysis of Thiosulfate in Corroded Concrete Sewers by Differential-Pulse-Anodic-Stripping Voltammetry,
W86-04284 1910 5D

Time Scales of Catchment Acidification,
W86-04423 1910 5B

Precursor Size and Organic Halide Formation Rates in Raw and Coagulated Surface Waters,
W86-04646 1910 5F

Model for the Distribution of Sulfate Reduction and Methanogenesis in Freshwater Sediments,
W86-04680 1910 2H

Acid Rain - A Further Look at the Evidence,
W86-04704 1911 5B

Rapid Determination in Water of Chloride, Sulphate, Sulphite, Selenite, Selenate and Arsenate Among Other Inorganic and Organic Solutes by Ion Chromatography With UV Detection Below 195 nm,
W86-05302 1911 5A

Comparison of Methods for Estimating Sulfate Export from a Forested Watershed,
W86-05389 1911 5B

Aqueous Oxidation of SO2 by OH Radicals,
W86-05495 1912 5B

Oxidation-Induced Leaching of Sulphate and Cations from Acid Sulphate Soils,
W86-05909 1912 2G

Biological Sulphate Removal in an Upflow Packed Bed Reactor,
W86-06151 1912 5D

SULFIDES
Determination of Sulfide in Water by Means of an Ion-selective Electrode (Bestimmung von Sulfid in Wasser mit Einer Ionenselektiven Elektrode),
W86-00412 1902 5A

Oxidation of Sulfide and Thiosulfate and Storage of Sulfur Granules in Thiothrix from Activated Sludge,
W86-00745 1903 5D

Kinetic Studies of the Microbiological Conversion of Sulphate to Hydrogen Sulphide and Their Relevance to Sulphide Generation Within Sewers,
W86-00746 1903 5D

Sulfide Control of Cadmium and Copper Concentrations in Anaerobic Estuarine Sediments,
W86-01800 1905 5B

Soluble-Sulfide Precipitation Treatment of Metal Finishing Wastewater,
W86-02105 1906 5D

Effect of Chelating Agents on the Removal of Heavy Metals by Sulfide Precipitation,
W86-02107 1906 5D

SULFITE LIQUORS
Biological Sulphate Removal in an Upflow Packed Bed Reactor,
W86-06151 1912 5D

SULFITES
Effect of Sulfite Dechlorination on the Accumulation of Waterborne Lead by Rainbow Trout (Salmo gairdneri),
W86-00615 1903 5A

Behavioral Modification of Estuarine Fish Exposed to Sulfur Dioxide,
W86-01679 1905 5C

Rapid Determination in Water of Chloride, Sulphate, Sulphite, Selenite, Selenate and Arsenate Among Other Inorganic and Organic Solutes by Ion Chromatography With UV Detection Below 195 nm,
W86-05302 1911 5A

SULFONATES
Identification of Hydroxymethanesulfonate in Fog Water,
W86-05873 1912 5A

SULFUR
Oxidation of Sulfide and Thiosulfate and Storage of Sulfur Granules in Thiothrix from Activated Sludge,
W86-00745 1903 5D

Biological Neutralization of Acid Deposition in Ombrogenous and Mierotrophic Wetlands,
W86-02521 1907 5C

Acid Precipitation: A Critique of Present Knowledge and Proposed Action,
W86-03273 1908 5B

Adipic Acid-Enhanced Lime/Limestone Test Result. at the EPA Alkali Scrubbing Test Facility,
W86-03901 1910 5D

Climatological Variability,
W86-04150 1910 5B

Sulfur Oxides Control Technology Series: Flue Gas Desulfurization; Lime/Limestone Processes,
W86-04819 1911 5D

Sulfur Oxides Control Technology Series: Flue Gas Desulfurization; Spray Dryer Processes,
W86-04831 1911 5D

Flue Gas Desulfurization Inspection and Performance Evaluation: Manual.
W86-04832 1911 5D

Operation and Maintenance Manual for Electrostatic Precipitators,
W86-04833 1911 5D

SULFUR BACTERIA
Kinetic Studies of the Microbiological Conversion of Sulphate to Hydrogen Sulphide and Their Relevance to Sulphide Generation Within Sewers,
W86-00746 1903 5D

Sulfate-Reducing Bacteria: Principal Methylators of Mercury in Anoxic Estuarine Sediment,
W86-04676 1910 5B

SULFUR COMPOUNDS
Relationship Between Acid Precipitation and Three-Dimensional Transport Associated with Synoptic-Scale Cyclones,
W86-04629 1910 5B

SULFUR CYCLE
Role of the Ocean in a Regional Sulfur Cycle,
W86-05536 1912 2K

SULFUR DIOXIDE
Effect of Flooding of Soil on Growth and Subsequent Responses of Taxodium distichum Seedlings to SO2,
W86-00861 1903 5C

Behavioral Modification of Estuarine Fish Exposed to Sulfur Dioxide,
W86-01679 1905 5C

Growth Response of Yellow-Poplar (Liriodendron tulipifera L.) Seedlings to Ozone, Sulfur Dioxide, and Simulated Acidic Precipitation, Alone and in Combination,
W86-01876 1905 5C

Lagrangian Multi-Level Model of Transport, Transformation and Deposition of Atmospheric Sulfur Dioxide and Sulfate,
W86-01883 1905 5B

Effects of Acid Deposition on Crops and Forests,
W86-05415 1911 5B

Aqueous Oxidation of SO2 by OH Radicals,
W86-05495 1912 5B

SULFUR DIOXIDE EMISSIONS
Acid Rain - A Further Look at the Evidence,
W86-04704 1911 5B

Recent Patterns of Sulfate Variability in Pristine Streams,
W86-05467 1912 5B

BEST COPY AVAILABLE

SULFURIC ACID
Optimization of the ICP Working Conditions for the Analysis of Waste Waters and Industrial Solutions,
W86-04548 1910 5A

Distribution of Acid Deposition in Germany,

Water Resources Data, Montana Water Year 1983, Volume 1: Hudson Bay and Missouri River Basins,
W86-03228 1908 7C

Water Resources Data, Montana Water Year 1983, Volume 2, Columbia River Basin,
W86-03229 1908 7C

Manitoba: Surface Water Data, 1984,
W86-03287 1908 2E

Evaluation of Water Resources for Enhanced Oil Recovery Operations, Cement Field, Caddo and Grady Counties, Oklahoma,
W86-03316 1908 2F

Military Hydrology; Report 3: A Review of Army Doctrine on Military Hydrology,
W86-03456 1909 10F

Determination of Polycyclic Aromatic Hydrocarbons in Industrial Discharges and Other Aqueous Effluents,
W86-03506 1909 5A

Water Resources Data, Colorado, Water Year 1981; Volume 3: Dolores River Basin, Green River Basin, and San Juan River Basin.
W86-03609 1909 2E

Water Resource Data and Trend Analysis for the Blue Creek Watershed Project, Pike County, Illinois: Phase II,
W86-03610 1909 5G

Effect of Naphthalene on Soil and Fresh-Water Algae,
W86-04100 1910 5C

Monitoring of Enteroviruses in the Water Supply of Barcelona from Surface Water of the River Llobregat (Controle d'enterovirus das l'approvisionnement a Barcelone par l'eau de surface du fleuve Llobregat),
W86-04153 1910 5G

Determination of Alkylethoxylated Sulfates in Wastewaters and Surface Waters,
W86-04430 1910 5A

Hydromorphic Soils Wetted by Groundwater in Northern Kazakhstan,
W86-04556 1910 2G

Comparison of Gauze Swabs and Membrane Filters for Isolation of Campylobacter spp. from Surface Water,
W86-04666 1910 5A

Sanitary Landfill Leachate Recycle,
W86-04971 1911 5E

Controlling Toxicity: An Integrated Strategy,
W86-05013 1911 5G

Organic Contamination: Whistling Past the Graveyard,
W86-05014 1911 5G

Prediction of Surface Saturation Zones in Natural Catchments by Topographic Analysis,
W86-05226 1911 2E

Occurence of Radioactivity in Public Water Supplies in the United States,
W86-05407 1911 5B

SURFACE WATER AVAILABILITY
Water Resources on the Pueblo of Laguna, West-Central New Mexico,
W86-00108 1901 2F

Surface-Water Quantity and Quality in the Lower Kenai Peninsula, Alaska,
W86-03076 1908 2E

SURFACE-WATER DISCHARGE
Time-of-Travel Data for Nebraska Streams, 1968 to 1977,
W86-00120 1901 2E

SURFACE WATER - GROUNDWATER RELATIONSHIPS
Hydrogeology and Effects of Tailings Basins on Hydrology of Sands Plain, Marquette County, Michigan,
W86-01927 1906 2F

Appraisal of the Water Resources of the Eastern Part of the Tulare Aquifer, Beadle, Hand, and Spink Counties, South Dakota,
W86-02836 1907 2F

Effects of Artificial Recharge on the Big Sioux Aquifer in Minnehaha County, South Dakota,
W86-02870 1907 4B

SURFACE WATER RECORDS
Cost-Effectiveness of the U.S. Geological Survey Stream-Gaging Program in Arkansas,
W86-01961 1906 7A

SURFACE WATERS
Occurrence of R-Plasmids in Escherichia coli and Coliform Germs from Water and Wastewater; Part 2: Methods of Isolation of R+-Bacteria from Surface and Wastewater, the Transfer of their R-Plasmids as well as the Determination of the Resistance Images (Uber das Vorkommen von R-Plasmiden in Escherichia coli und Koliformen Keimen aus Wasser und Abwasser; Teil 2: Methoden der Isolierung von

R+ - Bacterien aus Oberflachen - und Abwasser, des Transfers ihrer R-Plasmide sowie die Bestimmung der Resistenzbilder),
W86-00398 1902 5D

Surface Water Quality in Relation to Soil Type, Land Use and Discharge in a Rural Catchment Area,
W86-01249 1904 5B

Evaluation of the Surface-Water Data Network, Suwannee River Basin, Florida, 1982,
W86-01936 1906 7A

Sediment and Radionuclide Transport in Rivers: Field Sampling Program for Cattaraugus and Buttermilk Creeks, New York,
W86-01988 1906 5B

Surface Water Resources of South Africa; Volume IV: Drainage Regions E, G, H, J, K, L - The Western Cape,
W86-01997 1906 2E

Surface-Water Inflow to Puget Sound, Washington,
W86-02395 1906 7C

Organic Contaminant Transport in Groundwater, Surface Water, and Surface Water Sediments. Year 1 Progress Report,
W86-02579 1907 5B

Selective Isolation of Dissolved Organic Matter from Aquatic Systems,
W86-02700 1907 2K

Hydrology of Area 56, Northern Great Plains and Rocky Mountain Coal Provinces, Utah and Colorado,
W86-02913 1907 4C

Water Resources Data, Pennsylvania Water Year 1982, Volume 1. Delaware River Basin,
W86-03153 1908 7C

Water Resources Data, Pennsylvania Water Year 1983, Volume 2. Susquehanna and Potomac River Basins,
W86-03155 1908 7C

Water Resources Data, New York Water Year 1983, Volume 1: Eastern New York Excluding Long Island,
W86-03186 1908 7C

Comparison of Ultraviolet and Reductive Amperometric Detection for Determination of Ethyl and Methyl Parathion in Green Vegetables and Surface Water Using High-Performance Liquid Chromatography,
W86-04446 1910 5A

Singlet Oxygen in Surface Waters. 3. Photochemical Formation and Steady-State Concentrations in Various Types of Waters,
W86-04720 1911 2K

SURFACTANTS
Environmental Behavior of Fluorotensides; Part 1: Water Toxicity Testing (Zum Umweltverhalten von Fluortensiden; Teil 1: Prufung auf Aquatoxizitat),
W86-00546 1902 5C

Environmental Behavior of Fluorotensides. Part 2. Investigation on the Biochemical Degradability (Zum Umweltverhalten von Fluortensiden. Teil 2. Untersuchung der Biochemischen Abbaubarkiet),
W86-01007 1904 5B

Ozonation of Non-Ionic Surfactants in Aqueous Solutions,
W86-01242 1904 5F

Determination of Nonionic Surfactants in Water by Atomic Absorption Spectrometry,
W86-01848 1905 5A

Determination of Linear Alcohol Ethoxylates in Wastewater and Surface Water,
W86-03821 1909 5A

Performance Evaluation of a New Versatile Oil Spill Dispersant,
W86-04009 1910 5G

Determination of Alkylethoxylated Sulfates in Wastewaters and Surface Waters,
W86-04430 1910 5A

Effects of Natural and Synthetic Surface Active Substances on the Electrochemical Reduction of Cadmium in Natural Waters,
W86-05334 1911 5B

SURGE CHAMBERS
Underground Works at Kenya's Kiambere Project,
W86-05006 1911 8A

SURGE FLOW
Surge Flow Border Irrigation Using an Automatic Drop Gate,
W86-00481 1902 3F

SURGE IRRIGATION
Infiltration Under Surge Irrigation,
W86-00478 1902 3F

SURGE PLUNGERS
New Valved and Air-Vented Surge Plunger for Developing Small-Diameter Monitor Wells,
W86-04212 1910 5B

SURGE TANK
Jones Fork Small Hydro Scheme,
W86-04727 1911 8C

SURGES
Simple Governing and Surging Simulation, Part One,
W86-00801 1903 8B

Laboratory Tests of a Hydraulic Pressure Surge Reliever,
W86-03340 1908 8C

SURVEY
Reconnaissance Study of Stream Sedimentaion, Southern Guam,
W86-03112 1908 2J

SURVEYING INSTRUMENTS
Inertial Instrument System for Aerial Surveying,
W86-02790 1907 7B

SURVEYS
Water Utility Operating Data: An Analysis,
W86-00004 1901 6D

AWWA Survey of Inorganic Contaminants in Water Supplies.
W86-00009 1901 5F

Engineering Condition Survey of Concrete in Service,
W86-00161 1901 8F

Obtaining Public Support for Reuse Water,
W86-01744 1905 3B

Public Water Supplies in Puerto Rico, 1983,
W86-02719 1907 5F

Quebec: Surface Water Data, 1984,
W86-03235 1908 2E

Virden Creek Pumping Station and Gravity-Flow Outlet Structure, Waterloo, Iowa: Hydraulic Model Investigation,
W86-03299 1908 8B

Management of Water Quality Data within the Corps of Engineers, 1979,
W86-03313 1908 7A

Role of Natural Resource Inventories in the Passaic River Basin, New Jersey,
W86-03321 1908 6B

Theodore Roosevelt Lake: 1981 Sedimentation Survey,
W86-03331 1908 2J

Corpus Christi Inner Harbor Water Quality Survey, August 1982,
W86-03440 1909 5B

Distribution and Relative Abundance of Fishes in Wisconsin; V: Grant and Platte, Coon and Bad Axe, and LaCrosse River Basins,
W86-03501 1909 6G

Joint Hydrogeological Surveys,
W86-03579 1909 6E

Current Status in Use of Flexible Effluent Standards,
W86-04329 1910 5G

Survey of Legionella pneumophila in Water in 12 Canadian Cities,
W86-04581 1910 5A

Quantitative Technique for Estimating the Boundaries of Wetlands from Vegetation Data,
W86-05411 1911 2I

SURVIVAL
Microbial Survival in Cured Municipal Compost,
W86-02685 1907 5C

Effect of Fluorides on Survival and Reproduction of Daphnia Magna,
W86-05024 1911 5C

Survival of Salmo gairdneri (Rainbow Trout) in the Zinc Polluted Molonglo, River Near Captains Flat, New South Wales, Australia,
W86-05994 1912 5C

SUSPENDE SEDIMENTS
Accuracy of Estimating Basin Denudation Processes from Suspended Sediment Measurements,
W86-04864 1911 2J

SUSPENDED LOAD
Evaluation of a Hydrograph Shifting Method for Estimating Suspended-Sediment Loads in Illinois Streams,
W86-00115 1901 2J

Sediment Concentrations and Loads in the Loxahatchee River Estuary, Florida, 1980-82,
W86-02797 1907 2J

Dissolved and Suspended Matter Transported by the Girou River (France): Mechanical and Chemical Erosion Rates in a Calcareous Molasse Basin,
W86-04387 1910 2J

Suspended Sediment Production in a Suburban Tropical Basin (Lubumbashi, Zaire),
W86-04392 1910 2J

Investigation of Material Transport and Load in Tidal Rivers,
W86-05362 1911 5B

Correlation of Chlorophyll Concentrations and Suspended Solids with Near-Surface Upward Irradiance within Landsat Bands 4, 5 and 6,
W86-05813 1912 5A

Paths of the Suspended Particulate Inorganic and Organic Matter in a Small Urban Estuary. The Aarhus Harbour Estuary,
W86-06165 1912 5B

SUSPENDED PARTICLES

Variations in the Natural Abundance of 15N in Estuarine Suspended Particulate Matter: A Specific Indicator of Biological Processing,
W86-01121 1904 2L

SUSPENDED PARTICULATES

Bacterial Adsorption and Suspended Particles in Urban Stormwater,
W86-00842 1903 5B

SUSPENDED SEDIMENT

Preliminary Appraisal of Sediment Sources and Transport in Kings Bay and Vicinity, Georgia and Florida,
W86-00125 1901 2J

Suspended Particulate Matter in Elliott Bay,
W86-00151 1901 2J

Characteristics of Suspended Sediment Transport in the Lower Hudson River,
W86-01559 1905 2J

Reconnaissance Study of Stream Sedimentaion, Southern Guam,
W86-03112 1908 2J

Sediment Yields of African Rivers,
W86-03584 1909 2J

Development of Nuclear Sediment Concentration Gauges for Use on the Yellow River,
W86-04850 1911 2J

In situ Measurements of Particulate Matter Transport in Rivers,
W86-04857 1911 2J

Reliability of Suspended Sediment Load Data,
W86-04861 1911 7C

Accuracy and Precision of Suspended Sediment Loads,
W86-04862 1911 7C

Measurement of Debris Flow and Sediment-Laden Flow Using a Conveyor-Belt Flume in a Laboratory,
W86-04866 1911 7B

Particle Size Characteristics of Fluvial Suspended Sediment,
W86-04934 1911 5B

Temporal Variation of Suspended Sediment Properties,
W86-04935 1911 5B

SUSPENDED-SEDIMENT CONCENTRATION

Progress Report: Performance of the Vibrating U-Tube Fluid Density Gage for Measuring Suspended-Sediment Concentration,
W86-02348 1906 7B

SUSPENDED SEDIMENT YIELD

Suspended Sediment Production in a Suburban Tropical Basin (Lubumbashi, Zaire),
W86-04392 1910 2J

SUSPENDED SEDIMENTS

Transport of Suspended Material in Open and Submerged Streams,

Seasonal Succession of Phytoplankton in Lake Constance,
W86-00051 1901 2H

Oligochaete Communities of the Sublittoral as Indicators of Lake Geneva Eutrophication,
W86-00624 1903 5A

Influence of the Sewage Treatment Plant Effluents on the Structure of the Benthic Communities of Lake of Geneva,
W86-00949 1904 5C

Some Comments on the Swiss Glacier Inventory,
W86-03690 1909 2C

SYMPOSIUM
Proceedings of the 6th Symposium on Wastewater Treatment,
W86-03659 1909 5D

SYMPOSIUMS
Workshop on Riverine Water Quality Modeling,
W86-03293 1908 7B

SYNERGETIC GEOMETRY
New Flow Models Can Help Solve Pump-Cavitation Problems,
W86-01680 1905 8B

SYNERGISTIC EFFECTS
Quantitative Structure Activity Relationships and Mixture Toxicity Studies of Alcohols and Chlorohydrocarbons: Effects on Growth of Daphnia magna,
W86-01160 1904 5C

SYNOPTIC ANALYSIS
Data on Surface-Water Quality and Quantity, Truckee River System, Nevada and California, 1979-81,
W86-01924 1906 5B

SYNOPTIC-SCALE CYCLONES
Relationship Between Acid Precipitation and Three-Dimensional Transport Associated with Synoptic-Scale Cyclones,
W86-04629 1910 5B

SYNTHETIC DATA
Estimation of Aquifer Parameters Under Transient and Steady State Conditions: 3. Application to Synthetic and Field Data,
W86-04176 1910 2F

SYNTHETIC HYDROLOGY
Preparing a Design Storm,
W86-03833 1909 2A

SYNURA
Taxonomy of Synura (Chrysophyceae) in Ontario with Special Reference to Taste and Odor in Water Supplies,
W86-05936 1912 5A

SYSTEMS ANALYSIS
Biomonitoring of the Contamination of Water by a Sublethal Concentration of Pesticides - A System Analysis Approach,
W86-00542 1902 5A

Use of a Generalized Computer Program for Resources Systems Optimization in Developing Countries,
W86-05778 1912 6A

State of the Art Review: Theories and Applications of Systems Analysis Techniques to the Optimal Management and Operation of a Reservoir System,
W86-05790 1912 6A

TACOMA
Removing VOC from Groundwater; Pilot, Scale-up, and Operating Experience,
W86-00816 1903 5F

TADJIK SSR
World's Highest Dam Conquers Harsh Environment,
W86-05002 1911 8D

TADPOLES
Lead Concentrations in Bullfrog Rana Catesbeiana and Green Frog R. Clamitans Tadpoles Inhabiting Highway Drainages,
W86-05512 1912 5B

TAILINGS DAMS
Risk Analysis for Seismic Design of Tailings Dams,
W86-01090 1904 8D

TAILINGS PONDS
Effects of U.S. Antimony's Disposal Ponds on Alluvial Aquifer and Prospect Creek, Western Montana,
W86-02618 1907 5B

TAILWATER
Concordant Variation in Thermal Tolerance and Allozymes of the Red Shiner, Notropis lutrensis,

Inhabitating Tailwater Sections of the Brazos River, Texas,
W86-00452 1902 5C

Water Quality, Macroinvertebrates, and Fisheries in Tailwaters and Related Streams: An Annotated Bibliography,
W86-02035 1906 10C

TAILWATERS
Invertebrate Colonization Rates in the Tailwater of a Kentucky Flood-Control Reservoir,
W86-00618 1903 6G

TALIHA MINI HYDRO
Implementing the Taliha Mini Hydro Scheme in Zaire,
W86-04726 1911 8A

TALUS
Rock Glaciers: Glacial and Non-Glacial Origins,
W86-03698 1909 2C

TAMAR ESTUARY
Dissolved Aluminum in the Tamar Estuary, Southwest England,
W86-04681 1910 2L

TAMPA BAY
Appearance and Water Quality of Turbidity Plumes Produced by Dredging in Tampa Bay, Florida,
W86-01929 1906 6G

TANAJIB
Seawater Desalination by Reverse Osmosis Plant Design, Performance Data, Operation and Maintenance (Tanajib, Arabian Gulf Coast),
W86-01675 1905 3A

TANK DIGESTER
Anaerobic Treatment of Palm Oil Mill Effluent by Tank Digesters,
W86-05941 1912 5D

TANNERY WASTES
Treatment of Waste Water from the Leather Industry,
W86-01016 1904 5D

TANTARE LAKE
Zinc Deposition in Acid Lakes: The Role of Diffusion,
W86-00689 1903 5B

TANZANIA
Drainage Coefficients for Heavy Land,
W86-01431 1905 2G

Mercury Pollution of Effluent, Air, and Soil near a Battery Factory in Tanzania,
W86-05914 1912 5B

TASTE
Phytoplankton Effects of Reservoir Use,
W86-03722 1909 5G

Flavor Profile Analysis: Taste and Odor Control of the Future,
W86-04370 1910 5F

Early Warning System for Taste and Odor Control,
W86-04374 1910 5F

Chlorine Dioxide for Taste and Odor Control,
W86-04375 1910 5F

Controlling Taste and Odor with Chlorine Dioxide,
W86-04733 1911 5F

River Dee Scheme and Intake Protection Systems,
W86-04752 1911 5F

Taxonomy of Synura (Chrysophyceae) in Ontario with Special Reference to Taste and Odor in Water Supplies,
W86-05936 1912 5A

TASTE PANELS
Flavor Profile Analysis: Taste and Odor Control of the Future,
W86-04370 1910 5F

TAXONOMY
Identifying Pollution Related Changes in Chironomid Communities as a Function of Taxonomic Rank,
W86-01583 1905 5C

Common Plankton of Twin Lakes, Colorado,
W86-03337 1908 6G

Abundance, Heterotrophic Activity and Taxonomy of Bacteria in a Stream Subject to Pollution by Chlorophenols, Nitrophenols and Phenoxyalkanoic Acids,
W86-04113 1910 5C

TECHNOGENETIC POLLUTION
Impact of Technogenetic Factors and Water Withdrawal on Hydrochemical Conditions of Water-Bearing Systems,
W86-05721 1912 5B

TECHNOLOGY TRANSFER
History of the State Water Resources Research Institute Program,
W86-02347 1906 9D

Research in Action: Solving Colorado Water Problems, FY 1983 Annual Report,
W86-02481 1907 9D

1983 Water Research Institute Program Final Report, (Maine),
W86-02500 1907 9D

Fiscal Year 1983 Institute Program Report, (Virginia Water Resources Research Center),
W86-02522 1907 9D

Diagnosing the Causes of Ground-Water Contamination Using a Mathematical Model,
W86-02531 1907 5B

Louisiana Water Resources Research Institute, FY 1983 Program Report.
W86-02546 1907 9D

FY 1983 Final Report--State Water Resources Research Institute Program, University of Guam.
W86-02615 1907 9D

Assessment of the Effectiveness of Technology Transfer Methods Leading to the Adoption of a New Irrigation Design,
W86-02621 1907 3F

Fiscal Year 1983 Final Program Report Pennsylvania Water Research Institute Program.
W86-02652 1907 9D

Director's Technology/Information Transfer Program 1983-1984,
W86-02669 1907 9D

FY 1983 Final Program Report, Alabama Water Resources Research Institute of Auburn University,
W86-02704 1907 9D

Fiscal Year 1984 Program Report (Colorado Water Resources Research Institute).
W86-02753 1907 9D

Workshop on Riverine Water Quality Modeling,
W86-03293 1908 7B

TELEMETRY
Replacement of the Telemetry System of the Sunderland and South Shields Water Company,
W86-01521 1905 7B

Radio-Telemetry as an Aid to Environmental Contaminant Evaluation of Mobile Wildlife Species,
W86-01886 1905 7B

Flow Measurement in Open and Closed Conduits of Gravitational Urban Storm Sewer Networks,
W86-04787 1911 7B

Towards a Satellite-Based Hydrometric Data Collection System,
W86-04810 1911 7B

Developments in Hydrometry in Central America and Brazil,
W86-04813 1911 7B

District Metering,
W86-05316 1911 7B

TELEOSTS
In Vivo Metabolism of Fenitrothion (0,0-dimethyl-0-(4-nitro-m-tolyl) phosphorothioate) in Fresh Water Teleost (Tilapia Mossambica),
W86-05268 1911 5B

TELEPHONE CREEK
Distribution of Denitrifying and Sulfate Reducing Bacteria within a Riparian Zone Along a Mountain Stream,
W86-02603 1907 6G

TELLINA
Effect of Temperature on the Growth of Planktonic Larvae of Tellina tenuis da Costa,
W86-01603 1905 5C

TELTOW CANAL
Oxygen Balances in the Teltow-Canal - With Special Regard to Heat Discharge from Lichterfelde Power Plant (Berlin, West) (Sauerstoffbilanzen im Teltowkanal - insbesondere unter dem Einfluss der Abwarmeeinleitung aus dem Kraftwerk Lichterfelde (Berlin, West)),
W86-01141 1904 5B

TEMEPHOS
Temephos Residues in Stagnant Ponds After Mosquito Larvicide Applications by Helicopter,
W86-01897 1905 5B

TEMPERATURE
Foundations of Principal Component Selection Rules,
W86-00186 1901 7C

Summary of Climatic Conditions in Natal.
W86-00321 1902 2A

Evaluation of Mathematical Models for the Effects of pH and Temperature on Ammonia Toxicity to Aquatic Organisms,
W86-01648 1905 5C

Temperature Requirements of Pacific Coastal Stream Fishes,
W86-02568 1907 5C

Data from Pumping and Injection Tests and Chemical Sampling in the Geothermal Aquifer at Klamath Falls, Oregon,
W86-03169 1908 2F

Canopy Temperature and Crop Water Stress,
W86-03401 1908 3F

Relationship of Common Dominant Phytoplankton to Water Temperature and Season,
W86-03724 1909 2H

Biological Treatment of a Landfill Leachate in Sequencing Batch Reactors,
W86-04385 1910 5D

Specific Conductance as an Indicator of Total Dissolved Solids in Cold, Dilute Waters,
W86-04394 1910 2K

Diurnal Variations of Soil-Moisture Tension,
W86-04553 1910 2G

Interactions of Temperature, pH, and Biomass on the Nitrification Process,
W86-05020 1911 5D

Evapotranspiration Over an Agricultural Region Using a Surface Flux/Temperature Model Based on NOAA-AVHRR Data,
W86-05549 1912 2D

TEMPERATURE EFFECTS

Effect of Temperature on Oxygen Transfer Rate in Wastewater Treatment,
W86-00658 1903 5D

Evaluation of Temperature Effects on Trickling Filter Plant Performance,
W86-00737 1903 5D

Study of the Mechanics of Groundwater Aquifer/Aquitard Expansion Caused by Heating,
W86-02553 1907 2F

Temperature Requirements of Pacific Coastal Stream Fishes,
W86-02568 1907 5C

Ecological Studies of Wood-Boring Bivalves in the Vicinity of the Oyster Creek Nuclear Generating Station,
W86-03230 1908 5C

Studies on the Population Dynamics of Gammarus tigrinus SEXTON (Crustacea: Amphipoda) in the River Weser near Bremen(Untersuchungen zur Populationsdynamik von Gammarus tigrinus SEXTON (Crustacea: Amphipoda) in der Weser bei Bremen),
W86-04186 1910 5C

Effect of Temperature on Composting of Sewage Sludge,
W86-04259 1910 5E

Effects of Temperature Shock Treatments on the Stability of Anaerobic Digesters Operated on Separated Cattle Slurry,
W86-04575 1910 5D

Temperature Effects on Onsite Wastewater Treatment and Disposal System,
W86-04606 1910 5D

Effects of Temperature on the Acute Toxicity of PCP in the Midge Chironomus Riparius Meigen,
W86-04964 1911 5C

Analysis of the Inshore Macrozoobenthic Community in Lake Naini Tal, UP, India,
W86-05172 1911 2H

TEMPORAL-CONCENTRATION GRAPH

Relations of Suspended Sediment to Streamflow in the Green River, Wyoming,

W86-05683 1912 5B

Circulation Induced by Coastal Diffuser Discharge,
W86-06114 1912 5B

THERMAL POWERPLANTS
Effects of Coal-Fired Thermal Power Plant Discharges on Agricultural Soil and Crop Plants,
W86-05573 1912 5C

THERMAL PRETREATMENT
Highly Efficient Anaerobic Digestion with Thermal Pretreatment,
W86-01180 1904 5D

THERMAL PROSPECTING
Utilization of Thermal Emittance Data to Monitor Soil Moisture and Subsurface Groundwater,
W86-02429 1907 2F

THERMAL REACTIVATION
Thermal Reactivation of Activated Carbon with a Two-Stage Fluid Bed Reactor,
W86-05144 1911 5D

THERMAL SPRINGS
Quantitative Analysis of the Hydrothermal System in Lassen Volcanic National Park and Lassen KGRA,
W86-02994 1908 2F

Hydrogen and Oxygen Isotope Geochemistry of Cold and Warm Springs from the Tuscarora, Nevada Thermal Area,
W86-03308 1908 2K

Unusual Microorganisms Observed in New Zealand Hot Springs,
W86-05200 1911 5A

THERMAL STORAGE
Study of the Mechanics of Groundwater Aquifer/Aquitard Expansion Caused by Heating,
W86-02553 1907 2F

THERMAL STRATIFICATION
Diurnal Thermal Stratification and Floc Rising in Clariflocculators of the Tropical Water Works,
W86-00541 1902 5F

Variability in Thermal Stratification in a Reservoir,
W86-06016 1912 2H

THERMAL TOLERANCE
Concordant Variation in Thermal Tolerance and Allozymes of the Red Shiner, Notropis lutrensis, Inhabitating Tailwater Sections of the Brazos River, Texas,
W86-00452 1902 5C

THERMOCLINE
Monitoring Sebago Lake Water Quality Below the Thermocline,
W86-05027 1911 5F

Limnological Observations on Rihand Reservoir (Uttar Pradesh) with Reference to the Physical and Chemical Parameters of its Water,
W86-05165 1911 2H

THERMODYNAMIC EFFICIENCY
Entropy Analysis of Water and Wastewater Treatment Processes,
W86-05582 1912 5D

THERMODYNAMICS
Partial Compilation and Revision of Basic Data in the WATEQ Programs,
W86-02816 1907 2K

Interaction Water-Silicate Minerals in the Unsaturated Zone Controlled by Thermodynamic Disequilibria,
W86-03756 1909 2K

Simulation of Physicochemical Interactions in a Water-Rock System in Assessing Ground-Water Quality,
W86-03759 1909 2K

Some Implication of the Role of Kinetics in Enhancing Element Transport,
W86-03760 1909 2K

Reliability of Information in Hydrogeochemical Investigations,
W86-03769 1909 7A

Hailstone Size Distributions and Their Relationship to Storm Thermodynamics,
W86-04627 1910 2B

THERMOEROSION
Thermoerosion of Frozen Sediment Under Wave Action,
W86-05504 1912 2J

THERMOGRAPHY
Utilization of Thermal Emittance Data to Monitor Soil Moisture and Subsurface Groundwater,
W86-02429 1907 2F

THERMOPHILIC ANAEROBIC DIGESTION
Thermophilic Anaerobic Digestion of Sugars in Upflow Anaerobic Sludge Blanket Reactors,
W86-05830 1912 5D

THERMOPHILIC BACTERIA
Effect of Temperature on Composting of Sewage Sludge,
W86-04259 1910 5E

Thermophilic Anaerobic Digestion of High Strength Wastewaters,
W86-06103 1912 5D

THERMOPHILIC DIGESTION
Thermophilic Anaerobic Contact Digestion of Palm Oil Mill Effluent,
W86-00744 1903 5D

THESAURI
Aquaculture Thesaurus: Descriptors Used in the National Aquaculture Information System,
W86-03643 1909 10C

THIN LAYER CHROMATOGRAPHY
Characterization of Industrial Aqueous Discharges by the TLC/Ames' Assay,
W86-00389 1902 5A

Thin-layer Chromatographic Determination of Triazin Herbicides in Water (Dunnschichtchromatographische Bestimmung von Triazin-Herbiziden in Wasser),
W86-00396 1902 5A

Thin-layer Chromatographic Determination of Mineral Oil in Well Water (Dunnschichtchromatographischer Nachweis von Mineralol in Brunnenwasser),
W86-00415 1902 5A

Screening Complex Hazardous Wastes for Mutagenic Activity using a Modified Version of the TLC/Salmonella Assay,
W86-04709 1911 5A

THIOBACILLUS
Trace Analysis of Thiosulfate in Corroded Concrete Sewers by Differential-Pulse-Anodic-Stripping Voltammetry,
W86-04284 1910 5D

THIOBENCARB
Comparative Acute Sensitivities of Early Life Stages of Atherinid Fishes to Chlorpyrifos and Thiobencarb,
W86-01408 1905 5C

THIOCARBAMATE PESTICIDES
Rice Herbicides: Molinate (Ordram) and Thiobencarb (Bolero),
W86-03447 1909 5G

THIOSULFATES
Oxidation of Sulfide and Thiosulfate and Storage of Sulfur Granules in Thiothrix from Activated Sludge,
W86-00745 1903 5D

THIOTHRIX
Oxidation of Sulfide and Thiosulfate and Storage of Sulfur Granules in Thiothrix from Activated Sludge,
W86-00745 1903 5D

THIRAM
Example of Interaction Between Environmental Pollutants: Modification of Thiram Toxicity to Freshwater Organisms by Nitrites or Nitrates in Relation to Nitrosamine Synthesis,
W86-00877 1903 5C

THIRD-KIND BOUNDARY CONDITIONS
Analytical Solutions for Periodic Well Recharge in Rectangular Aquifers with Third-Kind Boundary Conditions,
W86-00041 1901 2F

THISTED BREDNING
Modelling of Oxygen Depletion in Coastal Waters,
W86-01235 1904 5C

THOMAS RIVER SYSTEM
Phosphorus Limitation of Lotic Periphyton Growth Rates. An Intersite Comparison Using Continuous-Flow Troughs (Thomas River System, British Columbia),
W86-01416 1905 2H

THORIUM
Radiological Impact of Mining in a Th-Rich Norwegian Area,
W86-00823 1903 5B

THORNTHWAITE WATER BALANCE METHOD
Evaluation of Thornthwaite's Water Balance Technique in Predicting Stream Runoff in Costa Rica,
W86-04393 1910 2E

THOROSEAL
Salvaging a Water Reservoir,
W86-04739 1911 8A

THREE DIMENSIONAL SIMULATION
Time Dependent Three Dimensional Simulation of Flows in Shallow Domains with Vegetative Obstruction,
W86-06065 1912 4A

THROUGHFALL
Interception Storage Capacities of Tropical Rainforest Canopy Trees,
W86-00037 1901 2I

Budget of Nitrogen Dissolved in Rainfall During its Passing Through the Crown Canopy in Forest Ecosystems,
W86-00437 1902 2B

THUNDER BAY
Pattern Recognition Techniques to Determine Benthic Invertebrate Trophic and Community Responses to Industrial Input,
W86-00934 1904 5C

THUNDERSTORMS
Outline of Severe Local Storms with the Morphology of Associated Radar Echoes,
W86-00146 1901 2B

Thuderstorms: A Social, Scientific, and Technological Documentary. Volume 3: Instruments and Techniques for Thunderstorm Observation and Analysis.
W86-02003 1906 2B

Station Networks for Storm Observation,
W86-02004 1906 7B

Observations from Instrumented Aircraft,
W86-02005 1906 7B

Photogrammetry of Thunderstorms,
W86-02006 1906 7B

Use of Satellite Observations,
W86-02010 1906 7B

Characteristics of Thunderstorms in Zaria, Nigeria,
W86-04509 1910 2B

Diurnal Variation of Thunderstorm Activity in the United States,
W86-04626 1910 2B

Relationships for Deriving Thunderstorm Anvil Ice Mass for CCOPE Storm Water Budget Estimates,
W86-05464 1912 2B

Tracking a Stormy Beast in the Night,
W86-05905 1912 2B

Some Effects of Surface Heating and Topography on the Regional Severe Storm Environment. Part II: Two-Dimensional Idealized Experiments,
W86-06131 1912 2B

THYROID ACTIVITY
Impairment of Thyroid Activity in Sarotherodon Mossambicus Due to DDT Treatment,
W86-05267 1911 5B

TIDAL BASINS
Investigation of a Eutrophic Tidal Basin: Part 2 - Nutrients and Environmental Aspects,
W86-01789 1905 5C

Optimal Control of Sea Level in a Tidal Basin by Means of the Pontryagin Maximum Principle,
W86-05829 1912 8B

TIDAL CURRENTS
Effects of Spatial Variation in Amplitude and Phase of the Oscillatory Tidal Currents on the Residual Lagrangian Drifts,
W86-00085 1901 2L

Circulation in the Lower Cook Inlet, Alaska,
W86-00149 1901 2L

TIDICS - Control of Tidal Residual Circulation and Tidal Exchange in a Channel-Basin System,
W86-00448 1902 2L

Hydraulic Experiment on Tidal Exchange,
W86-00449 1902 2L

Observations of Internal Tides in Uchiura Bay,
W86-00450 1902 2L

Numerical Model for Tidal Current in the Changjiang River Estuary,
W86-00601 1902 2L

Hydraulic and Sediment Characteristics at the North Channel Bridge, Jamaica Bay, New York,
W86-02412 1906 2J

Theoretical and Observed Profiles of Tidal Currents at Two Sites on the Southeastern Bering Sea Shelf,
W86-03237 1908 2L

Vertical Two-Dimensional Mechanism of Tidal Exchange in a Bay with a Sill-Entrance; Part 1, Observations and Preliminary Discussion,
W86-05816 1912 2L

TIDAL EFFECTS
Norfolk Harbor and Channels Deepening Study, Report 1: Physical Model Results, Chesapeake Bay Hydraulic Model Investigation,
W86-00266 1901 2L

Functional Design of Control Structures for Oregon Inlet, North Carolina: Hydraulic Model Investigation,
W86-00269 1901 8B

Fluctuation in Nutrients during Tidal Cycles at Oyster Beds in the River Penze (North Finistere) (Fluctuations des Nutriments au cours de la Maree sur les parcs Ostreicoles de la Riviere Penze (Nord-Finistere)),
W86-00447 1902 2L

Tidal Variation of Salt Flux and Dispersion in a Polluted Estuary,
W86-01238 1904 2L

Water Surface Elevations for the High Tide of December 15, 1977, in the Puget Sound Region, Washington,
W86-02953 1908 2L

TIDAL EXCHANGE
TIDICS - Control of Tidal Residual Circulation and Tidal Exchange in a Channel-Basin System,
W86-00448 1902 2L

Hydraulic Experiment on Tidal Exchange,
W86-00449 1902 2L

TIDAL FLOODS
Long Island Sound Thamesville Tidal-Flood Management Water Resources Study, Norwich, Connecticut.
W86-00372 1902 4D

TIDAL HYDRAULICS
Atchafalaya River Delta; Report 8: Numerical Modeling of Hurricane-Induced Storm Surge,
W86-00164 1901 2A

Theoretical and Observed Profiles of Tidal Currents at Two Sites on the Southeastern Bering Sea Shelf,
W86-03237 1908 2L

Verification of the Chesapeake Bay Model: Chesapeake Bay Hydraulic Model Investigation,
W86-03459 1909 2L

Dynamics of a Tidal Estuary: Estimation of the Principal Factors. (Estimation des Parametres Fondamentaux de la Dynamique d'un Estuaire a Marees),
W86-05170 1911 2L

Analysis of a 24-Hour Cycle of Zooplankton Sampling in a Lagoon of the Po River Delta,
W86-05179 1911 2L

TIDAL MARSHES
Influence of Salinity on Scirpus americanus Tidal Marshes in the St. Lawrence River Estuary, Quebec,
W86-00902 1903 2L

Channel and Flow Relationships in Tidal Salt Marsh Wetlands,
W86-02566 1907 2L

Morphometric Variations of Five Tidal Marsh Halophytes Along Environmental Gradients,
W86-06097 1912 2H

TIDAL POTOMAC RIVER
Data on Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Transition Zone of the Potomac Estuary, 1983 and 1984,
W86-02944 1908 2L

TIDAL POWERPLANTS
Tidal Power Engineering in the USSR,
W86-05005 1911 8A

TIDAL RIVERS
Water-Quality Study of the Tidal Potomac River and Estuary - An Overview,
W86-02975 1908 5B

Inland Travel of Tide-Driven Saline Water in the Altamaha and Satilla Rivers, Georgia, and the St. Marys River, Georgia-Florida,
W86-03561 1909 2L

Standardization of Water Quality Information in a Tidal River,
W86-05356 1911 5B

Investigation of Material Transport and Load in Tidal Rivers,
W86-05362 1911 5B

TIDAL WATERS
In Situ Measurement of Oxygen Consumption Rate in the Bottom Layer in Mikawa Bay,
W86-00451 1902 2L

Tidal Exchange Between a Coastal Lagoon and Offshore Waters,
W86-01338 1905 2L

Evaluation of Selected Sediment Parameters as a Rapid Means of Assessing the Impact of Organic Waste Discharges to Tidal Waters,
W86-05528 1912 5B

TIDES
Mineral Salts and Tidal Cycles in an Estuary in North Brittany (Dourduff, France) (Sels Mineraux et Cycles de Marees dans un Estuaire de Bretagne Nord (Dourduff, France)),
W86-00530 1902 2L

Predicted Extreme High Tides for California: 1983-2000,
W86-01100 1904 2L

Two-Dimensional Calculation of Tide by Explicit Weighted Residual Method - I Shibushi Bay,
W86-01144 1904 2L

Currents in Suisun Bay,
W86-03448 1909 2L

Simple Model of Estuarine Subtidal Fluctuations Forced by Local and Remote Wind Stress,
W86-04244 1910 2L

Variability of Subtidal Current Structure in a Fjord Estuary: Puget Sound, Washington,
W86-04245 1910 2L

Optimal Control of Sea Level in a Tidal Basin by Means of the Pontryagin Maximum Principle,
W86-05829 1912 8B

TIJUANA
Seeking Treatment; Sewage Solutions in San Diego,
W86-01540 1905 5D

TILAPIA
Methyl Parathion (O-O-Dimethyl O-4-Nitrophenyl Thiophosphate) Effects on Whole-Body and Tissue Respiration in the Teleost, Tilapia mossambica (Peters),
W86-00878 1903 5C

Potential for Introduction of Three Species of Nonnative Fishes into Central Arizona via the Central Arizona Project - A Literature Review and Analysis,
W86-02322 1906 6G

Effects of Salinity on Preferred and Lethal Temperatures of the Mozambique Tilapia, Oreochromis Mossambicus (Peters),
W86-06014 1912 5C

TILE DRAINAGE
Evaluation of Drainage Tile to Alleviate Salt Building in Heavy Soils Irrigated with Brackish Water and Cropped with Rice and Soybeans,
W86-02450 1907 3C

TILLS
Some Hydraulic Properties of Sandy-Silty Norwegian Tills,
W86-01111 1904 2G

TIME-OF-TRAVEL
Data Collection for a Time-of-Travel and Dispersion Study on the Coosa River Near Childersburg, Alabama,
W86-03052 1908 2F

Time of Travel and Dispersion of Solutes in a 36.4-Mile Reach of the North Platte River Downstream from Casper, Wyoming,
W86-03559 1909 2E

TIME-OF-TRAVEL MEASUREMENTS
Time-of-Travel Data for Nebraska Streams, 1968 to 1977,
W86-00120 1901 2E

TIME-RESOLVED FLUORESCENCE
Rapid Detection and Identification of Bacteria in Sewage and Natural Waters by Means of Time-Resolved Laser Spectroscopies,
W86-02489 1907 5A

TIME SERIES ANALYSIS
Effects of Incorrectly Removed Periodicity in Parameters on Stochastic Dependence,
W86-00075 1901 2A

Estimation of Missing Values in Monthly Rainfall Series,
W86-00094 1901 2B

Time Series Analysis of Daily Solar Radiation and Air Temperature Measurements for Use in Computing Potential Evapotranspiration,
W86-00469 1902 2D

Investigation of Relationships Among Pollutant Loadings and Fish Stock Levels in Northeastern Estuaries,
W86-01332 1905 5C

Probability Distribution Members of a Ranked Sample,
W86-01817 1905 6A

Interpolating Water-Table Altitudes in West-Central Kansas Using Kriging Techniques,
W86-02880 1907 2F

Harmonic Analyses of Stream Temperatures in the Upper Colorado River Basin,
W86-02917 1907 7

Cost-Effectiveness of the Stream-Gaging Program in North Carolina,
W86-02973 1908 7A

Stochastic Modeling of the Space-Time Structure of Atmospheric Chemical Deposition,
W86-04171 1910 5B

Bayesian Models of Forecasted Time Series,
W86-04532 1910 2A

Binary Time Series Obtained from Continuous Time Point Processes Describing Rainfall,
W86-05249 1911 2B

Recent Heavy Precipitation in the Vicinity of the Great Salt Lake: Just How Unusual,
W86-05550 1912 2H

Long-Range Groundwater Level Prediction Based on Time Series Analysis,
W86-05665 1912 2F

TIME SERIES MODELING
Time Series Modeling of Coastal Currents,
W86-06113 1912 2G

TIMOTHY
Effects of Fertilizer, Pig Manure, and Sewage Sludge on Timothy and Soils,
W86-05382 1911 5E

TIN
Arsenic, Barium, Germanium, Tin, Dimethylsulfide and Nutrient Biogeochemistry in Charlotte Harbor, Florida, A Phosphorus-Enriched Estuary,
W86-01113 1904 5B

TIN COMPOUNDS
Fate and Effects of Organotin Compounds,
W86-00665 1903 5B

Methylation of Tin and Lead in the Environment: Oxidative Methyl Transfer as a Model for Environmental Reactions,
W86-01619 1905 5B

TIRES
Tire Fire Oil: Monitoring a New Environmental Pollutant,
W86-04979 1911 5A

TISSUE ANALYSIS
Environmental pH Influences Growth and Tissue Chemistry of the Submersed Macrophyte Vallisneria americana,
W86-05347 1911 5C

TISSUE CULTURE
Replication of Human Rotavirus in Tissue Culture: Recovery and Detection in Fecal, Sewage, and Natural Water Samples,
W86-02630 1907 5A

TJEUKEMEER
Phosphorus, Nitrogen and Chlorophyll-a Concentrations in a Typical Dutch Polder Lake, Tjeukemeer, in Relation to its Water Regime Between 1968 and 1982,
W86-01196 1904 2H

TOBACCO
Cadmium and Nickel in Mainstream Particulates of Cigarettes Containing Tobacco Grown on a Low-Cadmium Soil-Sludge Mixture,
W86-06119 1912 5B

TOILETS
Determination of Requirements for Sanitation Facilities at Large Gatherings,
W86-05548 1912 5D

TOKYO BAY
Existing Institutional Arrangements and Implications for Management of Tokyo Bay,
W86-00569 1902 6E

Distribution and Characteristics of Carboxypeptidase Activity in Pond, River, and Seawaters, in the Vicinity of Tokyo,
W86-01418 1905 2H

TOLO HARBOR
Contents of Cd, Fe, Mn and Zn in the Tissue of Katelysia hiantina Collected from Tolo Harbour, an Almost Land-Locked Sea,
W86-00456 1902 5C

TOLUENE
Effect of Toluene on Fathead Minnow (Pimephales promelas Rafinesque) Development,
W86-01692 1905 5C

TONAWANDA CREEK
Buffalo Metropolitan Area, New York Water Resources Management: Interim Report on Feasibility of Flood Management in Tonawanda Creek Watershed,
W86-03305 1908 8A

TOOLIK LAKE
Nitrogen, Phosphorus, and Organic Carbon Cycling in an Arctic Lake,
W86-00611 1902 2H

Sediment Accumulation Rates in an Alaskan Arctic Lake Using A Modified 210Pb Technique,
W86-00612 1902 2H

TOPOGRAPHY
Estimates of Peak Runoff from Hilly Terrain with Varied Lithology,
W86-00036 1901 2E

Prediction of 2-D Bed Topography in Rivers,
W86-01734 1905 2J

Effect of Topographic Orientation on the Variations of Glacier Length,
W86-03700 1909 2C

Topographic Partition of Watersheds with Digital Elevation Models,
W86-04157 1910 4A

Prediction of Surface Saturation Zones in Natural Catchments by Topographic Analysis,
W86-05226 1911 2E

Some Effects of Surface Heating and Topography on the Regional Severe Storm Environment. Part I: Three-Dimensional Simulations,
W86-06130 1912 2B

TORNESS POWER STATION
Design and Construction Supervision of Sea Wall and Breakwater at Torness Power Station,
W86-05594 1912 8A

TORONTO
Monitoring Urban Waterways to Reduce Flood Damage and Ensure Public Safety,
W86-00687
1903 4A

TORONTO HARBOR
Degradation of the Tri-n-butyltin Species in Water and Sediment from Toronto Harbor,
W86-04454
1910 5B

TORRENTE PARMA
Cadmium and Chromium in the Waters, Sediments and Biota of the Val Parma Running Water Ecosystem,
W86-00957
1904 5B

TORTS
Waters and Water Courses - Torts - Owners of Property Damaged by Unlawful Ditching or Unreasonable Discharge of Waters May Obtain Relief by Statute or by the Tort Concept of Reasonable Use,
W86-01683
1905 6E

TOTAL COLIFORM BACTERIA
Distribution and Occurrence of Total Coliform Bacteria in Floridan Aquifer Wells, Western Lake County, Florida,
W86-03145
1908 5B

TOTAL DISSOLVED SOLIDS
Specific Conductance as an Indicator of Total Dissolved Solids in Cold, Dilute Waters,
W86-04394
1910 2K

Evaluation of Factors Related to the Unusually Low Chlorophyll Levels in Prairie Saline Lakes,
W86-05562
1912 2H

TOTAL NITROGEN
Simultaneous Determination of Total Organic Carbon and Total Nitrogen in Waters by Pyrolysis - Gas Chromatography - Mass Spectrometry,
W86-04129
1910 5A

TOTAL ORGANIC CARBON
Simultaneous Determination of Total Organic Carbon and Total Nitrogen in Waters by Pyrolysis - Gas Chromatography - Mass Spectrometry,
W86-04129
1910 5A

Study of the Trace Organics Profiles of Raw and Potable Water Systems,
W86-04382
1910 5F

Spring Pond Water Chemistry and the Reproduction of the Wood Frog, Rana Sylvatica,
W86-05569
1912 5C

TOTAL PRECIPITATION
Statistical Analysis of Precipitation Frequency in the Conterminous United States, Including Comparisons with Precipitation Totals,
W86-00020
1901 2B

TOTAL-REFLECTION X-RAY FLUORESCENCE
Determination of Trace Elements in Rainwater by Total-Reflection X-Ray Fluorescence,
W86-04457
1910 5A

TOUTLE RIVER
Flow Properties of the Mt. St. Helens Mudflow Material,
W86-02453
1907 2J

TOWN OF SIMSBURY
Hydrogeologic Reconnaissance of Stratified-Drift Aquifers Near Simsbury, Connecticut: Available Data and Future Needs,
W86-01967
1906 2K

TOXIC POLLUTANT DISCHARGE
Environmental Law--The Role of FDF Variances in Implementing the Clean Water Act's Toxic Pollutant Discharge Provisions. Chemical Manufacturers Association v. Natural Resources Defense Council, Inc., 105 S. Ct. 1102 (1985),
W86-05861
1912 6E

TOXIC SUBSTANCES
Toxic Organics Removal Kinetics in Overland Flow Land Treatment,
W86-00057
1901 5D

Model of a Bacterial Culture Utilizing a Toxic Substrate in Continuous Flow Conditions,
W86-00549
1902 5B

TOXIC WASTES
Survey of National and State Regulatory Agency Policy and Procedures for the Determination of the Toxicity of Wastewater Effluents,
W86-00211
1901 6E

Working Papers Prepared as Background for Testing for Effects of Chemicals on Ecosystems,

TRIBUTYLTIN COMPOUNDS
Mossbauer Studies of the Speciation of Tributyltin Compounds in Seawater and Sediment Samples,
W86-05842 1912 5B

TRICHLOROETHYLENE
Packed Tower Aeration Strips Trichloroethylene from Groundwater,
W86-00817 1903 5F

Estimating Risk to Human Health,
W86-04977 1911 5B

TRICHLOROPHENOL
Reductive Dechlorination of the Pesticides 2,4-D, 2,4,5-T, and Pentachlorophenol in Anaerobic Sludges,
W86-01707 1905 5D

TRICHLOROPHENOXY ACETIC ACID
Reductive Dechlorination of the Pesticides 2,4-D, 2,4,5-T, and Pentachlorophenol in Anaerobic Sludges,
W86-01707 1905 5D

TRICHOROBENZENE
Effects of 1,2,4-Trichlorobenzene on Estuarine Macrobenthic Communities Exposed via Water and Sediment,
W86-04398 1910 5C

TRICKLE IRRIGATION
Three-Dimensional Infiltration and Trickle Irrigation,
W86-00474 1902 3F

Infiltration From a Trickle Source in a Heterogeneous Soil Medium,
W86-01295 1904 2G

Implications for Total Water Demand from the Adoption of Drip Irrigation in Western Agriculture,
W86-02571 1907 3F

Principles, Practices, and Potentialities of Trickle (Drip) Irrigation,
W86-03405 1908 3F

Measured and Creams-Predicted Nitrogen Losses from Tomato and Corn Management Systems,
W86-04538 1910 5B

TRICKLING FILTERS

Evaluation of Temperature Effects on Trickling Filter Plant Performance,
W86-00737 1903 5D

Activated Biofilter Process for Wastewater Treatment,
W86-00871 1903 5D

Filtrable Solids as a Design Parameter for Wastewater Treatment Processes,
W86-03662 1909 5D

Comparative Removal of Toxic Pollutants by Six Wastewater Treatment Processes,
W86-05016 1911 5D

Design of Trickling Filter Nitrification Towers,
W86-05021 1911 5D

Evaluation of High Density Cross Flow Media for Rehabilitating an Existing Trickling Filter,
W86-05031 1911 5D

Phosphorus Transformation in a Rapid Infiltration Column,
W86-05139 1911 5D

Distribution of Retention Times in Model Biological Filters Containing Packed Spheres,
W86-05329 1911 5D

TRIFLURALIN

Percent Mortalities and LC50 Values for Selected Microcrustaceans Exposed to Treflan, Cutrine-plus, and MSMA Herbicides,
W86-00732 1903 5C

TRIGAMSAR

Studies on Primary Productivity and Some Hydrochemical Aspects of a Polluted Water-body of the Himalayan Jhelum Valley,
W86-00420 1902 2H

TRIHALOMETHANE

Catalytic Effects of Ultraviolet Light and/or Ultrasound on the Ozone Oxidation of Humic Acid and Trihalomethane Precursors,
W86-05270 1911 5D

TRIHALOMETHANES

City Implements Trihalomethane Control Program,
W86-00808 1903 5F

Rapid Method for the Analysis of Trihalomethanes in Water,
W86-01082 1904 5A

Preliminary Study of the Efficiency and Mechanism of THM Removal in the Ozonation and BAC Process,
W86-01270 1904 5F

Role of Formation and Reduction of THM and Chlorite Concentrations in the Disinfection of Water with Cl2 and ClO2,
W86-01453 1905 5F

Study of the Trace Organics Profiles of Raw and Potable Water Systems,
W86-04382 1910 5F

Efficiency of O3 and BAC in THMs Removal,
W86-05606 1912 5D

Removing Trihalomethanes by Packed-Column and Diffused Aeration,
W86-05885 1912 5F

City Uses Two-Pronged Strategy for THM Control,
W86-06043 1912 5F

Analysis of Drinking Water for the Detection of Trihalomethanes,
W86-06075 1912 5A

TRINITROTOLUENE

High Temperature Treatment of Trinitrotoluene (TNT) and Cyclotrimethylene-Trinitramine (RDX) with Ozone and Ultrasound,
W86-01271 1904 5D

TRIORGANOTIN COMPOUNDS

Triorganotin Regulations in North Carolina.
W86-03131 1908 5G

TRITIUM

Suitability of Different Counting Vials and Liquid Scintillators for Determining Tritium in Water (Die Eignung verschiedener Messflaschchen und Szintillatorflüssigkeiten zur Bestimmung von Tritium in Wasser),
W86-01142 1904 7B

Calibration of a Mass Transport Model Using Environmental Tritium,
W86-01289 1904 5B

Appropriate Monitoring Techniques Using Bomb Tritium and Other Geochemical Parameters in Hydrogeological Investigations,
W86-01445 1905 2F

Tritium in Natural Waters of Moldavia and a Hydrogeological Interpretation of the Results of its Determination,
W86-01806 1905 2H

Feedwater Cleanup for Combined Electrolysis Catalytic Exchange,
W86-01980 1906 5D

Hydrochemical Budgeting in Studies of Ground-Water Renewability in Areas of Glacial Formation Systems,
W86-03783 1909 2F

Flood Flow Gauging with Tritium in Southern Africa,
W86-04796 1911 7B

Investigation of Water Movement in the Unsaturated Zone Under an Irrigated Area using Environmental Tritium,
W86-05210 1911 2G

Snowmelt and Groundwater Storage in an Alpine Basin,
W86-05629 1912 2F

TRITIUM INTERFACE METHOD

New Tritium Interface Method for Determining the Recharge Rate of Deep Groundwater in the Bavarian Molasse Basin,
W86-05837 1912 2F

TRITIUM MIGRATION

Hydrogeology of a Low-Level Radioactive-Waste Disposal Site Near Sheffield, Illinois,
W86-02371 1906 2F

TROPHIC LEVEL

Total Number of Bacteria as a Trophic State Index,
W86-00980 1904 2H

Trophic State Index for the Louisiana Coastal Zone,
W86-02710 1907 2H

Estimating Phytoplankton Biomass and Productivity,
W86-03303 1908 2H

Thermal and Oxygen Conditions and the Chemical Composition of the Water in the Great Masurian Lakes,
W86-05194 1911 5C

Trophic Status of 19 Subarctic Lakes in the Yukon Territory,
W86-05559 1912 5C

TROPHIC LEVELS

Automated Multispecies Biomonitoring Employing Fish and Aquatic Invertebrates of Various Trophic Levels,
W86-04775 1911 5A

TROPHIC STATES

Multivariate Analysis of Protist Communities in Lentic Systems,
W86-06028 1912 2H

TROPIC ZONE

Suspended Sediment Production in a Suburban Tropical Basin (Lubumbashi, Zaire),
W86-04392 1910 2J

TROPICAL AREAS

Potential Treatment Alternative for Swine Wastewater in the Tropics,
W86-01203 1904 5D

TROPICAL CYCLONES

Statistically Derived Prediction Procedure for Tropical Storm Formation,
W86-06122 1912 2B

TROPICAL REGIONS

Physico-Chemical Characteristics of the Used Filter Sand and its Role in the Seven Water Works System in a Tropical Region,
W86-00399 1902 5F

Diurnal Thermal Stratification and Floc Rising in Clariflocculators of the Tropical Water Works,
W86-00541 1902 5F

Limnology of a Naturally Acidic Tropical Water System in Australia; I. General Description and Wet Season Characteristics,
W86-00923 1904 2H

Some Physical and Chemical Properties of Water from an Undisturbed Tropical Catchment Area (Guma Dam, Sierra Leone),
W86-01134 1904 2H

Management of Lacustrine Fisheries in the Tropics,
W86-01600 1905 8I

Comparison of Freshwater Use Customs on Ulithi Atoll with Those of Selected Other Micronesian Atolls,
W86-02598 1907 3B

Relationship between Tibet-Tropical Ocean Thermal Contrast and Interannual Variability of Indian Monsoon Rainfall,
W86-04651 1910 2B

Macrophyte Decomposition in Two Tropical Lakes,
W86-04649 1910 5C

Survival and Enumeration of the Fecal Indicators Bifidobacterium adolescentis and Escherichia coli in a Tropical Rain Forest Watershed,
W86-04675 1910 5B

Analyses of Different Processes Governing Soil Erosion by Water in the Tropics,
W86-04678 1911 2J

Seasonality of Bacterial Quality of Water in a Tropical Developing Country (Sierra Leone),
W86-05106 1911 5A

Adsorption of Mercury Compounds by Tropical Soils,
W86-05911 1912 2G

TROPICS
Grid History: A Geostationary Satellite Technique for Estimating Daily Rainfall in the Tropics,
W86-05475 1912 2B

TROPOSHPERE
Aqueous Oxidation of SO2 by OH Radicals,
W86-05495 1912 5B

TROPOSPHERE
Chemical Mechanisms of Acid Generation in the Troposphere,
W86-05597 1912 5B

TROUT
Chlorinated Hydrocarbons as a Factor in the Reproduction and Survival of Lake Trout (Salvelinus namaycush) in Lake Michigan.
W86-00363 1902 5C

Introduction and Summary,
W86-00364 1902 5C

Comparative Hatchability of Lake Trout Eggs Differing in Contaminant Burden and Incubation Conditions,
W86-00365 1902 5C

Growth and Mortality of Fry of Lake Michigan Lake Trout During Chronic Exposure to PCB's and DDE,
W86-00366 1902 5C

Swimming Performance of Young Lake Trout after Chronic Exposure to PCB's and DDE,
W86-00367 1902 5C

Vulnerability of Young Lake Trout to Predation After Chronic Exposure to PCB's and DDE,
W86-00368 1902 5C

Temperature Selection by Young Lake Trout After Chronic Exposure to PCB's and DDE,
W86-00369 1902 5C

Biochemistry and Metabolism of Lake Trout: Laboratory and Field Studies on the Effects of Contaminants,
W86-00370 1902 5C

Influence of pH, Water Hardness, and Alkalinity in the Acute Lethality of Zinc to Rainbow Trout (Salmo gairdneri),
W86-00608 1902 5C

Effect of Sulfite Dechlorination on the Accumulation of Waterborne Lead by Rainbow Trout (Salmo gairdneri),
W86-00615 1903 5A

Effects of Available Dietary Carbohydrate and Water Temperature on the Chronic Toxicity of Waterborne Copper to Rainbow Trout (Salmo gairdneri),
W86-00630 1903 5C

Separating Starvation Losses from Other Early Feeding Fry Mortality in Steelhead Trout Salmo gairdneri, Chinook Salmon Oncorhynchus tshawytscha, and Lake Trout Salvelinus namaycush,
W86-00728 1903 5C

Sublethal Effects of Simulated Pulp Mill Effluents on the Respiration and Energy Metabolism of Rainbow Trout (Salmo gairdneri),
W86-00881 1903 5C

Effects of Reduced Discharge on Production and Distribution of Age-0 Rainbow Trout in Seminatural Channels,
W86-01150 1904 8I

Ecotoxicological Aspects of Pulp and Paper Mill Effluents Discharged to an Inland Water System: Distribution in Water, and Toxicant Residues and Physiological Effects in Caged Fish (Salmo gairdneri),
W86-01161 1904 5C

Effect of Lethal Copper Solutions on the Behavior of Rainbow Trout, Salmo gairdneri,
W86-01410 1905 5C

Bioconcentration Factors of Some Halogenated Organics for Rainbow Trout: Limitations in Their Use for Prediction of Environmental Residues,
W86-01874 1905 5C

Seasonal Changes in Abundance of Brown Trout (Salmo trutta) and Rainbow Trout (S. gairdnerii) Assessed by Drift Diving in the Rangitikei River, New Zealand,
W86-01910 1905 2H

Temperature Requirements of Pacific Coastal Stream Fishes,
W86-02568 1907 5C

Fish Abundance Upstream from Dworshak Dam Following Exclusion of Steelhead Trout,
W86-02695 1907 6G

Bioconcentration Factors of Some Halogenated Organics for Rainbow Trout: Limitations in their Use for Prediction of Environmental Residues,
W86-04142 1910 5C

Inhibition of Brain AChE in Brook Trout by Aminocarb and its Toxic Metabolites,
W86-04261 1910 5C

Cadmium Accumulation and Protein Binding Patterns in Tissues of the Rainbow Trout, Salmo gairdneri,
W86-04759 1911 5C

Evaluation of the Toxic Components of Toxaphene in Lake Michigan Lake Trout,
W86-05400 1911 5A

Chlorinated Phenolics and Their Conjugates in the Bile of Trout (Salmo gairdneri) Exposed to Contaminated Waters,
W86-05853 1912 5C

Oil Refinery Effluents: Evidence of Cocarcinogenic Activity in the Trout Embryo Microinjection Assay,
W86-05948 1912 5C

Survival and Hepatic Metallothionein in Developing Rainbow Trout Exposed to a Mixture of Zinc, Copper, and Cadmium,
W86-05993 1912 5C

Survival of Salmo gairdneri (Rainbow Trout) in the Zinc Polluted Molonglo, River Near Captains Flat, New South Wales, Australia,
W86-05994 1912 5C

Rehabilitation of a Trout Stream,
W86-06049 1912 8I

Effects of Salmincola Californiensis (Copepoda: Lernaeopodidae) on the Gills of Farm-raised Rainbow Trout, Salmo gairdneri,
W86-06125 1912 8I

TRUCKEE CANAL
Data on Surface-Water Quality and Quantity, Truckee River System, Nevada and California, 1979-81,
W86-01924 1906 5B

TRUCKEE RIVER
Data on Surface-Water Quality and Quantity, Truckee River System, Nevada and California, 1979-81,
W86-01924 1906 5B

Estimation of Incomplete Streamflow for Selected Sites on the Carson and Truckee Rivers in California and Nevada, 1944-80,
W86-02990 1908 2E

TRYPTOPHAN
Effect of Cadmium and Zinc on Intestinal Absorption of Xylose and Tryptophan in the Fresh Water Teleost Fish, Heteropneustes fossilis,
W86-00390 1902 5C

TUCSON AQUEDUCT
Class III Survey of the Tucson Aqueduct Phase A Corridor, Central Arizona Project: An Intensive Archaeological Survey in the Lower Santa Cruz River Basin, Picacho Reservoir to Rillito, Arizona,
W86-01995 1906 6G

TUCURUI HYDROELECTRIC PLANT
Flood Forecasting for Tucurui Hydroelectrical Plant, Brazil,
W86-06015 1912 8B

TUFFS
Map Showing Outcrops of Pre-Quaternary Ash-Flow Tuffs and Volcaniclastic Rocks, Basin and Range Province,
W86-01972 1906 8E

TULAREMIA
Peculiar Structure of the Tularemia Natural Focus in the Don River Delta with Special Reference to Economical Influence (Sovremennaya Struktura Prirodhogo Ochaga Tulyaremii Del'ty Dona v Svyazi s Khozyaistvennym Vozdeistviem),
W86-00593 1902 6G

TULSA
Municipal Water Demand Study, Oklahoma City and Tulsa, Oklahoma,
W86-01765 1905 6D

TUMEN RIVER
Monitoring and Evaluation of Water Pollution in Tumen River by Means of Algae (in Chinese),
W86-01512 1905 5C

TUNISIA
Estimates of Peak Runoff from Hilly Terrain with Varied Lithology,
W86-00036 1901 2E

Eutrophication in Northern Tunisia,
W86-05150 1911 5C

TUNNEL CONSTRUCTION
Mechanized Tunnelling - a Landmark in Indian Tunnelling Practice,
W86-01216 1904 8A

Dewatering for the Well-Being of Tunnelling,
W86-01463 1905 8A

Underground Works at Kenya's Kiambere Project,
W86-05006 1911 8A

TUNNEL DESIGN
Optimum Capacity and Tunnel Diameter of Run-Of-River Plants,
W86-05007 1911 8A

Design of Pervious Pressure Tunnels,
W86-05008 1911 8A

TUNNEL HYDRAULICS
Design of Pervious Pressure Tunnels,
W86-05008 1911 8A

TUNNEL LININGS
On-Site Tests of a New Type of Tunnel Lining at the Nurek Hydrostation Construction Site,
W86-00981 1904 8F

TUNNELING
Tunnel Excavation with Alpine Miner AM-50 (A Case History at Loktak H.E. Project, Manipur),
W86-01217 1904 8A

TUNNELS
What's Going on Under Chicago,
W86-00767 1903 8A

Use of Cast-in-Place Concrete Temporary Support in Hydraulic Tunnels,
W86-00983 1904 8F

Power Conduits for High-Head Plants,
W86-01277 1904 8A

Rockburst Drama in Northern India,
W86-01462 1905 8A

Dewatering for the Well-Being of Tunnelling,
W86-01463 1905 8A

MDS Project - Main Dimensions and Economics,
W86-04637 1910 8C

Tight Money Hampers Cleveland Sewer Jobs,
W86-04754 1911 6C

Underground Works at Kenya's Kiambere Project,
W86-05006 1911 8A

Unconfined Groundwater Flow Calculation Into a Tunnel,
W86-05298 1911 2F

TURBIDITY
Factors Influencing Inorganic Turbidity in a Great Plains Reservoir,
W86-00440 1902 2H

Turbidity Enhances Feeding Abilities of Larval Pacific Herring, Clupea harengus pallasi,
W86-00444 1902 2L

Modification of the James River,
W86-00584 1902 6G

Suspended Sediment - Microbial Interactions in a Shallow Turbid Impoundment,
W86-00979 1904 2H

Management of Urban Waste Water Physico-Chemical Treatment Stations: Servocontrol of Reagent Additions at the Quiberon Sewage Treatment Plant, France,
W86-01244 1904 5D

Reduction of Turbidity by a Coal-Aluminum Filter,
W86-01266 1904 5F

Results of Investigating the Effect of Cavitation in Hydroabrasive Wear of Elements of the Water Passageway of Axial-Flow Pumps,
W86-01628 1905 8C

Theory and Measurement of Turbidity and Residue,
W86-02262 1906 2K

Effects of Gravel Extraction on the Meade River at Atqasuk, Alaska,
W86-02475 1907 5B

Water-Quality Investigations of the Jordan River, Salt Lake County, Utah, 1980-82,
W86-02916 1907 5B

Determination of Turbidity Patterns in Lake Chicot from Landsat MSS Imagery,
W86-03291 1908 2J

Specialized Dredges Designed for Bottom Sediment Dredging,
W86-03469 1909 5G

Bottom Sediment Dredge 'Clean Up' - Principle and Results -,
W86-03471 1909 5G

Anti-Turbidity Overflow System (ATOS) Used for Reducing the Dispersion of Fine Sediments from a Dredge Plane,
W86-03874 1909 5E

Advanced Technology Makes Mountain Run-off Palatable,
W86-04287 1910 5F

Granular Activated Carbon as Sand Replacement in Rapid Gravity Filters,
W86-04381 1910 5F

Continuous Measurement of Suspended Sediment in Rivers by Means of a Double Beam Turbidity Meter,
W86-04852 1911 2J

Use of Turbidity Monitors to Assess Sediment Yield in East Java, Indonesia,
W86-04853 1911 2J

Phytoplankton Productivity in Turbid Waters,
W86-05177 1911 5C

Aspects of the Feeding Ecology of Turbin Water Zooplankton. In situ Studies of Community Filtration Rates in Silt-Laden Lake le Roux, Orange River, South Africa,
W86-05183 1911 2H

Contact Flocculation-Filtration Of Low-Turbidity, Highly Coloured Acid Moorland Water,
W86-05303 1911 5F

Stability of Turbidity in Raw Water and Its Relationship to Chlorine Demand,
W86-05886 1912 5F

TURBIDITY CURRENTS
Turbity Current With Erosion and Deposition,
W86-05982 1912 2J

TURBIDITY FLOW
Determination of Turbidity Patterns in Lake Chicot from Landsat MSS Imagery,
W86-03291 1908 2J

TURBIDITY PLUMES
Appearance and Water Quality of Turbidity Plumes Produced by Dredging in Tampa Bay, Florida,
W86-01929 1906 6G

TURBIDITY REMOVAL
Turbidity Removal from Clay Suspensions by Use of Organic Polymeric Flocculants,
W86-05260 1911 5D

TURBINE RUNNERS
Modern Trends in Manufacturing Large Francis Turbine Runners,
W86-01218 1904 8C

TURBINES
Simple Governing and Surging Simulation, Part One,
W86-00801 1903 8B

Mortality of Juvenile American Shad and Blueback Herring Passed through a Low-Head Kaplan Hydroelectric Turbine,
W86-01155 1904 8I

Advantages of Turgo-Impulse Turbines in Micro-Hydel Units,
W86-01204 1904 8C

Modern Trends in Manufacturing Large Francis Turbine Runners,
W86-01218 1904 8C

Tests on a French Adjustable Two-Stage Pump-Turbine,
W86-01274 1904 8C

Simple Governing and Surging Simulation,
W86-01276 1904 8B

Power from Mine Cooling Water,
W86-04703 1911 8C

Waterway and Specific Problems of High-Head Schemes,
W86-05740 1912 8C

TURBULENCE
Turbulent Dispersion from a Steady Two-Dimensional Horizontal Source,
W86-01055 1904 5B

Plane Turbulent Buoyant Surface Jets and Jumps,
W86-01393 1905 8B

Note on the Determination of Vertical Turbulent Transport Coefficients in a Partially Mixed Estuary,
W86-01517 1905 2L

Turbulence and Mixing in Estuaries,
W86-02072 1906 2L

Profile of Suspended Sediment Due to Wave Action,
W86-05501 1912 2L

Structure of Turbulence in Compound Channel Flows,
W86-05965 1912 2E

TURBULENT FLOW
Numerical Modelling of Subcritical Open Channel Flow Using the K-epsilon Turbulence Model and the Penalty Function Finite Element Technique,
W86-00003 1901 2E

Prediction of Characteristics for Vertical Round Buoyant Jets in Stably Linear Stratified Environment,
W86-01392 1905 8B

Turbulent Flows Over a Wavy Bed,
W86-01537 1905 2E

Deep-Water Blowout Trajectory Models for the Lancaster Sound Region,
W86-03638 1909 5B

Separation of Boundary Layer and Flow Turbulence of Center-Feed Circular Sedimentation Basins,
W86-03830 1909 5D

TURGIDITY
Potential for Using Leaf Turgidity to Select Drought Tolerance in Cotton,
W86-00486 1902 2I

TURKEY
Boron Pollution in the Simav River, Turkey and Various Methods of Boron Removal,
W86-01061 1904 5D

Present Glaciation in Turkey,
W86-03689 1909 2C

TURKEY LAKES
Temporal and Spatial Trends in Metal Loadings to Sediments of the Turkey Lakes, Ontario,
W86-05346 1911 5B

TWIN CITIES METROPOLITAN AREA
Runoff and Chemical Loading in Small Watersheds in the Twin Cities Metropolitan Area, Minnesota,
W86-02794 1907 2E

Atmospheric Deposition of Selected Chemicals and Their Effect on Nonpoint-Source Pollution in the Twin Cities Metropolitan Area, Minnesota,
W86-03125 1908 5B

TWO-LAYER FLOW
Hydraulics of Two Flowing Layers with Different Densities,
W86-04714 1911 2E

TWO-PHASE FLOW
Finite Amplitude Waves in Stratified Two-Phase Flow: Transition to Slug Flow,
W86-01864 1905 2E

TWO-STAGE CHANNEL CONSTRUCTION
Changes of In-Channel Vegetation Following Two-Stage Channel Construction on a Small Rural Clay River,
W86-06037 1912 4A

U.S. VIRGIN ISLANDS
Floods of April 18, 1983 on St. Thomas and St. John, U.S. Virgin Islands,
W86-02362 1906 2E

Publications of the U.S. Geological Survey, Water Resources Division, for Puerto Rico and the U.S. Virgin Islands,
W86-03047 1908 10C

UCHIURA BAY
Observations of Internal Tides in Uchiura Bay,
W86-00450 1902 2L

UINTA BASIN
Streamflow in the Southeastern Uinta Basin, Utah and Colorado,
W86-03064 1908 2E

ULTAVIOLET LIGHT
Catalytic Effects of Ultraviolet Light and/or Ultrasound on the Ozone Oxidation of Humic Acid and Trihalomethane Precursors,
W86-05270 1911 5D

ULTRAFILTRATION
Reverse Osmosis and Ultrafiltration Solve Separation Problems,
W86-01441 1905 5D

Water Quality Improvement by Reverse Osmosis,
W86-02213 1906 5F

Optimization of Hollow Fiber Ultrafiltration Membrane Type and System Design for Wastewater Reuse in the Textile Industry,
W86-02426 1907 5D

Evaluation of Hollow Fiber Ultrafiltration and Reverse Osmosis for Waste Water Reuse in the Metal Finishing Industry,
W86-02726 1907 5D

Use of Different Physical Separation Techniques for Trace Element Speciation Studies in Natural Waters,
W86-03771 1909 2K

Concentration of Rotavirus by Ultrafiltration,
W86-04112 1910 5G

Ultrapure Water in the Electronics Industry,
W86-04518 1910 5F

Economics of Membrane Treatment of Wastewaters Containing Firefighting Foam,
W86-04947 1911 5D

Use of Micellar-Enhanced Ultrafiltraion to Remove Dissolved Organics from Aqueous Streams,
W86-05848 1912 5D

ULTRAPURE WATER
Ultrapure Water in the Electronics Industry,
W86-04518 1910 5F

Ultrapure Water in the Microelectronics Industry,
W86-05288 1911 5F

ULTRASONICS
Improvement of Ultrasonic Flowmeter in Rivers in Japan,
W86-04802 1911 7B

Experiences Gained During the Hydraulic Investigations on the Cooling Water System of a Thermal Power Station,
W86-04803 1911 8C

Catalytic Effects of Ultraviolet Light and/or Ultrasound on the Ozone Oxidation of Humic Acid and Trihalomethane Precursors,
W86-05270 1911 5D

ULTRASOUND
High Temperature Treatment of Trinitrotoluene (TNT) and Cyclotrimethylene-Trinitramine (RDX) with Ozone and Ultrasound,
W86-01271 1904 5D

ULTRAVIOLET ABSORPTION
Tracer Applications of Ultra-Violet Absorption Measurements in Coastal Waters,
W86-00056 1901 2L

ULTRAVIOLET RADIATION
UV Inactivation of Pathogenic and Indicator Microorganisms,
W86-00774 1903 5D

Destroying Pyrogens in Water,
W86-00870 1903 5F

Disinfection of Circulating Water Systems by Ultraviolet Light and Halogenation,
W86-01059 1904 5F

Modeling and Efficiency of Ultraviolet Disinfection Systems,
W86-01647 1905 5D

Destruction of Hazardous Wastes by Ultraviolet Catalyzed Oxidation,
W86-02421 1907 5D

Factors Controlling Sensitivity in Ultraviolet Disinfection of Secondary Effluents,
W86-04331 1910 5D

Comparison of Ultraviolet and Reductive Amperometric Detection for Determination of Ethyl and Methyl Parathion in Green Vegetables and Surface Water Using High-Performance Liquid Chromatography,
W86-04446 1910 5A

Photodegradation of the Herbicide Glyphosate in Water,
W86-04961 1911 5D

Study of Operational Ultraviolet Disinfection Equipment at Secondary Treatment Plants,
W86-05047 1911 5D

Disinfection of Low Quality Wastewaters by Ultraviolet Light Irradiation,
W86-05049 1911 5D

Oxidation of 2-Chlorophenol Using Ozone and Ultraviolet Radiation,
W86-05057 1911 5D

Rapid Determination in Water of Chloride, Sulphate, Sulphite, Selenite, Selenate and Arsenate Among Other Inorganic and Organic Solutes by Ion Chromatography With UV Detection Below 195 nm,
W86-05302 1911 5A

Effect of Ozonation and UV Irradiation on Biorefractory Organic Solutes in Oil Shale Retort Water,
W86-05902 1912 5D

UMBULUZI RIVER
Design and Operation of a Fuse-Plug Spillway in Swaziland,
W86-01275 1904 8A

UNCERTAINTY
Measuring Values for Environmental Resources under Uncertainty,
W86-01685 1905 6A

UNCONFINED AQUIFER
Improved Formulas for a Dam Phreatic Surface with accretion,
W86-04546 1910 2F

UNCONFINED AQUIFERS
Modeling Contamination of Shallow Unconfined Aquifers through Infiltration Beds,
W86-04201 1910 5B

Optimal Control of Nonlinear Groundwater Hydraulics: Theoretical Development and Numerical Experiments,
W86-04544 1910 2F

UNCONFINED GROUNDWATER
Interpretation of an Unconfined Groundwater Flow Experiment,
W86-04205 1910 2F

UNDERGROUND COAL GASIFICATION
Geochemical Investigations into Groundwater Potential Contaminants Resulting from Underground Coal Gasification (UCG),
W86-04058 1910 5B

UNDERGROUND POWERPLANTS
Underground Works at Kenya's Kiambere Project,
W86-05006 1911 8A

UNDERGROUND PURIFICATION
Underground Purification Capacity,
W86-05722 1912 5G

UNDERGROUND STORAGE
Water Resources of Aurora and Jerauld Counties, South Dakota,
W86-02763 1907 4B

Abstraction and Recharge Well in Uniform Seepage,
W86-05986 1912 4B

UNDERGROUND STORAGE TANKS
Groundwater Protection Starts Below the Surface,
W86-05063 1911 5G

UNDERGROUND STRUCTURES
Ways of Using the Bearing Properties of a Rock Mass When Designing Underground Hydraulic Structures,
W86-00982 1904 8E

UNDERGROUND WASTE DISPOSAL
Hydrogeologic and Water-Quality Characteristics of Prairie du Chien-Jordan, Aquifer, Southeast Minnesota,
W86-03042 1908 2F

Undergound Oil Spill Investigation and Clean-up,
W86-04032 1910 5G

UNGAVA
Acid Neutralizing Capacity of Glacial Sediments in Western Ungava,
W86-04481 1910 5B

UNIFORM FLOW
Cellular Retention Time in the Activated Sludge Process at Non-steady Flow,
W86-05608 1912 5D

UNIFORM SOIL LAYER
Drainage from a Uniform Soil Layer on a Hillslope,
W86-05209 1911 2E

UNIFORMITY COEFFICIENT
Method for Uniformizing the Stage-Discharge Relations of Stable River Eeds and Its Application,
W86-04790 1911 7B

UNIT-DAY-VALUES
Derivation of Unit-Day-Values for Recreation Benefit Valuation in Water Resource Planning, Based on a Comprehensive Theoretical Framework,
W86-02573 1907 6B

District of Columbia Water Resources Research Center, FY 83 Institute Final Program Report,
W86-02576 1907 9D

UNIT HYDROGRAPH
Magnitude and Frequency of Flood Volumes for Urban Watersheds in Leon County, Florida,
W86-02354 1906 2E

UNIT HYDROGRAPHS
Unit Hydrograph Approximations Assuming Linear Flow Through Topologically Random Channel Networks,
W86-00082 1901 2E

Meaning of Oscillations in Unit Hydrograph S-Curves,
W86-05533 1912 2E

UNITED KINGDOM
Estimation of the Loads of Some List I and II Substances to United Kingdom Tidal Waters - a Comparison with Previous Estimates,
W86-01025 1904 5G

Marine Quality Standards: Their Derivation and Application in the United Kingdom,
W85-01252 1904 5G

Impact of River Channelization; IV. The Ecological Effects of Channelization,
W86-01404 1905 6G

Environmental Impact of Pollution Controls on the Thames Estuary, United Kingdom,
W86-02093 1906 5G

Application of Ozone for Water Treatment in the United Kingdom Current Practice and Recent Research,
W86-05059 1911 5F

UNITED STATES
AWWA Survey of Inorganic Contaminants in Water Supplies.
W86-00009 1901 5F

National Water Summary 1983--Hydrologic Events and Issues.
W86-00131 1901 6B

Uneven Pattern; The 1982-83 Snow Season,
W86-01428 1905 2B

Year of the African Drought,
W86-01429 1905 2B

Heavy in the West, Light in the East: Snowfall in 1983-84,
W86-01430 1905 2B

Keep Your Pollution to Yourself: Institutions for Regulating Transboundary Pollution and the United States-Mexico Approach,
W86-01688 1905 6E

Annual Average Climatic Maps of the United States,
W86-02321 1906 7A

Volatile Trace-Element Concentrations in Snowmelt Contributions to Streams Monitored by Hydrologic Bench Mark Network Stations in the Conterminous United States Where Average Annual Snowfall Exceeds 12 Inches,
W86-02397 1906 5B

Pesticides in the Nation's Rivers, 1975-1980, and Implications for Future Monitoring,
W86-02764 1907 5A

Acid Rain in Western Europe and Northeastern United States -- A Technical Appraisal,
W86-05039 1911 5B

Acid Rain: The International Response,
W86-05577 1912 6E

UNIVERSAL SOIL LOSS EQUATION
Approach to Testing the USLE Factor Values in Kenya,
W86-03597 1909 2J

UNSATURATED FLOW
Solute Dispersion During Axisymmetric Three-Dimensional Unsaturated Water Flow,
W86-00700 1903 2G

Movement of CaCl2 Solutions in an Unsaturated Clay Soil: The Effect of Solution Concentration,
W86-01029 1904 2G

Unsaturated and Saturated Flow Through a Thin Porous Layer on a Hillslope,
W86-01073 1904 2F

Note on the Use of a Simple Numerical Model for Vertical, Unsaturated Fluid Flow,
W86-01425 1905 2G

Electrical Resistivity for Estimating Ground-Water Recharge,
W86-01437 1905 2F

Approximate Analysis of the Borehole Permeameter in Unsaturated Soil,
W86-01774 1905 2G

Lateral Moisture Movements in Unsaturated Anisotropic Media,
W86-02562 1907 2G

Preliminary Evaluation of Hydrologic Properties of Cores of Unsaturated Tuff, Test Well USW H-1, Yucca Mountain, Nevada,
W86-02792 1907 2F

Unsaturated Flow Modeling of a Retorted Oil Shale Pile,
W86-03281 1908 5B

Transfer Function Model of Solute Transport through Soil: 1. Fundamental Concepts,
W86-04177 1910 2G

Transfer Function Model of Solute Transport Through Soil: 2. Illustrative Applications,
W86-04178 1910 2G

Transfer Function Model of Solute Transport Through Soil. 3. The Convection-Dispersion Equation,
W86-04179 1910 2G

Investigation of Water Movement in the Unsaturated Zone Under an Irrigated Area using Environmental Tritium,
W86-05210 1911 2G

UNSATURATED SOILS
Saturated and Unsaturated Hydraulic Conductivity of Swelling Clays,
W86-04411 1910 2G

UNSATURATED ZONE
Accumulation and Transport of Water and Solutes in the Saturated and Unsaturated Zones,
W86-03784 1909 2F

UNSTABLE CHANNELS
Direct Measurements of Secondary Currents in a Meandering Sand-Bed River,
W86-01171 1904 2E

UNSTEADY FLOW
Analysis of Solute Breakthrough Curves to Predict Water Redistribution During Unsteady Flow Through Undisturbed Structured Clay Soil,
W86-01654 1905 2G

Model for Nitrate Leaching in Undisturbed Structured Clay Soil During Unsteady Flow,
W86-01655 1905 5B

Comparison of the Results of Calculating Unsteady Flow in the Enisei Mouth Stretch by the Finite-Difference and Finite-Element Methods,
W86-01802 1905 2E

Validity of Darcy's Law Under Transient Conditions,
W86-03049 1908 2E

Flow Measurement in Open and Closed Conduits of Gravitational Urban Storm Sewer Networks,
W86-04787 1911 7B

Nondestructive Observations of Solution Displacement in Soils,
W86-06008 1912 2G

UNTERFOEHRINGER SEE
Restoration of a Small Lake by Combined Mechanical and Biological Methods,
W86-00946 1904 5G

UP-FLOW ANAEROBIC SLUDGE BLANKET REACTOR
Kinetics of Anaerobic Purification of Industrial Wastewater,
W86-04745 1911 5D

UPCONING
Salt-Water-Freshwater Transient Upconing - An Implicit Boundary-Element Solution,
W86-01291 1904 5B

UPFLOW ANAEROBIC SLUDGE BED
Application of the Upflow Anaerobic Sludge Bed (UASB) Process for Treatment of Complex Wastewaters at Low Temperatures,
W86-05263 1911 5D

UPFLOW ANAEROBIC SLUDGE BLANKET PROCESS
Methanogenesis in an Upflow Anaerobic Sludge Blanket Reactor at pH 6 on an Acetate-Propionate Mixture,
W86-00776 1903 5D

UPFLOW ANAEROBIC SLUDGE BLANKET REACTORS
Thermophilic Anaerobic Digestion of Sugars in Upflow Anaerobic Sludge Blanket Reactors,
W86-05830 1912 5D

UPFLOW BLANKET FILTER
Mixing Characteristics and Performance of the Anaerobic Upflow Blanket Filter (UBF) Reactor,
W86-00423 1902 5D

UPFLOW BLANKET FILTERS
Performance of an Upflow Anaerobic Reactor Combining a Sludge Blanket and a Filter Treating Sugar Waste,
W86-00889 1903 5D

UPGRADING
Hydro-plant Upgrades Yield Reliable, Cost-effective Kilowatts,
W86-00804 1903 8C

UPPER MISSOURI RIVER BASIN
Use of Vegetation in Delineating Wetland Borders in Upper Missouri River Basin; North-Central United States,
W86-00359 1902 2H

UPPER SPRING CREEK WATERSHED
Runoff, Sediment Transport, and Water Quality in a Northern Illinois Agricultural Watershed before Urban Development, 1979-81,
W86-00133 1901 2J

UPPER TIBER RIVER BASIN
Analysis of the Effects of Orography on Surface Rainfall by a Parameterized Numerical Model,
W86-00023 1901 2B

UPPER WAIPORI CATCHMENT
Hydrology of Mid-Altitude Tussock Grasslands, Upper Waipori Catchment: II - Water Balance, Flow Duration and Storm Runoff,
W86-01384 1905 2A

UPSTREAM SEDIMENTS
Revision of the Churchill Reservoir Trap Efficiency Curves Using Smoothing Splines,
W86-06326 1912 2J

UPTAKE
Accumulation of Sediment-Bound PCBS by Fiddler Crabs,
W86-04365 1910 5B

UPWELLING
Upwelling and River Runoff as Sources of Dissolved Nitrous Oxide to the Alsea Estuary, Oregon,
W86-01117 1904 2L

Laboratory Modeling of a Coastal Upwelling,
W86-04980 1911 2L

URACOA RIVER
Limnological Investigation of the Rivers Uracoa, Yabo, Morichal Largo and Claro in the Eastern Plains of Venezuela,
W86-00928 1904 2H

URANIUM
Karnes County, Texas, Area Hydrochemical and Stream Uranium Orientation Study,
W86-00194 1901 2K

Migration of Heavy Elements in Groundwater Following Uranium Solution Mining Operations,
W86-02578 1907 2A

Microbiological Treatment of Uranium Mine Waters,
W86-04438 1910 5D

URANIUM MILL TAILINGS
Long-Term Ecological Behaviour of Abandoned Uranium Mill Tailings; 2.: Growth Patterns of Indigenous Vegetation on Terrestrial and Semi-Aquatic Areas,
W86-00217 1901 5C

URANIUM MINES
Development of a New Process for Treating Uranium Mining Effluents,
W86-00759 1903 5D

URANIUM MINING
Migration of Heavy Elements in Groundwater Following Uranium Solution Mining Operations,
W86-02578 1907 2A

URBAN AREAS
Determination of Urban Flood Damages,
W86-01102 1904 6E

Water Quality of a Small Urban Catchment near Durban, South Africa,
W86-01861 1905 5B

Sinking Cities,
W86-05321 1911 4B

Analysis of Pipe Breakage in Urban Water Distribution Networks,
W86-05469 1912 5F

Some Hydrogeological Problems Related to Urban Water Supply Development in China,
W86-05653 1912 4B

Problems of Groundwater Resource Management in a Developed Basin,
W86-05659 1912 4B

Paths of the Suspended Particulate Inorganic and Organic Matter in a Small Urban Estuary. The Aarhus Harbour Estuary,
W86-06165 1912 5B

URBAN DRAINAGE
Chimney Hill Off-Site Drainage Study,
W86-03835 1909 2A

Monitoring Water Quantity and Water Quality in an Urban Basin,
W86-04807 1911 7B

URBAN HYDROLOGIC
Hydrologic Data for Urban Studies in the Houston, Texas, Metropolitan Area, 1982,
W86-03106 1908 7C

URBAN HYDROLOGY
Quality and Quantity of Urban Runoff and Atmospheric Deposition in Urban Areas of Salt Lake County, Utah, 1980-1981,
W86-02346 1906 5B

Effects of Stormwater Runoff on an Urban Lake, Lake Ellyn at Glen Ellyn, Illinois,
W86-02392 1906 5B

Operation of Detention Facilities for Urban Stream Quality Enhancement,
W86-02436 1907 5G

Identification and Prioritization of the Water Resources Problems and Research Needs in the District of Columbia,
W86-02572 1907 6B

Groundwater Problems in the Mid-Atlantic Fall-Line Cities,
W86-02574 1907 2F

Development of Frequency Functions for Urban Non-Point Source Risk Evaluation,
W86-02575 1907 5B

District of Columbia Water Resources Research Center, FY 83 Institute Final Program Report,
W86-02576 1907 9D

Runoff and Chemical Loading in Small Watersheds in the Twin Cities Metropolitan Area, Minnesota,
W86-02794 1907 2E

U.S. Geological Survey Urban-Stormwater Data Base for 22 Metropolitan Areas Throughout the United States,
W86-02808 1907 4C

Summary of Urban-Runoff Studies in the Denver Metropolitan Area, Colorado,
W86-02875 1907 5B

Rainfall-Runoff Data in the Albuquerque, New Mexico, Metropolitan Area, 1976-83,
W86-02933 1908 7C

Storm Runoff as Related to Urbanization Based on Data Collected in Salem, and Portland, and Generalized for the Willamette Valley, Oregon,
W86-03015 1908 4C

Urban Water-Quality Data and Statistical Summaries for Selected Sites in the Shunganunga Creek Basin, Topeka, Kansas,
W86-03099 1908 5B

Improved Surcharge Computation, in EXTRAN,
W86-03832 1909 3A

URBAN RUNOFF
Application of the STORM Model to Design Problems in Singapore and in Kaosiung, Republic of China,
W86-00086 1901 6A

Attempt to Implement SWMM in Tunisia,
W86-00087 1901 6A

Snowmelt Induced Urban Runoff in Northern Sweden,
W86-00097 1901 2C

Advancement in Hydraulic Modeling of Porous Pavement Facilities,
W86-00098 1901 2E

Urban Runoff: Pollution Sources, Control, and Treatment,
W86-00781 1903 5G

Bacterial Adsorption and Suspended Particles in Urban Stormwater,
W86-00842 1903 5B

Collection and Analysis of Urban Runoff Data in Finland,
W86-01251 1904 5D

Quality and Quantity of Urban Runoff and Atmospheric Deposition in Urban Areas of Salt Lake County, Utah, 1980-1981,
W86-02346 1906 5B

Cost-Effective Design and Operation of Urban Stormwater Control Systems: Decision-Support Software,
W86-02427 1907 5D

Evaluation of Combined Sewer Overflow Management Strategies Through Pipe Network Computer Simulation,
W86-02505 1907 5G

Fiscal Year 1983 Institute Program Report, (Virginia Water Resources Research Center),
W86-02522 1907 9D

Runoff and Chemical Loading in Small Watersheds in the Twin Cities Metropolitan Area, Minnesota,
W86-02794 1907 2E

U.S. Geological Survey Urban-Stormwater Data Base for 22 Metropolitan Areas Throughout the United States,
W86-02808 1907 4C

Data Collected by the U.S. Geological Survey During a Study of Urban Runoff in Bellevue, Washington, 1979-82,
W86-02811 1907 4C

Analysis of Urban Runoff Data and Effects on the South Platte River, Denver Metropolitan Area, Colorado,
W86-02813 1907 5B

Synthesized Flood Frequency of Urban Streams in Alabama,
W86-02856 1907 4C

Summary of Urban-Runoff Studies in the Denver Metropolitan Area, Colorado,
W86-02875 1907 5B

Relations of Urban Land-Use and Dry-Weather Storm and Snowmelt Flow Charactertistics to Stream-Water Quality, Shunganunga Creek Basin, Topeka, Kansas,
W86-02926 1908 4C

BEST COPY AVAILABLE

Storm Runoff as Related to Urbanization Based on Data Collected in Salem, and Portland, and Generalized for the Willamette Valley, Oregon,
W86-03015 1908 4C

Urban Water-Quality Data and Statistical Summaries for Selected Sites in the Shunganunga Creek Basin, Topeka, Kansas,

Traveltime, Longitudinal-Dispersion, Reaeration, and Basin Characteristics of the White River, Colorado and Utah,
W86-02984 1908 2E

Dissolved-Oxygen Regime of the Jordan River, Salt Lake County, Utah,
W86-03011 1908 5B

Simulated Effects of Proposed Reservoir-Development Alternatives on Streamflow Quantity in the White River, Colorado and Utah,
W86-03061 1908 4A

Streamflow in the Southeastern Uinta Basin, Utah and Colorado,
W86-03064 1908 2E

Streamflow and Suspended-Sediment Discharge from Two Small Watersheds in Southwestern Wyoming and Northeastern Utah, 1984,
W86-03066 1908 2E

Potential Hydrologic Impacts of a Tarsand Industry in 11 Special Tar Sand Areas in Eastern Utah,
W86-03141 1908 6D

Water Resources Data, Utah Water Year 1983,
W86-03201 1908 7C

UTILITIES
Water Utility Operating Data: An Analysis,
W86-00004 1901 6D

Assessment of Water Utility Information Systems and Their Use of Computers,
W86-00795 1903 5F

Byzantine Art of Water Utility Ratemaking,
W86-00868 1903 6C

Computerization Can Boost Utility Performance,
W86-01084 1904 5F

Digital Distribution System Records: A Joint Venture,
W86-04380 1910 7C

UTILIZATION FACTOR
Economics of Pumping and the Utilization Factor,
W86-05975 1912 8B

UTTAR PRADESH
Hydropower Scenario,
W86-01222 1904 6B

VACUUM SKIMMING
OHMSETT Test of Truck-Mounted Vacuum Systems for Oil Spill Recovery,
W86-04012 1910 5G

VADOSE WATER
Factors Requiring Resolution in Installing Vadose Zone Monitoring Systems,
W86-01701 1905 7B

Modelling of Nitrogen Removal in the Vadose Zone,
W86-04070 1910 5B

Subsurface Transport of Urban Runoff Pollutants,
W86-04084 1910 5B

Method for Simultaneous In Situ Measurement in the Vadose Zone of Field-Saturated Hydraulic Conductivity, Sorptivity and the Conductivity-Pressure Head Relationship,
W86-04659 1910 5B

VAL PARMA
Cadmium and Chromium in the Waters, Sediments and Biota of the Val Parma Running Water Ecosystem,
W86-00957 1904 5B

VALIDATION
Flux Use for Calibrating and Validating Models,
W86-01039 1904 5A

VALLE CENTRAL
Role of Volcanic Tuffs in Ground-Water Regime of Valle Central, Costa Rica.
W86-05531 1912 2F

VALLEY-FILL DEPOSITS
Nitrogen, Sulfate, Chloride, and Manganese in Ground Water in the Alluvial Deposits of the South Platte River Valley Near Greeley, Weld County, Colorado,
W86-01941 1906 5B

VALLISNERIA AMERICANA
Environmental pH Influences Growth and Tissue Chemistry of the Submersed Macrophyte Vallisneria americana,
W86-05347 1911 5C

VALVE CLOSURE
Charts for Water Hammer in Pipelines Resulting from Valve Closure from Full Opening Only,
W86-05468 1912 8C

VALVES
Oil Stop Valve: Oil Spill Containment Research and Development Project,
W86-03627 1909 5G

New Valved and Air-Vented Surge Plunger for Developing Small-Diameter Monitor Wells,
W86-04212 1910 5B

VANCOUVER ISLAND
Streamflow Nitrogen Loss Following Forest Fertilization in a Southern Vancouver Island Watershed,
W86-01784 1905 5B

Differences in Standing Live and Dead Crops in Estuarine Marshes on Vancouver Island,
W86-05348 1911 2L

VAPOR COMPRESSION
Selection of Small Desalination Plants for Specific Locations - Reverse Osmosis, Flash Distillation, Vapour Compression,
W86-016[illegible]2 1905 3A

Low-Temperature Vapour Compression and Multi-Effect Distillation of Seawater. Effects of Design on Operation and Economics,
W86-01676 1905 3A

VAPORIZATION
Vapor Exchange of PCBs with Lake Michigan: The Atmosphere as a Sink for PCBs,
W86-02014 1906 5B

VARIABILITY
Interannual Streamflow Variability in the United States Based on Principal Components,
W86-00076 1901 2E

Field Variability of Soil Physical Properties,
W86-02129 1906 2G

VARIANCE
Minimum Variance Streamflow Record Augmentation Procedures,
W86-00079 1901 2E

VARIANCE MAXIMIZATION
Optimal Discharge Profiles for Sudden Contaminant Releases in Steady Uniform Open-Channel Flow,
W86-04344 1910 5E

VARIANCE REDUCTION ANALYSIS
Variance Reduction Analysis,
W86-01075 1904 2F

VARIATION COEFFICIENT
Study on the Variation Coefficient of Annual Runoff of the Rivers in Northwest China,
W86-05639 1912 4A

VARIED FLOW
Application of Functional Analysis to Optimization of a Variable Head Multireservoir Power System for Long-Term Regulation,
W86-05242 1911 8C

VARIOGRAMS
Variogram Identification by the Mean-Squared Interpolation Error Method with Application to Hydrologic Fields,
W86-00024 1901 2A

VARVES
Sedimentation in a Blast-Zone Lake at Mount St. Helens, Washington - Implications for Varve Formation,
W86-00517 1902 2J

VEGETABLES
Comparison of Ultraviolet and Reductive Amperometric Detection for Determination of Ethyl and Methyl Parathion in Green Vegetables and Surface Water Using High-Performance Liquid Chromatography,
W86-04446 1910 5A

Chemical Composition of Vegetables Grown on an Agricultural Soil Amended with Sewage Sludges,
W86-05552 1912 5B

VEGETATION
Shore Stabilization with Salt Marsh Vegetation,
W86-00189 1901 8G

Long-Term Ecological Behaviour of Abandoned Uranium Mill Tailings; 2.: Growth Patterns of Indigenous Vegetation on Terrestrial and Semi-Aquatic Areas,
W86-00217 1901 5C

Impact of Water Level Changes on Woody Riparian and Wetland Communities; Volume X: Index and Addendum to Volumes I-VIII,
W86-00254 1901 2I

Impact of Water Level Changes on Woody Riparian and Wetland Communities; Volume IX: The Alaska Region,
W86-00292 1901 2I

Preliminary Guide to the Onsite Identification and Delineation of the Wetlands of the North Atlantic United States,
W86-00316 1902 2H

Use of Vegetation in Delineating Wetland Borders in Upper Missouri River Basin; North-Central United States,
W86-00359 1902 2H

Bottomland Vegetation Distribution Along Passage Creek, Virginia, In Relation to Fluvial Landforms,
W86-00826 1903 2H

Hydrologic and Vegetational Changes Resulting from Underground Pumping at the Cypress Creek Well Field, Pasco County, Florida,
W86-00899 1903 6G

Impact of Land-Applied Incinerator Ash Residue on a Freshwater Wetland Plant Community,
W86-01466 1905 5C

Potential Consequences of Reject Stream Replacement Projects on Aquatic, Terrestrial, and Recreation Resources: Volume III, Terrestrial Resources.
W86-02011 1906 6G

Vegetation and Climates of the Last 45,000 Years in the Vicinity of the Nevada Test Site, South-Central Nevada,
W86-03168 1908 2I

Literature Survey on the Wetland Vegetation of Alaska,
W86-03312 1908 2A

Veld Burning and Sediment Yield from Small Drainage Basins,
W86-03588 1909 4D

Remote Sensing Applications in African Erosion and Sedimentation Studies,
W86-03592 1909 7B

Mulch Requirements for Erosion Control with the No-Till System in the Tropics: A Review,
W86-03600 1909 4D

Effects of Fluctuating Reservoir Water Levels on Fisheries, Wildlife, and Vegetation: Summary of a Workshop, 24-26 February 1981,
W86-03642 1909 6G

Accumulation of Airborne Trace Pollutants by Arctic Plants and Soil,
W86-04479 1910 5B

Quantitative Technique for Estimating the Boundaries of Wetlands from Vegetation Data,
W86-05411 1911 2I

Responses by Benthic Macroinvertebrates to Prolonged Flooding of Marsh Habitat,
W86-05567 1912 2H

Overbank Flow with Vegetatively Roughened Flood Plains,
W86-05966 1912 2E

VEGETATION EFFECTS
Chaparral Management Effects on Water and the Environment,
W86-02570 1907 2I

Channel Adjustments to the Removal of Log Steps: an Experiment in a Mountain Stream,
W86-05409 1911 4D

Assessment of the Effects of Land Use on Groundwater Recharge,
W86-05660 1912 4C

Time Dependent Three Dimensional Simulation of Flows in Shallow Domains with Vegetative Obstruction,
W86-06065 1912 4A

VEGETATION ESTABLISHMENT
Riparian Shrubby Vegetation Protection Against Herbivore Browsing,
W86-02670 1907 4D

Weathering Tests Conducted on Soil Stabilizers: Interim Report,
W86-03247 1908 4A

VEGETATION REGROWTH
Chaparral Management Effects on Water and the Environment,
W86-02570 1907 2I

VELOCITY
Estimating Soil Detachment Caused by Raindrop Impact,
W86-00494 1902 2B

Probability-of-Use for Depth, Velocity, and Substrate by Subyearling Coho Salmon and Steelhead in Lake Ontario Tributary Streams,
W86-00590 1902 2H

Effect of Velocity of Water Flow on Growth of Colonial Hydroids (Hydrozoa, Thecaphora),
W86-00722 1903 2H

VELOCITY CURVE
Velocity Profile, Water-Surface Slope, and Bed-Material Size for Selected Streams in Colorado,
W86-02852 1907 2E

VELOCITY DISTRIBUTION
Velocity Profile, Water-Surface Slope, and Bed-Material Size for Selected Streams in Colorado,
W86-02852 1907 2E

VELOCITY MEASUREMENT
Measurement of Low Flow Velocities for Shallow Bodies of Water,
W86-02459 1907 7B

VENDA NOVA
Mine Waste Discharge Rich in Copper - An Example of Effects on Planktonic Communities,
W86-00959 1904 5C

VENDACE
Iodine Content of the Tissues of the Vendace (Coregonus albula L.) in Correlation to the Iodine Content of the Ambient Water,
W86-00679 1903 2H

VENEZUELA
Limnological Investigation of the Rivers Uracoa, Yabo, Morichal Largo and Claro in the Eastern Plains of Venezuela,
W86-00928 1904 2H

VENTURI
Venturi as a Saline Intrusion Control for Sea Outfalls,
W86-05595 1912 8C

VERGES
Salinity of Motorway Soils. II. Distance from the Carriageway and Other Sources of Local Variation in Salinity,
W86-06034 1912 5B

VERIFICATION
Estimation of Distributional Parameters for Censored Trace Level Water Quality Data. 2. Verification and Applications,
W86-04169 1910 5A

VERMISTABILIZATION
Liquid Sludge Stabilization Using Vermistabilization,
W86-01549 1905 5D

VERMONT
Paleolimnological Record of Human Disturbance from Harvey's Lake, Vermont: Geochemistry, Pigments and Diatoms,
W86-01122 1904 2H

Lead Distribution and Fluxes in a High-Elevation Forest in Northern Vermont,
W86-01706 1905 5B

Fiscal Year 1983 Institute Program Report (Vermont Water Resources Research Center),
W86-02454 1907 9D

Temporal and Spatial Variability of Streamflow Acidification in Vermont,
W86-02455 1907 5B

Streptococci as Indicators of Source and Type of Surface Water Contamination,
W86-02456 1907 5A

Acid Precipitation: Compositional Changes During Throughfall; Soil Water,
W86-02457 1907 5B

Appraisal of Water-Quality Conditions, Lower Black River, Windsor County, Vermont,
W86-02770 1907 5B

Water Resources Data, New Hampshire and Vermont Water Year 1983,
W86-03190 1908 7C

VERTICAL CIRCULATION
Diagnostic Study on the Vertical Circulation and the Maintenance Mechanisms of the Cyclonic Gyre in Lake Biwa,
W86-05094 1911 2H

VERTICAL DISTRIBUTION
Simulation of Water-Bloom in a Eutrophic Lake - IV: Modeling the Vertical Migration in a Population of Microcystis Aeruginosa,
W86-04579 1910 5C

In Situ Pulse Light Fluorometer for Chlorophyll Determination as a Monitor for Vertical and Horizontal Phytoplankton Distribution in Lakes,
W86-05175 1911 2H

VERTICAL FLOW
Note on the Use of a Simple Numerical Model for Vertical, Unsaturated Fluid Flow,
W86-01425 1905 2G

Use of Electrical Resistivity Method to Study Vertical Hydrologic Boundaries in Wadi Sadr, Sinai Peninsula, Egypt,
W86-04097 1910 2F

VERTICAL TUBE EVAPORATION
Developments in Vertical Tube Evaporation,
W86-01671 1905 3A

VERY LOW FREQUENCY COMMUNICATIONS
Interpretation of VLF Resistivity Data for Ground Water Contamination Surveys,
W86-04656 1910 5B

VIADUCTS
Gravity Pressure Collection System Drains Viaduct,
W86-06044 1912 8A

VIBRATIONS
Modelling Vibration and Vortex Formation at Piedra del Aguila,
W86-00800 1903 8B

Air Demand and Vibration Measurements, Wynoochee Dam, Wynoochee River, Washington,
W86-02002 1906 8B

VIBRIO
Impact of Physio-Chemical Stress on the Toxigenicity of Vibrio Cholerae,
W86-05105 1911 5B

VIBRIO PARAHAEMOLYTICUS
Serotypes of Vibrio parahaemolyticus Isolates from Hydrobiologically Dissimilar Aquatic Environments,
W86-05062 1911 5A

VICTORIA
Modelling of 210Pb Behaviour in the Catchment and Sediment of Lake Tali Karng, Victoria, and Estimation of Recent Sedimentation Rates,
W86-00520 1902 2J

Phytoplankton of the La Trobe River, Victoria,
W86-00523 1902 2H

Macroinvertebrate Community of Stones in an Australian Upland Stream,
W86-00926 1904 2H

Organization of Macroinvertebrate Communities in the Major Tributaries of the LaTrobe River, Victoria, Australia,
W86-01123 1904 2H

Recurrence Interval of Drought Events Through Stochastic Analysis of Rainfall and Streamflow Data,
W86-01444 1905 2A

VIRGIN ISLANDS
Effects of Various Factors on the Sizing of Rain Water Cistern Systems,
W86-02650 1907 3B

Final Program Report for Fiscal Year 1983, (Virgin Islands Water Resources Research Center),
W86-02651 1907 9D

Fiscal Year 1984 Program Report (Virgin Islands Water Resource Research Center).
W86-02744 1907 9D

VIRGIN RIVER BASIN
Reconnaissance of Chemical Quality of Surface Water in the Upper Virgin River Basin, Utah, Arizona, and Nevada,
W86-02768 1907 5B

VIRGINIA
Point Source Water Quality Control in Virginia: Choices for the Chesapeake,
W86-00575 1902 5G

Issues in the James River Corridor,
W86-00582 1902 6G

Human Ecology of the James River,
W86-00583 1902 4C

James River Fisheries and Thermal Effects,
W86-00585 1902 6G

Major Environmental Statutes Affecting the James River,
W86-00586 1902 6E

Bottomland Vegetation Distribution Along Passage Creek, Virginia, In Relation to Fluvial Landforms,
W86-00826 1903 2H

Superhydro,
W86-00883 1903 8A

Setting of the American Oyster Crassostrea virginica in the James River, Virginia, USA: Temporal and Spatial Distribution,
W86-01504 1905 2L

Law of the Coast in a Clamshell; Part XVIII: The Virginia Approach,
W86-01842 1905 2L

Fiscal Year 1983 Institute Program Report, (Virginia Water Resources Research Center),
W86-02522 1907 9D

Effects of Land Use Practices on Water Resources in Virginia,
W86-02523 1907 5G

Development and Management of Water Facilities for Small Communities: Proceedings of a Conference,
W86-02657 1907 6B

Fiscal Year 1984 Program Report (Virginia Water Resources Research Center).
W86-02733 1907 9D

Effects of Fracturing on Well Yields in the Coalfield Areas of Wise and Dickensen Counties, Southwestern Virginia,
W86-02900 1907 2F

Data on Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Transition Zone of the Potomac Estuary, 1983 and 1984,
W86-02944 1908 2L

Water-Level Hydrographs for Observation Wells in Virginia, 1982,
W86-02996 1908 7C

Distribution and Abundance of Submersed Aquatic Vegetation in the Tidal Potomac River and Estuary, Maryland and Virginia,
W86-03012 1908 2L

Selected Hydrologic Data for the Powell River Basin in Wise County, Virginia,
W86-03103 1908 5B

Water Resources Data, Virginia Water Year 1983,
W86-03213 1908 7C

Salvaging a Water Reservoir,
W86-04739 1911 8A

Bath County: The World's Largest Pumped-Storage Plant Commissioned,
W86-04996 1911 8C

VIRUS INACTIVATION
Development of Methods to Measure Virus Inactivation in Fresh Waters,
W86-04263 1910 5A

VIRUSES
Elimination of Viruses and Indicator Bacteria at Each Step of Treatment During Preparation of Drinking Water at Seven Water Treatment Plants,
W86-00775 1903 5F

Viral Pollution of the Marine Environment,
W86-00851 1903 5B

Inactivation of Hepatitis A Virus, Other Enteric Viruses and Indicator Organisms in Water by Chlorination,
W86-01190 1904 5A

Effects of Water Quality on Microporous Filter Methods for Enteric Virus Concentration,
W86-01191 1904 5A

Factors Controlling the Survival of Viruses in Groundwater,
W86-01192 1904 5B

Occurrence of Viruses in Treated Drinking Water in the United States,
W86-01193 1904 5F

Factors Influencing the Ozone Inactivation of Enteric Viruses in Effluent,
W86-01268 1904 5D

Evaluation of Surface Water Runoff from Swine Facilities for Contamination with Viruses,
W86-02584 1907 5B

Replication of Human Rotavirus in Tissue Culture: Recovery and Detection in Fecal, Sewage, and Natural Water Samples,
W86-02630 1907 5A

Cyanophages: Are They Potential Biological Control Agents of Nuisance Blue-Green Algae,
W86-03492 1909 2H

Factors Influencing the Survival of Viruses in Ground Water,
W86-04060 1910 5B

One-Dimensional Mathematical Model of Virus Transport,
W86-04068 1910 5B

Concentration of Viruses from Water by Using Cellulose Filters Modified by In Situ Precipitation of Ferric and Aluminum Hydroxides,
W86-04258 1910 5A

Bacteriophages and Fecal Bacteria as Indicators of Chlorination Efficiency of Biologically Treated Wastewater,
W86-04495 1910 5D

Rainfall and Epizootic Rift Valley Fever,
W86-04663 1910 5G

Viruses in Drinking Water,
W86-04978 1911 5F

Use of Dyes and Proteins as Indicators of Virus Adsorption to Soils,
W86-05330 1911 5B

Chlorine Dioxide Reactivity with Proteins,
W86-05340 1911 5F

Chlorine Dioxide Reactivity with Nucleic Acids,
W86-05341 1911 5F

Hepatitis A Virus Concentration on Cellulose Membranes (Concentration du Virus de L'Hepatite A sur des Membranes de Cellulose),
W86-06158 1912 5A

VISHWAMITRI RIVER
Species Diversity of Algal Flora in Vishwamitri River, Baroda (India),
W86-01325 1905 5A

VISIBLE IMAGERY
Grid History: A Geostationary Satellite Technique for Estimating Daily Rainfall in the Tropics,
W86-05475 1912 2B

VISTULA RIVER
Indicatory Role of Some Invertebrates for Quality of Water in the Vistula River and in Subsequent Stages of its Treatment,
W86-01327 1905 5A

VOLATILE CHLORINATED HYDROCARBONS
Behavior of Readily Volatile Chlorinated Hydrocarbons in Flowing Waters,
W86-05824 1912 5B

VOLATILE COMPOUNDS
In-Home Treatment Methods for Removing Volatile Organic Chemicals,
W86-00010 1901 5F

Carbon Adsorption Isotherm Test for Volatile Organic Chemicals in Water,
W86-00845 1903 5A

Movement of Volatile Organics Through a Fractured Rock Aquifer,
W86-01311 1904 5B

VOLATILE FATTY ACIDS
Kinetics of Anaerobic Purification of Industrial Wastewater,
W86-04745 1911 5D

VOLATILE HALOCARBONS
Chloroform in Tap Water and Human Blood,
W86-04361 1910 5F

VOLATILE HYDROCARBONS
Analysis of Volatile Hydrocarbon Losses from Quiescent Water Solutions,
W86-05228 1911 5B

VOLATILE ORGANIC COMPOUNDS
Removing VOC from Groundwater; Pilot, Scale-up, and Operating Experience,
W86-00816 1903 5F

Volatile Organic Compounds at Hazardous Waste Sites and a Sanitary Landfill in New Jersey,
W86-04384 1910 5B

Volatile Organic Chemical Contamination of Groundwater Resources in the U.S.,
W86-05028 1911 5B

Occurrence of Volatile Organic Chemicals in Nebraska Ground Water,
W86-05449 1912 5B

Ways to Tackle the VOC Problem,
W86-06038 1912 5F

VOLATILE POLLUTANTS
Fused Silica Open Tubular Column Optimized for the Analysis of Volatile Organic Pollutants,
W86-04985 1911 5A

VOLATILE SOLIDS
Volatile Ozonization Products of Aqueous Humic Material,
W86-04122 1910 5F

VOLATILITY
Volatilization of PCB from Sediment and Water: Experimental and Field Data,
W86-02031 1906 5B

Benefits of Microprocessor Control of Curing Ovens for Solvent-Based Coatings,
W86-04818 1911 5B

Evaporation of Volatile-Liquid Lenses Floating on an Immiscible-Liquid Surface: Effects of the Surface Age and Fluid Purities in n-Pentane/Water System,
W86-06146 1912 3A

VOLCANIC ASH
Attenuation of Leachate Generated from Co-Disposal of Volcanic Ash and Solid Waste,
W86-02432 1907 5C

VOLCANIC ASH SOIL
Field Observations and Numerical Experiments on a Drying Front in a Volcanic Ash Soil Called Kanto Loam,
W86-00038 1901 2F

VOLCANIC TUFFS
Role of Volcanic Tuffs in Ground-Water Regime of Valle Central, Costa Rica,
W86-05531 1912 2F

VOLCANICLASTIC ROCKS
Map Showing Outcrops of Pre-Quaternary Ash-Flow Tuffs and Volcaniclastic Rocks, Basin and Range Province,
W86-01972 1906 8E

VOLCANOES
Flow Properties of the Mt. St. Helens Mudflow Material,
W86-02453 1907 2J

VOLGA CHANNEL
Damming the Volga Channel at the Cheboksary Hydroelectric Station,
W86-00987 1904 8B

VOLGA DELTA
Temperature Regime in Water Bodies of the Volga Delta Under Regulated Runoff Conditions,
W86-01809 1905 2E

Organic Matter in the Volga Delta and Delta Front,
W86-01810 1905 2L

VOLTAMMETRY
Applications of Voltammetry in Environmental Science,
W86-05529 1912 5A

VOLUMETRIC ANALYSIS
Method of Estimating Flood Volumes in Western Kansas,
W86-02922 1908 4A

VOLUMETRIC PRICING
Volumetric Pricing of Agricultural Water Supplies: A Case Study,
W86-01766 1905 6C

VOLUNTARY COOPERATION
Voluntary Cooperation for the Exploration of Ground Water (Cooperateurs Volontaires pour l'Exploration des Eaux Souterraines),
W86-05733 1912 4B

VORTEX SHAFTS
Head-Discharge Relation for Vortex Shaft,
W86-01053 1904 8B

VORTEX TOWERS
Vortex Tower for the El Cajon Spillway Intake,
W86-01689 1905 8B

VORTICES
Modelling Vibration and Vortex Formation at Piedra del Aguila,
W86-00800 1903 8B

VYREDOX
Removal of Iron and Manganese from Ground Water with the Vyredox Method,
W86-04061 1910 5G

WABASH RIVER
Techniques for Estimating Magnitude and Frequency of Floods on Streams in Indiana,
W86-02780 1907 2E

WADDEN SEA
Seasonal Fluctuations in the Biomass and Metabolic Activity of Bacterioplankton and Phytoplankton in a Well-Mixed Estuary: the Ems-Dollard (Wadden Sea),
W86-05181 1911 2L

WAIGANI LAKE
From Swamp to Lake: Recent changes in a Lowland Tropical Swamp,
W86-04697 1911 5C

WAIHOPAI RIVER
Southland Flood of January 1984,
W86-01388 1905 2E

WAIKATO RIVER
Dissolved Coloured Compounds and Suspended Matter in the Waters of the Middle Waikato River,
W86-01912 1905 5B

WALES
Flotation that Might Sink,
W86-00831 1903 6E

Regionalization: A Decade Points to More Change,
W86-01086 1904 6E

EEC Shellfish Directive in Wales,
W86-01253 1904 5G

Tomorrow's Technology for Today's Problems,
W86-01261 1904 8A

Impact of River Channelization; III. Downstream Morphological Consequences of River Channelization in England and Wales,
W86-01403 1905 4A

Stream Acidity in Some Areas of Wales in Relation to Historical Trends in Afforestation and the Usage of Agricultural Limestone,
W86-04600 1910 5B

Epipelic Algal Flora of the River Wye System, Wales, UK. 1. Productivity and Total Biomass Dynamics,
W86-05158 1911 2H

Role of Administrator in Water Control in the 1990's,
W86-05592 1912 6E

Multiple Demand and Conflicts,
W86-05684 1912 6D

Brecon Flood Alleviation Scheme,
W86-05904 1912 4A

Bass Nurseries on the West Coast of the U.K.,
W86-06031 1912 2L

WALKER BRANCH
Phosphorus Spiralling in a Woodland Stream: Seasonal Variations,
W86-00830 1903 2H

WALL MOVEMENT
Dynamic Soil and Water Pressures of Submerged Soils,
W86-05557 1912 8D

WALLS
Wave Forces on Vertical Walls,
W86-01098 1904 8B

WARSAW
Indicatory Role of Some Invertebrates for Quality of Water in the Vistula River and in Subsequent Stages of its Treatment,

Wave Data Acquisition and Hindcast for Saginaw Bay, Michigan,
W86-00282 1901 2H

Liquefaction of Fine Sand Due to Wave Action,
W86-01845 1905 8D

Model Study on Wave Absorbers for Application in Harbours Along the South African Coastline,
W86-02000 1906 8A

Natural Flow Visualization in Lake Eyre, South Australia,
W86-04981 1911 2H

Wave Interaction with a Rectangular Trench,
W86-04987 1911 8B

Mechanics of Fluids (Mecanique des Fluides),
W86-05893 1912 8B

Application of Boundary Integral Equation Method for Modelling Unsteady Nonlinear Water Waves,
W86-06066 1912 2E

WAVY BEDS
Turbulent Flows Over a Wavy Bed,
W86-01537 1905 2E

WAXES
Plate Separation - Budding Conventional Technology,
W86-05011 1911 5D

WEATHER
Uneven Pattern; The 1982-83 Snow Season,
W86-01428 1905 2B

Keilson-Ross Procedure for Estimating Climatic Probabilities of Duration of Weather Conditions,
W86-03294 1908 2A

Variability of Pesticide Loads to Surface Waters,
W86-04491 1910 5B

Variability in Thermal Stratification in a Reservoir,
W86-06016 1912 2H

WEATHER DATA COLLECTIONS
Statistical Analysis of Precipitation Frequency in the Conterminous United States, Including Comparisons with Precipitation Totals,
W86-00020 1901 2B

Observation and Measurement of Hailfall,
W86-02007 1906 7B

Use of Satellite Observations,
W86-02010 1906 7B

Investigations of Large Scale Storm Systems: Final Report,
W86-03647 1909 2B

Long Period Weather Records, Droughts and Water Resources,
W86-05759 1912 2B

WEATHER FORECASTING
Outline of Severe Local Storms with the Morphology of Associated Radar Echoes,
W86-00146 1901 2B

National Verification Plan: Report of the National Verification Task Team.
W86-03292 1908 2A

Keilson-Ross Procedure for Estimating Climatic Probabilities of Duration of Weather Conditions,
W86-03294 1908 2A

Yes, Precipitation Forecasts have Improved,
W86-05070 1911 2B

Effect of Qinghai-Tibet Plateau Forcing on the Meso-Scale Rain-Bearing Circulation systems over Eastern China during Presummer Rainy Season,
W86-05090 1911 2B

Mesoscale Numerical Forecast of an Intense Convective Snowburst Along the East Coast,
W86-06102 1912 2C

Statistically Derived Prediction Procedure for Tropical Storm Formation,
W86-06122 1912 2B

Meso-scale Study of Crop Drought Climatology over Maharashtra,
W86-06134 1912 2B

Presence of Upper Air Divergence in Relation to Pre-monsoon and Monsoon Weather Systems of the MONEX period 1979,
W86-06135 1912 2B

WEATHER MODIFICATION
SCPP Data Collection and Analysis for the Period 1 September 1981 through 31 August 1982,
W86-00216 1901 2B

Ground-Base Snow and Ice Crystal Observation System Used in Sierra Nevada Winter Orographic Storms,
W86-00222 1901 2B

Cloud Physics Studies in the SCPP: Interim Progress Report, 1983-84.
W86-00305 1901 3B

Structure of Cold Fronts Over California,
W86-00306 1901 3B

Responses to Seeding Clouds with Dry Ice in the SCPP-1 Experiment,
W86-00307 1901 3B

Statistical-Meteorological Evaluation of Two Operational Seeding Projects,
W86-01136 1904 3B

SCPP Data Collection and Analysis for the Period 1 January 1979 through 30 September 1984: Volume One - Executive Summary,
W86-01984 1906 2B

Project Skywater 1983-84 SCPP Data Inventory: Sierra Cooperative Pilot Project,
W86-03278 1908 2B

SCPP Forecasting Support for the Period 1 December 1978 through 30 September 1984,
W86-03495 1909 3B

Radiometric Observations of Supercooled Liquid Water within a Split Front over the Sierra Nevada,
W86-04326 1910 2B

Physical Response of Convective Clouds over the Sierra Nevada to Seeding with Dry Ice,
W86-04628 1910 3B

Disposition of Silver Released from Soviet OBLAKO Rockets in Precipitation during the Hail Suppression Experiment Grossversuch IV. Part II: Case Studies of Seeded Cells,
W86-04630 1910 3B

Predictions by Two One-Dimensional Cloud Models: A Comparison,
W86-04632 1910 2B

WEATHER PATTERN
Exceptionally Heavy Spring Rains in Sydney,
W86-04558 1910 2B

WEATHER PATTERNS
Atchafalaya River Delta; Report 9: Wind Climatology,
W86-00163 1901 2L

Marine Weather of the Inland Waters of Western Washington,
W86-00165 1901 2B

Year of World Wide Extremes; Floods and Droughts,
W86-01427 1905 2B

Heavy in the West, Light in the East: Snowfall in 1983-84,
W86-01430 1905 2B

Diurnal Variability of Precipitation in the Northeastern United States,
W86-01525 1905 2B

International correlation between Sea Level Air Pressure and Rainfall in the British Isles - North Sea Region,
W86-04560 1910 2B

WEATHER SYSTEMS
Variations in Precipitable Water Over Some West African Stations During the Special Observation Period of WAMEX,
W86-06053 1912 2B

WEATHERING
Evaluation of Environmental Factors Affecting Major Dissolved-Ion Yields of Streams in the United States,
W86-02923 1908 5B

Geochemical Studies in the Drainage Basin of the Rio Vouga (Portugal). I. General Hydrogeochemistry from Its Origin to the Ria de Aveiro,
W86-03776 1909 2K

Evaluation of the Intensity of Some Recent Exogenic Geological Processes in the U.S.S.R. by the Hydrogeochemical Balances Method,
W86-03777 1909 2K

Seasonal Variation in Weathering and Toxicity of Crude Oil on Seawater Under Arctic Conditions,
W86-04134 1910 5B

WEED CONTROL
Improving Technology for Chemical Control of Aquatic Plants,
W86-00183 1901 4A

Proceedings, 16th Annual Meeting, Aquatic Plant Control Research Planning and Operations Review.
W86-00192 1901 4A

Large-Scale Operations Management Test of Use of the White Amur for Control of Problem Plants: Selected Life History Information of Animal Species on Lake Conway, FL,
W86-00197 1901 4A

Large-Scale Operations Management Test of Use of the White Amur for Control of Problem Aquatic Plants: The Herpetofauna of Lake Conway, Species Accounts,
W86-00202 1901 6G

2,4-D Threshold Concentrations for Control of Eurasian Watermilfoil and Sago Pondweed,
W86-00208 1901 4A

Herbicidal Residues and Environmental Effects from the Experimental Application of Two 2,4-D Formulations to Control Eurasian Watermilfoil,
W86-03327 1908 4A

WEEDS
Water Relations of Pinus radiata in Competition with Weeds,
W86-01777 1905 2I

WEIR GATES
Weir Installations and Weir Gates in Low-Head Power Schemes,
W86-05738 1912 8A

WEIRS
Proportional Weirs for Stormwater Pond Outlets,
W86-00887 1903 8A

Operation and Efficiency of Automatically Operating Weir Structures - A Contribution to Cleaner Waters,
W86-01254 1904 4A

Flow Measurement Flumes: Applications to Irrigation Water Management,
W86-03404 1908 8B

Influence of an Artificial Hydraulic Regime on Water Quality in the Tidal River Lagan, Northern Ireland,
W86-05080 1911 5G

Weir Installations and Weir Gates in Low-Head Power Schemes,
W86-05738 1912 8A

WELFARE COSTS
Opportunity Costs: Irrigation vs. Hydropower,
W86-02679 1907 6C

WELL CONSTRUCTION
Ground Water Quality Anomalies Encountered During Well Construction, Sampling and Analysis in the Environs of a Hazardous Waste Management Facility,
W86-01700 1905 5A

WELL DATA
Indicators of Ground Water Quality and Yield for a Public Water Supply in Rock Fracture Zones of the Piedmont.
W86-02654 1907 2F

Hydrologic Data for Aquifers in Philadelphia, Pennsylvania,
W86-02815 1907 7C

Ground Water in Carbonate Rocks and Regolith in the Fairview Area, Tennessee,
W86-03548 1909 2F

WELL DESIGN
Modern Techniques in Well Design,
W86-05870 1912 8A

WELL HYDRAULICS
Waste-Water Injection: Geochemical and Biogeochemical Clogging Processes,
W86-05402 1911 5E

WELL HYDROGRAPHS
Hydrographs from Selected Observation Wells and Total Annual Pumpage from Municipal Supply Wells, 1950-83, Santa Fe, New Mexico,
W86-03101 1908 7C

Ground-Water-Level Trends in Idaho, 1971-82,
W86-03129 1908 2F

WELL SCREENS
Monitoring Well Screen Influences on Direct Flowmeter Measurements,
W86-05026 1911 7B

WELL STORAGE
Components of Flow Resulting from Abstraction in a Two-Layered Confined Aquifer with no Cross Flow,
W86-01770 1905 2F

WELL TESTS
Determination of Storage Characteristics and Dynamic Strata Parameters through Test Wells (Bestimmung von Speichereigenschaften und dynamischen Schichtparameters durch Testarbeiten),
W86-00587 1902 2F

WELL USE
Evaluation of the Ground-Water Resources of Coastal Georgia: Preliminary Report on the Data Available as of July 1983,
W86-02352 1906 7C

WELL WATER
Thin-layer Chromatographic Determination of Mineral Oil in Well Water (Dunnschichtchromatographischer Nachweis von Mineralol in Brunnenwasser),
W86-00415 1902 5A

Metal Mobilization in Home Well Water Systems in Nova Scotia,
W86-01264 1904 5B

Environmentally Significant Volatile Organic Pollutants in Human Blood,
W85-05478 1912 5A

Ion Exchange for the Removal of Nitrate from Well Water,
W86-06062 1912 5F

WELL YIELD
Availability of Water from the Alluvial Aquifer in Part of the Green River Valley, King County, Washington,
W86-00126 1901 2F

Ground-Water Conditions and Well Yields in Fractured Rocks, Southwestern Nevada County, California,
W86-02364 1906 2F

Paleozoic Artesian Aquifers in the Ten Sleep Area of the Bighorn Basin, North-Central Wyoming,
W86-02847 1907 2F

WELLPOINTS
Dewatering for the Well-Being of Tunnelling,
W86-01463 1905 8A

WELLS
Uses of Recharge Wells in Water Supply,
W86-00006 1901 4B

Hydraulics of a Well Pumped with Linearly Decreasing Discharge,
W86-00040 1901 2F

Hydrologic and Vegetational Changes Resulting from Underground Pumping at the Cypress Creek Well Field, Pasco County, Florida,
W86-00899 1903 6G

Flow in a Limestone Aquifer as Determined From Water Tracing and Water Levels in Wells,
W86-01296 1904 2F

Interpretation of Dug Well Performance Using a Digital Model,
W86-01306 1904 2F

Effect of Incomplete Recovery Prior to a Pump Test in a Large-Diameter Well,
W86-01664 1905 2F

Components of Flow Resulting from Abstraction in a Two-Layered Confined Aquifer with no Cross Flow,
W86-01770 1905 2F

Flow of a Well in an Inhomogeneous Layered Artesian Aquifer,
W86-01819 1905 2F

Ground-Water Resources of the Mattapoisett River Aquifer, Plymouth County, Massachusetts: Summary for Water-Resource Managers,
W86-02874 1907 4B

Groundwater Resources in Tropical African Regoliths,
W86-03564 1909 2F

Character of Fractured Rock Aquifers in Eastern Botswana,
W86-03565 1909 2F

Some Critical Issues with Monitoring Crystalline Rock Aquifers for Groundwater Management in Rural Areas,
W86-03567 1909 2F

Characteristics of the Weathered Basement Aquifer in Malawi in Relation to Rural Water Supplies,
W86-03568 1909 2F

Electric Logs for Groundwater Exploration in the Niger Delta.
W86-03570 1909 2F

Performance of Sanitary Completion Measures of Wells and Boreholes Used for Rural Water Supplies in Malawi,
W86-03582 1909 5G

Effects of Regional Water Management on N-Pollution in Areas with Intensive Agriculture,
W86-03650 1909 5G

Microbiological Parameters Controlling Plugging of Wells and Groundwater Systems,
W86-04045 1910 2F

Springs are More Efficient and Reliable than Wells for Monitoring Ground Water Quality in Most Limestone Terrains - A Consequence of Transport Processes Occurring in Conduits,
W86-04081 1910 5B

Seawater Intrusion in the San Juan Islands,
W86-04083 1910 5B

Oil Pollution of a Groundwater Source,
W86-04377 1910 5B

Environmental Analysis of Iron-Precipitating Bacteria in Ground Water and Wells,
W86-04470 1910 5C

Submersible Pumps Help Improve Water Supply from Deep Limestone Well,

WILDERNESS AREAS

River Recreation Experience Opportunities in Two Recreation Opportunity Spectrum (ROS) Classes,
W86-04536 1910 6B

Bacteriological Quality of Selected Backcountry Drinking Water Sources in Pisgah National Forest,
W86-05547 1912 5B

WILDERNESS LAKES

Preliminary Evaluation of Lake Susceptibility to Water-Quality Degradation by Recreational Use, Alpine Lakes Wilderness Area, Washington,
W86-00114 1901 5C

WILDLIFE

Large-Scale Operations Management Test of Use of the White Amur for Control of Problem Aquatic Plants: The Herpetofauna of Lake Conway, Species Accounts,
W86-00202 1901 6G

Radio-Telemetry as an Aid to Environmental Contaminant Evaluation of Mobile Wildlife Species,
W86-01886 1905 7B

Potential Consequences of Reject Stream Replacement Projects on Aquatic, Terrestrial, and Recreation Resources: Volume II, Aquatic Resources,
W86-01994 1906 6G

Potential Consequences of Reject Stream Replacement Projects on Aquatic, Terrestrial, and Recreation Resources: Volume III, Terrestrial Resources.
W86-02011 1906 6G

Selenium Concentrations in Waters Tributary to and in the Vicinity of the Kesterson National Wildlife Refuge, Fresno and Merced Counties, California,
W86-03124 1908 5A

Final Environmental Impact Statement: Regional Flood Control Tonawanda Creek, Genesee County, New York,
W86-03626 1909 4A

Effects of Fluctuating Reservoir Water Levels on Fisheries, Wildlife, and Vegetation: Summary of a Workshop, 24-26 February 1981,
W86-03642 1909 6G

Polychlorinated Biphenyls and Organochlorine Insecticides in Great Blue Heron and Great Egret Eggs from the Upper Mississippi River,
W86-03747 1909 5B

WILDLIFE CONSERVATION

Environmental Compliance Guide: Guidance Manual for Department of Energy Compliance with the Fish and Wildlife Coordination Act.
W86-03251 1908 6B

WILDLIFE HABITATS
Environmental Compliance Guide: Guidance Manual for Department of Energy Compliance with the Fish and Wildlife Coordination Act.
W86-03251 1908 6B

Long-Term Monitoring of Habitat Development at Upland and Wetland Dredged Material Disposal Sites, 1974-1982,
W86-03264 1908 6C

Impacts of Flooding Regime Modification on Wildlife Habitats of Bottomland Hardwood Forests in the Lower Mississippi Valley,
W86-03634 1909 6G

WILDLIFE MANAGEMENT
Design and Management of Irrigation Projects for the Sustained Benefit of Wildlife: A Bioeconomic Analysis of the East High Area of the Columbia Basin Project,
W86-02440 1907 6G

WILLAMETTE RIVER
Streambank Erosion Protection and Channel Scour Manipulation Using Rockfill Dikes and Gabions,
W86-02665 1907 8A

Comparison of Habitats Near Spur Dikes, Continuous Revetments, and Natural Banks for Larval, Juvenile, and Adult Fishes of the Willamette River,
W86-02672 1907 6G

WILLIAMSON COUNTY
Ground Water in Carbonate Rocks and Regolith in the Fairview Area, Tennessee,
W86-03548 1909 2F

WILLINGNESS-TO-PAY
Derivation of Unit-Day-Values for Recreation Benefit Valuation in Water Resource Planning, Based on a Comprehensive Theoretical Framework,
W86-02573 1907 6B

WILLOW
Water Relations of High-Elevation Salix Phreatophytes in Wyoming,
W86-02604 1907 2D

WILLOW TREES
Effects of Oil Spill Chemicals on Transpiration, CO2 Exchange, and Cuticular Structure in Salix Interior,
W86-05938 1912 5C

WINCHCOMBE
Rainfall Investigations at Cardington and Winchcombe 1954-67,
W86-05045 1911 2B

WIND
Atchafalaya River Delta; Report 9: Wind Climatology,
W86-00163 1901 2L

Cotton Plant Response to Wind and Water Stress,
W86-00503 1902 2I

Effects of Wind, Phytoplankton and Density Discontinuities upon Ammonia Distributions in Liverpool Bay,
W86-01120 1904 2L

Quantification of Wind Induced Resuspension in a Shallow Lake,
W86-01230 1904 2H

Wind-Power Pumping,
W86-02329 1906 8C

Simple Model of Estuarine Subtidal Fluctuations Forced by Local and Remote Wind Stress,
W86-04244 1910 2L

Variability of Subtidal Current Structure in a Fjord Estuary: Puget Sound, Washington,
W86-04245 1910 2L

Diurnal Mixed Layer,
W86-04510 1910 2H

WIND EROSION
Loss of Productive Soil in India,
W86-05578 1912 4D

WIND-FORCED MOTIONS
Wind-Forced Motions in Stratified Lakes and Their Effect on Mixed-Layer Shear,
W86-05279 1911 2H

WIND PRESSURE
Vertical Variations in Residual Current Response to Meteorological Forcing in the Mid-Chesapeake Bay,
W86-02073 1906 2L

WIND TIDES
Mixed-Layer Deepening in Lakes After Wind Setup,
W86-05967 1912 2H

WIND TRACKING
Note on Water-Vapor Wind Tracking Using VAS Data on McIDAS,
W86-06100 1912 2B

WIND VELOCITY
Mixed Layer Dynamics in a Lake Exposed to a Spatially Variable Wind Field,
W86-01412 1905 2H

Currents in San Pablo Bay,
W86-03449 1909 2L

WIND WAVES
Wind and Wind Wave Sediment Transport in Large Lakes and Reservoirs,
W86-02678 1907 2J

WINDMILLS
Wind-Power Pumping,
W86-02329 1906 8C

WINTER
Water Circulation in Small Arctic Lakes in Winter,
W86-01586 1905 2H

Winter Respiration of Lakes at Saqvaqjuac, N.W.T.,
W86-01587 1905 2H

Differences in Ionic Compositions and Behavior in Winter Rain and Snow,
W86-05466 1912 5B

WINTER WHEAT
Water Use in Winter Wheat as Influenced by Cephalosporium gramineum,
W86-04667 1910 2I

WIRELINE CORING
Wireline-Rotary Air Coring of the Bandelier Tuff, Los Alamos, New Mexico,
W86-01934 1906 7B

WISCONSIN
Snowmelt Energy Budgets in Southern and East-Central Wisconsin,
W86-00648 1903 2C

Primary/Secondary Sludge Recycled into Valuable Agricultural Fertilizer,

Generalized Potentiometric-Surface Map of the High Plains Aquifer in Wyoming, 1981,
W86-02795 1907 7C

Paleozoic Artesian Aquifers in the Ten Sleep Area of the Bighorn Basin, North-Central Wyoming,
W86-02847 1907 2F

Floods of May 1978 in Southeastern Montana and Northeastern Wyoming,
W86-02971 1908 2E

Ground-Water-Quality Data From the Southern Powder River Basin, Northeastern Wyoming,
W86-03014 1908 2K

Ground-Water Levels in Wyoming, 1974 Through 1983,
W86-03046 1908 2F

Streamflow and Suspended-Sediment Discharge from Two Small Watersheds in Southwestern Wyoming and Northeastern Utah, 1984,
W86-03066 1908 2E

Linear Features Determined from Landsat Imagery in Wyoming,
W86-03120 1908 7C

Relations of Suspended Sediment to Streamflow in the Green River, Wyoming,
W86-03174 1908 2J

Water Resources Data, Wyoming Water Year 1983,
W86-03210 1908 7C

Time of Travel and Dispersion of Solutes in a 36.4-Mile Reach of the North Platte River Downstream from Casper, Wyoming,
W86-03559 1909 2E

Plastic Lining on Riverton Unit, Wyoming,
W86-05240 1911 8G

XENOBIOTICS
Impact of Xenobiotic Chemicals on Microbial Ecosystems.
W86-00352 1902 5C

XEROPHYTES
Water Relations in Xerophytic Plants (Vodni Provoz Suchomilnych Rostlin),
W86-00592 1902 2I

XIANG JIANG RIVER
Evaluation on Pollution in the Xiang Jiang River by Using Zoobenthos,
W86-01323 1905 7B

XIHU LAKE
Approach to the Restoration of Aquatic Vegetation in the Xihu Lake of Hangzhou, with Reference to the Water Quality Problem (in Chinese),
W86-01324 1905 5G

XYLEM
Canopy Transpiration and Water Fluxes in the Xylem of the Trunk of Larix and Picea Trees - a Comparison of Xylem Flow, Porometer and Cuvette Measurements,
W86-01601 1905 2I

Estimation of Twig Xylem Water Potential in Young Douglas-fir Trees,
W86-01781 1905 2I

XYLENES
Returning Recently Covered Reservoirs to Service: Health and Aesthetic Considerations,
W86-04376 1910 5F

XYLOSE
Effect of Cadmium and Zinc on Intestinal Absorption of Xylose and Tryptophan in the Fresh Water Teleost Fish, Heteropneustes fossilis,
W86-00390 1902 5C

YA-ER LAKE
Studies on the Pollution Control of the Ya-Er Lake (in Chinese),
W86-01513 1905 5G

YABO RIVER
Limnological Investigation of the Rivers Uracoa, Yabo, Morichal Largo and Claro in the Eastern Plains of Venezuela,
W86-00928 1904 2H

YAMPA RIVER BASIN
Simulated Effects of Anticipated Coal Mining on Dissolved Solids in Selected Tributaries of the Yampa River, Northwestern Colorado,
W86-02982 1908 5B

YAMUNA RIVER
Distribution of Heavy Metals in Water and Sediments of Selected Sites of Yamuna River (India); Environmental Monitoring of the Yamuna River - Part I,
W86-00685 1903 5B

YAVAROS LAGOON SYSTEM
Organochlorine Hydrocarbon Residues in Sediments of Two Different Lagoons of Northwest Mexico,
W86-01899 1905 5B

YAZOO NAVIGATION STUDY
Potential Ground-Water Level Changes in the Mississippi River Alluvial Aquifer in Response to Proposed Navigation Improvements on the Yazoo River in Mississippi,
W86-03122 1908 2F

YELLOW CREEK BASIN
Water-Quality Characteristics of Streams in the Piceance Creek and Yellow Creek Drainage Basins, Northwestern Colorado,
W86-02767 1907 5B

YELLOW PERCH
Intervention Analysis of Power Plant Impact on Fish Populations,
W86-05561 1912 6G

YELLOW SEA
Further Evidence of Fine-Grained Sediment Dispersal in the Southeastern Yellow Sea,
W86-01399 1905 2J

YELLOWKNIFE
Lagoon Treatment of Municipal Sewage Effluent in a Subarctic Region of Canada (Yellowknife, N.W.T.),
W86-04485 1910 5D

YELLOWSTONE RIVER
Biohydrology of Mountain Fluvial Systems: the Yellowstone (Parts I and II),
W86-02452 1907 6G

Floods of May 1978 in Southeastern Montana and Northeastern Wyoming,
W86-02971 1908 2E

YEMEN
Problems of Groundwater Development in the Sana'a Basin, Yemen Arab Republic,
W86-05673 1912 4B

YONGDING RIVER
Analysis of Perennial Fluctuations of the Groundwater Table in Part of the Alluvio-Proluvial Fan of Yongding River, China,
W86-05667 1912 2F

YOSHINO
Characteristic Distribution of Chironomids in the Rivers Polluted with Heavy Metals,
W86-00954 1904 5C

YUCCA MOUNTAIN
Geohydrology of Volcanic Tuff Penetrated by Test Well UE-25bNo1, Yucca Mountain, Nye County, Nevada,
W86-01923 1906 2F

YUGOSLAVIA
Case of Polychlorinated Biphenyl Contamination of Water and Sediment in the Slovenian Karst Region (Yugoslavia),
W86-00392 1902 5B

Drainage Coefficients for Heavy Land,
W86-01431 1905 2G

YUKON TERRITORY
Trophic Status of 19 Subarctic Lakes in the Yukon Territory,
W86-05559 1912 5C

ZAIRE
Implementing the Taliha Mini Hydro Scheme in Zaire,
W86-047[illegible] 1911 8A

ZAMBIA
Effects of Human Activities on Zambia's Kafue Flats Ecosystems,
W86-00558 1902 6G

Stochastic Models Applied to Evaluating Hydrologic Changes,
W86-01293 1904 2A

ZARIA
Public Health Significance Of Industrial Pollution In Zaria, Nigeria,
W86-05301 1911 5C

ZERO DISCHARGE
Zero Discharge Water Treatment Design Has High Reliability,
W86-05863 1912 5D

Zero Discharge Steam Electric Power Generating Station,
W86-06058 1912 5D

ZIMBABWE
Limnology and Fisheries Management in Zimbabwe,
W86-00976 1904 2H

Studies of the Effects of Cold Fronts During the Rainy Season in Zimbabwe,
W86-04557 1910 2B

ZINC
Heavy Metal Accumulation (Cd, Cu, Pb and Zn) by Smelt (Osmerus mordax) From the North Shore of the St Lawrence Estuary (Accumulation de Quelques Metaux Lourds (Cd, Cu, Pb Et Zn) Chez L'Eperlan (Osmerus mordax) Preleve Sur La Rive Nord De L'Estuaire du Saint-Laurent),
W86-00059 1901 5C

Effect of Cadmium and Zinc on Intestinal Absorption of Xylose and Tryptophan in the Fresh Water Teleost Fish, Heteropneustes fossilis,
